In the discussion thus far, no reference has been made to trees, grass strips or other planting in the streets or of space set aside primarily for the adornment of the street or for insuring the benefits of light and air and an appearance of spaciousness. Such reference was omitted merely to simplify the subject and bring it within the compass of a brief paper. Of course, trees are desirable not only in residence streets, but also in most business streets, and in the average classification given above, the width of sidewalk in most cases would be ample for tree planting. The many arguments, the only sound argument in most instances, against the greater use of trees in our business streets is that there is no room for them. But as with traffic, so with trees. The same method should be applied. If we are to have trees we must determine the width requirements of a line of trees or two lines of trees or whatever else is needed. Except for temporary effects, it is not good policy to plant trees in a space that is needed for roadway or sidewalk; nor is it good policy to plant one or more lines of trees in a space that is inadequate for their successful growth. If, for instance, it is decided that 6 feet is the minimum space in which a line of trees of a given species can flourish, then we should standardize that width for that species of tree and provide it. Exceptions there would undoubtedly be to standards for trees as for roadways and sidewalks, but they would be recognized as exceptions and justified because of exceptional conditions. Standards can only be applied profitably to the normal, but in such matters as street widths five-sixths, perhaps nine-tenths, of all cases would be normal.

The traffic and use of many city streets increase from year to year, tending to shift some streets from one classification to another. How to provide a method of meeting this increase is a difficult matter. To begin with, we must recognize that a city that is alive has growth, and that growth makes changes from time to time necessary. Street widths cannot be made right "once for all." The utmost foresight must be exercised and then adjustments and widenings made to meet new conditions. Street development, like most other features of city planning, is an unending process. In the field of education, the unending character of the process was expressed by the boy who inquired at a public library for a book which, he said, was entitled "How to Get Educated and How to Stay So." So it is with city streets. The problem is how, by the exercise of skill and foresight, to design and arrange them to fulfill their functions and then from time to time how to redesign and re-arrange them to meet new requirements. In the case of streets where increased traffic is expected, the most practicable method of providing for it, perhaps, would be to reserve some space between the roadway and sidewalk, or in the centre of the roadway, or between the sidewalk and the buildings, utilizing this space temporarily as an area planted with trees and shrubs or merely with grass.

The evils that might follow from the adoption of an indiscriminating set of standards or from an unintelligent application of a discriminating set, have not been overlooked. They might be serious, but it is my opinion that under our present city organization such evils would ordinarily be less than those that almost inevitably follow from a lack of any established standards and from the policy of determining street widths piecemeal as each is presented for decision.

MUNICIPAL ABATTOIR IN AMSTERDAM.

One of the largest and most important municipal utilities of Amsterdam is the city abattoir. It is situated at the eastern end of the harbor, surrounded by canals and docks and connected by branch lines with the local railroad system.

The buildings comprise two slaughtering houses for cattle, a slaughter house for hogs and one for horses, three stables for cattle and three each for hogs and horses. There are other buildings also for the treatment of waste and hog's hair, for blood drying, tripe boiling, a forge, the sterilization of meat, a laboratory for the microscopic examination of trichinae and offices of administration. There is also a space for a cattle market, on which are a café and stables for visitors' horses and vehicles. Once a canning factory was operated, but became unprofitable and was abolished. The total surface occupied by the buildings and cattle market exceeds 100,000 square yards.

All the slaughtering of animals for food in Amsterdam must be done here. Some meat slaughtered elsewhere is brought to the city, but it must be inspected at the city abattoir and be marked with a stamp the same as meat slaughtered there. If any such meat is found unfit for consumption it is converted into fertilizer. Meat not perfect is sometimes made edible by sterilizing and salting.

The slaughtering is not done by the city but by owners of stock or dealers in meat, who pay for the use of the abattoir \$0.64 for each cow, ox or horse, \$0.34 for a hog or a fat calf and \$0.10 each for a young calf, a sheep or a goat. For examining meat not slaughtered there the charge is about a fifth of a cent a pound for beef and pork and a tenth of a cent for other meat. The charge for examining a live animal is \$0.56. The meat is taken from the abattoir to the shops in town in specially arranged conveyances.

GREATER GLASGOW.

It is only natural that Glasgow should make an effort to regain her lost position as the "second city" in the kingdom. That dignity has been temporarily taken from her by Birmingham, which has now a population of 867,000 persons, or about 60,000 more than Glasgow. A special committee on amalgamation has just decided to recommend that another application for a provisional order be made and the requisite Parliamentary notice be given. Under the scheme Glasgow will absorb the contiguous burghs of Partick, Govan, Rutherglen and Pollokshaws, which are to Glasgow what Aston is to Birmingham, Salford to Manchester and Gateshead to Newcastle. In addition, smaller communities, corresponding approximately to Moseley, King's Heath, King's Norton and Erdington, of the Birmingham area, will be scheduled for annexation. If the project is successful there will be added to the city an area of 22,000 acres, a population of 275,000, and a ratable value of \$8,424,000. This will give Glasgow a population of over a million and will restore the city its lost dignity. An almost similar scheme was proposed last year, but it failed to secure the necessary two-thirds majority of the council and was abandoned. The scheme will be vigorously fought by the smaller districts, whose residents freely enjoy the municipal benefits so liberally provided by Glasgow's enterprise, while the county authorities will be on the alert to protect their interests just as they did in the recent Birmingham movement.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, JULY 15, 1911.

No. 28

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 45, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, July 17, at 3 p.m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

The Board of Street Commissioners will give public hearings on the days specified on the following petitions:

TUESDAY, AUGUST 1, AT 11 O'CLOCK.

Keeping and Storage of Gasolene.—Alvan T. Fuller, 4-6-8 Columbus avenue; Dr. E. T. Sloane, Inc., 615 Albany street; H. E. Wright & Sons, Spice street, Charlestown; J. W. Maguire Company, 16 Harcourt street; J. W. Maguire Company, 743 Boylston street; Farnham & Nelson Company, 47 Union avenue, Jamaica Plain; Max Shoolman, 590 Cambridge street, Brighton; James A. Carr, 1183 Bennington street, East Boston; Lawrence & Stanley Garage Company, Wheelock avenue, Dorchester; the E. L. Patch Company, 99 North street; Timothy J. Sullivan, 628 Fourth street, South Boston; the Taylor-Palmer Garage Company, 171 Huntington avenue; John Carcano, Intervale street, Roxbury; Charles H. K. Skillen, 240 Adams street; Potter Drug & Chemical Company, 135 Columbus avenue; Park

Square Auto Station, 664 Commonwealth avenue; John F. Suckling, 8 Pinckney road, Dorchester; Commissioner of Public Works, Chestnut Hill avenue; Robert Treat Paine, 2d., 264 Beacon street.

Bay Window.—Alfred and Francesco Velona, at 152 Havre street.

Alterations and Additions to Track Locations.—West End Street Railway Company, Centre street, from Green street to south of Seaverns avenue; Dudley street, from Magazine street to Upham's Corner; Neponset avenue, from Adams street to Taylor street; Washington street, near Lotus place.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Advertises for proposals for refrigerating plant at Consumptives' Hospital, River street, Mattapan. Blank forms for proposals may be obtained at the office of the engineers, Hollis French & Allen Hubbard, Room 534, 85 Beach street, city proper. Bids to be filed at the office of the trustees, Room 926, Tremont Building.

Bids close Thursday, July 20, at 12 m.

HOSPITAL DEPARTMENT.

Advertises for proposals for supplying 455 tons, more or less (2,000 pounds to the ton), of first quality hard white ash anthracite coal. Blank forms for proposals may be obtained at the office of the superintendent of the hospital. Bids to be filed at same office.

Bids close Monday, July 24, at 12 m.

Advertises for proposals for supplying 5,000 tons, more or less (2,240 pounds to the ton), of best quality semi-bituminous coal. Blank forms for proposals may be obtained at the office of the superintendent of the hospital. Bids to be filed at same office.

Bids close Monday, July 24, at 12 m.

PARK DEPARTMENT.

Advertises for proposals for furnishing and delivering 1,000 or more seat-posts and 50 or more park seats. Designs for same may be obtained at the engineer's office, Franklin Park. Bids to be filed at the office of the commissioners, Olmsted Park, Jamaica Plain.

Bids close Monday, July 24, at 3 p. m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertises for proposals for repairing the draw pier at Dorchester Avenue Bridge. Plans may be seen of the office of the Division Engineer of the Bridge and Ferry Division, Room 60, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Tuesday, July 25, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for edgestones, gutters, crosswalks and artificial stone sidewalks in Standish street, Dorchester. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 17, at 12 m.

Advertises for proposals for constructing wood block pavement in East Fourth street, South Boston. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 17, at 12 m.

Advertises for proposals for constructing wood block pavement in Milk street, city proper. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 17, at 12 m.

Advertises for proposals for constructing a tar macadam roadway in Champney street, Brighton. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 24, at 12 m.

Advertises for proposals for constructing brick block pavement in Hinsdale street, city proper. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 24, at 12 m.

Advertises for proposals for constructing asphalt pavement in Tremont street, city proper. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 24, at 12 m.

Gives notice to contractors that certain streets in South Boston, Brighton, West Roxbury, Dorchester and Roxbury are to be laid out and constructed, and that all work to be done in said streets by persons or corporations must be done before Monday, August 14, 1911.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for sewerage works in Byron street, city proper. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Friday, July 21, at 12 m.

Advertises for proposals for excavating and slope paving along the Canterbury branch of Stony brook, West Roxbury. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Friday, July 21, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for doing carpentry and other work in the Hobart Street School, Brighton. Blank forms for proposals may be obtained at the office of the commission, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, July 17, at 12 m.

Advertises for proposals for cleaning and repairing furnaces in miscellaneous schools. Blank forms for proposals may be obtained at the office of the commission, 120 Boylston street. Bids to be filed at same office.

Bids close Thursday, July 20, at 12 m.

Advertises for proposals for furnishing and delivering horizontal return tubular boilers with castings and grates complete at various schoolhouses. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Thursday, July 20, at 12 m.

Advertises for proposals for paving yard, etc., of Benjamin Cushing School, Robinson street, Dorchester. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Friday, July 21, at 12 m.

Advertises for proposals for moving portable school buildings to new locations in various parts of the city. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Friday, July 21, at 12 m.

Advertises for proposals for repairing and retubing horizontal return tubular boilers for various schoolhouses. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, July 24, at 12 m.

Advertises for proposals for making repairs to the steam heating apparatus in various schools. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, July 31, at 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for furnishing 110,000, more or less, 5-inch special granite blocks, to be delivered on wharf at 636 Albany street. Blank forms for proposals may be obtained at the office of the superintendent, Room 826, Tremont Building. Bids to be filed at same office.

Bids close Tuesday, July 18, at 12 m.

Advertises for proposals for furnishing 250,000 pounds, more or less, No. 2 iron castings to the Water Service of the Public Works Department. Blank forms for proposals may be obtained at the office of the superintendent, Room 826, Tremont Building. Bids to be filed at same office.

Bids close Wednesday, July 19, at 12 m.

Advertises for proposals for furnishing the Bath Department with 1,200 women's and 600 girls' bathing suits, with detachable skirts. Samples showing quality and design must be submitted. Bids to be filed at the office of the Superintendent of Supplies, Room 826, Tremont Building.

Bids close Wednesday, July 19, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending July 13, 1911:

FIRE DEPARTMENT.

Promotions of Lieut. C. F. Farren, Chemical 2, and Lieut. H. M. Hebard, Engine 22, to be captains, with increase in pay from \$1,400 to \$1,600 per year; and of Ladderman H. J. Kelly, Ladder 1; Ladderman John F. Gillen, Ladder 3, and Ladderman H. J. Powers, Ladder 8, to be lieutenants, with increase in pay from \$1,200 to \$1,400 per year.

HEALTH DEPARTMENT.

Appointment of Margaret A. Kelley and Mary Callanan as nurses in the division of child hygiene, for instructive service in pre-natal and post-natal cases among the poor and needy women in Boston, at \$75 per month each, to take effect July 10, 1911.

Appointment of Miss Ellen A. Heffernan, as clerk and stenographer, to take care of the data in the division of child hygiene, at salary of \$50 per month, to take effect July 3, 1911.

HOSPITAL DEPARTMENT.

For the week ending Thursday, July 13, 1911:

To Fill Vacancies.

Permanent.—Archie Suprenant, orderly, \$25 per month; Otis C. Mackenzie, orderly, \$25 per month; Frank R. McIntyre, orderly, \$25 per month; Eugene T. Murphy, orderly, \$25 per month; John A. Terrio, orderly, \$25 per month; George G. Wright, orderly, \$25 per month; George T. Danielson, orderly, \$25 per month; Mary Donovan, ward maid, \$12 per month; Martha Speare, ward maid, \$12 per month; Elizabeth Burke, ward maid, \$12 per month; Elizabeth Mack, ward maid, \$12 per month; Rose Shanahan, ward maid, \$12 per month; Mary Harvey, ward maid, \$5 per week; William Ford, house porter, \$25 per month; Jerry P. Flynn, house porter, \$25 per month; Timothy J. Donovan, window porter, \$20 per month; Bridget McLaughlin, ward helper, \$14 per month; Flora Sylvester, ward helper, \$5 per week; Mary G. Nolan, assistant table girl, \$14 per month; Josephine O'Connell, scrubber, \$5 per week; Jennie Hillard, scrubber, \$5 per week; Letitia McBride, scrubber, re-employed, \$5 per week; Kate Griffin, laundress, \$16 per month; Grace Doberner, probationer, no pay.

Temporary.—Bessie Baldwin, graduate nurse, \$3 per day; Thomas Cunningham, graduate nurse, \$3 per day; S. George Elkins, graduate nurse, \$3 per day; Dr. James J. Hepburn, executive assistant, \$75 per month.

The following employees have had increase of wages:

Teresa Tobin, laundress, \$16 to \$18 per month; Roy N. Ross, center orderly, \$22.50 to \$25 per month; Ruth Hopkins, nurse, \$8.33 to \$12.50 per month; E. Maude Jones, nurse, \$8.33 to \$12.50 per month; Hattie Campbell, nurse, \$5 to \$8.33 per month; Elizabeth T. Healey, nurse, \$5 to \$8.33 per month; Adelaide M. Hudson, nurse, \$5 to \$8.33 per month.

INFIRMARY DEPARTMENT.

The Boston Infirmary Trustees transmit herewith the following changes in the pay roll of this department for the week ending July 6, 1911:

Long Island Hospital.—John J. Taggart, clerk (temporary), \$35 per month.

LIBRARY DEPARTMENT.

Grade Increases in Pay.—George W. Gallagher, apprentice, Bindery, \$9 to \$11 per week, June 2; Emil Hofman, Printing Department, \$21.60 to \$23 per week, July 7; Ethel M. Rigney, Issue Department, \$4 to \$4.75 per week, July 16; Mary H. Daly, Issue Department, \$4 to \$4.75 per week, July 30.

OVERTIME ALLOWED.

Bath Department.

For the week ending Thursday, July 6, 1911:

Spring Street.—John J. Kelly, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; John

A. Long, life guard and helper, $\frac{1}{2}$ day at \$2.75, \$1.38; Thomas Robinette, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Catharine Cravin, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72.

North Bennet Street Bath House.—John J. Auella, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Samuel Carter, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Frank H. Conley, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph E. Denton, life guard and helper, $\frac{1}{2}$ day at \$2.50, \$1.25; Maurice J. Dinneen, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; William P. Lynch, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; John F. McIntire, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Edward F. McGinnis, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Edward D. O'Dwyer, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael O'Meara, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick J. Sheerin, fireman, $\frac{1}{2}$ day at \$2.84, \$1.42; Daniel H. Slattery, life guard and helper, $\frac{1}{2}$ day at \$2.75, \$1.38; Edward F. Sullivan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph H. Weston, fireman, $\frac{1}{2}$ day at \$2.84, \$1.42.

Dover Street Bath House.—John J. Barry, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; William S. Blake, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; William J. Doherty, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph M. Horgan, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; James H. McGloan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Timothy J. Sullivan, custodian, $\frac{1}{2}$ day at \$3, \$1.50; Catharine Barry, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Louise G. Clarke, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret J. Killian, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret T. O'Brien, matron, $\frac{1}{2}$ day at \$2, \$1; Catharine Sullivan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Nellie A. Wigmore, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72.

Dover Street Laundry.—David Butler, laundry work, $\frac{1}{2}$ day at \$2.50, \$1.25; Charles F. McCarthy, laundry work, $\frac{1}{2}$ day at \$2.50, \$1.25; Michael F. O'Leary, laundry work, $\frac{1}{2}$ day at \$2.50, \$1.25; Catharine Murphy, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret Reardon, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Rose Robinson, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Nellie Salarie, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary E. Sullivan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary Wheeler, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary Sheehy, matron, $\frac{1}{2}$ day at \$1.50, \$0.75; Josephine Sullivan, matron, $\frac{1}{2}$ day at \$1.50, \$0.75; Rose A. Wogan, matron, $\frac{1}{2}$ day at \$1.50, \$0.75.

Cabot Street Bath House.—Charles Bleiler, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Averland L. Foster, fireman, $\frac{1}{2}$ day at \$2.84, \$1.42; Harry A. Grainger, instructor, $\frac{1}{2}$ day at \$2.50, \$1.25; James Kilduff, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Colin F. McDonald, fireman, $\frac{1}{2}$ day at \$2.25, \$1.13; Kieran McManus, fireman, $\frac{1}{2}$ day at \$2.84, \$1.42; Jerome S. Morris, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; John M. O'Brien, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick F. O'Melia, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; David M. Owens, custodian, $\frac{1}{2}$ day at \$3, \$1.50; Frederick L. Saunders, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas J. Shannon, janitor, $\frac{1}{2}$ day at \$2.50, \$1.25.

East Boston Gymnasium.—William T. Foley, cooper, $\frac{1}{2}$ day at \$2.25, \$1.13.

Collector.—James W. Hurley, collector, \$2.75, \$1.38.

Commercial Car.—Frank P. Guthrie, chauffeur, $\frac{1}{2}$ day at \$2.50, \$1.25; Thomas Murphy, chauffeur, $\frac{1}{2}$ day at \$2.50, \$1.25.

Teams.—James P. Saunders, driving team, $\frac{1}{2}$ day at \$2.50, \$1.25.

Wood Island Park Bath House.—John L. Ballem, life guard and helper, $\frac{1}{2}$ day at \$2.75, \$1.38; Annie Delehanty, matron,

$\frac{1}{2}$ day at \$10 per week, \$0.72; John W. Gray, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Alice Gillespie, matron, $\frac{1}{2}$ day at \$12 per week, \$0.86; Mary Herbert, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Nellie Jones, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Timothy F. Keneally, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Anthony J. Lydon, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; John J. Berry, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Daniel J. Ahern, janitor, $\frac{1}{2}$ day at \$2.75, \$1.38; John F. McQuillan, custodian, $\frac{1}{2}$ day at \$2.75, \$1.38.

Dewey Beach Bath House.—John L. Bowen, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Mary Caddigan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; John J. Cannon, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Elizabeth Hartley, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; William T. Hughes, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; William J. Kelly, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; John H. McManus, custodian, $\frac{1}{2}$ day at \$2.75, \$1.38; Ellen Murphy, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret E. O'Brien, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Charles F. O'Brien, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Marietta Philbrick, matron, $\frac{1}{2}$ day at \$12 per week, \$0.86; James A. Russell, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; James E. Towler, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Cornelius J. Driscoll, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13.

Tenean Beach Bath House.—Julia Burns, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Catharine Flynn, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Ellen Hurley, matron, $\frac{1}{2}$ day at \$12 per week, \$0.86; Mary McGovern, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary F. McLaughlin, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; William Metzger, assistant custodian, $\frac{1}{2}$ day at \$2.75, \$1.38; Dennis A. Sullivan, life guard and helper, $\frac{1}{2}$ day at \$2.75, \$1.38.

Orchard Park.—Alice C. Bearens, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Catharine Daly, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Joseph R. Dolay, life guard and helper, $\frac{1}{2}$ day at \$3, \$1.50; Frederick McCusker, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Mary Pfeffer, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Jeremiah J. Shea, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Catharine Ward, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72.

Border Street Floating Bath Houses.—Louis A. Farrell, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Ellen Lahey, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary Nangles, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; George P. Quinn, life guard and helper, $\frac{1}{2}$ day at \$2.50, \$1.25; Edward A. Swett, life guard and helper, $\frac{1}{2}$ day at \$2.50, \$1.25.

Jeffries Point Floating Bath House.—William T. Bibbey, foreman, $\frac{1}{2}$ day at \$2.75, \$1.38; Margaret English, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72.

Mystic Bridge Floating Bath House.—Hugh J. Conway, life guard and helper, $\frac{1}{2}$ day at \$2.50, \$1.25; Mary E. Kelly, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Bridget E. McDermott, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; George T. Maloney, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13.

Charlesbank Floating Bath Houses.—Timothy Harrington, assistant custodian, $\frac{1}{2}$ day at \$2.50, \$1.25; Nellie Hennessey, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary Hogan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Delia McGrath, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Joseph A. McIntire, custodian, $\frac{1}{2}$ day at \$2.50, \$1.25; John J. O'Malley, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Edward M. Sullivan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13.

Warren Bridge Floating Bath Houses.—James A. Carroll, custodian, $\frac{1}{2}$ day at \$2.50, \$1.25; Edward B. Hynes, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; John J. Scannell, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Alice C. Mahoney, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Elizabeth Stevens, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72.

Dover Street Bridge Floating Baths.—Thomas M. Curley, janitor, $\frac{1}{2}$ day at \$2.50, \$1.25; John R. Grimley, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Georgiana Griffin, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Hannah McDonald, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; William G. O'Hare, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13.

East Boston Wharf.—Frank N. Kive-naar, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Edward O'Keefe, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13.

General Repairs.—Henry H. Griffin, carpenter, $\frac{1}{2}$ day at \$2.75, \$1.38; James H. Leonard, locksmith, $\frac{1}{2}$ day at \$2.50, \$1.25; William H. Monahan, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13.

L Street Bath House.—Frederick E. Bowker, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; John T. Burke, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick F. Burke, Jr., life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; William A. Coughlin, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; James J. Connelly, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Charles Cox, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; George T. Cuddihy, life guard and helper, $\frac{1}{2}$ day at \$2.75, \$1.38; John J. Donovan, janitor, $\frac{1}{2}$ day at \$2.50, \$1.25; Daniel F. Driscoll, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Dennis V. Driscoll, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Frederick E. Dunlap, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Eugene P. Durgin, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; William H. Dunn, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph H. Ellis, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Arthur J. Foteh, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; James A. Foley, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick Foley, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph F. Goode, life guard and helper, $\frac{1}{2}$ day at \$2.50, \$1.38; James Gibbons, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas F. Harrington, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Francis J. Horgan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael F. Kelly, custodian, $\frac{1}{2}$ day at \$3, \$1.50; Leo C. Kneble, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Ernest McLaughlin, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; William J. O'Callaghan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; John J. O'Brien, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Charles E. Richards, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Theodore L. Stowe, assistant custodian, $\frac{1}{2}$ day at \$2.25, \$1.13; Dennis J. Sullivan, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph Sullivan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph D. Sullivan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; William C. Rowe, life guard and helper, $\frac{1}{2}$ day at \$2.75, \$1.38; William C. J. Sandburg, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Annie Donnegan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Alice J. Emmett, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Ellen D. Fenton, matron, $\frac{1}{2}$ day at \$12 per week, \$0.86; Margaret G. Hayes, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret Keyes, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary E. A. Judge, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret Logan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary E. McCarthy, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Sybil McCarthy, matron, $\frac{1}{2}$ day at \$10

per week, \$0.72; Annie McGonagle, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Annie F. McGlinchey, matron, $\frac{1}{2}$ day at \$12 per week, \$0.86; Nellie McGee, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary E. Martin, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Ellen L. Murphy, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Bridget E. Murray, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Elizabeth Sheehan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary F. Shelhamer, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Helen Sullivan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Elizabeth K. Fitzgerald, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary A. O'Donnell, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72.

North End Park Bath house and Laundry.—John J. Burke, life guard and helper, $\frac{1}{2}$ day at \$2.50, \$1.25; Charles Butler, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas F. Coffey, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Lawrence J. Connelly, life guard and helper, $\frac{1}{2}$ day at \$2.50, \$1.25; Martin J. Clougherty, life guard and helper, $\frac{1}{2}$ day at \$2.75, \$1.38; Frank D. Coyne, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; George C. Freeman, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; James B. Gibbons, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; William H. Havey, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Timothy W. Kelly, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; John W. Lawton, custodian, $\frac{1}{2}$ day at \$3, \$1.50; James J. McSorley, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; James F. Mealy, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Timothy W. O'Connor, Jr., life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Dennis J. Swanson, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Angelo Serino, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick J. O'Donnell, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Benjamin R. Austin, laundry work, $\frac{1}{2}$ day at \$2.50, \$1.25; Daniel F. McGunigle, fireman, $\frac{1}{2}$ day at \$2.50, \$1.25; Eugene F. O'Donnell, laundry work, $\frac{1}{2}$ day at \$2.50, \$1.25; Catharine Butler, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Celia A. Canney, matron, $\frac{1}{2}$ day at \$10 per week, \$0.88; Ellen Degman, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Elizabeth Fermoye, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Christina Fitzgerald, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Annie E. S. Forte, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary A. Garrett, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Sadie Gibbons, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret Harrington, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Annie Keyes, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Catharine McColgan, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary McDermott, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Hannah Sweeney, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Rose Toland, matron, $\frac{1}{2}$ day at \$10 per week, \$0.72; Annie Barron, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Sarah Donovan, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Jennie Govornie, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret Hurley, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary Hooley, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Margaret Lydon, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary Motto, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Louise Niacco, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Minnie O'Hare, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Catharine Sullivan, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Annie Wells, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Nellie Morley, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72.

McKenzie Beach Bath House.—Mary Faulkner, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Susan Hodgdon, laundry work, $\frac{1}{2}$ day at \$12 per week, \$0.86; Charles F. McColgan, laundry work, $\frac{1}{2}$ day at \$2.25, \$1.25; Richard F. Morrissey, laundry work, $\frac{1}{2}$ day at \$2.25, \$1.25; Nellie Mullin, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Mary Moynihan, laundry work, $\frac{1}{2}$ day at \$10 per week, \$0.72; Frank J. Pendergast, laundry work, $\frac{1}{2}$ day at \$2.75, \$1.38.

Commercial Cars.—Frank P. Guthrie, chauffeur, 1 $\frac{1}{2}$ nights at \$2.50, \$3.75; Thomas Murphy, chauffeur, 1 $\frac{1}{2}$ nights at \$2.50, \$3.75.

Wood Island Park.—John W. Gray, life guard and helper, 1 night at \$2.25, \$2.25; Anthony J. Lydon, life guard and helper, 1 night at \$2.25, \$2.25; John F. McQuillan, custodian, 1 night at \$2.75, \$2.75.

Tenean Beach.—Dennis A. Sullivan, life guard and helper, 1 night at \$2.75, \$2.75.

Orchard Park.—Joseph R. Dolan, life guard and helper, 1 night at \$3, \$3.

North End Park Laundry.—Martin J. Clougherty, life guard and helper, 1 $\frac{1}{2}$ nights at \$2.75, \$4.13; John W. Lawton, custodian, 1 $\frac{1}{2}$ nights at \$3, \$4.50; Benjamin R. Austin, laundry work, 1 $\frac{1}{2}$ nights at \$2.50, \$3.75; Daniel F. McGunigle, laundry work, 1 $\frac{1}{2}$ nights at \$2.50, \$3.75; Eugene F. O'Donnell, laundry work, 1 $\frac{1}{2}$ nights at \$2.50, \$3.75; Sarah Donovan, laundry work, 1 night at \$10 per week, \$1.43; Jennie Govornie, laundry work, 1 night at \$10 per week, \$1.43; Margaret Hurley, laundry work, 1 night at \$10 per week, \$1.43; Mary Hooley, laundry work, 1 night at \$10 per week, \$1.43; Mary Motto, laundry work, 1 night at \$10 per week, \$1.43; Louise Niacco, laundry work, 1 night at \$10 per week, \$1.43; Minnie O'Hare, laundry work, 1 night at \$10 per week, \$1.43; Catharine Sullivan, laundry work, 1 night at \$10 per week, \$1.43; Nellie Morley, laundry work, 2 nights at \$10 per week, \$3.44.

Election Department.

For the week ending Thursday, July 6, 1911:

Allan H. Farnham, assistant registrar, 11 hours at \$0.75 per hour, \$8.25; Paul D. Kane, assistant registrar, 11 hours at \$0.75 per hour, \$8.25.

Hospital Department.

For the week ending Thursday, July 6, 1911:

Main Department.—William E. Thompson, laundry engineer, 4 hours at \$0.37 $\frac{1}{2}$ per hour, \$1.50; Elizabeth Gately, laundry, 2 hours at \$0.07 $\frac{1}{2}$ per hour, \$0.15; Mary McLaughlin, laundry, 2 hours at \$0.10 $\frac{1}{2}$ per hour, \$0.21.

Park Department.

For the week ending Thursday, July 6, 1911:

Charles E. Houghton, transitman, $\frac{1}{2}$ day at \$3.50, \$2.50; Arthur E. Ogden,

clerk, $\frac{1}{2}$ week at \$23.01 per week, \$9.04; George W. H. Timson, timekeeper, 1 day at \$2.50, \$2.50; Joseph P. Howe, greenkeeper, 1 day at \$2.50, \$2.50; John F. Murphy, storekeeper, 2 days at \$3, \$6; Bernard J. Conley, machinist, 2 $\frac{1}{2}$ days at \$3, \$8.25; Robert Hindle, machinist, $\frac{3}{4}$ day at \$3, \$1.88; John Glennon, machinist's helper, $\frac{3}{4}$ day at \$2.75, \$1.03; Edward J. Moriarty, steam roller engineer, 1 $\frac{1}{2}$ days at \$3, \$5.25; William H. Smith, steam roller engineer, $\frac{7}{8}$ day at \$3, \$2.63; Martin Feeley, pipe fitter, 1 $\frac{1}{2}$ days at \$3, \$4.13; William E. Fischer, working foreman, 2 days at \$3, \$6; Charles Walters, working foreman, 1 day at \$3, \$3; Robert Coulsey, working foreman, 1 day at \$2.75, \$2.75; Edward T. Bean, working foreman, 2 days at \$2.50, \$5; John Travers, gardener, 2 $\frac{1}{2}$ days at \$2.50, \$5.31; James H. Kelley, janitor, 1 day at \$2.50, \$2.50; James Sweeney, shepherd, 1 day at \$2.50, \$2.50; Thomas Carroll, playkeeper, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; Jeremiah J. Downey, playkeeper, 3 $\frac{1}{2}$ days at \$2.50, \$7.81; Thomas Dillon, chauffeur, 1 day at \$3, \$3; John J. Regan, chauffeur, 1 day at \$2.50, \$2.50; Mrs. Jane Maguire, matron, $\frac{1}{2}$ week at \$10 per week, \$1.43; William J. Donely, chauffeur, $\frac{1}{2}$ week at \$15.37 per week, \$2.20; Daniel Buckley, laborer, 3 $\frac{1}{2}$ days at \$2.25, \$8.44; Moses A. Coulter, laborer, 3 $\frac{1}{2}$ days at \$2.25, \$7.31; William E. Connell, laborer, 2 days at \$2.25, \$4.50; Patrick Connolly, 2d, laborer, 3 $\frac{1}{2}$ days at \$2.25, \$7.03; Matthias Costello, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.38; John T. Daley, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.38; Patrick J. Doherty, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.38; Patrick Flynn, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$5.63; James Galvin, laborer, 3 $\frac{1}{2}$ days at \$2.25, \$8.44; Thomas Ganley, laborer, 1 day at \$2.25, \$2.25; Michael Gorman, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; Michael J. Grady, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; Thomas Heavey, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$2.53; Michael Hickey, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; Charles J. Kelly, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$6.19; James M. Kennedy, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$6.19; Charles Lennon, laborer, 2 days at \$2.25, \$4.50; Martin Lyons, pruner, 1 $\frac{1}{2}$ days at \$2.50, \$4.69; John F. Maguire, laborer, 3 $\frac{1}{2}$ days at \$2.25, \$7.59; Samuel J. Moran, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$2.81; Michael McCluskey, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$5.34; Thomas McDowell, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; John McEleney, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; Patrick Malia, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$4.22; Peter J. Mullen, laborer, 1 day at \$2.25, \$2.25; Patrick F. McNamara, laborer, 3 $\frac{1}{2}$ days at \$2.25, \$7.59; James Powers, laborer, 1 day at \$2.25, \$2.25; John Parlon, laborer, 1 day at \$2.25, \$2.25; John J. Tatten, Jr., fireman, $\frac{3}{4}$ day at \$2.50, \$1.56; Francesco Belmonte, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; James Horgan, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; Thomas H. Kelley, engineer, $\frac{1}{8}$ day at \$2.50, \$0.31; William McManus, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.38; Michael O'Toole, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; Thomas Ridge, laborer, $\frac{3}{4}$ day at \$2.25, \$1.43; John J. Flanagan, engineer, $\frac{1}{4}$ day at \$3, \$2.25; John Curley, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; Edward J. Barrett, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$5.63; William B. Butler, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Michael Connors, 2d, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$4.22; John J. Lannan, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.66; Christian Swain, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Stephen McFarland, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.78; Edward J. Doherty, steam roller engineer, $\frac{7}{8}$ day at \$3, \$2.63; Richard Walsh, steam roller engineer, $\frac{5}{8}$ day at \$3, \$1.88; Charles A. Hogan, clerk, 2 $\frac{1}{2}$ days at \$2.50, \$6.88; Patrick McKenzie,

gardener, 1 day at \$3.25, \$3.25; Peter McManus, working foreman, $\frac{1}{2}$ day at \$3, \$0.38; F. A. Plyer, barn boss, $\frac{3}{8}$ week at \$19 per week, \$1.02; John J. Connolly, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; Thomas F. Dolan, 1st, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; Patrick Glennon, 2d, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; Peter Houghton, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; John Hurley, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; Michael Hartigan, laborer, $\frac{1}{2}$ days at \$2.25, \$3.94; Lawrence F. Kilroy, laborer, 1 day at \$2.25, \$2.25; Andrew Linahan, laborer, $\frac{2}{3}$ days at \$2.25, \$5.06; James Morrissey, laborer, 2 days at \$2.25, \$4.50; Michael H. Murray, laborer, 2 days at \$2.25, \$4.50; Thomas Murray, laborer, $\frac{1}{2}$ days at \$2.25, \$3.66; Patrick O'Connell, laborer, 1 day at \$2.25, \$2.25; Patrick O'Rourke, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; Peter Powers, laborer, $\frac{2}{3}$ days at \$2.25, \$4.78; James Scannell, laborer, $\frac{1}{2}$ days at \$2.25, \$3.66; Cornelius J. Shields, laborer, 2 days at \$2.25, \$4.50; William J. Shruhan, laborer, $\frac{2}{3}$ days at \$2.25, \$4.78; John Toland, laborer, $\frac{2}{3}$ days at \$2.25, \$4.78; John Welsh, laborer, 2 days at \$2.25, \$4.50; Robert Doherty, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John J. Driscoll, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Julius Weidner, subforeman, $\frac{1}{2}$ days at \$3.25, \$4.88; Thomas J. Delaney, watchman, 1 day at \$2.50, \$2.50; Hugh Fitzgerald, teamster, $\frac{3}{8}$ week at \$15.37 per week, \$0.55; John J. Abbott, laborer, $\frac{2}{3}$ days at \$2.25, \$5.91; James Broderick, laborer, $\frac{3}{4}$ days at \$2.25, \$8.16; Andrew Buttomer, laborer, $\frac{2}{3}$ days at \$2.25, \$4.78; Patrick Cain, laborer, $\frac{3}{4}$ days at \$2.25, \$7.88; Patrick Connelly, 1st, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; Michael Downes, laborer, 3 days at \$2.25, \$6.75; Maurice Downey, laborer, $\frac{2}{3}$ days at \$2.25, \$6.19; Michael J. Dunlap, laborer, $\frac{2}{3}$ days at \$2.25, \$4.78; Michael Farren, laborer, $\frac{2}{3}$ days at \$2.25, \$4.78; Thomas Garvin, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; Terrence N. Griffin, playkeeper, $\frac{2}{3}$ days at \$2.75, \$7.56; John Higgins, 2d, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; James P. Hennessey, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; John Hennessey, laborer, $\frac{2}{3}$ days at \$2.25, \$5.91; John P. Heffernan, laborer, 1 day at \$2.25, \$2.25; Matthew Horgan, laborer, $\frac{2}{3}$ days at \$2.25, \$4.78; James F. Hurley, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; Patrick Keefe, laborer, $\frac{1}{2}$ days at \$2.25, \$2.81; Jeremiah Mackey, laborer, $\frac{2}{3}$ days at \$2.25, \$4.78; James J. McManus, laborer, $\frac{3}{4}$ days at \$2.25, \$8.44; Thomas F. Stokes, laborer, $\frac{3}{4}$ days at \$2.25, \$8.16; Festis Wallace, laborer, $\frac{2}{3}$ days at \$2.25, \$5.91; Thomas Conley, laborer, 1 day at \$2.25, \$2.25; James J. Davis, laborer, 2 days at \$2.25, \$4.50; Martin Duran, laborer, 1 day at \$2.25, \$2.25; Michael Murphy, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; William E. Brett, laborer, 2 days at \$2.25, \$4.50; Marke Burke, laborer, 1 day at \$2.25, \$2.25; John J. Reardon, laborer, 2 days at \$2.25, \$4.50; Joseph Klaus, laborer, $\frac{3}{4}$ day at \$3, \$1.13; Matthew C. Regan, laborer, $\frac{3}{4}$ days at \$2.25, \$8.44; Michael O'Neill, park keeper, 2 days at \$2.50, \$5; Eleanor Quinlan, assistant instructor, $\frac{7}{8}$ week at \$11.50 per week, \$3.29; William Dunbar, laborer, 2 days at \$2.25, \$4.50; Hugh Greeran, laborer, 2 days at \$2.25, \$4.50; Michael Lally, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; John O'Brien, 1st, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; Hugh J. Bagley, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; Raffaele DeFlorio, laborer, 2 days at \$2.25, \$4.50; John Costello, laborer, $\frac{2}{3}$ days at \$2.25, \$5.34; John T. Conboy, working foreman, 1 day at \$3, \$3; Carmine Cataldo, laborer, 1 day at \$2.25, \$2.25; James M. Kavaney, laborer, $\frac{1}{2}$ days at \$2.25, \$2.53; John Matchett,

laborer, $\frac{3}{4}$ days at \$2.25, \$8.16; Bartholomew Sullivan, 1st, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; Malachi Kenney, ironworker, $\frac{1}{2}$ days at \$3, \$4.13; Hazel E. Brackett, assistant instructor, $\frac{1}{2}$ week at \$11.50 per week, \$1.64; John Younnie, watchman, 1 day at \$2.50, \$2.50; Alexander Boyd, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; George T. Cuning, laborer and assistant caretaker of building, 2 days at \$2.25, \$4.50; William J. Memery, laborer, 1 day at \$2.25, \$2.25; Patrick J. Owens, laborer, 2 days at \$2.25, \$4.50; Nicholas Roache, laborer, 1 day at \$2.25, \$2.25; Dennis Toland, laborer, 1 day at \$2.25, \$2.25; John P. Kelly, subforeman, 2 days at \$3.25, \$6.50; John E. Daley, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; Owen Lynch, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael A. Martin, laborer, 2 days at \$2.25, \$4.50; Michael O'Brien, parkkeeper, 1 day at \$2.75, \$2.75; Thomas Curley, laborer, 2 days at \$2.25, \$4.50; William Fanning, laborer, 2 days at \$2.25, \$4.50; James Farrell, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; Martin Finnegan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas Mulcahy, laborer, $\frac{1}{2}$ days at \$2.25, \$3.38; Alexander J. Murray, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Martin Corcoran, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; Michael Connelly, laborer, $\frac{2}{3}$ days at \$2.25, \$5.63; William Fallon, laborer, 2 days at \$2.25, \$4.50; Martin P. Barrett, laborer, $\frac{3}{4}$ days at \$2.25, \$8.44; Patrick J. Shields, park keeper, $\frac{2}{3}$ days at \$2.50, \$6.25.

Public Grounds Department.

For the week ending Thursday, July 6, 1911:

Fred Bonang, chauffeur, 1 day, \$2.75; Charles H. Cooke, gardener, 1 day, \$3; Michael Dooley, sodder, 1 day, \$2.25; Joseph Germaine, nurseryman, 1 day, \$3; William Hartnett, moth destroyer, 1 day, \$3; Frank Hill, tree expert, 2 days, \$6; Charles Hayes, sodder, 2 days, \$5; James J. Hines, sodder, 1 day, \$2.25; Daniel Hourihan, watchman, 1 day, \$3; John A. Johnson, sodder, 2 days, \$6; Joseph P. Kilday, tree climber, 1 day, \$2.50; Peter Minton, gardener, 2 days, \$6; Aaron G. Parker, tree climber, 2 days, \$5; Michael Reardon, gardener, 1 day, \$2.75; Patrick Taylor, watchman, 1 day, \$2.50; Richard Tyler, gardener, 2 days, \$6; Thomas F. Walsh, messenger, 1 day, \$3; Richard Welch, stableman, 1 day, \$2.50.

Public Works Department (Bridge Service).

For the week ending Thursday, July 6, 1911:

Thomas F. Cloney, drawtender, 1 day at \$1,200 per year, \$3.29; John Rick, first assistant drawtender, 1 day at \$1,000 per year, \$2.74; six assistant drawtenders, 7 days' time at \$900 per year, \$17.23; George E. Hanlon, carpenter, 1 day at \$3.50, \$3.50; Augustine S. Quinn, subforeman, 1 day at \$3.50, \$3.50; Joseph A. Coyle, carpenter, 1 day at \$3.50, \$3.50; James T. Mahan, carpenter's helper, 1 day at \$2.50, \$2.50; Richard E. Dooley, carpenter's helper, 1 day at \$2.50, \$2.50.

Public Works Department (Ferry Service).

For the week ending Thursday, July 6, 1911:

Morgan J. Sullivan, oiler, 1 day at \$2.83, \$2.83; Frank M. Donohue, boat watchman, $\frac{1}{2}$ day at \$2.83, \$1.06; John McQuade, temporary engineer, 1 day at \$4.22, \$4.22; William F. O'Neil, fireman, 1 day at \$2.83, \$2.83; John E. Brown, gateman, 1 day at \$2.63, \$2.63; James D. Coughlin, gateman, 1 day at \$2.63, \$2.63; John F. Labohn, gateman, 1 day at \$2.63, \$2.63; Henry H. McCarthy, gateman, 1 day at \$2.63, \$2.63; Thomas F. Lynch, temporary tollman, 2 days at \$2.96, \$5.92;

Wilber F. Wilder, gateman, $\frac{1}{2}$ day at \$2.63, \$1.31; Patrick J. Kelly, temporary quartermaster, 1 day at \$2.46, \$2.46; Florence W. Sullivan, deckhand, $\frac{1}{2}$ day at \$2.30, \$1.15; Thomas J. Downs, deckhand, 1 day at \$2.30, \$2.30; John J. Reardon, temporary engineer, 1 day at \$4.22, \$4.22; James E. Doyle, boss joiner, 2 days at \$4.50, \$9; J. Herbert Sullivan, janitor, 2 days at \$2.25, \$4.50; William H. Wise, janitor, 2 days at \$2.25, \$4.50; Horatio L. Nelson, tankman, 1 day at \$2.30, \$2.30; Henry C. Barnard, laborer, 1 day at \$2.25, \$2.25; Henry C. Barnard, temporary quartermaster, 1 day at \$2.46, \$2.46; John F. Hickey, temporary deckhand, 1 day at \$2.30, \$2.30.

Public Works Department (Highway Division).

For the week ending Thursday, July 6, 1911:

Robert J. Mason, messenger, 1 day at \$2.50, \$2.50; Edward M. Richardson, inspector property, 1 day at \$4, \$4; Thomas Ring, driver, 1 day at \$2.50, \$2.50; James D. Gorman, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; William J. Lynch, inspector, $\frac{1}{2}$ day at \$3.50, \$0.88; John J. Hayes, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; Charles E. Sheehy, inspector, $\frac{1}{4}$ days at \$3.50, \$4.38; James Whooley, inspector, $\frac{1}{4}$ day at \$3, \$2.25; William J. Donovan, inspector, 1 day at \$3, \$3; Lorenzo Mitchell, engineer, $\frac{1}{2}$ day at \$3.50, \$1.75.

Public Works Department (Sanitary Service).

For the week ending Thursday, July 6, 1911:

J. F. Coffey, stableman, $\frac{1}{2}$ day at \$2.50, \$1.25; F. A. Sullivan, inspector, 1 day at \$3, \$3; 7 laborers, \$18. James Cassell, driver, 1 day at \$2.50, \$2.50; Peter King, driver, 1 day at \$2.50, \$2.50; P. J. McNulty, inspector, $\frac{1}{2}$ day at \$3, \$1.50.

Public Works Department (Sewer Service).

For the week ending Thursday, July 6, 1911:

John H. Giblin, rodman, 6 days at \$2, \$12; R. F. Ritchie, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; Luke Lyons, bracer, 2 days at \$2.50, \$5; 16 laborers, 17 days at \$2.25, \$38.25; 4 laborers, 4 days at \$2.25, \$9; P. J. Hartigan, teamster, 2 days at \$2.50, \$5; 1 laborer, 1 day at \$2.25, \$2.25; Timothy Reardon, sewer cleaner, 1 day at \$2.75, \$2.75; 2 laborers, 2 days at \$2.25, \$4.50; Frank Johnson, yardman, 1 day at \$2.50, \$2.50; Dennis Burke, bracer, 1 day at \$2.50, \$2.50; Jere Doyle, bracer, 1 day at \$2.50, \$2.50; John Driscoll, bracer, 1 day at \$2.50, \$2.50; 2 laborers, $\frac{1}{2}$ days at \$2.25, \$3.38; 7 laborers, 7 days at \$2.25, \$15.75; Daniel D. Quill, bracer, 1 day at \$2.50, \$2.50; 1 laborer, 1 day at \$2.25, \$2.25; 9 laborers, 9 days at \$2.25, \$20.25; Daniel Brady, laborer, 1 day at \$2.50, \$2.50; Michael Foley, bracer, 1 day at \$2.50, \$2.50; 1 laborer, 1 day at \$2.25, \$2.25; 3 laborers, 3 days at \$2.25, \$6.75; 10 laborers, 12 days at \$2.25, \$27; Richard F. Moore, watchman, 1 day at \$2.50, \$2.50; John Cain, laborer, 2 days at \$2.50, \$5.00; J. E. Brown, engineer, 8 days at \$0.50, \$4; William L. Johnson, engineer, 1 day at \$3, \$3; J. H. McGee, engineer, 8 days at \$0.50, \$4; 3 laborers, 3 days at \$2.25, \$6.75; 10 laborers, 10 days at \$2.25, \$22.50; James King, bracer, 1 day at \$2.50, \$2.50; Hugh Clark, bracer, 1 day at \$2.50, \$2.50; John Flaherty, yardman, 1 day at \$2.50, \$2.50; Thomas Flaherty, bracer, 1 day at \$2.50, \$2.50; 1 laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; 3 laborers, 3 days at \$2.25, \$6.75; 2 laborers, 2 days at

\$2.25, \$4.50; Peter Ducie, watchman, 1 day at \$2.50, \$2.50; H. J. Moynihan, inspector, 2 days at \$5, \$10; 4 laborers, 8 days at \$2.25, \$18; 2 laborers, 2 days at \$2.25, \$4.50.

Public Works Department (Water Service).

For the week ending Thursday, July 6, 1911:

Mathew Brennan, inspector, 1 $\frac{1}{8}$ days at \$3, \$3.19; Dennie Delaney, laborer, $\frac{7}{8}$ day at \$2.25, \$0.98; Edward Doherty, laborer, $\frac{1}{2}$ day at \$2.25, \$1.05; John Connolly, 1st, laborer, $\frac{3}{4}$ day at \$2.25, \$1.05; Daniel H. Curley, repairer, $\frac{3}{4}$ day at \$2.50, \$1.80; William Fallon, laborer, $\frac{3}{4}$ day at \$2.25, \$1.62; John Fay, 1st, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Michael McLaughlin, repairer, $\frac{1}{2}$ day at \$2.50, \$1.17; Michael McCarthy, 1st, inspector, $\frac{1}{2}$ day at \$3, \$1.41; Thomas Meade, laborer, $\frac{3}{4}$ day at \$2.25, \$1.62; Edward Pyne, teamster, 1 day at \$2.25, \$2.25; Michael C. Sullivan, repairer, $\frac{1}{4}$ day at \$2.50, \$0.31; Hugh Green, machinist, $\frac{3}{4}$ day at \$3, \$2.16; John McNulty, laborer, 2 $\frac{7}{8}$ days at \$2.25, \$5.48; John Concannon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.20; Daniel O'Brien, repairer, $\frac{7}{8}$ day at \$2.50, \$2.19; John Welch, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; Alexander Thompson, plumber, $\frac{7}{8}$ day at \$3, \$2.63; James McKenney, teamster, $\frac{1}{4}$ day at \$2.25, \$0.56; John Cummings, repairer, $\frac{1}{2}$ days at \$2.75, \$4.81; Hugh Cauley, repairer, 1 day at \$2.50, \$2.50; Martin H. Connolly, repairer, 1 day at \$2.50, \$2.50.

Meter Branch.—T. Sullivan, plumber, $\frac{1}{4}$ day at \$3.50, \$0.44; O. Gilloon, plumber, $\frac{3}{8}$ day at \$3.50, \$0.66.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Acting Mayor has granted to the Commissioner of Public Works authority to build with the department force a sanitary sewer in Burnett street, West Roxbury, without advertising for competitive bids, the estimated cost for labor and materials being \$2,373, the commissioner certifying to the Acting Mayor that the work can be as advantageously done by day labor methods as any work now necessary.

The Acting Mayor has granted to the Commissioner of Public Works authority to repave with the department force, using second-hand blocks, the south side of Dover street, from Albany street to the bridge draw, without advertising for competitive bids, the estimated cost for labor and materials being \$1,040.

The Acting Mayor has granted to the Commissioner of Public Works authority to resurface with macadam, employing the department force, Brookline avenue, from Longwood avenue to Riverway, the estimated cost for labor and materials being \$3,200, the commissioner having certified to the Acting Mayor that this is necessary maintenance work and can be as advantageously done by the department force as any now in progress.

PETITIONS GRANTED.

The following petitions, granted by the Board of Street Commissioners, have been approved by the Acting Mayor:

Signs.—Eli Goldstein, 202 Bremen street; George H. Hawley, 80 Walnut avenue; Charles Leibel, 49 West Cedar street; L. G. Ciani, 391 Hanover street; Antonio Sileno, 3 Garden Court street; Charles Fingold, 30 Central street; A. Rubin, 1049 Washington street; Patrick J. Caffrey, 26 B street; Harry S. Bulkhead Opening.—George M. Cushing, 305-307 Washington street.

Areas and Coal Holes.—Bayard Thayer, 83-84 Beacon street.

CIRCULAR FROM THE ACTING MAYOR.

BOSTON, July 13, 1911.

To the Heads of Departments:

You are hereby directed to comply with the provisions of the following order passed at a meeting of the City Council held on July 7, 1911:

"Ordered, That the officer or board in charge of any department be hereby authorized to grant a vacation, without loss of pay, to all employees of the city in said department who are veterans of the Spanish War, such vacation to be co-extensive with the annual encampment of 1911 of the Spanish War Veterans."

Respectfully,

WALTER L. COLLINS,
Acting Mayor.

CLAIMS.

The Acting Mayor has approved the following awards made by the Committee on Claims of the City Council, after approval by the Corporation Counsel and the heads of departments involved:

David E. Crawford, \$40, for damage to property 930 Tremont street, caused by backing up of sewer, October 31, 1910.

Michael Nolan, \$157.50, for personal injuries received while performing his duty as an employee of the Sewer Division at Moon Island Station.

David W. Simpson, \$75, for damage to schooner "Laura C. Hall," caused by passing through the Broadway Bridge on January 13, 1910.

Paul Barron Watson, et al., trustees of Arioeh Wentworth, \$929.23, being balance of amount due them by virtue of a tax paid on November 21, 1910, said sum having been inadvertently omitted from the amount of the judgment awarded said trustees.

RETIREMENT OF VETERANS.

PUBLIC WORKS DEPARTMENT.

On July 7 the Acting Mayor consented to the retirement of the following named veterans on half pay, under chapter 388, Acts of 1911:

James Fitzgibbons, laborer, at \$352.12 per year; Thomas W. LeRay, Ferry Service, quartermaster, at \$450 per year; John Conroy, Paving Service, teamster, at \$352.12.

MUNICIPAL BAND CONCERTS.

The Municipal Band of the city of Boston has been organized for this year, with thirty-five men, directed by Dionisio G. Cericola. Concerts will be given on Boston Common on Sunday afternoons, Franklin Park on Saturday afternoons, and in the different sections of the city evenings, starting July 7.

A new feature for this season will be the "Noonday Concerts" on Boston Common. The concert from 12 to 2 p.m. will be given by the Municipal Band. Though an innovation in this country, the success attained by similar concerts in Paris, Berlin and other European centers indicates that the "Noonday Concerts" will be appreciated. It is hoped that, with the co-operation of the directors of the large stores, etc., whose employees will be benefited in the future, that this line of work may be greatly enlarged. Below is a schedule of concerts for season:

Boston Common. Sunday afternoons at 3.30 p. m., July 2 to September 3, inclusive. Labor Day, September 4, 1911, at 3.30 p. m., Municipal Band, thirty-five pieces, Dionisio G. Cericola, leader.

Marine Park, South Boston. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive, and Labor Day, September 4, 1911. July 16, 3.30 p. m., Strachan's Military Band, F. T. Strachan, leader.

July 23, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

July 30, 3.30 p. m., Kanrich's Band, A. M. Kanrich, leader.

August 6, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

August 13, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 20, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 27, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

September 3, 3.30 p. m., Post 26, G. A. R. Band, William A. Morrell, leader.

Pine Bank, Jamaica Pond. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive.

July 16, 3.30 p. m., First Corps Cadet Band, John B. Fielding, leader.

July 23, 3.30 p. m., B. F. Teel's Military Band, Benjamin F. Teel, leader.

July 30, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 6, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

August 13, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

August 20, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 27, 3.30 p. m., First Corps Cadet Band, John B. Fielding, leader.

September 3, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

Wood Island Park, East Boston. Three concerts, Sunday afternoons, 3.30 p. m.

July 23, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 13, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

September 3, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

Abbottwood, Franklin Park. Saturday afternoons at 3.30 p. m.

July 8 to September 2, inclusive, Municipal Band, Dionisio G. Cericola, leader.

District concerts given in different sections of the city by the Municipal Band, Dionisio G. Cericola, leader. Unless otherwise specified, concerts are from 8 to 10 p. m.

July 18, Union Park street, near Shawmut avenue, city.

July 19, Tower street, Forest Hills.

July 20, Brighton square.

July 21, Eaton square, Meeting House Hill.

July 25, Central square, East Boston.

July 26, Billings Field, West Roxbury.

July 27, Blue Hill avenue and Norfolk street, Mattapan.

July 28, Hyde Park avenue and Mt. Hope street, Mt. Hope.

August 1, Noonday Concert, Boston Common, 12 to 2 p. m.

August 2, Albany and Dearborn streets, Roxbury.

August 3, Roslindale Playground, Roslindale.

August 4, Neponset Playground, Neponset.

August 8, Noonday Concert, Boston Common, 12 to 2 p. m.

August 9, Columbus Avenue Playground, Roxbury.

August 10, Edward Everett square, Dorchester.

August 11, Thomas park, G and Sixth streets, South Boston.
 August 15, Washington park, Roxbury.
 August 16, Charlesbank, West End, city.
 August 17, North Brighton Playground.
 August 18, Peabody square, Ashmont.
 August 22, Heath square, Heath and Park streets, Roxbury.
 August 23, Adams and Common streets, Charlestown.
 August 24, Christopher Gibson Playground, Field's Corner.
 August 25, Sumner and Jeffries streets, East Boston.
 August 29, North square, North End, city.
 August 30, Emerald and Compton streets, South End, city.
 August 31, near 100 Savin Hill avenue, Dorchester.
 September 1, Ashley avenue and Breed street, East Boston.

The schedule herewith presented is subject to change without notice. Postponed concerts will be given as soon as possible after the original date scheduled. No programs will be distributed, but the daily and Sunday newspapers of Boston will print from time to time the weekly schedules, programs and other data pertaining to the concert season. Programs will be announced at all concerts by use of the megaphone.

All communications relating to the concerts should be addressed to Secretary, Walter L. Finigan, of the Music Trustees, Room 905, Carney Building, Boston, for prompt consideration.

The Music Trustees have arranged the following band concerts for the coming week:

BOSTON COMMON, SUNDAY, JULY 16,
 1911, AT 3.30 P. M.

Municipal Band, Dionisio G. Cericola,
Leader.

Program.

Polish Dance.	Scharwenka
Grand Selection from "Faust."	Gounod

BOSTON REAL ESTATE AND BUILDING
 STATISTICS.

Total transfers in 1910 of real estate in Boston, 9,523 (255 more than in 1909), Dorchester leading with 2,551; total mortgages, 8,712 (170 more than in 1909), representing \$81,078,755, or \$6,054,391 more than the value recorded in 1909. Building permits issued by Building Department in 1910, 1,558; alteration permits, 2,403; plumbing and gas fitting permits, 13,577. Total number dwelling houses in 1910, 72,087; stores, 3,742; miscellaneous buildings, 6,838; total buildings of all kinds, 82,667.

CIRCULAR AND RADIAL ROADS.

The chief feature of the town planning scheme already carried out in Liverpool is a new wide road laid out around the city on all but the river side. This thoroughfare, most of which has been completed, forms roughly a semicircle at a radius of from three to four miles from the center of the city, and will eventually have a length of about seven miles. Its width varies from 84 to 108 feet. Intersecting the circular road at various points are radial roads, generally forming parts of thoroughfares leading from the city to other towns or outlying districts, and these roads have been laid out at various widths according to circumstances, varying from 60 to 114 feet. Tramways are already laid in many of the radial roads, and it is anticipated that lines may be laid in others. It is agreed by those responsible that in many cases the widths of the new roads are greater than is necessary for the accommodation of present day traffic, but the Liverpool authorities are looking to the future, and while for the time being they have only constructed roadways and footpaths of an ordinary width, reserving the remainder of the space as grass margins or shrubberies, provision for the future is there, and whenever the growth of traffic requires it the roadways will be widened accordingly. With regard to cost, in one section of the circular road, length about a mile, width 84 feet, it is stated that, including the purchase of certain land and the laying out and planting of the areas not at present required for traffic purposes, the cost to the corporation was \$15,000, or about \$10 per yard of street. This is only a portion of the total cost. The landowners gave a width of 60 feet free and also paid for 36 feet width of street works, the latter having been the normal width of streets required by the by-laws in Liverpool prior to the introduction of the scheme for these new wider thoroughfares. In some cases the corporation has expedited the carrying out of the work, and at the same time assisted the landowners by agreeing that the work should be done in advance of building requirements, the cost of street works being repaid by owners as a frontage charge as the adjoining land is developed.

HEALTH AND BAD ODORS.

Professor Jordan of Chicago University, discussing the proper function of health boards, calls attention to the fact that things may constitute a serious nuisance and inconvenience without any particular influence against health; and for that reason he contends that matters of mere municipal housekeeping like garbage collection and plumbing regulation should not be put upon boards of health. Garbage, he says, is not a breeder of disease, except as it may breed flies that carry disease, and sewer gas, he contends, is no more injurious to health than illuminating gas from leaky fixtures. Bad milk, he holds, is the great municipal disease maker, and on that the health boards should make their chief campaign, leaving things that are offensive to the senses to be cared for by other departments. The public, he thinks, will naturally take steps against actual nuisances.

EXPENSE OF WATER MAINS.

Nebraska has adopted a general law requiring cities that own their water works to assess the cost of extension of mains against the property thus supplied with water.

PROCEEDINGS OF CITY COUNCIL.

Friday, July 7, 1911.

Meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President COLLINS in the chair. Absent—Coun. Attridge.

The Council voted, on motion of Coun. BAL-LANTYNE, to dispense with the reading of the records of the last meeting.

RETIREMENT OF B. F. DROWN.

The following was received:

City of Boston,

Office of the Mayor, July 6, 1911.

To the City Council:

I transmit herewith a copy of an application signed by Benjamin F. Drown, a clerk in the Water Service of the Sewer and Water Division of the Department of Public Works, who is a veteran of the Civil War, to be retired under the provisions of chapter 113 of the Acts of 1911. His application has been approved in the regular form by the Commissioner of Public Works and by myself as Acting Mayor. In accordance with its terms I have drafted the accompanying order appropriating the amount for the payment of the pension and charging it to the Reserve Fund.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

Ordered, That a sum sufficient to provide a pension under the authority of chapter 113 of the Acts of 1911 to Benjamin F. Drown, a clerk in the Water Service of the Sewer and Water Division of the Department of Public Works, dating from July 15, 1911, be and hereby is appropriated, and that said appropriation be charged to the Reserve Fund.

Referred to the Executive Committee.

RETIREMENT OF JAMES M. PAGE.

The following was received:

City of Boston,

Office of the Mayor, July 5, 1911.

To the City Council:

I transmit herewith a copy of an application signed by James M. Page, an inspector in the Water Service of the Sewer and Water Division of the Department of Public Works, who is a veteran of the Civil War, to be retired under the provisions of chapter 113 of the Acts of 1911. This application has been approved in the regular form by the Commissioner of Public Works and by his Honor Mayor Fitzgerald, and in accordance with its terms I have drafted the accompanying order appropriating the necessary amount for the payment of the pension and charging it to the Reserve Fund.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

Ordered, That a sum sufficient to provide a pension under the authority of chapter 113 of the Acts of 1911 to James M. Page, an inspector in the Water Service of the Sewer and Water Division of the Department of Public Works, dating from July 1, 1911, be and hereby is appropriated, and that the said appropriation be charged to the Reserve Fund.

Referred to the Executive Committee.

SEA WALL, ETC., MYSTIC PLAYGROUND.

The following was received:

City of Boston,

Office of the Mayor, July 6, 1911.

To the City Council:

The accompanying letter from the chairman of the Board of Park Commissioners sets forth the urgent need of raising the sea wall at Mystic Playground and constructing thereon a substantial iron picket fence, and records the fact, which various members of the City Council can confirm from their personal knowledge, that Mayor Fitzgerald verbally approved of an appropriation of two thousand dollars (\$2,000) for this purpose. A more careful computation has raised the estimate to four thousand dollars (\$4,000). As the situation is unquestionably dangerous to the children who use the playground, and the matter is therefore one that does not permit of delay, I beg to recommend the passage of the accompanying order, transferring the sum of four thousand dollars (\$4,000) from the appropriation for Reserve Fund to an appropriation for Mystic Playground, Sea Wall and Fence.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

City of Boston,

Board of Commissioners of the

Department of Parks,

June 28, 1911.

Hon. Walter L. Collins,

Acting Mayor of Boston:

Dear Sir,—I would call your attention to an important omission in the appropriations made on Monday by the City Council, that of \$2,000 for the raising of the sea wall at Mystic Playground, on which, too, a substantial iron picket fence

should be constructed. The situation is very dangerous to the many children who use the playground.

Our engineer estimated the raising of the wall at the above figure—\$2,000—but I think that, including the fence, the cost will approximate \$4,000, and would ask for that sum for the purpose set forth. Mayor Fitzgerald, while reading over the items in his office before the Finance Committee of the City Council, verbally approved of the appropriation of \$2,000.

Yours respectfully,

ROBERT S. PEABODY, Chairman.

Ordered, That the City Auditor be and hereby is authorized to transfer the sum of four thousand dollars (\$4,000) from the appropriation for Reserve Fund to an appropriation to be expended by the Board of Park Commissioners for Mystic Playground, Sea Wall and Fence.

Referred to the Executive Committee.

COURTHOUSE, ETC., EAST BOSTON.

The following was received:

City of Boston,

Office of the Mayor, July 5, 1911.

To the City Council:

Under date of June 16 his Honor Mayor Fitzgerald transmitted a communication from the Superintendent of Public Buildings calling attention to the need of sixty thousand dollars (\$60,000) additional for the purchase of a site and the erection of a new building for courthouse and police station in East Boston, and recommended the passage of an order appropriating this sum. As bearing upon this subject I transmit herewith a communication from the secretary of the School Committee, notifying me that the School Committee is willing to surrender the old East Boston High Schoolhouse for this purpose on the payment of forty thousand dollars (\$40,000) as soon as satisfactory accommodations have been provided for the pupils now housed in that building. If this offer is accepted the price of the site will be approximately forty thousand dollars (\$40,000), and it will then be possible, from the estimates of the cost of the building, to determine with some degree of exactness the appropriation required.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

Boston School Committee.

Secretary's Office, June 28, 1911.

Hon. Walter L. Collins,

Acting Mayor of Boston:

Dear Sir,—I respectfully notify you of the passage of the following order at the meeting of the School Committee held on Monday, June 26, 1911:

Ordered, That his Honor the Mayor be informed that upon provision being made, satisfactory to this Board, for the housing of the school children who would otherwise be accommodated in the old East Boston High Schoolhouse, this Board is willing to surrender said school estate on the payment of \$40,000, but until other and satisfactory school accommodations shall be provided the surrender of said school estate cannot be entertained.

Very truly yours,

THORNTON D. APOLLONIO, Secretary.

Referred to the Committee on Finance.

COST OF EAST BOSTON COURTHOUSE.

The following was received:

City of Boston,

Office of the Mayor, July 7, 1911.

To the City Council:

Supplementing my earlier communication transmitting a statement of the price at which the School Committee would surrender the site of the old East Boston High School to the Public Buildings Department for the new courthouse and police station, I transmit herewith a letter from the Superintendent of Public Buildings giving an estimate of the cost of the building exclusive of the site. It would appear from these data that the total cost of the improvement will be about one hundred and sixty-five thousand dollars (\$165,000) if the high school site is taken.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

City of Boston,

Public Buildings Department,

July 7, 1911.

Hon. Walter L. Collins,

Acting Mayor of Boston:

Dear Sir,—For your information I wish to advise you that I estimate the cost of the new building in East Boston which is to be used as a courthouse and police station will be about \$125,000, exclusive of the cost of the site for the said building.

An appropriation of \$105,000 was made in 1909 for this purpose, and on the 16th of June I sent a communication to his Honor Mayor Fitzgerald stating that at least an additional appropriation of \$60,000 would be required.

I inclose herewith a copy of the above mentioned communication.

Yours respectfully,

M. J. FISH,

Superintendent of Public Buildings.

Referred to the Committee on Finance.

COLLECTION OF GARBAGE, NORTH END

The following was received:

City of Boston,

Office of the Mayor, July 7, 1911.

To the City Council:

In reply to an order of the City Council, passed at its meeting June 26, "that his Honor the Mayor be requested to furnish a report from the Sanitary Department as to whether the law is being enforced in the North End of the city in regard to the collection of garbage," I beg to transmit a letter from the Commissioner of Public Works, forwarding a report from the chief clerk of his department.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

City of Boston,

Public Works Department,

City Hall, July 7, 1911.

Hon. Walter L. Collins,

Acting Mayor of Boston:

Dear Sir,—Re inclosed request of the City Council, kindly note inclosed report of the chief clerk of this department relative to the collection of garbage at the North End.

Respectfully,

L. K. ROURKE,
Commissioner of Public Works.

City of Boston,

Public Works Department,

City Hall, July 6, 1911.

Mr. Louis K. Rourke,

Commissioner of Public Works:

Dear Sir,—I return herewith order of the City Council requesting report as to whether the law is being enforced in the North End of the city in regard to the collection of garbage, and submit the following:

The ordinances of the city provide that the Department of Public Works "shall remove from yards and areas, when so placed as to be easily removed, all ashes accumulated from the burning of materials for heating habitations, cooking and other domestic purposes, house dirt, house offal and all noxious and refuse substances."

The ordinances do not provide the manner nor the time in which the refuse substances shall be removed. It would seem, and, as a matter of fact, it is, entirely a question to be determined by the Commissioner of Public Works.

If the barrels are placed out by the owners collections are made in some streets twice a week and in certain other streets three times a week. When the barrels have to be taken out by the department force, collections are made once a week.

Collections are made three times a week (Monday, Wednesday and Friday) from the following streets:

North, from Richmond to Commercial; North square, Moon, Sun Court, Garden Court; Prince, from Hanover to North square; Hanover, from Prince to the ferry; Fleet; Lewis, from North to Moon; Clark, Harris, Hanover avenue, Neary court, Murray alley, Salutation, Battery, and Commercial, from North to Hanover.

Collections are made twice a week in the section bounded by Commercial, from Hanover to Washington Street North; Washington Street North, from Commercial to Cross; Cross, from Washington Street North to Hanover, and all streets running north from Hanover street between Cross and Commercial.

Respectfully,

B. C. KELLEY, Chief Clerk.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees names, viz.:

Claims.

Giuseppe Scali, for compensation for damages at 128 Salem street by a defective sewer.

Dr. H. J. Baker, for compensation for damages caused by spraying by Public Grounds Department at 471 Columbia road.

Mrs. Sarah Hart, for compensation for damages to property by the breaking of sewer in Cedar street, Roxbury.

Mary Lee Ware, for compensation for damage to drain at 43-45 West street.

Catherine Ryan, for compensation for damage to property, 1284 Dorchester avenue, by stoppage of sewer.

Executive.

Reports on petitions for licenses to sell, rent or lease firearms at various places, viz.:

J. B. Hunter & Co., 60 Summer street, Ward 6.

Giovanni Mongardi, 16 North square, Ward 6.

Pearlstein & Fredberg, 86-88 Merrimac street, Ward 8.

Pearlstein & Shear, 52 Shawmut avenue, Ward 7.

Charles Cohen, 51 Endicott street, Ward 6.

Benovitz & Sheinkopf, 150 Merrimac street, Ward 8.

Simon Miller, 60 Howard street, Ward 6.

Levine Brothers, 35 Beach street, Ward 7.

Back Bay Loan Company, 373 Columbus avenue, Ward 10.

Placid Amaru, 5 Prince street, Ward 6.

MINORS' LICENSES.

President COLLINS submitted reports on petitions of nine minors, one bootblack and three vendors for minors' licenses—recommending that licenses be granted.

Reports accepted; licenses granted on the usual conditions.

MILITIA ENROLLMENTS.

A communication was received by the City Clerk from the Board of Assessors certifying, under section 8 of chapter 604 of the Acts of 1908, that the number of persons in the City of Boston liable to enrollments in the militia is 116,718.

Placed on file.

COAL AND COKE LICENSES.

Copies of coal and coke licenses granted by the Secretary of the Commonwealth were received.

Placed on file.

ALTERATION OF LOCATION.

A copy of order of the Street Commissioners was received granting permission to the West End Street Railway Company for alteration of location on Haverhill street, 352d location.

Placed on file.

NOTICE OF HEARING.

Notice was received from the Board of Railroad Commissioners of hearing on July 6 on petition of West End Street Railway Company for approval of 352d location.

Placed on file.

NOTICES FROM RAILROAD COMMISSIONERS.

Notice of the approval of the Railroad Commissioners of the purchase of the Old Colony Street Railway Company by the Boston & Northern Street Railway Company.

Notice was received of approval of Railroad Commissioners of temporary changes at Dover Street Station of Boston Elevated Railway Company.

Notice was received from Railroad Commissioners of approval of proposed changes at Dover Street Station by Boston Elevated Railway Company.

Placed on file.

STORAGE OF EXPLOSIVES, ETC.

Notice was received from the hereinafter named parties that the following named buildings were used by them for keeping of oils, etc., and of intention to continue such use for the ensuing year, viz.: J. W. Cosden & Co., 246 Massachusetts avenue, Ward 10.

Kirkwood Brothers, 23 Elm street, Ward 6.
Boston Consolidated Gas Company, Cambridge street and Charles river.

The same company, Hilton street, Ward 17;
the same company, Commercial Point, Ward 24;
the same company, 144 Keyes street, Ward 23;
the same company, 34 Freeport street, Ward 20;
the same company, Calf Pasture, Ward 20.

Placed on file.

INVESTIGATION OF FIREWORKS DISPLAY.

A communication was received from Augustus Seaver, editor of the "Wage Earner," asking that an investigation be made concerning the "so-called fireworks exhibition given on the night of July 4 upon the Charles river, supposedly by the direction and because of appropriations made by the City of Boston," and offering to appear before the City Council or any committee thereof.

Referred to the Executive Committee.

CONFIRMATION OF APPOINTMENT.

President COLLINS called up unfinished business No. 1, viz.:

1. Action on appointment submitted by the Mayor, June 26, of Charles B. McMackin to be a Weigher of Coal for the term ending April 30, 1912.

The question came on confirmation. Committee—Coun. McDonald and Curley. Whole number of ballots cast 7, yeas 7, and the appointment was confirmed.

SEWERAGE WORKS, CHARLES RIVER BASIN.

President COLLINS called up unfinished business No. 2, viz.:

2. Ordered. That the sum of three hundred ninety-five thousand dollars (\$395,000) be appropriated for the construction of sewerage works within the watershed of Charles River Basin, being a portion of the amount required by chapter 485 of the Acts of 1907, and that the City Treasurer be authorized to issue, from time to time, on the

request of the Mayor, bonds of the City of Boston to said amount for said purpose.

On June 16 the foregoing order was read once and passed, yeas 7, nays 0.

The order was given its final reading and passed, yeas 8, nays 0.

FINANCE.

Coun. KENNY, for the Committee on Finance, submitted the following:

(1) Report on message of Mayor and order (referred June 13) for loan of \$400,000 for construction of sewerage works within the watershed of the Charles River Basin—that the order ought not to pass.

Report accepted; said order rejected.

(2) Report on message of Mayor and communications (referred June 26) relative to improvements necessary at ferry landings—recommending reference to the Executive Committee.

Report accepted; said reference ordered.

(3) Report on message of Mayor and communications (referred June 26) relative to repairs needed at House of Correction—recommending reference to Executive Committee.

Report accepted; said reference ordered.

ORDINANCES.

Coun. McDONALD, for the committee on Ordinances, submitted the following:

(1) Report on message of Mayor and ordinance (referred May 31) concerning street parades—recommending the passage of an ordinance in the following new draft:

City of Boston.

In the Year Nineteen Hundred and Eleven.

An Ordinance.

Be it ordained by the City Council of Boston, as follows:

Chapter 6 of the Ordinances of the year 1910 is hereby amended as follows:

By adding in the third line of section one after the words "five hundred persons," the words "or more than two bands of music."

And by striking out section two and substituting in place thereof the following: "No streets except those named in the foregoing section shall be used for the purposes prescribed in the foregoing section, between 10 a. m. and 5 p. m., in that portion of the city proper lying east of Massachusetts avenue and Southampton street, on days other than Sundays or holidays, except by vote of two-thirds of the members of the City Council."

Report accepted; ordinance passed.

(2) Report on message of Mayor and ordinance (referred June 26) consolidating the Bath, Music and Public Grounds Departments and establishing a Park and Recreation Department—that the ordinance ought not to pass, without prejudice.

Report accepted; ordinance rejected.

(3) Report on report of the Committee on Ordinances (referred February 13) and draft of ordinance relating to shade trees (Document 138, 1910)—that the ordinance ought to pass as contained in Document 138, 1910.

Report accepted; ordinance passed.

(4) Report on the message of the Mayor, communications from the Corporation Counsel and the Police Commissioner and proposed ordinance (referred February 13) relative to children on streets—recommending that the City Clerk communicate with the Corporation Counsel and the Police Commissioner relative to the enforcement of the proposed ordinance, and if in their opinion it cannot be enforced, the reason or reasons therefor.

Accepted.

PAYMENT FOR LOSS OF FOWLS.

Coun. BUCKLEY, for the Committee on Claims, submitted a report on the petition of Ellen McMahon (referred June 26) to be paid for loss of fowls killed by dogs—recommending the passage of the following:

Ordered. That there be allowed and paid to Ellen McMahon the sum of four dollars and twenty-five cents in compensation for the loss of fowls killed by dogs May 14, 1911, said sum to be paid from the income from dog licenses.

Report accepted; order passed.

FEES FOR PERMITS, ETC.

Coun. KENNY offered the following:

City of Boston.

In the Year Nineteen Hundred and Eleven.

An Ordinance providing for the determination of fees or charges for coal holes, vaults, bay windows and marquees.

Be it ordained by the City Council of Boston, as follows:

Section 1. Permits or licenses for the storage of gasoline or oil, or other inflammable substances or explosive compounds, are to be issued upon the terms and conditions provided for by chapter five hundred and two of the acts of nineteen hundred and eight.

Sec. 2. A fee or charge of not less than ten dollars nor more than five hundred dollars shall be determined by the Board of Street Commissioners

for each license or permit issued for the construction or use of a bay window over the public ways. A bay window within the meaning of this ordinance shall mean a structure not more than one story in height.

Sec. 3. A fee or charge of not less than ten dollars nor more than five hundred dollars shall be determined by the Board of Street Commissioners for each license or permit issued for the construction or use of a marquee over the public ways.

Sec. 4. A fee or charge shall be determined by the Board of Street Commissioners for each license or permit issued for the construction or use of a vault in or under the public ways in accordance with the following provisions:

For a vault to be used in connection with a coal hole for the reception or storage of fuel not less than two dollars nor more than one hundred dollars.

For a vault with a bulkhead opening to be used for the reception, storage or delivery of goods, wares and merchandise not less than ten dollars nor more than five hundred dollars.

For a vault to be used as an extension of the basement of a building for business purposes not less than twenty-five dollars nor more than five thousand dollars.

Sec. 5. A fee or charge of not less than two dollars nor more than fifty dollars shall be paid for each license or permit issued by the Board of Street Commissioners for the construction or use of a coal hole with chute attached and connecting with the basement of a building in and under the public ways, said coal holes to be used only for the reception of fuel.

Sec. 6. Fees or charges determined or fixed as aforesaid shall be payable on the issuance of the license or permit.

Coun. KENNY—I would like to say in connection with that order that I offer it in accordance with my expressed intention at last meeting.

Referred to the Committee on Ordinances.

BATHING AT ROXBURY RESERVOIR.

Coun. SMITH offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to submit to the Council at his earliest convenience an estimate of the cost of transforming the reservoir at Parker Hill, Roxbury, into a suitable bathing place, with necessary shelters, etc.

Passed.

ADDITION TO L STREET BATH.

Coun. CURLEY offered an order—That the Bath Trustees be requested, through his Honor the Mayor, to submit to the City Council at their earliest convenience an estimate of the cost of an additional strip of beach at L street, 500 feet in length and of suitable depth, with cost of suitable shelters on same, bathing trunks on proposed addition to be let for one cent per pair.

The order was passed.

REMOVAL OF TREES.

Coun. CURLEY offered an order—That the Park Commissioners be requested to remove two trees situated on park land near estates No. 87, 89 Callender street, Dorchester.

Passed.

BATHING AT CARSON BEACH.

Coun. CURLEY offered an order—That the Bath Trustees be requested, through his Honor the Mayor, to cause Carson Beach to be kept open for the convenience of the public until ten o'clock p. m., on such nights as the tide will serve for bathing purposes.

Passed.

PLANTING OF SHADE TREES.

Coun. CURLEY offered an order—That the Committee on Ordinances be requested to draft an amendment to the ordinances providing that when a pole is removed from any public street 50 feet wide or over, outside the business district, that a shade tree be planted in said location by the Superintendent of Public Grounds.

Passed.

SIDEWALK, BUSHNELL STREET.

President COLLINS presented a petition signed by Charles W. Beal et al., residents of Bushnell street, asking that sidewalks be laid on said street.

In connection with the above petition the President offered an order—That the Commissioner of Public Works make a sidewalk along the westerly side of Bushnell street, between number 11 and Radford lane, Ward 24, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width and to be built of artificial stone, under the provisions of chapter 437 of the Acts of 1893.

Passed.

HEARING ORDER RESCINDED.

Coun. McDONALD offered an order—That the order passed on June 26 authorizing the Committee on Ordinances to "give a public hearing on July 11, on the extension of building limits," etc., be and the same is hereby rescinded.

Passed.

BAND CONCERTS, MOODY'S CORNER.

Coun. McDONALD offered an order—That the Music Trustees be requested, through his Honor the Mayor, to give one or more band concerts during the present summer at Moody's Corner, Dorchester.

Passed.

VACATION FOR SPANISH WAR VETERANS.

Coun. McDONALD offered an order—That the officer or board in charge of any department be hereby authorized to grant a vacation, without loss of pay, to all employees of the city in said department who are veterans of the Spanish War, such vacation to be co-extensive with the annual encampment of 1911 of the Spanish War Veterans.

Passed.

HOSPITAL AMBULANCE, EAST BOSTON.

Coun. McDONALD offered an order—That the City Hospital Trustees be requested to inform the City Council, at as early a date as possible, why the East Boston Relief Station is not equipped with an ambulance, and if the trustees did not agree some time ago to provide an automobile ambulance for said hospital.

Passed.

PAYMENTS TO BAR ASSOCIATION.

Coun. KENNY moved that No. 3 be taken from the table, viz.:

3. Preambles concluding with the following:

Ordered, That a committee be appointed, with full power to summons and bring before it the County Treasurer and City Auditor, clerks of courts, judges, officers, attorneys and agents of the Bar Association of the City of Boston, and all persons connected with, referred to and concerned in the matters of each and every item in each and every claim and bill on file in the City Auditor's office which has been paid to the Bar Association of the City of Boston, its attorneys and agents since the year 1885 to the present time; and all court records, documents, writings, vouchers, and also all records of the Bar Association of the City of Boston, to ascertain how much of all the moneys so paid on the above bills have been unlawfully obtained and received by the Bar Association of the City of Boston, its attorneys or agents; and if any is found to have been unlawfully obtained, or ill-gotten, then that the Law Department be instructed to institute legal process for the recovery of the same, and that the matter be further referred to the proper departments of justice for fit action.

Indefinitely postponed, on motion of Coun. KENNY.

USE OF SCHOOL BUILDINGS.

Coun. KENNY moved that No. 4 be taken from the table, viz.:

4. Report of Executive Committee, ought not to pass, on order to transfer \$13,000 from the Reserve Fund to an appropriation for Extended Use of School Buildings, to be expended by the Superintendent of Public Buildings.

President COLLINS—The question comes on accepting the report.

Coun. HALE—I move reconsideration of the vote just passed. I shall have to plead guilty to having been asleep, as to the consequence of this.

President COLLINS—The question comes on accepting the committee's report—ought not to pass—on No. 4 on the calendar.

Coun. SMITH—Mr. President, it seems to me that if we pass this order exactly as stated here it will prejudice the cause unnecessarily. I would like to amend by inserting the words "without prejudice," because it seems to me this is a very worthy object, and while the Corporation Counsel has advised us that in its present form it is impossible to pass it, nevertheless it seems to me we ought not to prejudice what I think we all agree is a good cause by the mere form of the order.

Coun. HALE—I agree fully with what Coun. Smith says, and for that reason I got up before. I think, however, that the best way to deal with it would be to continue to leave it on the table until we have a chance to consider the matter next fall. Mr. Monroe of the 1915 movement called me up this morning and asked me to use my efforts to get it laid on the table so that they would have time to draw an order that would be legal. I think that even if we report it back without prejudice it will hurt the cause, and I would like to go a step further than Coun. Smith, and move as a substitute motion that it be left on the table.

President COLLINS—The question comes on Coun. Hale's motion that it lay on the table.

The Chair being in doubt as to the result of the vote called for a rising vote, whereupon it appeared that five voted in the affirmative and two in the negative, and the motion prevailed.

NEW BUILDINGS, ETC., CITY HOSPITAL.

Coun. CURLEY offered an order—That the sum of \$297,800 be appropriated, to be expended by the Trustees of the City Hospital for new buildings, changes and additions at the South Department, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

Coun. CURLEY—I move reconsideration of the reference to the Committee on Finance.

President COLLINS—The question comes on the motion of Coun. Curley, namely, to reconsider the reference of the said order to the Committee on Finance. Those in favor will signify it by saying "Yes"; those opposed, "No." It is not a vote and reconsideration does not prevail.

Coun. CURLEY—I doubt the vote and ask that the roll be called.

The roll call was taken and reconsideration of the reference was refused, yeas 3, nays 5, viz.:

Yeas—Coun. Buckley, Curley, Hale—3.

Nays—Coun. Ballantyne, Collins, Kenny, McDonald, Smith—5.

ORDINANCE REPORT.

Coun. McDONALD for the Committee on Ordinances, submitted a report on the Message of the Mayor and ordinance (referred Feb. 13) relative to children on the streets—recommending that the City Clerk communicate with the Corporation Counsel and Police Commissioner relative to the possibility of enforcing said ordinance.

Accepted.

RECESS TAKEN.

The Council voted at 5.15 o'clock p. m., on motion of Coun. KENNY, to take a recess subject to the call of the President.

The members of the Council reassembled in the Chamber and were called to order by the President at six o'clock p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. BALLANTYNE, for the Executive Committee, submitted the following:

(1) Report on message and communications (referred to-day) relative to the collection of garbage at the North End—that the same be placed on file.

Report accepted; papers placed on file.

(2) Report on communications from Park Department and order (referred June 28) relative to sale of land in Brighton district, bounded southerly by Commonwealth avenue and northeasterly by Chestnut Hill avenue—recommending reference to the Committee on Public Lands.

Report accepted; said reference ordered.

(3) Report on order (referred June 26) that in accordance with provisions of chapter 530 of the Acts of 1911 an annuity of \$300 be hereby allowed and paid to Hattie Burke, widow of Patrick Burke, who was killed while in the service of the city—that the order ought to pass.

Report accepted; order passed.

(4) Report on message of Mayor, communication and order (referred to-day) transferring the sum of \$4,000 for Mystic Playground, Sea Wall and Fence—that the order ought to pass.

Report accepted; order passed, yeas 7, nays 0.

(5) Report on message of Mayor and order (referred June 28) transferring the sum of \$48,000 for new steamboat for Board of Health—that the order ought to pass.

Coun. KENNY—When the report is accepted I am going to move that that matter lie on the table—after the report of the committee is accepted.

President COLLINS—The gentleman asks a division of the question. The question comes on accepting the committee's report.

The Chair being in doubt as to the result of the *viva voce* vote, a rising vote was taken, whereupon it appeared that three had voted in the affirmative and three in the negative, and it was not a vote.

Coun. McDONALD—I further doubt the vote and ask for a verification by roll call.

President COLLINS—The question comes on accepting the committee's report. The Chair will also state that the acceptance of the committee's report does not place any member of the Council as in favor of or as being opposed to the proposition. The Clerk will call the roll.

The roll call was taken and the Council refused to accept the report of the committee, yeas 3, nays 4, viz.:

Yeas—Coun. Collins, Kenny, McDonald—3.

Nays—Coun. Buckley, Curley, Hale, Smith—4.

Coun. KENNY—I move reconsideration of that vote whereby the Council voted not to accept the report of the committee, and I would ask that my motion be assigned for the next meeting.

President COLLINS—The question comes on the motion of Coun. Kenny.

Coun. SMITH—I don't quite understand the purpose of the motion. That is, as I understand it, the motion is to reconsider this last vote at the next meeting or at the present meeting?

President COLLINS—At the next meeting.

Coun. SMITH—Is that a strictly proper motion?

President COLLINS—The Chair rules that the point of order is not well taken, and that it is a proper motion.

Coun. CURLEY—I would like to say that the vote has already been taken. The Chair has not announced it.

President COLLINS—The Chair has not announced it. The Chair gave Coun. Smith an opportunity to be heard. Those in favor will say "Yes"; those opposed will say "No," and it is a vote.

Coun. HALE—I doubt the vote.

The roll call was taken and assignment of the motion to reconsider was refused, yeas 3, nays 4, viz.:

Yeas—Coun. Collins, Kenny, McDonald—3.

Nays—Coun. Buckley, Curley, Hale, Smith—4.

President COLLINS—The question now comes on reconsideration. Those in favor of reconsideration will say "Yes"; those opposed will say "No." The Chair is in doubt. As many as are in favor of reconsideration will rise.

Coun. KENNY—I ask that the vote be taken by roll call.

The roll call was taken and the motion to reconsider was lost, yeas 3, nays 4, viz.:

Yeas—Coun. Collins, Kenny, McDonald—3.

Nays—Coun. Buckley, Curley, Hale, Smith—4.

Coun. McDONALD—I would like to know what becomes of the order?

President COLLINS—The Chair will state that the order remains in the Executive Committee.

Coun. CURLEY—I was going to ask Coun. Kenny, through the Chair, if there were not some other reports from the Executive Committee? If my memory serves me right, there were other papers which he was ordered to present here.

(6) Reports on petitions for licenses to sell, rent or lease firearms at various places—that leave be granted, viz.:

J. B. Hunter & Co., 60 Summer street, Ward 6.

Giovanni Mongardi, 16 North square, Ward 6.

Pearlstein & Fredberg, 86-88 Merrimac street, Ward 8.

Pearlstein & Shear, 52 Shawmutavenue, Ward 7.

Charles Cohen, 51 Endicott street, Ward 6.

Benovitz & Sheinkopf, 150 Merrimac street, Ward 8.

Simon Miller, 60 Howard street, Ward 6.

Levine Brothers, 35 Beach street, Ward 7.

Back Bay Loan Company, 373 Columbus avenue, Ward 10.

Placid Amaru, 5 Prince street, Ward 6.

Reports severally accepted; licenses granted on the usual conditions.

GARBAGE COLLECTIONS, NORTH END.

Coun. SMITH offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to inform the City Council as to whether garbage is collected in the North End section of the city according to the regulations of the department.

Passed.

GENERAL RECONSIDERATION.

Coun. McDONALD—I move a general reconsideration.

Coun. HALE—Might I ask a question before that comes up, as to whether any motion has been passed as to when we shall adjourn to?

Coun. KENNY—I move that we adjourn now to meet a week from next Monday at four o'clock.

President COLLINS—The question now comes on the motion for general reconsideration by Coun. McDonald, hoping that the same will not prevail.

The motion was lost.

FREEPORT STREET BATHING BEACH.

Coun. CURLEY—Mr. Chairman, I should like to ask what became of the paper acted upon by the committee with reference to the Freeport Street Bathing Beach—whether that is still in the hands of the acting committee?

Coun. KENNY—I haven't seen the paper that is referred to. I supposed that was with the others. I handed over all the papers given to me by the Clerk of the Committees.

Coun. CURLEY—I supposed when an order was reported that it should be acted upon and should be in the hands of somebody. I presume it must be in the hands of the Clerk of Committees. If it would be in order, I would move that the City Messenger be instructed to wait upon the Clerk of Committees and bring that here.

President COLLINS—The question comes on the motion of Coun. Curley that the City Messenger be instructed to wait upon the Clerk of Committees and bring to the Council the paper with reference to the Freeport Street Bathing Beach.

The motion was carried.

President COLLINS—The Chair will declare a recess.

A recess was had at 6.10 o'clock p. m.

The Council reconvened at 6.14 o'clock p. m.

President COLLINS—The Council will be in order. The Chair awaits the pleasure of the Council. Reports from the Executive Committee. The Clerk will read.

Report on the message of the Mayor on order (referred June 28) for transfer of \$9,000 for purchase of shore property at Freeport street, Dorchester, and the improvement thereof as a bathing beach—that the order ought to pass.

Coun. CURLEY.—In view of the fact that there is scarcely more than a quorum of the members present, I move that the order be recommitted to the Executive Committee.

The motion was carried and the order recommitted.

Coun. KENNY.—I move we now adjourn to meet at three o'clock p. m., on July 17, 1911.

The motion was carried, and the Council adjourned at 6.15 o'clock p. m.

CHILDREN WILL USE TOOTH BRUSHES DAILY IN SCHOOL.

CLEVELAND, O.—Five minutes of the time usually given to study will be devoted to scrubbing the teeth by the 60,000 school children of Cleveland next term. This was decided by the school officials last week following dental experiments made with a group of pupils at the Marion School. In the presence of Dr. Wille, of the Marine Hospital Service, and Dr. J. S. Marshall, of Columbus Barracks, representing the Federal Government, and a number of physicians, dentists and school officials, the twenty-seven children of the group showed that their powers of perception, keenness of observation and general quickness of mind were better developed than those of their schoolmates. The great improvement shown in their studies after they had been submitted to a dental treatment has resulted in the tooth scrubbing order.—

Municipal Journal.

TEACHING PRACTICAL CIVICS.

A course of study in practical civics running through all grades and covering all the duties of the citizen has been prepared by the secretary of the health board of Indianapolis and adopted by the school authorities. It deals with such matters, for example, as the collection of garbage and methods of street paving. It teaches the children to be observant of the city's work.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for moving portable school buildings to new locations in various parts of the city, and giving bond of a surety company therefor in the sum of \$1,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, July 21, 1911, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

(July 15.)

CITY OF BOSTON.

TO BOILER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for furnishing and delivering horizontal return tubular boilers with castings and grates complete, at various schoolhouses throughout the city, and giving bond of a surety company therefor in the sum of \$1,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left there before 12 o'clock noon of Thursday, July 20, 1911, at said office with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

(July 15.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON. PUBLIC WORKS DEPARTMENT.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes, must be done before Monday, July 24, 1911, as after that time no permits for openings will be granted until two years after said highways are completed.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, June 19, 1911.

(July 15.)

CITY OF BOSTON.

PROPOSALS FOR EXCAVATING AND SLOPE PAVING.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for excavating and placing slope paving along the Canterbury branch of Stony brook, between Asylum road and Harvard street, West Roxbury, and giving bond thereof of a surety company approved by the commissioner in the sum of ten thousand dollars (\$10,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Excavating and Slope Paving," and left at Room 57, fourth floor, City Hall, before 12 m. on Friday, July 21, 1911, with a certified check for three thousand dollars (\$3,000), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.

CITY OF BOSTON.

PROPOSALS FOR CEMENT WORK.

Proposals for furnishing and delivering 1,000, or more, seat-posts and fifty, or more, park seats according to designs obtained at the engineer's office, Franklin Park, and giving bond of a surety company therefor, signed by bidder and left before 3 o'clock p. m. of July 24, 1911, at the office of the commissioners, Olmsted Park, Jamaica Plain, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals.

ROBERT S. PEABODY,
JAMES M. PRENDERGAST,
DANIEL H. COAKLEY,
Park Commissioners.

(July 15.)

CITY OF BOSTON.

PROPOSALS FOR BATHING SUITS.

The Supply Department of the City of Boston invites bids for furnishing the Bath Department with 1,200 women's bathing suits with detachable skirts, 600 girls' bathing suits with detachable skirts. Samples showing quality and design must be submitted with the bid, the bid must also state the time of delivery. The bidder must leave his proposal at the office of the Superintendent of Supplies, Room 826, Tremont Building and a certified check for \$300, which is to become the property of the City of Boston if the bidder fails to carry out his proposal, before 12 o'clock, Wednesday, July 19, at which time and place the bids will be publicly opened and read. A bid in duplicate, without check, must be filed at the office of the City Auditor previous to the time named for opening bids. The superintendent reserves the right to reject any or all bids.

J. EDWARD MULLEN,
Superintendent of Supplies.

(July 15.)

CITY OF BOSTON.

TO BOILER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for repairing and retubing horizontal return tubular boilers for various schoolhouses throughout the city, and giving bond of a surety company therefor in the sum of five hundred dollars (\$500). Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by bidder and left before 12 o'clock noon of Monday, July 24, 1911, at said office, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

CITY OF BOSTON.

PROPOSALS FOR COAL.

The trustees of the Boston City Hospital will receive sealed proposals for supplying the Hospital Department with 455 tons 2,000 pounds to the ton—more or less, of first quality hard white ash anthracite coal. This proposal to be for furnace, egg and stove coal for kitchen use at the main hospital, South Department, Haymarket Square Relief Station, Convalescent Home, 2150 Dorchester avenue, and the East Boston Relief Station, 14 Porter street, the same to be delivered as may be wanted, in quantities not over eight tons, between August 1, 1911, and February 1, 1912. If bidders desire, proposals may be for the whole lot or in four parts, one part for the Haymarket Square Relief Station, one part for the main Hospital and South Department, one part for the Convalescent Home, and one part for the East Boston Relief Station. Bidders must specify the name and location of the mine from which the coal is taken. The relative value of the different kinds of coal offered will be considered in connection with the price. Proposals must be made on forms to be obtained at the office of the superintendent of the hospital. They are to be left at that office at the hospital not later than July 24, 1911, at 12 o'clock noon (addressed "Superintendent, Boston City Hospital, Proposal for Anthracite Coal"), at which time and place they will be publicly opened. A duplicate copy of the proposal must be deposited with the City Auditor before 12 o'clock noon, on the date given above for receiving proposals. Each proposal must be accompanied by a properly certified check for \$200, and a bond will be required for the faithful performance of the contract. The right is reserved by the trustees to choose such coal as may be for the best interests of the hospital, or to reject any or all proposals.

Per order of the trustees.

(July 15.) JOHN H. MCCOLLOM,
Superintendent.

CITY OF BOSTON.

PROPOSALS FOR REPAIRING THE DRAW PIER AT DORCHESTER AVENUE BRIDGE.

Sealed bids for repairing the draw pier at Dorchester Avenue Bridge will be received by the Commissioner of Public Works, at Room 57, fourth floor, City Hall, Boston, until 12 m. of Tuesday, July 25, 1911, and at that time and place will be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening bids. Each bid must be signed by the bidder with full names and addresses, be inclosed in a sealed envelope, indorsed "Bid for Draw Pier at Dorchester Avenue Bridge," and deposited in a locked box provided for that purpose. No bid will be allowed to be withdrawn for any reason whatever after it has been deposited in the box. Each bid must be accompanied by a properly certified check for the sum of five hundred (500) dollars, payable to the order of the City of Boston, which check will be returned to the bidder unless forfeited as hereinafter provided. A bond will be required for the faithful performance of the contract in the sum of fifteen hundred (1,500) dollars of an approved surety company doing business in Massachusetts. The bidder is requested to name the surety company which will sign his bond in case the contract is awarded him. All bids which are not in conformity with this notice will be rejected. Plans can be seen at the office of the Division Engineer of the Bridge and Ferry Division, Public Works Department, 60 City Hall, Boston, Mass. The Commissioner of Public Works reserves the right to reject any or all bids or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 13, 1911. (July 15.)

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS IN BYRON STREET.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for sewerage works in Byron street, between River and Brimmer streets, City Proper, and giving bond therefor of a surety company approved by the commissioner in the sum of eight hundred dollars (\$800), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewerage Works in Byron Street," and left at Room 57, fourth floor, City Hall, before 12 m. on Friday, July 21, 1911, with a certified check for three hundred dollars (\$300), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Commissioner of Public Works.
Boston, July 13, 1911. (July 15.)

CITY OF BOSTON.

PROPOSALS FOR BRICK BLOCK PAVEMENT.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing brick block pavement in Hinsdale street, between Commonwealth avenue and Cummington street, Boston, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Monday, July 24, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Brick Block Pavement in Hinsdale Street."

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, July 13, 1911. (July 15.)

CITY OF BOSTON.

PROPOSALS FOR PAVING BLOCKS.

The Supply Department of the City of Boston, invites proposals for furnishing 120,000, more or less, 5-inch special granite blocks to be delivered on the wharf at 636 Albany street. The bidder must use the form to be obtained at Room 826, Tremont Building, furnish a bond of \$2,000 with a surety company authorized to do business in Massachusetts as surety for fulfilling the contract, and leave at said office on or before 12 m. of Tuesday, July 18, his bid and a certified check for \$500, which is to be the property of the City of Boston if the bidder fails to carry out his proposal. A duplicate bid without the check must be filed with the City Auditor, prior to opening the bids. The proposal will be publicly opened and read at the above time and place, and the undersigned reserves the right to reject any and all proposals.

J. EDWARD MULLEN,
Superintendent of Supplies.
(July 15.)

CITY OF BOSTON.

PROPOSALS FOR COAL.

The trustees of the Boston City Hospital will receive sealed proposals for supplying the hospital with 5,000 tons, more or less, 2,240 pounds to the ton, of semi-bituminous coal of the best quality, free from excessive sulphur, slate, moisture or dirt, and which will not develop a dangerous heat in the bins. Deliveries to be made in cargo lots, 1,000 to 1,100 tons each, as follows: First lot, second week in October; second lot, second week in November; third lot, first week in December; fourth lot, third week in December; fifth lot, not later than the second week in January, 1912. Delivery of coal to be alongside the coal pocket, Roxbury canal. Car weights (sworn to) must accompany all bills, in addition to bills of lading for all cargoes of coal delivered to the hospital. Proposals to be made on printed forms to be obtained at the office of the Superintendent of the Hospital, and left at that office not later than July 24, 1911, at 12 o'clock noon, at which time and place the proposals will be publicly opened. Each proposal must be accompanied by a properly certified check for \$500, and a bond will be required for the faithful performance of the contract. A duplicate copy of the proposal must be deposited with the City Auditor before 12 o'clock noon on the date given above for receiving proposals. The right is reserved by the trustees to choose such coal as they deem best for the interests of the hospital, or to reject any or all proposals.

Per order of the trustees.

(July 15.) JOHN H. MCCOLLOM,
Superintendent.

CITY OF BOSTON.

PROPOSALS FOR IRON CASTINGS.

The Supply Department of the City of Boston invites proposals for furnishing the Public Works Department, Water Service, 250,000 pounds, more or less, No. 2 iron castings, divided as follows:

2,500 light meter frames and covers.
1,000 inside meter frames and covers.

Blank proposals can be obtained at the office of the Supply Department, Room 826, Tremont Building. The bidder must leave his proposal and a certified check for \$500, payable to and to become the property of the City of Boston if the proposal is not carried out. A bid in duplicate, without the check, must be left with the City Auditor prior to opening the bids. The bids will be publicly opened and read on Wednesday, July 19, at 12 o'clock m., at Room 826, Tremont Building. The successful bidder must give a bond for \$1,500 from a company doing business in Massachusetts. The superintendent reserves the right to reject any or all proposals if he deems it for the best interests of the city so to do.

(July 15.) J. EDWARD MULLEN,
Superintendent of Supplies.

CITY OF BOSTON.

TO HEATING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for making repairs to the steam heating apparatus in miscellaneous schools, and doing other work incidental thereto, and giving bond of a surety company therefor in the sum of \$2,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock noon of Monday, July 31, 1911, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

(July 15.) CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

CITY OF BOSTON.

TO MASON CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for paving yard, etc., Benjamin Cushing School, Robinson street, Dorchester, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, July 21, 1911, at said office, with a certified check for \$250, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

THE ORGANIZATION OF THE CONTINUATION SCHOOL IN MUNICH*

By DR. GEORG KERSCHENSTEINER,
DIRECTOR OF EDUCATION IN
MUNICH.

In my last lecture I endeavored to show the principles on which the continuation school is organized and the relation it must bear to the whole life of the pupil. Before I describe the organization of the continuation school in Munich, it may be well to draw a picture of the characteristics which a continuation school ought to have, if it is to be a true place of education for the people, and perhaps also, in order to bring the form of the school into stronger relief, at the same time to state what it ought not to be.

The first fundamental principle of a rightly organized continuation school is that it must extend to the eighteenth year of every boy or girl who is not being educated in a higher school. It is of no advantage to a constitutional state to make its opportunities of culture accessible only to a small percentage. When all citizens of the state have the right to participate in its affairs and to exert influence on its executive through the suffrage, it is the business of the state to provide all with an education that will enable them to make a reasonable use of this right. During several decades we believed in Germany that it was sufficient to give opportunities for boys and girls to continue their education after quitting the primary school and to leave the use of such opportunities to their own free will. The United States, France, and especially England are still of this opinion. England points not without justifiable pride to the very large attendance at its night schools. The evening courses at the excellent School of Technology in Manchester were attended by twenty-five thousand pupils, while Munich, having four-fifths of the population of Manchester, had only about eighteen thousand pupils in its compulsory continuation schools in the same year. But it is not enough to count only the number of pupils. We must also ask, how many hours' instruction does each receive? And we then find that in Manchester the pupil received sixty-three hours a year, while in Munich he received three hundred and thirty hours in the year.

In Germany everybody is now convinced that the voluntary continuation school no longer suffices for the educational needs of modern states. As long as the continuation school remains optional, thousands of employers will prevent their youthful workmen from making use of its opportunities, except at the end of their day's work, when mind and body are fatigued. And even in cases in which some reasonable employers would be willing to grant their boys time for study, they would probably do it only if the training in question were principally in the interest of their own trade. The number of employers who see farther and recognize that it is of the greatest importance not only for business but also for the community at large not to let the man disappear in the workman, but to take his moral and civic education in hand betimes, is too small to achieve any appreciable progress in the universal education of the people by means of purely voluntary continuation schools. We must remember that a voluntary continuation school will not reach those who need it most, that is to say, the innumerable boys and girls in our large towns who have

a family only in name or no family at all. No one will voluntarily seek an opportunity of culture after the burden and heat of the day, unless he already possesses certain moral qualities that incite him to attend to his own education at the cost of trouble and inconvenience to himself. These are the reasons that have convinced us in Germany that compulsory attendance at the continuation school between the ages of fourteen and eighteen is absolutely indispensable.

But if this compulsory continuation school is to be in reality a home of education, it must in the second place engage the interest of its pupils. But it can engage their interest only if it interweaves its teaching with the trade of the pupil. For the most capable pupils desire to get on in their trade and by help of their trade. Many have made it their choice from inclination, and have a lively interest in its technicalities. This is a perfectly justified interest. If the school appeals to this interest it may be sure of gaining the heart of its pupil. And if it has gained its pupil's heart it can lead him whither it will, on to *theoretical* as well as *practical* ground, and particularly on to the ground of moral and civic teaching.

Now, if the school is to be brought as much as possible into intimate contact with the life of the pupil, it must, in the third place, possess workshops and laboratories for practical work as the center of its entire organization. There it can ennoble and intensify the work of boys and girls, and put processes that too frequently approach them only in a purely mechanical aspect on the basis of practical and scientific reflection. The youthful worker of present-day economic life has in no way remained an object of education in the same sense as was the apprentice of four or five hundred years ago, in the times of rigorous guild regulations. He has become more and more an instrument of cheap labor. The larger the business the more one-sided is often the apprentice's training, and the smaller the business the more insignificant is generally the work intrusted to him. If, then, the pupil is to learn the meaning of real joy in work, this school must fill up the gaps left in the boy's education by the present economic conditions of life. It can do this only if it takes in hand the pupil's practical work and makes this the center of its entire system of teaching.

If the school stopped here, however, it would but imperfectly fulfil its purpose. The end of all education is not the technically competent workman, but the citizen of the state, who not only seeks to advance his own welfare through his work, but also consciously places his work in the service of the community. The fourth essential of the continuation school is therefore the attitude of regarding technical education only as means for mental and moral training. I have already pointed out in general terms how the organization must be adapted to this object, and propose to show more clearly now by the example of Munich. Not until the organization has entered on this path will the continuation school prove itself valuable enough to justify the large expenditure which it requires.

It would be extremely one-sided to establish schools of this kind for men workers alone. The more the population of a country increases and the harder the struggle for existence consequently becomes, the more is the wife obliged to contribute to the support of the family and the more pressing is therefore the necessity of giving girls opportunities of training,

not only in the household knowledge that helps to preserve a family from ruin, but also in the different branches of trade by which she may later earn a livelihood. Indeed, in greatly overpopulated states the continuation school is even more important for the girls than for the boys. In our great factory centers, where husband and wife go out to work, family life and family education are in innumerable cases well-nigh annihilated. Thus a new source of danger for the life of the state arises. If it were possible to develop a strong family feeling and to reinstate the family in its old educational functions by training women to their duties as mothers and housewives and giving them the opportunity of performing these tasks our anxiety for the education of growing lads would be considerably reduced. The difficulty of organizing continuation school for girls lies in the fact that these schools have to fulfil a twofold task. In the first place a girl must be trained for her vocation proper as mother and housewife, and in the second place, marriage being uncertain, for a calling by which she can support herself. It is therefore, necessary for both elementary and continuation schools to keep these two objects in view. As long as the time at its disposal is too short, it will have to pay chief attention to the training of the housewife and mother and then turn to the training for a vocation.

It is very probable that most towns will have financial difficulties in equipping really good continuation schools for both boys and girls at the same time. The municipalities will be obliged, as has been the case in Munich, to content themselves at first with establishing the compulsory continuation school for one sex. The better the school is organized, the more surely in the course of time will public opinion demand the same schools for the other sex and find ways and means to support them from the public purse.

Before I proceed to give you a picture of the Munich organization, let me place before you a short sketch of the entire school system of the town. The primary school is compulsory for boys from six to fourteen, for girls from six to thirteen. The number of primary school pupils is 70,000 in a population of 580,000. All children from the day laborer's up to the prime minister's attend these schools. No fees are paid.

Kindergartens for children from the age of three to six are attached to most primary schools. Attendance is voluntary and not free of charge.

Girls and boys who pass up to higher schools to prepare for the professions of scholars, engineers, clergymen, higher state officials, etc., leave the primary school at the age of ten. There are thirteen public and fourteen private schools for this purpose (*Gymnasien*, *Realschulen*, *Oberrealschulen*, and higher girls' schools). Attendance is not free of charge, but very cheap — about one dollar a month.

The compulsory primary school is followed by the compulsory continuation school for all boys and girls who do not attend a higher school. Attendance is compulsory for boys during the whole of their apprenticeship but not beyond their eighteenth year; it is compulsory for girls for three years. Attendance is free of charge. The compulsory continuation school for boys is again followed by an optional continuation school for persons over eighteen, which was attended last year by 2,600 pupils, and represented at least twelve hours' weekly instruction. Attendance is not free of charge — but also very cheap — fifty cents to a dollar a month.

* Lecture delivered under the auspices of the National Society for the Promotion of Industrial Education.

The compulsory continuation school for boys has eight to ten hours' instruction weekly. The compulsory continuation school for girls has at present only three hours' instruction weekly; from the year 1912 it will have six hours. But side by side with this compulsory continuation school are a voluntary continuation school, with six to twelve hours' instruction weekly, and a voluntary eighth class in the primary school with thirty hours of instruction a week.

The compulsory continuation schools for boys contain in round numbers 9,400 pupils; the compulsory continuation schools for girls contain 7,500 pupils, the voluntary continuation schools for girls, including the eighth class, 3,700 pupils. All in all, therefore, there are about twenty thousand pupils under eighteen years of age in these continuation schools. In addition to these there are 10,000 pupils in the higher boys' and girls' schools of the town (7,000 boys and 3,000 girls).

Thus about one hundred thousand children, that is, 18 per cent of the entire population and 93 per cent of all the boys and girls between six and eighteen in Munich, attend the public schools of the town.

The 9,000 pupils of the compulsory continuation schools for boys are distributed in fifty-two trade schools and twelve general schools. The trade schools are attended by all boys who are apprenticed to any trade, the general schools by unskilled workmen (about one-thousand one-hundred), day laborers, barrow men, errand boys, and servants. These general schools also receive the apprentices of trades that are too small to have special trade schools established for them.

The 7,500 girls in the girls' compulsory continuation school are distributed over forty schools in the town. They receive without exception household teaching. Twelve hundred of the 3,700 pupils of the voluntary continuation school are in the voluntary eighth class, 1,300 in the household department of the continuation school for girls, 900 in the commercial, 300 in the trade department. The classes of the voluntary continuation school for girls are distributed in twenty-one schools.

A trade school is established in Munich for every trade that has at least twenty-five apprentices. Trades with a great number of apprentices (such as machine-builders, mechanics, locksmiths, joiners, bakers, butchers, publicans) have at their disposal several trade schools in different parts of the town, in order to shorten the distance to school. The only exception is that the 1,200 commercial apprentices are housed in a single building in the center of the town.

The apprentices' trade schools, with their higher divisions for journeymen and masters, that is, with their voluntary continuation schools, are distributed in seven schoolhouses throughout the town. One of these schoolhouses contains only the commercial apprentices, a second principally the different branches of painters, a third the various building and arts trade, a fourth the printing and reproducing trades, fine mechanics and machine locksmiths, a fifth the different kinds of woodworkers. The butchers' trade school is combined with the town slaughterhouse. The gardeners' trade school has its own grounds. Six of the fifty-two trade schools are still in the buildings of the primary schools.

All trade schools are under the direct supervision of nine head-masters or directors, with subdirectors for each single school.

To most trade schools is attached an

association of employers, who bear the expense of school material, take part in the discussions on the plan of instruction, have the right of proposing technical teachers, assist in the supervision of the practical subjects, co-operate in the examination of apprentices, and help to spread interest in the school and to further its prosperous development. This intimate connection of an employers' association with the aims and tasks of a trade continuation school established by public money has in many cases proved an exceedingly useful arrangement. The interest of the employers in the education of the apprentices is considerably increased. And when this is achieved, the association naturally does not content itself with furthering the education of the apprentices in the school alone, but seeks to raise the standard of their calling in their own workshops as well. This is of course a process that takes place very gradually.

Each continuation school also possesses its own school board, consisting of a head master of the trade school, a member of the municipality, and three employers of the trade. It is the business of this board to manage the affairs of the school and especially to keep watch on the regularity of attendance.

Every apprentice spends one whole day or two half-days of his working week in a trade school. As a rule this involves a reduction in wages. Some employers' associations, however, pay wages on both school and work days.

In the fifty-two trade schools there are about one hundred and twenty teachers entirely attached to the school and about three hundred who give lessons there in addition to other work. The teachers are recruited from all kinds of professions and vocations. Academic and normal-school teachers co-operate with master workmen, journeymen, artisans, and agriculturalists; and they exert an excellent influence upon each other. The artisan, the master, and the journeyman learn to respect the schoolmaster, and the schoolmaster learns to respect the workman, who is engaged with him on the same educational problem.

The yearly expenditure for the compulsory apprentices' trade schools and for the voluntary journeymen's trade schools amounted last year, aside from the annual building expenses, in round numbers to 900,000 marks. The individual continuation school pupil therefore costs about eighty marks, whereas each primary school pupil costs ninety-three marks, and each pupil in the higher schools 200 marks. The expenses of the primary school are borne principally by the town, the expenses of the higher schools are with few exceptions borne by the state, and the expenses of the continuation school are borne by state and town together.

The annual net expenditure for the compulsory and voluntary continuation schools for girls amounts to about 400,000 marks, and is borne by the town alone.

So much for the external organization. When we turn to the internal organization of the compulsory continuation school, we find, as already pointed out, practical instruction in workshop, laboratory, shop, and garden in the center of every apprentices' trade school. This instruction represents two to three hours a week.

Teaching in drawing and arithmetic is most intimately connected with this practical instruction. Nothing is drawn that has not been made in the workshop. And every process in work or construction is followed out in figures. By making out both preliminary estimates and bills the pupil learns the value not only of material and work but also of the time

that has been spent upon the work. It is particularly useful for the apprentice to recognize by these bills how much the time he has spent on the work — and this of course is very great with apprentices — increases the cost of production. Special care is taken in making out bills and estimates to let the pupil learn to calculate not only the cost of materials and time but also all other items of cost, arising from the deterioration of machines and tools, the interest on capital, carriage and various other sources of expense.

Practical instruction is also intimately connected with the study of materials, tools and machines. The pupil makes acquaintance with these almost exclusively through his own practical work. He is especially familiarized with the mechanical laws under which machines and tools work.

Moreover, whenever the work in hand demands a knowledge of physics and chemistry to show the pupil the reasons for what he does, or teach him how to make new experiments with success, he receives instruction in special laboratories in the conceptions and laws required for well-considered work.

The technical education of the apprentice is never planned with a view to letting him make masterpieces. On the contrary, we endeavor to let him find pleasure in simple, careful, thorough, conscientious work in genuine materials, and to encourage him to new attempts through the feeling of security in his own power.

His moral insight is enlarged by German lessons. We read good authors in class and place at the pupil's disposal a selection of good books from the school library for reading at home.

In addition to this the pupils have one lesson weekly in religion up to their sixteenth year.

Civic instruction is generally planned as follows in the different trade schools: First, the historical development of the trade to which the pupil belongs is discussed. He is shown in the struggles of his fellow workers the continually growing interdependence of interests among all citizens of a community. Concrete examples of devotion to a common cause are placed before him. Thus by degrees he recognizes how the problems arose which occupy town and nation to-day, and learns the duties and rights of the individual within the state.

This insight is strengthened into the will to consider others and to devote himself to common purposes by the association of pupils in working groups, especially in the last school year.

Hygienic training is given not only by special instruction in hygiene, but also by gymnastics and games on Sunday afternoons and during the school holidays. An association of young men of the cultivated classes, especially young army officers, places well-trained leaders at our disposal on Sundays, who take hundreds of apprentices for walks in the environs of the town.

The association of apprentices among themselves outside the schools, for the pursuit of common interests, is, on the other hand, but little developed. This is a kind of thing that cannot be done by command — it must grow out of the spirit of the school. Not only is the organization still too young for this, but the whole conception of pupils' associations is still too young in Germany. In one school alone — a higher mercantile school for girls — has an institution of the kind been developed with eminent success, thanks to the devotion of the head master. And in one trade school for boys a mutual

assistance fund managed by the boys themselves works very well. But these examples are still isolated ones.

The organization I have described at present exists in this complete form only in Munich. I have already said that Württemberg has adopted the same organization for the whole country, that similar institutions are to be found in Baden, that the canton of Zurich in Switzerland, has quite recently promulgated a new continuation school law which in many respects resembles its Munich predecessor, and that, finally, the city of Vienna has erected at a cost of eight million crowns a central building for apprentices' continuation schools, the framework of which is exactly the same as in Munich. Thus it is seen that South Germany, Austria, and German Switzerland have started on the road of Munich's continuation-school organization. Also in North Germany the greatest energy is being expended on the problem of compulsory continuation schools, but at present without any attempt to base the organization on the school workshop.

The reason for this must be sought not only in the fact that pedagogical opinion in North Germany is still very strongly permeated with the idea of so-called general culture, but also in the difference between the South German and the North German employer. The latter is mostly an ardent opponent of the school workshop. And another reason is perhaps the difficulty with which organizers and schoolmen can make up their minds to accept the innovations of a colleague. It is a fundamental characteristic of human nature that everyone who has a question to solve likes to have contributed his own share to the solution. There is a German riddle that illustrates what I mean: "What is the difference between God and a German professor?" And the answer is: "God knows everything, and the German professor knows everything better." This "knowing better" is always a hindrance to the quick realization of a good thing. I do not wish to throw a stone at anybody. For we can all make the same observation about ourselves. We are all inclined to know things better than our colleagues. Especially when we have worked on a special hobby, consistently and energetically, for many years, it is unspeakably difficult so to enter into the ideas of another man who does not agree with us, that we can do him justice on all sides. Nevertheless, experience will show in the case in question that the purely theoretical continuation school which entirely avoids practical teaching will not fulfill its purpose. In your country it is hardly probable that this experience will be necessary. You have already excellent school workshops in schools of the most various kinds, the value of which for the education of the man as opposed to the workman has been brilliantly demonstrated in the publications of the National Society for the Promotion of Industrial Education. The essential reason why the continuation school should not become a purely theoretical school is that its limitation to theoretical instruction would form an almost insuperable barrier to transforming our schools into educational institutions for community life. The transformation of schools into institutions of this kind, or, as I express it, into communities of labor, is the fundamental problem of all school organization. Its solution is the task of the present century. As long as our schools of all kinds, not the continuation schools alone, are not organized as communities of labor, they will not prepare their pupils as they should for the

great labor community that surrounds us, the state. I can give no better illustration of what I mean than in a quotation from your excellent countryman, Prof. John Dewey, in his *Moral Principles of Education*:

I am told that there is a swimming school in a certain city where youth are taught to swim without going into the water, being repeatedly drilled in the various movements which are necessary for swimming. When one of the young men so trained was asked what he did when he got into the water, he laconically replied, "Sunk." The story happens to be true; were it not, it would seem to be a fable made expressly for the purpose of typifying the ethical relationship of school to society. The school cannot be a preparation for social life, excepting as it reproduces, within itself, typical conditions of social life.

All our present schools are such swimming schools on dry land, as far as social education is concerned. We may give our pupils a vast amount of instruction as to their relation to state and society. But we do not accustom them to regard their work from this point of view, and we give them no opportunity of making practical use of their knowledge in the service of their fellow pupils. Our schools are therefore no schools for social service. But nothing could be better adapted for this purpose than the continuation schools I have described, in as far as they are intimately combined with workshops and laboratories. For there is no place more suitable for uniting pupils for community of labor than workshops, laboratories and experimental gardens.

The only path to real state community is to accustom the children from their earliest years to do their work not only for their own personal advantage but also for the advantage of their youthful companions. Only thus can we hope to develop the two great fundamental virtues of devotion to aims outside ourselves and of consideration for the interests of others. And only thus will it in all probability be possible to preserve our great modern constitutional states from the dangers that threaten them through their own industrial, economic, social and political development.

LONDON'S TEACHING STAFF.

The teaching staff for all kinds of schools numbers about 20,000. In the elementary schools of London there are about 16,460 permanent certificated teachers, of whom about 5,260 are men and about 11,200 are women. Of these about 13,200 (4,600 men and 8,600 women) have been trained, *i. e.*, have been through a course at a training college. There are some 700 teachers in nonprovided schools who are not certificated.

SALARIES.

The salaries are: Ordinary elementary schools—head masters, £150 to £400; head mistresses, £125 to £300, according to size of school; assistant masters, fully certificated, rise from £100 to £200, and assistant mistresses from £90 to £150. Central schools—head masters, £200, rising by increments of £10 to £400; head mistresses, £150, rising by increments of £8 to £300, according to size of school; assistants, if required to produce special qualifications for, teaching the subjects in the school course, receive £10 a year above the salary paid in ordinary schools, but with the same maxima. Teachers in schools situated in difficult neighborhoods receive a special allowance of £7 10 shillings a year.

LIST OF FIRST APPOINTMENTS.

The salaries bill for teachers in elementary schools alone amounts to about

£2,550,000 per annum. In the council's own elementary schools there is one assistant teacher for every 45.7 children. Every decimal point by which this average is reduced means an increased annual expenditure of between £3,000 and £4,000.

In order to meet the new demands of the council's elementary school service and to replace teachers who leave the service through death, disablement or other causes, the council has hitherto formed each year a list of specially selected students who will be leaving training colleges in the summer. This list is known as "The List of First Appointments." The number to be placed on this list is limited to 300, and as there is great competition to obtain a place on the list the council is able to select the best teachers for its service. During the currency of this list appointments may be filled by transfer of teachers from other schools or on the unattached staff. This staff is composed of persons who are in the permanent service but who are not at the moment attached to any particular school. It is only after the list in question has become exhausted that vacancies in the council's schools have hitherto been thrown open to all candidates.

PROMOTION.

On the average a teacher spends seventeen and one-quarter years in the service before being promoted to a head teachership. Some eighty head teacherships fall vacant every year and appointments to the posts are made almost without exception from within the service. Candidates for head teacherships, if within the service, must first be placed on the promotion list.

The promotion list is formed by the committee after the fullest consultation with the managers and inspectors and after several hundred of the best qualified applicants have been interviewed by members of the teaching staff subcommittee and the principal officers. Men candidates for the promotion list must have had ten years' experience in London schools and women candidates eight. The promotion list continues in force for two years; at the end of that time a fresh list is formed.

METROPOLITAN DISTRICT.

Consists of 30 municipalities, including Boston, or 13 cities and 17 towns, all within 10 miles of State House. Population in 1910, 1,378,435, or 151,577 more than in 1905. Total valuation of taxable property in district on April 1, 1910, \$2,214,446,549, of which \$820,681,126 was outside of Boston. Net municipal debt of district, \$104,213,329, of which the 29 municipalities outside Boston owed \$34,626,564. The total net metropolitan debt for water, parks, sewers, and Charles River Basin improvements on February 1, 1911, was \$60,008,172, which added to the net municipal debt makes a total of \$164,221,401. Of 1910 tax rates, the highest was Chelsea's (\$22.40); the lowest (except Nahant's) was Milton's (\$11.90). Only four towns and no city had a lower tax rate than Boston, *viz.*, Nahant (\$9), Milton (\$11.90), Brookline (\$12.50), Swampscott, (\$15.00). Total of registered voters in district outside of Boston in 1910, 121,914; total registered in Boston, 110,326. Democratic majority over all in entire district in 1910, for Governor, 23,128. In the 35 years, 1875-1910, the population of the district outside Boston increased 454,287, or 179.16 per cent; in Boston, 328,666, or 96.12 per cent.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, JULY 22, 1911.

No. 29

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 45, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 21, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

The Board of Street Commissioners will give public hearings on the days specified on the following petitions:

TUESDAY, AUGUST 1, AT 11 O'CLOCK.

Keeping and Storage of Gasoline.—Alvan T. Fuller, 4-6-8 Columbus avenue; Dr. E. T. Sloane, Inc., 615 Albany street; H. E. Wright & Sons, Spice street, Charlestown; J. W. Maguire Company, 16 Harcourt street; J. W. Maguire Company, 743 Boylston street; Farnham & Nelson Company, 47 Union avenue, Jamaica Plain; Max Shoolman, 590 Cambridge street, Brighton; James A. Carr, 1183 Bennington street, East Boston; Lawrence & Stanley Garage Company, Wheelock avenue, Dorchester; the E. L. Patch Company, 99 North street; Timothy J. Sullivan, 628 Fourth street, South Boston; the Taylor-Palmer Garage Company, 171 Huntington avenue; John Carcano, Intervale street, Roxbury; Charles H. K. Skillen, 240 Adams street; Potter Drug & Chemical Company, 135 Columbus avenue; Park Square Auto Station, 664 Commonwealth

avenue; John F. Suckling, 8 Pinckney road, Dorchester; Commissioner of Public Works, Chestnut Hill avenue; Robert Treat Paine, 2d., 264 Beacon street.

Bay Window.—Alfred and Francesco Velona, at 152 Havre street.

Alterations and Additions to Track Locations.—West End Street Railway Company, Centre street, from Green street to south of Seaverns avenue; Dudley street, from Magazine street to Upham's Corner; Neponset avenue, from Adams street to Taylor street; Washington street, near Lotus place.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

HOSPITAL DEPARTMENT.

Advertises for proposals for supplying 455 tons, more or less (2,000 pounds to the ton), of first quality hard white ash anthracite coal. Blank forms for proposals may be obtained at the office of the superintendent of the hospital. Bids to be filed at same office.

Bids close Monday, July 24, at 12 m.

Advertises for proposals for supplying 5,000 tons, more or less (2,240 pounds to the ton), of best quality semi-bituminous coal. Blank forms for proposals may be obtained at the office of the superintendent of the hospital. Bids to be filed at same office.

Bids close Monday, July 24, at 12 m.

PARK DEPARTMENT.

Advertises for proposals for furnishing and delivering 1,000 or more seat-posts and 50 or more park seats. Designs for same may be obtained at the engineer's office, Franklin Park. Bids to be filed at the office of the commissioners, Olmsted Park, Jamaica Plain.

Bids close Monday, July 24, at 3 p. m.

Advertises for proposals for furnishing about 5,000 cubic yards of loam for the North Meadow, Back Bay Fens. Bids to be filed at the office of the commissioners, Olmsted park, Jamaica Plain.

Bids close Tuesday, August 1, at 3 p. m.

Advertises for proposals for building seam face granite walls and stairway at the bears' den, Franklin Park. Blank forms for proposals may be obtained at the office of the engineer, Franklin Park. Bids to be filed at the office of the commissioners, Olmsted Park, Jamaica Plain.

Bids close Tuesday, August 1, at 3 p. m.

PUBLIC BUILDINGS DEPARTMENT.

Readvertises for proposals for razing and removing the Old Court House building. Plans and specifications may be seen at the office of the Superintendent of Public Buildings, Room 30, Old Court House. Bids to be filed at same office.

Bids close Friday, August 4, at 12 m.

PUBLIC GROUNDS DEPARTMENT.

Advertisers for proposals for building attendant's office at Highland Park standpipe, Roxbury. Plans and specifications may be seen at the office of the Engineers' Division, Public Works Department, Room 60, City Hall. Bids to be filed at the office of the Superintendent, East Cottage street, Dorchester.

Bids close Tuesday, August 1, at 12 m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertisers for proposals for repairing the draw pier at Dorchester Avenue Bridge. Plans may be seen at the office of the Division Engineer of the Bridge and Ferry Division, Room 60, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Tuesday, July 25, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertisers for proposals for constructing a tar macadam roadway in Champney street, Brighton. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 24, at 12 m.

Advertisers for proposals for constructing brick block pavement in Hinsdale street, city proper. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 24, at 12 m.

Advertisers for proposals for constructing asphalt pavement in Tremont street, city proper. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 24, at 12 m.

Advertisers for proposals for laying wood block pavement in Washington street, Roxbury. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 31, at 12 m.

Advertisers for proposals for repaving and regulating Bristol and Albany streets. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, July 31, at 12 m.

Gives notice to contractors that certain streets in South Boston, Brighton, West Roxbury, Dorchester and Roxbury are to be laid out and constructed, and that all work to be done in said streets by persons or corporations must be done before Monday, August 14, 1911.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertisers for proposals for constructing sewerage works in Watson street. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Friday, July 28, at 12 m.

Advertisers for proposals for constructing sewerage works in Market street, Brighton. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Tuesday, August 1, at 12 m.

Advertisers for proposals for constructing sewerage works in Perthshire road, Brighton. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Tuesday, August 1, at 12 m.

PUBLIC WORKS DEPARTMENT (Water Service).

Advertisers for proposals for laying water pipes in various streets in the city proper, Dorchester and West Roxbury. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Friday, July 28, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertisers for proposals for repairing and retubing horizontal return tubular boilers for various schoolhouses. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, July 24, at 12 m.

Advertisers for proposals for making repairs to the steam heating apparatus in various schools. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, July 31, at 12 m.

Advertisers for proposals for setting and piping up boilers in miscellaneous schools. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Wednesday, August 2, at 12 m.

SUPPLY DEPARTMENT.

Advertisers for proposals for furnishing the hay, grain and straw required by various city departments during the month of August. Blank forms for proposals may be obtained at the office of the superintendent, Room 826, Tremont Building. Bids to be filed at same office.

Bids close Thursday, July 27, at 11 a. m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending July 20, 1911:

BUILDING DEPARTMENT.

Appointment of Henry J. Clayton as a plumbing inspector, to fill a vacancy occasioned by the absence on leave of John J. Donavan, for a period of six months, at a salary of \$1,600 per year, such appointment to take effect Friday, July 21, 1911.

COLLECTING DEPARTMENT.

Designation of John J. Leahy to serve as Acting City Collector at such times as the City Collector may be absent during the four weeks commencing July 17, 1911.

FINANCE COMMISSION.

Temporary appointment of E. Douglass McPherson, 10 Crawford street, Roxbury, as office boy for the period of two weeks, from July 10 to July 22, at wages of \$5 a week during vacation period of regular office boy.

HEALTH DEPARTMENT.

Appointment of Thomas Harwood, John J. Mahoney and Henry J. Hart, as inspectors of provisions in this department, at a salary of \$750 each per annum, to take effect July 13.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—Stella Yenkovska, kitchen woman, \$15 per month; Kate Molyneaux, kitchen woman, \$15 per month; Boghes T. Philibossian, house porter, \$25 per month; Margaret Kane, ward helper, \$5 per week; Annie Burgess, wardmaid, \$12 per month; Martin J. Connelly, orderly, re-employed, \$35 per month; Percy G. Jennison, orderly, \$25 per month; Hubert N. Allen, elevator boy, \$7 per week; Annie L. Nickerson, assistant table girl, \$14 per month; Blanche Borthiewicz, laundress, \$16 per month; Bridget McLaughlin, laundress, \$16 per month; Nellie Kenney, laundress, \$16 per month; Grace McEachern, head nurse, re-employed, \$35 per month; Dr. Richard S. Austin, second assistant in pathology, \$41.66 per month.

Temporary.—Addie C. Keay, seamstress, \$30 per month; Julia M. Hare, cook, \$35 per month.

The following employees have had increase of wages:

Dr. Alexander M. Burgess, second assistant in pathology at \$41.66 to first assistant in pathology, \$83.33 per month. Lizzie Buchter, chambermaid at \$4 per week to temporary laundress at \$5 per week; Annette Sullivan, nurse at \$12.50 per month to head nurse, \$35 per month; Alice H. Bigelow, nurse at \$5 to \$8.33 per month.

INFIRMARY DEPARTMENT.

The Boston Infirmary Trustees transmit the following changes in the pay roll of this department for the week ending July 13, 1911:

Long Island Hospital.

To Fill Vacancy.—James A. Hurley, orderly, \$25 per month.

Temporary Employment.—James N. Murphy, carpenter, \$55 per month.

PENAL INSTITUTIONS DEPARTMENT.

Appointment of Arthur J. O'Neil to the position of night officer at the House of Correction, at a salary of \$480 per year, to date from July 14, 1911.

Promotion of Joseph D. Sullivan to the position of officer at the House of Correction at a salary of \$660 per year, to date from July 21, 1911.

SUPPLY DEPARTMENT.

Designation of John T. Caulfield to be Acting Superintendent of Supplies from July 22 to August 5, inclusive.

RETIREMENT OF VETERANS.

Public Works Department (Sanitary Service).

John P. Wilson, a veteran of the Civil War, employed in the sanitary service as a laborer at \$704.25 per year, has been retired on half pay under the recent act of the Legislature.

OVERTIME ALLOWED.

Bath Department.

For the week ending Thursday, July 13, 1911:

D Street Gymnasium.—James P. Sweeney, custodian, 2½ days at \$3, \$7.50.

Dover Street Bath House.—Timothy H. Sullivan, custodian, 2 days at \$3, \$6; John Stevens, engineer, 3 days at \$24 per week, \$10.29; David J. Butler, laundry work, ½ day at \$2.50, \$1.25; Charles F. McCarthy, laundry work, 2½ days at \$2.50, \$3.75; Annie G. Hession, laundry work, ½ day at \$10 per week, \$0.72; Nellie Salarie, laundry work, ½ day at \$10 per week, \$0.72; Mary E. Sullivan, laundry work, ½ day at \$10 per week, \$0.72; Mary Wheeler, laundry work, ½ day at \$10 per week, \$0.72.

Cabot Street Bath House.—James Kil-duff, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; David M. Owens, custodian, $1\frac{1}{2}$ days at \$3, \$4.50.

Ward 9 Gymnasium.—Joseph R. Havey, custodian, $1\frac{1}{2}$ days at \$3, \$4.50.

Commercial Cars.—Frank P. Guthrie, chauffeur, 3 days at \$2.50, \$7.50; Thomas Murphy, chauffeur, 3 days at \$2.50, \$7.50.

Teams.—William T. Foley, driving teams, 2 days at \$2.25, \$4.50; James P. Saunders, driving teams, $1\frac{1}{2}$ days at \$2.50, \$3.75.

Charlesbank Floating Bath House, Women.—Timothy Harrington, assistant custodian, 1 day at \$2.50, \$2.50.

McKenzie Beach Bath House.—David Curtain, emergency, $1\frac{1}{2}$ days at \$2.25, \$3.38; Richard P. Morrissey, life guard and helper, 2 days at \$2.25, \$4.50; Frank J. Pendergast, custodian, 1 day at \$3, \$3.

L Street Bath House.—Patrick F. Burke, Jr., life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Charles Cox, life guard and helper, 1 day at \$2.25, \$2.25; John J. Donovan, janitor, $\frac{1}{2}$ day at \$2.50, \$1.25; Dennis V. Driscoll, life guard and helper, 1 day at \$2.25, \$2.25; Frederick J. Dunlap, life guard and helper, 1 day at \$2.25, \$2.25; Eugene P. Durgin, life guard and helper, 1 day at \$2.25, \$2.25; William H. Dunn, life guard and helper, 1 day at \$2.25, \$2.25; James A. Foley, life guard and helper, 1 day at \$2.25, \$2.25; Joseph F. Goode, life guard and helper, 1 day at \$2.50, \$2.50; Francis J. Horgan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael F. Kelly, custodian, 1 day at \$3, \$3; Leo C. Knoele, janitor, 1 day at \$2.25, \$2.25; Charles E. Richards, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Abraham Rich, life guard and helper, 1 day at \$2.25, \$2.25; Arthur L. Roust, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph D. Sullivan, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph Corbett, emergency, $\frac{1}{2}$ day at \$2.25, \$1.13; Charles Gardner, emergency, $\frac{1}{2}$ day at \$2.25, \$1.13; Richard J. Hogan, emergency, $\frac{1}{2}$ day at \$2.25, \$1.13; Leo Walsh, emergency, $\frac{1}{2}$ day at \$2.25, \$1.13.

North End Park Bath House.—Martin J. Clougherty, life guard and helper, $2\frac{1}{2}$ days at \$2.75, \$6.88; John W. Lawton, custodian, $2\frac{1}{2}$ days at \$3, \$7.50; Dennis J. Swanson, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Angelo Serino, life guard and helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Eugene F. O'Donnell, laundry work, $2\frac{1}{2}$ days at \$2.50, \$6.25; John J. White, fireman, $\frac{1}{2}$ day at \$2.50, \$1.25; Sarah Donovan, matron, 1 day at \$10 per week, \$1.43; Jennie Govornie, laundry work, 1 day at \$10 per week, \$1.43; Margaret Hurley, laundry work, 1 day at \$10 per week, \$1.43; Mary Hooley, laundry work, 2 days at \$10 per week, \$2.86; Margaret Lydon, laundry work, 1 day at \$10 per week, \$1.43; Margaret McGonagle, laundry work, $1\frac{1}{2}$ days at \$10 per week, \$2.15; Mary Motto, laundry work, 1 day at \$10 per week, \$1.43; Nellie Morley, laundry work, 2 days at \$12 per week, \$3.44; Louise Niacco, laundry work, 1 day at \$10 per week, \$1.43; Minnie O'Hare, laundry work, 1 day at \$10 per week, \$1.43; Catharine Sullivan, laundry work, 1 day at \$10 per week, \$1.43.

Election Department.

Mulhern, matron, $1\frac{1}{2}$ week at \$10 per week, \$0.71; Raffaele DeFlorio, laborer, 1 day at \$2.25, \$2.25; Hugh Bagley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Hugh Greeran, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; Bartholomew Sullivan, 1st, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael Lally, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; Michael O'Neill, park keeper, 2 days at \$2.50, \$5; Hazel E. Brackett, assistant instructor, $\frac{1}{2}$ week at \$11.50 per week, \$1.64; Michael A. Martin, laborer, 1 day at \$2.25, \$2.25; John E. Daley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; William L. Tuttle, subforeman, 1 day at \$3.25, \$3.25; John Younnie, watchman, 1 day at \$2.50, \$2.50; Alexander Boyd, laborer, 1 day at \$2.25, \$2.25; George T. Cuning, laborer, 1 day at \$2.25, \$2.25; Michael Flanagan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; William J. Memery, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick J. Owens, laborer, 1 day at \$2.25, \$2.25; John T. Conboy, working foreman, 1 day at \$3, \$3; James M. Kavaney, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; John J. Connolly, 1st, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.81; Thomas F. Dolan, 1st, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; Peter M. McManus, working foreman, 1 day at \$3, \$3; Thomas Curley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; William Fanning, laborer, 1 day at \$2.25, \$2.25; Martin Finnigan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas Dillon, chauffeur, 1 day at \$3, \$3; John J. Regan, chauffeur, 1 day at \$2.50, \$2.50; James Sweeney, shepherd, 1 day at \$2.50, \$2.50; Michael Connolly, laborer, 1 day at \$2.25, \$2.25; Martin Corcoran, laborer, 1 day at \$2.25, \$2.25; William Fallon, laborer, 1 day at \$2.25, \$2.25; Thomas Ganley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas McDowell, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; Patrick Cain, laborer, 1 day at \$2.25, \$2.25; James J. Davis, laborer, 1 day at \$2.25, \$2.25; Jeremiah J. Downey, playkeeper, 1 day at \$2.50, \$2.50; Michael Connors, 2d, laborer, 1 day at \$2.25, \$2.25; Thomas Garvin, laborer, 1 day at \$2.25, \$2.25; John Higgins, laborer, 1 day at \$2.25, \$2.25; Michael Murphy, laborer, 1 day at \$2.25, \$2.25; James F. Hurley, laborer, 1 day at \$2.25, \$2.25; Michael Walsh, 1st, laborer, 1 day at \$2.25, \$2.25; Patrick J. Shields, playkeeper, 1 day at \$2.50, \$2.50; Matthias Costello, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; Patrick F. McNamara, laborer, 1 day at \$2.25, \$2.25; Michael J. Grady, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66; Patrick Connolly, 2d, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66; Michael Hickey, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66; John J. Lannon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Julius Weidner, subforeman, 1 day at \$3.25, \$3.25; Terrence N. Griffin, playkeeper, 1 day at \$2.75, \$2.75; John J. Abbott, playkeeper, 1 day at \$2.25, \$2.25; Andrew Buttomer, playkeeper, 1 day at \$2.25, \$2.25; Marke Burke, playkeeper, $\frac{1}{2}$ day at \$2.25, \$0.28; Patrick Connolly, 1st, playkeeper, 1 day at \$2.25, \$2.25; Michael Downes, playkeeper, 1 day at \$2.25, \$2.25; Festis Wallace, playkeeper, 1 day at \$2.25, \$2.25; John J. Tatten, Jr., fireman, $\frac{1}{2}$ day at \$2.50, \$1.88; Peter Barker, working foreman, 1 day at \$3, \$3; Thomas Mulcahy, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Charles A. Hogan, timekeeper, $1\frac{1}{2}$ days at \$2.50, \$4.38; Robert

Hindle, machinist, $\frac{3}{4}$ day at \$3, \$2.25; William H. Smith, steam roller engineer, $1\frac{1}{2}$ days at \$3, \$3.75; James H. Kelley, janitor, $1\frac{1}{2}$ days at \$2.50, \$3.44; Patrick Flynn, laborer, $1\frac{1}{2}$ days at \$2.25, \$4.22; Patrick Glennon, 2d, laborer, 1 day at \$2.25, \$2.25; Lawrence F. Kilroy, laborer, 1 day at \$2.25, \$2.25; James M. Morrissey, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Cornelius J. Shields, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John Welsh, laborer, 1 day at \$2.25, \$2.25; John J. Meehan, laborer, 2 days at \$2.25, \$4.50; Bernard J. Conley, machinist, $1\frac{1}{8}$ days at \$3, \$3.38; Robert Coulsey, working foreman, 1 day at \$2.75, \$2.75; Thomas Heavey, laborer, 1 day at \$2.25, \$2.25; Michael McNulty, subforeman, 1 day at \$3.25, \$3.25; George W. H. Timson, timekeeper, 1 day at \$2.50, \$2.50; Arthur E. Ogden, clerk, $\frac{1}{2}$ week at \$23.01 per week, \$5.75; Richard Walsh, steam roller engineer, $\frac{1}{2}$ day at \$3, \$2.25; Joseph P. Howe, greenkeeper, 1 day at \$2.50, \$2.50; Samuel J. Moran, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas J. Delaney, watchman, 1 day at \$2.50, \$2.50; John J. Flanagan, machinist, $\frac{1}{2}$ day at \$3, \$0.38; William E. Connell, laborer, 1 day at \$2.25, \$2.25; Charles Lennon, laborer, 1 day at \$2.25, \$2.25; John F. Murphy, storekeeper, 1 day at \$3, \$3; Moses A. Coulter, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.63.

Public Buildings Department.

For the week ending Thursday, July 13, 1911:

Daniel J. Fitzpatrick, watchman, 1 day at \$2.50, \$2.50; Max Stone, watchman, 1 day at \$2.50, \$2.50; Henry Satoris, watchman, 1 day at \$2.50, \$2.50; Thomas J. Barry, janitor, 1 day at \$2.50, \$2.50; John Hagerty, janitor, 1 day at \$2.50, \$2.50; Harry J. Foster, janitor, 1 day at \$2.50, \$2.50; Ferdinand W. Webber, janitor, 1 day at \$2.50, \$2.50; Benjamin D. Drohan, janitor, 1 day at \$2.75, \$2.75; Daniel J. Sheehan, chief janitor, 1 day at \$3, \$3.

Public Grounds Department.

For the week ending Thursday, July 13, 1911:

Fred Bonang, chauffeur, 1 day, \$2.75; Charles H. Cooke, gardener, 1 day, \$3; Michael Dooley, sodder, 1 day, \$2.25; Joseph Germaine, nurseryman, 1 day, \$3; Edward Grey, tree climber, 1 day, \$2.50; Charles Hayes, sodder, 1 day, \$2.50; James J. Hines, sodder, 1 day, \$2.25; John A. Johnson, sodder, 1 day, \$3; Frank Hill, tree expert, 1 day, \$3; Joseph P. Kilday, tree climber, 1 day, \$2.50; John B. Murphy, tree climber, 1 day, \$2.50; Aaron G. Parker, tree climber, 1 day, \$2.50; Patrick Taylor, watchman, 1 day, \$2.50; Richard Tyler, sodder, 1 day, \$3; Thomas F. Walsh, messenger, 1 day, \$3; Richard Welch, stableman, 1 day, \$2.50.

Public Works Department (Bridge Service).

Kerrigan, inspector, 1½ days at \$2.50, \$3.13; James N. Brennan, inspector, 1½ days at \$2.50, \$3.75; John T. Kane, inspector, 1 day at \$2.50, \$2.50; John A. Roe, inspector, 2 days at \$2.50, \$5; Jeremiah J. Moynihan, inspector, 2 days at \$2.50, \$5; D. J. O'Brien, inspector, 1 day at \$3, \$3.

Public Works Department (Sewer Service).

For the week ending Thursday, July 13, 1911:

Michael Conley, bracer, 1 day at \$2.50, \$2.50; Edward J. Ryan, inspector, 1 day at \$3.50, \$3.50; Patrick J. Hartigan, teamster, 2 days at \$2.50, \$5; Nathan F. O'Neil, teamster, 1 day at \$2.50, \$2.50; Timothy Kennedy, bracer, 1 day at \$2.50, \$2.50; Michael O'Keefe, bracer, 1 day at \$2.50, \$2.50; Timothy Reardon, sewer cleaner, 1 day at \$2.75, \$2.75; 13 laborers, 13 days at \$2.25, \$29.25; Luke Lyons, laborer, 2 days at \$2.50, \$5; 2 laborers 4 days at \$2.25, \$9; 2 laborers 1 day at \$2.25, \$2.25; Robert J. Pumphret, subforeman, 1 day at \$3.50, \$3.50; Charles Carroll, carpenter, 1 day at \$3.50, \$3.50; Frank J. Johnson, yardman, 1 day at \$2.50, \$2.50; Edward Grant, bracer, 1 day at \$2.50, \$2.50; 5 laborers 5 days at \$2.25, \$11.25; 1 laborer, ½ day at \$2.25, \$1.13; William J. Nutley, inspector, ½ day at \$5, \$2.50; John Driscoll, bracer, ½ day at \$2.50, \$1.25; Jere Doyle, bracer, ½ day at \$2.50, \$1.25; Dennis Burke, bracer, 1½ days at \$2.50, \$3.75; 3 laborers, 1½ days at \$2.25, \$3.38; 1 laborer, 1 day at \$2.25, \$2.25; Frank Brothers, laborer, 2 days at \$2.50, \$5; Thomas Giblin, bracer,

1 day at \$2.50, \$2.50; William O'Brien, subforeman, 1 day at \$4.25, \$4.25; 9 laborers, 9 days at \$2.25, \$20.25; 2 laborers, 2 days at \$2.25, \$4.50; 1 laborer, 1 day at \$2.25, \$2.25; Thomas McDonald, yardman, 2 days at \$2.75, \$5.50; William Mullen, laborer, 2 days at \$2.50, \$5; Patrick Foley, bracer, ½ day at \$2.50, \$1.25; J. E. Brown, steam roller engineer, 8 hours at \$0.50 per hour, \$4; William L. Johnson, steam roller engineer, 1 day at \$3, \$3; J. H. McGee, steam roller engineer, 8 hours at \$0.50 per hour, \$4; 5 laborers, 5½ days at \$2.25, \$12.38; Daniel Holleran, bracer, 2 days at \$2.50, \$5; 1 laborer, ½ day at \$2.25, \$1.13; 2 laborers, 3 days at \$2.25, \$6.75; 2 laborers, 4 days at \$2.25, \$9; Edward Doherty, bracer, 1 day at \$2.50, \$2.50; Bernard Gibbons, bracer, 1 day at \$2.50, \$2.50; Thomas Glennon, inspector, 1 day at \$3.50, \$3.50; Thomas Hughes, flusher, 1 day at \$2.75, \$2.75; 5 laborers, 5 days at \$2.25, \$11.25; Thomas Flaherty, bracer, 1 day at \$2.50, \$2.50; James King, bracer, 1 day at \$2.50, \$2.50; John J. McKenna, inspector, 1 day at \$3.50, \$3.50; 4 laborers, 4 days at \$2.25, \$9; 3 laborers, 3 days at \$2.25, \$6.75; 1 laborer, 1 day at \$2.25, \$2.25; 1 laborer, ½ day at \$2.25, \$1.13; James Brayden, subforeman, ½ day at \$3, \$1.50; Joseph Driscoll, laborer, ½ day at \$2.50, \$1.25; James Lynch, laborer, ½ day at \$2.50, \$1.25; Patrick Fay, laborer, ½ day at \$2.25, \$1.12; Michael O'Brien, laborer, ½ day at \$2.25, \$1.13; 1 laborer, ½ day at \$2.25, \$1.13; Charles R. Palmer, steam roller engineer, 1 day at \$4.67, \$4.67; Christopher Kenney, laborer, 1 day at \$2.50, \$2.50; 1 laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Water Service).

For the week ending Thursday, July 13, 1911.

James B. Connolly, yardman, 1½ day at \$3, \$1.59; Patrick Farry, laborer, ½ day at \$2.25, \$1.20; Patrick Hannon, laborer, ½ day at \$2.25, \$1.20; Edward A. McGonnagle, chauffeur, 1½ day at \$2.75, \$1.46; Thomas G. Nicholson, laborer, 1½ day at \$2.25, \$1.20; Thomas J. Toolin, laborer, 1½ day at \$2.25, \$1.20; John Wall, laborer, 1½ day at \$2.25, \$1.20; Francis T. Ware, laborer, 1½ day at \$2.25, \$1.20; Thomas Bowen, teamster, 1½ day at \$2.25, \$1.20; Francis J. Cadigan, laborer, 1½ day at \$2.25, \$1.20; Raffaele Curcio, teamster, 1½ day at \$2.25, \$1.20; Daniel H. Curley, repairer, 1½ day at \$2.50, \$1.33; D. J. Heffernan, laborer, 1 day at \$2.25, \$2.25; John Ganley, driller, 1½ day at \$2.75, \$1.46; Lawrence E. Murphy, repairer, 1½ day at \$3, \$1.59; James J. O'Brien, teamster, 1½ day at \$2.25, \$1.20; John J. O'Brien, teamster, 1½ day at \$2.25, \$1.20; Edward A. Pyne, teamster, 1½ day at \$2.25, \$1.20; Daniel J. McCarthy, teamster, 1½ day at \$2.25, \$1.20; Jeremiah J. McLaughlin, teamster, 1½ day at \$2.50, \$1.33; Thomas Magee, teamster, 1½ day at \$2.25, \$1.20; Michael F. Mulkern, teamster, 1½ day at \$2.25, \$1.20; Michael Ronan, teamster, 1½ day at \$2.25, \$1.20; Thomas F. Corcoran, laborer, 1½ day at \$2.25, \$1.20; Coleman Mullen, laborer, 1½ day at \$2.25, \$1.20; Reuben Overton, driller, 1½ day at \$2.25, \$0.77; John Sullivan, No. 1 machinist, 1½ day at \$2.75, \$1.20; Charles M. Driscoll, plumber, 4 days at \$3.50, \$14; Patrick Lawless, helper, 2½ days at \$2.25, \$5.48; Edward E. Hasenfus, plumber, ½ day at \$3, \$1.88; John J. Welch, helper, 2½ days at \$2.25, \$4.92; James McMahon, laborer, 1 day at \$2.25, \$2.25; John McNulty, laborer, 2 days at \$2.25, \$4.50; Dennis Shea, laborer, 1½ days at \$2.25, \$4.08; James P. McKenny,

teamster, 1½ day at \$2.25, \$1.83; John Concannon, laborer, 1 day at \$2.25, \$2.25; John J. Barry, laborer, ½ day at \$2.50, \$2.11; Alexander Thompson, plumber, 1½ day at \$3, \$1.69; Patrick F. O'Connor, gateman, 1½ day at \$3, \$1.69; John Walsh, laborer, 1½ day at \$2.25, \$1.27; Timothy Donovan, laborer, 1½ day at \$2.25, \$1.27; Dennis Regan, foreman, 1½ day at \$3.50, \$1.97; Patrick Lonergan, laborer, ½ day at \$2.50, \$1.56; Charles Quigley, laborer, 1 day at \$2.25, \$2.25; Martin Burke, laborer, 1 day at \$2.50, \$2.50; William H. McKenna, laborer, 1½ day at \$2.25, \$0.77;

Meier Branch.—F. B. Lang, laborer, ½ day at \$2.50, \$0.63; T. McAuliffe, laborer, ½ day at \$2.25, \$0.28; P. J. McCarthy, plumber, ½ day at \$3.50, \$0.88; T. Sullivan, plumber, ½ day at \$3.50, \$0.88; P. Clougherty, laborer, 1½ days at \$2.25, \$3.45; M. Flaherty, inspector, 1½ day at \$2.75, \$1.46; E. Mahoney, laborer, 1½ day at \$2.25, \$1.20; J. Sullivan, laborer, 1½ day at \$2.25, \$1.20;

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Acting Mayor. Those awarded without public advertisement are specially indicated. Week ending July 20, 1911:

PARK DEPARTMENT.

W. H. Ellis, \$3,482.20; George T. Rendle, \$3,611.80; John B. Graham, \$3,645.

Engineer's estimate, \$4,200.

PUBLIC WORKS DEPARTMENT (Paving Service).

On July 18, 1911, the Acting Mayor approved a contract with M. F. Gaddis for tar macadam roadway in Harvard avenue, between Harvard and Washington streets. Bids on this work were opened July 3, 1911, and were as follows:

M. F. Gaddis, \$3,486.01; James Doherty, \$3,618; William J. Rafferty Company, \$3,644.36; J. C. Coleman & Sons Co., \$3,645.35; Daniel E. Lynch, \$3,945.50; John McCourt & Co., \$3,980.35.

Engineer's estimate, \$6,500, which includes furnishing paving blocks, edge-stones and flagging.

On July 18, 1911, the Acting Mayor approved a contract with McGuire & Kiernan for paving and regulating Joiner street, between Chelsea and Water streets. Bids on this work were opened July 10, 1911, and were as follows:

McGuire & Kiernan, \$2,674; C. W. Dolloff & Co., \$2,677.50; John F. O'Connell, \$2,826.25; Coleman Brothers, \$2,949.90; Boston Contracting Company, \$2,961.50; M. F. Gaddis, \$3,313.90; John McCourt & Co., \$3,486.15; D. E. Lynch, \$3,516.05.

Engineer's estimate, \$3,400.

On July 18, 1911, the Acting Mayor approved a contract with Warren Brothers Company for artificial stone sidewalks in Ocean street, westerly side, between Welles avenue and Roslin street. Bids on this work were opened July 10, 1911, and were as follows:

Warren Brothers Company, \$633.22; Jeremiah J. Sullivan, \$633.60; D. M. Biggs & Co., \$652.80; William J. Rafferty Company, \$768.

Engineer's estimate, \$700.

On July 18 the Acting Mayor approved a contract with C. W. Dolloff & Co. for paving and regulating Jenner street, Charlestown. Bids on this work, opened July 10, were as follows:

C. W. Dolloff & Co., \$2,027.87; McGuire & Kiernan, \$2,046.19; John F. O'Connell, \$2,158; Boston Contracting Company, \$2,250.89; Coleman Brothers, \$2,253.75; John McCourt & Co., \$2,658.98; D. E. Lynch, \$2,692.53.

Engineer's estimate, \$2,500.

PUBLIC WORKS DEPARTMENT (Sewer Service).

On July 18, 1911, the Acting Mayor approved a contract with James L. Pierce & Co. for cleaning sewers in Commercial street, city proper, and Brooks street, East Boston. Bids on this work were opened June 30, 1911, and were as follows:

James L. Pierce & Co., \$537.46; Richard A. Nagle, \$573.16.

On July 18, 1911, the Acting Mayor approved a contract with Charles A. Jacobs Company for pipe sewers and drains in Kent street, between Vernon and Roxbury streets. Bids on this work were opened July 7, 1911, and were as follows:

C. J. Jacobs Company, \$883.95; E. De Christoforo, \$992.65; George J. Regan, \$1,215.40; John McCourt & Co., \$1,193.25.

Engineer's estimate, \$1,149.95.

On July 18, 1911, the Acting Mayor approved a contract with M. De Sisto & Co. for pipe sewers and drains in Branch street, between Butler and Medway streets, Dorchester. Bids on this work were opened July 10, 1911, and were as follows:

M. De Sisto & Co., \$704.50; George J. Regan, \$823.45; John McCourt & Co., \$925.75; Murphy & Dolan, \$925.95; D. E. Lynch, \$980.95; E. De Christoforo, \$1,005.92; William J. Rafferty Company, \$1,027.79; Antony Cefalo, \$1,068.83.

Engineer's estimate, \$965.33.

SCHOOLHOUSE DEPARTMENT.

On July 18 the Acting Mayor approved a contract with the Paine Furniture Company for furnishing sixty-three slashed oak desks at \$17.19 each, a total of \$1,082.97. Bids on these desks, opened July 5, were as follows:

Paine Furniture Company, \$1,082.97; Heywood Brothers & Wakefield Company, \$4,158; Kenney Brothers & Wolkins, \$2,272; C. D. Redmond, \$4,510.

SUPPLY DEPARTMENT.

On July 18 the Acting Mayor approved a contract with Scott & Paine for furnishing hay and straw in the Roxbury district for the month of July. Bids on these supplies, opened June 29, were as follows:

	Hay.	Straw.
W. P. Whittemore Company..	\$26 00	\$16 00
Scott & Paine.....	23 50	14 00

On July 20 the Acting Mayor approved a contract with Henry Gray for furnishing, for the Bath Department, 1,200 women's and 600 girl's bathing suits. Bids on these supplies, opened July 19, were as follows:

	1,200 Women's Suits.	600 Girls' Suits.
Columbia Bathing Suit Co..	\$17 00*	\$15 00*
Henry Gray.....	1 26†	1 26†

* Per dozen.

† Per suit.

On July 20 the Acting Mayor approved a contract with the Mechanics Iron Foundry Company for meter frames and covers, about 250,000 pounds of No. 2 iron castings. Bids on these supplies, opened July 19, were as follows:

	2,500 Light Meter Frames and Covers, per Pound.	1,000 Inside Meter Frames and Covers, per Pound.
Lumsden & Van Stone Co...	\$0.03 1/100	\$0.03 1/100
Mechanics Iron Foundry Co.	02 1/2	02 1/2

WITHOUT ADVERTISING.

The Acting Mayor has approved the following contracts awarded without public advertisement; requests of departments to do work with the department forces without advertising; additions to and deductions from contracts:

FIRE DEPARTMENT.

The Acting Mayor has approved a contract made with the Babcock & Wilcox Company, without advertising, for remov-

ing present boiler and installing new boiler in the fireboat Engine 44, the price being \$14,574. In making request for authority to award this contract without advertising the Fire Commissioner states:

"The reason for not advertising for bids for this boiler is that expert authority informs me that this particular make of marine boiler is best suited for the work performed by our fireboats.

"There is urgent necessity, due to age of the present boilers, that this work should proceed immediately."

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Acting Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with macadam traffic road, using the department force, Columbia road, from Hancock street to the railroad bridge, the estimated cost for labor and materials being \$4,675.

Resurface with macadam Spencer street' from Athelwold street to Talbot avenue, the estimated cost for labor and materials being \$2,500.

Resurface with macadam Webster street, from Orleans to Sumner streets, the estimated cost for labor and materials being \$2,375.

Relay with granite block paving Main street (north side), from Boston & Maine Railroad Bridge to opposite Mishawum street, the estimated cost for labor and materials being \$3,000.

Resurface with macadam Huntington avenue, from Tremont street to Wigglesworth street (both roadways), the estimated cost for labor and materials being \$2,200.

"This is maintenance work, and can, in my opinion, be done as advantageously by day labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

Build, with the department force, a sanitary sewer of 24-inch earthen pipe in Noanet street, from Harrison avenue about 240 feet westerly, city proper, the estimated cost for labor and materials being \$3,600.

Build with the department force a sanitary sewer of 10-inch earthen pipe and a surface drain of 15-inch, 12-inch and 10-inch earthen pipe in Seaver street, between Walnut avenue and Harold street, Roxbury, the estimated cost for labor and materials being \$3,397.

"The above work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Acting Mayor:

SCHOOLHOUSE DEPARTMENT.

Deduction, amounting to \$474, on contract with P. J. Sullivan for Lucretia Crocker School, on account of omitting brick partitions round sanitariums and substituting stud partitions, lathed and plastered and painted; omitting stone thresholds, new basement entrance from yard, include area and front steps; omitting two cases first and second floors; omitting brick filling for door; slate par-

titions for urinal; and omitting excavation and brick foundation for urinal and substituting concrete foundation. Original contract, \$5,089; total deductions, \$474; contract as standing, \$4,615.

Deduction, amounting to \$75, on contract with C. A. Bray Company for the Mary Lyon School, on account of changing 8-inch iron pipe inside building 10 feet outside of manhole to 6-inch pipe and the 8-inch iron pipe from 10 feet outside of manhole to sewer in street to Akron pipe. Original contract, \$3,510; total deductions, \$75; contract as standing, \$3,435.

Addition, amounting to \$103.55, on contract with Hooper-Waters Company for Charles Bulfinch School, on account of furring chimney with angle irons, cased with metal lath and plastered with asbestos plastering. Original contract, \$80,657; total additions, \$660.55; total deductions, \$5,266; contract as standing, \$76,051.55.

Additions, amounting to \$165, on contract with the W. A. Snow Iron Works for Warren School, on account of furnishing and setting wire mesh at the bottom of both fire escapes. Original contract, \$3,869; total additions, \$265; contract as standing, \$4,134.

Addition, amounting to \$4,676.70, on contract with Whiton & Haynes Company for U. S. Grant School, on account of changes in plans which necessitate the driving of piles for the foundations. Original contract, \$112,000; total additions, \$4,676.70; total deductions, \$2,275; contract as standing, \$114,401.70.

Addition, amounting to \$85, on contract with John F. Griffin Company for enlargement of Girls' High School, on account of spacing interior studding 12 inches on centers instead of 16 inches as specified. Original contract, \$89,122; total additions, \$85; total deductions, \$1,864; contract as standing, \$87,343.

Deduction, amounting to \$578, on contract with John F. Griffin Company for enlargement of Girls' High School, on account of omission of allowance in contract for fire insurance, \$500; for saving in allowance in contract for plant case, \$150; and an addition amounting to \$72, making net deduction as above. Original contract, \$89,122; total deductions, \$1,864; contract as standing, \$87,258.

SUPPLEMENTAL REAL ESTATE TAX SALE

Advertisements for the final tax sale for the year 1911 are now being prepared.

By a new ruling upon the law, the Collector must advertise and sell, prior to October 1, all real estate upon which the taxes or the special assessments for sewers, edgestones, sidewalks and moth suppression, or the betterments for parks, streets and sewerage works, were assessed prior to 1910 and which have not been paid.

This sale will include all taxes and assessments unpaid for any year, except for the years 1910 and 1911, which years will not be included in this sale. The year of assessment is shown by large numerals printed on the face of your bill.

The full list of estates to be sold will be made up August 1, and the advertisements will go to the printer August 21. The first advertisement will appear in the *City Record*, Saturday, September 2.

The sale will be held Tuesday, September 26, 1911, at the Collector's office, Room No. 11, in the basement of City Hall, Boston, at 9.30 o'clock a. m.

The foregoing notice and information is not required to be sent you, but it is given as a matter of courtesy, that persons

having unpaid taxes or assessments may have ample time to arrange payment and save additional cost and expense. Please note that the Collector cannot delay the advertising or sale of any property beyond the date mentioned herein.

Payments can be made at any time prior to the sale, even if advertised, by including the cost of advertisement, interest, etc., but it will accommodate the department if payment is made before August 1. The earlier paid, the less costs and interest.

APPOINTMENT OF ARCHITECT.

The Board of Trustees of the Library have appointed Messrs. Magenis & Walsh to be the architects in charge of the remodeling of the building on North Bennet street recently selected for the use of the North End Branch Library. The architects will be paid for their services 10 per cent on cost of work, this being the usual commission for such service.

PAYMENT TO DISABLED EMPLOYEE.

The Acting Mayor has approved an allowance made by the Commissioner of Public Works to David F. Crowley of the Sewer Service, 3 days at \$2.25, \$6.75.

BOSTON MUSEUM OF FINE ARTS.

The museum is a permanent public exhibition of original works of the art of Egypt, Greece, Rome, the Orient, and modern Europe and America, supplemented by reproductions of others. It is supported wholly by private gifts and managed by a Board of Trustees, including representatives of Harvard University, the Boston Athenæum, the Massachusetts Institute of Technology, the city and the state, acting through an executive staff and with the cooperation of visiting and advisory committees of citizens. Visitors, about 250,000 annually.

A public museum of art offers the whole people an unfailing source of delight and improvement. The preservation, enrichment and interpretation of museum collections demand liberal financial support. They must be shown under secure and honorable conditions. Unless by gift, they can be increased only through the expenditure of large sums in purchase or exploration. Their care and exposition demands a staff of specialists. In the measure of its power of wise outlay a museum can both widen and deepen its beneficent influence.

The museum is open every day in the year, excepting the Fourth of July, Thanksgiving Day and Christmas. On week days, 9 a. m. to 5 p. m.; Sundays, 1 p. m. to 5 p. m. (November 1 to March 1, 4 p. m.)

Admission is free on every Saturday and Sunday and on public holidays. On other days the entrance fee is twenty-five (25) cents.

Children under fourteen years of age are not admitted unless accompanied by an adult. Except by special permission, the number in charge of one person is limited to four.

BOSTON NOTES.

Boston settled in 1630 by Puritan colonists under Governor Winthrop. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630.

MUNICIPAL BAND CONCERTS.

The Municipal Band of the city of Boston has been organized for this year, with thirty-five men, directed by Dionisio G. Cericola. Concerts will be given on Boston Common on Sunday afternoons, Franklin Park on Saturday afternoons, and in the different sections of the city evenings, starting July 7.

A new feature for this season will be the "Noonday Concerts" on Boston Common. The concert from 12 to 2 p. m. will be given by the Municipal Band. Though an innovation in this country, the success attained by similar concerts in Paris, Berlin and other European centers indicates that the "Noonday Concerts" will be appreciated. It is hoped that, with the co-operation of the directors of the large stores, etc., whose employees will be benefited in the future, that this line of work may be greatly enlarged. Below is a schedule of concerts for season:

Boston Common. Sunday afternoons at 3.30 p. m., July 2 to September 3, inclusive. Labor Day, September 4, 1911, at 3.30 p. m., Municipal Band, thirty-five pieces, Dionisio G. Cericola, leader.

Marine Park, South Boston. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive, and Labor Day, September 4, 1911.

July 23, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

July 30, 3.30 p. m., Kanrich's Band, A. M. Kanrich, leader.

August 6, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

August 13, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 20, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 27, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

September 3, 3.30 p. m., Post 26, G. A. R. Band, William A. Morrell, leader.

Pine Bank, Jamaica Pond. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive.

July 23, 3.30 p. m., B. F. Teel's Military Band, Benjamin F. Teel, leader.

July 30, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 6, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

August 13, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

August 20, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 27, 3.30 p. m., First Corps Cadet Band, John B. Fielding, leader.

September 3, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

Wood Island Park, East Boston. Three concerts, Sunday afternoons, 3.30 p. m.

July 23, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 13, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

September 3, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

Abbottswold, Franklin Park. Saturday afternoons at 3.30 p. m.

July 8 to September 2, inclusive, Municipal Band, Dionisio G. Cericola, leader.

District concerts given in different sections of the city by the Municipal Band, Dionisio G. Cericola, leader. Unless otherwise specified, concerts are from 8 to 10 p. m.

July 25, Central square, East Boston.

July 26, Billings Field, West Roxbury.

July 27, Blue Hill avenue and Norfolk street, Mattapan.

July 28, Hyde Park avenue and Mt. Hope street, Mt. Hope.

August 1, Noonday Concert, Boston Common, 12 to 2 p. m.

August 2, Albany and Dearborn streets, Roxbury.

August 3, Roslindale Playground, Roslindale.

August 4, Neponset Playground, Neponset.

August 5, Noonday Concert, Boston Common, 12 to 2 p. m.

August 9, Columbus Avenue Playground, Roxbury.

August 10, Edward Everett square, Dorchester.

August 11, Thomas park, G and Sixth streets, South Boston.

August 15, Washington park, Roxbury.
 August 16, Charlesbank, West End, city.
 August 17, North Brighton Playground.
 August 18, Peabody square, Ashmont.
 August 22, Heath square, Heath and Park streets, Roxbury.
 August 23, Adams and Common streets, Charlestown.
 August 24, Christopher Gibson Playground, Field's Corner.
 August 25, Sumner and Jeffries streets, East Boston.
 August 29, North square, North End, city.
 August 30, Emerald and Compton streets, South End, city.
 August 31, near 100 Savin Hill avenue, Dorchester.
 September 1, Ashley avenue and Breed street, East Boston.

The schedule herewith presented is subject to change without notice. Postponed concerts will be given as soon as possible after the original date scheduled. No programs will be distributed, but the daily and Sunday newspapers of Boston will print from time to time the weekly schedules, programs and other data pertaining to the concert season. Programs will be announced at all concerts by use of the megaphone.

All communications relating to the concerts should be addressed to Secretary, Walter L. Finigan, of the Music Trustees, Room 905, Carney Building, Boston, for prompt consideration.

The Music Trustees have arranged the following band concerts for the coming week:

WOOD ISLAND PARK, EAST BOSTON, SUNDAY, JULY 23, 1911, AT 3.30 P. M.

E. G. Bates' Band, William J. J. Tobin, Leader.

Program.

1. March. "Memphis, the Majestic." *Alexander*

Mr. H. E. Brenton.
7. Selections from "The Midnight Sons." *Hubbell*
8. Grand Selection from "Aida." *Verdi*
9. March. "Hoch Habsburg." *Kral*

TRUCKING IN CITIES.

A few weeks ago the transportation and distribution of goods in London was discussed at the Royal Society of Arts, and a scheme for delivering package freight from numerous points in the city to a central railroad station, by means of freight subways, was explained in considerable detail. The railroad men present at the meeting asked some very pertinent questions regarding the cost of this system of handling packages and these questions were not satisfactorily answered. From time to time this same subject has been discussed in the United States. When a district in a thriving city becomes so busy that the streets are congested, it is inevitable that a freight subway should be discussed. Nobody knows, however, what this method of transportation will cost, and fortunately there is really no reason for any such very expensive construction, except under unusual conditions, owing to the unexpected reliability and economy of motor truck service. Some of the results obtained by well-managed motor truck delivery departments are extraordinary. By employing competent chauffeurs and routing packages so that no motor truck has an unnecessarily long trip for a single delivery, the work done per truck is very great, and consequently the expense of the chauffeur and the attendant, per package delivered, becomes very small. The speed of delivery is so increased, moreover, that facilities for delivering packages into suburban towns are now afforded at low cost, and the heavy expense formerly incurred in express delivery has been largely avoided. Attention is called to this matter because the elimination of horses from streets of thriving cities, so far as their use for trucking is concerned, is fast passing from the experimental stage into that of a necessity. Dray charges based on horse-drawn vehicles are practically obsolete as correct data for estimating costs. The manufacturer who does not look into motor vehicles carefully is losing an opportunity for considerable economy, and municipal authorities should encourage such vehicles since the presence of horses in a crowded street is undesirable as retarding rapidity of vehicular travel and as contributing to the cost of street cleaning.—*Engineering Record.*

BOSTON WATER SERVICE, PUBLIC WORKS DEPARTMENT.

Miles of supply and distributing mains, 767.35 on February 1, 1911. Total receipts for year 1910, \$2,829,056; cost of maintenance for 1910, \$862,953 (including extension of mains); Metropolitan assessment for 1910, \$1,815,659. Daily average amount of water used during 1910, 87,346,700 gallons, or 130 gallons per capita; Boston's share of Metropolitan water debt on January 31, 1911, \$26,268,708.53, or 79 per cent; Cochituate net water debt, \$386,765.45.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 17, 1911.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President COLLINS in the chair. Absent—Coun. Attridge and Ballantyne.

The Council voted, on motion of Coun. KENNY, to dispense with the reading of the records of the last meeting.

INCREASE IN NUMBER OF FIREMEN.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1911.

To the Honorable City Council:

I respectfully recommend the passage of the accompanying order authorizing the City Auditor to transfer the sum of \$25,000 from the appropriation for Reserve Fund to the appropriation for the Fire Department, Current Expenses.

The Fire Department at present is undermanned and to this very dangerous condition attention has been sharply drawn by the recent fire in the Dorchester district. On the occasion of this fire five machines, three engines and two ladder wagons responded with a force, including officers, of twenty-three (23) men and the requisite full complement is thirty (30) men. This particular instance of undermanning is in nowise exceptional, and is a very fair display of the force permitted with the limited number of men. Some of the criticism of the handling of fires has been due to this condition of undermanning; the department as to individuals is of high efficiency.

I append hereto copies of two written communications from the Fire Commissioner to the Mayor, both dated April 11, 1911. These communications set out the condition of undermanning which obtained at that time, and this condition is far more acute at the present time through the absence of seventy men on regular and legally established vacations. The continuance of this condition must not be tolerated for a moment longer than the time required to terminate it.

As stated in these communications from the Fire Commissioner the contemplated increase in the number of firemen was demanded at that time and has since been demanded. These demands have received the approval of the Finance Commission and the National Board of Fire Underwriters after full investigation.

No person or body of authority and competency has questioned the pressing necessity of the contemplated increase. In the event of a conflagration the preventable damage to property and possibly loss of life would be immeasurable and irreparable, and in this connection any failure on the part of us who have the responsibility of caring for the city would be unpardonable.

No obstructive legal niceties without warrant in the law and which can have only the consequence of idle discussion entailing delay and a continuance of the existing highly dangerous condition, and no petty personal considerations, should be permitted to interfere with the full discharge of our duties in this dangerous situation. The provision in our charter is clear: "In the case of decease, inability, absence or resignation of the Mayor, and whenever there is a vacancy in the office from any cause, the President of the City Council, while said cause continued or until a Mayor is elected, shall perform the duties of Mayor," and so is the further provision pertaining to the absence of both the Mayor and the President of the City Council. I am convinced that the restriction of the exercises of "the powers of the Mayor only in matters not admitting of delay" does not apply in the present instance; I am very firmly convinced that this matter does not admit of delay.

Our duty is plain and our course clear, and we should move in our work with determination and dispatch.

I ask and hope that the City Council will take the requisite action to-day to pass the order herewith submitted to the end that the necessary and proper action of increasing the number of firemen by fifty, thereby conserving the property and preserving the lives of our citizens, may be taken at once.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

April 11, 1911.

Hon. John F. Fitzgerald,
Mayor of Boston:

Sir,—I have the honor to request that the City Council appropriate seventy-five thousand (\$75,000) dollars to cover the salaries and expenses of additional firemen. The great necessity of these men is fully explained in the accompanying letter.

I desire to call your attention to the fact that the appropriation of this department, as passed by the City Council, has been reduced \$68,966.45. This reduction makes it absolutely impossible for the department to enter upon any material expenditure without an additional appropriation.

Without an increase in the fire-fighting force proper fire protection for the city during the summer is very problematic. I request that this matter be brought to the attention of the City Council at once.

Very respectfully,

C. D. DALY,

Fire Commissioner.

April 11, 1911.

Hon. John F. Fitzgerald,

Mayor of Boston:

Sir,—Pursuant to my communications of this date requesting an additional appropriation for the purpose of hiring additional firemen I beg to call your attention to the condition which now exists relative to the inadequate fire service which will confront the city during the summer months.

Quoting from the report of the National Board of Fire Underwriters:

"The fire force, while nominally strong, is seriously weakened by the allowance of time off under the present arrangements: even companies in the most important districts are often reduced to four or five men in quarters during eleven out of twenty-four hours. At such times, companies responding to fires must assist one another with a loss of valuable time at the most critical stage. This is the most serious deficiency of any pertaining to the department and demands immediate attention. The number of men in each company should be increased, or at least provision made for relief men to take the places of all members on vacations, sick and special leave or details and in some cases for those on days off."

"Members are allowed two meal periods of two hours or three of one and one-quarter hours daily, one day off in five and fourteen days' annual vacation. These, with the details, sick leaves, etc., reduce the fire force during eleven and one-half hours each day to about one-half and in many instances less than one-half of the total membership."

"The following figures, taken from the chief's morning reports, show the fire force on the days when a maximum and minimum of men were on duty during two periods of one month each:

DATE.	Total Enrollment of Department.	Employees Present.	Detailled to Shop, etc., from Fire Force.	Detailled to Light House Duty (Recovering from Sickness).	Absent on Days off, Vacation Leave, (Compulsory by Law).	Fire Force for the Day.
1910.						
July 29.....	990	78	13	6	267	626
Aug. 15.....	992	83	13	7	302	587
Nov. 18.....	995	94	16	9	233	643
Dec. 17.....	994	91	16	8	215	664

"The average force available during these two months was 636, or less than two-thirds of the department roll. During the meal periods the fire force on duty at fire stations averaged about 424. These conditions are representative for the past year. In the vacation months, May to November, the number of men in quarters during meal periods sometimes reached the following:

In 13 and 14 man engine and ladder companies, 5
In 9 and 12 man engine and ladder companies, 4
In 7 and 8 man ladder companies, 3
In chemical companies, 3

"An engineer or an assistant is always with each engine, but when the company is reduced to four men there is only one available for hose duty, and in a ladder company with four men present three are available for ladder work. This means, unless the ladder truck is of aerial type, that ladders over 35 feet long can be raised only with the assistance of members of other companies, and that engine companies must also have assistance in getting lines on the fire."

"The extent to which the fire force is reduced during meal hour periods in the summer was illustrated at the general alarm on August 9, 1910. The first alarm for this fire was received at 6.17 p. m. and the sixth or general alarm at 6.30 p. m. Figures compiled from the department's records show that at the time these alarms were received less than 43 per cent of the members of the fire force were in the quarters of their companies. Many men on days off, detailed and leave responded as soon as they knew of the fire, although not required to do so."

"Distribution.—In the congested value district are stationed five engine companies, each with an engine of the first size or larger, three ladder companies, one water tower and a chemical engine; four more engine companies, three ladder trucks, a fireboat, a water tower and a chemical engine are close about its limits. At least two and frequently four engine companies are within one-half mile of any point in this district, but in the center of the area, in the vicinity of the Old State House, are many valuable buildings more than one-quarter of a mile from any company. Elsewhere in the city proper an engine company is usually within one-half mile of any point, although this distance is exceeded in some parts of the Back Bay district."

The above points out clearly the grave danger there is to the city from fire unless adequate steps are taken to increase the present force. Quoting

from the communication of the Finance Commission to the City Council, dated March 22, 1911: "The present Fire Commissioner believes fifty instead of one hundred more firemen will be sufficient, and in this opinion the Finance Commission concurs."

In addition to the above investigation, which corroborates the views of this department in regard to the necessity of additional firemen, I beg to call your attention to the detailed statement of the short-handedness of this department, submitted to this office by the various district chiefs, under date of October 4:

NUMBER OF MEN REQUESTED.

As Reported and Requested by the District Chiefs.

District No. 1.

Engine 5.....	2 men
Engine 11.....	2 men
Engine 40.....	1 man

Total.....	12 men

Grand Total..... 82 men

The above clearly shows that to delay in this matter would be a grave mistake. I therefore ask that this request be brought to the attention of the City Council at the earliest possible moment.

Very respectfully,

C. D. DALY,
Fire Commissioner.

Ordered, That the City Auditor be and hereby is authorized to transfer the sum of \$25,000 from the appropriation for Reserve Fund to the appropriation for Fire Department, Current Expenses, to be expended by the Fire Commissioner for the purpose of increasing the force by fifty men.

The question came on the passage of the order.
Coun. CURLEY—Mr. President, I move the suspension of the rules that the recommendation of his Honor the Acting Mayor may be placed upon its passage.

Coun. BUCKLEY—I move that this order be referred to the Executive Committee.

The PRESIDENT—The question comes on the motion of Coun. Curley that the rule be suspended. All those in favor say "Aye," those opposed "No." It is a vote.

Coun. HALE—Mr. President, I doubt the vote.

The PRESIDENT—Coun. Hale doubts the vote and asks for verification by the calling of yeas and nays. As many as are in favor of suspending the rule say "Yes," those opposed "No."

The Clerk called the roll with the following result, yeas, 3; nays, 4, viz.:

Yeas—Coun. Collins, Curley, Smith—3.

Nays—Coun. Buckley, Hale, Kenny, Smith—4.

The PRESIDENT—Three having voted in the affirmative and four in the negative the motion to suspend the rule is defeated.

Coun. CURLEY—Mr. Chairman, I move a reconsideration of the vote just taken, hoping the same will prevail.

Coun. HALE—Mr. President, isn't Coun. Buckley's motion in order?

The PRESIDENT—Coun. Curley has the floor. The Chair rules that Coun. Buckley's motion when made was out of order and consequently is not entertained at this time.

The President ruled that the matter stand referred to the Executive Committee without any reference.

Coun. HALE—Do I understand, Mr. President, that Coun. Buckley's order is now before the Council?

The PRESIDENT—The Chair will state that if the Chair states nothing the order will be referred to the Executive Committee under the rule.

Coun. HALE—Mr. President, does the rule cover this?

The PRESIDENT—It does.

Coun. HALE—That is entirely satisfactory then. I hope that Coun. Curley's motion will not prevail, and that the order will go to the Executive Committee.

Coun. McDONALD in the chair.

Coun. McDONALD—The question comes on reconsideration of the vote whereby the Council refused to suspend the rules.

Upon a *vive voce* vote the motion was declared carried, whereupon Coun. CURLEY doubted the vote and asked that the roll be called. The roll was called, and the motion was lost, yeas 3, nays 4, viz.:

Yeas—Coun. Collins, Curley, McDonald—3.

Nays—Coun. Buckley, Hale, Kenny, Smith—4.

Reconsideration was refused and the order referred to the Executive Committee.

FENDER GUARD, NORTHERN AVENUE BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1911.

To the City Council:

I beg to transmit herewith a letter from the Acting Secretary of War, and an instrument and plan attached thereto, granting the City of Boston permission to construct and maintain an extra fender guard on the Northern Avenue Bridge.

It is customary, I am informed, that these documents should be filed in the office of the City Clerk.

Respectfully,
WALTER L. COLLINS, Acting Mayor.

War Department,
Washington, July 13, 1911.

Sir,—Referring to your application of the 1st ultimo, I transmit herewith, for retention, an instrument granting the City of Boston permission to construct and maintain an extra fender guard on the Northern Avenue Bridge, across Fort Point channel, at Boston, Massachusetts, as shown on the plans attached to said instruments, subject to the conditions and provisions set forth therein.

Very respectfully,

ROBERT SHAW OLIVER,
Acting Secretary of War.

(Annexed were plans, etc., referred to.)
Placed on file.

COST OF LAND, L STREET BATH.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1911.

To the City Council:

In compliance with the request contained in your order passed at the meeting of July 7, to the effect

that the Bath Trustees be requested, through his Honor the Mayor, to submit to the City Council an estimate of the cost of an additional strip of beach at L street, 500 feet in length and of suitable depth, with cost of suitable shelters on same, I beg to transmit a communication from the secretary of the Bath Trustees furnishing the estimate required.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

City of Boston,

Bath Department,

July 17, 1911.

To the City Council:

City Hall, Boston, Mass.:

Gentlemen,—Pursuant to your request of July 7, 1911, relative to an estimate of the cost of an additional strip of beach on the Strandway at L street, 500 feet in length and a suitable depth, with cost of suitable shelters on same, I beg to report for the Bath Trustees that the matter has been investigated with the result that the cost of the proposed addition will approximate \$50,000, the items to cost as follows:

Shelters and lockers.....	\$25,000
Building up beach and sand filling.....	10,000
Fences.....	8,000
Contingent expenses.....	7,500

The strip of beach acquired could be had with the approval of the Park Department under whose jurisdiction the Strandway now is.

These figures have been secured as speedily as possible, with the view that the Council may be willing to take immediate action on the matter, and are as correct as could be ascertained.

Very truly yours,

HUGH C. McGRATH,
Secretary Bath Trustees.

Referred to the Executive Committee.

NURSES FOR HEALTH DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, July 11, 1911.

To the City Council:

In reply to your request contained in an order passed at the meeting of June 26 to the effect "that his Honor the Mayor be requested to report to this body what use is being made of the appropriation for two additional nurses to be employed by the Health Department on Milk and Baby Hygiene Work," I transmit herewith a statement from the secretary of the Health Department and beg to inform your honorable body that my approval of the appointments mentioned therein was given on July 10, 1911.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

Health Department,

Old Court House, Boston, July 10, 1911.

Hon. Walter L. Collins,

Acting Mayor of Boston:

Dear Sir,—I am directed by the Board of Health to inform the Acting Mayor that it has received a copy of the order of the City Council, bearing date of the 26th ult., and referred to the Mayor's office on the 5th inst., to be returned with report.

The Board begs to report that it has appointed, pending the approval of the Acting Mayor, the two nurses referred to in the order for service in the Division of Child Hygiene, their duties to commence on the 10th inst.

I have the honor to be,

Yours very truly,

F. H. SLACK, Secretary.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Gaetano la Marca, for compensation for damage at 90 Prince street, caused by a defect in the water pipes in front of said premises.

Mrs. H. C. Dove, for compensation for damage to clothing by employees of Public Grounds Department, while spraying tree on Walnut avenue.

Charles Goldberg, for compensation for damage at 25-27 Lauriat avenue, by defective sewers.

Mrs. Thomas F. Maloney, for compensation for damages caused by clogging of main sewer at 164 Cedar street.

Frank J. Kane, for compensation for injuries received while in discharge of his duties in the Sanitary Division.

Executive.

Petitions for sidewalks, viz.:

(Brick with Granite Edgestone.)

Joseph Hendry, 839 Parker street, Ward 19.

(Artificial Stone with Granite Edgestone.)

George F. Monahan, corner Friend and Traverse streets, Ward 6.

C. F. Hovey Company, 19-21 Chauncy street, Ward 7.

Estate of John J. Haynes, 37 Ferdinand street, Ward 10.

Harris Leshefsky, 65 Hemenway street, Ward 10.
Henry Green, 65-71 Astor street, Ward 10.

Henry Green, 590 Newbury street, Ward 11.

J. F. Crane, 971-973 Blue Hill avenue, Ward 21.
W. Prentiss Parker *et al.*, Blue Hill avenue, Ward 21.

Hosford & Williams, 125 Park street, and 2-4-6 Corey street, Ward 23.

Hyman Rambach, northeast corner Mt. Hope street and Hyde Park avenue, Ward 23.

Louis A. Ginsburg, 386 Ashmont street, Ward 24.

Max Goldman, 1953-1955 Dorchester avenue, and 3-5 Fuller street, Ward 24.

W. B. Rice, 114 King street, Ward 24.

William Brummett, Centre street, corner Dorchester avenue, Ward 24.

Petitions for licenses to sell, rent or lease firearms, viz.:

Sullivan Square Loan Office, 546 Main street, Ward 4.

Standard Loan Office, 64 Salem street, Ward 6.

Patrick J. O'Brien and John J. Byrne, to run power boats for the conveyance of passengers on that portion of Charles river between the town of Dedham and the city of Newton, bounded by the City of Boston.

Ordinances.

The Master Bakers Cooperative Association of Boston, that ashes be removed without charge.

COAL AND COKE LICENSE.

A copy of coal and coke license granted by the Secretary of the Commonwealth was received.
Placed on file.

KEEPING OF GASOLINE.

Notice was received from Alban T. Fuller, Malvern street and Commonwealth avenue, Ward 25, that said building was used for the keeping of gasoline, and of intention to use such for the ensuing year.
Placed on file.

NOTICE OF HEARING.

Notice was received from the Railroad Commissioners of hearing on July 20, on petition of the Boston Elevated Street Railway Company, for approval of location of elevated structure on Cambridge Bridge.
Placed on file.

RAILROAD POLICE.

Notice was received from the Boston, Revere Beach & Lynn Railroad that D. Henry O'Hara is no longer in the employ of said railroad as a police officer.
Placed on file.

CHILDREN ON STREETS.

The following was received:

City of Boston,

Law Department, July 12, 1911.

To the Honorable the City Council,
City Hall, Boston:

Gentlemen,—I am requested in your name by the assistant City Clerk for my opinion as to whether or not the proposed ordinance relative to children on streets, could be enforced if adopted in its present form, and if not what are the difficulties in the way of its enforcement.

In reply I would state that the superintendent of police or a judge of one of our municipal courts could give an opinion as to the difficulties in the enforcement of the proposed ordinance which would be of some value. I have had no experience in criminal proceedings against minors for petty offences and do not know what evidence the courts would require, or what is usually done when minors below the age punishable by imprisonment are brought into court and fined for petty offences.

As I wrote to the Mayor under date of December 22, 1910, I think that the first section should be amended by inserting another exception substantially as follows: "or unless said child is traveling in the most direct course between the place of his employment or an evening school at which he is an attendant, and his home."

Without this amendment some question could be raised as to the legality of this ordinance.

The practical difficulties in enforcing the ordinance are those which apply to all statutes and ordinances imposing fines upon minors under fourteen years of age. The question is if they do not pay the fine or their parents do not pay it for them, what shall be done with them. The same question arises when the child breaks the Sunday law or plays baseball in the street or is guilty of a large number of petty offences.

Yours truly,

THOMAS M. BABSON,
Corporation Counsel.

Referred to the Committee on Ordinances.

CONTINGENT EXPENSES.

A communication was received from the City Auditor, in accordance with chapter 486, section 25, of the Acts of 1909, presenting a statement of the

amounts expended by the Mayor and the City Council for contingent expenses for the quarter ending July 1, 1911.

Placed on file.

CONSTABLE'S BOND.

The City Treasurer, after duly approving of the same, submitted the constable's bond of Paul R. Gast.

Approved by the Council.

MINORS' LICENSES.

President COLLINS submitted reports on petitions of five newsboys, two bootblacks and four vendors for minors' licenses—recommending that licenses be granted.

The licenses were granted on the usual conditions.

RELEASE OF LAND.

The President called up unfinished business, No. 1, viz.:

1. Whereas, The Board of Aldermen, by an order approved by the Mayor March 26, 1872, took a strip of land 10 feet in width, "from Dudley street, at the corner of Brook avenue, eastwardly to tide water," for the purpose of laying a main drain or common sewer; and

Whereas, The Commissioner of Public Works, now having charge of said land and easement, has notified the City Council that a portion of said land and easement is no longer required for public purposes; it is hereby

Ordered, That his Honor the Mayor be and he is hereby authorized, in the name and behalf of the city, and in accordance with the provisions of chapter 25, section 50, of the Revised Laws of Massachusetts, to declare the rights and easements so taken in that portion of said strip of land lying to the east of Norfolk avenue, as shown on a plan signed by W. H. Bradley, Superintendent of Sewers, dated February, 1872, and deposited in the office of the Public Works Department, Sewer and Water Division, Sewer Service, and the sewer built therein, to be abandoned, such declaration of abandonment to be made for a nominal consideration.

On June 26 the foregoing order was read once and passed, yeas 7, nays 0.

The order was given its final reading and passed, yeas 7, nays 0.

SOLDIERS' RELIEF.

Coun. HALE, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of July.

Report accepted; order passed.

BINDING OF COMMITTEE RECORDS.

Coun. HALE offered an order—That the Clerk of Committees be directed to have properly transcribed and bound in convenient volumes the records of committees in his possession which have not yet been so transcribed; and that he be authorized to expend for the said purpose such sums from time to time as may be approved by the President of the City Council; the amounts so expended to be charged to the appropriation for City Council, Incidental Expenses.

Passed.

COST OF CONSTRUCTION, ETC., OF BRIDGES.

Coun. KENNY offered an order—That the Corporation Counsel be and hereby is authorized in the name of the City of Boston to apply to the Supreme Judicial Court for the appointment of commissioners under chapter 581 of the Acts of 1911 to apportion among the cities and towns and street railways the cost of construction, reconstruction and repairs of Chelsea Bridge, Meridian Street Bridge and Chelsea Street Bridge.

In connection with the order the Clerk read the following communication:

City of Boston,

Law Department, July 11, 1911.

Committee on Finance of the City Council,

City Hall, Boston:

Gentlemen,—Mr. Dever says that it is the desire of the Committee on Finance that the Corporation Counsel advise the committee whether it is expedient at the present time to authorize the loan of \$250,000 for the reconstruction and repair of Chelsea Bridge before taking any prior action under the statute and how the rights of the city may be reserved in the matter of contribution.

In reply I would state that as the United States government has ordered that the Chelsea Bridge should be taken down unless it was reconstructed with a draw of suitable width prior to November 1, it is necessary that the loan should be voted and the contracts let at once. In my opinion the committee should report and the Council should pass the loan order immediately.

The order of the City Council authorizing me to apply to the Supreme Judicial Court for the

appointment of a commission to apportion the cost can be passed at any time. There is no haste as to the appointment of a commission because the commission cannot apportion the cost until the work is done and the cost ascertained.

I have sent to Mr. Dever an order authorizing me to apply to the Supreme Court for the appointment of a commission.

Yours truly,

THOMAS M. BABSON,
Corporation Counsel.

The PRESIDENT—The question comes on the passage of the order.

The motion was carried and the order was passed.

Coun. KENNY—In view of the passage of that order and of the explanation which has been made to the Council by the Corporation Counsel, and inasmuch as we have already considered the matter in the Committee on Finance, in order that we may give this matter a first reading this afternoon, I move that we recall from the Committee on Finance the order for a loan of \$250,000 for a temporary bridge to replace a bridge north of the Mystic river.

The motion was carried and the order was recalled, viz.:

Ordered, That the sum of two hundred and fifty thousand dollars (\$250,000) be appropriated, to be expended by the Commissioner of Public Works, for the construction of a temporary bridge across the north channel of the Mystic river between the cities of Boston and Chelsea, said bridge to be built in conjunction with the city of Chelsea, under the statutes governing said joint construction, and to serve in place of the present structure known as "Chelsea Bridge North"; and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.

The roll was called and the order was given its first reading and passed, yeas 7, nays 0.

SWIMMING POOL, PARKER HILL.

Coun. CURLEY presented a petition from the Parker Hill Improvement Association asking that the reservoir on Parker Hill be converted into a swimming pool.

In connection with the petition Coun. CURLEY offered an order—That the Park Commission and Bath Commission, sitting jointly, be requested to consider the advisability of establishing a swimming pool at Parker Hill and the cost of converting Parker Hill Reservoir to such use.

The order was passed.

DAY IN SEVEN, PENAL INSTITUTIONS EMPLOYEES.

Coun. CURLEY offered an order—That the Penal Institutions Commissioner be requested, through his Honor the Mayor, to grant all employees in the Institutions Department at Deer Island one day off in seven, as is now granted at the State Prison.

Coun. HALE—I think that ought to be referred to the Executive Committee. I would like to so move.

The motion was carried, and the order was referred to the Executive Committee.

INVESTIGATION OF MILK PRICES, ETC.

Coun. CURLEY offered an order—That the District Attorney, through the City Council, be requested to investigate the increase in price of milk to consumers in Boston and vicinity with a view to determine if a combination exists among the milk contractors organized for the purpose of wringing unwarranted and extortionate prices from the consumers in violation of law.

The question came on the passage of the order.

The motion was carried and the order was passed.

DAY OFF FOR PICNICS.

Coun. BUCKLEY offered an order—That in accordance with the provisions of chapter 587 of the Acts of 1908, the officer or board in charge of each department be authorized to grant a holiday, without loss of pay, to the employees of such department or division thereof, on the day of the annual department or division picnic.

Passed.

DOUBLE TIME, BATH DEPARTMENT EMPLOYEES.

Coun. McDONALD offered an order—That his Honor the Mayor be requested to instruct the Bath Trustees to allow all employees of the department working Sundays and holidays double time as part compensation for their services.

Referred to the Executive Committee on motion of Coun. HALE.

CLOSING OF STREETS.

Coun. McDONALD offered an order—That the Police Commissioner be authorized to close to

travel by vehicles, except fire, police, hospital and mail wagons, Warren avenue, Berkeley, Appleton and Chandler streets, Columbus avenue, Park square, Boylston, Tremont, Bromfield, Washington, School, Beacon, Arlington streets and Columbus square on Thursday afternoon, August 10, 1911.

The order was passed.

SALE OF CHARLESTOWN ALMSHOUSE.

Coun. SMITH, for the Committee on Public Lands, submitted a report on the message of the Mayor, communication and order (referred June 26) for sale to the Boston Elevated Railway Company, for a sum not less than \$72,000 the property in the Charlestown district known as the Charlestown Almshouse, with the land connected therewith, containing about 102,400 square feet—that the order ought to pass.

Report accepted and the question came on the passage of the order.

The roll was called, and the order passed its first reading, yeas 6, nays 0.

TRANSFER TO DOMESTIC BUILDING, CONSUMPTIVES' HOSPITAL DEPARTMENT.

The PRESIDENT called up unfinished business, No. 5, viz.:

5. Ordered, That the City Auditor be and hereby is authorized to transfer the sum of \$2,500 from the appropriation for Consumptives' Hospital Department, Completion of Second Ward, to the appropriation for Consumptives' Hospital Department, Domestic Building.

On June 26 the foregoing order was read once and passed, yeas 7, nays 0.

The order was given its final reading and passed, yeas 7, nays 0.

RELEASE OF CONDITIONS, BOYLSTON AND PROVIDENCE STREETS.

2. Ordered, That his Honor the Mayor be and hereby is authorized in the name and behalf of the city to execute an instrument satisfactory to the Law Department, whereby the city shall, so far as it may lawfully do so without affecting the legal or equitable rights of other persons, release the conditions, easements and restrictions now remaining in force, excepting, however, rights in party walls, upon certain lots on Boylston and Providence streets, heretofore conveyed by the city by deeds recorded with Suffolk Deeds as follows:

Book 512, page 121; Book 512, page 122; Book 512, page 123; Book 512, page 124; Book 512, page 125; Book 512, page 126; Book 526, page 235; Book 520, page 108; Book 525, page 286; Book 530, page 161; Book 541, page 138; Book 547, page 218; Book 547, page 218; Book 549, page 170; Book 549, page 170; Book 555, page 234; Book 558, page 281; Book 558, page 284; Book 560, page 168; Book 569, page 91; Book 569, page 105; Book 578, page 16; Book 578, page 291; Book 579, page 73; Book 583, page 248; Book 584, page 209; Book 588, page 293; Book 590, page 272; Book 590, page 273; Book 591, page 68; Book 594, page 125; Book 596, page 132; Book 597, page 53; Book 601, page 164; Book 602, page 16; Book 604, page 150; Book 605, page 58; Book 607, page 45; Book 625, page 201; Book 647, page 36; Book 703, page 177; Book 703, page 178; Book 703, page 179; Book 703, page 180; Book 710, page 79; Book 762, page 67; Book 795, page 177; Book 1826, page 394.

On June 28 the foregoing order was read once and passed, yeas 6, nays 1.

The order was given its final reading and passed, yeas 6, nays 1, Coun. BUCKLEY voting nay.

SALE OF LAND, DORCHESTER.

The President called up unfinished business, No. 3, viz.:

3. Ordered, That under the provisions of chapter 122 of the Resolves of 1846 the Board of Street Commissioners be hereby authorized by the Mayor and City Council of the City of Boston, as successors of the selectmen and inhabitants of the town of Dorchester, to sell, on or before September 1, 1911, at public auction to the highest bidder, a lot of land at the northeast corner of Gibson street and Dorchester avenue, containing 5,631 square feet, more or less, and the adjoining lot containing 4,353 square feet, more or less, held in trust under the will of Christopher Gibson, the sale of this land to net the city not less than four thousand dollars (\$4,000); and that all moneys received for said land be paid to the City Treasurer, to be held as part of the Gibson School Fund.

On June 28 the foregoing order was read once and passed, yeas 8, nays 0.

The question came on passing the order.

The roll was called, and the order was given its final reading and passed, yeas 7, nays 0.

RELEASE OF RESTRICTIONS, PETER-BOROUGH STREET.

The President called up unfinished business, No. 4, viz.:

4. Ordered, That the Board of Park Commis-

sioners, with the approval of the Mayor, and by an instrument satisfactory to the Law Department, may in the name and behalf of the city modify and amend the restrictions contained in a deed given to the city by the heirs of Albert W. Nickerson, dated June 19, 1899, and recorded with Suffolk Deeds, Lib. 2622, page 104, so far as they apply to a lot of land owned by said heirs, and bounded southeasterly by Peterborough street, one hundred feet, southwesterly by other land of said heirs one hundred thirty feet, northwesterly by a passage-way one hundred feet, and northeasterly by land of Clara G. Brooks one hundred thirty feet, by altering or amending paragraph 2 of said restrictions, so as to permit the erection or placing upon said land of apartment houses costing not less than four thousand dollars per story for every twenty-five feet or less of frontage, and at the same rate for any greater width.

On June 26 the foregoing order was read once and passed, yeas 8, nays 0.
The order was given its final reading and passed, yeas 7, nays 0.

TRACKS AT CHARLES RIVER BASIN.

Coun. SMITH offered the following:

Whereas, The Charles River Basin is one of the most valuable assets of the City of Boston, from the financial as well as the aesthetic point of view; and

Whereas, The City of Boston has expended large sums of money in beautifying this basin and in certain improvements, particularly in the erection of the West Boston Bridge, so called, between Boston and Cambridge; and

Whereas, It is now proposed to construct tracks on said bridge for the operation of elevated trains; and

Whereas, It will be a cause of immense damage to the Charles River Basin if the operation of these trains results in excessive noise;

Resolved, That the Boston City Council recommend to the Board of Railroad Commissioners that said Board require such a construction of tracks on said bridge as will diminish, as far as practicable, the noise attending the operation of these trains.

Referred to the Executive Committee.

NEW HEALTH BOAT.

Coun. KENNY—Mr. Chairman, I would like to move to recall from the Committee on Finance the order for the loan of \$48,000 for a new steamer for the Health Department to take the place of the "Vigilant."

The question came on the motion of Coun. KENNY. The motion being declared carried, Coun. CURLEY doubted the vote and the roll was called, four voting in the negative and three in the affirmative, viz.:

Yeas—Coun. Collins, Kenny, McDonald—3.

Nays—Coun. Buckley, Curley, Hale, Smith—4.
The motion to recall the order from the Committee on Finance was lost.

REPORT ASKED FOR.

Coun. SMITH—I would like to ask for a report from the committee appointed on Governor's Island. As I understand it, Rule 24 called for a report from a special committee within three weeks.

Coun. McDONALD—The Committee will be ready to report after recess.

RECESS TAKEN.

The Council voted at 5:40 o'clock p. m., on motion of President COLLINS, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at nine o'clock p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. KENNY, for the Executive Committee, submitted the following:

(1) Reports on petitions (referred to-day) for licenses to sell, rent or lease firearms—that licenses be granted, viz.:

Sullivan Square Loan Office, 546 Main street, Ward 4.

Standard Loan Office, 64 Salem street, Ward 6.
Reports accepted; licenses granted on the usual conditions.

(2) Reports on petitions (severally referred today) for sidewalks—recommending the passage of orders that the Commissioner of Public Works make sidewalks along the following named streets, in front of the hereinafter mentioned estates, said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built as specified, with granite edgestone, the owner to furnish said material, viz.:

Brick with Granite Edgestone.
Joseph Hendry, 839 Parker street, Ward 19.

Artificial Stone with Granite Edgestone.

George F. Monahan, corner Friend and Traverse streets, Ward 6.

C. F. Hovey Company, 19-21 Chauncy street, Ward 7.

Estate of John J. Haynes, 37 Ferdinand street, Ward 10.

Harris Leshefsky, 65 Hemenway street, Ward 10.

Henry Green, 65-71 Astor street, Ward 10.

Henry Green, 590 Newbury street, Ward 11.

J. F. Crane, 971-973 Blue Hill avenue, Ward 21.

W. Prentiss Parker *et al.*, Blue Hill avenue, Ward 21.

Hosford & Williams, 125 Park street and 2-4-6 Corey street, Ward 23.

Hyman Rambach, northeast corner Mt. Hope street and Hyde Park avenue, Ward 23.

Louis A. Ginsburg, 386 Ashmont street, Ward 21.

Max Goldman, 1953-1955 Dorchester avenue and 3-5 Fuller street, Ward 24.

W. B. Rice, 114 King street, Ward 24.

William Brummett, Centre street, corner Dorchester avenue, Ward 24.

Reports severally accepted; orders passed.

(3) Report on petition of Boston Elevated Railway Company (referred June 26) for elevated structure, platforms, station and approaches thereto at Washington and Dover streets—recommending the passage of the following:

Ordered, That the proposed location by the Boston Elevated Railway Company for an elevated structure, platforms, station and approaches thereto, at Washington and Dover streets, Boston, as shown on plan numbered 28,206, filed with the City Clerk, be and the same is hereby approved, so far as it is upon public ways or places.

The question came on passing the order, and upon a *viva voce* vote the order was declared passed.

Coun. SMITH—I ask for a reconsideration of the vote as I had the floor before the motion was put.

The question came on the motion for a reconsideration, and upon a *viva voce* vote, it was declared that reconsideration prevailed.

Coun. SMITH—I doubt the vote and ask for a verification by roll call.

President COLLINS—The Chair stated that reconsideration prevailed, just as the gentleman asked.

Coun. SMITH—I doubt the vote.

President COLLINS—As I understood the gentleman's motion it was to reconsider.

Coun. SMITH—It was. I had the floor before that motion was put.

A *viva voce* vote was again taken on the question of reconsideration and it was declared that reconsideration prevailed. Coun. SMITH doubted the vote and asked for a roll call, and upon the roll being called the motion for reconsideration was carried, yeas 5, nays 2, viz.:

Yeas—Coun. Buckley, Collins, Hale, Kenny, Smith—5.

Nays—Coun. Curley, McDonald—2.

Coun. KENNY—I move, Mr. President, that this matter lie on the table.

The question came on the motion of Coun. KENNY that the order lie on the table. Upon a *viva voce* vote the motion was declared carried, whereupon Coun. McDONALD doubted the vote, and upon a rising vote, four voting in the affirmative and two in the negative, the motion was carried.

APPEAL FROM RULING.

President COLLINS—Motion, orders and resolutions. The Chair wishes to state that the reason for his ruling on the order passed 5 to 2 was due to his having learned of this for the first time to-night and looked up the law in the present city charter.

Coun. HALE—I move an appeal from the ruling of the Chair on that matter.

President COLLINS—The motion is not in order. Motions, orders and resolutions.

Coun. HALE—I appeal from that ruling.

President COLLINS—Motions, orders and resolutions. Coun. McDonald offers a committee report.

(4) Report on order (referred to-day) that one day in seven be granted to the Penal Institutions Department employees—recommending its passage in the following new draft:

Ordered, That the Penal Institutions Commissioner be authorized, through his Honor the Mayor, to grant all employees in the Institutions Department at Deer Island one day off in seven as is now granted at the State Prison.

Report accepted; order passed.

(5) Report on petition of Patrick J. O'Brien and John J. Byrne (referred to-day) for license to run power boats for conveyance of passengers on that portion of the Charles river, between the town of Dedham and the city of Newton, bounded by the City of Boston—recommending the passage of the following:

Ordered, That a license be hereby granted to Patrick J. O'Brien and John J. Byrne, owners, and Patrick J. O'Brien, master, to run the power boat "Santa Maria," length over all 30 feet, beam 8 feet, for the conveyance for hire of passengers on that portion of Charles river, between the town of Dedham and the city of Newton, bounded by the City of Boston. The said license to be for the term of one year and upon condition that no

more than thirty passengers shall be carried at any one time, and that at least thirty life preservers shall be carried on said boat when used for the conveyance of passengers.

Ordered, That a license be hereby granted to Patrick J. O'Brien and John J. Byrne, owners, and Patrick J. O'Brien, master, to run the power boat "Pinta," length over all 30 feet, beam 8 feet, for the conveyance for hire of passengers, on that portion of the Charles river, between the town of Dedham and the city of Newton, bounded by the City of Boston. The said license to be for the term of one year and upon condition that no more than thirty passengers shall be carried at any one time, and that at least thirty life preservers shall be carried on said boat when used for the conveyance of passengers.

Report accepted; orders passed.
(6) Report on message of Mayor and communication from the Bath Department (referred to-day) concerning cost of additional land, lockers, etc., at L Street Bath, South Boston—recommending reference of same to the Committee on Finance.

Report accepted; said reference ordered.

(7) Report on preambles and resolves (referred to-day) concerning the running of elevated trains on the West Boston Bridge, so called—that the order ought to pass.

Report accepted; order passed.

(8) Report on order (referred to-day) that all employees of the Bath Department working Sundays and holidays receive double time—that the order ought not to pass.

Report accepted; said order rejected.

(9) Report on message of Mayor, communications from Fire Commissioner, and order (referred to-day) that the City Auditor be and hereby is authorized to transfer the sum of \$25,000 from the appropriation for Reserve Fund to the appropriation for Fire Department, Current Expenses, to be expended by the Fire Commissioner for the purpose of increasing the force by fifty men—that the order ought to pass.

Coun. McDONALD in the chair.

The question came on passing the order. On a *viva voce* vote, the order was declared passed, whereupon Coun. Hale doubted the vote and asked for a verification by roll call. The roll was called, and the order was passed. Yeas 5, nays 2, viz.:

Yeas—Coun. Buckley, Collins, Curley, Kenney, McDonald—5.

Nays—Coun. Hale and Smith—2.

Coun. HALE—A point of order. I believe it requires six votes to transfer—

President COLLINS—The Chair rules that under the statutes of 1893 the City of Boston may, by concurrent vote of the City Council, at any time within two years, under chapter 261 of the Acts of 1893, after an appropriation has been duly made by the city government, transfer such appropriation, and it requires a two-thirds vote of the City Council approved by the yea and nay vote of two-thirds of the members of each branch thereof. The Chair rules that this City Council is composed of one branch and that the point of order is not well taken.

Coun. HALE—I protest at the ruling and ask to have my protest recorded.

ADDITIONAL FIREMEN.

The following was received:

City of Boston,
Law Department, July 17, 1911.
To the Honorable the City Council:

Gentlemen,—My attention has been called to the fact that the Acting Mayor has sent to your honorable body a communication recommending a transfer from the Reserve Fund to the Fire Department for the purpose of employing fifty additional firemen.

In my opinion such transfer and such employment would not be legal. The city charter says that: "No transfer of any part of the money thus appropriated shall be made except within the department or in accordance with and after the written recommendation of the mayor to the city council approved by the yea and nay vote of two-thirds of the members."

Section 12 of chapter 3 of the Revised Ordinances says in substance that every officer in charge of a department shall employ and fix the compensation of all subordinates in his department and that before any increase shall be made in the compensation of any subordinate or in the number of subordinates a report thereof shall be sent to the mayor and no such increase shall take effect until approved by the mayor in a writing filed with the city auditor.

I do not understand that such report has been made by the Fire Commissioner but my objection is a deeper one, to wit,—that the matter is one which must receive the approval of the Mayor.

Before the charter amendments of 1909 the chairman of the board of aldermen or president of the common council acting as mayor had more authority than the acting mayor has under the present charter. The former provision was that the chairman of the board of aldermen shall act as mayor. This gave acting mayors in Boston more authority than was possessed by acting mayors in any city in the state. (See *Ryan v. Boston*, 204 Mass. 457.)

As this power has been abused by acting mayors the city charter amendments of 1909 provided: "That the person upon whom such duties shall devolve shall be called acting mayor and he shall possess the powers of mayor only in matters not admitting of delay." To use the language of the Supreme Court, "He shall have the powers of the mayor only in matters requiring immediate action."

The action proposed does not contemplate the hiring of fifty men for a few weeks or a year, it contemplates the employment of fifty additional firemen who under the statutes must be retained unless discharges for cause and the proposed action necessitates an additional charge upon the City of Boston of at least \$60,000 a year for an indefinite period.

If something had occurred since the departure of the Mayor for Europe which required the presence of additional men in the Fire Department that emergency could be met by the Fire Commissioner by suspending the giving of vacations during the next three weeks which would add at once a force of sixty men. The only result of that action would be that firemen who otherwise would have their vacations in July or August would take them in September, but there has been no change in the conditions of the Fire Department during the absence of the Mayor and as I am informed, practically no change in the condition of the Fire Department during the past year. If the Fire Department is undermanned to-day it was undermanned a year ago.

By the reports there were seemingly 13 fire districts in 1910 and 47 fire engines; in 1911 there were 14 districts and 47 fire engines. April 30, 1910, there were 986 employees; April 30, 1911, 1,009 employees. A year ago there were 893 regular firemen, now there are 925, being an increase of 32 firemen in the year. I am informed that of these additional firemen 14 are employed on the new fireboat, 4 in the fire-alarm service, and 6 on the new chemical engine.

The appropriation for the Fire Department for the fiscal year ending February 1, 1911, was \$1,550,000, for the year ending February 1, 1912, \$1,600,000. It will be seen, therefore, that the Fire Department has more money and more firemen and as many or more men to a fire engine than it had a year ago. If the engines are undermanned to-day they have been undermanned for some years but no mayor has recommended an increase.

It appears probable that the growth of certain sections of the city call for additional fire protection. If so, there should be additional fire houses and additional apparatus as well as additional firemen. The whole subject is one that not only admits of delay but requires it. The commissioner should make a report to the Mayor and City Council of the actual conditions in his department, what new engines or stations are required and where, so that the Mayor elected by the people and the City Council can know the exact conditions of the Fire Department and what, if anything, is needed in the way of additional appropriations.

Yours truly,
THOMAS M. BABSON,
Corporation Counsel.

Placed on file.

USE OF GOVERNOR'S ISLAND.

Coun. McDONALD offered the following:
The Special Committee on Use of Governor's Island to which was referred, February 20 and June 13—communications from the Mayor and from the War Department relating to the use of Governor's Island, Boston Harbor, by the City of Boston, having considered the subject, respectfully ask for further time so as to submit a plan for the use of said island by the city.

The committee is heartily in favor of the taking of this island for park and playground purposes, and with the co-operation of the Park Commissioners it believes it will shortly be able to submit to the City Council, and to the War Department of the United States, a final report upon this subject. Report accepted, and further time granted.

SALE OF CITY LAND.

Coun. SMITH, for the Committee on Public Lands, submitted a report on communications from Park Commissioners and Mayor's Office (referred last meeting), recommending passage in following new draft and order, viz.:

Ordered, That the Board of Park Commissioners be and hereby is authorized to sell on such terms as said Board with the approval of the Mayor may deem proper, a parcel of land in the Brighton district, so called, bounded southerly by Commonwealth avenue, and northeasterly by Chestnut Hill avenue, and containing as shown on the atlas about 66,672 square feet, said land to be sold for not less than 70 cents per square foot per lot.

The question came on accepting the report and passing the order.

Coun. KENNY.—I would like to move to amend that order.

The question came on the motion of Coun. Kenny that the report lay on the table. On a *viva voce* vote the Chair being in doubt called for a rising vote, and four voted in the affirmative and three in the negative, the motion to lay on the table being carried.

Coun. CURLEY—I move a reconsideration of the vote just taken, hoping the same will prevail.

The question came on reconsideration. The motion was carried. The question then came on passing the order as amended by Coun. Kenny. The amendment was read by the Clerk as follows: "Said land to be sold at public auction at a price not less than seventy-five cents per square foot per lot."

The amendment was adopted. The question then came on passing the order as amended, and the roll was called, and the order was passed, yeas 7, nays 0.

NEXT MEETING OF THE COUNCIL.

Coun. CURLEY—I move you, sir, that when the Council adjourns, it adjourn to meet on Monday, August 21, at 3 p. m.

Coun. KENNY.—As an amendment to that motion I move that when the Council adjourns it adjourn to meet at call of the President.

The question came on the amendment of Coun. Kenny. On a *viva voce* vote the amendment was declared carried, whereupon Coun. Curley doubted the vote and asked for a verification by roll call. The roll was called and it appeared that three voted in the affirmative and four in the negative, and the motion did not prevail. The question then came on the motion of Coun. Curley.

President COLLINS.—The Chair will say that when the Mayor went away he thought if we had a meeting some days before that for the tax levy we could get the tax levy settled.

Coun. KENNY.—I would move another amendment, if it is in order, that we adjourn to meet on the 21st of August unless sooner called together by the Chair.

Coun. CURLEY.—As I understand it, Mr. Chairman, the real Mayor intends to return to Boston the 10th of August, and he has the power to call a special meeting.

The question came on the amendment of Coun. Kenny that when the Council adjourns it adjourn to meet on August 21 unless called together sooner by the Chair. Upon a *viva voce* vote the Chair, being in doubt, called for a rising vote, whereupon it appeared that two voted in the affirmative and four in the negative, and the amendment did not prevail. The question then came on the motion of Coun. Curley that when the Council adjourns it adjourn to meet on August 21, at 3 p. m. The motion was carried.

FIRE PROTECTION FOR CITY.

Coun. CURLEY offered an order.—That the Fire Commissioner report to the City Council what sections of the city are in need of fire protection, the character of apparatus necessary and the number of men in his opinion required to safeguard the interests of the public.
Passed.

GENERAL RECONSIDERATION.

Coun. McDONALD moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail.
Lost.

Adjourned on motion of Coun. KENNY at 10.37 p. m. to meet on Monday, August 21, at three o'clock p. m.

INDIANAPOLIS ADOPTS MUNICIPAL FLAG.

A municipal pennant has been adopted by the municipal flag commission recently appointed by Mayor Shank, and the pennant has been approved by the mayor and will become the official emblem of the city of Indianapolis. Hereafter Old Glory will share honors with the city's emblem in front of the City Hall building. The new pennant also will be used in demonstrations by the city and by civic and commercial bodies. The new pennant, which was designed by Dr. William H. Johnson, of the city council, has a blue field, and in the upper left-hand corner is a large five-pointed star, representing the executive department. Around the large star, in crescent shape, are nine smaller stars, representing the city council, which is composed of nine members. At the right hand is the city's seal, representing the legal department and below the seal is a conventional wreath. The stars, seal and wreath are in gold.—*Municipal Journal and Engineer.*

CITY OF BOSTON.

PROPOSALS FOR MASON WORK.

Proposals on blanks obtained at the engineer's office, Franklin Park after July 25, for building seam face granite walls and stairway at the bears' dens in Franklin Park, signed by the bidder and left before 3 p. m. of August 1, 1911, at the office of the Park Commissioners, Olmsted Park, Jamaica Plain, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to said time for opening the bids. The commissioners reserve the right to reject any or all proposals.

ROBERT S. PEABODY,
JAMES M. PRENDERGAST,
DANIEL H. COAKLEY,
Commissioners.

(July 22.)

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS IN MARKET STREET.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for sewerage works in Market street, between Lawrence place and the Boston and Albany Railroad, Brighton, and giving bond therefor of a surety company approved by the commissioner in the sum of two hundred dollars (\$200), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewerage Works in Market Street," and left at Room 57, fourth floor, City Hall, before 12 m. on Tuesday, August 1, 1911, with a certified check for one hundred dollars (\$100), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, July 20, 1911. (July 22.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners, in accordance with chapter 393 of the Acts of 1906, have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

Douglas street, from Columbia road to East Eighth street.

BRIGHTON.

Glenville avenue (formerly Princeton avenue), from Harvard avenue to Allston square.

Spofford road, from Commonwealth avenue to Princeton (now Glenville) avenue.

Wallingford road, from Commonwealth avenue to Chestnut Hill avenue.

WEST ROXBURY.

Bradfield (formerly Bradford) avenue, from Centre street to South street.

Kenneth street, from Farrington avenue to Stratford street.

DORCHESTER.

Coleman street, from Quincy street to Hendry street.

Dorris street, from Dorchester avenue to Gardner avenue.

Fottler road (formerly Tileston avenue), from Walk Hill street to Hiawatha road.

Frost avenue, from Boutwell street to Fairview street.

Harmon street (formerly Roland road), from Oakland street southwesterly for a distance of 90 feet.

Hiawatha road, from Blue Hill avenue to Tileston avenue (now Fottler road).

ROXBURY.

Bryant street (formerly Rogers avenue), from Huntington avenue to Ruggles street.

Greenleaf street, from Rogers avenue to Leon street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Monday, August 14, 1911, as after that time no permits for openings will be granted until two years after said highways are completed.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, July 13, 1911. (July 22-29-Aug. 5.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 11 o'clock Thursday, July 27, for the hay, grain and straw needed in the different departments for August, 1911. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association, and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidder is requested to bid on No. 1 oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate, without the check, to be deposited with the City Auditor previous to the time named for opening bids. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Thursday, July 27, at 11 a. m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
(July 22.) Superintendent of Supplies.

CITY OF BOSTON.

PROPOSALS FOR THE RAZING AND REMOVAL OF THE OLD COURT HOUSE BUILDING.

The Superintendent of Public Buildings of Boston, Mass., invites proposals for the razing and removal of the Old Court House Building, Court street, Boston, according to specifications and plans to be seen at the office of the superintendent, and giving a bond of a surety company satisfactory to the superintendent in the sum of ten thousand (\$10,000) dollars. The proposal to state the time when work will be completed; also proposals are to be submitted in two ways—the first to include the razing and removal of the building, including the front portico; the second, to do the same work but to preserve the said front portico, the portico to be teamed to a city lot for storage, all as specified in the specifications of the work. Only proposals obtained at the office of the Superintendent of Public Buildings, Room 30, Old Court House, Boston, filled out, signed by the bidder, and left before 12 o'clock noon of Friday, August 4, 1911, at said office, with a certified check on a Boston bank for \$500, payable to and to be the property of the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. Proposals must be placed in envelopes properly sealed and marked "Proposal for the Razing and Removal of the Old Court House Building." The proposal must be made in duplicate, the one with the check to be sent as above, the duplicate, without check, to be deposited with the City Auditor, City Hall, Boston, previous to the time named for opening of bids. The undersigned reserves the right to reject any and all proposals or to award the contract as he deems best for the city's interest.

M. J. FISH,
(July 22-29.) Superintendent of Public Buildings.

CITY OF BOSTON.

PROPOSALS FOR REPAVING AND REGULATING.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for repaving and regulating Bristol and Albany streets, at and near the Fire Department Headquarters, city proper, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Monday, July 31, 1911, with a certified check for one hundred dollars (\$100), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Repaving Bristol and Albany Streets."

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, July 20, 1911. (July 22.)

CITY OF BOSTON.

PROPOSALS FOR BUILDING ATTENDANT'S OFFICE, HIGHLAND PARK STANDPIPE, ROXBURY.

Sealed bids for building attendant's office at Highland Park standpipe, Roxbury, will be received by the Superintendent of Public Grounds at his office, East Cottage street, Dorchester, until 12 m. of Tuesday, August 1, 1911, and at that time and place will be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. Each bid must be signed by the bidder with full names and addresses, be inclosed in a sealed envelope, indorsed "Bid for Attendant's Office at Highland Park Standpipe," and deposited in a locked box provided for that purpose. No bid will be allowed to be withdrawn for any reason whatever after it has been deposited in the box. Each bid must be accompanied by a properly certified check for the sum of five hundred (\$500) dollars, payable to the order of the City of Boston, which check will be returned to the bidder unless forfeited as hereinafter provided. A bond will be required for the faithful performance of the contract in the sum of one thousand (\$1,000) dollars of an approved surety company doing business in Massachusetts. The bidder is requested to name the surety company which will sign his bond in case the contract is awarded him. All bids which are not in conformity with this notice will be rejected. Plans can be seen at the office of the Division Engineer of the Bridge and Ferry Division, Public Works Department, 60 City Hall, Boston, Mass. The Superintendent of Public Grounds reserves the right to reject any or all bids or to award the contract as he deems best.

D. HENRY SULLIVAN,
(July 22.) Superintendent of Public Grounds.

CITY OF BOSTON.

PROPOSALS FOR LAYING WATER PIPE.

The Commissioner of Public Works of the City of Boston, office 49 city hall, invites proposals for laying 2,800 feet of 4, 8, 10 and 12 inch water pipe in Huntington avenue, city proper; Craft, Greenleaf and Renfrew streets, Roxbury; Fottler road, Harmon and Harrow streets, Dorchester; Clarendon court, West Roxbury; Denton and Spofford roads and Hano street, Brighton, and giving bond therefor of a surety company, approved by the commissioner, in the sum of eight hundred dollars (\$800) to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Laying Water Pipe," and left at Room 57, fourth floor, City Hall, before 12 m. on Friday, July 28, 1911, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, July 20, 1911. (July 22.)

CITY OF BOSTON.

PROPOSALS FOR WOOD BLOCK PAVEMENT.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing wood block pavement in Washington street, between Williams and Dudley streets, Roxbury, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Monday, July 31, 1911, with a certified check for two thousand dollars (\$2,000), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Wood Block Pavement in Washington Street."

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 20, 1911. (July 22.)

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS IN PERTSHIRE ROAD.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for sewerage works in Perthshire road, from point 90 feet west of Bigelow street to point 70 feet east of Atkins street, Brighton, and giving bond therefor of a surety company approved by the commissioner in the sum of two hundred dollars (\$200), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewerage Works in Perthshire Road," and left at Room 57, fourth floor, City Hall, before 12 m. on Tuesday, August 1, 1911, with a certified check for one hundred dollars (\$100), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, July 20, 1911. (July 22.)

CITY OF BOSTON.

PROPOSALS FOR LOAM.

Proposals for furnishing about 5,000 cubic yards of loam of a quality satisfactory to the Superintendent of Parks and spreading the same to grades furnished by the engineer of the Park Department, on the North Meadow in the Back Bay Fens, and giving bond of a surety company therefor in \$1,000, signed by bidder and left before 3 o'clock p. m. of August 1, 1911, at the office of the commissioners, Olmsted Park, Jamaica Plain, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals.

ROBERT S. PEABODY,
JAMES M. PRENDERGAST,
DANIEL H. COAKLEY,
(July 22.) Commissioners.

CITY OF BOSTON.

TO HEATING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for setting and piping up boilers in miscellaneous schools, Boston, Mass., and giving bond of a surety company therefor in the sum of \$5,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Wednesday, August 2, 1911, at said office, with a certified check for \$500, payable to the city if proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
(July 22.) Commissioners.

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS IN WATSON STREET.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for sewerage works in Watson street, between Camden and Northampton streets, city proper, and giving bond therefor of a surety company approved by the commissioner in the sum of fifteen hundred dollars (\$1,500), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewerage Works in Watson Street," and left at Room 57, fourth floor, City Hall, before 12 m. on Friday, July 28, 1911, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, July 20, 1911. (July 22.)

CITY PLANNING IN VIENNA.

Much attention has been given to the city of Vienna by reason of the recent consideration of the question of town planning and the physical improvement of cities. Statement has been made that Vienna is the most perfectly planned city of Europe. Maps, models and photographs showing the arrangement of streets, the grouping of buildings and the general appearance of portions of the city have been shown at the various city planning conferences in support of this statement.

The most noticeable features of the city plan are the three concentric girdles, the inmost of which, known as the Ringstrasse, was formerly occupied by a wall surrounding the inner town. This circular street, with the radial intersecting streets, forming main arteries of traffic, and the grouping of the public buildings about the Hofburg, or Royal Palace, are the points of merit which are claimed for Vienna's city plan.

The Ring is made up of a number of sections bearing distinct names, as follows: The Schotten-Ring, so called from the monastery of Scottish Benedictines situated in the old town near by; the Franzens-Ring, in front of the Royal Theater; the Burg-Ring, in front of the Royal Palace; the Opera-Ring, in front of the Royal Opera; the Kaertner-Ring; the Park-Ring, in front of Stadt Park and the Stuben-Ring. The remaining space completing the Ring is occupied by the Franz Joseph Quai, on the Danube canal.

The criticism has been made that the Ringstrasse offers an obstruction to transportation and to the development of the city. Just why the latter should be true is not apparent, unless it is a factor of the question of transportation. And with the number of transverse streets shown, it is evident that transportation may be readily taken care of. However that may be, the opportunity offered for the effective grouping of buildings, and the space allowed for inner town parks and gardens, should compensate for a slight check on transportation.

The grouping of public buildings is an admirable feature of the Vienna plan. All of the group situated with the Franz Joseph Quai as a background are made to center upon the Hofburg and the two imperial museums, which, with the outer Burg Platz and the Maria Theresia Platz, form two inclosed squares. The squares form the central feature of the two symmetrical rings fronting on the Franzens-Ring and the Opera and Kaertner-Rings. The original conception of this plan is due to the German architect, Gottfried Semper, and the building was carried out by Baron Hoolnauer.

In laying out the other main side of the Ring an attempt has been made to place an important building in the center of each, on the side of the inner town. The placing of the theater and the opera centrally on either side of the Hofburg is in accordance with this plan, and is an excellent piece of symmetrical grouping; but owing to their distance apart, this feature cannot be fully appreciated when viewed from the Ring. The wing along the Franzens-Ring has been more developed than the other; the Parliament Building, the University and the Rathaus (city building) having been constructed on this first-named portion, making it symmetrical upon the theater as a center. The criticism has been made that the large forest trees in these parks tend to obscure the effect of the grouping of the buildings, as viewed from the ground level.

A great deal more intelligent treatment

is evident in the wing dominated by the theater than in that of which the opera forms the central feature. In the latter, the two important groups formed by the Academy of Graphic Arts with the Schiller Platz and the Technical School and the Karls-Kirche have been allowed to become widely separated by blocks of office buildings, so that their effect is entirely lost. The Technical School and Karls-Kirche, facing the Artists' House and the Music Society, form an independent group, the Vienna river, which flows between them, having been covered to form Karls Platz and a garden in front of the Technical School.

The grouping of buildings on other portions of the Ring does not follow any consistent plan, such as characterized those previously mentioned, but it is hoped that in time a more orderly arrangement may be effected.

The base of the Ringstrasse is formed by the Franz Joseph Quai. It is in the form of an irregular curve, following the line of the Danube canal, and with the convex side towards the Hofburg, except near the Schotten-Ring, where a slight bend in a contrary direction forms a small park. The buildings along the Quai form a fairly level horizontal line, and the banks have been improved after the manner shown by concrete walls. The bridges are by no means remarkable, but are consistent and artistic.

There are, as may be noted, a number of small parks or town gardens within the Ring. These vary from the small patches in front of the Palace of Justice to the wooded park known as Stadt Park. They are in most cases laid out in the formal fashion of the Maria Theresia Platz, but in some cases they are characterized by the picturesque "English manner," with well-grown, unrestricted trees and rich, thick foliage.

The Prater is the true town park of Vienna. It is divided into three parts; the first, known as the Wurstel Prater, contains the milder amusement devices found at our state and county fairs; the second is dominated by the rotunda, erected for the exposition and preserved for exhibition purposes; and the third consists of natural woods and water. Extending through the Prater is a tree-lined drive three miles long, known as the Haupt-allee. A number of other gardens and parks owned by the city or belonging to the royal grounds may be found throughout the city, but, excepting the Prater, they are of value only for their appearance, as they offer no such advantages as are demanded in American parks, namely, shade and plenty of green grass.

The streets are generous in width and well planned, though in some cases wretchedly paved. Ample space is provided in each case for all classes of traffic. The Ringstrasse is symmetrically laid out, with roadways on either side of the central roadway and separated from it by a tree-lined promenade and riding track. In order to avoid the unsightly appearance generally noted in street railway appurtenances, flower baskets have been provided on the trolley standards and an artistic design for the base substituted for the straight, unsightly pole so common in America.

The Stadtbahn, or Metropolitan railway, follows along the canal for five miles. The promenade, which forms a part of the gardens, is immediately over the railway and supported on columns in such a way that one side, towards the canal, is open to provide light and air.

Taken in its entirety, the Vienna plan

has much to recommend it to those interested in city planning, though in some cases the carrying out of ideas has been unsuccessful.—*Municipal Engineering.*

THE PREVENTION OF SLUMS.

If around our towns an ever-expanding zone of protected country is allowed to come under the operations of town planning legislation, we should have provided one of the best of measures for preventing the growth of future slums. The needs of the community are more cheaply satisfied if they are studied and considered in advance rather than after the growth of civilization. The conditions regulating the number of houses to be erected per acre should allow ample air space, not only for the individual but for the needs of the community.

Naturally the question will be asked by the small prospective property owner or builder as to how such legislation will affect him, and whether he will be able to afford to build under such conditions. We have already suggested that the increased cost of acquiring larger plots of land might be met to some extent by throwing the cost of the new roads upon the community, and also by allowing a certain relaxation of the building laws.

A suggestion might be also made that such protected zones should be subjected to differential rating, consequent upon restricting the number of houses to be erected on an acre. It would be an incentive to build in such areas, and bring the outer surrounding zone more quickly into production from a rating point of view. Building would be encouraged over a wider area, and away from the centers of population. Financial experts may object to the principle of preferential rates, but it may be pointed out that the principle is already in operation upon the borders of many towns, where people are encouraged to build by the comparative lowness of county rates, while at the same time they are sufficiently near the towns as to enjoy many of the urban privileges.

If this proposal seem too revolutionary, would it be possible to make the suburban and expanding area pay for the sweeping away of the town slums by the creation of a slum extinction fund? The removal of existing slumdom is a serious and costly matter, often involving conflicts with vested interests, and if it were possible for a slum extinction fund to be formed by ear-marking a portion of the rates obtained from the protected zones, those who were helping to develop the suburban areas would be able to feel that they were not only securing benefits for themselves, but were doing something definite in redressing and ameliorating the social conditions of existing slum areas. The community would be pledged to a course of action which would have an increasing influence in the future.

Closing orders, although often very necessary, act sometimes in an arbitrary fashion, and equity would demand that compensation is in some cases, morally, if not legally, due. Many owners of slum property would gladly part with their property for a small annuity, either for life or for a term of years. If a slum extinction fund were in existence it would be available for this purpose, and property be often acquired for comparatively small amounts.

COST OF MAKING BOSTON STREETS.

Of 129 residential streets (usually 40 feet wide) laid out and constructed, from 1900 to 1909, the total cost (including land damages) was \$762,880, or an average of \$5,914 each.

LOT DEPTHS IN CITY PLANNING.

EFFECT ON DENSITY OF POPULATION AND ON CHARACTER OF DWELLINGS—DEPTHS DESIRABLE FOR DIFFERENT SECTIONS—THE ALLEY PROBLEM.

The importance of the distance between streets, or the size of block, in city planning was the theme of a paper before the Conference on City Planning by Lawrence Veiller, secretary of the National Housing Association. While this is of minor importance as affecting the traffic on streets, it is of considerable importance as affecting density of population and the general character and healthfulness of the dwellings and other buildings occupying a district. "To the deep lot," said Mr. Veiller, "we can trace most of our housing evils so far as they relate to land overcrowding. The street plan determines the block plan and the block plan determines the lot plan. The street widths determine the height to which buildings may wisely be built and the presence or absence of alleys is of vital moment to the future sanitary welfare of the city."

Data concerning the sizes of blocks and depth of lots were obtained from forty-five of the fifty largest cities in this country. The depth of lot, if one can judge from the information thus received, seems to vary from 50 feet to 200 feet. In the great majority of cities the lots exceed 100 feet in depth. In only three cases is the usual depth of lot less than 100 feet, namely, in the cities of Philadelphia, where it ranges from 40 feet upward; Lowell, Mass., where it ranges from 80 to 150 feet, and Washington, where it ranges from 50 to 100 feet. In twenty-five cases, or over one-half of all the cities, the usual lot depth is 125 feet or over. In nine cases, or one-fifth of all, the usual depth of lot is 150 feet or over.

In the majority of cases the distance between the streets forming the longer sides of a block is double the average depth of lot, the exceptions being lots which run entirely through from one street to another. Mr. Veiller believes that while well-to-do residents in a comparatively small city desire lots 150 to 200 feet deep, with the house set 40 or 50 feet back from the street and with room behind for a garden, stable, etc., such depth is entirely too great for any other use to which a city lot is ordinarily put. The history of most cities has been that as the city increases in size and the business center enlarges such properties are apt to be used successively by boarding houses and for tenements, and possibly for business houses. For either of these purposes such a depth of lot is uneconomical and it becomes necessary to make more complete use of it by adding to the depth of the building or by constructing rear tenements or other buildings, either of which is unsanitary and otherwise objectionable. While recognizing this, the author said: "I see no escape from this dilemma, however. Our best residence sections will have to be designed to meet the needs of their present use and not of a remote possible future use."

Concerning the desirable depth of lot for workmen's cottages in industrial towns and large cities, Mr. Veiller goes to an extreme which was not indorsed by the other speakers at the convention. Such lots he believes should have a depth not greater than 25 or 30 feet. "This means that there would be no front yard and no back yard; that the houses built in continuous rows would have one frontage on one street and another frontage on another street. This must seem at first consideration a startling and radical

departure from what we have been accustomed to consider as desirable in the housing of the poor." He states as his reason that the front yard in such districts is almost invariably a desolate waste of land and a disfigurement to the district, while the back yard serves merely to collect all the rubbish of the household, breeding odors and flies and giving rise to other unsanitary conditions. Also the space between detached houses is of little value unless it be at least 15 feet, and this distance is seldom found. Unless the house be detached it should be only two rooms deep, thus giving direct light and air to every room. The idea of the front flower garden and the vegetable garden in the rear where the laborer can put in his spare time to advantage he considered a Utopian dream and believed it necessary to recognize this and act accordingly.

He held that for high class residence purposes lots should be 125 feet deep; for the homes of the better paid artisans and mechanics, 50 feet deep; and for the homes of the unskilled laborer and what we call "the poor," 25 feet deep. He considered that the only way to secure such a subdivision into lots, and consequently into blocks, would be the adoption of the zone system as found in Germany, although he stated his belief that this would be almost impossible in this country.

In suggesting such small blocks he did not overlook the fact that this would greatly increase the number of streets in a given territory, and thus the cost of constructing and maintaining pavements, policing, etc., in a given area.

Concerning the alley he had much to say. He considered it both a blessing and a curse; the former in so far as it lets light and air into the interior of city blocks, the latter in so far as it becomes the dumping ground for all cast-off materials—ashes, garbage, manure, rubbish and all kinds of putrescible and nonputrescible matters. "Unpaved as most alleys are, the cleaning often is a difficult problem. This difficulty is greatly enhanced by the fact that in most cities the city itself assumes no responsibility for their cleanliness, but looks to the abutting property owner to perform this function. The result is what might be expected. We years ago passed beyond that stage of our development where we imposed on private citizens the responsibility for cleaning the streets in front of their houses, but we still, in many cities, foolishly expect them to clean the streets in the rear." Of the forty-five cities above referred to, twenty-five report alleys as being general in their area. Several, however, reported that they were found in the old part of the city but not in the new.

The solution for the alley problem he believed to be that the city should become the owner in fee of the alley, where it is not already so, and should convert it into a minor street and assume all responsibility, paving it, cleaning it and seeing that it is lighted and policed.—*Municipal Journal and Engineer*.

GARBAGE DISPOSAL BY BURIAL.

It is not often that a city which considers itself sufficiently large to employ an engineer of recognized ability to advise it concerning garbage disposal is advised by that engineer to adopt such a primitive method of disposal as burial, and the report made to the city of Davenport is therefore in this respect an unusual one. It may be questioned whether the advocacy of disposal by burial would be indorsed for a city of this size by all of the engineers

who have made a specialty of this subject. There are, however, undoubtedly very good reasons for the recommendations made. While there is still a question in the minds of many competent investigators whether any system has yet been devised, or at least worked out in detail, which can be considered to be perfectly satisfactory and even fairly economical, it behooves cities which can postpone, if even for a few years, the adoption of any of these expensive methods to do so if they can find an alternative which is satisfactory from a sanitary point of view.

There are certain problems which arise even in connection with the comparatively simple plan of burial which may prove troublesome in operating under it. One of these was referred to in the report—the possibility that it may be difficult to obtain earth or other porous and inorganic absorbent in sufficient quantities and at the exact times necessary to permit of covering each day the garbage layer of that day. Another adverse argument may be advanced by some who will disagree with Mr. Alvord's statement that all but the small and most resistant portion of the garbage will have disappeared in six to nine months, as instances are on record where excavations in the garbage heaps have shown that years were not sufficient for this. It is true that in these cases the garbage was simply piled up and not arranged in layers alternating with absorbent material. But if the earth layer is at once or within a very few days covered with additional layers of garbage, so that air is excluded from it and oxidation cannot take place, it appears to us possible that the same delay in reduction of the garbage may be found. We believe, therefore, that it would be safer not to cover any absorbent layer with a second layer of garbage until the former has been given at least six months for oxidizing action. This would not be necessary, perhaps, if the ground is to be used for a park only; but if buildings are to be placed on it and cellars dug into it we believe this precaution should certainly be taken.

If the Davenport burial method is carried out under good management, with prompt and adequate earth covering, and if each layer is left exposed for at least six months, we do not anticipate that the results will be other than satisfactory. It will certainly be interesting to learn the cost and sanitary results obtained by this method of disposal carried on systematically on such a large scale.—*Municipal Journal and Engineer*.

INSTRUCTION IN CITY PLANNING.

In 1900 Harvard University began teaching landscape architecture and in 1903 created a chair in this subject. The professorship was held by F. L. Olmsted until 1907, when he was succeeded by J. S. Pray, the former continuing his connection in a consulting capacity. The department was constantly receiving applications for men trained in city planning, and in 1910 Professor Pray gave, for the first time, a course in the Principles of City Planning, illustrated by a critical study of examples. It is essentially a research course, with lectures and assigned reading. The lectures aim to cover, in theory, the general field of city planning; to show certain of the more important causes that have determined the forms and arrangements of city plans and deduce fundamental principles of organization. A student can begin at any time and advance as rapidly as his preparation, capacity and time available permit.—*Municipal Journal and Engineer*.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, JULY 29, 1911.

No. 30

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 45, CITY HALL, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 21, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Davis, laborer, 1 day at \$2.25, \$2.25; Michael Murphy, laborer, 1 day at \$2.25, \$2.25; William C. Sales, laborer, 1 day at \$2.25, \$2.25; Michael O'Neill, park keeper, 1 day at \$2.50, \$2.50; Ann I. Loftus, instructor, $\frac{1}{2}$ week at \$13.80 per week, \$1.97; Thomas A. Callahan, laborer, 1 day at \$2.50, \$2.50; William Dunbar, laborer, 1 day at \$2.25, \$2.25; Hugh Greeran, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John O'Brien, 1st, laborer, 1 day at \$2.25, \$2.25; Hugh J. Bagley, laborer, 1 day at \$2.25, \$2.25; Raffaele De Florio, laborer, 1 day at \$2.25, \$2.25; Bartholomew Sullivan, 1st, laborer, $\frac{1}{4}$ day at \$2.25, \$1.13; John Younnie, watchman, 1 day at \$2.50, \$2.50; George T. Cunningham, laborer, 1 day at \$2.25, \$2.25; William J. Memery, laborer, $\frac{1}{4}$ day at \$2.25, \$1.69; Patrick J. Owens, laborer, 1 day at \$2.25, \$2.25; Nicholas Roache, laborer, $\frac{1}{4}$ day at \$2.25, \$1.69; Peter J. Maguire, laborer, $\frac{1}{4}$ day at \$2.25, \$1.13; John P. Kelly, subforeman, 1 day at \$3.25, \$3.25; John E. Daley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael A. Martin, laborer, 1 day at \$2.25, \$2.25; Thomas Curley, laborer, $\frac{1}{4}$ day at \$2.25, \$1.13; William Fanning, laborer, 1 day at \$2.25, \$2.25; Martin Corcoran, laborer, 1 day at \$2.25, \$2.25; William Fallon, laborer, 1 day at \$2.25, \$2.25; Thomas Murray, laborer, 1 day at \$2.25, \$2.25; Patrick J. Shields, playground keeper, 1 day at \$2.50, \$2.50.

Public Buildings Department.

For the week ending Thursday, July 20, 1911:

John J. Fogarty, elevatorman, $5\frac{1}{4}$ hours at \$2.50 per day, \$1.80; Daniel J. Fitzpatrick, watchman, 1 day at \$2.50, \$2.50; Max Stone, watchman, 1 day at \$2.50, \$2.50; Henry Satoris, watchman, 1 day at \$2.50, \$2.50; Patrick A. Murphy, janitor, 1 day at \$1.50, \$1.50; Thomas J. Barry, janitor, 1 day at \$2.50, \$2.50; John Hagerty, janitor, 1 day at \$2.50, \$2.50; Harry J. Foster, janitor, 1 day at \$2.50, \$2.50; Ferdinand W. Webber, janitor, 1 day at \$2.50, \$2.50; Benjamin D. Drohan, janitor, 1 day at \$2.75, \$2.75; Daniel J. Sheehan, chief janitor, 1 day at \$3, \$3.

Public Grounds Department.

For the week ending Thursday, July 20, 1911:

Fred Bonang, chauffeur, 1 day, \$2.75;

Charles H. Cooke, gardener, 1 day, \$3; James J. Doogue, watchman, 1 day, \$2.50; Michael Dooley, sodder, 1 day, \$2.25; William Flatley, sodder, 1 day, \$2.75; Joseph Germaine, nurseryman, 1 day, \$3; Frank Hill, tree expert, 1 day, \$3; James J. Hines, sodder, 1 day, \$2.25; John A. Johnson, sodder, 1 day, \$3; Joseph P. Kilday, tree climber, 1 day, \$2.25; Peter Minton, gardener, 1 day, \$3; Aaron Parker, tree climber, 1 day, \$2.50; Patrick Taylor, watchman, 1 day, \$2.50; Richard Tyler, sodder, 1 day, \$3; Thomas F. Walsh, messenger, 1 day, \$3; Richard Welch, stableman, 1 day, \$2.50.

Public Works Department (Bridge Service).

For the week ending Thursday, July 20, 1911:

Hugh McNorlin, drawtender, 2 days at \$1,200 per year, \$6.57; A. P. Turnbull, drawtender, 1 day at \$1,200 per year, \$3.29; Thomas W. Cogger, first assistant, 1 day at \$1,000 per year, \$2.74; Charles E. Paget, first assistant, 1 day at \$1,000 per year, \$2.74; 10 assistant drawtenders, total of 13 days at \$900 per year, \$32.01; Walter J. Holland, driver, $\frac{1}{2}$ day at \$2.75, \$1.38.

Public Works Department (Ferry Service).

For the week ending Thursday, July 20, 1911:

Frank M. Donohoe, boat watchman, $\frac{3}{4}$ day at \$2.83, \$1.06; John McQuade, boat watchman, 1 day at \$2.83, \$2.83; John McQuade, fireman, 1 day at \$2.83, \$2.83; William J. Timmins, gateman, 2 days at \$2.63, \$5.26; John E. Brown, gateman, 3 days at \$2.63, \$7.89; Thomas Doyle, temporary quartermaster, 2 days at \$2.46, \$4.93; William G. Greenall, gateman, 1 day at \$2.63, \$2.63; Morgan J. Sullivan, temporary fireman, 2 days at \$2.83, \$5.67; William H. Harding, gateman, 3 days at \$2.63, \$7.89; Henry Barnard, temporary deckhand, $\frac{3}{4}$ day at \$2.30, \$0.86; Thomas Barry, deckhand, 1 day at \$2.30, \$2.30; Henry H. McCarthy, gateman, 1 day at \$2.63, \$2.63; H. E. Pingree, fireman, 1 day at \$2.83, \$2.83; William J. Smith, boat watchman, 2 days at \$2.83, \$5.67; William J. Smith, fireman, $\frac{3}{4}$ day at \$2.83, \$1.06; Dennis Hannigan, oiler, 1 day at \$2.83, \$2.83; James Coughlin, gateman, 1 day at \$2.63, \$2.63; Ernest L. Yocum, boat watchman, $\frac{3}{4}$ day at \$2.83, \$1.77; Ernest L. Yocum, temporary engineer, 1 day at \$4.22, \$4.22; William P. Murphy, gateman, 1 day at \$2.63, \$2.63.

Public Works Department (Paving Service).

For the week ending Thursday, July 20, 1911:

Thomas Sullivan, laborer, 1 day at \$2.25, \$2.25; John J. Tarpey, laborer, 1 day at \$2.25, \$2.25; John Kelly, 2d, laborer, 1 day at \$2.25, \$2.25; Dennis Doherty, laborer, 1 day at \$2.25, \$2.25; Michael Mitchell, laborer, 1 day at \$2.25, \$2.25; Dennis Cronin, laborer, 1 day at \$2.25, \$2.25; Thomas Dury, laborer, 1 day at \$2.25, \$2.25; Patrick Vericher, stableman, 1 day at \$2.25, \$2.25; John Welch, watchman, 1 day at \$2.25, \$2.25; Timothy Murphy, laborer, 1 day at \$2.25, \$2.25; John Moore, teamster, 1 day at \$2.25, \$2.25; John W. Green, laborer, 1 day at \$2.25, \$2.25; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50.

Public Works Department (Sanitary Service).

For the week ending Thursday, July 20, 1911:

L. O. Cloudman, inspector, $\frac{1}{2}$ day at \$3, \$1.50; John Sullivan, laborer, 1 day at \$2.25, \$2.25; Joseph F. Mello, subfore-

man, $\frac{1}{2}$ day at \$3, \$1.50; Patrick Canny, laborer, 1 day at \$2.25, \$2.25; Patrick O'Shea, laborer, 1 day at \$2.25, \$2.25; Gaetano Laurano, laborer, 1 day at \$2.25, \$2.25; Patrick Francis, laborer, 1 day at \$2.25, \$2.25; D. J. Griffin, inspector, $\frac{1}{2}$ day at \$3, \$1.50; C. J. Scanlan, inspector, $1\frac{1}{2}$ days at \$3, \$4.50; Richard Welch, laborer, 1 day at \$2.25, \$2.25; M. J. Spellman, laborer, 1 day at \$2.25, \$2.25; John H. Riley, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; James Dahill, laborer, 1 day at \$2.25, \$2.25; William A. Doherty, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; H. S. Lawrence, laborer, 2 days at \$2.25, \$4.50; Patrick Flynn, laborer, 1 day at \$2.25, \$2.25; John Dacey, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Sewer Service).

For the week ending Thursday, July 20, 1911:

Michael J. Welch, laborer, 1 day at \$2.25, \$2.25; P. J. Hartigan, teamster, 1 day at \$2.50, \$2.50; Patrick Fitzpatrick, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.63; William Keevan, laborer, 1 day at \$2.25, \$2.25; Michael Neary, bracer, 2 days at \$2.50, \$5; John Drillo, engineer, 8 hours at \$0.50 per hour, \$4; James Lee, bracer, 2 days at \$2.50, \$5; William J. Neville, bracer, 1 day at \$2.25, \$2.25; James Giblin, bracer, 2 days at \$2.50, \$5; James Shea, laborer, 1 day at \$2.25, \$2.25; Dennis Burke, bracer, 1 day at \$2.50, \$2.50; Daniel Brady, laborer, 1 day at \$2.25, \$2.25; Joseph McMahon, laborer, 1 day at \$2.25, \$2.25; Michael Murray, laborer, 1 day at \$2.25, \$2.25; Daniel Kenney, laborer, 1 day at \$2.25, \$2.25; Michael Sheridan, laborer, 1 day at \$2.25, \$2.25; Patrick Muldoon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael Graham, bracer, 2 days at \$2.50, \$5; Daniel Cotter, bracer, 2 days at \$2.50, \$5; Stephen Connolly, laborer, 2 days at \$2.25, \$4.50; Patrick Clougherty, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Lawrence McNamara, laborer, 1 day at \$2.25, \$2.25; John Gunner, laborer, 1 day at \$2.25, \$2.25; Daniel Hart, laborer, 1 day at \$2.25, \$2.25; Martin Kelly, laborer, 1 day at \$2.25, \$2.25; John Cady, laborer, 2 days at \$2.25, \$4.50; Edward Doherty, bracer, $\frac{1}{2}$ day at \$2.50, \$1.25; Thomas Keane, laborer, 1 day at \$2.25, \$2.25; Patrick J. Foley, teamster, 1 day at \$2.50, \$2.50; Christopher Kenney, laborer, 1 day at \$2.50, \$2.50; Daniel Murphy, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Water Service).

For the week ending Thursday, July 20, 1911:

John Doherty, 2d, emergency man, $1\frac{1}{2}$ days at \$2.50, \$2.81; Matthew Brennan, inspector, $2\frac{1}{2}$ days at \$3, \$7.69; Richard P. Collins, inspector, $\frac{3}{4}$ day at \$2.75, \$1.03; Florence Driscoll, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; Michael Grady, emergency man, $1\frac{1}{2}$ days at \$2.25, \$2.53; Patrick J. Feeney, inspector, $1\frac{1}{2}$ days at \$2.75, \$3.09; Patrick J. Kelley, inspector, $1\frac{1}{2}$ days at \$2.95, \$4.42; William Lonergan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.55; Charles Hines, plumber, $\frac{1}{2}$ day at \$3, \$1.78; Charles J. McKenna, emergency man, $1\frac{1}{2}$ days at \$2.25, \$2.53; P. F. Mullen, inspector, $3\frac{1}{2}$ days at \$2.75, \$10.40; Michael Molloy, laborer, $\frac{1}{2}$ day at \$2.25, \$0.98; Thomas F. Meade, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; Isaac Saperstein, repairer, $\frac{1}{2}$ day at \$2.50, \$1.72; Jere P. Scanlan, inspector, $1\frac{1}{2}$ days at \$2.75, \$4.13; Michael Healey, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.52; Michael Bowen, plumber, $\frac{1}{2}$ day at \$3, \$2.81; Robert J. Doyle, plumber, $\frac{1}{2}$ day at \$3.50, \$2.63; Martin Dunlap, helper, $\frac{1}{2}$ day at \$2.25, \$2.11; Edward E. Hasenfus, plumber, $\frac{1}{2}$ day at \$3, \$1.88; John J. Welch, helper, $\frac{1}{2}$ day at \$2.25, \$0.28; Charles Monagle, laborer, $\frac{1}{2}$ day at

\$2.25, \$0.56; Lawrence A. Hillary, laborer, 1 day at \$2.50, \$2.50; Patrick Coleman, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; James F. Black, laborer, $\frac{3}{4}$ day at \$2.50, \$0.94; George Greer, repairer, $\frac{3}{4}$ day at \$2.75, \$1.03; James Murphy, teamster, $\frac{3}{4}$ day at \$2.25, \$0.84; Terence T. McNulty, yardman, $\frac{3}{4}$ day at \$2.50, \$0.94; James McMahon, laborer, $\frac{3}{4}$ day at \$2.25, \$0.84; John McNulty, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.45; John Concannon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.20; John Walsh, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Peter Welch, teamster, $1\frac{1}{2}$ days at \$2.25, \$3.09; John Farrell, laborer, $\frac{3}{4}$ day at \$2.25, \$0.84; Peter O'Hare, repairer, $\frac{3}{4}$ day at \$2.50, \$0.94; John Coyne, laborer, $\frac{3}{4}$ day at \$2.25, \$0.84; Thomas Barrett, laborer, $\frac{3}{4}$ day at \$2.25, \$0.84; John McCormick, laborer, 1 day at \$2.25, \$2.25.

Meter Branch.—J. Cullen, plumber, $\frac{3}{4}$ day at \$3.50, \$0.66; J. Mahoney, laborer, $\frac{3}{4}$ day at \$2.25, \$0.42; W. Welch, plumber, $\frac{3}{4}$ day at \$3.50, \$0.66; J. J. Shea, laborer, $\frac{3}{4}$ day at \$2.25, \$0.42; P. Clougherty, laborer, $\frac{3}{4}$ day at \$2.25, \$0.63.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Acting Mayor. Those awarded without public advertisement are specially indicated. Week ending July 27, 1911:

PUBLIC WORKS DEPARTMENT (Paving Service).

On July 21 the Acting Mayor approved a contract with Daniel E. Lynch for excavating and filling in Sachem street, between Hillside street and Parker Hill avenue, Roxbury. Bids on this work were opened Friday, June 2, 1911, and were as follows:

Daniel E. Lynch, \$2,860; A. DeStefano, \$2,966; James Doherty, \$3,445; Charles J. Jacobs Company, \$3,465; John McCourt & Co., \$6,075.

Engineers' estimate, \$3,025.

On July 24 the Acting Mayor approved a contract with James Doherty for edge-stones, gutters, crosswalks and artificial stone sidewalks in Standish street, between Harvard and West Park streets. Bids on this work were opened July 17, 1911, and were as follows:

James Doherty, \$1,233.40; Warren Brothers Company, \$1,298.05; Daniel E. Lynch, \$1,330; Connolly & Diamond, \$1,340.29; John McCourt & Co., \$1,370.09; Jeremiah J. Sullivan, \$1,447.81; John T. Shea, Jr., \$1,197.*

Engineers' estimate, \$2,000, which included \$700 for stock furnished by the city and for engineering.

*John T. Shea, Jr., did not submit price for Item 4 (c.)

On July 24 the Acting Mayor approved a contract with James Doherty for wood block pavement in Milk street, between Oliver and Broad streets. Bids on this work were opened on July 17, 1911, and were as follows:

James Doherty, \$4,211.70; F. S. & A. D. Gore Corporation, \$4,356.70; Central Construction Company, \$4,537.80.

Engineers' estimate, \$4,900, which includes \$520 for engineering.

On July 24 the Acting Mayor approved a contract with James Doherty for wood block pavement in East Fourth street, between P street and Farragut road. Bids on this work were opened July 17, 1911, and were as follows:

James Doherty, \$5,416.10; F. S. & A. D. Gore Corporation, \$5,944.15; Central Construction Company, \$6,385.30.

Engineers' estimate, \$7,500, which includes \$1,620, for stock furnished by the city and for engineering.

PUBLIC WORKS DEPARTMENT (Sewer Service).

On July 21 the Acting Mayor approved a contract with Antony Cefalo for sewerage works in Johnston road and Harvard street, Dorchester. Bids on this work were opened Friday, July 14, 1911, and were as follows:

Antony Cefalo, \$5,306.92; J. H. Ferguson, \$5,485.06; Murphy & Dolan, \$5,564.01; M. De Sisto & Co., \$5,609.16; George J. Regan, \$5,857.24; Peter W. Hill, \$5,974.50; William J. Barry, \$6,101.20; E. De Christoforo, \$6,255.76; D. E. Lynch, \$6,466.73; John McCourt & Co., \$6,649.62.

Engineers' estimate, \$6,067.31.

SCHOOLHOUSE DEPARTMENT.

On July 26 the Acting Mayor approved a contract with Thomas H. Hanlon for carpentry work at the Hobart Street School. Bids on this work, opened July 17, were as follows:

Thomas H. Hanlon, \$943; M. S. Kelliher, \$1,039; F. G. Whittaker, \$1,230. William Crane also bid but failed to inclose certified check.

On July 26 the Acting Mayor approved a contract with J. J. Stephan for cleaning and repairing furnaces in the various schoolhouses in all districts of the city, and for doing work on portables. Items 1 to 6, inclusive, refer to school districts; Items 7 and 8 to portables. Bids on this work, opened July 20, were as follows:

Item 1.—J. J. Stephan, \$150; Finn Brothers, \$179.50; Walker & Pratt Company, \$181; Sherman Heating Company, \$273.

Item 2.—J. J. Stephan, \$205; Walker & Pratt Company, \$294; Sherman Heating Company, \$400.

Item 3.—J. J. Stephan, \$250; Felton-Turner Company, \$298; Finn Brothers, \$338.75; Walker & Pratt Company, \$395; Sherman Heating Company, \$459.

Item 4.—J. J. Stephan, \$430; Felton-Turner Company, \$477; Finn Brothers, \$526.50; Walker & Pratt Company, \$568.

Item 5.—J. J. Stephan, \$225; Felton-Turner Company, \$255; Finn Brothers, \$264.50; Walker & Pratt Company, \$273.

Item 6.—J. J. Stephan, \$225; Walker & Pratt Company, \$290; Finn Brothers, \$298.25.

Item 7.—J. J. Stephan, \$627; Finn Brothers, \$740; Walker & Pratt Company, \$785.

Item 8.—

	a.	b.	c.	d.
J. J. Stephan.....	\$3 00	\$0 25	\$0 50	\$0 05

Felton-Turner Co....		20	40	25

SUPPLY DEPARTMENT.

On July 21 the Acting Mayor approved a contract with the Rockport Granite Company for furnishing 120,000, more or less, 5-inch special granite blocks. Bids on these blocks, opened July 18, were as follows, price being per 1,000 blocks:

Rockport Granite Company, \$63; Pigeon Hill Granite Company, \$63.40.

PUBLIC WORKS DEPARTMENT (Water Service).

On July 24 the Acting Mayor approved a contract with John A. Costello & Co., for laying water pipe in Hinsdale street, city proper; Fisher avenue and Brookledge street, Roxbury; Copley's highway and Deering road, Dorchester; Washington street, Brighton, and Rawson road, West Roxbury. Bids on this work were opened July 14, 1911, and were as follows:

John A. Costello & Co., \$1,188; Thomas Burke, \$1,198; Michael De Sisto & Co., \$1,255.80; Daniel E. Lynch, \$1,442.50. Engineers' estimate, \$1,455.

WITHOUT ADVERTISING.

The Acting Mayor has approved the following requests of departments to do work with the department forces without advertising, and also additions to and deductions from contracts:

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Acting Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with macadam Massachusetts avenue, from Washington street to Shawmut avenue (southerly roadway), the estimated cost for labor and materials being \$1,600.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

The Acting Mayor has approved the following deduction, amounting to \$1,045, on contract with J. E. Locatelli Company for domestic administration building, on account of omission of painting of the walls. Original contract, \$60,387; total additions, \$8,319.40; total deductions, \$1,045; contract as standing, \$67,661.40.

PAYMENTS TO DISABLED EMPLOYEES.

The following allowances made by the Commissioner of Public Works have been approved by the Acting Mayor:

Sanitary Service.—John E. Gillespie, 19 days at \$3.50, \$66.50; Andrew J. Muldoon, 3 days at \$2.25, \$6.75; Eugene J. Daily, Jr., 24 days at \$2.25, \$54; William Flaherty, 5 days at \$2.25, \$11.25; Patrick Toomey, 10 days at \$2.25, \$22.50.

Street Cleaning Service.—James Gillen, 17 days at \$2.25, \$38.25.

Sewer Service.—Peter Tumblety, 6½ days at \$2.50, \$16.25; Cornelius Collins, 14 days at \$2.25, \$31.50; R. A. Murphy, 2 days at \$2.25, \$4.50.

LAND-TAKING FOR SCHOOL PURPOSES.

The Acting Mayor has approved a vote of the Board of Schoolhouse Commissioners requesting the Street Commissioners to take, at a price not exceeding 15½ cents per foot, a parcel of land for schoolhouse purposes, situated on Beaumont street, and containing about 31,263 square feet.

GROUND BROKEN FOR PARKMAN MEMORIAL BANDSTAND ON THE COMMON.

Ground was appropriately broken on Boston Common Wednesday, July 26, 1911, at 3 p. m., for the new memorial bandstand in memory of the late George F. Parkman. The exercises were of a simple nature, addresses being made by Acting Mayor Walter L. Collins and Chairman William C. Brooks of the Music Department. Ground was subsequently broken by Mr. Brooks.

A committee composed of the Music and Art Trustees and Mr. D. Henry Sullivan of the Public Grounds Department were given powers to decide on the model, location and style of the stand most fitting for Boston Common. After examining carefully the drawings submitted in open competition by several well known architects, Messrs. Derby, Robinson & Shepard, 20 Beacon street, Boston, were selected as the designers of the new stand.

Messrs. William Crane Company were the lowest bidders on the contract with a total of \$42,794, a figure which far exceeded the amount originally appropriated for the stand, which was \$20,000. Realizing that the stand could not be erected for less than the stated bid, the City Council, on advice from his Honor the Mayor, appropriated the necessary additional appropriation to meet the building expenses. The work of excavating for the stand will start at once, adjacent to the location of the present stand, near the Soldiers' Monument. It is hoped to have the building completed by October.

MUNICIPAL BAND CONCERTS.

The Municipal Band of the city of Boston has been organized for this year, with thirty-five men, directed by Dionisio G. Cericola. Concerts will be given on Boston Common on Sunday afternoons, Franklin Park on Saturday afternoons, and in the different sections of the city evenings, starting July 7.

A new feature for this season will be the "Noonday Concerts" on Boston Common. The concert from 12 to 2 p. m. will be given by the Municipal Band. Though an innovation in this country, the success attained by similar concerts in Paris, Berlin and other European centers indicates that the "Noonday Concerts" will be appreciated. It is hoped that, with the co-operation of the directors of the larger stores, etc., whose employees will be benefited in the future, that this line of work may be greatly enlarged. Below is a schedule of concerts for season:

Boston Common. Sunday afternoons at 3.30 p. m., July 2 to September 3, inclusive. Labor Day, September 4, 1911, at 3.30 p. m., Municipal Band, thirty-five pieces, Dionisio G. Cericola, leader.

Marine Park, South Boston. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive, and Labor Day, September 4, 1911. July 30, 3.30 p. m., Kanrich's Band, A. M. Kanrich, leader.

August 6, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

August 13, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 20, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 27, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

September 3, 3.30 p. m., Post 26, G. A. R. Band, William A. Morrell, leader.

Pine Bank, Jamaica Pond. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive.

July 30, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 6, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

August 13, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

August 20, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 27, 3.30 p. m., First Corps Cadet Band, John B. Fielding, leader.

September 3, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

Wood Island Park, East Boston. Two concerts, Sunday afternoons, 3.30 p. m.

August 13, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

September 3, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

Abbotswood, Franklin Park. Saturday afternoons at 3.30 p. m.

July 8 to September 2, inclusive, Municipal Band, Dionisio G. Cericola, leader.

District concerts given in different sections of the city by the Municipal Band, Dionisio G. Cericola, leader. Unless otherwise specified, concerts are from 8 to 10 p. m.

August 1, Noonday Concert, Boston Common, 12 to 2 p. m.

August 2, Albany and Dearborn streets, Roxbury.

August 3, Roslindale Playground, Roslindale.

August 4, Neponset Playground, Neponset.

August 8, Noonday Concert, Boston Common, 12 to 2 p. m.

August 9, Columbus Avenue Playground, Roxbury.

August 10, Edward Everett square, Dorchester.

August 11, Thomas park, G and Sixth streets, South Boston.

August 15, Washington park, Roxbury.

August 16, Charlesbank, West End, city.

August 17, North Brighton Playground.

August 18, Peabody square, Ashmont.

August 22, Heath square, Heath and Park streets, Roxbury.

August 23, Adams and Common streets, Charlestown.

August 24, Christopher Gibson Playground, Field's Corner.

August 25, Sumner and Jeffries streets, East Boston.

August 29, North square, North End, city.

August 30, Emerald and Compton streets, South End, city.

August 31, near 100 Savin Hill avenue, Dorchester.

September 1, Ashley avenue and Breed street, East Boston.

The schedule herewith presented is subject to change without notice. Postponed concerts will be given as soon as possible after the original date scheduled. No programs will be distributed, but the daily and Sunday newspapers of Boston will print from time to time the weekly schedules, programs and other data pertaining to the concert season. Programs will be announced at all concerts by use of the megaphone.

All communications relating to the concerts should be addressed to Secretary, Walter L. Finigan, of the Music Trustees, Room 905, Carney Building, Boston, for prompt consideration.

The Music Trustees have arranged the following band concerts for the coming week:

BOSTON COMMON, SUNDAY, JULY 30, 1911, AT 3.30 P. M.

Municipal Band, D. G. Cericola, Leader.

Program.

1. Grand March. "Celebre." Lachner
 2. Overture. "Der Freischütz." Weber
 3. Waltz. "Tout Paris." Waldteufel
 4. Selections from "Faust." Gounod
 5. Cornet Solo. Selected.
- Mr. H. E. Brenton.
6. Danza Esotica. Mascagni
 7. Grand Selection from "Aida." Verdi
 8. Intermezzo from "Les Contes d'Hoffman." Offenbach
 9. Overture. "Turandot." Lachner
- "Star Spangled Banner."

MARINE PARK, SOUTH BOSTON, SUNDAY, JULY 30, 1911, AT 3.30 P. M.

Kanrich's Band, A. M. Kanrich, Leader.

Program.

1. March from "Aida." Verdi
 2. Overture. "Poet and Peasant." Suppe
 3. Idyl. "Softly Unawares." Lincke
 4. Selections from "The Spring Maid." Reinhardt
 5. Piccolo Solo. Selected.
- Mr. C. K. North.
6. Excerpts from "The Songs of the Day."
 7. Waltz. "España." Waldteufel
 8. Selection from "Faust." Gounod
 9. Intermezzo and Barcarolle from "Les Contes d'Hoffman." Offenbach
 10. Finale. "The Awakening of the Lion." de Koutski
- "Star Spangled Banner."

JAMAICA POND, SUNDAY, JULY 30, 1911,
AT 3.30 P. M.

*Edwin G. Bates Band, William J. J.
Tobin, Leader.*

Program.

1. March. "Universal Peace." *Lampe*
2. Overture. "Jolly Robbers." *Suppe*
3. Clarinet Solo. "Delecta." *Rollinson*
- Mr. Thomas V. Storey.
4. Selection from "The Man Who Owns Broadway." *Cohan*
5. Concert Waltz. "Loveland." *Hofmann*
6. Fantasia on "My Old Kentucky Home." *Langey*
7. Characteristic Number. "That Awful Baby." *Huger*
- (First time—by request.)
8. Selection. "Hearts and Flowers." *Tobani*
9. Grand Selection from "Faust." *Gounod*
10. Galop. "Tally-Ho." *Bernstein*
- "Star Spangled Banner."

BOSTON COMMON, TUESDAY, AUGUST 1,
1911, 12 TO 2 P. M.

As an innovation the City of Boston will inaugurate on Tuesday, August 1, 1911, the "Noon Day Concert" on Boston Common. Concert will be from 12 m. to 2 p. m., and the celebrated Municipal Band, lead by Mr. D. G. Cericola, will render a concert of music for the benefit of the workers who are compelled to remain in the city during the summer season. A second concert will be given on Tuesday, August 8, 1911, at 12 m.

Program.

1. March. "The Winning Fight." *Holzmann*
2. Overture. "The Bronze Horse." *Auber*
3. Waltz. "España." *Waldteufel*
4. Selection from "The Prince of Pilsen." *Luders*
5. Feature Number. "Aubade Printaniere." *Lacombe*
6. Grand Selection from "Carmen." *Bizet*
7. Serenade. "The Language of Love." *Richardson*
- (First time—by request.)
8. Selections from "The Arcadians." *Monckton*
9. Galop. "Infernal." *Keler-Bela*
- "Star Spangled Banner."

ALBANY AND DEARBORN STREETS, ROXBURY, WEDNESDAY, AUGUST 2, 1911,
AT 8 P. M.

Municipal Band, D. G. Cericola, Leader.

Program.

1. March. "Nibelungen." *Wagner*
2. Overture. "Light Cavalry." *Suppe*
3. Waltz. "Jolly Fellows." *Vollstedt*
4. Popular Gems:
 - a. "Kiss Me, My Honey." *Snyder*
 - b. "You'll do the Same Thing Over." *Gumble*
5. Selections from "The Chocolate Soldier." *O. Strauss*
6. Descriptive Fantasia. "Cavalry Charge." *Luders*
7. Medley of Remick's Hits. *Lampe*
8. Spanish Serenade. "La Paloma." *Yradier*
9. March. "2nd Connecticut Regiment." *Reeves*
- "Star Spangled Banner."

ROSLINDALE PLAYGROUND, ROSLINDALE, THURSDAY, AUGUST 3, 1911, AT 8 P. M.

Municipal Band, D. G. Cericola, Leader.

Program.

1. March. "Up the Street." *Morse*
2. Overture. "Orpheus." *Offenbach*
3. Selection from "The Prince of Pilsen." *Luders*
4. Waltz. "Artists' Life." *J. Strauss*
5. Selections from "Madame Sherry." *Hoschna*
6. Ballet Music from "Faust." *Gounod*
7. Grand Fantasia. "The North and South." *Bendix*
8. Intermezzo. "The Gondolier." *Powell*
9. Galop. "Infernal." *Keler-Bela*

NEPONSET PLAYGROUND, NEPONSET, FRIDAY, AUGUST 4, 1911, AT 8 P. M.

Municipal Band, D. G. Cericola, Leader.

Program.

1. March. "The Winning Fight." *Holzmann*
2. Overture. "The Mill on the Cliff." *Reissiger*
3. Selections from "The Man Who Owns Broadway." *Cohan*
4. Waltz. "The Beautiful Galatea." *Godfrey*
5. Popular Medley. "Alma, Where Do You Live?" *Briquet*
6. Spanish Serenade. "La Paloma." *Yradier*
7. Gems from Feist:
 - a. My Cavalier." *Nathan*
 - b. "Dancing Starlight." *Glogau*
8. Tone Picture. "The Civil War." *Tobani*
9. March. "Cruiser Harvard." *Strube*

FRANKLIN PARK, SATURDAY, AUGUST 5, 1911, AT 3.30 P. M.

Municipal Band, D. G. Cericola, Leader.

Program.

1. March. "Coronation March." *Meyerbeer*
2. Overture. "Mignon." *Thomas*
3. Grand Selection. "Tannhauser." *Wagner*
4. Waltz. "Southern Roses." *J. Strauss*
5. Selections from "The Red Mill." *Herbert*
6. Ballet Music from "Faust." *Gounod*
 - a. Allegretto.
 - b. Ensemble.
 - c. Entry of the Nubian Slaves.
7. Baritone Solo. Selected. *Mr. S. W. Gallo.*
8. Selections from "The Balkan Princess." *Rubens*
9. "Don Carlos" Selections. *Verdi*
10. Finale. "2d Connecticut Regiment March." *Reeves*

EXCESS CONDEMNATION ASSESSMENTS.*

In Europe it has been common to take more land than is required for the immediate public purpose for which land may be taken and thereafter sell it or lease it under appropriate restrictions. This method has been adopted lately in London in the opening of the King's way and several other streets. In one case the sale of the land acquired bordering the newly open street has entirely paid for the land taken for the street and for its cost. It is expected that in the case of the King's way the cost of the new avenue will be very slight, if anything, in excess of the money received for the land sold.

In the United States the taking of more land than immediately needed for the particular improvement has been seldom resorted to. An old decision of the New York Court of Appeals may perhaps render it impossible to pursue this policy in the State of New York until the Constitution is amended. An amendment has been approved by the Legislature, and if again approved will be submitted to the people in November, which defines the taking of additional, adjoining, continuous or neighboring property as a taking for a public use. The evil to be remedied is grave. When the streets are widened or new streets cut through old parts of the city, irregular and small-sized plots of land are left totally unsuitable for improvement. There are streets in New York to-day which have been widened for ten years, but still look as though they had been devastated by an earthquake. The reason is that when the map is inspected it is found that there are all sorts of small bits of land in separate ownerships, just as they were when the street was widened. If, when the street was widened, the city had acquired approximately 100 feet more land than was taken for widening, the land could have been sold to advantage, and would have been approved immediately by the erection of suitable structures. The land would have been sold for more than the city had to pay for it. The additional money received would have helped to have paid for the improvement. As it was the property fronting on the street was assessed for the expense of the improvement, and the owners of the property were heavily burdened although unable to reap the benefit of the increased value given to the land by the widening.

When Delancey street was widened a few years ago, lots less than ten feet deep in some cases were left fronting for 100 feet on the widened street. Adjacent to these lots were other lots fronting on the side streets and lying parallel to Delancey street. Delancey street was widened

because it was needed as a great thoroughfare for the approach to the Williamsburg Bridge. The land on Delancey street after it was widened was worth very much more than the land on the side street intersecting it. If the city had taken about 100 feet more land than was required for the widening, the land could have been sold for a profit, the owners of the land so taken would have been saved excessive assessments and the street would have been quickly improved with structures adapted to the new uses demanded by the new conditions.

ASSESSMENTS FOR LOCAL IMPROVEMENTS.

It is by no means necessary in all cases for the city to take more land than is required for a street. When the street is opened through property which is not improved, the simplest procedure is the best, and that is to assess the cost upon the property benefited. In order that a city plan may be developed the power to assess the cost upon the property, which is enhanced in value, is an absolute necessity.

In most cities of the country the cost of new streets, including paving and sewerage, is paid for by the assessment of the cost upon the property benefited. This should be the method in all cities, although power should also be given to the proper local authorities to determine what part of the cost should be borne by the city at large. There are cases where new streets are such a general benefit and the cost so greatly exceeds what would be spent for merely local improvements that it is but just that the city as a whole should bear a part of the expense. Under ordinary circumstances, however, a new street enhances the value of abutting land by a sum much in excess of the cost of the street. There is no injustice, therefore in assessing the cost upon the property benefited. The general policy of assessment for benefit may well be extended to the payment for the construction of street railway or rapid transit lines. A provision of this kind is now incorporated in the Public Service Commission law of New York.—*Municipal Journal and Engineer.*

LOOSE MUNICIPAL ACCOUNTING.

The Bureau of Municipal Research of New York, using the special fund provided for the purpose, has examined the financial reports of seventy-five American cities on the hunt for an intelligible balance sheet. The results disclosed are amazing.

Of the seventy-five cities sixty-eight do not show, with respect to current expenses and revenues, how much they have spent, including bills not paid and revenues due but not yet received. There is thus no proper income account. Assets are not shown by forty-eight of the cities, which thus have no balance sheet, twenty-nine do not show the balance of appropriations unexpended, and twenty-one do not state their bonded debt. If the books of large private corporations were kept with the looseness displayed by the municipalities no expert accountant would or could certify to their correctness.

Next to securing honest public officials nothing will do more to rectify and to remove the evils of municipal government than proper accounting.—*The American City.*

ROAD ACROSS THE CONTINENT.

Automobile manufacturers are considering a campaign to get the national government to construct a military highway clear across the continent.

*Extract from a paper before the conference on City Planning by Lawson Purdy, President Department of Taxes and Assessments, New York City.

FINANCE COMMISSION.

BOSTON, July 24, 1911.

To the Honorable the Mayor and City Council:

GENTLEMEN,—The Finance Commission respectfully submits the following report upon the City Clerk Department:

The department performs various duties prescribed by statute or ordinance, the principal ones being the attendance upon the City Council and the recording of its proceedings and the filing and recording of mortgages of personal property and other instruments.

The former Finance Commission, under date of July 14, 1908, made a report upon the department and recommended reorganization on a basis calculated to reduce the expenditures to not exceeding \$40,000 a year. The average annual expenditures for the ten year preceding the years 1908-09 had been \$51,370, but partly as a result of the commission's report the expenditures for the last three years have been reduced to \$46,591.51, \$42,900.22 and \$44,279.77, respectively, or an average of \$44,590.50 a year.

The failure to reduce expenditures to the extent recommended by the former commission is due to the fact that politics has always had and still has a large influence in the affairs of the department, causing an increase in the number and compensation of employees far beyond the actual needs of the service. Though the department is entitled to commendation for abolishing overtime payments and for reducing the total expenditures, it is entitled to little credit for reductions in the pay roll. The pay roll reductions have been few in number and small in amount. They have been made along the lines of least resistance, only one resignation having been called for by the City Clerk, the other reductions having been due to voluntary resignation or death. Of the five employees of the department who have ceased to be connected with it since the date of the former commission's report only one was removed; three resigned to get married and one died.

The present Finance Commission caused the department to be re-examined by Gunn, Richards & Co., expert accountants, who have completed their investigation and filed a report with the Finance Commission under date of December 28, 1910. They recommended changes which would reduce the expenditures of the department to not exceeding \$30,000 a year. The recommendations were based upon a study of the duties of the department and of the work performed by the various employees, as compared with similar work performed by city clerk departments in other cities of Massachusetts and by the Registry of Deeds in Suffolk County. As a result of the Finance Commission's examination both of the experts and of their report and of the officials of the department, the commission recommends that the following changes be made, believing that they are both reasonable and practicable:

1. CITY CLERK, ASSISTANT CITY CLERK AND ONE CLERICAL ASSISTANT.

	Present Salary.	Salary Recommended.
City Clerk.....	\$5,000	\$4,000
Assistant City Clerk.....	3,800	2,500
Clerical assistant.....	1,200	1,100
Totals.....	\$10,000	\$7,600

The office of City Clerk is an important and dignified one and involves considerable responsibility, but the duties are not arduous and the services would be well compensated by an annual salary of \$4,000.

The salary of the Assistant City Clerk is also in excess of the necessities of the case. Equally valuable services are rendered by the Assistant Registrar of Deeds of Suffolk County for an annual salary of \$2,500. Even under existing political conditions, \$2,500 is all that the city should pay. The services of the present Assistant City Clerk are actually worth more, as he is performing the duties of the City Clerk as well as his own, but when normal conditions are restored the salary of the Assistant City Clerk should be reduced to \$2,500 a year.

The \$1,200 salary received by the woman clerk who does typewriting for the City Clerk and Assistant City Clerk, and who also files and indexes the city contracts, is excessive. The number of city contracts filed and indexed averages only about four a day, and this work, like the other work performed by the clerk in question, is of a simple character. An annual salary of \$1,100, the amount which was paid prior to October 1, 1909, is sufficient. It is more than should be paid if the length of this clerk's service were not taken into account.

The three reductions thus recommended would effect an annual saving of \$2,400, without causing any change in the system established in the office or impairing its efficiency.

II. RECORD CLERK AND ASSISTANT.

	Present Salary.	Salary Recommended.
Record clerk.....	\$2,300	\$1,800
One woman clerk.....	1,200	1,100
Totals.....	\$3,500	\$2,900

The record clerk has charge of the work of recording and indexing the proceedings of the City Council and receives an annual salary of \$2,300. The woman clerk who assists him makes a current index of the City Council records on cards, and from these the record clerk makes a consolidated index at the end of the year. The Council meets once a week on an average, and the total number of pages of its proceedings is about 800; therefore only about three pages a day are indexed. The record clerk and his assistant also do some work in connection with the drawing of jurors, and the assistant has also a few other minor duties. In the opinion of the commission a full day is not required for the performance of this work, and the compensation which these two clerks receive is much larger than either the amount or the character of the work requires. A salary of \$1,800 would be ample compensation for the record clerk, and a salary of \$1,100 would be sufficient for his assistant. The latter received \$1,100 prior to October 1, 1909, and this amount would give full recognition to the value and length of her service.

These changes would save \$600 a year.

III. REORGANIZATION OF OTHER WORK IN THE DEPARTMENT.

A further saving of \$12,088 a year can be effected as follows:

A. By making reductions in the number and compensation of clerks employed in receiving, indexing and recording instruments and by changing the existing system in certain particulars.

B. By using the mails in collecting fees instead of employing a messenger to collect, and by hiring less expensive messenger service for posting civil service notices and for delivering papers to departments.

A. Receiving, Indexing and Recording Instruments.

1. *Receiving and Indexing.*—The experts report that for five years ending January 31, 1910, an average of 11,552 instruments, comprising mortgages and related instruments, assignments of wages, married women's certificates, liens on vessels, assignments for the benefit of creditors, descriptions of trade utensils, and business certificates, were filed annually in the City Clerk Department, and were attended to by six clerks whose salaries amounted to \$7,300 a year, the average cost per instrument being about 63 cents. In the Suffolk County Registry of Deeds there were about 47,000 instruments entered and indexed last year, exclusive of the Land Court registrations, and the average cost per instrument was about 15 cents, or less than one-fourth of the cost at the City Clerk Department. In the following table this work and its cost to the two departments are compared:

City Clerk Department.		
No.		Salary.
1	entry clerk.....	\$1,400
1	index clerk.....	1,800
1	index clerk.....	1,100
1	index clerk.....	1,000
1	index clerk.....	800
1	information clerk.....	1,200
6	Total.....	\$7,300

Average number instruments.....	11,552
Average cost per instrument.....	\$0.63

Suffolk Registry of Deeds.		
No.		Salary.
1	entry clerk.....	\$1,040
1	entry clerk.....	936
2	clerks paging indices, \$780 each.....	1,560
2	clerks paging entry books (part time).....	1,300
3	index clerks, \$780 each.....	2,340
9	Total.....	\$7,176

Number of instruments (1910).....	47,331
Average cost per instrument.....	\$0.1516

The transfer of one clerk to the work of preparing a consolidated index will reduce the cost in the present year from \$7,300 to \$6,300 and the cost per instrument to 55 cents, which, however, will still be three and one-half times as much as the cost at the Registry of Deeds. If this clerk is not retired when the consolidated index is finished, but is permitted to resume her former duties, the cost will again be 63 cents per instrument.

The compensation paid to employees of the Suffolk County Registry of Deeds for the work in question is sufficient in the opinion of the Finance Commission, and there can be no just defence for the continuance of the vastly more expensive system which is maintained at the City Clerk Department.

2. *Recording.*—The recording of instruments at the City Clerk Department is also excessively costly. The work of copying instruments in the record book, comparing records with the original and making corrections and marginal references is performed by ten clerks, whose salaries amount to \$11,500 a year.

Nine of the ten are employed in connection with the recording of mortgages and one is employed in connection with

the entering or recording of other instruments. Two of the ten employees, one rated as a bookkeeper, the other as a clerk, each receiving \$1,800 a year, are engaged principally in connection with recording, though they have other duties which occupy a comparatively small portion of their time. At the Registry of Deeds the copying is done on a piece-work basis and other branches of the work are performed by clerks at regular salaries. The cost of the work is far less at the Registry than at the City Clerk Department, as the salaries which are paid by the latter are higher and none of the business is on a piece-work basis. The experts employed by the commission made a study of the cost of recording mortgages and related instruments at the City Clerk Department for the twenty-four weeks from June 17 to December 1, 1910, this period being the one in which the cost has been lowest in recent years, and compared the cost with the estimated cost of doing the same amount of work at the Registry of Deeds. The comparison shows that the cost at the City Clerk Department was about two and three-fourths times as great as the cost would be at the Registry of Deeds.

City Clerk Department.

Copying approximately 5,580 pages:	
1 clerk, 24 weeks at \$21.09...	\$506 16
4 clerks, 24 weeks at \$19.17...	1,840 32
	\$2,346 46

Corrections and Margins:	
1 clerk, 24 weeks at \$19.17...	\$460 08
1 clerk, 24 weeks at \$15.34...	368 16
	828 24

Comparing:	
1 clerk, 24 weeks at \$34.52...	\$828 48
1 clerk, 24 weeks at \$19.17...	460 08
	1,288 56

Total..... \$4,463 28

Estimated Cost, Registry of Deeds.

5,580 pages at 20 cents per page.....	\$1,116 00
---------------------------------------	------------

Comparing:	
1 clerk, 24 weeks at \$18.....	452 00
Estimate of bonuses.....	68 00
	\$1,616 00

Total.....

In the opinion of the commission the maintenance of the present costly system of recording at the City Clerk Department is wholly without justification.

B. Messenger Service.

The four messengers, so called, employed in the City Clerk Department were all appointed outside of civil service prior to the date when messengers were placed under the civil service rules. These appointments, like many others in the department, were of a political character and the compensation is in excess of the actual value of the service rendered. One of the messengers receives \$1,200 a year. He is a custodian of records which are kept in the vault in the basement. His duties are of the simplest character and would be well compensated by a salary of \$900 a year.

Another messenger who receives \$1,200 a year is employed principally in answering inquiries at the door and in the preparation of hunters' licenses, of which there are about four per day on the average. The latter work could easily be attended to by the Assistant City Clerk or some other employee in the office, and there seems to be no reason why the inquiries could not be answered by the assistant or some other clerk, thus making the position of the messenger in question unnecessary.

The third messenger receives \$1,200 a year and is engaged principally in posting notices issued by the Civil Service Commission, which are required to be posted in each ward of the city, and in delivering the renewals of licenses for the

storage and sale of explosives. In the city of Worcester the posting of civil service notices is performed by an outside messenger at a cost of 25 cents per hour. If outside messenger service were employed for this work in Boston, it could be performed for \$200 a year, according to the liberal estimate of the experts employed by the Finance Commission. The other work of the messenger could be dispensed with if the department would notify the licensees that the papers were ready for delivery and could be received upon payment for the same at City Hall. By the adoption of these simple expedients the service of this messenger would become wholly superfluous and \$1,000 a year could be saved.

The fourth messenger is employed principally in carrying papers and other messages from the City Clerk Department to other city departments and in collecting fees for papers which have previously been left to be recorded. There is no reason why persons who leave papers for recording should not be required to call at City Hall and pay for the recording when the amount of the fee has been ascertained, or send payment by mail. That is the practice of the Registry of Deeds and, so far as known, of city clerk departments elsewhere. If that practice is established there will be no necessity for retaining the services of this messenger. A boy should be employed in his place at \$6 a week and thus \$688 a year could be saved.

If the following recommendations are adopted an annual saving of approximately \$15,088 can be effected and in this event an annual appropriation of \$30,000 will be ample.

The commission recommends:

1. That the ordinances be amended so as to fix the salaries of the City Clerk and Assistant City Clerk at \$4,000 and \$2,500 a year, respectively, and that the salary of the woman clerk who assists the City Clerk and files and indexes city contracts be reduced to \$1,100 a year, thus saving \$2,400 a year.

2. That the salaries of the record clerk and of his assistant be reduced to \$1,800 and \$1,100, respectively, thus saving \$600 a year.

3. That the salary of the clerk who issues notices of hearings on pole locations be reduced from \$1,000 to \$800 a year.

4. That the work of receiving, indexing and recording instruments be reorganized, as outlined below, so as to reduce the cost to approximately the cost at the Registry of Deeds:

(a.) The salary of the chief clerk of the mortgage department should be reduced from \$2,000 to \$1,800, which would be a liberal allowance, equal to the salary paid the Second Assistant Registrar of Deeds for work which is similar in kind but much greater in amount.

(b.) Index books should be kept where the public could obtain information without being obliged to consult the information clerk or to rely upon the accuracy of the information thus given. The information clerk would thus become unnecessary and \$1,200 a year could be saved.

(c.) The salaries of one male clerk and two women clerks who work on the indices and receive \$1,800, \$1,100 and \$1,000, respectively, should be reduced to \$1,000, \$800 and \$800, respectively, thus saving \$1,300 a year.

(d.) The salary of the entry clerk should be reduced from \$1,400 to \$1,200, saving \$200 a year.

(e.) The recording of mortgages and other related instruments, including the

copying, comparing, correcting and making of marginal references, should be placed upon the same basis as at the Registry of Deeds. By establishing the piece-work system at the rates paid in the Registry of Deeds a saving estimated by the experts at \$3,600 a year could be effected.

(f.) One clerk, rated as bookkeeper, who now receives \$1,800 a year, and who is principally occupied in comparing papers with an assistant who receives \$1,000 a year, should be retired and the salary of the assistant reduced \$100, thus saving \$1,900 a year. The copyists should assist the remaining comparer in the same manner in which the copyists assist the comparers at the Registry of Deeds.

(g.) The clerk who is now in charge of the assignments of wages, married women's certificates and liens on vessels, which duties in connection with his other clerical work do not occupy his entire time, should be given the additional duties of keeping the books and answering inquiries now attended to by one of the messengers. His salary should be reduced from \$1,800 to \$1,500 a year.

5. The salary of the messenger who has charge of the vaults should be reduced from \$1,200 to \$900 a year.

The other three messengers should be retired and outside messenger service and extra use of the mails be resorted to, as previously outlined, and a messenger boy be employed at \$6 a week. These changes would result in a saving of \$3,188 a year over the present messenger cost.

A copy of the report of the experts is hereto annexed.

Respectfully submitted,

THE FINANCE COMMISSION,

by JOHN A. SULLIVAN,

Chairman.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 24, 1911.

Special meeting of the City Council, held in the Council Chamber, City Hall, at 2.30, p. m., for the purpose of drawing jurors, President COLLINS in the chair and a quorum present.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1894, viz.:

Two grand jurors, Superior Criminal Court, to appear August 7, 1911:

Timothy J. Brennan, Ward 17; Joseph S. Dillon, Ward 24.

Forty-one traverse jurors, Superior Criminal Court, to appear August 9, 1911:

Joseph H. Woodhead, Ward 25; George M. Conley, Ward 8; Gordon F. Ervin, Ward 21; Joseph D. MacIsaac, Ward 23; Robert N. Gallagher, Ward 21; George J. Lynch, Ward 20; John B. Masury, Ward 20; William J. Freeman, Ward 17; William F. Daly, Ward 19; John Keefe, Ward 4; Philip F. O'Brien, Ward 22; Paul W. Zimmerman, Ward 20; Jeremiah F. McCarthy, Ward 8; James Curvin, Ward 15; Arthur H. Smith, Ward 2; John S. Wallin, Ward 25; Edward W. Brown, Ward 25; William McKenney, Ward 25; John F. Houston, Ward 22; Michael C. Haley, Ward 24; William A. Wellock, Ward 1; Harry D. Mank, Ward 1; Coleman J. Foley, Ward 20; Jerome J. Cowin, Ward 2; William J. Cross, Ward 9; Vincent F. Crowley, Ward 12; William J. Byrne, Jr., Ward 15; Carl Fischer, Ward 20; Joseph Thompson, Ward 22; Bernard J. Campbell, Ward 1; Frederick W. Keyo, Ward 3; Gustaf I. Anderson, Ward 16; P. Joseph Lyons, Ward 19; Patrick O'Neill, Ward 13; David W. Connell, Ward 24; George W. Spott, Ward 25; John T. Wiswell, Ward 13; John J. Maguire, Ward 25; D. Allison Carrick, Ward 11; Clark B. Arseno, Ward 10; Bernard O'Brien, Ward 4.

Adjourned at 2.36 p. m.

BOSTON PUBLIC INSTITUTIONS.

Total expenditure for maintenance, in 1910, of City Hospital, Consumptives' Hospital, Infirmary, Children's, Soldiers' Relief, Overseeing of Poor and Registration Departments, \$1,490,981, or \$68,040 less than in 1909; of Penal Institutions (including County Jail), \$317,090, or \$3,498 more than in 1909.

PROCEEDINGS OF SCHOOL COMMITTEE.

July 20, 1911.

A special meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 6.28 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Ellis, Lee and Leen.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

RATES OF TUITION, TRADE SCHOOL FOR GIRLS.

A communication was received from the State Board of Education, under date of June 28, 1911, stating that at a recent meeting of that Board, in response to the order passed by the School Committee on June 5, 1911 (see p. 78), it was voted that after July 1, 1911, the rate of tuition of non-resident pupils in the Boston Trade School for Girls be established at nine dollars per month.

Placed on file.

APPROVAL OF CLASSES, EVENING TRADE SCHOOL.

A communication was received from the State Board of Education, under date of June 28, 1911, stating that at a recent meeting of that Board it was voted to approve the proposed plan for the establishment of classes in cloth machine and straw machine operating in an independent evening industrial school for girls and women as outlined in a plan submitted by the School Committee June 8, 1911 (see p. 74); that the course in cooking and home making, as outlined in a communication from the Acting Superintendent, was not approved, but the question of certain changes in the course suggested was referred to the Deputy Commissioner with instructions that necessary adjustments be made in the matter with the Acting Superintendent.

Placed on file.

USE OF SCHOOL-HOUSE FOR POLLING PURPOSES.

A communication was received from the Board of Election Commissioners, under date of July 12, 1911, requesting permission to use the boys' side of the hall in the Washington School as a polling place.

Placed on file, and the application approved, subject to the usual conditions.

ADDITIONAL SCHOOL ACCOMMODATIONS, TRANSFER OF ITEMS.

A communication was received from the Board of Schoolhouse Commissioners, under date of June 30, 1911, relative to the changes in Item 3 of the tax levy appropriation for the year 1911 (see p. 84), stating that said Board had reconsidered its action, and made other preparations to take care of the paving of the Mount Vernon-street School-yard, but will be obliged to defer the installation of a sanitary system in the Washington-street School-house until next year.

Placed on file.

HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILDING.

A communication was received from the Board of Schoolhouse Commissioners, under date of July 7, 1911, stating that a meeting has been held by that Board, the Board of Park Commissioners, and the architects with reference to the location of the High School of Commerce, and that it is the desire of the Board of Schoolhouse Commissioners that the building be placed as near Massachusetts avenue as possible, and had in mind the site directly behind the John Boyle O'Reilly Memorial, but this lot did not seem quite as desirable as one directly opposite Peterborough street, and requesting the opinion of the School Committee regarding the site for the school.

Placed on file.

On motion, it was
ORDERED, That the Board of Schoolhouse Commissioners be notified that in

the opinion of this Board the most desirable site in the Fenway for the new High School of Commerce and School Administration building is in the immediate vicinity of the John Boyle O'Reilly Memorial, and not opposite Peterborough street.

A communication was received from R. M. Bradley, under date of June 26, 1911, objecting to the location of the High School of Commerce in the Fenway.

Placed on file.

DEATH.

The Acting Superintendent reported the death of John S. Clark, truant officer, on July 12, 1911.

Placed on file.

The following appointments by the Acting Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:—

SUMMER HIGH SCHOOL.

Clinton C. Scheffy, assistant, July 10, 1911.

Approved.

PLAYGROUNDS.

Season of 1911.

(From Apr. 17 to Nov. 24, 1911.)

Playground Teachers.

Katharine O'Brien, Mary Sharkey, Gertrude Denehy, Mary Hughes, Mary V. D. Meagher, Mary Sweeney, Margaret Connelly, Eleanor Cummings, Helen L. Murphy, Anna E. Rosen, Dora Lipsitz, Catherine C. Lynch, Marguerite Condon, Alice J. Barry, Elizabeth G. Corcoran, Miriam Kallem.

Approved.

TRADE SCHOOL FOR GIRLS.

Summer Term.

Trade Assistants—Mary V. Cunningham, Ella Maker.

Helpers—Rebecca Anslow, Mary E. Cadigan, Mary E. Connor, Marie F. Libourel, Mary A. McBride, Annie V. Tracy.

Aids—Mildred E. Arnold, Florence M. Fogarty, Lulu M. Godfrey, Catherine Keller, Mary E. Legg, Cora Miller, Minnie Sutter.

Approved.

ENTERTAINMENTS IN SCHOOL PREMISES.

A communication was received from the Secretary, under date of July 8, 1911, in response to the action of the Board at the meeting of May 19, 1911 (see p. 69), requesting him to report upon the nature and extent of entertainments given in school premises for the purpose of raising money for school decoration and for other school purposes, stating that entertainments of this character have been rather numerous, but since the adoption of the rule prohibiting the holding of moving picture exhibitions in school buildings the number of entertainments has largely decreased.

Placed on file, and the Secretary directed to transmit a copy thereof to each member of the Board.

RESIGNATION OF ASSISTANT, SECRETARY'S OFFICE.

A communication was received from the Secretary, under date of June 26, 1911, reporting the resignation of Alice G. Clifford, an assistant in his office, to take effect July 31, 1911.

Placed on file, and the resignation accepted.

SUSPENSION OF A JANITOR.

A communication was received from the Schoolhouse Custodian, under date of July 20, 1911, reporting that he had suspended a janitor for a period of ten days, to take effect July 18, 1911, because of failure to pay his assistant.

Referred to Trial Board with instructions to consider the whole record of the janitor concerned, and to report its findings of facts, and recommendations in due course to this Board.

INCREASE IN SALARIES OF TEACHERS.

At the request of Counsel for the Boston Elementary Teachers Club, the following preamble and resolve prepared by him, were presented, and adopted:—

WHEREAS, The Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled, did pass an Act authorizing the School Committee of the City of Boston to make additional appropriations for the support of the public schools of said city in a sum equalling ten cents for the financial year ending on the thirty-first day of January, in the year nineteen hundred and thirteen, and a sum equalling twenty cents for each financial year thereafter, upon each one thousand dollars of the valuation on which the appropriations of the City Council are based, and providing that these additional sums "shall be appropriated wholly for the purpose of increasing the salaries of teachers in the elementary public day schools of the city of those ranks for which the regular maximum salary is now one thousand dollars or less per annum, and shall not be appropriated for any other purpose," and

WHEREAS, said Act was not approved by His Excellency the Governor, and

WHEREAS, by consent of the beneficiaries of said Act another Act entitled "An Act to Authorize the Making of Appropriations for Increasing the Salaries of the Teachers in the Public Schools of the City of Boston" has been substituted therefor, has been enacted by the Senate and by the House of Representatives, and has been approved by His Excellency the Governor;

NOW, THEREFORE, in consideration of the action and agreement as aforesaid, and in consideration of the premises, the School Committee of the City of Boston hereby agrees that it will devote a sum equalling the first additional twenty cents upon each one thousand dollars of the valuation on which the appropriations of the City Council are based, as the same shall become available under the provisions of the Act aforesaid, "wholly for the purpose of increasing the salaries of teachers in the elementary public day schools of the city of those ranks for which the regular maximum salary is now one thousand dollars or less per annum."

TRANSFER OF APPROPRIATION.

The following order was offered:—
ORDERED, That the sum of \$67,000, appropriated under the item "Water" in the annual appropriation order passed by this Board on Apr. 3, 1911, be transferred to the following-named items:—

Salaries of instructors.....	\$40,000
Apparatus for decreasing consumption of water in school buildings.....	17,000
Repairs and alterations to school buildings	10,000
	\$67,000

Passed by the following vote:—
Yeas—Messrs. Brock, Ellis, Lee and Leen—4.

Absent—Mr. Corcoran—1.

SALARY SCHEDULE FOR TEACHERS.

The following ten orders, establishing a salary schedule for teachers for the year ending Aug. 31, 1912, were submitted:—

1. ORDERED, That the salaries of teachers in the public schools be fixed for the year ending Aug. 31, 1912, as contained in the following schedule:—

NORMAL SCHOOL.

Head-Master, first year \$3204, annual increase \$144, maximum.....	\$3780.00
Masters, first year \$2340, annual increase \$144, maximum.....	3204.00
Junior-Masters, first year \$1476, annual increase \$144, maximum.....	2628.00
Instructors, first year \$1200, annual increase \$120, maximum.....	2040.00
First Assistants, first year \$1332, annual increase \$72, maximum.....	1836.00
Supervisor of Practice, first year \$1332, annual increase \$72, maximum.....	1836.00
Assistants, first year \$1140, annual increase \$60, maximum.....	1620.00
Assistant Instructors, first year \$900, annual increase \$72, maximum.....	1548.00
Instructor in Drawing.....	2508.00
Clerical Assistant, first year \$600, annual increase \$60, maximum.....	720.00

LATIN AND HIGH SCHOOLS.

Head-Masters, first year \$3204, annual increase \$144, maximum.....	3780.00
Masters who are heads of departments, first year \$2340, annual increase \$144, maximum.....	3204.00

Helpers (Trade School for Girls).....	3.00

and that the compensation of substitutes and temporary teachers of other ranks than those enumerated herein shall be one four-hundredth part of the minimum salary of the respective ranks for each day of actual service; provided, that the minimum pay of no substitute shall be less than two dollars (\$2.00) for each day of actual service, except as above provided.

3. ORDERED, That for the year ending Aug. 31, 1912, any teacher who may be designated by the Superintendent, in accordance with the regulations, to fill a vacancy caused by the death, disability, or absence of a principal of a school or district or of a director or supervisor for a continuous period exceeding two weeks, shall receive, in addition to his or her regular salary, one-half of the difference between the said salary and the minimum salary of the higher position, during the time of such service, but not including the summer vacation. Teachers who may similarly be designated to fill the positions of master's assistant, or first assistant in charge, shall be paid at the rate of eight dollars (\$8.00) per month in addition to the regular salary of their rank.

4. ORDERED, That the compensation of teachers appointed to serve during the regular terms of the day industrial schools, who are appointed to serve in the summer term, shall be at the same monthly rate as that received by the respective appointees during the month of June preceding.

5. ORDERED, That any teacher in the day industrial schools whose salary is fixed at a stated sum per year, and who serves during the summer term thereof shall be paid therefor at the rate of one-twelfth of such annual salary for each month of such service.

6. ORDERED, That those teachers in the elementary day schools whose regular maximum salary is \$1000 or less per annum shall be paid at the rate of \$48.00 per annum in addition to their present salary, beginning on September 1, 1911.

7. ORDERED, That Mary C. Mellyn, Supervisor of Substitutes, be placed upon the sixth year of the salary of her rank, viz., \$3,180, to take effect September 1, 1911, and that she be placed upon the seventh year of the salary of her rank, viz., \$3,300, to take effect September 12, 1911, and that she be advanced on successive anniversaries of the latter date until the maximum is reached.

8. ORDERED, That Theodore M. Dillaway, Director of Drawing and Manual Training, be placed upon the first year of the salary of his rank, viz., \$3,060, to take effect September 1, 1911, and that he be placed upon the second year of service of his rank, viz., \$3,180, to take effect January 3, 1912, and be advanced on anniversaries of the latter date until the maximum of the rank is reached.

9. ORDERED, That John C. Brodhead, Assistant Director of Drawing and Manual Training, be placed upon the first year of the salary of his rank, viz., \$2340, to take effect September 1, 1911, and that he be placed upon the third year of service of his rank, viz., \$2580, to take effect September 14, 1911, and that he be advanced on anniversaries of the latter date until the maximum of the rank is reached.

10. ORDERED, That Florence E. Leadbetter, Principal of the Trade School for Girls, be placed upon the first year of the salary of her rank, viz., \$2,580, to take effect September 1, 1911, and be advanced on successive anniversaries of that date until the maximum is reached.

The orders collectively and unanimously passed.

On motion, it was

ORDERED, That the Superintendent and Business Agent are hereby requested to

prepare and submit to this Board at as early a date as possible, a salary schedule which will result, beginning Feb. 1, 1912, in carrying into effect the agreement of this Board to devote the first twenty cents per \$1,000 of the additional appropriations authorized by Chapter 708, Acts of 1911, to increasing the salaries of those teachers in the elementary day schools whose regular maximum salary is less than \$1,000 per annum.

On motion, it was
ORDERED, That the Business Agent is hereby instructed to prepare and keep suitable accounts which shall show the purposes for which the additional appropriations authorized by Chapter 708 of the Acts of 1911 are expended.

Sundry communications and petitions received at various meetings with reference to increasing the salaries of teachers were taken from the table and placed on file.

NOTIFICATION TO BOARD OF ASSESSORS OF ANNUAL APPROPRIATIONS.

On motion, it was
ORDERED, That the Board of Assessors is hereby notified that the School Committee has appropriated, under authority granted it by the Legislature of Massachusetts, the sum of \$5,164,000, for the support of the public schools, for the purpose of constructing and furnishing new school buildings, including the taking of land therefor, and for schoolyards and the preparing of schoolyards for use, and for other purposes, for the financial year beginning Feb. 1, 1911.

Of this amount \$5,026,971.38 should be included by said Board in the total amount to be raised by taxation, and the balance, \$137,028.62, to be obtained as follows:—

Unexpended balance, general appropriation 1910-11	\$35,093.17
Excess of income over amount estimated 1910-11	13,648.57
Estimated income 1911-12.....	88,286.88
	\$137,028.62

USE OF LOWELL SCHOOL-HOUSE FOR THE GERMAN SCHOOL.

A communication was received from G. H. Flebbe, Secretary of the School Committee of the German School, under date of June 28, 1911, extending thanks for the use of the Lowell School-house, and requesting the privilege to use the same building for another year.

Placed on file, and the application approved subject to the terms and conditions heretofore existing.

REQUEST FOR USE OF WASHINGTON SCHOOL ROOF AND BASEMENT.

A communication was received from William J. Mann, under date of July 20, 1911, requesting the use of the roof and basement of the Washington School for the purpose of carrying on classes in English for foreigners.

Referred to the Acting Superintendent with full powers.

OCCUPANCY OF ROOF OF WASHINGTON SCHOOL.

On motion, it was
ORDERED, That this Board hereby authorizes the use of the roof of the Washington School-house by mothers accompanied by their children of five years of age, and under, on nights when the temperature is above 85 degrees at four o'clock P.M., and will provide the necessary janitor service on such nights; provided, the Elizabeth Peabody House assumes full responsibility for such occupancy of the roof and charge of all the necessary details in connection therewith.

REMOVAL OF WINTHROP SCHOOL-HOUSE.

On motion, it was
ORDERED, That this Board hereby waives any objection to the removal of the whole of the Winthrop School-house in connection with the extension of Dix place, said extension necessarily involving the practical demolition of said building.

CLERICAL WORK IN ELEMENTARY SCHOOLS.

On motion, it was
ORDERED, That the Board of Superintendents be requested to ascertain and report how the total amount of clerical work done in the various schools may be lessened, and the remainder distributed in such manner as to relieve principals of performing the same.

APPLICATION OF PART OF SCHOOL APPROPRIATION TO INCREASING SALARIES OF ELEMENTARY SCHOOL TEACHERS.

The communication received from His Honor the Mayor at the meeting of Jan. 30, 1911 (see p. 223), with reference to applying part of the school appropriation to increasing the salaries of elementary school teachers was taken from the table and placed on file.

RANKS OF INSTRUCTOR AND ASSISTANT INSTRUCTOR IN HIGH SCHOOLS.

The report received from the Superintendent at the meeting of April 3, 1911 (see p. 38), with reference to the advisability of abolishing the ranks of instructor and assistant instructor in high schools, was taken from the table and placed on file.

CARE OF CHILDREN'S CORNERS IN PARK PLAYGROUNDS.

The matter of the care of children's corners in park playgrounds (see pp. 10, 80, 90) was referred to the Sub-Committee on Physical Training consisting of Messrs. Corcoran, Lee and Leen, to take up with the Board of Park Commissioners, with full power to adjust the same.

CLASSES IN COOKERY, FRANKLIN DISTRICT.

On motion, it was
ORDERED, That the Board of School-house Commissioners be requested to hire suitable accommodations at No. 1 Hanson street, or elsewhere in the immediate vicinity, for the accommodation of classes in cookery in the Franklin District.

ADJOURNMENT.

The Board adjourned at 6.50 o'clock P. M.
Attest:—

THORNTON D. APOLLONIO,
Secretary.

BAD MILK—WHOSE FAULT?

A speaker before a pure milk conference in Philadelphia declared that the consumer was more to blame for bad milk conditions than the producer. The fault does not lie with either of them, as a rule, but with the authorities. Clean milk is more expensive than dirty, and the stress of competition urges the producer to omit the necessary regulations. The consumer is practically helpless to distinguish between good and bad, and so takes the cheaper milk and the risk that goes with it. Rigid inspection by competent people is the thing needed to protect both consumer and producer, and that cannot be obtained in communities where the people would rather play at partisan politics than have good municipal house-keeping.

GARBAGE BY NIGHT.

New York has adopted the rule of removing garbage by night instead of by day so as to get rid of offensive odors. Several cities that have used this system for a time have abandoned it, because they found they could not get as clean and thorough work done by night as by day.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR THE RAZING AND REMOVAL OF THE OLD COURT HOUSE BUILDING.

The Superintendent of Public Buildings of Boston, Mass., invites proposals for the razing and removal of the Old Court House Building, Court street, Boston, according to specifications and plans to be seen at the office of the superintendent, and giving a bond of a surety company satisfactory to the superintendent in the sum of ten thousand (\$10,000) dollars. The proposal to state the time when work will be completed; also proposals are to be submitted in two ways—the first to include the razing and removal of the building, including the front portico; the second, to do the same work but to preserve the said front portico, the portico to be teamed to a city lot for storage, all as specified in the specifications of the work. Only proposals obtained at the office of the Superintendent of Public Buildings, Room 30, Old Court House, Boston, filled out, signed by the bidder, and left before 12 o'clock noon of Friday, August 4, 1911, at said office, with a certified check on a Boston bank for \$500, payable to and to be the property of the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. Proposals must be placed in envelopes properly sealed and marked "Proposal for the Razing and Removal of the Old Court House Building." The proposal must be made in duplicate, the one with the check to be sent as above, the duplicate, without check, to be deposited with the City Auditor, City Hall, Boston, previous to the time named for opening of bids. The undersigned reserves the right to reject any and all proposals or to award the contract as he deems best for the city's interest.

M. J. FISH,

Superintendent of Public Buildings.

(July 29.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners, in accordance with chapter 393 of the Acts of 1906, have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

Douglas street, from Columbia road to East Eighth street.

BRIGHTON.

Glenville avenue (formerly Princeton avenue), from Harvard avenue to Allston square.

Spofford road, from Commonwealth avenue to Princeton (now Glenville) avenue.

Wallingford road, from Commonwealth avenue to Chestnut Hill avenue.

WEST ROXBURY.

Bradfield (formerly Bradford) avenue, from Centre street to South street.

Kenneth street, from Farrington avenue to Stratford street.

DORCHESTER.

Coleman street, from Quincy street to Hendry street.

Dorris street, from Dorchester avenue to Gardner avenue.

Fottler road (formerly Tileston avenue), from Walk Hill street to Hiawatha road.

Frost avenue, from Boutwell street to Fairview street.

Harmon street (formerly Roland road), from Oakland street southwesterly for a distance of 90 feet.

Hiawatha road, from Blue Hill avenue to Tileston avenue (now Fottler road).

ROXBURY.

Bryant street (formerly Rogers avenue), from Huntington avenue to Ruggles street.

Greenleaf street, from Rogers avenue to Leon street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Monday, August 14, 1911, as after that time no permits for openings will be granted until two years after said highways are completed.

LOUIS K. ROURKE,

Commissioner of Public Works.

Boston, July 13, 1911.

(July 29-Aug. 5.)

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, AUGUST 5, 1911.

No. 31

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 45, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 21, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Conley, machinist, 1 day at \$3, \$3; Robert Hindle, machinist and steam roller engineer, 1 day at \$3, \$3; Edward J. Moriarty, steam roller engineer, $\frac{1}{2}$ day at \$3, \$1.88; William H. Smith, steam roller engineer, 1 day at \$3, \$3; Robert Coulesey, working foreman, 1 day at \$2.75, \$2.75; James H. Kelley, janitor, 1 day at \$2.50, \$2.50; James Sweeney, shepherd, 1 day at \$2.50, \$2.50; Jeremiah J. Downey, playkeeper, 1 day at \$2.50, \$2.50; John J. Regan, chauffeur, 1 day at \$2.50, \$2.50; Henry H. Adolph, laborer, 1 day at \$2.25, \$2.25; Martin P. Barrett, laborer, 1 day at \$2.25, \$2.25; Daniel Buckley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; Moses A. Coulter, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.63; William E. Connell, laborer, 1 day at \$2.25, \$2.25; Patrick Connolly, 2d, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Matthias Costello, laborer, 1 day at \$2.25, \$2.25; Patrick Flynn, laborer, 1 day at \$2.25, \$2.25; Edward Foley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; James Galvin, laborer, 1 day

at \$2.25, \$2.25; Thomas Ganley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael J. Grady, laborer, 1 day at \$2.25, \$2.25; Charles Lennon, laborer, 1 day at \$2.25, \$2.25; John F. Maguire, laborer, 1 day at \$2.25, \$2.25; Samuel J. Moran, laborer, $\frac{1}{2}$ day at \$2.25, \$1.69; Michael McCluskey, laborer, $\frac{1}{2}$ day at \$2.25, \$1.69; Thomas McDowell, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; Patrick F. McNamara, laborer, 1 day at \$2.25, \$2.25; Richard Walsh, steam roller engineer, $\frac{1}{2}$ day at \$3, \$2.25; John T. Conboy, working foreman, 1 day at \$3, \$3; Edward J. Barrett, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; John Curley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; John Toland, 2d, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; Alfred J. Wilson, laborer, 1 day at \$2.25, \$2.25; Charles A. Hogan, timekeeper, 1 $\frac{1}{2}$ days at \$2.50, \$4.06; Peter M. McManus, working foreman, 1 day at \$3, \$3; Patrick F. Crosby, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John J. Connolly, 1st, laborer, 1 day at \$2.25, \$2.25; Patrick Glennon, 2d, laborer, 1 day at \$2.25, \$2.25; Michael Hartigan, laborer, 1 day at \$2.25, \$2.25; Lawrence F. Kilroy, stableman, 1 day at \$2.25, \$2.25; William Locke, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; James Morrissey, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael H. Murray, laborer, 1 day at \$2.25, \$2.25; Patrick O'Rourke, laborer, $\frac{1}{2}$ day at \$2.25, \$1.69; Cornelius J. Shields, laborer, 1 day at \$2.25, \$2.25; William H. Stewart, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph Weidner, subforeman, 1 day at \$3.25, \$3.25; Peter Barker, working foreman, 1 day at \$3, \$3; Thomas J. Delaney, watchman, 1 day at \$2.50, \$2.50; John J. Abbott, laborer, 1 day at \$2.25, \$2.25; Andrew Buttomer, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick Cain, laborer, 1 day at \$2.25, \$2.25; Patrick Connolly, 1st, laborer, 1 day at \$2.25, \$2.25; Michael Downes, laborer, 1 day at \$2.25, \$2.25; Maurice Downey, laborer, 1 day at \$2.25, \$2.25; Thomas Galvin, laborer, 1 day at \$2.25, \$2.25; Terrence N. Griffin, playkeeper, 1 day at \$2.75, \$2.75; John Higgins, 2d, laborer, 1 day at \$2.25, \$2.25; James P. Hennessey, laborer, 1 day at \$2.25, \$2.25; John Hennessey, laborer, 1 day at \$2.25, \$2.25; James F. Hurley, laborer, 1 day at \$2.25, \$2.25; Festis Wallace, laborer, 1 day at \$2.25, \$2.25; Michael Walsh, 1st, laborer, 1 day at \$2.25, \$2.25; Joseph G. McQuarrie, boy, 1 day at \$1, \$1; James J. Davis, laborer, 1 day at \$2.25, \$2.25; John J. Lannan, laborer, 3 $\frac{1}{2}$ days at \$2.25, \$7.88; Michael Murphy, laborer, 1 day at \$2.25, \$2.25; John J. Reardon, laborer, 1 day at \$2.25, \$2.25; William C. Sales, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael O'Neill, park keeper, 1 day at \$2.50, \$2.50; Eleanor Quinlan, assistant instructor, $\frac{1}{2}$ week at \$11.50 per week, \$1.64; Thomas A. Callahan, laborer, 1 day at \$2.50, \$2.50; William Dunbar, laborer, 1 day at \$2.25, \$2.25; Hugh Greeran, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John O'Brien, 1st, laborer, 1 day at \$2.25, \$2.25; Hugh J. Bagley, laborer, 1 day at \$2.25, \$2.25; Raffaele De Florio, laborer, 1 day at \$2.25, \$2.25; Bartholomew Sullivan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; William A. Tuttle, subforeman, 1 day at \$3.25, \$3.25; John Younnie, watchman, 1 day at \$2.50, \$2.50; George T. Cunning, laborer, 1 day at \$2.25, \$2.25; William J. Memery, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Patrick J. Owens, laborer, 1 day at \$2.25, \$2.25; Dennis Toland, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; John E. Daley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael A. Martin, laborer, 1 day at \$2.25, \$2.25; Thomas Curley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; William Fanning, laborer, 1 day at \$2.25, \$2.25; Martin Corcoran, laborer, 1 day at \$2.25, \$2.25; William Fallon, laborer, 1 day at \$2.25, \$2.25; Thomas Murray, laborer, 1 day at

\$2.25, \$2.25; Patrick J. Shields, park keeper, 1 day at \$2.50, \$2.50.

Public Buildings Department.

For the week ending Thursday, July 27, 1911:

Thomas F. Murphy, janitor, 1 day at \$2.50, \$2.50; Daniel J. Fitzpatrick, watchman, 1 day at \$2.50, \$2.50; Max Stone, watchman, 1 day at \$2.50, \$2.50; Henry Sartoris, watchman, 1 day at \$2.50, \$2.50; Patrick A. Murphy, janitor, 1 day at \$1.50, \$1.50; Thomas J. Barry, janitor, 1 day at \$2.50, \$2.50; John Hagerty, janitor, 1 day at \$2.50, \$2.50; Harry J. Foster, janitor, 1 day at \$2.50, \$2.50; Ferdinand W. Webber, janitor, 1 day at \$2.50, \$2.50; Benjamin D. Drohan, janitor, 1 day at \$2.75, \$2.75; Daniel J. Sheehan, chief janitor, \$3.

Public Grounds Department.

For the week ending Thursday, July 27, 1911:

Fred Bonang, chauffeur, 1 day at \$2.75, \$2.75; John F. Costello, gardener, 1 day at \$3, \$3; Charles H. Cooke, gardener, 1 day at \$3, \$3; Michael Dooley, sodder, 1 day at \$2.25, \$2.25; Martin Finaghty, gardener, 1 day at \$3, \$3; Michael Flaherty, gardener, 1 day at \$2.50, \$2.50; Joseph Germaine, nurseryman, 1 day at \$3, \$3; Edward T. Grey, moth destroyer, 1 day at \$2.50, \$2.50; Charles Hayes, sodder, 1 day at \$2.50, \$2.50; Frank Hill, tree expert, 1 day at \$3, \$3; James J. Hines, sodder, 1 day at \$2.25, \$2.25; John A. Johnson, sodder, 1 day at \$3, \$3; Joseph P. Kilday, tree climber, 1 day at \$2.50, \$2.50; Cornelius Murphy, gardener, 2 days at \$2.25, \$4.50; Aaron Parker, tree climber, 1 day at \$2.50, \$2.50; Patrick Taylor, watchman, 1 day at \$2.50, \$2.50; Richard Tyler, sodder, 1 day at \$3, \$3; Thomas F. Walsh, messenger, 3 days at \$3, \$9; Richard Welch, stableman, 1 day at \$2.50, \$2.50.

Public Works Department (Bridge Service).

For the week ending Thursday, July 27, 1911:

H. H. McNerlin, drawtender, 1 day at \$1,200 per year, \$3.29; Frank E. Welch, first assistant drawtender, 1 day at \$1,000 per year, \$2.74; Thomas W. Cogger, first assistant drawtender, 1 day at \$1,000 per year, \$2.74; James O. Brown, first assistant drawtender, 2 days at \$1,000 per year, \$5.48; twenty assistant drawtenders, 24 days at \$900 per year, \$59.08; A. S. Quinn, subforeman, 2 days at \$3.50, \$7; Joseph A. Coyle, carpenter, 2 days at \$3.50, \$7; George E. Hanlon, carpenter, 2 days at \$3.50, \$7; Michael Sullivan, carpenter, 2 days at \$3.50, \$7; John F. Sullivan, 2 days at \$3, \$6; Michael J. Harkins, carpenter, 2 days at \$3, \$6; P. J. McLaughlin, carpenter, 2 days at \$3, \$6; John J. Green, carpenter and teamster, 2 days at \$2.75, \$5.50; Patrick Henebury, carpenter's helper, 2 days at \$2.75, \$5.50; Daniel Crowley, carpenter, 2 days at \$2.75, \$5.50; James J. Murphy, carpenter's helper, 2 days at \$2.75, \$5.50; Richard Dooley, carpenter's helper, 2 days at \$2.50, \$5; James T. Mahan, carpenter's helper, 2 days at \$2.50, \$5; John B. Bowler, bridge cleaner, 2 days at \$2.50, \$5; Jeremiah F. Coleman, painter, 2 days at \$3.50, \$7; Henry D. Gay, painter, 2 days at \$3, \$6; John A. Buckley, painter, 2 days at \$3, \$6; Daniel A. Diamond, painter, 2 days at \$2.50, \$5.

Public Works Department (Ferry Service).

For the week ending Thursday, July 27, 1911:

Frank M. Donohoe, boat watchman, 3 hours at \$2.83 per day, \$1.06; John F. Le-

Bohn, gateman, 1 day at \$2.63, \$2.63; Henry H. McCarthy, gateman, 1 day at \$2.63, \$2.63; William P. Murphy, gateman, 1 day at \$2.63, \$2.63; James D. Coughlin, gateman, 3 days at \$2.63, \$7.89; William G. Greenall, gateman, 1 day at \$2.63, \$2.63; Michael Driscoll, boat watchman, 2 days at \$2.83, \$5.67; William Hogan, deckhand, 1 day at \$2.30, \$2.30; Florence W. Sullivan, deckhand, 2 hours at \$2.30 per day, \$0.58; Henry J. Callahan, boilermaker, 2 days at \$3.25, \$6.50; James B. Gallagher, oiler, 2 days at \$2.83, \$5.67; Henry E. Pingree, fireman, 1 day at \$2.83, \$2.83; John Kelly, fireman, 2 days at \$2.83, \$5.67; Horatio L. Nelson, tankman, 1 day at \$2.30, \$2.30.

Public Works Department (Paving Service).

For the week ending Thursday, July 27, 1911:

Jeremiah T. Donahue, watchman, 1 day at \$2.25, \$2.25; Timothy F. Leonard, watchman, 1 day at \$2.25, \$2.25; John Moore, 2d, teamster, 1 day at \$2.25, \$2.25; John W. Green, laborer, 1 day at \$2.25, \$2.25; John J. Tarpey, laborer, 1 day at \$2.25, \$2.25; John McCarthy, laborer, 1 day at \$2.25, \$2.25; Andrew J. Doran, laborer, 1 day at \$2.25, \$2.25; Frank Griffin, laborer, 1 day at \$2.25, \$2.25; Dennis Cronin, laborer, 1 day at \$2.25, \$2.25; Thomas Sullivan, laborer, 1 day at \$2.25, \$2.25; Patrick Vericher, stableman, 1 day at \$2.25, \$2.25; John Welch, watchman, 1 day at \$2.25, \$2.25; Timothy Murphy, laborer, 1 day at \$2.25, \$2.25; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50.

Public Works Department (Sanitary Service).

For the week ending Thursday, July 27, 1911:

Cornelius O'Brien, inspector, 1 day at \$3, \$3; Daniel Connor, stableman, 1 day at \$2.50, \$2.50.

Public Works Department (Sewer Service).

For the week ending Thursday, July 27, 1911:

Rudolph J. Thanisch, draughtsman, 4 $\frac{1}{2}$ days at \$3.75, \$16.88; E. Crotty, draughtsman, 2 days at \$3, \$6; G. F. Haskell, draughtsman, 2 days at \$3.25, \$6.50; R. F. Ritchie, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; Jeremiah Sullivan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick J. Hartigan, teamster, 1 day at \$2.50, \$2.50; James P. Hogan, laborer, 5 $\frac{1}{4}$ days at \$2.25, \$11.81; Thomas Casey, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Timothy Reardon, sewer cleaner, $\frac{1}{2}$ day at \$2.75, \$1.38; John F. Breen, laborer, 1 day at \$2.25, \$2.25; William Lomasney, laborer, 2 days at \$2.25, \$4.50; Patrick Fitzpatrick, laborer, 1 day at \$2.25, \$2.25; Edward J. Gallagher, laborer, 2 days at \$2.25, \$4.50; John McCarty, laborer, 4 days at \$2.25, \$9; Charles McLaney, laborer, 1 day at \$2.25, \$2.25; Dennis Burke, bracer, 1 day at \$2.50, \$2.50; John F. Graham, teamster, 1 day at \$2.25, \$2.25; Michael Sheridan, laborer, 1 day at \$2.25, \$2.25; Thomas Gavin, laborer, 1 day at \$2.25, \$2.25; Michael Conway, laborer, 1 day at \$2.25, \$2.25; Michael Carty, laborer, 1 day at \$2.25, \$2.25; James Mulvaney, laborer, 2 days at \$2.25, \$4.50; Patrick J. Bennett, laborer, 2 days at \$2.25, \$4.50; Patrick Ronan, laborer, 2 days at \$2.25, \$4.50; Martin Joyce, laborer, 1 day at \$2.25, \$2.25; Patrick Muldoon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph Brown, engineer, 8 hours at \$0.50, \$4; John H. McGee, engineer, 8 hours at \$0.50, \$4; William J. Johnson, engineer, 1 day at \$3, \$3; Thomas Hughes, sewer

cleaner, $1\frac{1}{4}$ days at \$2.75, \$3.44; Michael Hourihan, laborer, 2 days at \$2.25, \$4.50; James McNabb, laborer, $1\frac{1}{4}$ days at \$2.25, \$2.81; Michael McKenna, laborer, $1\frac{1}{4}$ days at \$2.25, \$3.94; Patrick Glennon, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; John McKenna, inspector, $1\frac{1}{4}$ days at \$3.50, \$4.38; Thomas Flaherty, bracer, $1\frac{1}{4}$ days at \$2.50, \$3.13; James King, bracer, $1\frac{1}{4}$ days at \$2.50, \$3.13; Bernard Gibbons, bracer, $\frac{3}{4}$ day at \$2.50, \$1.88; Lawrence McNamara, laborer, $1\frac{1}{4}$ days at \$2.25, \$3.94; Martin Kelly, laborer, 1 day at \$2.25, \$2.25; John Guinee, laborer, 1 day at \$2.25, \$2.25; Daniel Hart, laborer, 1 day at \$2.25, \$2.25; Martin Tynan, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; John Shannon, laborer, $1\frac{1}{4}$ days at \$2.25, \$3.94; Thomas R. Palmer, stationary engineer, 1 day at \$4.66 $\frac{2}{3}$, \$4.66; Daniel Murphy, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Street Cleaning and Watering Service).

For the week ending Thursday, July 27, 1911:

Sylvester McCarthy, laborer, 1 day at \$2.25, \$2.25; Thomas J. Slowe, laborer, 1 day at \$2.25, \$2.25; Herbert S. Lawrence, laborer, 1 day at \$2.25, \$2.25; Patrick Flynn, laborer, 1 day at \$2.25, \$2.25; Joseph F. Mello, subforeman, $\frac{1}{2}$ day at \$3, \$1.50; Patrick J. McNulty, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Michael J. Cahill, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick J. Rinn, stableman, $\frac{1}{4}$ day at \$2.25, \$1.69; James Doherty, laborer, 1 day at \$2.25, \$2.25; Richard Welch, inspector, $\frac{3}{4}$ day at \$3, \$2.25; Cornelius J. Scanlan, inspector, $\frac{3}{4}$ day at \$3, \$2.25; John J. Dolan, inspector, 1 day at \$3, \$3.

Public Works Department (Water Service).

For the week ending Thursday, July 27, 1911:

John Leonard, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; John J. Breen, laborer, 2 days at \$2.25, \$4.50; Daniel D. Burke, laborer, 2 days at \$2.25, \$4.50; Michael F. Burke, teamster, $\frac{1}{2}$ day at \$2.50, \$0.31; Thomas Bowen, teamster, $\frac{1}{4}$ day at \$2.25, \$0.56; John Bagley, pipe layer, 2 days at \$2.50, \$5; Hugh Campbell, repairer, $1\frac{1}{2}$ days at \$2.50, \$4.06; Michael F. Daley, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66; Dennis J. Delaney, laborer, $\frac{1}{2}$ day at \$2.25, \$1.34; Patrick Douglas, 2d, emergency man, $\frac{1}{4}$ day at \$2.50, \$0.47; P. J. Kelley, inspector, $2\frac{3}{4}$ days at \$2.95, \$7.01; J. W. Kelley, laborer, 2 days at \$2.25, \$4.50; Jeremiah Looney, emergency man, $\frac{1}{4}$ day at \$2.25, \$0.42; D. J. Heffernan, emergency man, $1\frac{1}{4}$ days at \$2.25, \$2.67; James Logue, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66; John Geary, pipe layer, $\frac{1}{2}$ day at \$2.50, \$2.19; P. F. Mullen, inspector, $1\frac{1}{2}$ day at \$2.75, \$1.46; Michael McCarthy, 2d, laborer, 2 days at \$2.25, \$4.50; Cornelius Sullivan, 2d, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66; M. F. White, emergency man, $\frac{1}{4}$ day at \$2.25, \$0.42; Hugh Green, machinist, $\frac{1}{4}$ day at \$3, \$0.56; William T. Loring, mason, $\frac{3}{4}$ day at \$2.75, \$2.06; Patrick Coleman, laborer, $\frac{3}{4}$ day at \$2.25, \$1.27; John J. Barry, repairer, $\frac{3}{4}$ day at \$2.50, \$1.56; John McNulty, laborer, $1\frac{3}{4}$ days at \$2.25, \$2.88; Dennis Shea, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Alexander Thompson, plumber, $\frac{1}{4}$ day at \$3, \$0.75; John Concanon, laborer, $2\frac{1}{4}$ days at \$2.25, \$1.48; John Cummings, repairer, $1\frac{1}{2}$ day at \$2.75, \$2.58; John McLaughlin, laborer, $\frac{1}{2}$ day at \$2.25, \$2.11; John Cronin, laborer, $\frac{3}{4}$ day at \$2.25, \$2.11; Thomas Dolan, laborer, $\frac{1}{2}$ day at \$2.25, \$2.11; James Doherty, foreman, $1\frac{1}{2}$ days at \$3, \$4.88; Hugh Cauley, pipe layer, $1\frac{1}{2}$ days at \$2.50, \$4.06; J. McCormick, 2d, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66; James Lyons, 2d, laborer,

$1\frac{1}{2}$ days at \$2.25, \$3.66; Charles Quigley, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66.

Meter Branch.—J. Cullen, plumber, $\frac{3}{4}$ day at \$3.50, \$1.31; J. Mahoney, laborer, $\frac{3}{4}$ day at \$2.25, \$0.84; M. Welch, plumber, $\frac{3}{4}$ day at \$3.50, \$1.86; J. Shea, laborer, $1\frac{1}{2}$ day at \$2.25, \$1.20; P. Clougherty, laborer, $\frac{1}{4}$ day at \$2.25, \$1.55; E. Mahoney, laborer, 1 day at \$2.25, \$2.25.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Acting Mayor. Those awarded without public advertisement are specially indicated. Week ending August 3, 1911:

PUBLIC WORKS DEPARTMENT (Paving Service).

Jones & Meehan, \$29,212.44; J. C. Coleman & Sons Company, \$29,321.98; Coleman Brothers, \$34,390.60; J. H. Ferguson, \$43,512.90; Coughlin & Sheils Company, \$46,608.15.

Engineers' estimate, \$32,529.12.

On July 28 the Acting Mayor approved a contract with J. C. Coleman & Sons Company for tar macadam roadway in Champney street, between Faneuil and Stratton streets. Bids on this work were opened July 24, 1911, and were as follows:

J. C. Coleman & Sons Company, \$5,332.50; M. F. Gaddis, \$5,449.50; D. E. Lynch, \$5,756.10; R. J. Young & Co., \$5,769.

Engineers' estimate, \$7,700, which includes \$920 for stock furnished by the city and for engineering.

SCHOOLHOUSE DEPARTMENT.

On July 31 the Acting Mayor approved a contract with F. G. Whittaker for moving portable schoolhouses, on Items 1, 2 and 7. Bids on this work, opened July 21, were as follows:

	F. G. Whittaker.	T. H. Hanlon.	W. L. Morrison.
Item 1.....	\$630 00	\$750 00	\$673 00
Item 2.....	625 00	750 00	615 00
Item 3.....	590 00	800 00	693 00
Item 4.....	575 00	725 00	685 00
Item 5.....	595 00	740 00	685 00
Item 6.....	585 00	750 00	665 00
Item 7.....	580 00	750 00	725 00
	\$1,180 00	\$5,275 00	\$4,771 00

On July 28 the Acting Mayor approved a contract with Pierce & Cox for installing a heating and ventilating system in the Quincy School. Bids on this work, opened July 5, were as follows:

Pierce & Cox, \$9,717; J. J. Hurley & Co., \$9,948; Commonwealth Heating Company, \$10,497; James F. Dwyer, \$10,800; Hernfurlong Company, \$10,088; C. H. Sanborn, \$11,125; F. W. Zemier & Co., \$10,996.

On July 31 the Acting Mayor approved a contract with the Hodge Boiler Works for furnishing and delivering boilers for various schoolhouses. Bids on these boilers, opened July 20, were as follows:

	Roxbury High School, One Boiler.	Robert G. Shaw School, Two Boilers.	Hyde School, Two Boilers.
Hodge Boiler Works....	\$650 00	\$798 00	\$830 00
Robb Engineering Com- pany.....	686 00	875 00	911 00
New England Iron Works.....	687 00	940 00	970 00
Roberts Iron Works....	750 00	975 00	1,020 00

On August 1 the Acting Mayor approved a contract with the New England Iron Works for retubing boilers in various schoolhouses. Bids on this work, opened July 24, were as follows:

New England Iron Works, \$2,180; J. Russell Boiler Works, \$2,190; Hodge Boiler Works, \$2,291; Daniel Russell Boiler Works, \$2,656.*

* Russell bid not signed.

WITHOUT ADVERTISING.

The Acting Mayor has approved the following requests of departments to do work with the department forces without advertising, and also additions to and deductions from contracts:

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Acting Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

Resurface with macadam, by the division force, Beacon street, from east side of Raleigh street to Deerfield street, without inviting proposals therefor by advertisement, the estimated cost for labor and materials being \$1,175.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Acting Mayor:

HOSPITAL DEPARTMENT.

Addition, amounting to \$12, on contract with Ames Iron Works for furnishing engine for City Hospital, on account of supplying a one-gallon Rochester lubricator instead of a one-quart lubricator as specified. Original contract, \$2,600; total additions, \$12; contract as standing, \$2,612.

SCHOOLHOUSE DEPARTMENT.

Deduction, amounting to \$305, on contract with William N. McKenna Company for Martin School, on account of omitting fireproofing around columns, resetting of slate urinal and adding of hood over urinal. Original contract, \$2,775; total deductions, \$305; contract as standing, \$2,470.

CONTRACTS AWARDED.

SUPPLY DEPARTMENT.

On July 31 the Acting Mayor approved a contract with Hosmer, Robinson & Co. for furnishing the hay and straw required by various city departments during the month of August, in the South Boston, East Boston, Charlestown, city proper and Brighton districts; and a contract with the W. P. Whittemore Company for furnishing hay and straw in the Roxbury, Dorchester and West Roxbury districts, and for furnishing oats, shorts and corn in all city districts. Bids on these supplies, opened July 27, were as follows:

	No. 1 Hay.	No. 2 Hay.	Straw.	No. 1 Oats.	No. 2 Oats.	Shorts.	Corn.

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners have been approved by the Acting Mayor:

Signs.—Antonio Fichera, 242 Cambridge street; Solomon Markovitz, 85A Roxbury street; Raffaele Spagnoli, 94 Portland street; Fred Wong, 837A Dorchester avenue; A. Witten, 238 Cambridge street; J. L. Shikes, 395A Blue Hill avenue; John T. Brassill, 114 West Brookline street; Adam Beschals, 835½ Dorchester avenue; Cosimo Marcarelli, 387 Hanover street; Lorenzo Di Giusto, 14 Fleet street; H. Berson, 193 Marion street; Hugh Company, 86 Glenway street; Musto Dimond, 13 Blackstone street; Barnard Bindel, 63A Myrtle street; William P. O'Brien, 230 Tremont street; J. J. Mahoney, 11 Merchants row; G. L. Griffin, & Sons, 368 Washington street.

Illuminated Signs.—Joseph Towle, 2 Hudson street; Sebastiano Marino, 309 Atlantic avenue; Myles J. McCabe, 182 Hampden street; Edward Russell & Co., 30 Henley street; William H. Lynch & Co., 361 Atlantic avenue; A. E. Payne, 184 Franklin street; Simon Imperial, 46 Court street; William S. Butler Company, 8 Bosworth street; Frank Delorenzo, 454 Tremont street; James J. Stack & Co., 28 Haymarket square; Potter Brothers, 912 Tremont street; B. Hartstein, 39 Leverett street; Daniel Pasco, 220 Massachusetts avenue; C. S. Russell, 337 Newbury street; J. H. O'Donnell & Co., 294 Bennington street; Louis Gaber, 30 Cambridge street; Musto Dimond, 13 Blackstone street; G. Rothfuss & Co., 1145 Tremont street; Sumner W. Williams, Broadway and Dorchester avenue; Burnett Café Company, 770 Washington street.

Gasoline, etc.—Henry E. Wright & Sons, Spice street; The Texas Company,

boat, Boston Harbor; J. W. Maguire Company, 743 Boylston street; J. W. Maguire Company, 16 Harcourt street; Franham & Nelson Company, 47 Union avenue; James A. Carr, 1183 Bennington street; Lawrence & Stanley Garage Company, Wheelock avenue; John Carcano, Intervale street; Charles H. K. Skillen, 240 Adams street; Robert Treat Paine, 264 Beacon street; Park Square Auto Station, 664 Commonwealth avenue; Commissioner Public Works, Chestnut Hill avenue; Park Square Auto Station, 41 Columbus avenue; T. F. Bradley, 149 Granite avenue; Eagle Oil Supply Company, 104 Broad street; Dorchester Parcel Delivery Company, 105 Homes avenue; Locomobile Company of America, 700 Commonwealth avenue; W. N. Gannon, 324 Washington street; Theodore J. Potter, 135 Corey street; J. B. Hunter & Co., 60 Summer street; Collins Hardware Company, 5 Washington street; Arthur B. Norton, 34 Shirley street; Boston Dye House, 169 Norfolk avenue; Max Shoolman, 590 Cambridge street.

To close street.—Flint street, Ward 24; Harvard street, Dorchester.

Guy Posts.—Hugh Nawn Contracting Company, Cambridge and Charles streets; George A. Fuller Construction Company, Devonshire street.

Bulkhead Openings.—Frederick Homer, Congress square; Christina Carlino, 85 Maverick street.

Move Building.—T. J. Billings, Shepton street to Dorchester avenue.

PAYMENTS TO DISABLED EMPLOYEES.

The Acting Mayor has approved the following allowances granted by the Commissioner of Public Works:

Sanitary Service.—Michael B. Breen, 13 days at \$2.25, \$29.25; George E. Ward,

12½ days at \$2.25, \$28.13; William H. Gallagher, 2½ days at \$3.16½, \$7.90.

Sewer Service.—Daniel Leary, 24 days at \$3.52, \$84.48.

Water Service, Meter Branch.—James J. McKillop, 6 days at \$3, \$18.

MUNICIPAL BAND CONCERTS.

The Municipal Band of the city of Boston has been organized for this year, with thirty-five men, directed by Dionisio G. Cericola. Concerts will be given on Boston Common on Sunday afternoons, Franklin Park on Saturday afternoons, and in the different sections of the city evenings, starting July 7.

A new feature for this season will be the "Noonday Concerts" on Boston Common. The concert from 12 to 2 p. m. will be given by the Municipal Band. Though an innovation in this country, the success attained by similar concerts in Paris, Berlin and other European centers indicates that the "Noonday Concerts" will be appreciated. It is hoped that, with the co-operation of the directors of the largest stores, etc., whose employees will be benefited in the future, that this line of work may be greatly enlarged. Below is a schedule of concerts for season:

Boston Common. Sunday afternoons at 3.30 p. m., July 2 to September 3, inclusive. Labor Day, September 4, 1911, at 3.30 p. m., Municipal Band, thirty-five pieces, Dionisio G. Cericola, leader.

Marine Park, South Boston. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive, and Labor Day, September 4, 1911. August 6, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

August 13, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 20, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 27, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

September 3, 3.30 p. m., Post 26, G. A. R. Band, William A. Morrell, leader.

Pine Bank, Jamaica Pond. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive.

August 6, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

August 13, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

August 20, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 27, 3.30 p. m., First Corps Cadet Band, John B. Fielding, leader.

September 3, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

Wood Island Park, East Boston. Two concerts, Sunday afternoons, 3.30 p. m.

August 13, 3.30 p. m., Banda Rossa, A. D'Avino, leader.

September 3, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

Abbotswood, Franklin Park. Saturday afternoons at 3.30 p. m.

July 8 to September 2, inclusive, Municipal Band, Dionisio G. Cericola, leader.

District concerts given in different sections of the city by the Municipal Band, Dionisio G. Cericola, leader. Unless otherwise specified, concerts are from 8 to 10 p. m.

August 8, Noonday Concert, Boston Common, 12 to 2 p. m.

August 9, Columbus Avenue Playground, Roxbury.

August 10, Edward Everett square, Dorchester.

August 11, Thomas park, G and Sixth streets, South Boston.

August 15, Washington park, Roxbury.

August 16, Charlesbank, West End, city.

August 17, North Brighton Playground.

August 18, Peabody square, Ashmont.

August 22, Heath square, Heath and Park streets, Roxbury.

August 23, Adams and Common streets, Charlestown.

August 24, Christopher Gibson Playground, Field's Corner.

August 25, Sumner and Jeffries streets, East Boston.

August 29, North square, North End, city.

August 30, Emerald and Compton streets, South End, city.

August 31, near 100 Savin Hill avenue, Dorchester.

September 1, Ashley avenue and Breed street, East Boston.

The schedule herewith presented is subject to change without notice. Postponed

concerts will be given as soon as possible after the original date scheduled. No programs will be distributed, but the daily and Sunday newspapers of Boston will print from time to time the weekly schedules, programs and other data pertaining to the concert season. Programs will be announced at all concerts by use of the megaphone.

All communications relating to the concerts should be addressed to Secretary, Walter L. Finigan, of the Music Trustees, Room 905, Carney Building, Boston, for prompt consideration.

The Music Trustees have arranged the following band concerts for the coming week:

**BOSTON COMMON, SUNDAY, AUGUST 6,
AT 3.30 P. M.**

Municipal Band, D. G. Cericola, Leader.

Program.

1. March. "Coronation March." *Meyerebeer*
2. Overture. "The Mill on the Cliff." *Reissiger*
3. Waltz. "Italian Nights." *Tobani*
4. Grand Selection from "Tannhauser." *Wagner*

2. Overture. "Poet and Peasant." *Suppe*
3. Remick's Medley of Hits. *Lampe*
4. Intermezzo. "Cecilian." *Brooks*
5. Concert Waltz. "Andalusia." *Le Theire*
6. Selections from "The Chocolate Soldier." *O. Strauss*
7. Novelette. "Roses and Memories." *Snyder*
8. Gems of Irish Melodies. *Bennett*
9. Tone Picture. "The Return of the Scouts." *Clement*
10. Finale. "Blue Ribbon." *Bennett*

"Star Spangled Banner."

**NOONDAY CONCERT, BOSTON COMMON,
TUESDAY, AUGUST 8, 12 M. TO 2 P. M.**

Municipal Band, D. G. Cericola, Leader.

The second noonday concert by the Municipal Band will be given on Tuesday, August 8, 1911. After the concert on last Tuesday the requests for numbers and the demands for more similar concerts became so numerous that the entire program to be rendered will consist of request numbers.

The success of the noonday concert is assured and the multitude present at the first concert attested their approval of the

idea by their generous and vociferous applause. The program for Tuesday, August 8, follows:

Program.

1. March. "Cruiser Harvard." *Strube*
2. Overture. "Masaniello." *Auber*
3. Selections from "The Three Twins." *Hoschna*
4. Waltz. "Wedding of the Winds." *Hall*
5. Albion Selections of Irish, English and Scotch Airs. *Baetens*
6. a. Polish Dance. *Scharwenka*
b. Barcarolle. "Song of the Waves." *Johnson*
7. Grand Selection. "Les Contes d'Hoffman." *Offenbach*
8. Episode Militaire. "The Charge of the Hussars." *Spindler*
9. March. "Boston Commandery." *Carter*

"Star Spangled Banner."

COLUMBUS AVENUE PLAYGROUND, ROXBURY, WEDNESDAY, AUGUST 9, AT 8 P. M.

Municipal Band, D. G. Cericola, Leader.

Program.

1. March. "National Emblem." *Bagley*
2. Overture. "Rosamunde." *Schubert*
3. Selection from "The Dollar Princess." *Fall*
4. Waltz. "Jolly Fellows." *Vollstedt*
5. Medley of Remick's Hits. *Lampe*
6. Ballet Music from "Henry VIII." *Saint-Saens*
7. Descriptive Fantasia. "Cavalry Charge." *Luders*
8. Selections from "Madame Sherry." *Hoschna*
9. March. "2d Connecticut Regiment." *Reeves*

**EDWARD EVERETT SQUARE, DORCHESTER,
THURSDAY, AUGUST 10, AT 8 P. M.**

Municipal Band, D. G. Cericola, Leader.

Program.

1. March. "The Banner." *von Blon*
2. Overture. "Franz Schubert." *Suppe*
3. Selection from "The Three Twins." *Hoschna*
4. Waltz. "Angel of Love." *Waldteufel*

AT 3.30 P. M.**

Municipal Band, D. G. Cericola, Leader.

Program.

- March. Wedding March. *Mendelssohn*
- Overture. "Rienzi." *Wagner*
- Waltz. "Eternelle Evresse." *Cannon*
- Selection. "Lohengrin." *Wagner*
- Saxophone Solo. Selected.
- Mr. Jacques Benavente.
- Selection from "The Tales of Hoffman." *Offenbach*
- Intermezzo. "The Gondolier." *Pizzoli*
- Grand Selection. "Mefistofele." *Boito*
- March. "Nibelungen." *Wagner*

**GARBAGE AND ASHES REMOVAL IN
BOSTON.**

Cost for year 1910 \$677,060, or \$39,804 more than in 1909. Total tons of material collected and disposed of in year 1910, 467,120, of which 348,325 tons were ashes and house dirt, 63,451 tons garbage, 44,565 tons street sweepings, and 10,779 tons miscellaneous. The total for 1909 was 20,023 tons.

**THE CORRECTION FARMS OF
CLEVELAND.**

With so many states and municipalities considering the possibility of working convicts in the country, it is interesting to look about and see what has been actually accomplished in this direction. For this method is no longer a matter of conjecture. There are examples enough to show the advantage it is to the state and to the convict to give him employment outdoors.

The Cleveland farms for this purpose are at Warrensville, a few miles from the city. The buildings are not yet completed, yet more than 1,600 in all have been transferred from the city to the correction farms and enough has been done to show what will be the final result.

The farms consist of 800 acres, partly in woods, partly in cultivated land and pasturage, and much of it in old pear and apple orchards. These must have been fine orchards in former days, for the trees show that they were once large and vigorous. The marks of age are on them now, but they are gradually being replaced by young trees, and this will be continued till each of the two farms has one hundred acres of orchards. Raising the fruit, preparing it for market, and canning the surplus will constitute a great industry. Fortunately for the value of this experiment, the land, though it is good for agricultural purposes, is worn out from lack of care. That gives the superintendent a chance to show what he can do to bring it up to productivity, and for this work the untrained help that comes to him through the department of charities and correction is available. Indeed, some of those who best understand the value of this work advocate selecting the poorest land to be had and then developing it to the height of its possibilities through convict labor, much of which would not be of a much higher order than that employed with brilliant success by Ellen C. Johnson, for many years superintendent of the Massachusetts Reformatory Prison for Women. Whenever she added uncultivated land to her farm she transferred to it her portable pens and their occupants, shifting them frequently, till the whole surface had been thoroughly grubbed up by the ceaseless, unpaid labor of her industrious pigs. Short term prisoners, of reasonable strength of body, ought surely to be as useful agriculturally as these four-footed delvers in the soil. The very fact that the Cooley farms must have their productive powers increased by drainage, tilling, and fertilizing is on the whole an advantage in view of the kind of labor to be employed. There seems to be no question that the fertility then will be so great that the expense of carrying on the institutions—the house of correction, the infirmary, and the tuberculosis hospital—will be greatly lessened and the food supply vastly improved over what it could be in the city. Meat and dairy products are to be raised on a large scale, all under the guidance of experts from the state agricultural experiment station.

There has been some criticism of the fact that the tuberculosis hospital is so near the house of correction. As a matter of fact they are not near each other but at least a mile apart. The tract of land is so large and the institutions so wholly separate in every way that it is only on paper that they may be said to approach each other. Both are under the direction of the general superintendent of charities and corrections.

The house of correction at the Cooley farm is built in the form of a hollow square, with a beautiful courtyard, green

and restful, in the center. For the obdurate there are individual rooms or cells, but for the well-disposed there are great airy dormitories with clean beds, suitable washing and bathing facilities, sunshine, good food, and excellent discipline and care.

Good discipline does not imply any lack of humane treatment. The superintendent of charities and correction, James F. Jackson, in his last report speaks of one important problem in the working out of this scheme, as follows:

"That problem is the conduct of the institutions in a manner to bring the greatest happiness to those who inhabit them. In fact, this is the primary object of all our work and only so far as all other considerations forward this object can they be tolerated. Sanitary surroundings and clean housing for the promotion of health, some labor consistent with the individual's strength for occupying his time and instilling habits of thrift and industry, proper arrangement of inmates to bring the greatest good to the greatest number, recreation, healthful food, and kindly, considerate treatment are all necessary to secure this end."

He commends especially the efforts of the men in charge in behalf of cripples and the insane, and the plan for rewarding conscientious labor, as well as the efforts to keep all prisoners engaged in some work "because the lack of habits of industry is so frequently the main reason for their being prisoners."

The parole system has its share in the success of this institution. Last year 470 prisoners were paroled, of whom 85 per cent "made good." The night school, under a trained and licensed teacher, contributed still further toward fitting these men to lead a decent life when they left the institution.

The prisoners are constructing the additional quarters for those who have not yet been transferred from the city to this country place of industry and reform. This results in a great saving to the city as well as in giving employment to the men, who thus learn to do things which may be of use in the world outside on their release.

The prisoners are better in health than when they were confined in the city house of correction, and they are more amenable to discipline. The air and the sunshine are great moral renovators, giving hope and cheer and courage, just as physical work in the field gives muscle and brawn.

The Cooley farms experiment is not a closed volume. It is a continued story, and the chapters thus far are most interesting and inspiring. Other municipalities might well go to Cleveland and imitate her method and improve upon it. For there is need of a little improvement in the way of giving the department more money to carry on the work. It is penny wise and pound foolish to waste horse muscle and human patience unnecessarily. The department of charities and corrections is apparently expected to build a great institution without first making a suitable road over which to haul the building material and supplies. The approach to the institution last May would have been a disgrace to Timbuctoo, if they have mud and quagmire at the doors of their public institutions in Timbuctoo. Otherwise the experiment is already a success. Future years will only widen that success if the administration continues to be as good as the principles on which it is conducted.—*Isabel C. Barrows in the "Survey."*

MUNICIPAL HOME FOR FREE LODGING.

The new municipal lodging house in Cincinnati, Ohio, was opened last week. Fifteen lodgers were registered the first night and Superintendent Peter Long said employment was found for twenty men the first day. The institution will be conducted strictly along business lines, and no person found to have contagious diseases of any kind will be admitted. Anyone applying for lodging is sent to the basement and ordered to take a bath, after which he is subjected to a physical examination by Dr. S. Wolf, the attending physician. If a person needs medical treatment for contagious diseases he will be sent to the city hospital. The employment bureau will be conducted in connection with the lodging house.—*Municipal Journal and Engineer.*

WIDTH OF VEHICLES.

Heretofore the width of vehicles has been controlled by the size and strength of the horse, but with the coming of the motor truck there is a tendency to widen vehicles until a new problem is presented in street planning. It is contended that before this goes any further cities should undertake the standardizing of the width of vehicles by forbidding those of extra width from traveling on city streets.

CITY OF BOSTON.

PROPOSALS FOR STONY BROOK, SECTION 8.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for building Section 8 of the Stony brook conduit, extending 940 feet, more or less, from a point in Hyde Park avenue, 75 feet, more or less, southwesterly of Tower street, and connecting with the existing Stony brook channel, in West Roxbury, together with appurtenances, and giving bond therefor of a surety company approved by the commissioner in the sum of twenty-five thousand dollars (\$25,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Building Stony Brook Conduit, Section 8," and left at Room 57, fourth floor, City Hall, before 12 m. on Monday, August 28, 1911, with a certified check for five thousand dollars (\$5,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,

Commissioner of Public Works.

Boston, Aug. 3, 1911.

(Aug. 5-12-19.)

CITY OF BOSTON.

PROPOSAL FOR THE SALE AND REMOVAL OF THE OLD WINTHROP SCHOOL BUILDING.

The Commissioner of Public Works of the City of Boston, office Room 49, City Hall, invites proposals for the sale, taking down and removal of the Winthrop School Building on Tremont street, near Eliot street, city proper, and giving bond therefor of a surety company approved by the commissioner in the sum of five thousand dollars (\$5,000), to secure the due performance of the contract and the full protection of the city. The purchaser shall take the building down to ground level, remove the material (which is to be the property of the purchaser) within a reasonable time, not to exceed sixty (60) days, and shall leave the ground upon which the building stood in a safe condition. The contractor must furnish his own proposal and leave same at Room 57, fourth floor, City Hall, before 12 o'clock m. of Monday, August 21, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out. The proposals will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate without check to be deposited with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Removing Winthrop School Building."

L. K. ROURKE,

Commissioner of Public Works.

Boston, August 3, 1911.

(Aug. 5-12.)

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS IN HUNNEWELL AVENUE AND BURTON STREET.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for sewerage works in Hunnewell avenue, from Atkins street to the Newton line, and Burton street, from Washington street 200 feet northeast of Hunnewell avenue, Brighton, and giving bond therefor of a surety company approved by the commissioner in the sum of fifteen hundred dollars (\$1,500), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewerage Works in Hunnewell Avenue and Burton Street," and left at Room 57, fourth floor, City Hall, before 12 m. on Friday, August 11, 1911, with a certified check for eight hundred dollars (\$800), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,

Commissioner of Public Works.

Boston, August 3, 1911.

(Aug. 5.)

CITY OF BOSTON.

PROPOSALS FOR TAR MACADAM ROADWAY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing a tar macadam roadway in Brinsley street, between Columbia road and Washington street, Dorchester, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Monday, August 14, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Tar Macadam Roadway in Brinsley Street."

LOUIS K. ROURKE,

Commissioner of Public Works.

Boston, August 3, 1911.

(Aug. 5.)

CITY OF BOSTON.

PROPOSALS FOR NEW FLAGSTAFF.

The Trustees of the Boston City Hospital will receive sealed proposals for furnishing the hospital with a new flagstaff set ready for use, including flag halyards, ball, etc. Staff to be 17 inches in diameter, at the ground; the lower mast to be of pine, the trestletrees of oak, and the entire flagstaff to be painted three coats, all properly finished. Flagstaff to be 100 feet above the ground. Proposals to be addressed to the superintendent, Boston City Hospital, indorsed "Proposal for New Flagstaff," and be left at the hospital not later than August 10, 1911, at 12 o'clock noon, at which time they will be publicly opened. A duplicate copy of the proposal must be deposited with the City Auditor before 12 o'clock noon, on the date given above for receiving proposals. Each proposal must be accompanied by a properly certified check for \$75. The right is reserved by the trustees to reject any or all proposals. Per order of the trustees.

JOHN H. MCCOLLOM,

Superintendent.

(Aug. 5.)

CITY OF BOSTON.

TO MASON CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for paving yard, etc., Mt. Vernon Street School, Mt. Vernon street, West Roxbury, and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, August 11, 1911, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,

JOHN F. KENNEDY,

CHARLES B. PERKINS,

Commissioners.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.
PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners, in accordance with chapter 393 of the Acts of 1906, have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

Douglas street, from Columbia road to East Eighth street.

BRIGHTON.

Glenville avenue (formerly Princeton avenue), from Harvard avenue to Allston square.

Spofford road, from Commonwealth avenue to Princeton (now Glenville) avenue.

Wallingford road, from Commonwealth avenue to Chestnut Hill avenue.

WEST ROXBURY.

Bradfield (formerly Bradford) avenue, from Centre street to South street.

Kenneth street, from Farrington avenue to Stratford street.

DORCHESTER.

Coleman street, from Quincy street to Hendry street.

Dorris street, from Dorchester avenue to Gardner avenue.

Fottler road (formerly Tileston avenue), from Walk Hill street to Hiawatha road.

Frost avenue, from Boutwell street to Fairview street.

Harmon street (formerly Roland road), from Oakland street southwesterly for a distance of 90 feet.

Hiawatha road, from Blue Hill avenue to Tileston avenue (now Fottler road).

ROXBURY.

Bryant street (formerly Rogers avenue), from Huntington avenue to Ruggles street.

Greenleaf street, from Rogers avenue to Leon street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Monday, August 14, 1911, as after that time no permits for openings will be granted until two years after said highways are completed.

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, July 13, 1911. (Aug. 5.)

CITY OF BOSTON.

PROPOSALS FOR PLANKING WEST FOURTH STREET BRIDGE.

Sealed bids for planking West Fourth Street Bridge will be received by the Commissioner of Public Works, at Room 57, fourth floor, City Hall, Boston, until 12 m. of Friday, August 11, 1911, and at that time and place will be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening bids. Each bid must be signed by the bidder with full names and addresses, be inclosed in a sealed envelope, indorsed "Bid For Planking West Fourth Street Bridge," and deposited in a locked box provided for that purpose. No bid will be allowed to be withdrawn for any reason whatever after it has been deposited in the box. Each bid must be accompanied by a properly certified check for the sum of five hundred (500) dollars, payable to the order of the City of Boston, which check will be returned to the bidder unless forfeited as hereinafter provided. A bond will be required for the faithful performance of the contract in the sum of two thousand (2,000) dollars of an approved surety company doing business in Massachusetts. The bidder is requested to name the surety company which will sign his bond in case the contract is awarded him. All bids which are not in conformity with this notice will be rejected. Plans can be seen at the office of the Division Engineer of the Bridge and Ferry Division, Public Works Department, 60 City Hall, Boston, Mass. The Commissioner of Public Works reserves the right to reject any or all bids or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 3, 1911. (Aug. 5.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Public Grounds Department of the City of Boston invites sealed proposals for soil work, renovation and regrading on Boston Common, and giving bond of a surety company therefor in the sum of \$10,000. Only proposals obtained at the office of the superintendent, city greenhouses, East Cottage street, signed by the bidder and left there before 12 o'clock m. of Friday, September 1, 1911, at said office, with a certified check for \$1,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. No bid will be received until after samples of the soil and manure have been submitted to the landscape architects at the office of the superintendent, and approved by them. The superintendent reserves the right to reject any and all proposals and to award the contract as he deems for the best interest of the City.

D. H. SULLIVAN,
Superintendent of Public Grounds.

Boston, August 5, 1911. (Aug. 5-12-19.)

CITY OF BOSTON.

TO MASON CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for paving yard, etc., Minot School, Neponset avenue, Dorchester, Mass., and giving bond of a surety company therefor in the sum of \$500. SOCIAL AID TO THE TUBERCULOUS: SHALL IT BE ADMINISTERED THROUGH SOCIAL OR MEDICAL AGENCIES?

The question of aid to the tuberculous is discussed in the following article in the "Survey," prepared by Dr. George S. C. Badger, of the Massachusetts General Hospital:

The modern treatment of pulmonary tuberculosis is almost wholly hygienic, administration of drugs, even of tuberculin, being of very minor importance. In other forms of tuberculosis the administration of tuberculin is of great value, but only as it is used in conjunction with proper hygienic measures. Proper hygienic measures mean plenty of good food, open-air living for as many of the twenty-four hours of the day as is possible, sufficient clothing, freedom from work during the active stage of the disease, freedom from mental stress so far as possible, and a cheerful, hopeful atmosphere. To obtain these requisites for the large number of tuberculous poor is a difficult problem. It may mean the care not only of the sick one but of the whole family, since often the patient is the sole wage earner. The rent may have to be paid, clothing furnished, fuel and provisions for the family supplied. Because of the very chronic nature of the disease the help given may have to be continued for many weeks or months. It is not a problem alone of furnishing milk and eggs for the patient; it is a far greater problem requiring intimate knowledge of all the circumstances of the family as well as of the patient. Is this relief best administered through medical sources or through those organizations whose training, study and practical experience make them specially fitted for administering it?

There is very general agreement among those interested in the fight against tuberculosis that all advanced cases should be under hospital control. The gravest danger to others in the family attends the caring for the advanced consumptive in the home. It is practically impossible to prevent infection being spread to one or more of the family under these circumstances. Any successful campaign against the disease must recognize this and hospital accommodations be provided and the patients removed there as soon as discovered. The boards of health have the power of removal to a hospital in contagious diseases that are a menace to the public health.

At the present time in Massachusetts there is generous provision both in state and private hospitals for the incipient and moderately advanced cases. These are best treated in hospitals, and the capacity of the latter is utilized to the limit. There is a waiting list and weeks perhaps may pass before admission is obtained and proper treatment begun. Generous as is the provision for them, there are nevertheless many who cannot be admitted and must remain at home. Probably the majority of tuberculosis patients must be treated in their homes. It is still largely a home problem with which we have to deal.

The tuberculous poor who remain at home will require help successfully to carry out the modern treatment. The relief problem very largely but not wholly concerns itself with them and their families; yet the family of the advanced consumptive in the hospital and of the less advanced or incipient case in the hospital may as truly need help as the families of those who remain at home for treatment. The degree of help needed will vary greatly but in the long fight some help will be

imperatively needed. The nature of this help I have outlined: Whether it is wholly a medical or wholly a social relief problem or whether it must be a problem to be dealt with by both forces—separately and distinctly, yet in close co-operation—is open to discussion.

If social relief is to be administered through medical agencies it seems fair to ask if they are qualified to administer it intelligently. The tuberculous patient must follow a very definite way of living in order to get well. Physicians, specially trained in the care of the tuberculous, have learned what this hygienic way of living is. It is not merely a matter of outlining it for the patient and ordering him to live it. The details of it must be explained, and how and where to obtain the necessary things told him and illustrated, records must be kept and the patient's progress noted by frequent visits to the physician for examination, and by frequent visits of the physician's agents, the nurses, to the patient's home to make certain that the instructions given are properly and faithfully carried out. The examination of the patient, prescribing treatment, and noting results are distinctly duties of the physician. His training and experience fit him for the work and no one disputes this. The work of the nurses must be directly under his control, for their duties are of a medical nature. There can be no doubt, it seems to me, that physicians and nurses working together could care for the tuberculous if the latter required no further help. But the tuberculous poor, in order to carry out the instructions of the physician, require material help.

It is needless to go into the details of this material help. It is far-reaching and involves many questions of great importance. It is not a simple thing devoid of possible dangers, but complex and full of difficulties. It is not one expenditure of money for a few persons of good character, but more or less continuous outlays for large numbers with varied characters. This is the work of those whose study and experience have made them specialists in administering aid. Physicians and nurses have not had this training and have not the time to acquire it. It is not a medical problem.

If it is to be successfully given through medical agencies, workers with special social training will have to be employed, necessitating special departments for the work. But even so, the physician is not necessarily the best one to direct such helpers.

In the organized charity institutions of our cities we have a force of trained workers whose duty it is properly to administer relief for the poor. Why should not they care for the tuberculous poor? Helping them is not a different problem from helping other poor. It seems a needless waste of money and energy to duplicate already existing organizations and let fields of work overlap. How could it be satisfactorily divided? Is it a medical relief problem to give aid to a family whose wage earner is in a hospital sick with tuberculosis?

Then, too, it must be remembered that the social worker deals not only with relief but with the many other environmental and personal elements which enter into the welfare of families, whether tuberculosis be present or not. The family with tuberculosis, indeed, requires even more thorough social treatment than an ordinary family, if anything. To attempt to intrust the welfare of tuberculous families to special tuberculosis relief agencies and separate that special treatment from the other large important tasks which can be

done by the social worker is to handicap rather than help the family; for the welfare of the patient himself as well as of the members of his family requires that the environment be doctored and that character be doctored—else tuberculosis relief often is worse than wasted.

The fact that tuberculosis is a contagious disease does not seem to me to alter the situation. If boards of health are to take over the work of administering social aid to this particular class of patients because their disease is contagious, why not assume the same responsibility for the other contagious diseases? Tuberculosis is not immediately and definitely contagious in the sense that mere contact is dangerous. Exposure to the contagion of tuberculosis must be long continued and it is impossible to say just when infection occurs. There does not seem to be any more reason for boards of health to administer relief than for any other medical body, and the same objection of duplication of work exists.

The duties of social workers are of a special nature. They are not practicing trained nursing; their work is not that of nursing. They are not physicians; their work does not conflict with that of physicians. Theirs is a profession in itself. The physician uses these professional workers exactly as he does the druggist and nurses. The physician's prescription or order (as the expression is) may call for the skill of the druggist or the nurse, or the knowledge and help of the social worker.

In the case of the tuberculous poor the social worker has been invaluable. Through conference many social workers have been trained by the physician to carry out his instructions. They have become skilled in planning home treatment and in making it possible and successful.

The physician prescribes what the patient needs, his helpers, druggists, nurses or social workers see that the prescription is filled.

In earlier times the physician compounded his own prescriptions. The pharmacist does it much better to-day. Our trained nurses to-day take better care of the sick than the old "natural" nurse ever did, and most physicians know little about the art of nursing. So, too, the trained charity worker or social agent is better fitted to give material help to the sick or poor than is the physician. It is the physician's duty to prescribe for the patient; who shall fill the prescription, so long as it is properly filled, does not concern him.

There seems to me to be another analogy between the druggists and trained social agents in the filling of the physician's prescription—the carrying out of the physician's orders. The physician may make a mistake in his prescription to the druggist, calling for a dangerous dose of a powerful drug. The druggist would refuse to fill such a prescription without consultation with the physician. In the case of the prescription necessitating relief, the trained social worker may know that the one for whom it is ordered ought not to have it, and if given may work for harm instead of for good. Similarly there would be a consultation over the prescription.

The care of the tuberculous poor demands the co-operation of two distinct workers, the medical and the trained social agent. This co-operation must be real to be effective. The physician's work is medical,—to diagnose, to outline treatment, to watch the effect of the treatment, to change it when necessary.

The trained social agent administers the relief that makes possible the carrying out of the physician's order. Unnecessary expense by duplication of the work is an injustice in dealing with so great and grave a problem.

In order that this co-operation between physicians and trained social agents may be effective there must be better team-play than at present. More discussion of policies, more comparing of results by the leaders in each field are needed. The social agent must acquire a broader view of his or her duties by a closer study of sick people and their peculiar problems. This might be acquired through hospital experience. To be able to see social relief problems through medical eyes would be of very great value, particularly in tuberculosis work. The social relief agents of the organized charities should have some hospital training. The possibility that relief agents might act on their own initiative in dealing with the sick poor would best be prevented by this close co-operation.

This co-operation must not be a one-sided affair, however. The physician's attitude should not be one of "I order," but of "I recommend." The recommendations will have the weight of an order, but not the disagreeable force of it. A recommendation makes a conference profitable, whereas a conference over an order suggests the fallibility of the one giving the order. A real co-operation in this great task between the medical forces and the social relief agencies is possible, and with it efficiency would be promoted and expense reduced to the minimum.

To sum up, then:

First, the making of the medical diagnosis and the statement of the patient's physical needs (drugs, food, air, etc.) are the business of the physician in charge of the case—whether it be tuberculosis or any other disease. Second, social diagnosis is the business of the social worker. This diagnosis includes such knowledge of the individual's history, his abilities and habits, his family, his neighborhood and environment generally, as shall make it clear in what form and under what conditions relief will do him the most good, and from what sources in the community it should be sought. Relief includes furnishing him necessary supervision and encouragement, money, food, clothes, paying for rent, fuel and light, as well as other less obvious needs. Third, the social worker needs the physician's physical and mental diagnosis and his statement of the patient's physical and mental needs as an element in the solution of the patient's social problem. Fourth, the physician needs the social worker's social diagnosis and a statement of his social needs as an element in the solution of his physical and mental problem. Fifth, frequent conference of the bodies of workers are essential. Finally, the social worker should never prescribe or administer medicine. The doctor should never prescribe or administer more than emergency relief. Medicine and relief are both powerful but dangerous remedies and should be prescribed and administered only by those skilled in their use.

BOSTON'S PUBLIC STREETS AND SEWERS.

Total miles of paved streets (about 2,000 streets in all) February 1, 1911, 521.21 (exclusive of streets not accepted); 353.81 miles are paved with macadam, 98.63 miles with granite block, 21.98 miles with asphalt. Total miles of common and intercepting sewers, 789.05.

THE SINGLE TAX IN VANCOUVER.

Twenty-five years ago the site of Vancouver was a dense forest, although a small village had sprung up along the banks of Burrard inlet. It is estimated, however, that at that time the entire population in the neighborhood did not exceed a thousand persons. On a Sunday afternoon in June, 1886, this village was almost destroyed by fire, only a few houses somewhat isolated escaping. But the territory of what will be Greater Vancouver in the near future has to-day a population of 140,000 to 150,000 and is growing at a rapid pace.

Vancouver has become famous for totally exempting buildings and other improvements from taxation, and from consequently levying taxes on land values alone is called a single tax city. Since the experiment began, land values have jumped tremendously and many fortunes have been made out of speculation in building sites. Every step toward the reduction of taxation on buildings has given added impetus to the value of land. Some correspondents of *The Public* have consequently expressed apprehension that low rates of land value taxation and undervaluations would result disastrously to Vancouver through further speculation in land values followed by a crash; and that as the city is represented as a single tax municipality this disaster might give a back-set to the single tax movement unless it were generally understood that the disaster was due not to the single tax but to not enough of the single tax.

These fears caused the publisher of *The Single Tax Review* of New York to make a thorough investigation, so that the *Review* could place before its readers definite information to guide them in forming conclusions.

The first fortnight of investigation was made with many misgivings, but all fears were dismissed in comparing tax systems of other Pacific coast cities with Vancouver. No danger would come to the single tax movement if there should be a complete collapse in Vancouver's prosperity to-morrow.

Although Vancouver is absorbing a very small proportion of her increasing land values, she has made a tremendous advance in appreciating the single tax. A comparison with Seattle will explain.

In Seattle the intersection of Madison street with Second avenue is the very center of the retail trade of that city, and the demand for retail business shops makes this point command the highest rents. The quarter block south of Madison street on the west side of Second avenue is covered with one-story shacks that would discredit a country village of 300 inhabitants. The tenants pay a rental of \$40,000 a year. On the assessment rolls these shacks are valued at \$7,360, and the land on which they are situated at \$237,820. The tax levy is 33.9 mills on the dollar, making a tax of \$8,311.60. Directly opposite on Second avenue is a magnificent office building which tends to inspire confidence in the future of the city even to the stranger passing by. According to the assessors' books this site, although of equal area with the site of the shacks, is not as valuable by \$17,100. It is assessed at \$220,720. The improvements are assessed at \$225,540, making the aggregate value for taxation \$446,260, which augments the public revenues to the extent of \$15,128—almost twice as much as comes from the shack property on the opposite side of Second avenue.

Contrast that contrast with the point where land values are most stable and highest in Vancouver. The two principal

business thoroughfares in Vancouver are Granville street extending north and south and Hastings street extending east and west. At the intersection of these two streets land values reach their highest pitch. The block at the northwest corner belongs to the Dominion of Canada and is exempt from taxation. It is the site of the Post Office Building. Diagonally across is one of the most substantial structures in the city, the Bank of Commerce building, fronting 60 feet on Hastings street and extending back on Granville street 120 feet. This site is valued on the assessment roll at \$157,500. The building is assessed at \$228,000.*

It occupies the first two lots next to Granville street, and 8 feet of the third lot. Two years ago the rest of the third lot and the adjoining fourth lot—the two having a frontage of 44 feet—were occupied by the Leland Hotel, a three-story antiquated frame structure valued on the assessment rolls at \$4,400. The four corresponding lots on Pender street (the southern boundary of the square of which Hastings is the northern) at the Granville corner were then covered with one-story shacks facing on Granville street, similar to those of Seattle. They are on the assessment rolls at a valuation of \$8,000. The aggregate rentals amounted to more in one month than the assessed value of the buildings. But building is now in progress there. Permits have been issued from the building inspector's office for one of the finest office buildings yet erected in Vancouver, a steel reinforced concrete fireproof structure, faced with brick and terra cotta, on Granville and Pender streets, to cost \$400,000. The Bank of Commerce site, the most desirable in the city, pays into the city treasury \$3,150 and the building is exempt. The site of the shacks that have just been razed was assessed at \$193,750, and the owner was compelled to pay into the city treasury \$3,875 last year. He had to build.

The charter of the city of Vancouver limits the rate to be levied in any year to 13½ mills on the dollar, except what is required for payment of interest on outstanding debentures, and the amount required for a sinking fund therefor, and for school purposes. Since 1906 the net rate levied has been 20 mills. Provincial legislation will be necessary before the rate can be increased very much. That could be circumvented by an issue of short-term debentures, but they are difficult to dispose of and command a high rate of interest. However, there will be little opposition to legislation when the time comes for increasing the rate above what the charter now allows, so satisfactory has the experiment been thus far.—*The Chicago Public*.

*The mayor and council of Vancouver are elected annually in January. Within a very short time after election the council is organized, and the assessment rolls, prepared by the Assessment Commissioner and his assistants, are submitted for revision. Under the charter of Vancouver it is optional with the council to rate or exempt improvements. It is the duty of the Assessment Commissioner, therefore, to have improvements assessed and placed on the roll submitted. Any council has the power to change the policy of the previous council by exempting improvements or taxing them as the case may be.

BOSTON STREET LIGHTING.

Total lamps, January 10, 1911, 16,921: i. e., 3,973 arc, 1,206 tungsten incandescent, 11,742 gas. Cost of electric lighting for year 1910, \$408,900, or \$19,987 more than in 1909; of gas lighting, \$277,256, or \$23,241 less than in 1909. The naphtha lights remaining in 1910 cost \$1,833. All are now replaced with gas lights.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, AUGUST 12, 1911.

No. 32

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for information

as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 45, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 21, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

The Board of Street Commissioners will give public hearings on the days specified on the following petitions:

TUESDAY, AUGUST 22, AT 11 O'CLOCK.

For Leave to Erect Poles—Edison Company, two, Freeport street, near Dorchester avenue, Ward 20; one, East Third street, between Emmet street and Barnard place, Ward 14; New England Telephone and Telegraph Company, two, Everett street, west from Cottage street, Ward 2; three, Falcon street, west from Putnam street, Ward 1; three, Bennett street, west from Market street, Ward 25; two, Parkman street, east from Dorchester avenue, Ward 20; three, King street, east from Dorchester avenue, Ward 24; three, Edwin street, east from Dorchester avenue, Ward 24; five, Duncan street, south from Greenwich street, Ward 20; three, Arlington street, west from Parsons street, Ward 25; two, Eutaw street, west from Marion street, Ward 1; eleven, Almont street, west from Blue Hill avenue, Ward 24.

Cornelius Scanlan, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Patrick J. Rinn, stableman, 1 day at \$2.25, \$2.25; Patrick J. McNulty, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Michael J. Cahill, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.38; Louis O. Cloudman, subforeman, $\frac{1}{2}$ day at \$3, \$1.50; Sylvester McCarthy, laborer, 1 day at \$2.25, \$2.25; Herbert S. Lawrence, laborer, 1 day at \$2.25, \$2.25; Patrick Flynn, laborer, 1 day at \$2.25, \$2.25; Richard Welch, inspector, $\frac{3}{4}$ day at \$3, \$2.25; John J. Dolan, inspector, 1 day at \$3, \$3.

Public Works Department (Water Service).

For the week ending Thursday, August 3, 1911:

Thomas Lavery, laborer, 1 day at \$2.25, \$2.25; Michael Noonan, laborer, 1 day at \$2.50, \$2.50; Frank J. Cadigan, laborer, 2 days at \$2.25, \$4.50; Raffaele Curcio, teamster, 1 $\frac{3}{4}$ days at \$2.25, \$2.67; M. F. Mulkern, teamster, 1 day at \$2.25, \$2.25; Timothy Noonan, teamster, $\frac{1}{4}$ day at \$2.25, \$0.28; Patrick Coleman, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.94; Dennis McGowan, laborer, 1 day at \$2.25, \$2.25; George Greer, repairer, $\frac{5}{8}$ day at \$2.75, \$1.72; James Murphy, teamster, $\frac{1}{4}$ day at \$2.25, \$0.28; John Concannon, laborer, $\frac{1}{8}$ day at \$2.25, \$2.11; John McNulty, laborer, 3 $\frac{5}{8}$ days at \$2.25, \$7.45; Edward Quigley, laborer, $\frac{1}{8}$ day at \$2.25, \$2.11; Edward P. Sullivan, teamster, $\frac{3}{8}$ day at \$2.25, \$0.84; Hugh Cauley, laborer, 1 day at \$2.50, \$2.50; James Lyons, 2d, laborer, 1 day at \$2.25, \$2.25; Martin F. Burke, laborer, 1 day at \$2.50, \$2.50.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Acting Mayor. Those awarded without public advertisement are specially indicated. Week ending August 10, 1911:

BATH DEPARTMENT.

On August 5 the Acting Mayor approved a contract with Michael S. Kelliher for additions, extensions and improvements to the bath house at Tenean Beach. Bids on this work, opened July 12, were as follows:

Michael S. Kelliher, \$1,279.99; Francis C. Creber & Son, \$1,473; Michael Doherty, \$2,995.

HOSPITAL DEPARTMENT.

On August 8 the Acting Mayor approved a contract with the John A. Bradford Coal Company for furnishing about 455 tons (2,000 pounds) of anthracite coal. Bids on this supply, opened July 24, were as follows:

	Furnace.	Egg.	Stove.
Austin Gove & Son.....	\$6 25	\$6 75	\$7 00
Staples Coal Company.....	5 43	5 97	5 97
Metropolitan Coal Co.....	5 42	5 88	5 88
Stetson Coal Company.....	5 34	5 95	5 95
John A. Bradford Coal Co....	5 18	5 80	5 95

PUBLIC WORKS DEPARTMENT (Bridge Service).

On August 8, 1911, the Acting Mayor approved the contract with W. H. Ellis for repairing the draw fender pier at Dorchester Avenue Bridge. Bids on this work were opened July 25, 1911, and were as follows:

W. H. Ellis, 18 Tremont street, \$2,440.50; George T. Rendle, 28 School street, \$2,598.50.

Engineer's estimate, \$2,900.

PUBLIC WORKS DEPARTMENT (Paving Service).

On August 4, 1911, the Acting Mayor approved a contract with F. S. A. D. Gore Corporation for brick block pavement in Hinsdale street, between Commonwealth avenue and Cummington street.

Bids on this work were opened Monday, July 24, 1911, and were as follows:

Bidder.	Kind of Block.	Total.
F. S. A. D. Gore Corp.....	Mack...	\$3,189 20
Charles J. Jacobs Company..	Mack...	3,260 50
Central Construction Co....	Mack...	3,274 50
James Doherty.....	Mack...	3,334 55
John T. Shea, Jr.....	Mack...	3,415 50
Frank H. Cowin Company..	Porter...	3,654 50
D. E. Lynch.....	Mack...	3,697 00

PUBLIC WORKS DEPARTMENT (Water Service).

On August 8, 1911, the Acting Mayor approved a contract with M. De Sisto & Co. for laying water pipe in Huntington avenue, city proper; Craft, Greenleaf and Renfrew streets, Roxbury; Fottler road, Harmon and Harold streets, Dorchester; Clarendon court, West Roxbury; Denton street and Spofford road, Brighton. Bids on this work were opened July 28, 1911, and were as follows:

M. De Sisto & Co., \$1,295.50; J. A. Costello & Co., \$1,418.50; R. Cartullo, \$1,628.50; Hugh McNulty, \$1,431; Thomas Burke, \$1,399; D. E. Lynch, \$1,705.

Engineer's estimate, \$1,665.

PAYMENTS TO DISABLED EMPLOYEES.

The Acting Mayor has approved an allowance made by the Commissioner of Public Works to Michael J. Fahey, 1 $\frac{1}{2}$ days at \$2.25, \$3.38.

PERMISSION TO SELL HORSES.

The Acting Mayor has granted to the Fire Commissioner permission to sell old horses to an amount not exceeding \$500, the same to be in part payment for new horses.

CONTRACTS AWARDED.

SCHOOLHOUSE DEPARTMENT.

On August 8 the Acting Mayor approved the following contracts for repairing steam-heating apparatus in various schoolhouses. F. W. Zemier for items one, four, six and seven; Laskey & McMurrer for item two; P. J. Sullivan for item three; and James P. Dwyer for item five. Bids on this work, opened July 31, were as follows:

	Item 1.	Item 2.	Item 3.	Item 4.	Item 5.	Item 6.	Item 7.
F. W. Zemier & Co....	\$1,226 00	\$2,364 00	\$1,124 00	\$1,164 00	\$1,200 00	\$1,124 00	\$600 00
Laskey & McMurrer...	1,265 00	2,048 00	1,167 00	1,360 00	1,320 00	1,193 00	780 00
J. P. Dwyer.....	1,293 00	2,312 00	1,301 00	1,316 00	1,000 00	1,332 00	625 00
P. J. Sullivan.....	1,296 00	2,249 00	1,019 00	1,200 00	1,109 60	1,219 00	750 00
McLean & Cousens....	1,624 00	2,200 00	1,241 00	1,336 00	1,272 00	1,290 00	942 00

On August 8 the Acting Mayor approved a contract with the Hern-Furlong Company for setting and piping up boilers in various schoolhouses. Bids on this work, opened August 2, were as follows:

	R. G. Shaw School.	Harris School.	Washington Allston Annex.	Kenilworth Street School.
James P. Dwyer.....	\$3,000 00	\$2,800 00	\$1,000 00	\$3,300 00

Hern-Furlong Company.....	2,600 00	2,272 00	500 00	3,044 00
Huey Brothers.....	3,817 00	3,567 00	1,257 00	4,277 00
Laskey & McMurrer.....	2,631 00	2,679 00	863 00	3,296 00
P. J. Sullivan.....	3,816 00	2,858 00	1,245 00	3,750 00

WITHOUT ADVERTISING.

The Acting Mayor has approved the following requests of departments to do work with the department forces without advertising, and also additions to and deductions from contracts:

HEALTH DEPARTMENT.

On August 4 the Acting Mayor approved a contract with the G. W. Bent Company, made without advertising, for the purchase of 600 standard folding bunk beds, at \$3,550. In making this request the commissioner says:

July 24, 1911.

HON. WALTER L. COLLINS,
Acting Mayor, Boston, Mass.:

DEAR SIR,—In behalf of the Board of Health I respectfully ask your Honor's permission to award, without advertising, to the G. W. Bent Company, 93 Causeway street, a contract to furnish and install the following at Gallop's Island on or before the evening of the 6th of August:

600 standard folding bunk beds, \$3,550.

This work is absolutely necessary in order to take care of the steerage passengers who are expected to arrive on the 7th of August from a port infected with Asiatic cholera, and to comply with the recent additional orders of the United States Treasury Department.

The G. W. Bent Company standard folding bunk bed is a patented article, containing peculiar and unrivalled advantages for immigration and quarantine quarters, and the G. W. Bent Company are sole agents for it. Unless we can place this order immediately it will be impossible to secure the delivery of the goods before the arrival of the steamer on the date specified.

The purchase of this equipment will also constitute a desirable permanent improvement at the quarantine station.

Yours very truly,
S. H. DURGIN, M. D., *Chairman.*

On August 5 the Acting Mayor approved a contract with M. F. McDonald & Son, made without advertising, for the erection of a building 100 feet long, 25 feet wide and 12 feet high for kitchen and dining purposes at Gallop's Island, the cost being \$3,545.

July 31, 1911.

HON. WALTER L. COLLINS,
Acting Mayor:

DEAR SIR,—In behalf of the Board of Health I respectfully ask your Honor's permission to give, without advertising, to M. F. McDonald & Son, 37 Fleet street, a contract to construct a building 100 feet long by 25 feet wide by 12 feet high, for kitchen and dining purposes, at a cost of three thousand five hundred forty-five dollars (\$3,545).

This work is absolutely necessary in order to take care of the passengers who are to arrive on the 7th of August from a port infected with Asiatic cholera, and to comply with the recent additional orders of the United States Treasury Department.

The Board has carefully considered other methods of caring for these people with a view of escaping any unnecessary expense in this exigency, and it is prepared to say that it has been unable to find any other method cheaper or in any way expedient to adopt. It has solicited bids from five bidders, and obtained them from three, and the bid of M. F. McDonald & Sons was the lowest. The Board would also state that unless this contract can be put in force immediately the work cannot be completed in time to serve its purposes.

Yours very truly,
S. H. DURGIN, M. D.,
Chairman Health Department.

On August 11 the Acting Mayor approved a contract, made without advertising, with J. M. Ballem for feeding the immigrants detained at Gallop's Island, the price to be \$0.80 per head per day, for approximately 1,300 persons. In

making request for this authority the Health Commissioner states:

HON. WALTER L. COLLINS,
Acting Mayor of Boston:

DEAR SIR,—In behalf of the Board of Health I respectfully ask your Honor's permission to give, without advertising, to Mr. J. M. Ballem, 70 Long Wharf, a contract at \$0.80 per head per day to feed the immigrants arriving about August 7 on the steamship "Canopic" from Italian ports, during the period of their detention at Gallop's Island, he to furnish the help necessary for preparing and serving the food, and also to furnish the use of such additional utensils (about 1,000 kettles, dishes, etc.) as may be needed for this occasion.

Mr. Ballem is especially fitted to do this work properly and somewhat cheaper than the department can do it, on account of his large experience in the catering business among this class of people.

The haste with which preparations must be made for properly feeding and housing 1,300 men, women and children on Gallop's Island does not allow for advertising; but a canvass of the largest caterers in Boston has resulted in three answers, as follows:

J. R. Whipple & Co. say: "After carefully considering the proposition to feed the immigrants from the cholera district down the harbor, we beg to advise you that . . . we cannot consider feeding them at any price."

T. D. Cook & Co. say: "We write to say at the price of \$1 per day we have no proposition to give. Considering the price bases we should have no estimate under \$1.50 or \$2.50 per day per person."

J. M. Ballem says: "For the sum of \$0.80 per day per head I propose to properly feed the immigrants arriving about August 7 on the "Canopic," during the period of their detention at Gallop's Island. I agree to furnish the help necessary for preparing and serving the food, and also to loan such extra utensils aside from the present equipment as may be needed for the proper carrying on of this work."

Yours very truly,
S. H. DURGIN, *Chairman.*

PERMISSION TO DO WORK WITH
DEPARTMENT FORCE.

Permission has been granted by the Acting Mayor to the Commissioner of Public Works to do the following work with the department force, without advertising for competitive bids:

Build a sanitary sewer of 10-inch earthen pipe in Hilburn street, between Poplar street and Metropolitan avenue, West Roxbury, the estimated cost for labor and materials being \$5,877.

"The above work can, in my opinion, be as advantageously done by day labor methods as any work now necessary

L. K. ROURKE,
Commissioner of Public Works."

Resurface with macadam Weld street, from Church street across Willow street, the estimated cost for labor and materials being \$3,000.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

CONTRACTS FOR SIDEWALKS.

On August 7 the Acting Mayor granted to the Commissioner of Public Works permission to award contracts, without

advertising, for the construction of artificial stone sidewalks in the streets of the city to William J. Rafferty Company, the estimated amount for labor and materials to be furnished by the contractor to be over \$2,000.

"The contractors who lay artificial stone sidewalks furnish a surety company guaranty bond for maintaining the work for a period of five (5) years to the satisfaction of the Commissioner of Public Works. The amount paid by the city toward the cost of constructing these sidewalks is a fixed one (6 cents per square foot), equal to one-half the cost of a brick sidewalk, which the city assumes as its share of the cost of a new sidewalk.

L. K. ROURKE,
Commissioner of Public Works."

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners have been approved by the Acting Mayor:

Signs.—Antonio Rando, 1733 Washington street; Frank Freitas, 461 Saratoga street; Joe Wing, 138 West Broadway; Leonard W. Parker, 255B Shawmut avenue.

Illuminated Signs.—John Demos, 1 Berkeley street; Sphinx Hat Company, 30 Boylston street; Antonio Rando, 1733 Washington street; W. S. Quimby Company, 69 South Market street; William G. Celeste, 2½ Bulfinch street.

CITY OF BOSTON.

PROPOSALS FOR REPAIRING THE WHARF AT NORTH END PAVING YARD.

Sealed bids for repairing the wharf at the North End Paving Yard will be received by the Commissioner of Public Works, at Room 57, fourth floor, City Hall, Boston, until 12 m. of Friday, August 18, 1911, and at that time and place will be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening bids. Each bid must be signed by the bidder with full names and addresses, be inclosed in a sealed envelope, indorsed "Bid for Wharf at North End Paving Yard," and deposited in a locked box provided for that purpose. No bid will be allowed to be withdrawn for any reason whatever after it has been deposited in the box. Each bid must be accompanied by a properly certified check for the sum of five hundred (500) dollars, payable to the order of the City of Boston, which check will be returned to the bidder unless forfeited as hereinafter provided. A bond will be required for the faithful performance of the contract in the sum of one thousand (1,000) dollars of an approved surety company doing business in Massachusetts. The bidder is requested to name the surety company which will sign his bond in case the contract is awarded him. All bids which are not in conformity with this notice will be rejected. Plans can be seen at the office of the Division Engineer of the Bridge and Ferry Division, Public Works Department, 60 City Hall, Boston, Mass. The Commissioner of Public Works reserves the right to reject any or all bids or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 10, 1911. (Aug. 12.)

CITY OF BOSTON.

PROPOSALS FOR SETTING CONCRETE METER BOXES IN EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for setting concrete meter boxes in East Boston in district south of Marion street, and giving bond therefor of a surety company approved by the commissioner in the sum of twenty-five hundred dollars (\$2,500), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall, each bid should be inclosed in an envelope, sealed, marked "Bid for Setting Concrete Meter Boxes," and left at Room 57, fourth floor, City Hall, before 12 m. on Thursday, August 17, 1911, with a certified check for one thousand dollars (\$1,000) payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY OF BOSTON.

PROPOSALS FOR STONY BROOK, SECTION 8.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for building Section 8 of the Stony brook conduit, extending 940 feet, more or less, from a point in Hyde Park avenue, 75 feet, more or less, southwesterly of Tower street, and connecting with the existing Stony brook channel, in West Roxbury, together with appurtenances, and giving bond therefor of a surety company approved by the commissioner in the sum of twenty-five thousand dollars (\$25,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Building Stony Brook Conduit, Section 8," and left at Room 57, fourth floor, City Hall, before 12 m. on Monday, August 28, 1911, with a certified check for five thousand dollars (\$5,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, Aug. 3, 1911. (Aug. 12-19.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Public Grounds Department of the City of Boston invites sealed proposals for soil work, renovation and regrading on Boston Common, and giving bond of a surety company therefor in the sum of \$10,000. Only proposals obtained at the office of the superintendent, city greenhouses, East Cottage street, signed by the bidder and left there before 12 o'clock m. of Friday, September 1, 1911, at said office, with a certified check for \$1,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. No bid will be received until after samples of the soil and manure have been submitted to the landscape architects at the office of the superintendent, and approved by them. The superintendent reserves the right to reject any and all proposals and to award the contract as he deems for the best interest of the City.

D. H. SULLIVAN,
Superintendent of Public Grounds.

Boston, August 5, 1911. (Aug. 12-19.)

CITY OF BOSTON.

PROPOSALS FOR WOOD BLOCK PAVEMENT.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing wood block pavement in Dudley street, between Guild row and Harrison avenue, Roxbury, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Monday, August 21, 1911, with a certified check for two thousand dollars (\$2,000), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Wood Block Pavement in Dudley Street."

ROBERT S. PEABODY,
JAMES M. PRENDERGAST,
DANIEL H. COAKLEY,
(Aug. 12.) Commissioners.

BOSTON ONE OF FIRST CITIES TO PAVE STREETS.

Early paving practice was touched upon by Mr. George W. Tillson in a paper presented at the third city planning conference at Philadelphia. The first pavement laid in this country, he said, was in the old town of Pemaquid, Me. As nearly as can be ascertained, this pavement was laid in 1625. Boston laid its first pavements in 1650, and New York in 1856, both cities using cobblestone. Belgian blocks were introduced in 1850, the present oblong granite not being used until some twenty years later. Brick and asphalt were first laid in the seventies, and the present treated wood blocks about twelve or fifteen years ago. The first creosote-resinate wood pavement was laid on Tremont street, Boston, in 1900.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, AUGUST 19, 1911.

No. 33

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

BY SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 45, CITY HALL, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

For the week ending Thursday, August 10, 1911:

Thomas Sullivan, watchman, 1 day at \$2.25, \$2.25; Patrick Vericher, stableman, 1 day at \$2.25, \$2.25; John Welch, watchman, 1 day at \$2.25, \$2.25; Jeremiah T. Donahue, watchman, 1 day at \$2.25, \$2.25; Timothy F. Leonard, watchman, 1 day at \$2.25, \$2.25; John W. Green, laborer, 1 day at \$2.25, \$2.25; Dennis Doherty, laborer, 1 day at \$2.25, \$2.25; Timothy F. Murphy, laborer, 1 day at \$2.25, \$2.25; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50; Frank J. Leslie, laborer, 1 day at \$2.25, \$2.25; Edward M. Richardson, property clerk, 1 day at \$4, \$4.

Public Works Department (Sanitary Service).

For the week ending Thursday, August 10, 1911:

William V. Quinn, inspector, 1 day at \$3, \$3.

Public Works Department (Sewer Service).

For the week ending August 7, 1911:

M. J. Tehan, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; Robert J. Pumpfret, subforeman, $\frac{1}{4}$ day at \$3.50, \$0.88; Daniel Donaghue, bracer, $\frac{1}{4}$ day at \$2.50, \$0.63; John Price, bracer, $\frac{1}{4}$ day at \$2.50, \$0.63; James Coyne, laborer, 1 day at \$2.25, \$2.25; Michael Conway, laborer, 1 day at \$2.25,

2.25; William Dunlea, laborer, 1 day at \$2.25, \$2.25; Thomas Devny, laborer, 1 day at \$2.25, \$2.25; Jeremiah Doyle, bracer, 2 days at \$2.50, \$5; Patrick Curran, bracer, 2 days at \$2.50, \$5; Edward J. Walsh, teamster, 1 day at \$2.25, \$2.25; Patrick J. Hartigan, teamster 1 day at \$2.50, \$2.50; Walter McDonough, bracer, 2 days at \$2.50, \$5; Thomas McLaughlin, bracer, 2 days at \$2.50, \$5; Lawrence McNamara, laborer, 1 day at \$2.25, \$2.25; John Guinee, laborer, 1 day at \$2.25, \$2.25; Martin Kelley, laborer, 1 day at \$2.25, \$2.25; Daniel Hart, laborer, 1 day at \$2.25, \$2.25; James Gallagher, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Humphrey J. Moynihan, inspector, $\frac{1}{2}$ day at \$5, \$2.50; Michael J. Conley, machinist, $\frac{1}{2}$ day at \$3.52, \$1.76; Thomas Galvin, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Richard Connelly, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael O'Brien, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Daniel Murphy, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Street Cleaning and Oiling Service).

For the week ending Thursday, August 10, 1911:

Cornelius J. Scanlon, inspector, $\frac{3}{4}$ day at \$3, \$2.25; Richard Welch, inspector, $\frac{3}{4}$ day at \$3, \$2.25; John J. Dolan, inspector, 1 day at \$3, \$3; Edward J. Noonan, inspector, 1 day at \$3, \$3; Daniel F. Connor, laborer, 1 day at \$2.25, \$2.25; Patrick McGonagle, laborer, 1 day at \$2.25, \$2.25; Patrick J. Rinn, stableman, $\frac{1}{2}$ day at \$2.25, \$1.13; Joseph F. Mello, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Sylvester McCarthy, laborer, 1 day at \$2.25, \$2.25; John Fitzgerald, laborer, 1 day at \$2.25, \$2.25; Patrick Flynn, laborer, 1 day at \$2.25, \$2.25; James J. Farrell, inspector, 1 day at \$3, \$3; Thomas Loughlin, laborer, 1 day at \$2.25, \$2.25; John J. Goodfellow, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Water Service).

For the week ending Thursday, August 10, 1911:

Hugh Campbell, repairer, $\frac{3}{8}$ day at \$2.50, \$0.47; John Connolly, 1st, laborer, $\frac{3}{8}$ day at \$2.25, \$1.27; Michael Daly, 2d, laborer, $\frac{3}{8}$ day at \$2.25, \$0.42; Edward Doherty, laborer, $\frac{3}{8}$ day at \$2.25, \$1.27; John W. Kelly, laborer, $\frac{3}{8}$ day at \$2.25, \$0.42; John Leonard, laborer, $\frac{3}{8}$ day at \$2.25, \$1.27; Michael McCarthy, 2d, laborer, $\frac{3}{8}$ day at \$2.25, \$1.69; Cornelius McLaughlin, 2d, laborer, $\frac{3}{8}$ day at \$2.25, \$1.27; Michael McLaughlin, repairer, $\frac{3}{8}$ day at \$2.50, \$1.41; Michael M. McGrath, teamster, $\frac{1}{4}$ day at \$2.25, \$0.28; Michael Noonan, stableman, 1 day at \$2.50, \$2.50; Timothy Riley, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.64; Michael Ronan, teamster, 1 $\frac{1}{2}$ days at \$2.25, \$2.74; Isaac Saperstein, repairer, 2 $\frac{1}{8}$ days at \$2.50, \$5.16; Charles M. Driscoll, plumber, 1 $\frac{1}{2}$ days at \$3.50, \$6.56; John H. Finnerty, carpenter, 1 $\frac{1}{2}$ days at \$3.50, \$5.25; Daniel W. Lyons, carpenter, 1 $\frac{1}{2}$ days at \$3.50, \$5.25; Thomas Hannon, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.38; Timothy F. Murphy, helper, 1 $\frac{1}{2}$ days at \$2.25, \$4.22; James F. Black, repairer, 2 $\frac{1}{2}$ days at \$2.50, \$6.25; Lawrence A. Hillary, repairer, 2 $\frac{1}{2}$ days at \$2.50, \$6.25; Patrick Coleman, laborer, $\frac{3}{4}$ day at \$2.25, \$1.97; James McMahon, laborer, 1 day at \$2.25, \$2.25; John Concannon, laborer, $\frac{1}{4}$ day at \$2.25, \$1.65; John McNulty, laborer, 1 $\frac{1}{4}$ day at \$2.25, \$4.36; Edward Quigley, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Charles Quigley, laborer, 1 day at \$2.25, \$2.25; John J. Gallagher, laborer, 1 day at \$2.50, \$2.50.

Meter Branch.—For the week ending August 7, 1911:

J. Callahan, laborer, $\frac{1}{2}$ day at \$2.50,

\$0.31; D. Rull, plumber, $\frac{1}{4}$ day at \$3.50, \$0.44; J. Sullivan, laborer, $\frac{1}{4}$ day at \$2.25, \$0.28; P. Russell, laborer, $\frac{1}{4}$ day at \$2.25, \$0.28.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Acting Mayor. Those awarded without public advertisement are specially indicated. Week ending August 17, 1911:

CONSUMPTIVES' HOSPITAL DEPARTMENT.

On August 11 the Acting Mayor approved a contract with the Frick Company, for installing a refrigerating plant in the hospital at Mattapan, the price to be \$5,955. The sum of \$1,535 being deducted from the original bid on account of the omission of a number of items. Bids on this equipment, opened July 20, were as follows:

Frick Company, \$7,490; Creamery Package Company, \$9,973; Bay State Construction and Supply Company, \$10,389.

PUBLIC GROUNDS DEPARTMENT.

On August 15 the Acting Mayor approved a contract with A. Piotti for the erection of an attendant's office at the Highland Standpipe. Bids on this work, opened August 1, were as follows:

A. Piotti, \$1,900; The Associated Trust, \$1,966; Thomas H. Hanlon, \$2,349; D. M. Biggs, \$2,620.

PUBLIC WORKS DEPARTMENT (Paving Service).

On August 15 the Acting Mayor approved a contract with John I. Fitzgerald for repaving and regulating in Bristol and Albany streets at and near the Fire Department headquarters. Bids on this work were opened July 31, 1911, and were as follows:

John I. Fitzgerald, \$740.90; C. W. Dolloff & Co., \$881.55; John T. Shea, Jr., \$1,198.50; F. S. & A. D. Gore Corporation, \$1,230; M. F. Gaddis, \$1,409.50; F. H. Cowin Company, \$1,423.

The engineer's estimate for this work, deducting stock furnished by the city, engineering, etc., is \$1,220.

On August 15 the Acting Mayor approved a contract with James Doherty for wood block pavement in Washington street, between Williams and Dudley streets. Bids on this work were opened July 22, and were as follows:

F. H. Cowin Company, \$15,583.40; Coleman Brothers, \$17,476.10; F. S. & A. D. Gore Corporation, \$17,036.70; Central Construction Company, \$17,793; James Doherty, \$16,403.50; Coughlan & Sheils Company, \$18,484.

The bid of F. H. Cowin Company was rejected on account of irregularity in check filed with proposal.

Engineer's estimate, \$17,427.

PUBLIC WORKS DEPARTMENT (Sewer Service).

On August 11 the Acting Mayor approved the contract with M. DeSisto & Co. for sewerage works in Watson street, between Camden and Northampton streets, city proper. Bids on this work were opened July 28, 1911, and were as follows:

M. DeSisto & Co., \$3,053.32; Charles J. Jacobs Company, \$3,172.45; D. E. Lynch, \$3,353.10; Antony Cefalo, \$3,407.07.

Engineer's estimate, \$3,597.65.

On August 11 the Acting Mayor approved the contract with George J.

Regan for pipe drains in Champney street, between Washington and Stratton streets, Brighton. Bids on this work were opened August 4, 1911, and were as follows:

George J. Regan, \$1,540.87; J. C. Coleman & Sons Company, \$1,669.40; Charles J. Jacobs Company, \$1,726.60; Antony Cefalo, \$1,844.36; R. J. Young & Co., \$1,915.75; John McCourt & Co., \$2,185.06; D. E. Lynch, \$2,343.95.

Engineer's estimate, \$1,637.75.

On August 11 the Acting Mayor approved a contract with Daniel E. Lynch for sewerage works in Byron street, between Brimmer and River streets, city proper. Bids on this work were opened July 21, 1911, and were as follows:

Daniel E. Lynch, \$2,834; John T. Shea, Jr., \$3,164.45.

Engineer's estimate, \$2,580.70.

On August 11 the Acting Mayor approved a contract with Murphy & Dolan for pipe sewers and drains in Talbot avenue, between Blue Hill avenue and Washington street, Dorchester. Bids on this work were opened August 4, 1911, and were as follows:

Murphy & Dolan, \$8,110.99; M. De Sisto & Co., \$9,095.50; A. Cefalo, \$9,217.28; George J. Regan, \$9,226.35; A. M. Cusack, \$9,647.26; J. McCourt & Co., \$10,118.42; D. E. Lynch, \$10,595.25.

Engineer's estimate, \$9,414.80.

PUBLIC WORKS DEPARTMENT (Water Service).

On August 15 the Acting Mayor approved a contract with Hugh McNulty for relaying water pipes in Eriesson, Fulton and Water streets, Dorchester. Bids on this work were opened August 4, 1911, and were as follows:

Hugh McNulty, \$914.05; C. M. Callahan, \$953.05; Thomas Burke, \$956.30; J. A. Costello & Co., \$964.80; Raffele Cartullo, \$1,076; William J. Rafferty Company, \$1,438.25.

Engineer's estimate, \$1,105.

SCHOOLHOUSE DEPARTMENT.

On August 17 the Mayor approved a contract with J. J. Hurley & Co. for setting and piping up boilers in the Hyde School. Bids on this work, opened August 11, were as follows:

J. J. Hurley & Co., \$2,292; Pierce & Cox, \$2,295; Hern-Furlong Company, \$2,825; Laskey & McMurrer, \$3,248; P. J. Sullivan, \$3,150.

WITHOUT ADVERTISING.

The Mayor has approved the following requests of departments to do work with the department forces without advertising, and also additions to and deductions from contracts:

ELECTION DEPARTMENT.

In view of the representations contained in the following communication the Mayor has approved a contract with Thomas McMann for lighting lanterns to be hung on polling booths at night, the price being 10 cents per lantern per night; the estimated total amount of contract being \$1,700.

BOARD OF ELECTION COMMISSIONERS,
OLD COURT HOUSE, COURT SQUARE,
BOSTON, August 16, 1911.

HON. JOHN F. FITZGERALD, Mayor:

DEAR SIR,—When voting booths are placed in the public highways it becomes incumbent upon the Election Commissioners to cause the same to be lighted for the protection of travelers on said highways.

We shall have to light approximately

fifty-nine booths each night after the same have been placed on the highways.

For the last three years this work has been performed by Thomas McMann at a price of 7 cents per lantern per night. In 1908, the first year he performed this work, he had approximately 116 booths to light. This year there will be but fifty-nine booths to light, about one-half the number there were in 1908, so that if he received the same price per light this year he would get as a total compensation for performing this work about one-half the money he received in 1908, notwithstanding the fact that he practically has to cover the same territory.

He now requests 10 cents per lantern per night and we are of opinion that this is a reasonable compensation, taking all the facts into consideration.

By locating a number of polling booths in schoolhouses we reduced the number of booths on the highways from 116 in 1908 to about sixty-eight last year. Although the number of places was reduced to sixty-eight last year he performed the contract at 7 cents per lantern per night, and from his experience from last year's work he is unwilling to light the booths at the price paid last year, stating that by reason of the material reduction of the number, taken together with the fact that he has to cover the same territory, that 7 cents per lantern per night is not fair compensation for this work. He is familiar with this work and in the past has properly safeguarded the interests of the city. He did all that was required of him under his contract in a proper manner.

We believe that 10 cents per lantern per night is fair compensation for the performance of this work, especially in view of the fact that the only offer from other persons for this work last year was at 10 cents per lantern per night.

We respectfully request that the Mayor give his consent to this Board to give this work to Thomas McMann at the price above stated, namely, 10 cents per lantern per night.

Respectfully,

BOARD OF ELECTION COMMISSIONERS,

JOHN M. MINTON,

Chairman.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor:

PUBLIC BUILDINGS DEPARTMENT.

An addition, amounting to \$989.75, on the contract with the A. Varnerin Company for the Curtis Hall building, on account of marble dado in shower bathroom, also for preparing the bank of running track, including the guards on balcony windows, and for resetting the granite tablet and doing the necessary pointing work as specified. Contract price, \$74,844; total additions, \$1,648.25; total deductions, \$438; amount of contract, \$76,054.25.

A deduction, amounting to \$153.70, on the contract with the A. Varnerin Company for the Curtis Hall building, on account of omitting the Humphrey Ashlift at said building and installing in its stead galvanized-iron blocks and falls with the necessary fittings for same. Contract price, \$74,844; total additions, \$1,648.25; total deductions, \$591.70; amount of contract, \$75,900.55.

A deduction, amounting to \$1,160, on the contract with Edwin C. Lewis, Inc., for the Curtis Hall building, being the difference between the allowance of \$2,000 as specified for furnishing lighting

fixtures in said building and Edwin C. Lewis, Inc., estimate of \$840. Contract price, \$4,471; total deductions, \$1,160; amount of contract, \$3,311.

FIRE DEPARTMENT.

An addition, amounting to \$836, on the contract with the John F. Griffin Company for the repair shop for Fire Department, on account of repaving yard over a cinder fill with 1½ inches of sand. Blocks to be grouted with cement raising all to proper pitch from doors to cesspool; extending present granite threshold at yard gate; extending present iron run on threshold and providing block for brace for gate in yard and setting curb for sidewalk back on line of gate posts and repaving drive. Original contract, \$94,988; total additions, \$2,525.20; contract as standing, \$97,513.20.

An addition, estimated as amounting to \$101.65, on the contract with William H. Ellis for dredging and building wharf for Engine 31, for furnishing extra bolts for fender piles as directed, omitting the 6 inch by 12-inch wall plate on wall, removing old work and pinning up and pointing the stone work where directed, at head of dock; also for furnishing one extra stringer on the extension of the old wharf and omitting one ring bolt.

HOSPITAL DEPARTMENT.

An addition, amounting to \$345.30, on the contract with William L. Morrison for additions and repairs for additional fire protection, Boston City Hospital, on account of raising the grade of the floor of the service room, basement of surgical pavilion and laying new concrete floor with granolithic finish; and for additional excavation under corridors, basement of medical building. Contract price, \$44,003; total additions, \$6,633.30; amount of contract, \$50,636.30.

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners have been approved by the Mayor:

Signs.—F. E. Williams, 48 Dover street; Mike Lally, 22 Chelsea street, Ward 1; B. Needelman, 58 Hampden street; Libman & Cohen, 322 Harrison avenue.

Illuminated Signs.—Holland Brothers, 770-772 Washington street; J. H. Feldman, 26 Davis street; George Young Company, 756A Centre street, Ward 22; Thomas J. Grey Company, 32 South Market street; T. Soracco, 19 Province street; Giuseppe Capillo, 116 Dover street; F. E. Norris, 569 Washington street; Burke & Co., 3526 Washington street; Splaine & Fitzpatrick, 50 Bromfield street; Charles J. Leary & Co., 1 Maverick square; F. M. Loring, 124 Harvard street; Dearborn Grocery Company, 47 Dearborn street.

Pole Locations.—New England Telephone and Telegraph Company, to erect two poles, Seattle street, Ward 25; to erect two poles, Westford street, Ward 25; to attach to three poles, Edison Electric Illuminating Company, Church street, Ward 20; to attach to one pole, Linden street, Ward 25; to attach to three poles, West End Street Railway Company, Essex street, Ward 25; to attach to one pole, Paris street, East Boston.

ARCHITECTS FOR OAK SQUARE ENGINE HOUSE.

Messrs. Maginnis & Walsh have been appointed as architects for the new engine house to be erected at Oak square, Brighton.

CLAIMS.

The Mayor has approved an award of \$300 to James O'Donnell, made by the Committee on Claims of the City Council on account of expense incurred and partial disability resulting from his being thrown from a team in the employ of the Sanitary Service, December 18, 1909. This amount is in addition to a former award of \$150 in compensation for a portion of wages lost while incapacitated.

PAYMENTS TO DISABLED EMPLOYEES.

The following allowances granted by the Commissioner of Public Works have been approved by the Acting Mayor:

Albert H. Brown, Street Cleaning Service, 1 day at \$2.50, \$2.50; Patrick Murray, Paving Service, 24 days at \$2.25, \$54. Water Service. -Cornelius Sullivan, 2d, 2½ days at \$2.25, \$5.63; James Logue, 2½ days at \$2.25, \$5.63.

PERMISSION TO SELL.

The Mayor has granted to the Commissioner of Public Works permission to sell old junk, property of the Water Service of the Sewer and Water Division of this department, at 710 Albany street, value not to exceed \$500.

STREET COMMISSIONERS.

The Acting Mayor has approved orders of the Board of Street Commissioners determining that no persons have suffered damage in their estate by reason of the work done in connection with the following public improvements; and assessing against various estates the following amounts for benefits resulting from these works of public improvement:

Laying out and construction of Mallon road, Dorchester, as a highway from Bowdoin avenue to Rosseter street:

31. James A. Pierce <i>et al.</i>	60 00
32. Marcia B. Uford.	151 44
33. Marcia B. Uford.	178 08
34. Marcia B. Uford.	420 20
35. City of Boston.	1,235 00
	<u>\$10,757 10</u>

The following estates sustain damages by the laying out of Hazelton street (formerly Tileston avenue), Dorchester:

	Amount.
John Twombly, grade damages (No. 25),	\$200 00
John Twombly, grade damages (No. 27),	250 00
Alfred J. Couture, grade damages.	250 00
Esther J. Toppan Heirs or Devises, grade damages.	250 00
	<u>\$950 00</u>

The Acting Mayor has also approved a vote of the Board abating an assessment of \$917.52 levied against the estate of William S. Dexter on account of the improvement of Amory street. After consultation with the Law Department, and on its advice, the Board voted to accept \$700 without interest.

PROCEEDINGS OF CITY COUNCIL.

Friday, August 11, 1911.

Special meeting of the City Council held in the Council Chamber, City Hall, at three o'clock p. m., President COLLINS in the chair.

The Clerk read the call for the meeting as follows:

City of Boston.

Office of the Mayor, August 10, 1911.

To the Members of the City Council:

You are hereby requested to assemble in the City Council Chamber, City Hall, on Friday, August 11, 1911, at three o'clock p. m., for the purpose of taking action on orders appropriating by loan \$48,000 for a new steamer for the Health Department and \$60,000 additional for the East Boston Courthouse and Police Station. These orders were recommended for adoption by his Honor Mayor Fitzgerald on June 13 and 16, and they will be in effect (unless rejected by the City Council) on August 12 and 15, respectively.

Respectfully,

WALTER L. COLLINS,
Acting Mayor.

Placed on file.

The Clerk, by direction of the President, called the roll to ascertain the attendance, with the following result:

Present—Coun. Attridge, Collins, McDonald—3.
The PRESIDENT—Three members being present, less than a quorum, the meeting stands adjourned.

The Council stood adjourned at 3.50 p. m.

MUNICIPAL BAND CONCERTS.

The Municipal Band of the city of Boston has been organized for this year, with thirty-five men, directed by Dionisio G. Cericola. Concerts will be given on Boston Common on Sunday afternoons, Franklin Park on Saturday afternoons, and in the different sections of the city evenings, starting July 7.

A new feature for this season is the "Noonday Concerts" on Boston Common. The concerts from 12 to 2 p. m. are given by the Municipal Band. Though an innovation in this country, the success attained by similar concerts in Paris, Berlin and other European centers indicates that the "Noonday Concerts" will be appreciated. It is hoped that, with the co-operation of the directors of the largest stores, etc., whose employees will be benefited in the future, that this line of work may be greatly enlarged. Below is a schedule of concerts for season:

Boston Common. Sunday afternoons at 3.30 p. m., July 2 to September 3, inclusive. Labor Day, September 4, 1911, at 3.30 p. m., Municipal Band, thirty-five pieces, Dionisio G. Cericola, leader.

Marine Park, South Boston. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive, and Labor Day, September 4, 1911. August 20, 3.30 p. m., Edwin G. Bates' Band, Edwin G. Bates, leader.

August 27, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.
September 3, 3.30 p. m., Post 26, G. A. R. Band, William A. Morrell, leader.

Pine Bank, Jamaica Pond. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive.

August 20, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

August 27, 3.30 p. m., First Corps Cadet Band, John B. Fielding, leader.

September 3, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.

Wood Island Park, East Boston. One concert, Sunday afternoon, 3.30 p. m.

September 3, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.

Abbotswood, Franklin Park. Saturday afternoons at 3.30 p. m.

July 8 to September 2, inclusive, Municipal Band, Dionisio G. Cericola, leader.

District concerts given in different sections of the city by the Municipal Band, Dionisio G. Cericola, leader. Unless otherwise specified, concerts are from 8 to 10 p. m.

August 22, Heath square, Heath and Park streets, Roxbury.

August 23, Adams and Common streets, Charles-town.

August 24, Christopher Gibson Playground, Field's Corner.

August 25, Sumner and Jeffries streets, East Boston.

August 29, North square, North End, city.

August 30, Emerald and Compton streets, South End, city.

August 31, near 100 Savin Hill avenue, Dorchester.

September 1, Ashley avenue and Breed street, East Boston.

The schedule herewith presented is subject to change without notice. Postponed concerts will be given as soon as possible after the original date scheduled. No programs will be distributed, but the daily and Sunday newspapers of Boston will print from time to time the weekly schedules, programs and other data pertaining to the concert season. Programs will be announced at all concerts by use of the megaphone.

All communications relating to the concerts should be addressed to Secretary, Walter L. Finigan, of the Music Trustees, Room 905, Carney Building, Boston, for prompt consideration.

The Music Trustees have arranged the following band concerts for the coming week:

BOSTON COMMON, SUNDAY, AUGUST 27,
AT 3.30 P. M.

Municipal Band, D. G. Cericola,

Leader.

Program.

1. Overture. "Midsummer Night's Dream." Mendelssohn
2. Waltz. "Southern Roses." Strauss
3. Grand Fantasia from "Falstaff." Verdi
- (First time—by request.)
4. Trombone Solo. Selected.
- Mr. Stanley W. Gallo.
5. Suite. "Peer Gynt." Grieg
 - a. "Morning Mood."
 - b. "Ase's Death."
 - c. "Anitra's Dance."
 - d. "In the Hall of the Mountain King."
6. Grand Selection. "The Power of Destiny." Verdi
- (First time—by request.)
7. Spring Serenade. "Aubade Printaniere." Lacombe
8. Overture. "Die Meistersinger von Nurn-berg." Wagner

ABBOTSWOOD, FRANKLIN PARK, SATUR-
DAY, AUGUST 26, AT 3.30 P. M.

Municipal Band, D. G. Cericola,

Leader.

Program.

1. March. "The Watchword." Carte
2. Overture. "Die Meistersinger." Wagner
3. Waltz. "Jolly Fellows." Vollstedt
4. Selection. "The Power of Destiny." Verdi
5. Trombone Solo. Selected.
- Mr. S. W. Gallo.
6. Selection from "The Arcadians." Monckton
7. Suite. "Peer Gynt." Grieg
8. Grand Fantasia from "Falstaff." Verdi
9. March. "Hoch Habsburg." Kral
- "Star Spangled Banner."

JEFFRIES POINT DISTRICT, EAST BOSTON,
FRIDAY, AUGUST 25, AT 8 P. M.

Municipal Band, D. G. Cericola,

Leader.

Program.

1. March. "Stars and Stripes." Sousa
2. Overture. "La Gazza Ladra." Rossini
3. Selection. "Madame Sherry." Hoschna
4. Waltz. "Jolly Fellows." Vollstedt
5. Selection from "Il Trovatore." Verdi
6. Episode Militaire. "The Charge of the Hussars." Spindler
7. Selection. "The Chimes of Normandy." Planquette
8. Descriptive Fantasia. "The Sunny South." Lamp
9. Galop. "Infernal." Keler-Bela
- "Star Spangled Banner."

CHRISTOPHER GIBSON PLAYGROUND,
FIELD'S CORNER, THURSDAY, AUGUST
24, AT 8 P. M.

Municipal Band, D. G. Cericola,

Leader.

Program.

1. March. "The Commuters." Bendix
2. Overture. "Midsummer Night's Dream." Mendelssohn
3. Selection. "The Prince of Pilsen." Luders
4. Waltz. "Eternelle Ivresse." Gann
5. Selection. "The Three Twins." Hoschna
6. Serenade. "The Blue Mediterranean." Volpatti
7. Selection. "The Balkan Princess." Rubens
8. Suite. "Peer Gynt." Grieg
9. Descriptive Episode. "A Hunt in the Black Forest." Voelker
- "Star Spangled Banner."

ADAMS AND COMMON STREETS, CHARLES-
TOWN, WEDNESDAY EVENING, AUGUST
23, AT 8 P. M.

Municipal Band, D. G. Cericola,
Leader.

Program.

1. March. "En Masse." Reeves
2. Overture. "Orpheus." Offenbach
3. Selection. "The Midnight Sons." Hubbell
4. Waltz. "Espana." Waldteufel
5. Selection. "The Chocolate Soldier." O. Strauss
6. Intermezzo. "Gretchen." Martin
7. Selection from "The Arcadians." Monckton
8. Descriptive Episode Militaire. "The Charge of the Hussars." Spindler
9. "The Stars and Stripes." Sousa
- "Star Spangled Banner."

HEATH SQUARE, HEATH AND PARKER
STREETS, ROXBURY, TUESDAY,
AUGUST 22, AT 8 P. M.

Municipal Band, D. G. Cericola,
Leader.

Program.

1. March. "Up the Street." Moss
2. Overture. "Zampa." Herold
3. Selection. "Madame Sherry." Hoschna
4. Waltz. "Wedding of the Winds." Hall
5. Selection. "The Man Who Owns Broadway." Cohen
6. Spanish Serenade. "La Paloma." Fradrier
7. Popular Gems.
 - a. "Put Your Arms Around Me, Honey." Von Tilzer
 - b. "Kiss Me, My Honey." Snyder
8. Descriptive Episode. "A Hunt in the Black Forest." Voelker
- "Star Spangled Banner."

CHILDREN'S PARTIES AT THE
ART MUSEUM.

Through the generosity of one of the trustees of the museum, parties of children were brought to the museum every morning during July and August, to listen to stories about objects in the museum. A trained story-teller, Miss Dorothy Hopkins, was engaged for this work. Each morning, about half-past nine, the children gathered in the lecture hall; a lantern slide thrown on the screen, showing some painting or piece of sculpture, and while the children looked at it Miss Hopkins told some story which it suggested.

In the course of an hour some three or four objects are thus brought before the children's attention. At the conclusion of the hour the children were taken to see just these objects, and given each a postal card with an illustration of one of them to take home.

The children were gathered into groups of about fifty, one group from each of the settlement houses in the city and one from each of the thirty playgrounds in the charge of the Boston School Committee. Free transportation to and from the museum was furnished, and the children were in charge of competent persons from the time they left the settlement house or playground till they returned. Brought from all quarters of the city, as they were, and representing all sections of the community, it is hoped that they will make the museum better known all over the city.

The real object of the plan is to teach large numbers of children to regard the museum as a place for genuine recreation. No effort is made to teach them about art. On the other hand, they are encouraged to look carefully first at lantern slides of objects and then at the objects themselves, while they are entertained by stories which the objects suggest. If the children of Boston can learn to enjoy works of art as children, a more wide and real and intelligent enjoyment of art may be expected in another generation than exists to-day.

FINANCE COMMISSION.

BOSTON, August 16, 1911.

To the Honorable the Mayor and City Council;

GENTLEMEN, The Finance Commission respectfully submits the following report upon the subject of fire protection in the City of Boston:

I. EXISTING CONDITIONS.

The bulk of Boston's large business is conducted in a section of the city where the fire hazard is very large. The streets in the business district are so narrow as to be of little value as barriers against fire, and many of the buildings are old, with little or no fireproof material in their construction, and without proper facilities for access by the Fire Department. Fires in this district are almost invariably attended with serious losses. A conflagration would be certain to cause tremendous financial loss, and might cause a temporary paralysis of business during which the entire community would suffer.

In many residential sections of the city entire streets present a solid front of dwellings made of what has been properly styled "tinder box" construction. Dorchester is the most conspicuous example, but similar conditions are found in the other residential sections. There are exceptional fire hazards in East Boston and Charlestown, due partly to dwelling houses of this type, partly to the presence of factories, lumber yards, railroad sheds and wharves, and partly to the fact that apparatus sent from other parts of the city to give relief may be delayed on the bridges or ferries over which most of the assistance to the local fire companies must come.

The large area outside of "the building limits" in Boston, that is, outside the limits within which the erection of wooden buildings is prohibited by law, adds greatly to the fire risk. Figures submitted by the Fire Commissioner show that in the seven cities of the United States which have the largest population the percentage of the area of the building limits to the total city area is the lowest in Boston. The area within the building limits in Pittsburg is over one-fifth of the total area, in Chicago it is over one-fourth, in Baltimore nearly one-half, in St. Louis and Philadelphia over one-half, and in New York practically the whole area is included within the building limits. In Boston, however, less than one-tenth of the total area is within the building limits. All things considered, Boston's fire risk is one of the heaviest in the large cities of the United States.

The Fire Department is entirely capable of handling ordinary fires. It has sufficient apparatus of its kind, and it is kept in good condition. It is generally admitted that the firemen are well equipped physically and mentally and that the officers are experienced and able. The Fire Commissioner is conducting the affairs of the department intelligently and faithfully.

The department, however, is not as well equipped as it should be for dealing with extraordinary fires. Any such fire, under existing circumstances and with unfavorable weather conditions, might result in a disastrous conflagration. In order to deal promptly and effectively with the larger and more dangerous fires, the department should have in every company a sufficient quota of men available for immediate duty and an adequate equipment of the best modern fire apparatus. In these two essentials the department is lacking and to this is due

largely the lack of sufficient protection against fire in Boston.

II. * RECOGNIZED NEED OF BETTER PROTECTION.

That Boston needs better fire protection is not a new discovery; it has been known for a long time by the city authorities, by insurance officials and by the citizens generally. A year ago the Mayor, vividly impressed with the lessons of the Albany street fire, called the attention of the Chamber of Commerce and of the Finance Commission to the lack of sufficient fire protection, and invited these bodies to investigate and report on several phases of the situation; at about the same time he also appointed a special commission to study the defects in the building laws, with the intention of submitting a bill, remedying such defects, to the incoming Legislature, and these various bodies made the requested investigations and reports.

The Fire Commissioner and the local and national boards of fire underwriters fully recognized the need of better protection against fire, and made certain definite recommendations for improvement. The citizens generally recognized the need of decreasing the fire hazard and of increasing the efficiency of the Fire Department, and their views were reflected in the columns of the newspapers, which appreciated the existing dangers and joined in the general demand for their abatement.

One of the greatest needs, according to the underwriters, the Fire Commissioner, and all persons familiar with conditions in the Fire Department, was the appointment of additional firemen. The Fire Commissioner on April 11, 1911, wrote to the Mayor requesting an appropriation of \$75,000, to cover the salaries and expenditures of additional firemen. In this letter the commissioner quoted a report of the National Board of Fire Underwriters on the Fire Department of the City of Boston, as follows:

"The fire force, while nominally strong, is seriously weakened by the allowance of time off under the present arrangements; even companies in the most important districts are often reduced to four or five men in quarters during eleven out of twenty-four hours. At such times companies responding to fires must assist one another with a loss of valuable time at the most critical stage. This is the most serious deficiency of any pertaining to the department and demands immediate attention. The number of men in each company should be increased, or at least provision made for relief men to take the places of all members on vacations, sick and special leave or details and in some cases for those on days off.

"Members are allowed two meal periods of two hours or three of one and one-quarter hours daily, one day off in five and fourteen days' annual vacation. These with the details, sick leaves, etc., reduce the fire force during eleven and one-half hours each day to about one-half and in many instances less than one-half of the total membership."

The Fire Commissioner also shows in the same letter that in vacation months, May to November, engine and ladder companies requiring thirteen and fourteen men sometimes have only five; companies requiring nine or twelve men sometimes have only four, and companies requiring seven and eight sometimes have only three men. (See Minutes of City Council, 1911, pages 271, 272.)

The Finance Commission on March 22, 1911, recommended the appointment of

fifty additional firemen, the number which the Fire Commissioner then estimated to be absolutely necessary, and since that time practically nothing has occurred to lessen the necessity for the recommended increase in the force.

III. FAILURE TO IMPROVE CONDITIONS.

Notwithstanding the recognized need for improvement, and the various recommendations made as a result of the investigations requested by the Mayor, practically nothing has been accomplished in the last year, except the authorization of a high pressure water service, which is to be installed in the business district. When this service is completed it will greatly strengthen the city's fire fighting facilities, but it does not help the present situation in the slightest degree. The Legislature defeated the attempt to strengthen the building laws, the department force has not been increased as requested, and the situation is practically the same as it was a year ago, when the Mayor called public attention to the pressing need of greater protection against fire.

IV. THE CAUSE OF THE SHORTAGE OF FIREMEN.

Though the failure to increase the number of firemen in the past year was due to the non-action of the present Mayor and City Council, the primary cause of the shortage was due to the action of previous city governments. As pointed out in the report of the National Board of Fire Underwriters, the allowances for time off and for meal hours has greatly weakened the department force. Prior to December, 1905, such allowances were governed by the department regulations and were controlled by the head of the department; but in that year control of the allowances for time off, and in 1909 control of the allowances for meal hours, was taken away from the Fire Commissioner and both matters were regulated by ordinance.

Politics was the moving cause of both these transfers of the Fire Commissioner's power to regulate the hours of labor in his department, and of the resulting shortage of firemen available for duty. Thus, as a result of the bidding for firemen's votes by rival candidates for the Democratic nomination for Mayor in the fall of 1905, the firemen were given by ordinance one day off in five, instead of one day off in eight as previously given under the regulations of the department. (See Ordinances of 1905, chapter 4.) This action was taken against the Fire Commissioner's protest that the force would be reduced below the actual needs of the service. Likewise, in the desire to secure the political support of the firemen, the 1909 ordinance was passed, requiring that the members should be allowed for meals each day "either three periods of one hour and fifteen minutes each, or two periods of two hours each." This ordinance superseded the department's regulation giving the members an hour for each of three meals a day. (Ordinances of 1909, chapter 11.) This second instance of mischievous meddling with the internal affairs of the department was opposed by the Fire Commissioner, as shown by the following letter:

HEADQUARTERS, FIRE DEPARTMENT;
BOSTON, December 26, 1908.

JOHN T. PRIEST, ESQ., City Clerk,
City Hall, Boston:

DEAR SIR: In reply to your letter of December 22, stating that the Board of Aldermen requests my opinion in regard to the inclosed ordinance, I am

opposed to such an ordinance, which I believe would impair the efficiency of this department, and, in my opinion, is not essential to the welfare of the men.

Yours very truly,
S. D. PARKER, *Commissioner*.

The ordinance was vetoed by Mayor Hibbard, but was passed by the City Council over his veto.

V. REMEDIES FOR EXISTING DEFECTS.

1. There is urgent need for amending the building laws and for extending the area of the present building limits, and an effort should be made to procure suitable legislation in these particulars.

2. There is an obvious need of increasing the fire-fighting facilities of the department, so as to get more men and more apparatus more quickly to a fire than is at present possible. In fire fighting, as in war, success often turns upon getting the largest force in the quickest time to a given point. The Finance Commission believes that the appointment of fifty additional firemen would afford some relief for the present situation, but it thinks this is not all that is required. Means must be provided which will enable the men to get to the fire quicker than is possible with horse-drawn apparatus, such as is now used in the department. At the request of the Finance Commission the Fire Commissioner has made a study of the relative cost and efficiency of horse-drawn and motor apparatus, and has submitted a report with his recommendations, a copy of which is hereto annexed. He recommends that the department be authorized to expend \$200,000 for the purchase of the following motor apparatus:

First.—Fifteen automobile runabouts, to replace fifteen horses and fifteen buggies now used by the District Chiefs, the Superintendent of Repairs and the Superintendent of the Fire-Alarm Branch.

Second.—Three automobile combination wagons to replace six horses, one wrecking wagon and the two supply wagons of the Fire-Alarm Branch and the Repair Division.

Third.—Ten automobile chemical hose wagons to replace twenty horses and ten chemical engines.

Fourth.—Thirteen automobile chemical hose wagons (of sufficient capacity to "service" the high-pressure system in future years if necessary), to replace twenty-six horses and thirteen ordinary hose wagons.

Fifth.—Four automobile ladder trucks to replace twelve horses and four out-of-town ladder trucks.

Sixth.—Two automobile ladder trucks to replace four horses and two chemical engines.

The amount recommended by the Fire Commissioner (\$200,000) is about \$34,000 more than his present estimate of the cost of the new motor apparatus minus the amount which would be received in exchange for the old equipment, but he believes that it would be better to make an appropriation of \$200,000, so as to leave sufficient margin for differences between his estimates and prices that might be offered and also for changes in or additions to his plans. As the estimated net cost is \$166,035, the Finance Commission, however, believes that if \$175,000 be appropriated a sufficient margin will be afforded.

The plan would involve a large capital expenditure which could be justified only by a large increase in the efficiency of the department. The Fire Commissioner believes the expenditure would be justified

by the large gains in efficiency. These gains he sets forth as follows:

First.—The speed of horses responding to an alarm is from twelve to fifteen miles an hour under the best conditions. The automobile will cover more than twice this distance in the same time if necessary.

Second.—It can cover a long distance with the same speed as short ones. This is impossible with horses.

Third.—It is back in quarters quicker than horses and ready to respond to another alarm.

Fourth.—The services of the driver of an automobile are available which is not so with the driver of horses.

The Fire Commissioner does not include in the prospective purchase of motor apparatus gasoline pumping engines, motor water towers, or heavy motor ladder trucks, but confines his recommendations to such apparatus as seems to him clearly to have passed the experimental stage, and to have demonstrated its utility in actual service. He is also certain that his plans can be executed without difficulty in regard to the housing and repair of the new apparatus, or the storage of gasoline, the department's resources being sufficient in his opinion, to provide for these details, and he expects no difficulty in training the present drivers of horses to run the automobile apparatus.

The saving in maintenance resulting from the substitution of motor for horse-drawn apparatus would be at least as much as the Fire Commissioner estimated in his report to the Finance Commission dated August 8, 1911, namely, at the rate of \$50 for one-horse apparatus and \$100 for two-horse apparatus, and probably would be more, as the Fire Commissioner's estimate does not include the cost of repairs of horse-drawn apparatus. Against the saving in maintenance, however, there should be set off the larger capital charges of motor apparatus, distributed over the years of the life of such apparatus, as it costs considerably more than horse-drawn apparatus. If motor apparatus were to be substituted for new horse-drawn apparatus, the total annual increase in expenses would not, in the opinion of the Finance Commission, exceed \$20,000, and probably would not exceed \$15,000; but the horse-drawn apparatus is not new, and much of it would soon have to be replaced at all events, therefore the above estimates of increased expenditures should be somewhat reduced. Assuming, however, that the increase may be as high as \$20,000 a year, the Finance Commission believes it would be entirely justified by results. The department could utilize for service at fires the forty-seven drivers of the new motor apparatus, whereas the service at fires of the drivers of horse-drawn apparatus is forbidden by the department rule requiring such drivers to stand by their horses, and is in fact seldom utilized. This additional service alone would seem to justify the proposed increase in expenses; but when the greatly increased efficiency of the department as a whole is considered, the Finance Commission thinks there can be no doubt whatever of the wisdom of the proposed change.

3. The Fire Commissioner should have greater control over his department than he has at present. He should not be hampered by the political activity of the firemen's organization, exercised either in the Legislature, in the City Council, or with the Mayor; nor by the inelasticity of such ordinances as regulate the time off, or the meal hours of the firemen. These ordinances should be repealed so as to restore his authority to regulate the internal affairs of his own department.

The Finance Commission recommends:
1. A renewal of the efforts to secure legislation amending the building laws and extending the building limits.

2. That the Mayor and City Auditor, acting under section 3 of chapter 486 of the Acts of 1909, transfer from the Reserve Fund to the appropriation for the Fire Department the sum of \$193,000 to be used for the following purposes, viz.: \$18,000 for the salaries for the remainder of the present fiscal year of fifty additional firemen, and \$175,000 for the purchase of the motor apparatus recommended by the Fire Commissioner; or that the Mayor and City Council appropriate from the Reserve Fund, or from taxes, the sum of \$193,000 for the said purposes. It has been customary to provide fire apparatus out of taxes instead of by loans, and the established practice should be followed in this instance. The fact that the apparatus is of the motor instead of the horse-drawn kind furnishes no reason for changing the established financial policy in this respect.

3. Chapter 4 of the Ordinances of 1905 and chapter 11 of the Ordinances of 1909, which regulate the time off and meal hours, respectively, of the firemen, should be repealed, so as to restore the Fire Commissioner's authority over his department.

Respectfully submitted,
THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

APPENDIX.

REPORT OF THE FIRE COMMISSIONER TO THE FINANCE COMMISSION.

HEADQUARTERS FIRE DEPARTMENT,
CITY OF BOSTON,
BRISTOL STREET, BOSTON,
August 8, 1911.

Re Motor Apparatus.

FINANCE COMMISSION,
Tremont Building, Boston, Mass.:

GENTLEMEN,—This department has made a careful study of changing its horse-drawn apparatus to that of motor driven type. The present equipment of the Boston Fire Department has proven up to date an efficient fire stop for both down town and out of town fires. Any replacement of this apparatus necessitates changing from sure protection to untried apparatus whose efficiency under trying conditions may prove problematic. When it is considered that the value of the property protected is \$1,400,000,000 and the number of people served is approximately 1,000,000 the seriousness of any change from present satisfactory conditions can be fully realized. No large city has as yet adopted any material amount of motor apparatus. Small cities, where the conflagration risk is neglected and economy is the essential item, are its chief exponents. It has, therefore, been considered wise to recommend only such motor apparatus as has been tried and proven efficient under all conditions. After a complete investigation the following is recommended:

RECOMMENDATIONS.

It is recommended that \$200,000 be expended by this department for motor apparatus. If this sum is considered excessive the first three subsidiary recommendations involving the sum of \$100,000 should be adopted. It is suggested that this sum might properly be transferred from the reserve.

The recommendations are:
First.—The replacement of all district

chief's buggies and the buggies of the Superintendent of Repairs and the Superintendent of Fire Alarm by automobile runabouts. This involves fifteen horses and buggies.

Second.—The replacement of the present two-horse wrecking wagon and the two two-horse supply wagons of the Fire Alarm Branch and the Repair Division by automobile combination wagons which will be duplicates of the chemical hose wagons and will constitute reliefs for the same. This will involve three wagons and six horses.

Third.—The replacement of the entire chemical engine equipment by automobile chemical hose wagons. This involves ten chemical engines and twenty horses.

Fourth.—The replacement of thirteen ordinary hose wagons by automobile chemical hose wagons of sufficient capacity to serve the high pressure system in future years if necessary. This involves thirteen wagons and twenty-six horses.

Fifth.—The replacement of four out of town ladder trucks by the same number of automobile ladder trucks. This involves four ladder trucks and twelve horses.

Sixth.—The replacement of two chemical engines by automobile ladder trucks. This involves two chemical engines and four horses.

COST OF EXCHANGE.

This entire replacement involves the sale of eighty-three horses, eighty-three harnesses, twelve chemical engines, fifteen buggies, sixteen wagons, and four ladder trucks. Computed at the following prices, which could no doubt be obtained in exchange for new apparatus, the following amount would be received:

Horses, 83 at \$150	\$12,450
Chemical engines, 12 at \$500	6,000
Wagons, 16 at \$100	1,600
Buggies, 15 at \$50	750
Harnesses, 83 at \$5	415
Ladder trucks, 4 at \$500	2,000
	\$23,215

The necessary equipment to replace this apparatus would cost:

Combination hose wagons, 26 at \$5,000	\$130,000
Ladder trucks, 6 at \$5,500	33,000
Runabouts, 15 at \$1,750	26,250
	\$189,250
	23,215
	\$166,035

In order that the purchasing authority may have proper leeway for changes in plans, additions thereto, and changes in prices it would seem best to recommend that \$200,000 be made available for the carrying out of these recommendations.

DIFFERENCE IN MAINTENANCE EXPENDITURES.

To maintain one horse one year in the Boston Fire Department costs \$250. This figure has been obtained by taking the approximate average expenditure for the maintenance of horses for the last five years. These expenditures are made up of bills for the following: hay, grain, straw, shoeing, purchase and exchange of horses, harnesses and repairs, horse hire, attendants at hospital, medicines, etc.

There is considerable difficulty in estimating what would be the maintenance costs of motor equipment in this department. The maintenance costs of smaller cities and towns, in my opinion, are not

reliable. They are based on smaller service mileage such as is not comparable with the work in Boston. Moreover, the manufacturers of motor apparatus make many important repairs without cost at this time. It is reasonable to expect that later these repairs will not be free and will be more numerous.

The cost of Motor Chemical 13 of this department for one year has been \$338. This includes an expenditure of \$100 for spare tires.

In my opinion the maintenance expenditures of motor chemical apparatus would not exceed \$500, or the maintenance expenditure for horse-drawn apparatus. It is possible that the charges would be somewhat less than \$500, but considering the increase in repairs as the car depreciates, the heavy cost of repairs resulting from accidents, and the high cost of maintenance of pleasure cars, and the uncertainty with respect to depreciation, I do not feel that it would be safe to estimate any material and sure saving in maintenance over horse-drawn apparatus. At the same time motor apparatus could unquestionably be maintained for not more than \$500 per piece and there would probably be some saving.

It is not out of the question that this saving would amount to not less than \$50 per horse or \$100 per team. In the case of the larger plan this would amount to \$4,150 per year or the interest on about \$104,000 at 4 per cent. In the case of the smaller plan a saving of \$100 per team would amount to \$2,250 per year or the interest on about \$56,000.

It is apparent that the services of drivers who are paid \$1,200 per year would be available with motor apparatus.

GAIN IN EFFICIENCY.

First. The speed of horses responding to an alarm is from twelve to fifteen miles an hour under the best conditions. The automobile will cover more than twice this distance in the same time if necessary.

Second. It can cover a long distance with the same speed as short ones. This is impossible with horses.

Third. It is back in quarters quicker than horses and ready to respond to another alarm.

Fourth. The services of the driver of an automobile are available which is not so with the driver of horses.

Dorchester, with its large area of wooden buildings, and West Roxbury, rapidly building up in the same manner, needs just such fire service as automobile chemical hose wagons can give. Their speed will enable them in the case of single fires to reach the fires quicker and extinguish it in its incipency. In the case of larger fires they will be enabled to cover long distances at great speed which will be necessary when flying sparks travel from roof to roof.

APPLICATION OF THE NEW EQUIPMENT.

The plans of this department contemplate the installation of motor apparatus in the following houses:

First.—Ten chemical engine companies.

Second.—Fifteen chiefs' buggies.

Third.—Three administration wagons.

Fourth.—Six out-of-town ladder trucks, to wit, Ladders 27, 25, 16 and 6, and ladder trucks in place of Chemical Engines 5 and 6.

Fifth.—The installation of automobile hose tenders in the quarters of Engines 16, 17, 18, 19, 20, 28, 29, 30, 34, 37, 41, 45 and 46.

These wagons are to be built of a sufficient capacity to carry 1,000 feet of 3-inch hose, thereby making them available

for service as high pressure wagons in the down town district if so desired in later years.

SMALLER PLAN.

If the sum of \$200,000 is considered beyond the means of the city for the present, I earnestly recommend that so much of the recommendations as involves the change of horse-drawn chiefs' buggies and chemical engines to motor driven be adopted. The smaller plan includes the first three recommendations with the exception that there will be twelve chemicals. The figures involved are:

Sale of present equipment:	
Horses, 45 at \$150	\$6,750
Harnesses, 45 at \$5	225
Buggies, 15 at \$50	750
Wagons, 3 at \$100	300
Chemical engines, 12 at \$500	6,000
	\$14,025

Cost of new equipment:	
Runabouts, 15 at \$1,750	\$26,250
Chemical engines, 15 at \$5,000	75,000
	\$101,250

The difference in maintenance: Possible saving of \$2,250 per year.

Estimated net sum for smaller plan, \$100,000.

NOT RECOMMENDED.

It has not seemed wise to recommend the purchase of gasoline pumping engines for the following reasons:

First.—It has not yet been proven that the gasoline pumping engine can maintain a capacity of 700 gallons per minute for a material length of time.

Second.—Purchases of these engines up to date have been in the nature of experiments. Boston with its heavy fire risk cannot afford to experiment in any large degree with the most important part of its equipment, the pumping engine.

Third.—No large city has as yet done more than buy an experimental gasoline engine.

Fourth.—It is very questionable as to whether a motor drawn steam boiler, such as is in service in New York, may not prove a more satisfactory type than the single piece gasoline pumping engine and hose cart.

It is possible that later a gasoline driven engine may be perfected that will pump with reliability over 700 gallons and which will also carry 1,000 feet of hose and ten men. For the present I am of the opinion that there is no such engine. Should it be developed the economies possible will not be lessened by the adoption of these recommendations.

In my opinion the city should not proceed beyond the purchase of a single experimental engine which could be made from department funds.

On similar grounds no purchase of motor water towers or heavy ladder trucks should be made. Up to date there has been but one motor water tower in existence in this country, and that but a very short time. There are very few heavy motor ladder trucks. Considering the supreme necessity of maintaining the efficiency of these fire fighting machines, as well as the pumping engines, it seems wise to delay any action with respect to this apparatus for the present.

CONCLUSION.

I desire to call your attention to the fact that this department has recommended only such equipment as has been tried and proven reliable. The proposed increase in efficiency will apply to a great

extent to Dorchester and West Roxbury. These sections of the city will greatly benefit by fast moving chemical wagons. The recommendations have involved a sum of money which might justly be expended from the reserve if it is proposed to maintain the Fire Department of the city on an up-to-date basis.

Very respectfully,

CHARLES D. DALY,
Fire Commissioner.

UNIVERSITY EXTENSION COURSES.

The following courses of lectures have been arranged with the Art Museum for the coming winter by the Committee on Extension Courses:

1. Moslem Art and Civilization. Illustrated lectures, reading, and written work, and the study of objects in the museum. Monday and Wednesday at 4 p. m. (Quarter course, first half-year.) Mr. Garrick M. Borden of Harvard University. Fee, \$2.50.

This course takes up the art and civilization of Persia, Turkey, Moslem India, Egypt, North Africa and Spain, and is planned to interest the following classes of students:

(1.) For the teacher of history the points of contact between the east and west will be noted; the Crusades, the Spanish Caliphate, the Saracens in Sicily, the relations of Venice with the Eastern Empire and the Turks, the preservation of Greek learning by the Arabs and its transmission through them, though in a changed form, to Western Europe.

(2.) For the student of life and manners various objects of Moslem art, such as manuscripts, textiles, metalwork, and pottery will be studied, not only as objects of artistic importance, but from the point of view of the handicrafts; the processes of their production will be described, and their use in the affairs of daily life and religion explained.

(3.) For the student of literature the connection between Moslem literature and art will be shown by photographs of the Makamat of Hariri and its Arabic miniatures, and, best of all, by the texts of later Persian poets illustrated by numerous miniatures.

(4.) For the student of the history of art there will be a consideration of the various objects of Moslem art from the point of view of origins, chronology and classifications.

(5.) For the student of architecture attention will be directed to the five great schools of Moslem architecture: (1) Syria and developments in Egypt; (2) North Africa and its near neighbor, Moorish Spain; (3) the Turkish Imperial Mosques derived from Santa Sophia; (4) the original constructive architecture of Persia; (5) the architecture of Moslem India derived from Persia.

(6.) For the artist and the critic special study will be given to those objects which are generally considered the highest achievements in the field of Moslem art. An attempt will be made to define what constitutes the distinctive excellence of Moslem art, the art of the Nearer Orient.

This course will be illustrated by lantern slides, by photographs and plates, but especially by means of original works of Arabic and Persian art belonging to the museum. A list of collateral readings will be furnished for those who desire to receive credit for the course, and a reservation of books will be made in the Boston Public Library.

2. The Mythology of Greece and

Rome, with special reference to its influence on European literature. Lectures, reading, and written work, and the study of objects in the museum. Monday and Wednesday at 4 p. m. (Quarter course, second half-year.) Dr. Arthur Fairbanks, Director of the Museum of Fine Arts, and an assistant. Fee, \$2.50.

This course is intended primarily for teachers of English literature and of other modern literatures. It will include exercises in the study of myths as represented in the Greek vases and other works of art in the museum.

Application blanks for these courses may be obtained at the museum, or by writing to the Commission on Extension Courses, 19 University Hall, Cambridge.

COPIES A BOSTON IDEA.

The new Social Research Council of Boston is a central clearing house for the forty or more local institutions engaged in social research, and is the headquarters for information as to work completed or in progress. This council is part of the general movement to prevent unnecessary duplication of effort in all present-day work. Its survey of local investigations includes amusement and recreation, child welfare, education, health and sanitation, housing and topics pertaining to labor and to conditions in homes.

Similar work is being carried on in Kansas City, Mo., by the city's Board of Public Welfare, which is correlating the various remedial activities of the city, and is undertaking a general social survey. The five members of the Board are appointed by the mayor, and serve without pay.

To relieve the distress of families whose supporting members have, on account of violations of city ordinances, been placed in the workhouse, the Board of Welfare has arranged to turn over to such families sums of money apportioned according to the work done by the prisoners. More than \$600 per month is collected from paroled prisoners outside the workhouse and is turned over to their families. There are now about 100 prisoners on the Board's farm, which covers 130 acres about eight miles from the city center, and the results have been very satisfactory.

The Board supervises public dances, moving picture shows and theatrical performances.

MUNICIPAL LODGING HOUSE FOR WORKING GIRLS.

BERLIN, GERMANY.—A municipal boarding house for working girls is projected by the Town Council of Rixford, one of the boroughs of Greater Berlin. A lady who desires to remain unknown has offered to subscribe \$25,000 toward the cost of erecting the building, on condition that the municipality gives the necessary plot of land and undertakes the supervision of the management. The scheme has been favorably viewed by the Rixford Town Council, which has appointed a committee to work out the details. It is proposed to erect a home where 300 girls can live and obtain their meals at a minimum expense. Only girls who are earning their own living and who have no parents in Greater Berlin will be admitted to the home. As there is a great demand for agreeable homes for girls who are earning their own living, the Association of Female Commercial Employees of Greater Berlin, which has a membership roll of 30,000, has addressed a letter to the Rixford Town Council, expressing the hope that the proposed boarding house

will be built with all possible speed. Although there are many forms of municipal enterprise in Germany, this will be the first municipal hotel.—*Municipal Journal*.

BOSTON'S PARKS AND PLAYGROUNDS.

Number of large parks, 24; playgrounds, 23; small parks and squares, 55; total area, 2,534 acres; total value, \$60,374,600, which far exceeds that of any other American city except New York.

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN FREEPORT STREET AND CONLEY STREET.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for pipe sewers and drains in Freeport street, from Conley street, 110 feet northerly, and in Conley street from Norwood street, 100 feet easterly, Dorchester, and giving bond therefor of a surety company approved by the commissioner in the sum of two hundred dollars (\$200) to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewer in Freeport and Conley Streets," and left at Room 57, fourth floor, City Hall, before 12 m. on Friday, August 25, 1911, with a certified check for one hundred dollars (\$100), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, August 17, 1911. (Aug. 19.)

CITY OF BOSTON.

PROPOSALS FOR BUILDING CATCH-BASINS AND DRAINS.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for building catch-basins and drains in South Roxbury and Dorchester, and giving bond therefor of a surety company approved by the commissioner in the sum of fifteen hundred dollars (\$1,500) to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Building Catch-basins in South Roxbury and Dorchester," and left at Room 57, fourth floor, City Hall, before 12 m. on Friday, August 25, 1911, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, August 17, 1911. (Aug. 19.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Public Grounds Department of the City of Boston invites sealed proposals for soil work, renovation and regrading on Boston Common, and giving bond of a surety company therefor in the sum of \$10,000. Only proposals obtained at the office of the superintendent, city greenhouses, East Cottage street, signed by the bidder and left there before 12 o'clock m. of Friday, September 1, 1911, at said office, with a certified check for \$1,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. No bid will be received until after samples of the soil and manure have been submitted to the landscape architects at the office of the superintendent, and approved by them. The superintendent reserves the right to reject any and all proposals and to award the contract as he deems for the best interest of the City.

D. H. SULLIVAN,
Superintendent of Public Grounds.

Boston, August 5, 1911. (Aug. 19.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR STONY BROOK, SECTION 8.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for building Section 8 of the Stony brook conduit, extending 940 feet, more or less, from a point in Hyde Park avenue, 75 feet, more or less, southwesterly of Tower street, and connecting with the existing Stony brook channel, in West Roxbury, together with appurtenances, and giving bond therefor of a surety company approved by the commissioner in the sum of twenty-five thousand dollars (\$25,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Building Stony Brook Conduit, Section 8," and left at Room 57, fourth floor, City Hall, before 12 m. on Monday, August 28, 1911, with a certified check for five thousand dollars (\$5,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, Aug. 3, 1911. (Aug. 19.)

CITY OF BOSTON.

PROPOSALS FOR CLEANING CATCH-BASINS.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for cleaning catch-basins in the following districts: No. 1, South Boston, about 200 basins; No. 2, East Boston, about 200 basins; No. 3, Charlestown, about 200 basins; No. 4, Brighton, about 200 basins; No. 5, West Roxbury, about 300 basins; No. 6, Dorchester, about 300 basins; district south of and not including Dover and Berkeley streets, about 500 basins, and giving bond therefor of a surety company approved by the commissioner in the sum of five hundred dollars (\$500), for each district to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Cleaning Catch-basins," and left at Room 57, fourth floor, City Hall, before 12 m. on Tuesday, August 29, 1911, with a certified check for three hundred dollars (\$300), for each district, payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, August 17, 1911. (Aug. 19.)

CITY OF BOSTON.

PROPOSALS FOR INSTALLING HOT WATER SUPPLY, ETC., AT THE COURT HOUSE, PEMBERTON SQUARE, BOSTON.

The Superintendent of Public Buildings of Boston, Massachusetts, invites proposals for installing hot water supply, etc., for the Registry of Deeds at the Court House, Pemberton Square, Boston, according to specifications and giving a bond therefor of a surety company satisfactory to the superintendent in the sum of \$500. Only proposals obtained at the office of the Superintendent of Public Buildings, 100 Summer street, Boston, filled out, signed by the bidder and left before 12 o'clock noon of Thursday, August 31, 1911, at said office, with a certified check on a Boston bank for \$200, payable to and to be the property of the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. Proposals must be placed in envelopes, properly sealed, and marked "Proposal for Hot Water Supply." The bid must be made in duplicate, the one with the check to be left as above, the duplicate without the check to be deposited with the City Auditor, City Hall, Boston, previous to the time named for opening of bids. The undersigned reserves the right to reject any and all proposals or to award the contract as he deems best for the city's interest.

M. J. FISH,
Superintendent of Public Buildings.
(Aug. 19-26.)

CITY OF BOSTON.

PROPOSALS FOR EDGESTONES, GUTTERS, CROSSEWALKS AND ARTIFICIAL STONE SIDEWALKS.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for edgestones, gutters, crosswalks and artificial stone sidewalks in Bradshaw street, between Charlotte and Glenway streets, Dorchester, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder, and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Wednesday, August 30, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Edgestones, Gutters, Crosswalks and Sidewalks in Bradshaw Street."

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, August 17, 1911. (Aug. 19.)

CITY OF BOSTON.

TO MASON CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for paving yard, etc., Minot School, Neponset avenue, Dorchester, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Wednesday, August 23, 1911, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.
August 19, 1911. (Aug. 19.)

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for moving portable school buildings to new locations in various parts of the city, and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Wednesday, August 23, 1911, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.
August 19, 1911. (Aug. 19.)

CITY OF BOSTON.

AUCTION SALE OF LAND IN DORCHESTER.

The Board of Street Commissioners of the City of Boston announces the sale at public auction of 9,984 square feet of land located on the northeast corner of Dorchester avenue and Gibson street, Ward 20, to be held on the premises Thursday, August 31, at 3.30 p. m. The lot has a frontage of 75 feet on Dorchester avenue, of 134.26 feet on Gibson street, and on the corner of these streets, 31.84 feet. It is situated close to Field's Corner and is adapted for the erection of store, apartment or garage property. A deposit of \$200 in cash, certified check or savings bank draft, will be required at the time of sale and the balance in fifteen days. For further particulars and plans apply to JOHN C. KILEY, 18 Tremont street, or to the auctioneer, D. J. DALY, 39 Savin Hill avenue, Dorchester.
(Aug. 19-26.)

CITY OF BOSTON.

PROPOSALS FOR LAYING WATER PIPE.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for laying 2,300 feet of 12-inch water pipe in Commercial street, city proper; and giving bond therefor of a surety company approved by the commissioner in the sum of twelve hundred dollars (\$1,200) to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Laying Water Pipe," and left at Room 49, City Hall, before 12 m. on Friday, August 25, 1911, with a certified check for eight hundred dollars (\$800), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, August 17, 1911. (Aug. 19.)

CITY OF BOSTON.

PROPOSALS FOR ASPHALT PAVEMENT.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing asphalt pavement in Auburn street, between Poplar and Leverett streets, city proper, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Tuesday, August 29, 1911, with a certified check for one thousand dollars (\$1,000), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Asphalt Pavement in Auburn Street."

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, August 17, 1911. (Aug. 19.)

CITY OF BOSTON.

PROPOSALS FOR IRON SCREENS IN CROSS GALERIES, CALF PASTURE PUMPING STATION.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for furnishing and erecting cast-iron screens in cross galleries as shown on three plans numbered 4421, 4422 and 4423 Calf Pasture Pumping Station, Dorchester, and giving bond therefor of a surety company approved by the Commissioner to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Iron Screens in Cross Galleries, Calf Pasture Pumping Station," and left at Room 57, fourth floor, City Hall, before 12 m. on Tuesday, August 29, 1911, with a certified check for three hundred dollars (\$300), payable to, and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, August 17, 1911. (Aug. 19.)

CITY OF BOSTON.

PROPOSALS FOR FLOUR.

The Penal Institutions Commissioner invites proposals to supply the House of Correction, Deer Island, with 300 barrels, more or less, of hard wheat flour, and to furnish a bond in a surety company of \$500, if required by the commissioner. Said flour to be delivered on or before September 15, 1911, on board the steamer "Monitor" at Eastern Avenue Wharf, Boston, Mass. Specifications and sample of the grade as the standard may be obtained at office of the Penal Institutions Commissioner, 32 Tremont street. Proposals will be received until August 24, 1911, at 12 m., when the same will be publicly opened. The commissioner reserves the right to reject any or all bids. A duplicate of bid must be filed with City Auditor at or before same time.

FRED S. GORE,
Commissioner.
(Aug. 19.)

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, AUGUST 26, 1911.

NO. 34

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

BY SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 45, CITY HALL, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, September 11, at 2 o'clock p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

For the week ending Thursday, August 17, 1911:

John Gallagher, fireman, $\frac{5}{8}$ day at \$2.83, \$1.77; John H. Sullivan, oiler, $1\frac{1}{2}$ days at \$2.83, \$3.89; Frank M. Donohue, fireman, $\frac{3}{4}$ day at \$2.83, \$2.12; John F. Driscoll, fireman, 1 day at \$2.83, \$2.83; Jeremiah P. Casey, engineer, 1 day at \$4.22, \$4.22; Henry T. McConnell, fireman, 1 day at \$2.83, \$2.83.

Public Works Department (Paving Service).

For the week ending Thursday, August 17, 1911:

Thomas Sullivan, watchman, 1 day at \$2.25, \$2.25; Frank J. Leslie, watchman, 1 day at \$2.25, \$2.25; Francis Griffin, watchman, 1 day at \$2.25, \$2.25; John Kelly, 2d, watchman, 1 day at \$2.25, \$2.25; Jeremiah T. Donahue, laborer, 1 day at \$2.25, \$2.25; Timothy F. Leonard, laborer, 1 day at \$2.25, \$2.25; John Moore, 2d, laborer, 1 day at \$2.25, \$2.25; John W. Green, laborer, 1 day at \$2.25, \$2.25; Patrick Vericher, stableman, 1 day at \$2.25, \$2.25; John Welch, watchman, 1 day at \$2.25, \$2.25; Timothy J. Murphy, laborer, 1 day at \$2.25, \$2.25; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50.

Public Works Department (Sanitary Service).

For the week ending Thursday, August 17, 1911:

W. V. Quinn, inspector, 1 day at \$3, \$3; James J. Shea, stableman, 1 day at \$2.50, \$2.50; J. J. Farrell, inspector, 1 day at \$3, \$3; L. O. Cloudman, inspector, $\frac{1}{2}$ day at \$3, \$1.50; P. J. McNulty, inspector, $\frac{1}{2}$ day at \$3, \$1.50; C. J. Scanlan, inspector, $\frac{1}{2}$ day at \$3, \$2.25; R. Welch, inspector, $\frac{1}{2}$ day at \$3, \$1.50; P. Geoghan, inspector, $\frac{1}{2}$ day at \$3, \$1.50; E. J. Noonan, inspector, 1 day at \$3, \$3; J. J. Dolan, inspector, 1 day at \$3, \$3; M. J. O'Brien, stableman, 1 day at \$2.25, \$2.25; Patrick Carney, broomman, 1 day at \$2.25, \$2.25; Gaetano Lamano, broomman, 1 day at \$2.25, \$2.25; Sylvester McCarthy, helper, 1 day at \$2.25, \$2.25; Thomas Slowe, helper, 1 day at \$2.25, \$2.25; Dennis Cronon, watchman, 1 day at \$2.25, \$2.25; P. McGonagle, teamster, 1 day at \$2.25, \$2.25; Dennis Connor, broomman, 1 day at \$2.25, \$2.25; A. J. Spellman, broomman, 1 day at \$2.25, \$2.25; F. E. Taylor, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; P. O'Toole, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; W. McGlynn, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; T. Curran, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; J. Gallagher, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; J. S. Plunkett, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Patrick Flynn, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Sewer Service).

For the week ending Thursday, August 17, 1911:

R. F. Ritchie, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; Joseph P. Crotty, laborer, 1 day at \$2.75, \$2.75; W. A. Moore, inspector, $\frac{1}{2}$ day at \$5, \$2.50; R. V. Quirk, inspector, 2 days at \$3.50, \$7; T. J. Gunning, inspector, $2\frac{1}{2}$ days at \$3.50, \$7.72; Oscar C. Holden, teamster, 1 day at \$2.25, \$2.25; P. J. Hartigan, teamster, 1 day at \$2.50, \$2.50; Michael McMahon, laborer, 2 days at \$2.25, \$4.50; John McCarthy, laborer, 2 days at \$2.25, \$4.50; John Galvin, laborer, 1 day at \$2.25, \$2.25; Charles

McCarey, laborer, 1 day at \$2.25, \$2.25; Michael Sheridan, laborer, 1 day at \$2.25, \$2.25; James Waters, laborer, 1 day at \$2.25, \$2.25; Timothy Leary, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Fred A. J. Corcoran, laborer, 2 days at \$2.25, \$4.50; Patrick Clougherty, laborer, 2 days at \$2.25, \$4.50; Lawrence McNamara, laborer, 1 day at \$2.25, \$2.25; Martin Kelly, laborer, 1 day at \$2.25, \$2.25; Daniel Hart, laborer, 1 day at \$2.25, \$2.25; John Guinee, laborer, 1 day at \$2.25, \$2.25; Daniel Murphy, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Water Service).

For the week ending Thursday, August 17, 1911:

Thomas Lavery, laborer, 1 day at \$2.25, \$2.25; John Doherty, 2d, emergencyman, $\frac{3}{4}$ day at \$2.50, \$0.94; Daniel Fallon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael Grady, emergencyman, $\frac{3}{4}$ day at \$2.25, \$0.84; Daniel J. Heffernan, emergencyman, 1 day at \$2.25, \$2.25; David Leo, teamster, $1\frac{1}{2}$ days at \$2.25, \$2.53; James Logue, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; P. J. Lynch, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Charles J. McKenna, emergencyman, $\frac{3}{4}$ day at \$2.25, \$0.84; William Smyrle, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John H. Finnerty, carpenter, $1\frac{1}{2}$ days at \$3.50, \$4.59; Thomas Hannon, helper, $1\frac{1}{2}$ days at \$2.25, \$2.95; Daniel W. Lyons, carpenter, $1\frac{1}{2}$ days at \$3.50, \$4.59; P. J. Lawless, helper, $\frac{1}{2}$ day at \$2.25, \$0.56; James D. Morrissey, plumber, $\frac{1}{2}$ day at \$3, \$0.75; Lawrence A. Hillary, laborer, 1 day at \$2.50, \$2.50; John Concannon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.27; Peter Halligan, laborer, $\frac{3}{4}$ day at \$2.25, \$0.84; John McNulty, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.52; John Farrell, laborer, 1 day at \$2.25, \$2.25; Daniel McLaughlin, laborer, 1 day at \$2.25, \$2.25; Martin H. Connolly, laborer, 1 day at \$2.50, \$2.50.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending August 24, 1911:

SCHOOLHOUSE DEPARTMENT.

On August 24 the Mayor approved a contract with John McCourt & Co. for paving the yard of the Mt. Vernon Street School. Bids on this work, opened August 11, were as follows:

John McCourt & Co., \$1,590; Fred E. Bowes, \$1,833.25; D. M. Biggs & Co., \$1,915; West Roxbury Trap Rock Company, \$6,995.

The Mayor has also approved a contract with D. M. Biggs & Co. for paving the yard of the Henry L. Pierce School. Bids on this work, opened August 11, were as follows:

D. M. Biggs & Co., \$1,159; John McCourt & Co., \$1,250; Fred E. Bowes, \$12,000; this latter figure is probably an error of the bidder intended for \$1,200.

PUBLIC BUILDINGS DEPARTMENT.

The Mayor has approved a contract with Thomas A. Elston & Co. for the razing and removal of the Old Court House. As originally awarded the contract provided for the payment to the city by the contractor of the sum of \$500 for the old building, including the portico or front. Later the Mayor decided that the portico was of such historic value as to warrant its being retained by the city. Under this arrangement, for which provision

was made in the original contract, the city will pay \$2,000 for the work. Bids, opened August 4, were as follows:

	Remove Entire Building.	Remove Building, Preserving the Portico.
Thomas A. Elston & Co.....	\$500 00*	\$2,000 00
Louis W. Reyeroft.....	1,000 00	7,500 00
Elston & Swift.....	2,775 00	4,775 00
M. Angel.....	3,000 00	1,800 00
A. J. Gadbois.....	4,300 00	4,450 00
Ryan Construction Company.....	4,300 00	5,900 00
Samuel Dubinsky.....	4,474 00	5,900 00

*The \$500 proposition of Thomas A. Elston & Co. is one in which they propose to pay to the city the said amount for the building, etc. The other propositions are that the various amounts be paid by the city to the respective parties.

PUBLIC WORKS DEPARTMENT (Paving Service).

On August 24 the Mayor approved the contract of William J. Rafferty Company for macadam roadway in Frost avenue, between Boutwell and Fairview streets, Dorchester. Bids on this work were opened July 29, 1911, and were as follows:

William J. Rafferty Company, \$2,923.31; F. S. and A. D. Gore Corporation, \$3,107.50; D. E. Lynch, \$3,415; J. C. Coleman & Sons Company, \$4,000.50. Engineer's estimate, \$3,800, which includes stock furnished by the city, engineering, etc.

PUBLIC WORKS DEPARTMENT (Sewer Service).

On August 24 the Mayor approved the contract of Charles J. Jacobs Company for pipe sewers and drains in Hunnewell avenue, between Atkins and Newton line and in Burton street, between Washington street and point 200 feet northeast of Hunnewell avenue, Brighton. Bids on this work were opened August 11, 1911, and were as follows:

Antony Cefalo, \$4,823.30; C. J. Jacobs & Co., \$3,966.85; D. E. Lynch, \$6,882.80; R. J. Young & Co., \$4,701.10; John McCourt, \$5,279.50; George J. Regan, \$4,883.15; A. M. Cusack, \$5,211.25; M. De Sisto & Co., \$5,084.35; Murphy & Dolan, \$5,062.25.

Engineers' estimate, \$5,002.80.

On August 24 the Mayor approved the contract of R. Cartullo for pipe sewers and drains in Rockway street, between Rexford street and Chester street, Dorchester. Bids on this work were opened August 5, 1911, and were as follows:

Daniel De Pietro, \$1,095.52; Antony Cefalo, \$1,084.29; John T. Shea, Jr., \$1,295.31; Daniel E. Lynch, \$1,156.40; R. Cartullo, \$983.05; George J. Regan, \$1,036.13; Charles J. Jacobs Company, \$1,520.02.

Engineers' estimate, \$1,047.67.

On August 24 the Mayor approved the contract of Charles J. Jacobs Company for pipe sewer and drain in Perthshire road, between point 90 feet west of Bigelow street and point 70 feet east of Atkins street, Brighton. Bids on this work were opened July 22, 1911, and were as follows:

George J. Regan, \$656.98; John McCourt & Co., \$1,037.15; Charles J.

Jacobs Company, \$474.45; Antony Cefalo, \$828.08; De Christoforo & De Stefano, \$616.31; R. J. Young & Co., \$711.56; D. E. Lynch, \$717.36; R. Cartullo, \$521.93.

Engineers' estimate, \$575.25.

Item 51 changed to \$23, and item 52 changed to \$18.

WITHOUT ADVERTISING.

The Mayor has approved the following requests of departments to do work with the department forces without advertising, and also additions to and deductions from contracts:

PARK DEPARTMENT.

The Park Department recently advertised for bids for a supply of loam to be placed on the Back Bay Fens, but were compelled to reject all proposals as too high or because of unsatisfactory sample of loam. In view of these facts the Mayor has granted to the commission authority to open a dump and offer \$1 per cubic yard for loam. In making request, the commission states:

"The Park Commission has an appropriation for placing loam on the Fens and is very anxious to do this now, so that grass may be planted this fall and the neat appearance be restored. We have obtained bids for loam as follows:

"Jacobs, \$1.10; Norton, \$1.27; Noon, \$1.40; Coleman, \$1.85; McCourt, \$1.90.

"The loam offered by the lowest bidder has been inspected and found unsatisfactory and apparently could not be delivered with any promptness, and other bidders are much higher in price. We desire to reject all bids and open a dump and offer \$1 per cubic yard for loam. As the total outlay might exceed such an expenditure as we can make without competition we ask your approval of this course."

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for bids in competition:

Resurface with macadam Millet street, from Athelwold street to Talbot avenue, the estimated cost for labor and materials being \$2,050.

Resurface with macadam and construct crushed stone sidewalks, Williams street, from Washington to Forest Hills streets, the estimated cost for labor and materials being \$3,000.

Furnish and lay macadam roadway, Mendum street, from Walter to Fairview streets, the estimated cost for labor and materials being \$1,650.

"This is maintenance work and can, in my opinion, be done as advantageously by day-labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor.

PARK DEPARTMENT.

In the contract with the Carroll Construction Company, for the Aquarium Building a change is made substituting bricks for hollow blocks in certain walls, the Park Commission considering brick a better material for this purpose.

No change in price.

In the same contract a change is made substituting concrete piles for wooden piles and Celadon tiles for those specified, the commission finding that by this change it can avoid an extra for cutting piles at a lower depth than the contract names, and being advised and believing that the change is desirable.

No change in price.

An addition, amounting to \$255, in the contract with John A. Rooney for the bears' dens on Franklin Field, for decreasing the length of wall to be built at Cage No. 4, 15 feet, and increasing the height of all of the walls except in front of the dens and at the southeasterly corner of Cage No. 3. Original contract, \$11,445; total addition, \$255; contract as standing, \$11,700.

Additions and deductions in the contract with Smith & Lovett for the bears' dens, amounting to a net addition of \$994.89.

"The prices which are given opposite items of this order are the amounts to be added to or deducted from the contract price, on account of the changes ordered:

- a. Make the horizontal members of the cage $\frac{1}{2}$ inch by $2\frac{1}{2}$ inches, instead of $\frac{1}{4}$ inch by $2\frac{1}{2}$ inches; for which a reduction of \$67.13 is to be made.
- b. Make the intermediate vertical members $2\frac{1}{2}$ inches by $1\frac{1}{2}$ inches, instead of $2\frac{1}{2}$ inches by $1\frac{1}{4}$ inches; for which an addition of \$13.50 will be made.
- c. Provide one additional horizontal member in all the cage fences and in the division fence, making four horizontal members in all, instead of three. This additional horizontal member is to measure $\frac{1}{2}$ inch by $2\frac{1}{2}$ inches; for which an addition of \$114.72 will be made.
- d. Reduce the number of bars in each cage fence (not the division fence) by making the spacing of bars 5 inches on center instead of 4 inches on center; for which a reduction of \$88.86 will be made.
- e. Reduce the number of bars in the lower panel of the division fence by making the spacing of the bars $2\frac{1}{2}$ inches on center instead of 2 inches on center; for which a reduction of \$41.91 will be made.
- f. Increase the number of bars in the upper panel of the division fence by making the bars $2\frac{1}{2}$ inches on center instead of 4 inches on center; for which an addition of \$126.36 will be made.
- g. Increase the number of teasers in the division fence by bending first to one side and then to the other each of the bars, which are to be spaced $2\frac{1}{2}$ inches on center instead of 4 inches on center; for which an addition of \$49.14 will be made.
- h. Provide a continuous external spreader $2\frac{1}{2}$ inches by $\frac{1}{2}$ inch for all teasers of the wall and division fence; for which an addition of \$149.60 will be made.
- i. Provide a continuous internal spreader 2 inches by $\frac{1}{2}$ inch, buried in the concrete, for all teasers of the wall; for which an addition of \$92.40 will be made.
- j. Reduce the number of wall teasers from a total of 1,500 to a total of 1,350; for which a reduction of \$46.50 will be made.
- k. Provide sockets in the concrete work $3\frac{1}{2}$ inches in internal diameter and 3 feet long to receive the ends of the vertical members of all fences. The sockets should be large enough to receive these verticals, with ample space for filling the intermediate joint with a grout of Portland cement. The top of these sockets must be flush with the top of the concrete. Above the socket and inclosing the base of the vertical member is to be arranged a cast-iron galvanized base piece intended to make a finish to cover the ends of the sockets; for which an addition of \$144.25 will be made.
- l. Set galvanized iron sockets for the intermediate blockings under the middle of all fence panels; for which an addition of \$85 will be made.
- m. Provide nine (9) foot gates 3 feet 6 inches wide in the barrier fence. These gates are to have hinges and a padlock hasp, together with one brass padlock, each secured to the fence with a chain riveted on. The gates are to have a frame on all edges and are to be provided with forged hinges hung on tap screws. The padlocks are to be the regulation "schoolhouse gate padlock." A post is to be provided at each side of the gate; for which an addition of \$162 will be made.
- n. Change the construction of the hood by using a 15-inch channel iron to receive the vertical members of the fence under the middle of the hood. Holes are to be drilled through the channel line about 4 feet apart to allow

water leaking into the hood or water condensed there to escape. The angle irons connecting the channel with the hood are to show on the under side of the hood and must be very uniform and neatly riveted with all joints very close. No change in the contract price will be made on account of this change in the work.

- a. Reduce the thickness of the hood by making the metal $\frac{1}{2}$ inch thick instead of $\frac{3}{4}$ inch; for which a reduction of \$584.43 will be made.
- p. Omit the six rounded portions of the hood ends; for which a reduction of \$60 will be made.
- q. Extend each of the four hood extremities,—H. A. K. M. an amount equal to 6 lineal feet over the top of the stone wall adjoining these ends, making a total hood extension at these points of 24 lineal feet; for which an addition of \$186.24 will be made.
- r. Extend each of the two hood extremities at the points E. and D. an amount equal to 5 lineal feet to the angle of the wall, thence turning at an angle of 90 degrees and running 8 feet farther along the top of the wall, making 26 lineal feet of extra hood at these two points; for which an addition of \$252.20 will be made.
- s. Increase the average height of the cage fence in cage No. 1 to 11.13 feet; for which an addition of \$39.07 will be made.
- t. Increase the average height of the cage fence in cages Nos. 2 and 3 to 11.4 feet; for which an addition of \$73.34 will be made.
- u. Increase the average height of the cage fence in cage No. 4 to 11.5 feet; for which an addition of \$50.60 will be made.
- v. Construct the division fence of an average height of 10 feet. No change in the contract price will be made on account of this change in the work.
- w. Provide two (2) sheet metal doors, with stiffeners in each shelter den to take the place of two of the barred doors, the latter being omitted; for which an addition of \$40 will be made.
- x. Omit the extra sheet metal door; for which a reduction of \$20 will be made.
- y. Provide two extra shelter den barred doors (frames, pulleys, ropes, etc., are not to be provided for these doors); for which an addition of \$20 will be made.
- z. Use X galvanized iron pipe, having a 2-inch internal diameter; for which an addition of \$43.20 will be made.
- aa. Galvanize the lower ends of all vertical supports of the cage fence, division fence and barrier fence. The galvanizing is to begin at the lower ends of these members and is to extend 12 inches above grade (none of the horizontal members, none of the cage bars and no portion of the hoods are to be galvanized); for which an addition of \$206 will be made.
- bb. Galvanize the blocks which are to be placed under the middle panels of all fences; for which an addition of \$56.10 will be made."

Original contract, \$7,700; total additions, \$1,903.72; total deductions, \$908.83; net addition, \$994.89; contract as standing, \$8,694.89.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$2,345, on the contract with F. G. Whittaker for moving portable schools, for moving the following buildings:

No. 6, from Hyde to O. W. Holmes, \$590; No. 88, from Hyde to W. E. Endicott, \$575; No. 50, from Hyde to Marshall, \$595; No. 28, from Asa Gray to Marshall, \$585. Contract price, \$1,835; total additions, \$2,345; amount of contract as standing, \$4,180.

On July 21 the Schoolhouse Commissioners opened bids for the moving of portable buildings to new locations in response to an advertisement in the *City Record* of July 15, 1911; F. G. Whittaker was low bidder, and with the following result:

For moving building No. 4, \$630; for moving building No. 18, \$625; for moving building No. 6, \$590; for moving building No. 88, \$575; for moving building No. 50, \$595; for moving building No. 28, \$585 for moving building No. 31, \$580.

There being some question as to the location of some of the buildings the Board awarded a contract to Mr. Whittaker for the moving of Nos. 4, 18 and 31, with the understanding that as soon as the Board knew definitely the new locations, the remaining buildings would be moved and

the cost of the same as per the above proposal would be added to his contract. This order of addition covers the moving of the remainder of the buildings.

A deduction, amounting to \$250, on the contract with Pierce & Cox for the Quincy School for the omission of allowance to cover cost of fire insurance. Contract price, \$9,717; total deductions, \$250; amount of contract as standing, \$9,467.

An addition, amounting to \$50, on the contract with William Crane for addition to West Roxbury High School, for building board walk in attic space from corridor to flagstaff. Contract price, \$11,518; total additions, \$50; amount of contract as standing, \$11,568.

An addition, amounting to \$65, on the contract with D. F. Burke for the James A. McDonald School for furnishing and hanging additional burlap in passageways and in emergency toilet. Contract price, \$23,500; total additions, \$148.60; total deductions, \$78.80; amount of contract as standing, \$23,569.80.

An addition, amounting to \$38.05, on the contract with C. S. Cunningham & Sons Construction Company for the John Lothrop Motley School for installing toilet vent flues, \$30, and changing location of radiator, \$8.05. Contract price, \$23,320; total additions, \$366.05; total deductions, \$1,288; amount of contract as standing, \$22,398.05.

An addition, amounting to \$42, on the contract with the John F. Griffin Company for the enlargement of the Girls' High School for increasing thickness of wall under rafters on Pembroke street side; and an addition, amounting to \$113, for inserting stone sills, first story windows, on Pembroke street side; and a deduction, amounting to \$100, for omission of work to be done on old elevator to be done by the city; net addition, \$55. Contract price, \$89,122; total additions, \$140; total deductions, \$1,864; amount of contract as standing, \$87,398.

An addition, amounting to \$193.50, on the contract with Thomas H. Hanlon for the Hobart Street School, made up of \$38.50 for furnishing and installing new water-closet complete; \$20 for cutting out partitions; \$60 for changing location of teachers' water-closet, building steps, transferring skylight and changing radiator in teachers' room, furnishing and setting new sills in girls' toilet, and setting register faces at end of passageway. Contract price, \$943; total additions, \$193.50; amount of contract as standing, \$1,136.

An addition, amounting to \$77, on the contract with P. J. Sullivan for the Lucretia Crocker School for connecting up complete conductor pipe, including all excavating and masonry work. Contract price, \$5,089; total additions, \$77; total deductions, \$474; amount of contract as standing, \$4,692.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENTS.

The following appointments have been made subject to confirmation by the Board of Civil Service Commissioners:

August 18, James J. Bacigalupo, to be a Trustee for Children.

August 22, John Templeman Coolidge, to be a member of the Art Commission.

SALE OF PROPERTY FOR UNPAID TAXES.

ADVERTISEMENT FOR SUPPLEMENTAL TAX SALE WILL BE PUBLISHED IN THE CITY RECORD, SEPTEMBER 2.

Advertisements for the final tax sale for the year 1911 are now being prepared.

By a new ruling upon the law, the Collector must advertise and sell, prior to October 1, all real estate upon which the taxes or the special assessments for sewers, edgestones, sidewalks and moth suppression, or the betterments for parks, streets and sewerage works, were assessed prior to 1910 and which have not been paid.

This sale will include all taxes and assessments unpaid for any year, except for the years 1910 and 1911, which years will not be included in this sale. The year of assessment is shown by large numerals printed on the face of all tax bills.

The full list of estates to be sold will appear in the *City Record*, Saturday, September 2.

The sale will be held Tuesday, September 26, 1911, at the Collector's office, Room No. 11, in the basement of City Hall, Boston, at 9.30 o'clock a. m.

The Collector cannot delay the advertising or sale of any property beyond the date mentioned in the advertisement.

Payments can be made at any time prior to the sale, even if advertised, by including the cost of advertisement, interest, etc. The earlier paid, the less costs and interest.

STATE TAX AND ASSESSMENTS FOR 1911.

	1911.	1910.	Increase.
State tax.....	\$1,880,395 00	\$1,880,395 00	
Grade crossings.....	116,115 29	98,097 63	\$18,017 66

LAND-TAKING FOR SCHOOL PURPOSES.

The Mayor has approved the finding of the Board of Street Commissioners estimating damages in the sum of \$6,000 that should be paid to Thomas E. Folger *et al.*, trustees, for a taking of 1,412 square feet for schoolhouse purposes on Tyler street.

LAND-TAKING FOR PLAYGROUND PURPOSES.

The Mayor has approved a finding of the Board of Street Commissioners estimating damages in the sum of \$20,482.20 that should be paid to Louis Meynell on account of a taking of 68,274 square feet for playground purposes on Dacia and Danube streets, Dorchester.

MUNICIPAL BAND CONCERTS.

The Municipal Band of the city of Boston has been organized for this year, with thirty-five men, directed by Dionisio G. Cericola. Concerts will be given on Boston Common on Sunday afternoons, Franklin Park on Saturday afternoons, and in the different sections of the city evenings, starting July 7. Below is a schedule of concerts for season:

Boston Common. Sunday afternoons at 3.30 p. m., July 2 to September 3, inclusive. Labor Day, September 4, 1911, at 3.30 p. m., Municipal Band, thirty-five pieces, Dionisio G. Cericola, leader.

Marine Park, South Boston. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive, and Labor Day, September 4, 1911.

August 27, 3.30 p. m., Stone's Military Band, Harold E. Brenton, leader.

September 3, 3.30 p. m., Post 26, G. A. R. Band, William A. Morrell, leader.

Pine Bank, Jamaica Pond. Sunday afternoons at 3.30 p. m., July 9 to September 3, 1911, inclusive.

August 27, 3.30 p. m., First Corps Cadet Band, John B. Fielding, leader.
September 3, 3.30 p. m., Kanrich's Band, Albert M. Kanrich, leader.
Wood Island Park, East Boston. One concert, Sunday afternoon, 3.30 p. m.
September 3, 3.30 p. m., Naval Brigade Band, D. A. Ives, leader.
Abbotswood, Franklin Park. Saturday afternoons at 3.30 p. m.

July 8 to September 2, inclusive, Municipal Band, Dionisio G. Cericola, leader.

District concerts given in different sections of the city by the Municipal Band, Dionisio G. Cericola, leader. Unless otherwise specified, concerts are from 8 to 10 p. m.

August 29, North square, North End, city.
August 30, Emerald and Compton streets, South End, city.

August 31, near 100 Savin Hill avenue, Dorchester.

September 1, Ashley avenue and Breed street, East Boston.

The schedule herewith presented is subject to change without notice. Postponed concerts will be given as soon as possible after the original date scheduled. No programs will be distributed, but the daily and Sunday newspapers of Boston will print from time to time the weekly schedules, programs and other data pertaining to the concert season. Programs will be announced at all concerts by use of the megaphone.

All communications relating to the concerts should be addressed to Secretary Walter L. Finigan, of the Music Trustees, Room 905, Carney Building, Boston, for prompt consideration.

The Music Trustees have arranged the following band concerts for the coming week:

BOSTON COMMON, SUNDAY, AUGUST 27, AT 3.30 P. M.

Municipal Band, D. G. Cericola, Leader.

Program.

1. Overture. "Midsummer Night's Dream." Mendelssohn
2. Waltz. "Southern Roses." Strauss
3. Grand Fantasia from "Falstaff." Verdi
(First time. By request.)
4. Trombone Solo. Selected.
Mr. Stanley W. Gallo.
5. Suite, "Peer Gynt." Grieg
1. "Morning Mood."
2. "Ase's Death."
3. "Anitra's Dance."
4. "In the Hall of the Mountain King."
6. Grand Selection. "The Power of Destiny." Verdi
(First time. By request.)
7. Spring Serenade. "Aubade Printaniere." Lacombe
8. Overture. "Die Meistersinger von Nurnberg." Wagner

JAMAICA POND, SUNDAY, AUGUST 27, AT 3.30 P. M.

First Corps Cadet Band, John B. Fielding, Leader.

Program.

1. March. "Gilmore's Triumphant." Brook
2. Overture. "Opening of the Temple." Keler-Belo
3. Cornet Solo. "New Creation." Fisher
Mr. A. N. Fisher.
4. Selection. "La Sonnambula." Bellini
(By request.)
5. Popular Medley.
6. Waltz. "Tout Parée." Waldteufel
7. Selection. "Arcadians." Monckton
8. Fantasia on "Old Kentucky Home." Dalrymple
9. Selection. "Pink Lady." Caryll
10. March. "Front Section." Bagley
"Star Spangled Banner."

MARINE PARK, SUNDAY, AUGUST 27, AT 3.30 P. M.

Stone's Military Band, H. E. Brenton, Leader.

Program.

1. March. "Coronation." Meyerbeer
2. Overture. "Orpheus." Offenbach
3. Boquet of Popular Numbers. Remick
4. Concert Waltz. "Tout Parée." Waldteufel
5. Descriptive Fantasia. "Winter." Lampe
6. Grand Selection from "Bohemian Girl." Balfe
7. Southern Idyll. "Uncle Tom's Cabin." Lampe
8. Entre Act. "American Patrol." Meacham
9. Selection. "A Cluster of Emeralds." Brooks
10. Finale. "Stars and Stripes Forever." Sousa

NORTH SQUARE, NORTH END, TUESDAY,
AUGUST 29, AT 8 P. M.

Municipal Band, D. G. Cericola, Leader.

- Program.
1. March. "Coronation." *Meyerbeer*
 2. Overture. "Ruy Blas." *Mendelssohn*
 3. Selection from "Don Carlos." *Verdi*
 4. Waltz. "Toujours Fidele." *Waldteufel*
 5. Baritone Solo, Selection from "I Pagliacci." *Leoncavallo*
 6. Grand Selection. "The Masked Ball." *Verdi*
 7. Symphonic Poem. "Aubade Printaniere." *Lacombe*
 8. Grand Selection from "Mefistofele." *Boito*
 9. Galop. "Infernal." *Keler-Bela*
 10. "Star Spangled Banner."

EMERALD AND COMPTON STREETS, SOUTH
END, WEDNESDAY, AUGUST 30, AT
8 P. M.

Municipal Band, D. G. Cericola, Leader.

- Program.
1. March. "2d Regiment Connecticut." *Reeves*
 2. Overture. "Pique Dame." *Suppe*
 3. Selection from "Madame Sherry." *Hoschna*
 4. Waltz. "Jolly Fellows." *Vollstedt*
 5. Selection from "Prince of Pilsen." *Luders*
 6. Descriptive Fantasia. "The Warrior's Dream." *Voelker*
 7. Snyderian Gems.
 - a. "Kiss Me, My Honey." *Snyder*
 - b. "In the Land of Harmony." *Snyder*
 8. Selections from "Naughty Marietta." *Herbert*
 9. Excerpts from "Remick's Leaders." *Lampe*
 10. March. "National Emblem." *Bagley*
 11. "Star Spangled Banner."

NEAR 100 SAVIN HILL AVENUE, DORCHES-
TER DISTRICT, THURSDAY EVENING,
AUGUST 31, AT 8 P. M.

Municipal Band, D. G. Cericola, Leader.

- Program.
1. March. "Nibelungen." *Wagner*
 2. Overture. "Paraph III." *Suppe*
 3. Descriptive Number. "Gypsy Life." *Le Thiere*
 4. Waltz. "Espana." *Waldteufel*
 5. Selections from "The Arcadians." *Monckton*
 6. Episode Descriptive. "Cavalry Charge." *Luders*
 7. Selections from "The Girl in the Train." *Fall*
 8. Intermezzo. "Elegante." *Offenbach*
 9. Grand American Fantasia. *Herbert*
 10. "Star Spangled Banner."

ASHLEY AVENUE AND BREED STREET,
EAST BOSTON, FRIDAY, SEPTEMBER 1,
AT 8 P. M.

Municipal Band, D. G. Cericola, Leader.

- Program.
1. March. "Stars and Stripes." *Sousa*
 2. Overture. "Orpheus." *Offenbach*
 3. Selection from "The Three Twins." *Hoschna*
 4. Waltz. "Tout Paree." *Waldteufel*
 5. Descriptive Medley. "Reminiscences of Scotland." *Godfrey*
 6. Popular Gems.
 1. "Put Your Arms Around Me, Honey." *Von Tilzer*
 2. "All Alone." *Arranged by Evans*
 7. Selections from "The Girl in the Train." *Fall*
 8. Episode Descriptive. "The Charge of the Hussars." *Spindler*
 9. Selections from "The Chocolate Soldier." *Strauss*
 10. March. "The Winning Fight." *Holzmann*
 11. "Star Spangled Banner."

ABBOTSWOOD, FRANKLIN PARK, SATUR-
DAY, SEPTEMBER 2, AT 3.30 P. M.

Municipal Band, D. G. Cericola, Leader.

- Program.
1. March. "Huldigungsmarsch." *Wagner*
 2. Overture. "Zampa." *Harold*
 3. Selections from "Naughty Marietta." *Herbert*
 4. Request Number. "Invitation to the Waltz." *Herbert*
 5. Solo for Cornet. Selection from "Mefistofele." *Boito*
 6. Grand Fantasia. "The Valkyrie." *Wagner*
 7. Selection. "Ronde D'Amour." *Westerhout*
 8. Popular Gem. "Hearts and Flowers." *Tobani*
 9. Sixth Hungarian Rhapsody. *Liszt*
 10. "Star Spangled Banner."

FINANCE COMMISSION.

BOSTON, August 16, 1911.

HON. JOHN F. FITZGERALD, Mayor:

SIR,—A loan order of \$48,000 for the purchase of a new steamer to replace the steamer "Vigilant," now used by the Health Department, became effective on August 13 last, owing to the failure of the City Council to act upon the loan order within the sixty days after it was filed, as required by section 2 of chapter 486 of the Acts of 1909.

As shown by the annexed copy of a report to the Finance Commission made by Mr. Guy C. Emerson, there seems to be considerable doubt as to the necessity of a new boat. At all events a more thorough examination of the boat should be made before the city is finally committed to the proposed expenditure.

The Finance Commission respectfully suggests that you cause such an examination to be made before authorizing the issuance of the loan.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

BOSTON, August 7, 1911.

HON. JOHN A. SULLIVAN,

Chairman Finance Commission:

DEAR SIR,—I beg leave to submit the following information regarding the Health Department steamer "Vigilant" and its present condition:

Since the consideration of the need of the department for a new boat by the Finance Commission at its meeting on August 4, I have made a personal examination of the boat, so far as possible. I have interviewed the captain and engineer and had the various defects of the boat pointed out by them. I have interviewed among others a representative of the firm who built the boat, the foreman who had charge of the original construction and the recent repairs, and the United States Inspectors of Hulls and Steam Boilers.

The consensus of opinion seems to be that the boat is in excellent condition for a boat of its age.

The "Vigilant" was built in 1886 at East Boston and is now in its twenty-sixth year. During the early part of the life of the boat its duties were very light and it was used practically as a yacht. The quarantine work was maintained only during a few weeks in the summer season and the heaviest duty of the boat was in towing the bath houses to their positions in the spring and returning them to storage in the fall. For the last few years quarantine has been maintained during the entire year and the duties of the boat have been somewhat greater. Nevertheless the duties of the boat have always been light as compared with those of the average towboat, and the boat has been maintained in excellent condition and large sums have been expended in repairs.

To show that the boat need not of necessity be unseaworthy on account of age, I submit to you the following list of wooden steamboats doing business in Boston Harbor and along the coast, selected at random, together with the dates upon which they were built:

"Mary O'Riorden," 1863; "William E. Clary," 1864; "Emily," 1871; "Samuel Little," (the boat that preceded the "Vigilant" for quarantine service), 1872; "Governor Andrew," 1874; "Peter B. Bradlee," 1877; "General Lincoln," 1878; "William Sprague," 1880; "Fanny Lenox," 1880; "Leader," 1881; "Penobscot," 1882; "City of Gloucester," 1883.

* This boat was recently destroyed by fire.

This list could be greatly extended if necessary.

The above list of boats does not however prove that the "Vigilant" may not be in the bad condition claimed. During the recent examination a number of planks were removed from the boat amidships and a small amount near the bow. All decayed material discovered was renewed. No borings were made below the water line at any other portions of the hull to determine if additional rotten wood existed. This is a comparatively easy test and certainly should have been done, if suspicion of weakness existed.

The captain and the engineer told me that in their opinion there are certain decayed parts near the bow and stern of the boat. They also showed me leaky places around the waterways of the boat, a sill of the deck-house that was slightly decayed, the condenser of the engine that was leaking slightly and a small decayed place around the shaft tunnel at the stern of the boat. None of the defects pointed out were serious and their repair would be a small expense. Repairs to the condenser would probably be the largest item, and this will have to be done whether a new boat is authorized or not, so it should be omitted from the argument that a new boat is needed.

The absence of knees, commented upon by Messrs. Fay and Raymond, does not seem to be a serious matter. The "Vigilant" is a very narrow boat and the space amidships is nearly all taken up by the boiler and engine. The space between the deck-house and the side of the boat is so narrow that it is doubtful if the addition of knees would materially strengthen the boat. The deck beams in the amidship section are omitted on account of the space occupied by the engine and boiler. If knees are considered necessary, they can be easily inserted at a small expense at any time. My conclusions in the matter are as follows:

- (1.) No adequate examination by a competent disinterested board of survey has yet been made.
- (2.) No thorough and adequate examination of the boat has been made by any board or individual.
- (3.) The conclusion that a new boat is necessary is not justified by the superficial examination already made.
- (4.) It seems reasonably certain that admitting that the boat is in the worst condition claimed, it could be repaired and put in first class condition for perhaps fifteen years' service for an expenditure not exceeding \$8,000, and the chances are that a considerably smaller sum will suffice.

On account of the above I am of the opinion that the commission would be amply justified in recommending the rejection of the proposed loan at the present time and making an additional recommendation that a thorough examination be made of the boat by a competent and disinterested board of survey.

Respectfully submitted,

(Signed) GUY C. EMERSON,
Consulting Engineer.

BOSTON, August 16, 1911.

THE BOSTON FINANCE COMMISSION,
Tremont Building:

GENTLEMEN,—I beg to acknowledge the receipt of your communication of August 16, notifying me that the loan order recommended by me at the meeting of the City Council, held June 14, 1911, and providing the sum of forty-eight thousand dollars (\$48,000) for the purchase of a new steamer to replace the steamer "Vigilant,"

became effective on August 13, 1911, owing to the failure of the City Council to act upon it, and annexing a copy of a report made to your commission by Mr. Guy C. Emerson, which opposes the building of a new steamer.

Your commission seems to have overlooked my subsequent message of June 26, 1911, which substituted a transfer order for the original loan order and operated as a withdrawal of the latter. This transfer order is now before the City Council and your letter, with Mr. Emerson's report, will be transmitted to that body for its information. I desire, however, to correct the statement made by Mr. Emerson to the effect that "no thorough and adequate examination of the boat has been made by any board or individual." Mr. Frederic H. Fay, Division Engineer of the Bridge and Ferry Division of the Department of Public Works, examined the boat thoroughly on May 26, 1911, and his report was attached to my original message to the City Council. A perusal of his letter will indicate the care with which Mr. Fay inspected the boat, but in order that there may be no question about the expenditure of so considerable a sum I shall have another examination made by a competent person not connected with any city department.

Yours respectfully,
JOHN F. FITZGERALD, Mayor.

STATEMENT ON THE FIRE QUESTION.

The following statement, on the Fire Department situation, was given out by Mayor Fitzgerald on his return from Europe, preceding a report from the Finance Commission on the matter already published in the *City Record*:

I understand that during my absence I have been accused of neglecting the fire protection of the city. Those who make the charge must have forgotten a few pertinent facts of which I will take the liberty to remind them. They have forgotten that last winter I organized a fire hazard commission, composed of representatives of civic organizations, and introduced the so-called fire hazard bill, which was unfortunately rejected by the Legislature. The same fate met my bill for the isolation of lumber wharves. A bill for the fireproof construction of garages was passed. The high pressure service bill, which will ultimately mean an expenditure of \$1,000,000 in the business section of the city for the installation of the most powerful fire-fighting apparatus known, was introduced and advocated by me, passed by the Legislature and accepted by the City Council this year. I have also urged a system of inspection of buildings within the Fire Department, which has been carried into effect, have completed a third fireboat, and have equipped the steamer "Hibbard" of the Infantry Department with fire-fighting apparatus. I have recommended and secured an appropriation of \$40,000 to complete a fire station at Oak square, and an appropriation of \$50,000 for Sachem street, which will afford fire protection to the hospitals and other buildings on Parker Hill. In view of these activities, to say nothing of a new fireboat, the Forest Hills station, and other improvements provided in my former administration, I feel that I may look with complacency upon the charge of neglect.

In order to sustain their accusations my critics have seen fit to exaggerate the deficiencies of the Boston Fire Department. As it stands to-day it enjoys a high reputation and has been pronounced by more than one expert the most efficient

fire department in the United States, if not in the entire world. At any rate, no one can accuse either the Mayor or the City Council of failure to support it by liberal appropriations. A comparison with other cities shows that, broadly speaking, no other large city in the country has so many firemen or expends so much for fire protection in proportion to its population or area.

On the other hand, there is no doubt that the Boston Fire Department can be improved and I have not failed to consider the plans for its improvement, which have been suggested in different quarters. Among these the suggestion which has been most widely advertised is the addition of fifty or one hundred firemen. Such an addition may or not be necessary. It was not recommended by Commissioner Parker in either of his annual reports, and taken by itself it affords a crude, superficial and partial solution of the difficulty. It merely throws so many men at the Fire Commissioner and gives us a little more of the same kind of protection that we now enjoy. Moreover, only about three-fifths of these men are available at any one time. The fifty, if that is the number selected, reduce themselves to thirty for all practical purposes and any one can see that thirty men scattered about among ninety companies would add only one man to every third company. The principal effect of these additional appointments would be to lull the people to a deceptive sense of security and thus hinder the introduction of measures that are thorough-going and effective.

A far more intelligent suggestion to my mind is that which proposes the establishment of new stations in the districts of particular hazard, provided with the most powerful and speedy auto engines now in service. Dorchester, for example, owing to its frame construction, is admittedly exposed to the danger of a destructive conflagration. An auto engine properly stationed, capable of discharging 1,000 gallons of water or more every minute, and of reaching the scene of the fire at a speed of twenty miles an hour or upward, would relieve the natural apprehension that exists among the people of that section. The tendency to adopt auto apparatus is becoming more and more marked and the example set by New York, which will soon supersede its horse-drawn engines by motor vehicles, will undoubtedly be followed by all the larger cities, including Boston. This means, of course, the transfer of a considerable number of engineers and stokers to the active fire-fighting force and a lessened need of additional appointments.

The influence of the high pressure system upon the membership of the department cannot be overlooked. It is the opinion of the Fire Commissioner that the installation of the high pressure hydrants will release a considerable number of men for service in the residential districts. Various other devices, such as the adoption of monitor nozzles and the transfer of firemen from the repair shop back to the fire fighting force, have been mentioned. In other words, a redistribution of the present force is conceivable, which would be equivalent to the addition of a substantial number of firemen without necessitating a permanent increase in the tax rate.

A redistribution of the apparatus as well as the force is also, in the opinion of competent judges, advisable. There may be, and some think actually is, a waste of both men and equipment under the present arrangement. The tactics of the Fire Department in locating stations

resemble somewhat the placing of artillery in battles and no one doubts that a skilful arrangement of batteries may cause an inferior force to prevail over a superior one. In Chicago, a city with three times the population and five times the area of Boston, only 1,900 firemen are required, while Boston employs nearly 1,000. This is accomplished by having fewer companies, carefully distributed, with a larger number of men to a company. In Philadelphia, a city with a population more than twice as large as Boston, and three times the area, only about nine hundred and fifty (950) firemen are required. It is time to ask whether good judgment does not require a rearrangement of the stations in Boston so that they may conform to the recent growth of population and the general topography of the town.

While the building laws are not strictly a departmental affair, the City Council is now considering the extension of the building limits so as to cover the whole or the greater part of the city. Such preventive action on their part would ultimately improve the fire protection of the city more than any of the merely remedial measures proposed.

The briefest enumeration of these measures must convince the citizens of Boston that such a problem cannot be settled off hand or by well-meaning amateurs. It requires a comprehensive study by persons who have some claim to expert knowledge and the power of balancing the various considerations involved. The enthusiast in city affairs, whether his specialty be education, health, street development, or what not, would cheerfully expend each year the entire tax levy upon the execution of his pet plans, and there are plenty of such enthusiasts in the field of fire protection. But, while the city cannot afford to stint the necessary appropriations, and no responsible official has any desire to do so, those charged with the stewardship of the people's funds must see that a full return is made for every outlay. I have determined, therefore, to select a representative and well-balanced commission for the study of this problem. I shall ask the Chairman of the Finance Commission to be a member and shall request the Chamber of Commerce, the Board of Fire Underwriters, the Central Labor Union and the United Improvement Association to select four others. The commission will be asked to organize immediately and to start forthwith upon its task of investigating the practical needs of the Fire Department of the city. Its report will be requested within a prescribed period, and I promise to urge the City Council to vote any additional appropriations that may be necessary in order to carry out its recommendations, provided they are unanimous. I do not know any better way of obtaining a broad and business-like treatment of the subject, and believe that the findings of such a commission will be accepted by the community as authoritative.

CITY OF BOSTON,
OFFICE OF THE MAYOR,
August 18, 1911.

THE BOSTON FINANCE COMMISSION,
Tremont Building:

GENTLEMEN,—Your communication of August 16, addressed to the Honorable the Mayor and the City Council, has been carefully considered by me and I beg to say that in view of the prospect that the scope of the inquiry will be broadened by the deliberations of the new commis-

sion to be appointed, of which your chairman has been asked to become a member, it seems to me inadvisable to accept your recommendations at the present time.

The first and third recommendations involve action by the Legislature or the City Council and must naturally await the pleasure of those bodies. As to the second recommendation, that the Mayor and the City Auditor, acting under section 3 of chapter 486 of the Acts of 1909, transfer from the Reserve Fund to the appropriation for the Fire Department the sum of one hundred and ninety-three thousand dollars (\$193,000), \$175,000 of which will be expended for the purchase of apparatus, I concur with the City Auditor in the opinion that such a heavy investment in new equipment cannot be considered a current expense within the meaning of the section quoted, which states that "the city auditor may, with the approval in each instance of the mayor, at any time make transfers . . . from the reserve fund to any appropriation for the current expenses of a department, and may also, with the approval of the Mayor, at any time between December 1 and February 1, make transfers from any appropriation to any other appropriation." The distinction between current expenses and permanent improvements is obviously emphasized in this passage.

A doubt has been expressed by the City Auditor whether it would be practicable to expend the amount named before the end of the fiscal year, when the unexpended portion would pass into the cash balance in the city treasury instead of remaining intact as in the case of a special appropriation. For this and other reasons I must defer final action upon your suggestions until the report of the new commission has been received.

In the meantime permit me to thank you for the valuable material which you have compiled, which I am sure will be found useful in the work of the commission.

Yours very truly,

JOHN F. FITZGERALD, Mayor.

CITY OF BOSTON,
OFFICE OF THE MAYOR,
August 17, 1911.

HON. JOHN A. SULLIVAN,
Chairman Boston Finance Commission,
Tremont Building, Boston:

DEAR SIR,—You are respectfully invited to serve as a member of a commission to investigate the needs of the Fire Department. For about a year the needs of this department have been considered and debated and the Fire Commissioner, the Finance Commission, and the National Board of Fire Underwriters have suggested valuable improvements. A genuine difference of opinion, however, exists as to the best method of procedure, and as any constructive action on this subject must involve a considerable expenditure of the public money, it has seemed to me that the various phases of the question should be discussed as part of a general plan by some responsible committee.

Among the subjects which this committee would naturally consider are:

- (1.) The need of additional firemen.
- (2.) The effect of the installation of the high pressure system upon the number of firemen required.
- (3.) The effect of the introduction of auto apparatus upon the same.
- (4.) The particular types of new apparatus which are most desirable.
- (5.) The proper distribution of apparatus.
- (6.) The most effective distribution of the force.

(7.) The extension of the building limits and the methods of building construction.

The aim of the investigation would be of course to furnish adequate protection for the city, to fix the cost within reasonable limits, and to maintain the high reputation of the Fire Department. While the commission would be free to map out its own plan and either to enlarge upon the topics suggested above, or confine the investigation within narrower bounds, as it may think best, it seems to me that the report should be as practical as possible, while aiming at a reasonable degree of thoroughness. I should suppose that two months would be a sufficient time for an adequate study of the question and would ask the committee to make its report before October 1. In order that this may be accomplished it will be necessary that the members shall be selected at an early date and an organization effected as soon as possible. I pledge myself to urge the City Council to vote any appropriations that may be necessary in order to carry out the recommendations of the commission, and will from the funds at my disposal provide such incidental expenses as may be called for in connection with the proceedings.

Communications similar to this have been addressed to the Chamber of Commerce, the United Improvement Association, the Central Labor Union and the Boston Board of Fire Underwriters.

Yours respectfully,

JOHN F. FITZGERALD, Mayor.

BOSTON, August 18, 1911.

HON. JOHN F. FITZGERALD, Mayor:

SIR,—I am in receipt of your invitation to become a member of a new commission to investigate several questions relating to the subject of fire protection, and I thank you for the same, but I must respectfully decline to serve, as I have within the past year participated in two investigations by the Finance Commission which covered practically every one of these questions, and I believe the time for investigation has passed and the time for action has arrived. If your Honor will submit to the City Council on Monday next an appropriation order for \$193,000, as recommended by the Finance Commission, every one of the questions you would have a new commission study could be studied by the City Council in determining the wisdom of passing the appropriation; and as the City Council must finally assume a large share of the responsibility for passing or rejecting such an appropriation order, and could hear the same witnesses who would appear before the proposed new commission, it would seem to be a waste of time to submit to such a commission a problem which the City Council with the aid of competent witnesses would be entirely able to solve.

If, however, you do not send such an appropriation to the City Council, thus preventing it from giving immediate consideration of the means of increasing fire protection in the City of Boston, but instead appoint a new commission to study fire department questions and report later to the City Council, so much time would be lost as to make it practically impossible within the present fiscal year to appoint the number of firemen necessary, or to contract for the motor apparatus which the Finance Commission, the present Fire Commissioner, and the two former Fire Commissioners, who have been consulted by the Finance Commission, have recommended.

Yours respectfully,

JOHN A. SULLIVAN.

MAYOR'S OFFICE, Aug. 19, 1911.

HON. JOHN A. SULLIVAN,
Chairman Boston Finance Commission:

DEAR SIR,—Your letter of August 18, declining to serve on a commission to be appointed by me for the investigation of the needs of the Fire Department, has been received. In this communication you declare in substance that the whole matter has been settled and nothing remains for me to do but to ratify your decision.

I am familiar with this tone in the communications which I receive from certain departments of the government. It was manifest to a certain degree in the attitude of the School Committee a year ago, when it estimated an increase of seventeen hundred and eighty-seven (1,787) pupils a year for five years as a basis for certain appropriations. My own contention was that conditions were as likely to bring about a decrease as an increase in the school population and the results have proved that I was not mistaken. The actual figures, as published by the Statistics Department, show a falling off of twelve hundred and seven (1,207) pupils between February 28, 1910, when the estimate of the School Committee was prepared, and February 28, 1911. The question then as now was the wisdom of making a permanent addition to the pay rolls of the department in the face of changes which might in the near future make such an addition unnecessary.

When convinced by a broader investigation than that which furnishes the basis of your report that the city should spend \$193,000 at once and add \$60,000 a year or more to its tax levy, I shall recommend this expenditure to the City Council as advised by you. In the meantime permit me to say that no one of the Fire Commissioners whom you quote has ever recommended an increase in the number of firemen in any official document, as far as I have been able to ascertain, or has given this phase of the problem the importance which it has assumed in the eyes of a commission hitherto noted for its desire to reduce rather than increase the number of city employees.

In this connection permit me to quote an editorial from the Boston Transcript of August 2, 1910, commenting on an assertion attributed to Acting Commissioner Carroll that one hundred more men were needed in the department:

"The number of men in the department is over 900. . . . But the situation is not a new one and hardly affords warrant for the suggestion of the acting head of the department that the force should be increased 10 per cent. . . . The head of a department naturally sees legitimate needs that are not always apparent to the executive or legislative branches of the municipal government, and in the case of this one the recommendations are usually considerably in advance of their satisfaction, but not in recent years have the suggestions for increase been placed at so high a figure. . . . The proposed increase would mean a matter of more than \$100,000, a burden which the city is hardly prepared to assume at such short notice."

This is precisely the point of view which I have taken, and which I shall maintain until the new commission has reported. I learn from a table compiled by Prof. C. E. Merriam, and printed in the "University of Chicago Magazine," that the per capita cost of the fire departments of Glasgow and Vienna is 12 and 16 cents, respectively. In Philadelphia and Chicago the cost is only 92 cents and \$1.14.

Boston heads the entire list of European and American cities with a per capita expenditure of \$2.39, which is twenty times that of Glasgow, fifteen times that of Vienna, two and one-half times that of Philadelphia, and twice that of Chicago. Yet your commission, so keen on the scent of extravagance in other departments, asks me to jump this expenditure immediately by the sum of \$193,000, which is about equal to the entire cost of the fire department in Glasgow for two years. You base this recommendation on a report of the Fire Commissioner which has never been submitted to the responsible head of the city government, and which I never saw until it was incorporated in your letter.

What I want as Mayor of the city, responsible to the taxpayers for outlay and return, is some satisfying explanation of the huge cost of fire protection in this city. I consider a delay of a few weeks well worth while if it results in a saving of expense, a radical improvement in fire-fighting methods, needed amendments to the building laws, or even a more thorough understanding of the unique conditions that appear to exist in Boston.

Yours respectfully,
JOHN F. FITZGERALD, *Mayor*.

BOSTON, August 21, 1911.

HON. JOHN F. FITZGERALD, *Mayor*:

SIR,—Your communication of August 18, respecting the Finance Commission's recent report upon conditions in the Fire Department, has been received. The commission has noted the various suggestions for delay raised by your Honor's letter, but believes that delay is not only unnecessary, but may be actually dangerous. There is nothing to prevent action being taken at once upon those recommendations of the commission which involve the action of the Mayor and City Council, viz., the appropriation of money for extra firemen and motor fire apparatus and the repeal of the ordinances which hamper the Fire Commissioner's authority over his department.

Your Honor has called the commission's attention to the fact that the City Auditor has expressed a doubt that the money needed for the purchase of motor apparatus in the Fire Department could be lawfully transferred from the Reserve Fund by the Mayor and City Council under section 3 of the charter amendments; but the commission respectfully calls your Honor's attention to the fact that in the paragraph containing this recommendation, the alternative recommendation is made that the Mayor and City Council appropriate from the Reserve Fund, or from taxes, the sum necessary. This alternative was inserted by the commission in order to meet any possible question which might be raised as to the validity of the transfer by the Mayor and City Auditor under section 3. Whether or not the City Auditor is right in his contention that the proposed transfer could not be made by the Mayor and City Auditor is for the present unessential, as no question can be raised as to the power of the Mayor and City Council to make the appropriation from taxes or from the Reserve Fund, as the commission also recommended. The entire recommendation of the commission upon this subject is as follows:

"That the Mayor and City Auditor, acting under section 3 of chapter 486 of the Acts of 1909, transfer from the Reserve Fund to the appropriation for the Fire Department the sum of \$193,000, to be used for the following purposes, viz.:

\$18,000 for the salaries for the remainder of the present fiscal year of fifty additional firemen, and \$175,000 for the purchase of the motor apparatus recommended by the Fire Commissioner; or that the Mayor and City Council appropriate from the Reserve Fund, or from taxes, the sum of \$193,000 for the said purposes. It has been customary to provide fire apparatus out of taxes instead of by loans, and the established practice should be followed in this instance. The fact that the apparatus is of the motor instead of the horse-drawn kind furnishes no reason for changing the established financial policy in this respect."

Nor does the commission feel any apprehension, such as your Honor evidently entertains, that any serious harm would arise if any unexpended balance of the appropriation should be returned to the City Treasury at the close of the present fiscal year. If the money is appropriated in the present fiscal year, the contracts can be made in the present year, but if the appropriation is deferred until next year, so also must the making of the contracts be deferred, and hence considerable delay would result. If a balance were returned to the treasury at the end of the present fiscal year and payments for motor apparatus became due in the next fiscal year, the appropriations for the next year would undoubtedly provide money for such payments. It is inconceivable that the city would contract for motor apparatus this year and fail to provide sufficient money next year to complete the contracts. There is no reason, however, why the Mayor and City Council cannot make a special appropriation so that the unexpended balance at the close of the present fiscal year will remain to the credit of the Fire Department, thus enabling it to spend the balance in the next fiscal year. Moreover, if the appropriation is made at once, and contracts for motor apparatus are promptly entered into, there seems to be no reason why the apparatus cannot be delivered and paid for before the close of the present fiscal year.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

The Mayor has received the following communication from the City Clerk in answer to report made by the Finance Commission on the City Clerk's Department:

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—In response to your request for a report from me relative to the recent recommendations of the Finance Commission in respect to the City Clerk's office, I have the honor to submit the following:

The report of the commission contains a number of recommendations, and is based upon an examination made in December of last year by a firm of accountants employed by them. As the commission apparently adopted the accountants' report, practically word for word, I feel that I am justified in calling attention to the evident injustice of an examination made by persons whose unfamiliarity with city affairs has led them into the error of treating the City Clerk Department as if it were merely an office for the recording of mortgages, similar to the Registry of Deeds, but on a smaller scale. This mistaken view point is shown by several

statements in the accountants' report, and is further evidenced by the statement made by them "that the work of the City Clerk Department is almost entirely of a mechanical nature."

Undoubtedly the work of any well trained and efficient body of clerks appears to be of a mechanical nature, and the fact that in this instance it so appears is a tribute to the efficiency and intelligence of the clerical force rather than a correct statement of facts.

The first recommendation of the accountants is that the salaries of the City Clerk and the Assistant City Clerk be materially decreased, and this recommendation is substantially adopted by the commission.

It is with great reluctance that I reply to this recommendation, and it is especially embarrassing for one occupying the position of City Clerk to dwell upon the importance of the office and the qualifications required to properly fill it. Suffice to say that it has been occupied by men of the stamp of Samuel F. McCleary, Samuel F. McCleary, Jr., Hon. Joseph H. O'Neil, Hon. Edwin U. Curtis, Hon. J. Mitchell Galvin and Hon. Edward J. Donovan, whose ability and standing in the community was of the highest, and under all of whom, except the first, it has been my privilege to serve as Assistant City Clerk. I may perhaps be pardoned for saying in this connection that, from my experience as City Clerk of Charlestown from the time of my return from the Civil War to the annexation of Charlestown to Boston in 1874, as Assistant City Clerk of Boston for the thirty-four years from 1874 to 1908, and as City Clerk from 1908, I am better qualified to judge of the qualifications required and the worth of the services both of the City Clerk and the Assistant City Clerk than any firm of accountants, whether they are familiar with the duties of the office or not. This particular matter, however, is for the City Council to determine, and I am content to rest upon the judgment of the body which is most familiar with the work of the City Clerk and of his assistant.

The remainder of the report and recommendations of the accountants and the commission deal purely with the administration of the department. Summed up they are, that the salary of every employee in the department whose discharge is not recommended should be reduced an amount varying in each case from \$500 to \$100 per annum; that the work of recording mortgages should be done on the piece work system, and that the card index of mortgages be abolished.

As to the reduction of salaries, I will call attention to the fact that the salaries of several of the clerks now recommended for reduction were voluntarily increased by me, with the approval of Mayor Hibbard, in 1909, and that the increases were well merited by the quality of the work performed. These and the other salaries paid in the department are the result of faithful and efficient service covering, in nearly all instances, a long period of years. Ten of the twenty-six employees have been employed in the department for more than twenty-two years, thirteen for more than fifteen years, and the length of service for the city of the three remaining has been eleven, nine, and seven years, respectively.

The next recommendation is that the recording of mortgages be done on a piece work system. I am inclined to believe that this method would be somewhat cheaper, and its adoption might result in dispensing with the services of two or more clerks, but incidentally it would also

take away the possibility of retirement on a pension from several whose work and length of service has well merited more considerate treatment at the hands of the city. The modern tendency, especially from a labor standpoint, is against the piece work system. I believe that the reduction of salaries and the establishment of this system are matters of which the head of the department is the best judge. It may, however, be a matter for future consideration whether or not the gradual substitution of piece work in the copying of mortgages would be advisable when clerks are employed from time to time to take the place of those leaving the service. This situation has not arisen under my administration, no new appointments having been made and the total number of employees having been considerably reduced.

As to the recommendation for the abolition of the card index of mortgages, that is another purely administrative question. The accountants recommend that a current book index alone be kept. To one familiar with the number of persons consulting the current card indexes each day and the present volume and character of the business, the adoption of this recommendation appears obviously impracticable. The current index is the one most frequently used; at certain hours of the day five, ten or more persons would wish to use it at once; and, again, in a great many instances, personal property mortgages are made and discharged by illiterate persons and foreigners, and the attempt of such to obtain information from a book index without assistance would not only be futile but would result in exasperating delay to those awaiting their turn at the book.

The present system works to the utmost satisfaction of the public; anyone desiring to consult the book index has an opportunity to do so; at the end of this year a consolidated index will be completed for the nine years from 1902 to 1910, inclusive, and each three or five years hereafter a similar consolidated index will be prepared.

This question of indexes and many of the minor matters touched upon in the examination are well covered by the following quotation from the report of the accountants:

"It seems to be the policy of the department, however, not only to comply with the requirements of the law in the matter of furnishing information but to go to considerable expense in furnishing additional convenience to the public."

This statement from a source which, to say the least, was not prejudiced in favor of the department is, perhaps, the best commendation that could be bestowed upon the work of the office, for I take it that it is the proper function, in the administration of the city's business, to furnish not only the absolute requirements but the best possible service to the public, even if the cost be slightly greater.

Respectfully yours,

JOHN T. PRIEST,
City Clerk.

WILL SAVE PORTICO OF OLD COURT HOUSE.

The Mayor has decided that the portico of the Old Court House shall be preserved and used as an entrance to some public ground. It has been proposed that it be used for the old Dorchester Burying Ground at Upham's corner, and the King's Chapel and the Old Granary Burying Ground have also been suggested. He will take this matter

up shortly, and will be glad to receive suggestions as his mind is open as to the best disposition to make of this fine bit of classic architecture.

FACTS ABOUT NEW YORK.

Not only does the city of New York carry on a large domestic and foreign trade and vast financial operations, but such safeguards protect its system of credits, that this business is carried on with remarkable safety. Statistics for the whole state (of which this city supplies all but a small part of the totals) show that while in 1909 New York State furnished 63 per cent of the bank clearings of the country, it suffered only 27 per cent of the defaulted liabilities of failing concerns.

In the last two decades, Greater New York has practically undergone a new creation. It has been transformed in every essential of a metropolitan city. It has been consolidated into a compact municipality, divided indeed into five boroughs, but closely united under one responsible executive, the mayor, one financial officer, the comptroller, and two legislative bodies, the Board of Estimate and Apportionment and the Board of Aldermen. The city has been virtually rebuilt with mammoth structures for commercial purposes, new and sanitary tenements for its working classes and artistic homes for its people of means. The city has been repaved in its principal streets, its parks have been beautified, new playgrounds have been established, millions have been expended upon its public schools, and in spite of stupendous difficulties, the whole system of transportation—the vital necessity of a colossal city like this—has been modernized. Bridges spanning the East river have been built. Both the North and East rivers have been tunneled, and as a result largely of the initiative of the Chamber of Commerce, a subway reaching from the Bronx to Brooklyn has been constructed. The pressure of new population and new business added every year, makes even all this achievement—creditable as it is—seem only a beginning, and the municipal problem is ever with us.

MISUNDERSTANDING OF EFFICIENCY ENGINEERING.

Efficiency engineering is being made a nuisance in some parts of the country by a swarm of "specialists," which settles thickly from time to time about the office of any mill agent or shop manager who shows the slightest interest in the subject. The older and more prosperous the business, the more certain are these enthusiasts that they can introduce great economies. The fact seems to be that under certain conditions it is undoubtedly possible for a skillful efficiency engineer to suggest methods of conducting manual operations which will save much money. These conditions are (a) the continuous repetition of the same acts, (b) the doing of these acts by numerous people, and (c) the grouping together of the people doing the same kind of work. Where these conditions exist a specialist in making every little motion have a meaning all its own, and that meaning one of maximum effectiveness, may accomplish a great deal. Where, however, the same work is rarely repeated, and, if it is, the same man does not perform it twice, and the operations are conducted at widely scattered places, efficiency engineering ceases to have any peculiar advantage and becomes merely a selection of men

and machinery. Attention is called to these limiting conditions because the good work which efficiency engineering can accomplish in its legitimate field when conducted properly is likely to be made ridiculous in the opinion of many people unacquainted with it through the erroneous assumption that it is put forward as a sure cure for every business ill from incompetent workmen, through inadequate plant and an atrophied designing department, to an exhausted bank account. As a matter of fact, there is hardly any business where attention to efficiency will not produce good results, and the subject deserves to be considered soberly and thoughtfully. Unfortunately experienced efficiency specialists are in great demand, so that unless the conditions are particularly favorable for their work, as explained above, the shop manager will find it best to go into the subject by himself with the help of the many excellent books on it.—*Engineering Record.*

POOR PAVEMENTS IN PARIS.

Americans who are prone to condemn the local authorities for poor street conditions, often cite the streets of European cities as examples to be followed in the matter of street construction, yet Paris pavements are now said to be far below the average in large American cities, says the *Engineering Record*.

The pavements of Paris are in just as bad condition as those of New York, if they are not worse. This has been known for some time among engineers who have examined the streets of the French capital. The state of the pavements is so bad, in fact, that the municipal council has been forced to consider it, which it seems inclined to make an excuse for shifting the whole blame on the administrative officials. A resolution was introduced late last month placing on record "that the responsibility for the bad way in which the streets of Paris are kept falls entirely on the prefecture, which was shown want of foresight and energy." This resolution was laid on the table until each municipal councilor had an opportunity to make a thorough examination of the streets of his district. It is particularly worth while observing these conditions at Paris because there is a custom among people who know little or nothing about street paving matters to speak of that city as the best paved in the world, whereas its streets are no better than those of New York and do not compare with those of Berlin. The trouble in Paris has not been due to the same cause as that in New York. The engineers in charge of the Parisian streets are noted as men of the highest ability and integrity, whose conduct of their work has been the admiration of those acquainted with the difficulties they have encountered in carrying on their labors. It is out of the question for engineers to construct good pavements without complete authority over the work and money for the purpose, and neither has been given to them. The paving contractors of the city have the reputation of being a happy little family living together in peace and comfort and living off the public in a way that would make an American preferential municipal contractor green with envy. Moreover, unless international rumors are all wrong, some of these contractors have long had good friends and even connections by marriage in the municipal council, so that the recent outburst in that body is really somewhat amusing. The lesson of the incident to engineers is, just as in New York, don't blame the engineering staff of the city for the mistakes of its superiors.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 21, 1911.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President COLLINS in the chair.

The Clerk called the roll to ascertain the attendance, with the following result:

Present—Coun. Attridge, Buckley, Collins, McDonald—4.

The PRESIDENT—Less than a quorum being present, the Council stands adjourned, to meet, under the rule, one week from to-day at three o'clock.

Adjourned at 3.35 o'clock p. m.

Tuesday, August 22, 1911.

Special meeting of the City Council, held in the Council Chamber, City Hall, at 1.30 o'clock, p. m., President COLLINS in the chair. Absent—Coun. Ballantyne and Kenny.

The Clerk read the call for the meeting, as follows:

City of Boston.

Office of the Mayor, August 21, 1911.

To the Members of the City Council:

You are hereby requested to assemble in the City Council Chamber, City Hall, on Tuesday, August 22, 1911, at 1.30 p. m., for the purpose of considering appropriations and for the transaction of such other business as may properly come before the meeting.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Placed on file.

The Council voted, on motion of Coun. ATTRIDGE, to dispense with the reading of the records of the last two meetings.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1904 (the Mayor being present), viz.:

Thirty-five traverse jurors, Superior Civil Court, Seventh Session, July Sitting, to appear September 11, viz.:

Charles L. Howe, Ward 12; Dennis H. Curran, Ward 12; David H. Everett, Ward 12; John D. Loftus, Ward 19; Russell Hathaway, Jr., Ward 20; William McNamara, Ward 9; Edward J. McNamara, Ward 1; John M. Niland, Ward 1; George D. Doane, Ward 6; Frank A. Lincoln, Ward 20; Frank A. Stout, Ward 15; Frederic Shackley, Ward 23; Charles W. Moses, Ward 9; Thomas Cashman, Ward 1; Jesse C. Snow, Ward 21; James M. Walsh, Ward 11; Frank R. Adams, Ward 16; Michael J. Connelly, Ward 1; Henry J. Schemack, Ward 19; William E. Riker, Ward 22; Timothy M. Driscoll, Ward 24; Andrew P. Hickey, Ward 2; John J. Lawless, Ward 1; Arthur H. Lee, Ward 23; Frank Parodi, Ward 6; George A. Phipps, Ward 20; Charles E. Richards, Ward 25; Benjamin Brinson, Ward 8; Charles B. Alden, Ward 2; Charles E. Minard, Ward 24; Joseph S. O'Donnell, Ward 16; Frank H. Turgeon, Ward 12; Andrew J. Lane, Ward 24; William H. Dooley, Ward 14; Morris Cohen, Ward 10.

Thirty-five traverse jurors, Superior Civil Court, Sixth Session, July Sitting, to appear September 11, viz.:

Thomas Hannon, Ward 16; Richard H. Doyle, Ward 3; Albert H. Faber, Ward 1; Henry L. Hall, Ward 20; Walter E. Greene, Ward 20; Michael J. Lynch, Ward 16; Joseph J. Wall, Ward 20; Francis J. McLaughlin, Ward 16; John C. Cormier, Ward 17; Henry E. Lunt, Ward 19; Edward J. Gilman, Ward 23; James H. McGrath, Ward 18; John H. Joyce, Ward 24; John J. Mahoney, Ward 3; Frank E. Wells, Ward 16; Frederick Smyth, Ward 16; John J. Malone, Ward 9; Charles W. Hull, Ward 20; Michael J. Flanagan, Ward 10; August Rohnstock, Ward 16; Harry C. Hanson, Ward 21; Harry H. Walker, Ward 11; Patrick Leahy, Ward 24; George W. Burke, Ward 1; Albert W. Bullard, Ward 12; Charles J. Holdierried, Ward 13; Russell G. Fessenden, Ward 11; Frank J. Williams, Ward 25; Charles Levin, Ward 1; James H. Barry, Ward 11; James J. Doyle, Ward 2; Leveritt T. Hughton, Ward 24; Jacob Mathis, Ward 19; N. Howard Peckham, Ward 10; Thomas J. Davis, Ward 17.

Forty-one traverse jurors, Superior Criminal Court, to appear September 6, 1911:

Charles A. Dodge, Ward 25; Dennis D. Donovan, Ward 3; Albert E. Josselyn, Ward 10; William F. Caldwell, Ward 24; George F. Leonard, Ward 10; John V. Page, Ward 18; Edward F. Beal, Ward 22; John R. Marshall, Ward 12; John H. Wheeler, Ward 9; Charles P. Lyon, Ward 24; William C. Hagan, Ward 16; William C. Low, Ward 11; John E. Scollin, Ward 19; Louis Spillar, Ward 8; Arthur Ritchie, Ward 17; William A. Dacey, Ward 24; Edward Fitzgerald, Ward 24; Fred A. Adams, Ward 20; Daniel D. Sullivan, Ward 10; James J. Lee, Ward 12; Montgomery J. Dalrymple, Ward 14; Thomas Riley, Ward 21; John J. Ryan, Ward 18; Frederic F. Lambert, Ward 5; Timothy Keehan, Ward 1; John Bartlett, Ward 4; James McCarthy, Ward 3; Patrick C. O'Brien, Ward 8; Patrick J.

Grinley, Ward 25; John J. Madden, Ward 14; William B. Lewis, Ward 21; John P. McDermott, Ward 22; John Edwin Strom, Ward 22; Ferdinand Danielson, Ward 22; William G. Ahern, Ward 21; Francis E. McConologue, Ward 13; Squire Clark, Ward 18; Winfield S. Burrill, Ward 2; Frank B. Follett, Ward 7; Stephen Bradford, Ward 24; Peter C. Ross, Ward 25.

Forty-two traverse jurors, Supreme Judicial Court, September sitting, to appear September 12, 1911:

Frank W. Rehm, Ward 19; Burton L. Longley, Ward 12; William T. Cameron, Ward 1; Patrick E. Dugan, Ward 9; Nathan Neville, Ward 5; William J. Greene, Ward 21; Daniel P. Shea, Ward 15; Frank R. B. Shattuck, Ward 20; Patrick Campbell, Ward 3; James T. Purcell, Ward 23; William L. McKee, Ward 11; Thomas F. Bevans, Ward 16; Abraham Sydan, Ward 23; William O. Achorn, Ward 15; Onesime Cote, Ward 7; Elmer B. Laforme, Ward 14; Wilbur F. Campbell, Ward 20; Louis Naumann, Ward 1; John Harris, Ward 16; James R. O'Brien, Ward 24; Richard T. Kelly, Ward 2; Isaac Fonseca, Ward 20; John J. Needham, Ward 22; John J. Morris, Ward 13; William J. Dean, Ward 15; Francis J. Murphy, Ward 3; Vincent P. Ring, Ward 23; Orlando F. Deshon, Ward 23; Daniel J. Nihill, Ward 23; Patrick A. Foley, Ward 13; William W. Spencer, Ward 20; Frank Spangler, Ward 25; Harry D. Delano, Ward 11; John H. Donovan, Ward 21; Gustaf F. Browall, Ward 22; Charles J. Upham, Ward 20; Patrick J. Glynn, Ward 23; Richard Traiser, Ward 11; Albert N. Miller, Ward 1; Herbert E. Slayton, Ward 25; John J. Kelley, Ward 5; Daniel J. Canty, Jr., Ward 24.

APPOINTMENTS BY THE MAYOR.

The following was received:

City of Boston,

Office of the Mayor, August 19, 1911.

To the City Council:

Subject to confirmation by your honorable body, I hereby make the following appointments, all for the term ending April 30, 1912:

Charles H. Gelpke (24 Elmo street, Ward 20) to be a Gauger of Liquid Measures.

Walter N. Fogarty (7 York street, Ward 20) and Francis C. Powell (64 Pleasant street, Ward 20) to be Weighers of Coal.

Henry H. Walters (191 Nichols street, Everett), Fred Kitson (9 Elmwood street, Ward 19), William A. Podolski (311 Silver street, Ward 15), William H. Drake (767 East Fifth street, Ward 14) and William L. Woods (104 H street, Ward 14) to be Weighers of Coal, Measurers of Wood and Bark, Measurers of Grain, Weighers of Boilers and Heavy Machinery and Weighers of Beef.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Office of the Mayor, August 21, 1911.

To the City Council:

Subject to confirmation by your honorable body I hereby appoint Fred G. Trask (68 Farrington street, Ward 1) and Robert H. Walsh (71 Baldwin street, Ward 4) Constables of the City of Boston for the term ending April 30, 1912.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Severally laid over under the law.

LOAN FOR MERIDIAN STREET BRIDGE.

The following was received:

City of Boston,

Office of the Mayor, August 16, 1911.

To the City Council:

At its meeting of June 13, 1911, your honorable body rejected, without prejudice, a loan order appropriating sixty-three thousand dollars (\$63,000) additional for the Meridian Street Bridge. Since then the Acting Secretary of War, under date of July 20th, has transmitted an instrument approving plans for a bridge substantially in accordance with the findings anticipated by the Engineer of the Bridge and Ferry Division of the Department of Public Works, in his letter of April 14th, transmitted with my message of that date. The letter of the Acting Secretary of War, with a copy of the instrument referred to and the plan, is attached hereto for your information. It seems necessary, if the estimates of the department engineers are correct, that the loan order previously rejected should now be passed in order that work may be begun upon the structure in accordance with the plans as approved.

I therefore recommend once more the passage of the loan order originally recommended to your honorable body at its meeting of April 14 and subsequently rejected without prejudice.

Respectfully,

JOHN F. FITZGERALD, Mayor.

War Department,

Washington, July 20, 1911.

Sir,—Referring to your application of 15th ultimo, I transmit, herewith, for retention, an instrument approving the map of location and

plans of a bridge, to be reconstructed by the City of Boston across Chelsea Creek, at Meridian street, Boston, Mass., subject to the conditions set forth in said instrument.

Very respectfully,

ROBERT SHAW OLIVER,

Acting Secretary of War.

(Annexed were plans of bridge, etc.)

Ordered, That the sum of sixty-three thousand dollars (\$63,000) be, and hereby is appropriated, to be expended by the Commissioner of Public Works in the reconstruction of the Meridian Street Bridge; and that to meet the said appropriation the City Treasurer be authorized to issue from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

BATHING PLACE, PARKER HILL.

The following was received:

City of Boston,

Office of the Mayor, August 7, 1911.

To the City Council:

I beg to transmit a communication from the Commissioner of Public Works, referring to the request of the City Council for an estimate of the cost of transforming Parker Hill Reservoir into a suitable bathing place, with necessary shelters, etc. This request was referred to the Commissioner of July 12, in compliance with an order of the City Council passed at its meeting of July 7, and returned herewith.

Respectfully,

WALTER L. COLLINS, Acting Mayor.

City of Boston,

Public Works Department,

Boston, August 2, 1911.

Mr. L. K. Rourke,

Commissioner of Public Works:

Dear Sir,—I return you herewith the request of the City Council for an estimate of the cost of transforming the reservoir at Parker Hill into a suitable bathing place, with necessary shelters, etc.

This was investigated by Mr. Frederick I. Winslow, Engineer of Extension, who reports that to build the necessary shelters, with lockers for both sexes, steps down to the bottom of the reservoir, and to fill bottom to a slight depth with gravel, would cost about \$1,500, the idea being to draw down the water to a depth of about four feet above the bottom of the reservoir.

Respectfully,

E. S. Dow,
Acting Division Engineer
Sewer and Water Division.

Referred to the Executive Committee.

IMPROVEMENTS ON PARKS.

The following was received:

City of Boston,

Office of the Mayor, August 22, 1911.

To the City Council:

Under date of August 21, 1911, the chairman of the Board of Park Commissioners has addressed to me a communication requesting that appropriations be made from the income of the Parkman Fund for the following purposes:

Charlesbank, completion of improvements.....	\$600 00
Further repairs upon fence on sea wall.....	600 00
Castle Island, new water supply, four-inch pipe.....	3,000 00
Franklin Park, bears' dens, bird cage, sewer and water supply for Zoological Garden.....	20,000 00

I recommend that the accompanying order, appropriating the total of these items, amounting to twenty-four thousand two hundred dollars (\$24,200) from the income of the Parkman Fund be passed by your honorable body. The City Treasurer informs me that the available income of the Parkman Fund is forty-four thousand three hundred and seventy-one dollars and twelve cents (\$44,371.12).

Your attention is called to a passage on page four of the accompanying letter from Chairman Peabody, in which he sets forth the need of these appropriations.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Board of Commissioners of the
Department of Parks,
Office at Pine Bank, Olmsted Park,
Jamaica Plain, Mass., August 21, 1911.

Hon. John F. Fitzgerald, Mayor,

City Hall, Boston, Mass.:

Dear Sir,—In accordance with your request I mention herewith the matters relating to the park which need your attention.

An appropriation of \$60,000 is in the hands of the Park Commission to be expended on the playground in the Parker Hill district. We ask that this be made to read so that it can be expended

for playground purposes in Ward 19. An appropriation of \$40,000 has been asked for to be expended for playground purposes in Ward 19. We ask that this sum be appropriated. If these two sums are placed at our disposal for playground purposes in Ward 19 we think that we can make purchases which will meet with general satisfaction.

It has been proposed that the reservoir lot be turned over to the park for playground purposes. As we wrote you on June 23, 1911, we should be glad to receive the reservoir lot and develop it for play and recreation and park purposes if the Council will appropriate the sum of money for its development. Mr. Kiley says that the engineer's office reckoned that \$15,000 would be needed to grade it, and to finish it thoroughly we ought to have an appropriation in excess of that sum.

The Park Commission holds an appropriation of \$25,000 to expend for playground purposes in Ward 7. We have been unable to purchase for that money what seemed to us a suitable playground. Some years ago an appropriation was made for a playground in Ward 7 or 9. The playground was bought in Ward 9 and the Auditor rules that the balance not spent cannot be expended on the Ward 7 or another playground. We ask that the balance of the appropriation be transferred so that we may add it to the appropriation for the Ward 7 playground and so that we may spend it in that manner. With this added to our existing appropriation we see the way to make a proper purchase.

I would report that the Park Commission has done its part as regards the Ward 16 Playground on Dacia street and the matter is now in the hands of the Street Commission to conclude the business.

As to the appropriation for a playground in Ward 20 I would report that we have advertised for bids but before taking action we have decided to confer at greater length with you regarding this matter.

Among the transfers from the reserve fund approved by you June 26, 1911, one reads Savin Hill Playground Improvements, \$3,500. Our request was for Savin Hill Park, loam, planting and steps, \$3,500. The latter is much needed to finish the improvements that have been undertaken at Savin Hill Park, and the sum would be very small to accomplish an improvement that would be worth while on the playground. We therefore ask that the appropriation be changed so as to read for the purpose for which we asked it, namely, Savin Hill Park, loam, planting and steps, \$3,500.

If the Council or Your Honor desire to improve matters at the Savin Hill Playground we request that you give us a substantial appropriation, \$10,000 or \$15,000 and thereby permit us to purchase some more beach which has lately been offered to us and renew the sand on the beach which alone would cost \$1,000.

In our request for works of construction and improvement we suggested a play shelter on Copp's Hill Terrace at a cost of \$28,400. In our judgment this is a very desirable improvement because it would provide in a most sightly place and for this reasonable sum a building of two stories which would practically equal in value a new small playground in that district. If the Council cannot see its way to appropriate \$28,400 for this shelter we ask that at least they give us, to make some changes to give increased accommodation, the sum of \$5,000.

The center of Billings field is marshy. We have tried to fill it with the ashes from the neighborhood but never get enough of it to complete the job. We should like to finish the field which is otherwise so attractive, and ask for this purpose \$1,000.

We should also like to get funds to advance the following work:

Rogers Park, planting and grading, \$1,500; Dorchester Park, water supply and fountains, \$750. From the Parkman Fund we should like to ask for the following appropriations:

Castle Island, new water supply, 4-inch pipe, across the bridge to take the place of a 2-inch pipe now worn out, \$3,000.

In carrying out the improvements in Charlesbank we have found it necessary to go slightly beyond the appropriation from the Parkman Fund and to make this up we ask for \$600; and to further repair the fence on the seawall \$600; or a total of, \$1,200.

The Park Commission is now building the bears' dens and the bird cage and the main sewer and water supply at the Zoo. Beyond the appropriations already made we shall need to thoroughly complete these the sum of about \$20,000.

We are anxious to start on building the winter bird house which is adjoining the large flying cage at the Zoo and for this purpose shall need an appropriation of \$75,000.

Yours truly,
ROBERT S. PEABODY,
Chairman.

Ordered, That the following sums be, and hereby are, appropriated from the income of the Parkman Fund for the present year, to be expended under the direction of the Board of Park Commissioners:

Charlesbank, completion of improvements.....	\$600 00
Further repairs upon fence on seawall.....	600 00
Castle Island, new water supply, 4-inch pipe.....	3,000 00
Franklin Park, bears' dens, bird cage, sewer and water supply for zoological garden.....	20,000 00

Referred to the Committee on Parkman Fund.

PARKS AND SQUARES IMPROVEMENTS, ETC.

The following was received:

City of Boston,
Office of the Mayor, August 22, 1911.
To the City Council:

The accompanying communication from the Superintendent of Public Grounds, addressed to Secretary William A. Leahy, indicates the needs of various parks and squares under his jurisdiction, which come under the provisions of the will of the late George Francis Parkman, and which may be improved from the income of the fund bequeathed by him to the city for this purpose. While the entire cost of these improvements, estimated by him at eighty-two thousand one hundred seventy-five dollars (\$82,175), is in excess of the present resources of the Parkman Fund, it seems to me that certain items such as convenience stations at Franklin square, Meeting House Hill, Madison park, and Washington park, and the bubble fountains in various parks, might well be provided at the present time.

I recommend, therefore, the passage of the accompanying order, appropriating fifteen thousand dollars (\$15,000), from the income of the Parkman Fund for the present year, to be expended under the direction of the Superintendent of Public Grounds for convenience stations, bubble fountains, and other improvements in the public parks and squares.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Grounds Department,
Dorchester, March 7, 1911.

Mr. William Leahy,
Mayor's Office, Boston, Mass.:

Dear Sir,—In answer to your letter of inquiry concerning the renovation and improvement of public grounds in the several sections of the city (the cost of same to be paid from the Parkman Fund) I would state that there is a great apparent need in the majority of these districts for general improvements, particularly in the following-named parks and squares. I have recommended what appears to be the most important items in the needs of each district, together with the presumed cost. Of course it is understood that all estimates rendered are but approximate.

City Proper:

Berwick Park.—New iron fence, \$600; bubble fountain, \$125.
Blackstone Square.—Apparatus for up-to-date sand garden, \$1,500; granolithic walk, \$700; one bubble fountain, \$125; permanent concrete settees, \$400.
Concord Square.—Bubble fountain, \$125; new iron fence, \$1,200.
Fort Hill Square.—New granolithic walks, \$1,500; permanent concrete settees, \$175; bubble fountain, \$125.
Franklin Square.—Comfort station, \$4,000; bubble fountain, \$125; permanent concrete settees, \$400; loam and manure, \$300.
Massachusetts Avenue.—Reconstruction of walks, \$2,000; bubble fountain, \$125; comfort station, \$4,000; permanent concrete settees, \$300.
Rutland Square.—New iron fence, \$1,500; bubble fountain, \$125.
Union Park.—Permanent concrete settees, \$200; bubble fountain, \$125; replanting, \$200.
Worcester Square.—New iron fence, \$2,500; permanent concrete settees, \$150; bubble fountain, \$125.

Brighton District:

Brighton Square.—Loam and manure, \$400; bubble fountain, \$125; permanent concrete settees, \$200; replanting, \$125.
Jackson Square.—Bubble fountain, \$125; permanent concrete settees, \$150.

Charlestown District:

City Square.—Bubble fountain, \$125; permanent concrete settees, \$350.
Sullivan Square.—Loam and manure, \$600; bubble fountain, \$125; permanent concrete settees, \$250.
Winthrop Square.—Cleaning and repointing monument, \$200; loam and manure, \$400; bubble fountain, \$125; permanent concrete settees, \$300.

Dorchester District:

Meeting House Hill.—Loam and manure, \$1,200; bubble fountain, \$125; comfort station, \$4,000; granolithic walks, \$2,000; permanent concrete settees, \$500.
Mount Bowdoin.—Permanent concrete settees, \$275; bubble fountain, \$125.

East Boston District:

Central Square.—Loam and manure, \$1,000; granolithic walks, \$900; permanent concrete settees, \$300; bubble fountain, \$125.
Maverick Square.—Loam and manure, \$400; permanent concrete settees, \$350; bubble fountain, \$125.
Belmont Square.—Loam and manure, \$500; permanent concrete settees, \$200; bubble fountain, \$125.
Putnam Square.—Bubble fountain, \$125.
Prescott Square.—Bubble fountain, \$125.
Roxbury District:
Bromley Park.—Loam and manure, and replanting, \$1,000; bubble fountain, \$125.
Fountain Square.—Replanting, \$500; loam and

manure, \$1,000; new granolithic walk, \$1,200; bubble fountain, \$125.

L. ngwood Park.—Granolithic walk and steps, \$900; bubble fountain, \$125.

Madison Park.—Loam and manure, and bringing up to grade, \$6,000; comfort station, \$4,000; granolithic walks, \$2,000; two bubble fountains, \$250; permanent concrete settees, \$650.

Washington Park.—Apparatus for up-to-date sand gardens, \$1,500; comfort station, \$4,000; granolithic walks, \$6,000; additional soil and manure, \$1,500; bubble fountain, \$125; permanent concrete settees, \$700.

South Boston District:

Independence Square.—Completion of walks in granolithic, \$4,000; replanting certain sections, \$2,000; fertilizers, \$50; replacing hedge, \$300.
Thomas Park.—Repairs on Historic Monument, \$3,000; loam and manure, \$1,000; permanent concrete settees, \$200; bubble fountains, \$125; resurfacing walks, \$500.

West Roxbury District:

Soldiers' Monument Lot.—Cleaning and repointing, \$225; bubble fountain, \$125.

We have not included Orchard Park, Roxbury District, in our list, as the City Government has for some time considered the advisability of enlarging its territory, and again the matter of establishing a playground there has been discussed. Until such time as the matter is definitely settled we must refrain from submitting estimates in regard to its improvement.

In conclusion, I would strongly recommend that an appropriation be set aside from the Parkman Fund for the undertaking of this work. Although we thoroughly appreciate the urgent need of attention to these improvements on the various squares, it would be impossible for us to carry on the work from our General Appropriation as its amount will not admit of extra expenditures, aside from our regular work.

There are a number of other public grounds, proportionately in need of renovation, which we have not included as they are not covered by the Parkman Bequest, not being in existence in this department in the year 1887.

Respectfully submitted,
D. H. SULLIVAN,
Superintendent.

These improvements total \$82,175.

Ordered, That the sum of fifteen thousand dollars (\$15,000) be, and hereby is, appropriated from the income of the Parkman Fund for the present year, to be expended under the direction of the Superintendent of Public Grounds for convenience stations, bubble fountains, and other improvements in the public parks and squares.

Referred to the Committee on Parkman Fund.

SAVIN HILL PARK IMPROVEMENTS.

The following was received:

City of Boston,
Office of the Mayor, August 22, 1911.
To the City Council:

At its meeting of June 26, 1911, an order was passed by your honorable body, on my recommendation, transferring the sum of three thousand five hundred dollars (\$3,500) from the appropriation for Reserve Fund to an appropriation for Savin Hill Playground, Improvements. I am informed that the appropriation was really desired for loam, planting, and steps at Savin Hill Park and that the appropriation for the playground will be of comparatively little value.

I recommend, therefore, the passage of the accompanying order, transferring the sum of three thousand five hundred dollars (\$3,500) from the appropriation for Savin Hill Playground, Improvements to an appropriation for Savin Hill Park, Improvements.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893, the City Auditor be, and hereby is, authorized to transfer the sum of three thousand five hundred dollars (\$3,500) from the appropriation for Savin Hill Playground, Improvements, to an appropriation for Savin Hill Park, Improvements.

Referred to the Executive Committee.

CONDITION OF "VIGILANT."

The following was received:

City of Boston,
Office of the Mayor, August 17, 1911.
To the City Council:

Your attention is called to the accompanying letter from the Finance Commission, with the report of its engineer attached thereto, also a copy of my communication of August 16, in reply to the letter of the commission. The report of the expert who will examine the condition of the "Vigilant," as promised in my communication, will be forwarded to your honorable body as soon as it is received.

Respectfully,
JOHN F. FITZGERALD, Mayor.

(For letter from Finance Commission see page 625.)

Referred to the Executive Committee.

FIRE PROTECTION FOR CITY.

The following was received:

City of Boston,
Office of the Mayor, August 21, 1911.

To the City Council:

I beg to transmit a communication from the Fire Commissioner containing a reply to the order of your honorable body passed at the meeting of July 17, and covering the questions "What sections of the city are in need of fire protection, the character of apparatus necessary, and the number of men required to safeguard the interests of the public."

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Headquarters Fire Department, Bristol Street,
Boston, August 17, 1911.

His Honor the Mayor and the Honorable City Council:

Gentlemen,—Pursuant to an order passed by the City Council July 17th calling upon the Fire Commissioner to report through the Mayor concerning additional protection required to safeguard the interests of the city against fire, I have the honor to recommend the following:

RECOMMENDATIONS.

Building Limits.

That the Building Limits of the City of Boston be extended to include the entire city.

The manifest duty of the City Government is to put an end to under box construction. The danger of a sweeping conflagration in the suburbs, which may leave thousands homeless, should not be increased. The extension of the Building Limits is of incalculable importance and should not be delayed. Attached is a communication recommending the extension of the Building Limits to the entire city.

Motor Apparatus.

That a proper sum be made available at once for the purchase of motor apparatus. Such a sum will enable the department to change all chemical engines, all chief's buggies, certain administration wagons, hose wagons and ladder trucks to motor vehicles. Fast service of this character in our suburbs will do much toward reducing the fire risk. A more extended report on motor apparatus is attached.

PREVIOUSLY RECOMMENDED.

This office has already recommended and renews its recommendation for fifty additional firemen. Certain measures for fire protection on Parker Hill have been promulgated. The department is proceeding with plans for better fire protection in the vicinity of Oak square.

CONCLUSION.

If the above recommendations are carried out, in my opinion, the several localities, where fire protection should be improved, will be benefited. Dorchester and West Roxbury will benefit particularly by an extension of the Building Limits, and by the adoption of motor apparatus. The steps recommended will insure such reasonable safety from fire as is possible under the present condition of buildings. This department has asked for no more funds than is believed to be necessary.

With respect to per unit cost comparisons between leading cities I desire to draw your attention to the following:

PER CAPITA COST IN VARIOUS CITIES.

I attach hereto a statement showing that there can be no true per capita comparison of fire department costs between the leading cities of the country without proper allowance being made for differences due to methods of accounting, the distribution of the local population, topography, and the fire risk to be guarded against. In effect this statement shows that the Boston Fire Department is maintained at a very reasonable figure.

Favorable action should be taken on the above recommendations immediately in order to provide properly for the public safety.

Very respectfully,

CHARLES D. DALY,
Fire Commissioner.

(Three inclosures: 1. Building limits; 2. Motor apparatus; 3. Per capita costs of fire departments.)

BUILDING LIMITS.

The area in which only buildings of the first or second class, i. e., brick buildings, may be built, was last defined by the ordinance of 1892. Under this ordinance, Boston, with a total area of forty-two square miles, set aside approximately 10 per cent of that area, 4.2 square miles, as a section in which only brick buildings might be built.

Since the passage of this ordinance the population and the developed land of the city have made great advances. In the outlying sections of the city has this been particularly the case. Dorchester, Wards 20 and 24, in the last ten years has increased in population over 50 per cent, the total valuation of new buildings has increased 24 per

cent, and the miles of accepted streets, 12 per cent. Approximately the same statistics are true of West Roxbury, Ward 23, and Brighton, Ward 25. The population of these latter sections has increased approximately 30 per cent, and the assessed valuation of new buildings over 35 per cent. Roughly speaking, the population and valuation of the outlying sections of this city in the last ten years have both shown an increase of 30 per cent. Throughout the entire city this increase has been 20 per cent.

The character of the construction that has gone on throughout the city, outside the building limits, has been such as to cause grave concern to those interested in fire protection. It is needless to more than mention the vast areas of tinder-box buildings that the law has permitted. It is undeniable that at the present time we could have, due to this building policy, a conflagration in certain sections of this city akin to that which took place in Chelsea.

To reduce this conflagration risk there is one paramount step which should be taken. The construction of wooden buildings should be stopped. Just as soon as the entire city is included within the building limits so soon will the City Council have placed this city on an intelligent basis as far as fire protection is concerned.

Strengthening the Fire Department is no more important than the vast results obtainable by an extension of the building limits.

There are certain sections of the city which all parties agree should be included within the building limits. I think it is a fair statement to say that few will oppose the extension of the limits to Charlestown, most of East Boston, South Boston, and all of the City Proper as far as Heath street, Columbus avenue, Seaver street and Columbia road. I think it is fair that the City Council should accept this area as the minimum which should be included in the building limits.

It is the belief of many that the entire city should be at once incorporated within the building limits, and this department earnestly recommends that the City Council take such action.

I desire to point out that the building limits of Boston include 4.2 square miles, whereas those of New York include 20 square miles, Philadelphia, 98 square miles, Baltimore, 15.2 square miles, Chicago, 50 square miles, St. Louis, 31 square miles. These figures need no comment.

Finally you will recall that as previously stated the outlying sections of the city have grown in population and valuation at the rate of not less than 30 per cent in ten years, whereas the building limits, the one great feature making for fire protection, have received no attention since 1892. Here again is a fact which requires no comment. It is manifest to any thinking person that the city government should continue a policy of extending the building limits in accordance with the growth of new buildings and new population.

Note.—Attached are certain tables which I recommend to the attention of the Council.

1. A table showing the fire limit areas of the largest cities of the country.

2. A table showing the increase of population, valuation, and new streets in Dorchester, West Roxbury and Brighton.

3. A table showing the increase of population, valuation and streets throughout the entire city.

MOTOR APPARATUS.

This department has made a careful study of changing its horse-drawn apparatus to that of motor driven type. The present equipment of the Boston Fire Department has proven up to date an efficient fire stop for both down town and out of town fires. Any replacement of this apparatus necessitates changing from sure protection to untied apparatus whose efficiency under trying conditions may prove problematic. When it is considered that the value of the property protected is \$1,400,000,000, and the number of people served is approximately 1,000,000 the seriousness of any change from present satisfactory conditions can be fully realized. No large city has as yet adopted any material amount of motor apparatus. Small cities, where the conflagration risk is neglected, and economy is the essential item, are its chief exponents. It has therefore been considered wise to recommend only such motor apparatus as has been tried and proven efficient under all conditions. After a complete investigation the following is recommended:

RECOMMENDATIONS.

It is recommended that approximately \$200,000 be expended by this department for motor apparatus. If this sum is considered excessive the first three subsidiary recommendations involving the sum of \$100,000 should be adopted. It is suggested that this sum might properly be transferred from the reserve.

The recommendations are:

First.—The replacement of all district chiefs' buggies and the buggies of the superintendent of repairs and the superintendent of fire alarm by automobile runabouts. This involves fifteen horses and buggies.

Second.—The replacement of the present two-horse wrecking wagon and the two-horse supply wagons of the Fire Alarm Branch and the Repair Division by automobile combination wagons which will be duplicates of the chemical hose wagons and will constitute reliefs for the same. This will involve three wagons and six horses.

Third.—The replacement of the entire chemical

engine equipment by automobile chemical hose wagons. This involves ten chemical engines and twenty horses.

Fourth.—The replacement of thirteen ordinary hose wagons by automobile chemical hose wagons of sufficient capacity to service the high pressure system in future years if necessary. This involves thirteen wagons and twenty-six horses.

Fifth.—The replacement of four out of town ladder trucks by the same number of automobile ladder trucks. This involves four ladder trucks and twelve horses.

Sixth.—The replacement of two chemical engines by automobile ladder trucks. This involves two chemical engines and four horses.

COST OF EXCHANGE.

This entire replacement involves the sale of eighty-three horses, twelve chemical engines, sixteen wagons, four trucks, and eighty-three harnesses. Computed at the following prices, which could no doubt be obtained in exchange for new apparatus, the following amount would be received:

Horses, 83 at \$150.....	\$12,450
Chemical engines, 12 at \$500.....	6,000
Wagons, 16 at \$100.....	1,600
Buggies, 15 at \$50.....	750
Harnesses, 83 at \$5.....	415
Ladder trucks, 4 at \$500.....	2,000
	\$23,215

The necessary equipment to replace this apparatus would cost:

Combination hose wagons, 26 at \$5,000.....	\$130,000
Ladder trucks, 6 at \$5,500.....	33,000
Runabouts, 15 at \$1,750.....	26,250
	\$189,250
	23,215
	\$166,035

In order that the purchasing authority may have proper leeway for changes in plans, additions thereto, and changes in prices it would seem best to recommend that approximately \$200,000 be made available for the carrying out of these recommendations.

DIFFERENCE IN MAINTENANCE EXPENDITURES.

To maintain one horse one year in the Boston Fire Department costs \$250. This figure has been obtained by taking the approximate average expenditure for the maintenance of horses for the last five years. These expenditures are made up of bills for the following: hay, grain, straw, shoeing, purchase and exchange of horses, harnesses and repairs, horse hire, attendants at hospital, medicines, etc.

There is considerable difficulty in estimating what would be the maintenance costs of motor equipment in this department. The maintenance costs of smaller cities and towns, in my opinion, are not reliable. They are based on smaller service mileage such as is not comparable with the work in Boston. Moreover, manufacturers of motor apparatus make many important repairs without cost at this time. It is reasonable to expect that later these repairs will not be free and will be numerous.

The cost of Motor Chemical 13 for this department for one year has been \$338. This includes an expenditure of \$100 for spare tires.

In my opinion the maintenance expenditures of motor chemical apparatus would not exceed \$500, or the maintenance expenditures for horse drawn apparatus. It is possible that the charges would be somewhat less than \$500, but considering the increase in repairs as the car depreciates, the heavy cost of repairs resulting from accidents, and the high cost of maintenance of pleasure cars, and the uncertainty with respect to depreciation, I do not feel that it would be safe to estimate any material and sure saving in maintenance over horse drawn apparatus. At the same time motor apparatus could unquestionably be maintained for not more than \$500 per piece and there would probably be some saving.

It is not out of the question that this saving would amount to not less than \$50 per horse, or \$100 per team. In the case of the larger plan this would amount to \$4,150 per year or the interest on about \$103,750 at 4 per cent. In the case of the smaller plan a saving of \$100 per team would amount to \$2,250 per year, or the interest on about \$56,000.

It is apparent that the services of drivers, who are paid \$1,200 per year would be available with motor apparatus.

GAIN IN EFFICIENCY.

First.—The speed of horses responding to an alarm is from 12 to 15 miles an hour under the best conditions. The automobile will cover more than twice this distance in the same time if necessary.

Second.—It can cover a long distance with the same speed as short ones.

Third.—It is back in quarters quicker than horses and ready to respond to another alarm.

Fourth.—The services of the driver of an automobile are available, which is not so with the driver of horses.

Dorchester, with its large area of wooden buildings, and West Roxbury, rapidly building up in the same manner, needs just such fire service as automobile chemical hose wagons can give. Their speed will enable them in the case of single fires to reach the fires quicker and extinguish it in its incipency. In the case of larger fires they will be enabled to cover long distances at great speed, which will be necessary when flying sparks travel from roof to roof.

APPLICATION OF THE NEW EQUIPMENT.

The plans of this department contemplate the installation of motor apparatus in the following houses:

First.—Ten chemical engine companies.
Second.—Fifteen chief's buggies.
Third.—Three administration wagons.
Fourth.—Six out of town ladder trucks, to wit.: Ladders 27, 25, 16 and 6, and ladder trucks in place of chemical engines 5 and 6.
Fifth.—The installation of automobile hose tenders in the quarters of Engines 16, 17, 18, 19, 20, 28, 29, 30, 34, 37, 41, 45 and 46.
 These wagons are to be built of a sufficient capacity to carry 1,000 feet of 3-inch hose, thereby making them available for service as high pressure wagons in the down-town district, if so desired in later years.

SMALLER PLAN.

If the sum of approximately \$200,000 is considered beyond the means of the city for the present, I earnestly recommend that so much of the recommendations as involves the change of horse-drawn chief's buggies and chemical engines to motor driven be adopted. The smaller plan includes the first three recommendations with the exception that there will be twelve chemicals. The figures involved are:

Sale of present equipment:	
Horses, 45 at \$150.....	\$6,750
Harnesses, 45 at \$5.....	225
Buggies, 15 at \$50.....	750
Wagons, 3 at \$100.....	300
Chemical engines, 12 at \$500.....	6,000
	<u>\$14,025</u>
Cost of new equipment:	
Runabouts, 15 at \$1,750.....	\$26,250
Chemical engines, 15 at \$5,000.....	75,000
	<u>\$101,250</u>

The difference in maintenance, possible saving of \$2,250 per year.

Estimated net sum for smaller plan, \$100,000.

NOT RECOMMENDED.

It has not seemed wise to recommend the purchase of gasoline pumping engines for the following reasons:

First.—It has not yet been proven that the gasoline pumping engine can maintain a capacity of seven hundred gallons per minute for a material length of time.

Second.—The purchase of these engines up to date have been in the nature of experiments. Boston with its heavy fire risk can not afford to experiment in any large degree with the most important part of its equipment, the pumping engine.

Third.—No large city has as yet done more than buy an experimental gasoline engine.

Fourth.—It is very questionable as to whether a motor drawn steam boiler, such as in service in New York, may not prove a more satisfactory type than the single piece gasoline pumping engine and hose cart.

It is possible that later a gasoline driven engine may be perfected that will pump with reliability over 700 gallons and which will also carry 1,000 feet of hose and ten men. For the present I am of the opinion that there is no such engine. Should it be developed the economies possible will not be lessened by the adoption of these recommendations.

In my opinion the city should not proceed beyond the purchase of a single experimental engine which could be made from department funds.

On similar grounds no purchase of motor water towers or heavy ladder trucks should be made. Up to date there has been but one motor water in existence in this country, and that but a very short time. There are very few heavy motor ladder trucks. Considering the supreme necessity of maintaining the efficiency of these fire fighting machines, as well as the pumping engines, it seems wise to delay any action with respect to this apparatus for the present.

CONCLUSION.

I desire to call your attention to the fact that this department has recommended only such equipment as has been tried and proven reliable. The proposed increase in efficiency will apply to a great extent to Dorchester and West Roxbury. These sections of the city will greatly benefit by fast moving chemical wagons. The recommendations have involved a sum of money which might justly be expended from the reserve if it is proposed

to maintain the Fire Department of the city on an up-to-date basis.

PER CAPITA COST COMPARISON OF FIRE DEPARTMENTS.

The difference in the per capita cost of fire departments in the various leading cities of the country may be considered under four heads.

First.—The difference due to the variations in accounting.

Second.—The difference due to the distribution of the local population.

Third.—The difference in the first risk to be guarded against.

Fourth.—The difference due to topography.

THE DIFFERENCE DUE TO VARIATIONS IN ACCOUNTING.

In the City of Boston it is customary to charge all the expenses arising from pensions, fire alarm service, and many permanent improvements, to the Fire Department appropriation, and thus to the per capita cost. This rule does not prevail in many other large cities.

For instance in the city of New York the receipts from foreign fire insurance taxes, special permits, licenses, etc., are credited to the relief and pension fund, and there is only a nominal charge to the fire department appropriation for pensions.

The expenses of the fire alarm in the cities of Chicago, Philadelphia, San Francisco, and Washington, are charged to a department of electricity, in the City of Boston this is charged to the Fire Department appropriation.

In the City of Boston it is customary to make permanent improvements out of the Fire Department appropriation. Houses are remodelled and additions are made to quarters which are charged to the Boston Appropriation. Further it is customary to charge all apparatus to the Boston appropriation. In New York and Chicago the new apparatus is charged to separate loans. In New York there is a separate appropriation made for permanent improvements. I am also informed that new hose and horses are paid for from corporate loans. In Chicago, San Francisco, Philadelphia and Washington the fire alarm service is supported from funds other than those of the fire department.

Thus it would seem that there can be no fair comparison of expenses without a uniform method of accounting. This does not exist and therefore any comparison of the per capita cost is bound to be unjust until proper allowance is made.

THE DIFFERENCE DUE TO THE DISTRIBUTION OF THE LOCAL POPULATION.

The City of Boston comprising some forty-two square miles includes the mercantile district of the Metropolitan area. The population inhabiting the Metropolitan area, some 1,500,000 is benefited by the fire service rendered by the City of Boston to their mercantile establishments without tax. Moreover the protection maintained by Boston is relied upon by contiguous cities as

available in case of conflagrations. Therefore it results that the benefits derived from the fire service in the immediate city extend throughout the Metropolitan area.

I have statistics showing the cost of fire protection in the various cities and towns in the Metropolitan district. The ratio of this cost to the Metropolitan population shows a per capita cost of \$1.88. This figure is the true per capita cost throughout the Metropolitan area, and because of the distribution of the population and property it is not correct to consider Boston's per capita cost independently of this figure. On the other hand, if this figure is taken as an index of the cost of fire protection it will be found to compare favorably with other American cities.

I desire to point out that the Metropolitan per capita for fire protection of \$1.88 compares very favorably with the Metropolitan per capita for police protection of \$2.20. I desire further to point out that the per capita cost of fire protection and police protection in the immediate city area is \$2.41 as against \$3.09. The high cost of providing for the public safety is due, not only to the fact that the public safety is well provided for, but also to the fact that the immediate city serves the Metropolitan population and property.

THE DIFFERENCE IN THE FIRE RISK TO BE GUARDED AGAINST.

The fire risk in the city of Boston is one of the heaviest in the world. The down-town district is covered with old second class buildings. Structural conditions, occupancies and other conditions tending to produce a high conflagration hazard occur most noticeably in that section between Boylston and Merrimac streets, which consists of large area blocks, with crowded and poorly accessible interiors. There are other areas about the district in which conditions are bad and block fires are liable to occur. The narrow streets are of very little value in preventing the spread of fire. The prevailing direction of the winds subjects that portion of the district east of Washington street to exposure from fire in the more probable conflagration breeding section.

The conflagration risk outside the city proper is notorious. Charlestown is an admirable example of conditions that afford the elements of a conflagration. On one side of the district is a row of hay and grain sheds; in the centre are long rows of wooden buildings; and on the other side the lumber yards make excellent food for the start or finish of a second Chelsea. Fire protection of the highest order is an absolute necessity.

Conditions in Dorchester have been well described as those of a lumber camp. Tinder box construction prevails in wholesale quantities. This section faces a conflagration which, some day, will leave thousands of people homeless.

No such risks exist in the other leading cities of the country. This is due partly to their wise provisions with respect to the building limits. I call your attention to the following table with respect to these limits in the leading cities of the country.

TABLE OF BUILDING LIMIT AREAS IN THE LEADING CITIES OF THE COUNTRY.

CITY.	Population, 1910.	Area, Square Miles.	Fire Limits, Square Miles.
Pittsburgh (entire).....	588,905	40 67	8.61
Old City.....		37 67	5.78 (1909)
Baltimore.....	588,485	31 65	15.2 (1909)
Boston.....	670,585	42 07	4.02 (1905)
		Land 38 5	
Philadelphia.....	1,549,008	129 58	68.0 (1905)
New York.....	2,410,250	21 93	*
Cincinnati.....	364,463	43 55	5.0 (1909)
Chicago.....	2,185,283	190.64	50.30 (1905)
St. Louis.....	687,029	61 37	31.45 (1905)

* Manhattan. Practically the entire area of the borough, 20 square miles.

Due to the fact that the fire risk in this city is heavier than in any other large cities it is necessary to maintain a stronger fire department.

DIFFERENCE DUE TO TOPOGRAPHY.

Boston is divided into five sections, four of these divisions are caused by extensive waterways. These sections are East Boston, South Boston, Charlestown, Brighton and the City Proper. Owing to congestion at the bridges and ferries leading to these various sections, and the fact that the apparatus all comes from the same general direction, it would be impossible to concentrate quickly and properly a large amount of apparatus in case of a big fire. Therefore we must maintain independently strong protection for each of these separate sections mentioned. On account of this comparative isolation, it is also necessary to be cautious about depleting these districts of apparatus in case

a large fire should occur in another section. Therefore it results that these districts instead of being able to rely to a certain extent upon apparatus in contiguous districts, must be defended independently by their own apparatus and men, and a certain large percentage of this defence must be maintained at all times. This necessitates more apparatus and more men than would be necessary if we did not possess these independent sections.

CONCLUSION.

I desire to call your attention to the following table of ratios between fire department appropriations and total assessed valuations. You will see from this table that the city of Boston compares favorably with other cities of the country. This table shows Boston to be operated the fourth cheapest of the thirteen cities stated.

CITY.	Total Appropriation for Fire Department.	Assessed Valuation.	Ratio, 1-100 of 1 Per Cent.
New York	\$8,153,542 40	\$7,416,837,499	11 0
Chicago	3,001,158 99	2,524,699,600	11.5
St. Louis	1,104,823 49	855,872,300	12.9
Boston	1,582,390 36	1,393,765,432	11 3
Cleveland	902,420 00	875,000,000	10 3
Detroit	1,023,249 86	337,335,980	29.7
Buffalo	904,877 00	312,276,240	29 0
San Francisco	1,262,432 00	515,420,089	24 5
Milwaukee	720,000 00	247,573,150	29.6
New Orleans	424,832 00	230,840,937	18.4
Baltimore	1,582,289 40	698,135,168	22.7
Cincinnati	829,096 00	250,283,550	33.1
Washington	683,230 00	323,956,753	21.1

I desire, further, to call your attention to the following table showing the percentage of the general tax of the city which is used for the fire department appropriation. This table is an excellent one as far as statistics go, and again you will see that the city of Boston compares very favorably.

PERCENTAGE OF THE GENERAL TAX USED FOR THE MAINTENANCE OF THE FIRE DEPARTMENT.

(This table shows Boston to spend for fire protection relatively less of its general tax than seven out of ten leading cities tabulated.)

New York	04.2
Chicago	12.5
St. Louis	07.1
Boston	06.3
Buffalo	13.2
San Francisco	13.9
Milwaukee	09.5
New Orleans	14.5
Cincinnati	12.0
St. Paul	10.8

I desire, further, to point out that the administration of the Fire Department is being conducted as economically now as it was six years ago at the end of Commissioner Russell's term of office. The cost per fireman, exclusive of salaries and pensions, for the year 1910-1911 was \$302.92, and for the year 1904-1905, the cost per fireman, exclusive of salaries and pensions, was \$313.52. This figure includes repairs, maintenance, fire alarm service, etc., and is obtained by dividing the sum of the bills of the department by the number of department members.

Due to the heavy fire risk and the topography of the city it is necessary to maintain a strong fire department. Due to the local distribution of population and property the services of the department extend throughout the metropolitan area. These conditions, as well as variations in accounting, make a per capita comparison with other cities unjust unless proper allowance is made.

Referred to the Executive Committee.

PLAYGROUND, PARKER HILL.

The following was received:

City of Boston,

Office of the Mayor, August 22, 1911.

To the City Council:

Under date of June 26, 1911, I addressed a communication to your honorable body, recommending an appropriation of forty thousand dollars (\$40,000) for Playground Accommodations in Ward 19. The chairman of the Board of Park Commissioners requests, in the accompanying letter addressed to Acting Mayor Collins, that the title of the original appropriation of sixty thousand dollars (\$60,000) for a playground in the Parker Hill district be altered so that in case the second appropriation is made the two may be regarded as one sum and divided in accordance with the needs of the district, and not arbitrarily in accordance with the figures given in the separate appropriations. The request of the chairman seems to me a reasonable one, and I recommend the passage of the accompanying order, transferring the appropriation for Playground, Parker Hill, to an appropriation for Playground Accommodations, Ward 19.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Board of Commissioners of the
Department of Parks,
July 6, 1911.

Hon. Walter L. Collins,

Acting Mayor of Boston:

Dear Sir,—The Park Commission ask if you will request the City Council to so change the appropriation already made for \$60,000 for a playground

in the Parker Hill district that the money can be used together with the appropriation of \$40,000 now under your consideration for the purchase of a playground in Ward 19.

Very truly yours,
ROBERT S. PEABODY, Chairman.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer the sum of sixty thousand dollars from the appropriation for Playground, Parker Hill, to an appropriation for Playground Accommodations, Ward 19.

Referred to the Executive Committee.

IMPROVEMENT OF GOVERNOR'S ISLAND.

The following was received:

City of Boston,

Office of the Mayor, August 22, 1911.

To the City Council:

At the meeting of your honorable body held July 17, 1911, the Special Committee on Use of Governor's Island reported itself as being "heartily in favor of the taking of this island for park and playground purposes." In my opinion the planting of the island with trees, the development of a portion of it as a playground, and the provision of facilities for access to it ought not to be delayed any longer. The communications from Major General Grant, referred to your honorable body at its meetings of February 20, 1911, and June 13, 1911, indicate an attitude of expectancy if not impatience on the part of the national authorities, owing to what they may not unreasonably regard as the procrastination of the City of Boston.

I recommend, therefore, the passage of the accompanying order, accepting the permission granted in the joint resolution of the Houses of Congress and approved June 5, 1902, as a preliminary to the passage of a special appropriation of twenty-eight thousand two hundred and twenty-five dollars (\$28,225) to be expended by the Board of Park Commissioners for the improvement of the island.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the following resolution be accepted and that his Honor the Mayor, be authorized to notify the Major-General Commanding, Department of the East, of the intention of the city government of Boston to take advantage of the permission granted therein:

"Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, that the Secretary of War is hereby authorized to permit the City of Boston, in the State of Massachusetts, to improve and beautify Governor's Island, or a portion thereof, situated in said city and belonging to the United States, in connection with the mooring berths to be built adjoining said island, and to make such excavations and fillings and erect and maintain such structures as may be considered proper for the purpose; all upon plans to be previously approved by the Secretary of War; provided, that the permission given pursuant to this resolution shall not pass any right or title in said island, but shall be revocable at will by the Secretary of War, and the ownership of said island shall remain entirely in the United States, and it shall be subject to such uses for military or other purposes as the Secretary of War may at any time direct."

Referred to the Executive Committee.

LIGHTING OF PLAYGROUNDS.

The following was received:

City of Boston,

Office of the Mayor, August 16, 1911.

To the City Council:

I beg to transmit the accompanying statement from the Secretary of the Board of Park Commis-

sioners, in reply to a request forwarded in compliance with your order passed at the meeting of June 26, to the effect that "the Park Commissioners be requested to furnish an estimate of what it would cost to properly light the various playgrounds, with special reference to Columbus Avenue and William Eustis Playgrounds and the Charlesbank, and whether the same could be done out of their present appropriation."

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Board of Commissioners of the
Department of Parks,
Jamaica Plain, Mass., August 11, 1911.

Hon. Walter L. Collins,

Acting Mayor of Boston:

Dear Sir—The Board has received the accompanying order of the City Council, requesting the Park Commissioners to furnish an estimate of what it would cost to properly light the various playgrounds, with special reference to Columbus Avenue and William Eustis Playgrounds and the Charlesbank, and whether the same could be done out of their present appropriation, and I am directed to say, in reply, that the Edison Company will install one arc lamp on Camden street, opposite Roosevelt street, and place three arc lamps on the streets bordering William Eustis Playground, without expense to the city, so that the installation will cost this department nothing. The cost of maintaining these lights will come under the Department of Public Works.

The Charlesbank is already very well lighted, except the girls' gymnasium and playground, which are closed at night, and are so well fenced in that there appears to be no need of any lamps there.

Yours respectfully,
GEORGE F. CLARKE, Secretary.

Placed on file.

EXHIBIT AT CHICAGO.

The following was received:

City of Boston,

Office of the Mayor, August 17, 1911.

To the City Council:

The accompanying letter from the temporary secretary of the Art Commission suggests an appropriation of three hundred fifty dollars (\$350) for an exhibit at the Chicago International Municipal Congress and Exposition, September 18 to 30, inclusive. As only seven hundred six dollars and eighty cents (\$706.80) of the appropriation of fifteen hundred dollars (\$1,500), made earlier in the year for the exhibit sent to the Philadelphia Town Planning Exhibition, was expended, the expenditure suggested by the Art Commission would be merely the reappropriation of a part of a sum previously applied to a similar purpose. I recommend, therefore, the passage of the accompanying order, appropriating the sum of three hundred fifty dollars (\$350) for an exhibit at the Chicago International Municipal Congress and Exposition, and providing that it be charged to the Reserve Fund.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,

Art Commission, August 16, 1911.

Hon. John F. Fitzgerald,

Mayor of Boston:

Dear Sir,—We would like to have an appropriation of \$350 for the purpose of making an exhibit to the Chicago International and Municipal Congress at Chicago, September 18 to 30, inclusive. The same collection is to be from material which was sent to Philadelphia City Planning Exhibition in May and June, with any possible additions that may be made by the commissioner.

Respectfully submitted,
ALEXANDER STEINERT,
Temporary Secretary of the City of
Boston Art Commission.

Ordered, That to meet the expenses of an exhibit at the International Municipal Congress and Exposition at Chicago, September 18 to 30, 1911, the sum of three hundred and fifty dollars (\$350) be, and hereby is, appropriated, to be expended by the Art Commission under the direction of the Mayor, and charged to the appropriation for Reserve Fund.

Referred to the Executive Committee.

HOSPITAL AMBULANCE, EAST BOSTON.

The following was received:

City of Boston,
Office of the Mayor.

To the City Council:

In compliance with your order passed at the meeting of July 7, "That the City Hospital Trustees be requested to inform the City Council at as early a date as possible, why the East Boston Relief Station is not equipped with an ambulance, and if the Trustees did not agree some time ago to provide an automobile ambulance for said hospital," I beg to transmit the reply from the president of the Board of Hospital Trustees.

Respectfully,
JOHN F. FITZGERALD, Mayor.

The Boston City Hospital,
Boston, July 11, 1911.

Hon. Walter L. Collins,

Acting Mayor of Boston:

Dear Sir,—At a meeting of the Board of Trustees to-day, July 11, an order of the City Council was presented, "That the City Hospital Trustees be requested to inform the City Council at as early a date as possible, why the East Boston Relief Station is not equipped with an ambulance, and if the Trustees did not agree some time ago to provide an automobile ambulance for said hospital."

In reply, I have to say that on August 4, 1910, a letter was addressed to his Honor Mayor Fitzgerald, regarding this matter, which letter is on file at the Mayor's office. The conditions have not changed since that letter was written. To install the ambulance at East Boston will require one or more chauffeurs, at an expenditure of a large sum of money. The number of ambulance cases since the opening of the East Boston Relief Station on October 15, 1908, to July 30, 1910, was 705. The police ambulance has done this work in a satisfactory manner, and is always ready to respond at short notice. If there should be a casualty of a severe nature at East Boston, three or four ambulances from the City Hospital would be sent there immediately.

In view of the foregoing facts, the Trustees do not feel justified, on their own responsibility, in placing in commission this ambulance for the exclusive use of the East Boston Branch where the demand is so light, and thus depriving the hospital of its service.

The ambulance was ordered against the advice of the Trustees, because it was insisted upon that the demand justified the establishment of this service. The foregoing record shows that about one case a day covered the demand for ambulance service, and surely this is not a justification for an outlay of over \$3,000 a year, when the needs are being met as well as they are at the present time by the police. Furthermore, the ambulance in question is now being used in the East Boston service in conveying patients from the East Boston Relief Station or from their homes to the Boston City Hospital.

The Trustees desire to assure your Honor that the East Boston Relief Station has, and will have at all times the best attention, both as to its efficiency and its service.

I have the honor to be, on behalf of the Trustees,

Respectfully yours,

A. SHUMAN,

President Board of Trustees.

Placed on file.

TRANSFER FOR FOURTH STREET BRIDGE.

The following was received:

City of Boston,

Office of the Mayor, August 18, 1911.

To the City Council:

In accordance with the recommendation of the Commissioner of Public Works, as contained in the letter attached hereto, I beg to recommend the passage of the accompanying order, transferring the sum of five thousand dollars (\$5,000) from the appropriation for Chelsea Bridge North, and the sum of two thousand dollars (\$2,000) from the appropriation for Albany Street Bridge to a special appropriation for West Fourth Street Bridge.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Public Works Department,

City Hall, August 16, 1911.

To the Honorable the Mayor:

It has been found necessary to replank this year, the whole of the West Fourth Street Bridge, an extensive job costing about \$7,000, which was not provided for in the regular maintenance appropriation of this department. The work will be done in cooperation with the New York, New Haven & Hartford Railroad Company which is responsible for the maintenance of the timber stringers and the ironwork of the bridge and whose officials find it necessary at this time to renew all of the stringers in the bridge on account of the decay of the old stringers. To meet the cost of this work I respectfully request that the following transfers, amounting to \$7,000, be made:

From Chelsea Bridge North.....	\$5,000
From Albany Street Bridge, reconstruction.....	2,000
	<u>\$7,000</u>

Respectfully,

L. K. ROURKE,
Commissioner of Public Works.

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer the sum of five thousand dollars (\$5,000) from the appropriation for Chelsea Bridge North, and two thousand dollars (\$2,000) from the appropriation for Albany Street Bridge to a special appropriation to be expended under the direction of the Commissioner of Public Works for West Fourth Street Bridge.

Referred to the Executive Committee.

APPROPRIATION FOR INFERIOR COURT COMMISSION.

The following was received:

City of Boston,

Office of the Mayor, August 16, 1911.

To the City Council:

The accompanying letter from the chairman of the Commission on the Inferior Courts of the County of Suffolk, with the certified copy of chapter 79 of the Resolves of the General Court of 1911 attached thereto, seems to make imperative an appropriation of two thousand five hundred dollars (\$2,500) for the expenses of this Commission.

I wish to recommend, therefore, the passage of the accompanying order, transferring this amount from the appropriation for Reserve Fund to the appropriation for County of Suffolk, Miscellaneous Expenses.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Commission of the Inferior Courts
of the County of Suffolk,

Courthouse, Boston, July 27, 1911.

Hon. John F. Fitzgerald,

Mayor of Boston:

Your Honor,—Under chapter 79 of the Resolves passed by the Legislature at its present sitting, a certified copy of which is herewith inclosed, a Commission on the Inferior Courts of the County of Suffolk, has been appointed by his Excellency, the Governor. Of this commission I have been designated chairman. The resolve provides that the commission "may expend in carrying out the provisions of this resolve a sum not exceeding \$2,500, to be paid by the County of Suffolk."

On behalf of the commission I respectfully ask your Honor, at your earliest convenience, to take such steps as are necessary to make the appropriation available.

Respectfully yours,

WILFRED BOLSTER, Chairman.

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893, the City Auditor be, and hereby is, authorized, with the approval of the Mayor, to transfer the sum of two thousand five hundred dollars (\$2,500) from the appropriation for Reserve Fund to the appropriation for County of Suffolk, Miscellaneous Expenses, in order to pay the expenses of the Commission on the Inferior Courts of Suffolk County.

Referred to the Committee on County Accounts.

INVITATION TO CITY COUNCIL.

The following was received:

City of Boston,

Office of the Mayor.

To the City Council:

I take pleasure in transmitting the accompanying invitation from the Old Guard of the Gate City Guard of Atlanta, Ga., to the members of the City Council, asking them to participate in the dedication of a monument commemorating their "Mission of Peace" to the eastern states after the Civil War. The ceremonies will be held on the 9th, 10th and 11th of October, 1911, and the invitation, which bears the signatures of the Governor of Georgia and the Mayor of Atlanta, as well as representative citizens of that city, seems very worthy of careful consideration and such response as your sense of the proprieties of this occasion may dictate.

Respectfully,

JOHN F. FITZGERALD, Mayor.

(Annexed was invitation referred to).

Referred to the Executive Committee.

BAND CONCERTS, DORCHESTER.

The following was received:

City of Boston,

Office of the Mayor, August 21, 1911.

To the City Council:

I beg to transmit a communication from the secretary of the Music Department, replying to an order passed by your honorable body at its meeting of July 7, to the effect "that the Music Trustees be requested, through his Honor the Mayor, to give one or more band concerts during the present summer at Moody's corner, Dorchester."

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston, Music Department,

Office of the Trustees, August 21, 1911.

Hon. John F. Fitzgerald,

Mayor of Boston:

Dear Sir,—I beg to notify you that the petition signed by citizens in the vicinity of Moody's corner, Dorchester, and the subsequent order passed by the City Council on July 7, 1911, a copy of which is attached herewith, "that the Music Trustees be requested through his Honor the Mayor, to give one or more band concerts during the present summer at Moody's corner, Dorchester" has been referred to the trustees, and I am instructed to say that owing to the condition of our finances, we will find it impossible at this time to meet the request.

During the season nine concerts will be given at Franklin Park and nine evening concerts in the

various centrally located sections of Dorchester. Together with the five concerts given on Dorchester Day the total number of concerts given the Dorchester district will total twenty-three. Owing to the extra expense to this department on Dorchester Day and the decrease in the annual appropriation, we have found it impossible to meet several of these requests during the present season which have been granted in the past.

The petition will be kept on file and a concert may be arranged for at this location next season.

Very truly yours,

WALTER L. FINIGAN, Secretary.

Placed on file.

TRANSFER FOR MYSTIC AVENUE BRIDGE.

The following was received:

City of Boston,

Office of the Mayor, August 21, 1911.

To the City Council:

I beg to transmit the accompanying letter from the Commissioner of Public Works, requesting that a special appropriation be made amounting to six thousand seven hundred and twenty dollars and seventeen cents (\$6,720.17) for Mystic Avenue Bridge. As the commissioner explains, this is the proportion which the City of Boston must pay for rebuilding this bridge in accordance with the report of a special commission, dated July 9, 1909. The decision of the Railroad Commissioners, ordering alterations and the rebuilding of the bridge, dated March 16, 1909, and the report of the appropriation commission, which determined that Boston should pay 10 per cent of the cost, are attached hereto for your information. I recommend the passage of the accompanying order.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Public Works Department,

City Hall, August 16, 1911.

To the Honorable the Mayor:

I respectfully request that a special appropriation be made, amounting to \$6,720.17, for Mystic Avenue bridge. This is the proportion of the City of Boston for rebuilding Mystic Avenue Bridge from Boston to Somerville, in accordance with report of special commission, dated July 9, 1909, being 10 per cent of the entire cost. As this is an extraordinary expense for which no provision was made at the time the annual appropriations were made, the above special appropriation is asked for.

Respectfully,

L. K. ROURKE,

Commissioner of Public Works.

(The communication from the Railroad Commissioners was annexed.)

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer the sum of six thousand seven hundred and twenty dollars and seventeen cents (\$6,720.17), to be expended under the direction of the Commissioner of Public Works for Mystic Avenue Bridge.

Referred to the Executive Committee.

TRANSFER FOR DOVER STREET BRIDGE.

The following was received:

City of Boston,

Office of the Mayor, August 21, 1911.

To the City Council:

I beg to transmit a communication from the Commissioner of Public Works, with a letter from the Division engineer of the Bridge and Ferry Division appended, requesting that the sum of two thousand three hundred and twenty dollars and sixty-two cents (\$2,320.62) be transferred from the appropriation for Albany Street Bridge, and the sum of two thousand five hundred dollars (\$2,500) from the appropriation for Summer Street Bridge to the appropriation for Dover Street Bridge. As the division engineer explains, these balances can well be spared from the objects to which they were originally applied and are needed to meet certain unexpected contingencies in the work of the Dover Street Bridge. I recommend the passage of the accompanying order.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Public Works Department,

City Hall, August 19, 1911.

To the Honorable the Mayor:

I respectfully call your attention to the attached letter of Division Engineer Fay regarding the Dover Street Bridge, and would respectfully request that the transfers asked for be granted.

Respectfully,

L. K. ROURKE,

Commissioner of Public Works.

City of Boston,

Public Works Department,

Bridge and Ferry Division,

August 18, 1911.

Mr. L. K. Rourke,

Commissioner of Public Works:

Dear Sir,—In the progress of the repair work at Dover Street Bridge it has been found necessary to do certain work not provided for by the special

appropriation, namely, to provide an entire new floor to the draw span, to repair the concrete draw pier which has been damaged by the action of sea water, and to make extensive repairs to the roadway gates, the cost of this additional work being approximately \$4,800.

I respectfully request that the sum of \$2,320.62 be transferred from the appropriation for the Albany Street Bridge and the sum of \$2,500 transferred from the appropriation for the Summer Street Bridge to the appropriation for the Dover Street Bridge to cover the cost of this additional work.

In explanation of these transfers, I would say that I have already requested the transfer of \$2,000 from the Albany Street Bridge appropriation to the special appropriation for the West Fourth Street Bridge and the sum named above is the balance of the Albany Street Bridge appropriation. In making the repairs at Summer Street Bridge it has been found possible to effect a saving of, approximately, \$2,500 by making certain changes in the design of that structure so that this sum can be spared from that appropriation.

Respectfully,
FREDERIC H. FAY,
Division Engineer.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is authorized to transfer the sum of two thousand three hundred and twenty dollars and sixty-two cents (\$2,320.62) from the appropriation for Albany Street Bridge and the sum of two thousand five hundred dollars (\$2,500) from the appropriation for Summer Street Bridge to the appropriation for Dover Street Bridge.

Referred to the Executive Committee.

REMOVAL OF PARK WALL.

The following was received:

City of Boston,
Office of the Mayor, August 21, 1911.
To the City Council:

In compliance with your order passed at the meeting of June 26, "That the Park Commissioners be requested to report upon the advisability of removing the wall now bounding Franklin Park on Seaver street, and also whether the Boston Elevated Railroad would bear the expense," I beg to transmit the communication received from the chairman of the Board of Park Commissioners.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Board of Commissioners of the
Department of Parks,
Jamaica Plain, Mass., July 17, 1911.

Hon. Walter L. Collins,
Acting Mayor of Boston:
Dear Sir,—The Park Commission herewith returns an order from the City Council relating to a wall on Seaver street. I would say that the commission is decidedly of the opinion that it is against the interests of the park that this wall should be removed. We have no means of knowing whether the Boston Elevated Railroad would bear the expense.

Yours truly,
ROBERT S. PEABODY, Chairman.
Referred to the Executive Committee.

FILLING IN OF RESERVOIR.

The following was received:

City of Boston,
Office of the Mayor, July 22, 1911.
To the City Council:

In compliance with the order passed by your honorable body at its meeting June 26, 1911, to the effect "That the Commissioner of Public Works, through his Honor the Mayor, report as to the cost of filling the reservoir in East Boston, situated at Brooks and White streets, known as 'Eagle Hill Reservoir' in a suitable manner for playground or park purposes," I beg to append a statement received from the Commissioner of Public Works informing me that "Until the metropolitan 30-inch main recently laid through Marginal street, etc., southwesterly to Chelsea street, is extended to the junction of Broadway and Williams street, it is not considered safe to abandon the 'Eagle Hill Reservoir,' and giving the estimate required in case this abandonment should ultimately be made and the reservoir leveled to grade.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Works Department,
City Hall, July 20, 1911.

To the Honorable the Acting Mayor:

In accordance with inclosed order of the City Council, dated June 26, 1911, requesting an estimate of the cost of filling the reservoir at East Boston known as "Eagle Hill Reservoir," situated at Brooks and White streets, you are respectfully informed that until the metropolitan 30-inch main

recently laid through Marginal street, etc., southwesterly to Chelsea street, is extended to the junction of Broadway and Williams street, it is not considered safe to abandon the "Eagle Hill Reservoir."

The estimated cost of grading this reservoir is as follows:

118,000 cubic yards of filling at 80 cents, \$94,400.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.
Placed on file.

APPROPRIATION FOR PENSIONS.

The following was received:

City of Boston,
Office of the Mayor, August 17, 1911.
To the City Council:

Acting under a ruling of the City Auditor, I have recommended the passage of a series of orders appropriating sums sufficient to provide pensions, under the authority of chapter 113 of the Acts of 1911, for individual employees in the Water Service of the Sewer and Water Division of the Department of Public Works, and charging these amounts to the Reserve Fund.

Other applications for retirement under this Act have been filed by laborers in that service, and have been approved by the Commissioner of Public Works and myself. To obviate the inconvenience of a separate order in each case, I have drafted the accompanying general order, which provides that these pensions shall be charged in all instances to the Reserve Fund, and recommend its passage by your honorable body.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That a sum sufficient to provide pensions under the authority of chapter 113 of the Acts of 1911 for such employees of the Water Service of the Sewer and Water Division of the Department of Public Works as may be entitled to them be, and hereby is, appropriated, and that the said appropriation be charged to the Reserve Fund.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims,
St. Stephen's Church, to be repaid the amount of repairs on clock on said church.

Hugh Crossen, to be paid \$85.50 for loss on account of injuries received while employed in the Public Works Department.

Patrick A. Dolan, to be paid \$61.12 for loss on account of injuries received while in the employ of the Public Works Department.

Hannah Johnson, to be paid for damage to clothing splashed with mud and oil from the street by an automobile.

John H. Kenney, for compensation for damage to team by a runaway hose wagon of the Fire Department.

Helen F. Yeaton, for compensation for injuries caused by an alleged defect on the Kenwood street side of 564 Washington street, Ward 20.

Increase S. Burrell, for compensation for personal injuries caused by an alleged defect in the highway at 2 Eden street.

Emma J. Goodwin, for compensation for injuries caused by an alleged defect in Washington street, near southeast corner State street.

Albert Freidberg, for compensation for injuries caused by an alleged defect in sidewalk between Nos. 223 and 225 North street.

Mrs. Marple, for compensation for injuries caused by an obstruction in Columbia road.

Sigmund Singer, for compensation for damages by overflow of water at 8 Mayo place.

T. J. Collins Furniture Company, for compensation for damage to property at 53-55 Portland street, by backing up of sewer.

Forest Hills Storage and Warehouse Company, for compensation for damage to property at corner of Call and Keyes streets, by overflow of sewer.

Timothy J. Cunoan, for compensation for damage to premises 45 Stanwood street, Roxbury, from flooding of cellar.

Frank A. Griffin, Trustee, for compensation for damages at 20 Woodlawn street, from flooding by surface water.

Mrs. Mary A. Donahoe, to be paid for damages to estate 136 M street, by the branches of a tree.

C. Goldberg, for compensation for damages at 25-27-29 Lauriat avenue by overflow of sewer.

A. J. Goldberg, for compensation for damages at 25-27-29 Lawriat avenue by overflow of sewer.

William H. Breen, for compensation for damage to property at 1 City square by overflow of water main.

Mary O'Connell, for a hearing on her claim on account of injuries received on Antrim street, May 1, 1911.

Smith Brothers, for compensation for injuries to horse by an alleged defect in Atlantic avenue, near Oliver street.

Executive.

William G. Seavey, 616 Blue Hill avenue.

Standard Oil Company of New York, Chelsea street, East Boston.

The same company, 250 Freeport street, Ward 24.

The same company, 6-8 Custom House street.

Placed on file.

ALTERATION OF LOCATIONS, ETC.

Copies of orders were received from the Street Commissioners granting the West End Street Railway Company the right to alter locations, etc., viz.:

Alteration of location on Centre street, from Green street to Seaverns avenue, 353d location.

Alteration of location on Dudley street, from Magazine street to Upham's corner, 354th location.

Alteration of location on Neponset avenue, 355th location.

Additional curve track on Washington street, south of Lotus place, 356th location.

Placed on file.

TAKING OF LAND.

A plan and descriptions of two parcels of land taken by the Old Colony Railroad Company at Butler and Huntoon streets, supposed to belong to the heirs of James Pope and heirs of Sarah L. Pope, was filed with the City Clerk July 21, 1911.

Placed on file.

FREE TRANSFERS, SOUTH STATION.

A communication was received from the Railroad Commissioners, approving of the establishment of free transfers at the South Station in Boston, on the application of the Boston Elevated Railway Company.

Placed on file.

APPROVAL OF LOCATIONS, ETC.

Notices were received from the Railroad Commissioners approving of the elevated structure of the Boston Elevated Railway Company from Causeway street to Lechmere square, East Cambridge, and approving of use of tracks by the Old Colony Street Railway Company on Neponset avenue to transport freight, etc.

Placed on file.

NOTICES OF HEARINGS.

Notices were received from the Railroad Commissioners of hearing on August 1, on petition of the Boston Elevated Railway Company, for approval of elevated structure from Causeway street to East Cambridge, and hearing on August 15 on proposed changes at Sullivan square, etc., on structure of Boston Elevated Railway Company.

Notice was received from the Railroad Commissioners of hearing on July 25, on petition of Old Colony Street Railway Company, for approval of use of tracks on Neponset avenue for transportation of freight, etc.

Placed on file.

NOTICE OF INTEREST.

Notice was received from Penal Institutions Commissioner, Fred S. Gore, of interest in Fred S. & A. D. Gore Corporation which has contract for paving Hindsale street.

Notice was received from Councilor Timothy J. Buckley of employment as instructor in evening school.

Placed on file.

RAILROAD POLICE.

Notice was received from the Police Commissioner of appointment of John A. MacNeil by the Boston, Revere Beach & Lynn Railroad Company as a railroad police officer.

Notice was received from the Boston, Revere Beach & Lynn Railroad Company that Patrick J. Vinard is no longer employed as police officer.

Placed on file.

APPOINTMENT OF CHILDREN'S TRUSTEE.

Notice was received from the Mayor of the appointment of James J. Bacigalupo as trustee for children, a certified copy of same being delivered to the Civil Service Commission on August 19, 1911.

Placed on file.

FIRE PROTECTION.

A communication was received from the Finance Commission relative to fire protection. (See page 614.)

Referred to the Executive Committee.

INVESTIGATION OF CITY CLERK DEPARTMENT.

A communication was received from the Finance Commission in relation to the City Clerk Department and was placed on file. (See page 581.)

CLERK HIRE.

Communications were received from the Register of Deeds in accordance of the provisions of chapter 22, section 33 of the Revised Laws certifying that persons had been employed in his office, commencing June 26 to July 24, and that work had been performed to the amount of \$3,184.67; also, that persons had been employed from July 24 to August 21, and that work had been performed to the amount of \$3,200.11.

Referred to the Committee on County Accounts.

Coun. McDONALD in the chair.

ADDITIONAL FIREMEN.

President COLLINS offered the following:

Whereas, The Boston Fire Department is seriously undermanned and said undermanning presents a condition of constant peril to the citizens; and

Whereas, Said dangerous condition was pointed out in a letter of April 10, 1911 by the Fire Commissioner to his Honor the Mayor, in which said commissioner stated "to delay in this matter would be a grave mistake;" and

Whereas, The conclusion of said letter in which said commissioner calls for more men, was based on his own investigation, the investigation and findings of the National Board of Fire Underwriters, the reports of the district chiefs of the fourteen fire districts of the city and the recommendation of the Boston Finance Commission; and

Whereas, Recently said commissioner has made another report in which again he calls attention to the undermanned condition of the said department; and

Whereas, The Finance Commission has in a report within a few days emphasized its former recommendation; and

Whereas, Any further investigation on the question of undermanning by a commission is unwise and fraught with unnecessary delay and grave danger to the lives and property of the citizens, be it therefore

Resolved, That his Honor the Mayor be requested to consider at once the advisability of requesting the City Auditor to make the necessary transfer from the appropriation for the Reserve Fund under section 3 of the Charter Amendments of 1909, or send to the City Council an order calling for the transfer of sufficient funds, for the purpose of adding fifty more men to the fire force of the city.

The resolution was passed, yeas 7, nays 0.

PENSION FOR FIREMEN.

Coun. CURLEY offered an order—That chapter 738 of the Acts of 1911 as approved July 19, 1911, be and the same is hereby accepted by the City Council.

The rule was suspended and the order was passed.

SOLDIERS' RELIEF.

Coun. HALE, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of August.

Report accepted; order passed.

COST OF MUNICIPAL BUILDING, WARD 7.

Coun. ATTRIDGE offered an order—That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to furnish the City Council with an estimate of the cost of proposed municipal building in Ward 7 said estimate to include site, building and equipment.

Passed.

COST OF LIBRARY, EAST BOSTON.

Coun. ATTRIDGE offered an order—That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to furnish the City Council with an estimate of the cost of proposed library building in the East Boston district, said estimate to include site, building and equipment.

Passed.

LAYING OUT OF WITHINGTON STREET.

Coun. ATTRIDGE offered an order—That the Board of Street Commissioners be requested to accept and lay out as a public way Withington street, Ward 24.

Passed.

LABOR DAY PARADE.

Coun. McDONALD offered an order—That the Police Commissioner be authorized to close to travel by vehicles, except fire, police, mail and

hospital wagons, the following streets for the formation and parade of the Central Labor Union and the Building Trades Council on September 4, 1911, viz.:

Copley square, Boylston, Dartmouth, Berkeley, Dover, Washington, School, Beacon and Charles streets.

Formation of Parade—Boylston street, Massachusetts avenue, Badgen and Newbury streets, Massachusetts avenue, Dartmouth, Exeter, Fairfield, Gloucester, Hereford streets and approaching streets in neighborhood.

Passed.

Coun. McDONALD offered an order—That the City Messenger rope off such streets as the Police Commissioner may require on Monday, September 4, 1911, in connection with the Labor Day parade, the expense attending the same to be charged to the appropriation for City Council, Incidental Expenses.

Passed.

PROHIBITION OF HOSPITALS, ROXBURY.

Coun. McDONALD offered the following:

City of Boston.

In the year Nineteen Hundred and Eleven.

An Ordinance.

Be it ordained by the City Council of Boston, as follows:

That under the provisions of section 38 of chapter 75 of the Revised Laws the occupancy or use of any building as or for a hospital in that part of the City of Boston bounded by and lying between Walnut avenue, Crawford street, Waumbek street and Humboldt avenue is hereby prohibited.

Referred to the Committee on Ordinances.

RECESS TAKEN.

The Council voted at 2:55 o'clock, p. m., on motion of Coun. ATTRIDGE, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber, and were called to order by the President at 4:49 p. m.

TRANSFER FOR VARIOUS IMPROVEMENTS.

The following was received:

City of Boston,

Office of the Mayor, August 22, 1911.

To the City Council:

I beg to recommend the passage of the accompanying order, transferring various sums aggregating seven thousand dollars (\$7,000) from the appropriation for Reserve Fund to special appropriations to be expended respectively by the Superintendent of Public Buildings for sanitary accommodations, painting and repairs at the Vine street building; by the Board of Park Commissioners for sanitary accommodations at the Public Landing, Marine Park, and by the Bath Trustees for improvements at McKenzie Beach.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the following sums to the departments specified for the purposes designated:

To be expended by the Superintendent of Public Buildings for sanitary accommodations, repairs and painting at the Vine street building.	\$3,000
To be expended by the Board of Park Commissioners for sanitary accommodations at the public landing, Marine Park.	2,000
To be expended by the Bath Trustees for improvements at McKenzie Beach.	2,000
The order was passed, yeas 7, nays 0.	

MONEY FOR VARIOUS IMPROVEMENTS.

The following was received:

City of Boston,

Office of the Mayor, August 22, 1911.

To the City Council:

I beg to recommend the passage of the accompanying orders appropriating the sums designated therein for improvements which, in my judgment, are much needed in the various sections of the city. Many of them have been repeatedly asked for, either by heads of departments or by civic organizations through their representatives at the district meetings, and the present time seems to me a propitious one for providing for them out of the tax levy.

It is generally agreed that a tax rate of \$16.40 or thereabouts is not unreasonable for a city like Boston. This rate is in fact lower than that of nearly all the cities of the Commonwealth. The alternative is either to borrow the money for these improvements or to do without conveniences and

even necessities of prime importance. I am aware that a certain prestige might be gained by lowering the tax rate this year, but prefer to recommend these appropriations and trust the Council will agree with me that they are advisable.

In addition to the items specified I have recommended the appropriation of three hundred thousand dollars (\$300,000) for the Reserve Fund. This is to provide for certain improvements the appropriations for which cannot be passed without two readings and an interval of fourteen days. Among these are a much needed detention building for immigrants at Gallop's Island, the cost of which is estimated at sixty thousand dollars (\$60,000); a municipal building in Ward 7, to cost seventy-five thousand dollars (\$75,000); a playground in Ward 2, to cost seventy-five thousand dollars (\$75,000); a branch library in East Boston, to cost fifty thousand dollars (\$50,000); a branch library in Charlestown, for which thirty thousand dollars (\$30,000) additional is needed; additional playground accommodations in Ward 19, to cost forty thousand dollars (\$40,000); a playground in North Brighton, to cost fifteen thousand dollars (\$15,000), and additions and improvements to Savin Hill Playground, to cost twenty thousand dollars (\$20,000). Some of these appropriations have already been recommended by me. The aggregate of the appropriations herein recommended is five hundred and fifty thousand eight hundred and fifty dollars (\$550,850).

The unexpended balance of the Reserve Fund on August 1, 1911, was four hundred fifty-nine thousand three hundred and forty-nine dollars and ninety-eight cents (\$459,349.98). This with the additional appropriation recommended is sufficient to provide the various improvements specified above and still leave an ample remainder for any contingencies that may arise in the Fire Department.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the sums of money hereinafter specified be, and the same are, hereby appropriated for the objects and purposes hereinafter stated that said sums be met by taxes to the amount so appropriated, and be raised by tax upon the polls and estates taxable in the City of Boston, and that all orders heretofore passed relating to taxes and the interest thereon apply to the taxes herein provided for.

To be expended by the Commissioner of Public Works for repairs on ferry landings.....	\$52,000
To be expended by the Superintendent of Public Grounds for moth destruction work.....	25,000
To be expended by the Penal Institutions Commissioner for Deer Island improvements.....	41,700
To be expended by the trustees of the Boston City Hospital for improvement of mortuary at City Hospital....	15,000
To be expended by the Superintendent of Public Grounds for street trees....	20,000
Total.....	\$153,700

Ordered, That the sums of money hereinafter specified be, and the same are, hereby appropriated for the objects and purposes hereinafter stated, that said sums be met by taxes to the amount so appropriated, and be raised by tax upon the polls and estates taxable in the City of Boston, and that all orders heretofore passed relating to taxes and the interest thereon apply to the taxes herein provided for.

To be expended by the Board of Park Commissioners for improvements at Charlestown Heights and Dewey Beach.....	\$20,000
To be expended by the Board of Park Commissioners for Savin Hill Playground, filling, grading and improvements.....	10,000
To be expended by the Board of Park Commissioners for improvements on Governor's Island.....	20,000
To be expended by the Board of Park Commissioners for trees on Commonwealth avenue.....	10,000
To be expended by the Board of Park Commissioners for tables at Franklin Field locker building.....	1,000
To be expended by the Board of Park Commissioners for Copp's Hill Playground, shelter.....	28,500
To be expended by the Board of Park Commissioners for Billings Field, grading.....	1,000
To be expended by the Board of Park Commissioners for Rogers Park, planting and grading.....	1,500
To be expended by the Board of Park Commissioners for Dorchester Park, water supply and fountains.....	750
To be expended by the Board of Park Commissioners for four spraying machines.....	4,400
Total.....	\$97,150

The orders were passed, yeas 7, nays 0.

TROPHY FOR YACHT RACE.

The following was received:

City of Boston,
Office of the Mayor, August 22, 1911.
To the City Council:
The accompanying letter from the secretary of the regatta committee of the Mosquito Fleet Yacht Club affords what seems to me an admirable opportunity of disposing of the cup offered by the city last spring for a yacht race between Boston and Bermuda. Owing to the lack of entries this race was abandoned, but the cup still remains in our possession and would be an excellent trophy for the race proposed to and around Boston lightship. I recommend the passage of the accompanying order authorizing me to award the cup as a prize for the winning yacht in the proposed race.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Mosquito Fleet Yacht Club,
South Boston, Mass., August 18, 1911.
Hon. John F. Fitzgerald,
Mayor of Boston:

Sir.—The Mosquito Fleet Yacht Club respectfully presents a proposition to run a yacht for the Bermuda Cup on Labor Day, September 4.

If the proposition is accepted we will give an open race of about twenty-five miles, probably to and around Boston lightship, and offer prize money to the amount of \$75 in addition to the cup. Race to be handicap and open to all yachts enrolled in the Inter-Club and Massachusetts Yacht Racing Associations or eligible to the classes selected from these associations.

Very respectfully,
THE MOSQUITO FLEET YACHT CLUB,
by FRANCIS G. BOND,
Secretary of Regatta Committee.

Ordered, That the silver cup offered by an order of the City Council passed at its meeting March 22, 1911, for a Boston to Bermuda Yacht Race, be awarded at the discretion of his Honor the Mayor, to the winner of an open race to and around Boston lightship, to be conducted under the auspices of the Mosquito Fleet Yacht Club.

The order was passed.

MONEY FOR STREET IMPROVEMENTS.

The following was received:

City of Boston,
Office of the Mayor, August 22, 1911.
To the City Council:
I beg to recommend the passage of one of the accompanying orders, providing the sum of one hundred seventy-five thousand dollars (\$175,000), for street improvements, either by loan or by transfer from the Reserve Fund. An opportunity is afforded by the taking down of houses on Beacon street to continue Arlington street to the Charles River Basin, and it seems to me that the funds necessary to carry out so desirable an improvement ought to be available if the Board of Street Commissioners should vote to carry on the work.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the sum of one hundred and seventy-five thousand (\$175,000) dollars be and hereby is appropriated for Highways, Making of, under the provisions of chapter 393 of the Acts of 1906, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Coun. McDONALD in the chair.

Coun. COLLINS—I move reference of the loan order, as a substitute motion, to the Committee on Finance.

The motion to refer was declared lost.
President COLLINS doubted the vote and asked for the yeas and nays, and the motion to refer was lost, yeas 1, nays 6, President Collins votin yea.

The vote on the passage of the order was yeas 4, nays 3, and the order was declared rejected (six votes being required for passage).
Yeas—Coun. Buckley, Curley, Hale, Smith—1.
Nays—Attridge, Collins, McDonald—3.

Ordered, That under the provisions of chapter 261 of the Acts of 1893, the City Auditor be, and hereby is, authorized to transfer the sum of one hundred seventy-five thousand dollars (\$175,000) from the appropriation for Reserve Fund to the appropriation for Highways, Making of.

Coun. HALE—I move that this be put upon its passage.
The order was passed, yeas 6, nays 1, President Collins voting nay.

ORDER OF NOTICE.

Coun. McDONALD presented the following:
On the application of the directors of the association for the formation of the Boston & Eastern Electric Railroad Company, filed with the City Clerk, July 20, 1911, asking that the route of said

railroad within the limits of the City of Boston be fixed as shown on the maps and profile submitted with said application, it is hereby

Ordered, That the City Clerk be directed to give notice in the manner required by chapter 516 of the Acts of 1906 and acts in amendment thereof or in addition thereto, that this Board will, on Monday, September 11, 1911, at 2 o'clock p. m., give a hearing on the aforesaid application, at which time any parties in interest may appear and be heard.

The order of notice was passed.

SIDEWALK ORDERS.

President COLLINS offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along the Sedwick street side of Curtis Hall, Ward 23, in front of the estates bordering thereon; said sidewalk to be from three to ten inches above the gutter adjoining, to be from five to twelve feet in width, and to be built of artificial stone, with granite edgestones, the Public Buildings Department to furnish said material.

Ordered, That the Commissioner of Public Works make a sidewalk along Auckland and Belfort streets, Ward 20, at St. William's Church, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of gravel, with granite edgestones.

Ordered, That the Commissioner of Public Works make a sidewalk along both sides of Talbot avenue, between Washington street and Blue Hill avenue, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones.

The orders were passed.
Coun. SMITH offered an order—That the Commissioner of Public Works make a sidewalk along the northerly side of Park street between Anawan avenue and Clement avenue, Ward 23, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 10 feet in width, and to be built of artificial stone, without granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Passed.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions (severally referred to-day) for sidewalks—recommending the passage of orders that the Commissioner of Public Works make sidewalks along the following-named streets, in front of the hereinafter named estates; said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built as specified, the owner to furnish the material, viz.:

Brick.

Mrs. Catherine Fitzgerald, 2 Gore street, Ward 19.
Mrs. Hannah Martin, 210-212 Heath street, Ward 19.
M. Maynes, 347 Adams street, Ward 20.

Brick with Granite Edgestone.

Ferdinand Salerno, 217 Marion street, Ward 2.
Sam Lishner, 196 Paris street, Ward 2.
Coleman Sullivan, 865 East Second street, Ward 14.

D. J. Meller, 40 Brookfield street, Ward 16.
Edward P. Smith, 41 Brookford street, Ward 16.
Mark J. Crehan, 42 Brookford street, Ward 16.
Edward J. Harrigan, 43 Brookfield street, Ward 16.
James F. Sullivan, 25 Sunnyside street, Ward 22.

Artificial Stone with Granite Edgestone.
J. F. Sullivan, 753 Saratoga street, Ward 1.
Trustees of the Boston Real Estate Trust, Commercial, Clark and North streets, Ward 6.

D. Milton, 52 Allen street, Ward 8.
Boston Elevated Railway Company, Lowell, Causeway and Billerica streets, Ward 8.

W. J. Grosvenor, 183 Pleasant street, Ward 10.
James M. Rothwell, 549-551 Boylston street, Ward 11.

Whitcomb & Kavanagh Company, 71 Brimmer street, Ward 11.
C. M. Mowatt, 117 Centre street, Ward 20.

William B. Sherman, 37 Grampianway, Ward 20.
R. G. Crosby, 10 Morrill street and 39-41 Pleasant street, Ward 20.

Marks Harris, 55, 59, 63, 67, 71 Nightingale street, Ward 20.
A. C. Quincy, 1 Waldeck street, Ward 20.

Henry McLellan, 29-31 Bainbridge street, Ward 21.
Eliot Street Trust, 129 Eliot street, Ward 21.

Peter B. Siegel, Glendale street, corner Columbia road, Ward 20.
Silverman & Shipiro, 28-46 Hollander street, Ward 21.

Nathan Berkowitz, 218-224 Humboldt avenue, Ward 21.

A. Rosenberg, Montana street, side of 68 Elm Hill avenue, Ward 21.

J. Newman *et al.*, 16 Seaver street, Ward 21.
 Dr. J. F. Ford, Walter street, corner Hewlett street, Ward 23.
 G. L. Davidson, 17 Alban street, Ward 24.
 Henry J. Boden, 1405-1408 Blue Hill avenue, Ward 24.
 George N. Douse, 29-31 King street, Ward 24.
 R. J. Perry, 308 Norfolk street, and on Corbet street, Ward 24.
 Henry C. Towle, 28 Draper street, Ward 24.

 Report accepted; order passed, yeas 7, nays 0.
 (5) Report on message of the Mayor, communication and order (referred to-day), that \$6,720.17 be transferred to be expended for Mystic Avenue Bridge—that the order ought to pass.
 Report accepted; order passed, yeas 7, nays 0.
 (6) Report on message of Mayor, communication and order (referred to-day), that \$350 be appropriated to be expended by the Art Commission for exhibit at the International Municipal Congress and Exposition at Chicago—that the order ought to pass.
 Report accepted; order passed, yeas 7, nays 0.
 (7) Report on message of Mayor, communication and order (referred to-day), transferring \$7,000, to be expended under the direction of Commissioner of Public Works, for West Fourth Street Bridge—that the order ought to pass.
 Report accepted; order passed, yeas 7, nays 0.
 (8) Report on message of Mayor and order (referred to-day) that a sum sufficient to provide pensions under the authority of chapter 113 of the Acts of 1911 for employees of the Water Service of the Sewer and Water Division of the Department of Public Works as may be entitled to them be and hereby is appropriated—that the order ought to pass.
 Report accepted; order passed.
 (9) Report on message of Mayor and communication (referred to-day) relative to cost of filling in Eagle Hill Reservoir, East Boston—that the same be placed on file.
 Report accepted; message and communication placed on file.
 (10) Report on message of Mayor and communication (referred to-day) relative to Parker Hill Reservoir as a bathing place—that same be placed on file.
 Report accepted; message and communication placed on file.
 (11) Report on message of Mayor and communication from Fire Commissioner (referred to-day) relative to fire protection in the City of Boston—that the same be placed on file.
 Report accepted; message and communication placed on file.
 (12) Report and communication from Finance Commission (referred to-day) relative to fire protection in the City of Boston—that the same be placed on file.
 Report accepted; message and communication placed on file.
 (13) Report on message of Mayor and invitation (referred to-day) to attend the dedication of the Peace Monument at Atlanta—that the City Clerk send a letter of thanks accepting letter of invitation in behalf of City Council.
 Report accepted; said invitation accepted.
 (14) Report on message of Mayor and order and resolution (referred to-day) concerning the use of Governor's Island by the City of Boston—that the same ought to pass.
 Report accepted; order and resolution passed.
 (15) Report on message of Mayor, communication and order (referred to-day) that \$60,000 be transferred to an appropriation for playground accommodations, Ward 19—that the order ought to pass.
 Report accepted; order passed, yeas 6, nays 1, Coun. Smith voting nay.

CHELSEA BRIDGE.

President COLLINS called up No. 1, unfinished business, viz.:
 1. Ordered, That the sum of two hundred fifty thousand dollars (\$250,000) be appropriated, to be expended by the Commissioner of Public Works, for the construction of a temporary bridge across the north channel of the Mystic river, between the

cities of Boston and Chelsea, said bridge to be built in conjunction with the city of Chelsea, under the statutes governing said joint construction, and to serve in place of the present structure, known as "Chelsea Bridge North," and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.
 On July 17 the foregoing order was read once and passed, yeas seven, nays 0.
 The order was given its final reading and passed, yeas 7, nays 0.

SALE OF LAND.

President COLLINS called up No. 2, unfinished business, viz.:
 2. Ordered, That the Board of Park Commissioners be and hereby is authorized to sell, on such terms as said Board with the approval of the Mayor may deem proper, a parcel of land in the Brighton district, so called, bounded southerly by Commonwealth avenue and northeasterly by Chestnut Hill avenue, and containing as shown on the atlas about 66,672 square feet, said land to be sold at public auction for not less than 75 cents per square foot per lot.
 On July 17 the foregoing order was read once and passed, yeas 7, nays 0.
 The report was laid on the table.

COUNTY ACCOUNTS.

Coun. CURLEY, for the Committee on County Accounts, submitted the following:
 (1) Reports on pay roll of Register of Deeds (referred to-day), amounting to \$3,184.67, from June 26 to July 24—that the same be approved.
 Report accepted; pay roll approved and ordered paid.
 (2) Report on pay roll of Register of Deeds from July 24 to August 21 (referred to-day), amounting to \$3,200.41—that the same be approved.
 Report accepted; pay roll approved and ordered paid.
 (3) Report on message of Mayor and order (referred to-day), for transfer of \$2,500 for expense of Commission on Inferior Courts—that the order ought to pass.
 Report accepted; order passed, yeas 7, nays 0.

RED LIGHTS, FIRE-ALARM BOXES.

Coun. CURLEY offered an order—That the Fire Commissioner be requested, through his Honor the Mayor, to make the necessary arrangements to designate each of the fire-alarm boxes in the streets of the city by a red light, and to have displayed in a prominent position at each box a printed form of instructions for giving an alarm.
 Coun. CURLEY—I would say in this connection that the matter was called to my attention by a lieutenant in the Fire Department, who stated that the average person ringing in an alarm simply pulls the handle, and when he hears the bell inside ring he labors under the impression that he has done all he is called upon to do. As a matter of fact, it is necessary to pull down the hook. On a great many boxes, he informs me that there are no printed instructions. He states that a number of serious fires of late have been due to the fact that those turning in the alarm have labored under the impression that when they had opened the door they had given the alarm. I feel that it is possible to adopt some system of door, whereby the connection might be made by opening the door in the center of the regular door, and when the handle is turned it will ring the alarm. In case it is impossible to do that, it is possible at least to place a red light over each fire-alarm box and to give sufficient publicity to the method of ringing in an alarm to have the public thoroughly informed as to the necessary thing to do to ring in the alarm.

NEXT MEETING.

Coun. HALE moved that when the Council adjourn it be to meet on Monday, September 11, at 2 p. m.
 The motion was carried.

GENERAL RECONSIDERATION.

Coun. CURLEY moved a general reconsideration hoping the same would not prevail. Lost.
 Adjourned at 5.55 p. m., on motion of Coun. HALE, to meet on Monday, September 11, at 2 p. m.

SETTLEMENT OF BOSTON.

Boston settled in 1630 by Puritan colonists under Governor Winthrop. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630.

COST OF MAKING BOSTON STREETS.

Of 129 residential streets (usually 40 feet wide) laid out and constructed, from 1900 to 1909, the total cost (including land damages) was \$762,880, or an average of \$5,914 each.

CITY OF BOSTON.

PROPOSALS FOR EDGESTONES, GUTTERS, CROSS-WALKS AND ARTIFICIAL STONE SIDEWALKS.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for edgestones, gutters, crosswalks and artificial stone sidewalks in Thetford avenue, between Norfolk and Evans streets, Dorchester, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Monday, September 4, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Edgestones, Gutters, Crosswalks and Artificial Stone Sidewalks in Thetford Avenue."

LOUIS K. ROURKE,
Commissioner of Public Works.
 Boston, August 24, 1911. (Aug. 26.)

CITY OF BOSTON.

PROPOSALS FOR GATEWAY STRUCTURES.

Proposals, on blanks obtained at the engineer's office, Franklin Park, for building two gateway structures of brick and wood on Columbus Avenue Playground, and giving bond of a surety company therefor in \$1,000, signed by bidder and left before 3 o'clock p. m. of September 7, 1911, at Room 827, Tremont Building, 73 Tremont street, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals.

ROBERT S. PEABODY,
 JAMES M. PRENDERGAST,
 DANIEL H. COAKLEY,
Park Commissioners.
 (Aug. 26.)

CITY OF BOSTON.

PROPOSALS FOR TWO SANITARIES.

Proposals, on blanks obtained at the engineer's office, Franklin Park, for building a sanitary on West Third Street Playground and a sanitary on West Fifth Street Playground, South Boston, and giving bond of a surety company therefor in \$1,000, signed by bidder and left before 3 o'clock p. m. of September 7, 1911, at Room 827, Tremont Building, 73 Tremont street, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals and to give preference to bidders paying the trade unions' rate of wages.

ROBERT S. PEABODY,

PROPOSALS FOR THE SALE AND REMOVAL OF THE OLD WINTHROP SCHOOL BUILDING.

The Commissioner of Public Works of the City of Boston, office Room 49, City Hall, invites proposals for the sale, taking down and removal of the Winthrop School Building on Tremont street, near Eliot street, city proper, and giving bond therefor of a surety company approved by the commissioner in the sum of five thousand dollars (\$5,000), to secure the due performance of the contract and the full protection of the city. The purchaser shall take the building down to the level of the school yard, remove the material (which is to be the property of the purchaser) within a reasonable time, not to exceed forty (40) days, and shall leave the ground upon which the building stood in a safe condition. Only proposals obtained at said office, filled out, signed by the bidder, and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Friday, September 1, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Removing Winthrop School Building."

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 24, 1911. (Aug. 26.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING DUMPING SCOW No. 3.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for repairing Barney Dumping Scow No. 3, and giving bond therefor of a surety company approved by the commissioner in the sum of fifteen hundred dollars (\$1,500), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Repairing Dumping Scow No. 3," and left at the Hearing Room, second floor, City Hall, before 12 m. on Monday, September 4, 1911, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, August 24, 1911. (Aug. 26.)

CITY OF BOSTON.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 11 o'clock Tuesday, August 29, for the hay, grain and straw needed in the different departments for September, 1911. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association, and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidder is requested to bid on No. 1 oats, to test 40 to 42 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate, without the check, to be deposited with the City Auditor previous to the time named for opening bids. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Tuesday, August 29, at 11 a. m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
Superintendent of Supplies.

(Aug. 26.)

CITY OF BOSTON.

AUCTION SALE OF LAND IN DORCHESTER.

The Board of Street Commissioners of the City of Boston announces the sale at public auction of 9,984 square feet of land located on the northeast corner of Dorchester avenue and Gibson street, Ward 20, to be held on the premises Thursday, August 31, at 3.30 p. m. The lot has a frontage of 75 feet on Dorchester avenue, of 134.26 feet on Gibson street, and on the corner of these streets, 31.84 feet. It is situated close to Field's Corner and is adapted for the erection of store, apartment or garage property. A deposit of \$200, in cash, certified check or saving bank draft, will be required at the time of sale and the balance in fifteen days. For further particulars and plans apply to JOHN C. KILEY, 18 Tremont street, or to the auctioneer, D. J. DALY, 39 Savin Hill avenue, Dorchester.

(Aug. 26.)

CITY PAVING A SERIOUS PROBLEM.

"The pavements in the business districts of Chicago have for years been almost intolerable" is the statement made in a recent report of a citizens' organization of that city. Practically the same statement has been made by similar organizations concerning New York pavements, and similar conditions are found in most of our larger cities where the traffic is heavy. In each case the city authorities, and especially the engineers of the paving department, are being severely criticised for these conditions, and suggestions and advice are offered and urged by business men, architects and others, it being noticeable that these nonexperts in paving are much more free with advice than those who have made a life study of the subject.

As a matter of fact, engineers and others in charge probably realize as fully as do the citizens generally the deplorable conditions into which the pavements of our most heavily traveled streets have fallen, and in the majority of cases they are anxious to do everything which they can and are permitted to do in remedying the same. The urgent question is, why these conditions have arisen and what can be done to avoid their repetition.

In the majority of cases the pavements complained about are asphalt. Probably a large percentage of these were laid from ten to fifteen years ago, and it is therefore not to be wondered at, aside from any other consideration, that the pavements are wearing out and requiring renewal. The unfortunate part is that, owing to the fact that so many hundreds of miles of asphalt were laid in our larger cities within a very few years at that period and to the rapidly increasing amount of street traffic on our main thoroughfares, a larger percentage of these pavements are reaching the point where extensive repairs or renewals are necessary than can be attended to promptly or than funds can be found to renew.

It might be thought that with the rapid growth of the automobile traffic the amount of horse traffic must be diminishing; but we believe that careful observation will show that this is not the case. A slight indication of the amount of horse traffic in New York City is offered by the fact that the death of 1,600 horses during the recent hot spell did not produce an observable diminution of its amount. Moreover, the weight of the individual loads carried over the streets is increasing, and wheel loads may be found to-day in considerable numbers two or three times as great as were carried a decade ago.

The combination of increasing number of vehicles and weight of loads, without any decrease in the number of horses, makes necessary a more durable pavement than was required fifteen or twenty years ago, a condition which municipal engineers are making efforts to meet, one of the indications of this being the attempts to secure a much smoother stone block pavement.

The problem is one of the most serious of those which confront our city engineers. The cost of renewing the pavements is by no means the most objectionable feature; even more serious is the inconvenience to traffic and the delays and accidents occasioned by the work of renewing them. There seems to be considerable truth in the statement several times made by G. W. Tillson, that in selecting a material for a pavement on a main thoroughfare of a large city the first cost is the least important item to be considered, but that favorableness to traffic and absence of the inconvenience caused by constant

repairs and renewals more than offset any such matter as a few cents per square yard in first cost.—*Municipal Journal and Engineer.*

SYSTEMS FOR MARKING STREET CARS.

In the average American city the methods of designating the routes of cars is far from satisfactory, and often confusing to a marked degree. It is customary to place on the front and sides of the car the name of one of the streets which it travels in covering its route. This name indicating as it does only one of perhaps six or eight streets through which the car passes, is particularly misleading to those who may be unfamiliar with the city.

Attention has been called to the Vienna system of designating car routes, a system which is used extensively in Europe, particularly in the German cities. Large letters are placed on the forward end of the Vienna cars, indicating and distinguishing the routes. These letters, which are interchangeable and illuminated at night, seem to make getting about town easier, particularly to the visitor and foreigner who is not familiar with the city. There is a further advantage in that the car can be identified from a distance, which is often difficult with the naming system. This matter while it seems trivial, is a means of saving a great deal of time, as a passenger will frequently stop a car before discovering that it is not the one he desires.

The system is very commendable and is greatly superior to the usual methods followed in America, but in at least one American city a system has been devised which is an improvement over Vienna's plan. The Boston elevated railroad is at the present time trying a system of car signs which, should it prove popular with the patrons of the road, will be generally adopted.

In former years the cars were identified by colors, but the system became so complicated that it was decided to adopt the system used in European cities or an improvement on it. The numbering system was the result.

Four large signs are placed on the car. Two in the front and back, well upon the hood, and two on the sides. The front and back signs are 15 inches high and 5½ feet in length. On the right half of the sign are three figures. The first represents the division or section of the city to which the car goes regularly. The second and third represent the route by which the car proceeds. For a number of years the different sections of Boston have had division numbers. For example, Cambridge is known as Division No. 7. Thus if a car is numbered 756 it would mean that the car was a Cambridge car and would reach Cambridge by the route No. 56. Route 56 might mean by Broadway, by Cambridge street, or whatever the road officials decide upon.

Adjoining the figure is the distinction, written in large letters so the passengers cannot make a mistake. When a car is making its return trip a roll is turned, changing the written distinction. On the side of the car is the written route of the car.—*Municipal Engineer.*

PRIVATELY OWNED MUNICIPAL SEWERS.

The city of Vincennes, Ind., is greatly in need of a complete sewerage system, but finds itself unable to issue bonds sufficient for constructing anything approaching a complete system, and it appears to be impracticable to build the system by direct assessment or piecemeal. It has therefore practically decided, according

to our latest advices, to contract with the Vincennes Sewer Company, for the construction of such a system on a rental plan; this having been made possible by a law passed by the last Legislature. According to this plan the company is to build a system in accordance with plans prepared by Hering & Fuller, spending \$334,500 upon the same. The city is to pay \$6,500 on the first of January, 1912, and in addition the sum of \$13,212.50 semi-annually for twenty-five years, with the additional payment of \$5,000 at the end of that time. In addition the city is to pay for the up-keep and the expenses of running the system, and such taxes and insurance as may be necessary. The time is fixed at twenty-five years because of the state law that a franchise cannot be granted for a longer period than that. At the end of this period the city will become the owner of the plant in full. It is also provided that the city can purchase the system at any time during the twenty-five years if financially able. If the city fails at any time to meet its rental the company will take charge of the system, collecting such rental as is necessary to meet expenses, pay interest and retire such bonds as come due; and then, when the city is again able to pay the rentals it will take over the plant again on the original plan. This is necessary since the bonds must all be retired before the end of the twenty-five years.—*Municipal Journal.*

CHILD WELFARE EXHIBIT IN FRENCH AND ENGLISH.

Boston, St. Louis and Brooklyn, which are to show the Child Welfare Exhibit next winter, have been joined by Montreal, which announces it for October, 1912. The announcement discloses that Montreal has social problems "as pressing as, if not more pressing than, those in the larger cities of the states. In our infantile mortality we head the list for all the great cities of North America. Of the children born in Montreal, 54.92 per cent die before reaching the age of five." Immigration is growing, "so that the congestion of the lower quarters of Montreal is rapidly increasing and slum districts are forming as bad as any in the old world." Hence the Child Welfare Exhibit, which the promoters believe will bring sharply to the minds of all people in the city the obstacles and dangers to the healthy growth of its children and "develop a right public opinion leading to action, both public and private."

The leading social agencies of the city are represented on the executive committee, of which the joint presidents are Dr. J. G. Adami of the City Improvement League, and Thomas Gauthier of the Association Saint Jean-Baptiste. Other bodies represented are the Fédération Nationale Saint-Jean Baptiste, Local Council of Women, St. Patrick's Society, Baron de Hirsch Institute, and Charity Organization Society. Everything in the exhibit will be shown in both English and French.

Montreal, with a population of 500,000, is growing at the rate of 25,000 to 40,000 people yearly. It has several problems, specially due to the mixed character of its population, but both French and English are joining enthusiastically in preparing for the exhibition.

In child problems American cities vary little; and the Child Welfare Exhibit should prove as stimulating in Montreal as it did in New York and Chicago. It is an exhibit that above all others reaches and quickens a whole city, and should prove in Canada, as here, the first step towards a better way.—*The Survey.*

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, SEPTEMBER 2, 1911.

No. 35

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the
Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 45, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, September 11, at 2 o'clock p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

A hearing will be held on the petition of Patrick J. Doyle for leave to occupy a brick building for ten additional horses, making a total of twenty horses, rear 5 Williams street, Ward 23, on Tuesday, September 5, 1911, at 11 a. m., in the office of the Board of Health, 100 Summer street.

The Board of Street Commissioners will give public hearings on the days specified on the following petitions:

TUESDAY, SEPTEMBER 5, AT 11 O'CLOCK.

Gasolene.—J. W. Maguire Company, 12-14 Harcourt street; John Imbescheid, 207 Boylston street, Ward 22; F. E. & J. J. Johnston, Jr., 20-28 Aberdeen street; Garland & Son, 10 Euclid street, Dorchester; J. W. Harding, Freedom court, Charlestown; Charles N. Faucher, boat in Boston Harbor; Boston Ice Cream Company, 40 King street, Roxbury.

Marquise.—Exchange Trust Company, 120 Boylston street, Ward 7.

TUESDAY, SEPTEMBER 19, AT 11 O'CLOCK.

Gasolene.—D. Whiting & Sons, 570 Rutherford avenue, Charlestown; Frank E. Peabody, 328 Newbury street; Dr. F. W. Rice, 16 Elko street, Brighton.

Marquise.—Exchange Trust Company, 120 Boylston street.

For Leave to Erect Poles.—Edison Company, two, Bradfield street, Ward 23; five, Railroad street, Ward 23. New England Telephone and Telegraph Company, seven, Van Winkle street, Ward 24; one, Mansfield street, Ward 25; three, Old Harbor street, Ward 15; seven, East First street, Ward 14; one, Wise street, Ward 22; three, Paris street, Ward 2.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

PARK DEPARTMENT.

Advertises for loam of a quality satisfactory to the Superintendent of Parks, to be delivered at North Meadow, Back Bay Fens, for which the commission will pay \$1 per cubic yard.

Advertises for proposals for two gateway structures of brick and wood on Columbus Avenue Playground. Blank forms for proposals may be obtained at the engineer's office, Franklin Park. Bids to be filed at Room 827, Tremont Building.

Bids close Thursday, September 7, at 3 p. m.

Advertises for proposals for building a sanitary on the West Fifth Street Playground and one on the West Third Street Playground in South Boston. Blank forms for proposals may be obtained at the engineer's office, Franklin Park. Bids to be filed at Room 827, Tremont Building.

Bids close Thursday, September 7, at 3 p. m.

Advertises for proposals for repairing masonry and grading on pier head at Marine Park, South Boston. Blank forms for proposals may be obtained at the engineer's office, Franklin Park. Bids to be filed at Room 827, Tremont Building.

Bids close Thursday, September 7, at 3 p. m.

Advertises for proposals for excavating tree pits and furnishing loam on Commonwealth avenue. Bids to be filed at Room 827, Tremont Building. Blank forms for proposals may be obtained at the engineer's office, Franklin Park. Bids to be filed at Room 827, Tremont Building.

Bids close Thursday, September 7, at 3 p. m.

Advertises for proposals for constructing concrete floors in the bears' cages at Franklin Park. Blank forms for proposals may be obtained at the engineer's office, Franklin Park. Bids to be filed at Room 827, Tremont Building.

Bids close Thursday, September 7, at 3 p. m.

PUBLIC BUILDINGS DEPARTMENT.

Advertises for proposals for furnishing and installing gymnasium apparatus in the Curtis Hall Building, Jamaica Plain. Blank forms for proposals may be obtained at the office of the superintendent, 100 Summer street. Bids to be filed at same office.

Bids close Tuesday, September 12, at 12 m.

PUBLIC GROUNDS DEPARTMENT.

Advertises for proposals for excavating tree pits and furnishing manure and loam on Bennington street, East Boston. Bids to be filed at the office of the superintendent, East Cottage street, Dorchester.

Bids close Thursday, September 14, at 12 m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertises for proposals for cleaning and painting Cottage Farm Bridge. Specifications may be seen at the office of the Engineer's Division, Room 60, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Tuesday, September 5, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for constructing tar macadam roadway in Bay street, Dorchester. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Tuesday, September 5, at 12 m.

Advertises for proposals for edgestones, gutters, crosswalks and artificial stone sidewalks in Thetford avenue, Dorchester. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Wednesday, September 6, at 12 m.

Advertises for proposals for paving and regulating Greenleaf street, Roxbury. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Wednesday, September 6, at 12 m.

Advertises for proposals for constructing a tar macadam roadway in Hliawatha road, Dorchester. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, September 11, at 12 m.

Advertises for proposals for constructing tar macadam roadway in Doris street, Dorchester. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, September 11, at 12 m.

Advertises for proposals for constructing a tar macadam roadway in Fottler road, Dorchester. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Monday, September 11, at 12 m.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

Advertises for proposals for repairing dumping scow No. 3. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Wednesday, September 6, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for constructing pipe surface drains in Glenville avenue, Brighton. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Tuesday, September 5, at 12 m.

PUBLIC WORKS DEPARTMENT (Water Service).

Advertises for proposals for relaying water pipes in River, Anderson, Auburn and other streets in the city proper. Blank forms for proposals may be obtained at Room 49, City Hall. Bids to be filed at Room 57, City Hall.

Bids close Friday, September 8, at 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for about 800 tons of bituminous coal for the Parental School at West Roxbury. Bids to be filed at the office of the Superintendent, Room 826, Tremont Building.

Bids close Wednesday, September 6, at 12 m.

Advertises for proposals for about 700 tons bituminous coal and screenings for the Consumptives' Hospital at Mattapan. Bids to be filed at the office of the superintendent, Room 826, Tremont Building.

Bids close Thursday, September 7, at 11 a. m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending August 31, 1911:

BATH DEPARTMENT.

The Mayor has approved the payment of \$75 due the estate of the late James C. Donoghue, a medical examiner of the Bath Department, who died February 20, or thereabouts. This amount is due his estate for services rendered from October 4, 1910, to the date of his death.

ELECTION DEPARTMENT.

Transfer of Michael J. Harkins, an employee of the Bridge and Ferry Division of the Public Works Department, with a civil service rating as carpenter, to the Election Department, with wages at the rate of \$3.25 per day, an increase of 25 cents per day, to take effect September 1, 1911.

FIRE DEPARTMENT.

Retirement on pension of half pay at the rate of \$700 per year, Lieutenant Thomas B. Flanagan of Ladder 10, to take effect September 1, 1911.

HEALTH DEPARTMENT.

Increase in salary of Joseph P. Henchey, employed as clerk in this department, from \$624 to \$850 per annum, to take effect September 1, 1911.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the week ending August 24, 1911:

To Fill Vacancies.

Permanent.—Margaret Horrigan, chambermaid, \$15 per month; Alice Munson, chambermaid, \$15 per month; Julia Aspell, chambermaid, \$15 per month; Esther Shannon, scrubber, \$5 per week; Mary Keeley, scrubber, \$5 per week; Annie F. Sheehy, ward helper, \$5 per week; George W. Ingham, kitchenman, \$20 per month; David H. Slavitt, orderly, \$25 per month; Harry G. Williams, orderly, \$25 per

month; Ernest A. Stolba, orderly, \$25 per month; Frank R. McIntyre, orderly, re-employed, \$25 per month; Ellen J. Foley, head nurse, re-employed, \$35 per month; Isabelle N. Newman, X-ray attendant, \$12 per week.

Temporary.—Catherine McDonald, Medfield Hospital nurse, \$8.33 per month; Ada S. Belding, Medfield Hospital nurse, \$8.33 per month; Charles W. Collins, clerk of works, \$5 per day.

The following employees have had increase of wages:

Charles W. Cook, orderly, \$25 to \$30 per month; John T. Kennedy, orderly, \$30 to \$35 per month; Margaret Inksetter, nurse, \$8.33 to \$12.50 per month; Mary Kenealy, ward maid at \$12 per month to ward helper at \$14 per month; Josephine Ryan, ward helper at \$14 per month to ward assistant at \$5 per week.

The following persons have been employed at the Boston City Hospital during the week ending August 31, 1911:

To Fill Vacancies.

Permanent.—Bertha Brouse, head nurse, re-employed, \$35 per month; Edward Burke, orderly, \$25 per month; Patrick H. Ginnetty, orderly, \$25 per month; Bernard F. Clisham, orderly, \$25 per month; Nellie Davis, laundress, \$16 per month; Jessie Palmer, ward maid, \$12 per month; Katherine Burke, chambermaid, \$15 per month; Elizabeth Duncan, assistant housekeeper, \$30 per month; Edward Kelley, house porter, \$25 per month; Helen Kitchen, scrubber, \$5 per week; Mary Jones, scrubber, \$5 per week.

Temporary.—John Tracy, kitchenman, \$30 per month; Dr. S. Burt Wolbach, acting pathologist, \$133.33 per month; Sarah M. Tarr, graduate nurse, \$40 per month.

The following employees have had increase of wages:

Annie Kavanaugh, laundress, \$16 to \$18 per month; Mollie Mahoney, laundress, \$16 to \$18 per month; Mabel C. Willey, nurse, \$8.33 to \$12.50 per month; Elizabeth Mahoney, ward maid at \$12 per month to ward assistant at \$5 per week; Nellie Matthew, ward maid at \$12 per month to chambermaid at \$15 per month; Lena McKeel, ward maid at \$12 per month to chambermaid at \$15 per month.

INFIRMARY DEPARTMENT.

Increase in the salary of John E. Keough, meat cutter at the Long Island Hospital, from \$480 to \$600 per annum, to date from August 18, 1911.

Increase in the salary of Arthur P. Moran, Chief Officer of the Men's Building at the Long Island Hospital, from \$1,000 to \$1,200 per annum, to date from August 18, 1911.

Changes in the pay roll for the weeks ending August 24 and 31, 1911:

Long Island Hospital.

To Fill Vacancies.—Archibald J. Cotton, assistant engineer, \$50 per month; Frances O'Connor, ward maid, \$18 per month.

F. S. & A. D. Gore Corporation, \$19,566.30; James Doherty, \$20,525.50; Central Construction Company, \$21,800. Engineer's estimate, \$20,181.

On August 29 the Mayor approved a contract with James Doherty for tar macadam roadway in Brinsley street, between Columbia road and Washington street. Bids on this work were opened August 14, 1911, and were as follows:

J. C. Coleman Sons Company, \$4,715.50; D. E. Lynch, \$5,363; William J. Rafferty Company, \$4,749; James Doherty, \$4,533.70.

Engineer's estimate, \$5,600.

On August 29 the Mayor approved a contract with John F. O'Connell for paving and regulating Bryant street, between Huntington avenue and Ruggles street. Bids on this work were opened August 14, 1911, and were as follows:

F. S. & A. D. Gore Corporation, \$26,359.30; W. Rafferty Company, \$26,162; James Doherty, \$25,341.40;

Simpson Bros. Corporation (\$24,260.30) \$25,772.30; J. C. Coleman Sons Company, \$26,002.50; Coleman Brothers, \$25,267.50; McGuire & Kiernan, \$25,998.90; C. W. Dolloff & Co., \$25,700.60; John F. O'Connell, \$25,069.10.

Engineers' estimate, \$28,593.

On August 31, 1911, the Mayor approved a contract with the Central Construction Company for repaving and regulating Berkeley street, St. James avenue and Stanhope street. Bids on this work were opened August 23, 1911, and were as follows:

F. S. & A. D. Gore Corporation, \$9,928.50; John T. Shea, Jr., \$8,190; John McCourt & Co., \$8,377.60; McGuire & Kiernan, \$8,233.10; Central Construction Company, \$7,833.50.

Engineer's estimate, \$10,500.

On August 31, 1911, the Mayor approved a contract with Rendle & Stoddard for repairing wharf at the North End Paving Yard, Commercial street. Bids on this work were opened August 18, 1911, and were as follows:

W. H. Ells, \$2,844.25; George T. Rendle, \$2,784.25; Rendle & Stoddard, \$2,729.

Engineer's estimate, \$2,500.

PUBLIC WORKS DEPARTMENT (Sewer Service).

On August 29 the Mayor approved a contract with Raffale Cartullo for pipe sewers and drains in Burlingame way, from Montclair avenue, 260 feet southwesterly. Bids on this work were opened August 18, 1911, and were as follows:

A. Cefalo, \$657.44; West Roxbury Trap Rock Company, \$793.07; R. J. Young & Co., \$770.25; John T. Shea, Jr., \$745.45; John W. McCourt & Co., \$717.82; R. Cartullo, \$600.45.

Engineer's estimate, \$634.75.

On August 31, 1911, the Mayor approved a contract with George J. Regan for pipe sewers and drains in Jerome street, from Cushing avenue 180 feet easterly, Dorchester. Bids on this work were opened August 21, 1911, and were as follows:

George J. Regan, \$431.38; D. De Pietro, \$498.83; John T. Shea, Jr., \$563.20; Antony Cefalo, \$571.20; R. Cartullo, \$626.70; John McCourt & Co., \$649.80; D. E. Lynch, \$750.70.

Engineer's estimate, \$572.63.

On August 31, 1911, the Mayor approved a contract with Antony Cefalo for pipe sewers and drains in River street, from Fremont street 210 feet westerly. Bids on this work were opened August 18, 1911, and were as follows:

R. Cartullo, \$556; Daniel De Pietro, \$557.72; George J. Regan, \$516.18; John T. Shea, Jr., \$542.76; A. Cefalo, \$450.68; John McCourt & Co., \$731.50.

Engineer's estimate, \$524.82.

On August 31, 1911, the Mayor approved a contract with R. J. Young & Co. for pipe drains in Market street, between Lawrence place and the Boston & Albany Railroad. Bids on this work were opened August 17, 1911, and were as follows:

Charles J. Jacob & Co., \$699; R. J. Young & Co., \$563.14; John McCourt & Co., \$796.03; George J. Regan, \$673.21; Antony Cefalo, \$705.65; R. Cartullo, \$690.25.

Engineer's estimate, \$486.25.

PUBLIC WORKS DEPARTMENT (Water Service).

On August 29 the Mayor approved a contract with Charles M. Callahan for setting concrete meter boxes in East

Boston district, south of Marion street. Bids, opened Thursday, August 17, were as follows:

Robert Eagar, Jr., \$5,450; J. H. Ferguson & Co., \$6,710; Charles J. Jacobs Company, \$4,710; M. De Sisto & Co., \$4,840.25; Thomas Burke, \$5,200.25; John A. Costello & Co., \$6,145; John T. Shea, Jr., \$6,130.25; Charles M. Callahan, \$4,610.25.

Engineer's estimate, \$5,175.

SCHOOLHOUSE DEPARTMENT.

On August 23 the Mayor approved a contract with W. L. Morrison & Co. for moving portable schoolhouses in various parts of the city. Bids on this work, opened August 23, were as follows:

	Item 1.	Item 2.	Item 3.
W. L. Morrison & Co.	\$621 00	\$621 00	\$643 00
F. G. Whittaker.....	645 00	645 00	650 00

On August 29 the Mayor approved a contract with the J. H. Ferguson Company for paving the yard of the Minot School. Bids on this work, opened August 23, were as follows:

J. H. Ferguson Company, \$1,945; D. M. Biggs & Co., \$2,249; F. E. Bowes, \$2,322.15; J. McCourt & Son, \$2,639.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without public advertisement, requests of departments to do work with the department forces without advertising, and also additions to and deductions from contracts.

SUPPLY DEPARTMENT.

The Mayor, in view of the representation contained in the accompanying letter, has approved a contract made without advertising with the Hersey Manufacturing Company for furnishing five 4-inch detector meters, \$175 each; three 6-inch detector meters, \$375 each; two 4-inch rotary meters, \$250 each; one 3-inch rotary meter, \$135; two 4-inch fish traps, \$15 each; three 3-inch fish traps, \$10 each for the total sum of \$2,695 to be delivered to the Water Division, Public Works Department.

SUPPLY DEPARTMENT, August 18, 1911.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—I respectfully request your permission to award a contract, without advertisement, to the Hersey Manufacturing Company of South Boston, for water meters. The meters wanted on this contract are designed specially for fire service and can also be set to register a smaller flow. At the present time it is the only meter on the market that is satisfactory to the Water Department and the insurance companies. Aside from this I believe that in view of the fact that all of the Hersey Company's meters bought by me have given such eminent satisfaction, that this contract should be awarded without advertisement. Amount of contract is \$2,695.

Respectfully,

J. EDWARD MULLEN,
Superintendent of Supplies.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PARK DEPARTMENT.

The Mayor has granted to the Park Commissioners authority to set up and

complete balustrades and stairway at locker building, Franklin Field, with the department force, without advertising for competitive bids:

"We recently advertised for bids for setting up and completing the balustrades and stairway at the Franklin Field locker building. Only one bid was received, that from the William L. Morrison Company, who offered to do the work for \$2,243.

"The balustrades for this work have been made in our own shops, which are equipped for doing this class of work, and we think the setting up and completion of this work can be done to advantage by our men; we, therefore, request your authority to do so.

ROBERT S. PEABODY,
Chairman."

PUBLIC WORKS DEPARTMENT.

Similar authority has been granted to the Commissioner of Public Works to do the following work:

Build with the department force a sanitary sewer of 10-inch earthen pipe, a surface drain of 12-inch earthen pipe, three catch-basins and connections in Greenleaf street, between Bryant street and Leon street, Roxbury district, the estimated cost for labor and materials being \$1,898.

Build with the department force about 18 feet of 4 feet by 4 feet concrete surface drain; about 14 feet 12-inch pipe sanitary sewer; about 45 feet 12-inch pipe surface drain; seventeen catch-basins and connections in Bryant street, between Huntington avenue and Ruggles street, Roxbury, the estimated cost being \$3,773.

"The above work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

Relay granite block paving on Washington street, between Hanover street and Haymarket square, the estimated cost for labor and materials being \$2,500.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor.

FIRE DEPARTMENT.

An addition, amounting to \$99, on the contract with the John F. Griffin Company for the repair shop for Fire Department at corner of Bristol and Albany streets for installing one 2-inch high pressure service main in place of low pressure specified. Original contract, \$94,988; contract as standing, \$97,612.20; total amount added, \$2,624.20.

A deduction, amounting to \$600, on the contract with the John F. Griffin Company for the repair shop for Fire Department at corner of Albany and Bristol streets for omission of allowance on page 27 of the specification for furnishing and laying all new sidewalks, curbs and driveways on Bristol and Albany streets. Original contract, \$94,988; contract as standing, \$97,012; total amount added, \$2,624.20; total amount deducted, \$600.

An addition, amounting to \$64.60, on the contract with the John F. Griffin

Company for the repair shop for Fire Department at corner of Albany and Bristol streets for changing gas meter to other side of wall; also changing six fixtures on first floor to flexible pendant and shortening fifteen electric fixtures with necessary cutting and patching. Original contract, \$94,988; contract as standing, \$97,076.80; total amount added, \$2,688.80; total amount deducted, \$600.

PUBLIC BUILDINGS DEPARTMENT.

The contract with Thomas A. Elston & Co. for the razing and removal of the Old Court House is to be carried out under special provision contained therein, which provided for the removal intact and the storage of the portico from the front of the building. As signed the contractor was to pay to the city the sum of \$500; under present terms the contractor will receive the sum of \$2,000.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$91.90, on the contract with Fred E. Bowes for the Prescott School, boiler house, etc., for furnishing and laying 6,500 additional paving bricks at \$11.60 per M., and fifteen yards laying at \$1.10. Contract price, \$997.50; total additions, \$126.90; amount of contract as standing, \$1,124.40.

An addition, amounting to \$1,900, on the contract with the New England Structural Company for enlargement of Girls' High School for furnishing and delivering steel for above alterations work as follows: Contract date of delivery, June 7, 1911; steel ready for delivery held at company's yard at the request of city, May 15, 1911; bonus, nineteen working days at \$100 per day. Contract price, \$4,475; total additions, \$1,900; amount of contract as standing, \$6,375.

An addition of \$112.20 on the contract with the C. S. Cunningham & Sons Construction Company for the John Lothrop Motley School for furring and lathing ceiling of one basement room, \$82.50, and putting on galvanized iron on exterior wall of coal bin, \$29.70. Contract price, \$23,320; total additions, \$478.25; total deductions, \$1,288; amount of contract as standing, \$22,510.25.

An addition, amounting to \$13.65, on the contract with the New England Structural Company for the enlargement of the Girls' High School for furnishing and delivering one pair additional steel beams to bridge safely under old vent opening found in wall. Contract price, \$4,475; total additions, \$1,913.65; amount of contract as standing, \$6,388.65.

An addition, amounting to \$22, on the contract with Thomas H. Hanlon for the Hobart Street School for painting all ironwork in connection with boys' and girls' latrines two coats lead and oil paint. Contract price, \$943; total additions, \$215.50; amount of contract as standing, \$1,158.50.

An addition, amounting to \$19, on the contract with the Hooper Waters Company for the Charles Bulfinch School for cutting for and installing new window in emergency toilet. Contract price, \$80,657; total additions, \$679.55; total deductions, \$5,266; amount of contract as standing, \$76,070.55.

An addition, amounting to \$1,311.92, on the contract with the A. Varnerin Company for the Phillips Brooks District Elementary School for additional concreting: 344 yards excavation at 73 cents, \$251.12; 156 cubic yards concrete at \$6, \$1,060.80; total, \$1,311.92. Contract price, \$108,792; total additions, \$2,034.92; amount of contract as standing, \$110,826.92.

An addition, amounting to \$1,575.60, on the contract with the John F. Griffin Company for the enlargement of the Girls' High School for miscellaneous items of extra work, viz.: For furnishing and installing new switchboard properly enclosed in fireproof walls, \$405.60; for furnishing labor and materials for washing off and tinting walls and ceilings of rooms Nos. 1, 2, 3, 5, 6, 23, 24, 25, 26, 47, 46, 45, and 44, \$600; for cleaning all of the old sandstone on exterior of building in order to match new work, \$315; for brick walls to take place of iron fences on West Newton street and Pembroke street sides of building, \$255; total addition, \$1,575.60. Contract price, \$89,122; total additions, \$1,715.60; total deductions, \$1,864; amount of contract as standing, \$89,113.60.

An addition, amounting to \$45.38, on the contract with the Whiton & Haynes Company for the Lyman District Elementary School for reinforcing foundations at the school. Contract price, \$112,000; total additions, \$4,722.08; total deductions, \$2,275; amount of contract as standing, \$114,447.08.

An addition, amounting to \$575.30, on the contract with the Whiton & Haynes Company for the Abraham Lincoln School for removing stains, washing and treating all wooden floors two coats Gillman's Dress Coat floor finish. Contract price, \$229,800; total additions, \$1,753.30; total deductions, \$915; amount of contract as standing, \$230,638.30.

An addition, amounting to \$111.80, on the contract with the Whiton & Haynes Company for the Abraham Lincoln School for connecting finished tanks in girls' toilets and casing tanks boys' toilets, \$35; preparing windows in the assembly hall for shades, and making door for book lift, fourth floor, \$76.80. Contract price, \$229,800; total additions, \$1,865.10; total deductions, \$915; amount of contract as standing, \$230,749.10.

A deduction, amounting to \$400, on the contract with the Whiton & Haynes Company for the Abraham Lincoln School for omission of allowance in contract for cooking room fittings. Contract price, \$229,800; total additions, \$1,178; total deductions, \$915; amount of contract as standing, \$230,063.

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners have been approved by the Mayor:

Signs.—Bankers' Electric Protective Association, West Broadway and E street; Ghoulgas B. Arabian, 2457A Washington street; L. Romano, 1 Unity terrace; Wing Lee, 867 Harrison avenue; L. Edna Martin, 268 West Newton street.

Illuminated Signs.—Ralph Goldman, 975 Washington street; O'Brien Brothers, 7 Lagrange street; J. J. Kelly, 247 Broadway; Nishian H. Aroyan, 3 Berkeley street; Dr. H. C. Perkins, 224 E street; George L. Griffin & Son, 368 Washington street; Berkeley Tremont Company (3), 537 Tremont street.

Gasolene, etc.—Martino De Matteo, 78 Swallow street; Talbot Avenue Garage Company, 270 Talbot avenue; The Roessle Brewery, 1250 Columbus avenue; C. A. Richmond, Freeport street; John Guarino, Dunbar avenue; The J. W. Bowman Company, 16 Harcourt street; G. W. Burkhardt, 296 Amory street; Frank C. Whitcomb, 14 Farrington avenue; The A. T. Stearns Lumber Company, Taylor street.

Marquise.—I. A. and A. C. Ratscheky, 47 Summer street.

To Close Streets.—Harvard, Kent, Brimmer, Kilby.

Guy Posts.—H. Nawn, Contracting Company, Cambridge and West Cedar streets.

To Stretch Wire.—W. P. Sweeney, across Saratoga street.

25. Guiseppe Lambiase, Domenico Lambiase.....	98 95
26. Guiseppe Lambiase, Domenica Lambiase.....	98 35
27. City of Boston (Schoolhouse).....	561 07
	<u>\$3,649 95</u>

Laying out and construction of Floyd street, Dorchester, as a highway, from Blue Hill avenue to Lucerne street.

Lot.	Amount.
2. Annie M. Vail.....	\$140 48
3. Margaret C. Dillon.....	152 16
4. James Gaskins.....	152 32
5. Duncan J. McMillan.....	152 04
6. Thomas W. Roulston.....	152 04
7. James H. Davidson.....	188 20
8. William A. Paine, Trustee.....	1,368 00
9. Rupert W. Knight, Mary E. Knight,	176 52
11. James A. Davidson.....	129 75
12. James A. Davidson.....	115 68
13. Andrew J. Ward.....	1,668 00
14. Andrew J. Ward.....	177 84
	<u>\$4,573 03</u>

The Mayor has also approved votes of the Board granting an abatement of \$24.75 from an assessment amounting to \$50, levied against lot No. 2 of the estate of Emilie A. Abbe, on account of a sewer laid in Amherst street, West Roxbury; and abating \$24.75 from an assessment of \$50 against the estate of Julia E. Bradford heirs, on account of the construction of a sewer in Belgrade avenue, West Roxbury.

LAND-TAKING FOR SCHOOL PURPOSES.

The Mayor has approved the finding of the Board of Street Commissioners estimating damages in the sum of \$4,807.01 that should be paid to Albert L. Jewell and George O. Wood, Trustees Liberty Real Estate Trust, for a taking of 31,013 square feet of land for schoolhouse purposes on Beaumont street, Bates and Guild roads, Dorchester.

The Mayor has also approved the vote of the Schoolhouse Commissioners requesting the Board of Street Commissioners to take for school purposes a parcel of land containing about 40,001 square feet on Willowwood street, in the Roger Wolcott district; the price not to exceed 15 cents per foot.

PERMISSION TO SELL.

The Mayor has authorized the Fire Commissioner to sell old junk and useless scrap iron to an amount not to exceed five hundred dollars (\$500) worth, to the Roxbury Iron & Metal Company who were the highest of eight bidders. Similar permission was granted for the sale of horses to an amount not exceeding \$500 the same to be in part payment for new horses.

PERMISSION TO SELL STEAMER "JOHN HOWARD."

Authority has been granted to the Infirmary Trustees for the sale of the boat known as the steamer "John Howard," which is no longer needed by the department, and on which the city is now paying wharfage.

APPROVAL OF PRIVATE WAY.

The Mayor has approved the location, width and grade of the private way in West Roxbury, designated as Firth road, from Washington street to Florence street.

PROPERTY IN BOSTON EXEMPT FROM TAXATION.

Approximately \$370,000,000, belonging to city, state, United States, churches, charitable and literary institutions and societies; belonging to city alone, \$119,508,300 in real estate and \$68,934,439 personal.

PROCEEDINGS OF CITY COUNCIL.

Friday, August 25, 1911.

Special meeting of the City Council, held for the purpose of drawing jurors, in the Council Chamber, City Hall, at twelve o'clock m., President COLLINS in the chair and a quorum present.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1894, viz.:

Four grand jurors, United States District Court, to appear September 12, 1911:

Joshua B. Scott, Ward 24; Daniel J. Keefe, Ward 15; David W. Fowler, Ward 1; Samuel Jackson, Ward 12.

Seven petit jurors, United States District Court, to appear September 12, 1911:

James B. Hatch, Jr., Ward 20; William E. Lee, Ward 18; Thomas Landry, Ward 2; Charles A. Woodsome, Ward 20; Patrick T. Cronin, Ward 20; Seymour H. Stone, Ward 23; John W. Heffernan, Ward 3.

Adjourned at 12.06 p. m.

PAYING FOR PAVEMENTS.

Paying for pavements, like paying for other public works, is a particularly unpleasant task for most taxpayers. Baltimore has a situation facing it at present which illustrates the difficulty of many other cities. A loan of \$5,000,000 has been authorized there for constructing pavements, but this sum is wholly inadequate for the purpose. There are about 355 miles of cobblestone pavements and fifty-seven miles of streets not paved at all. It is manifest that the appropriation will not pay for paving much more than two-fifths of this mileage. Possibly a portion of the mileage does not really need improved pavements at this time, although anybody living on a cobblestone street will hardly agree with such an assertion. The only way to pave all the streets is to raise something like two and a half times as much money as is now available. This can be done in two ways, by local assessment or by general taxation. Neither plan will meet with enough support to be carried, in all probability. As a result the city will doubtless go ahead with the improvement of the streets which are most important, and many streets which really need better pavements will not receive them. This is a condition which is undesirable from every point of view. It has not been productive of a well-paved city where it has been tried. There is a substitute for it which ought to be considered, a substitute which has been tried and found fairly satisfactory, although objections have been raised to it, as they will be raised to any plan which involves the payment of money by taxpayers. This is to construct street pavements partly by local assessment and partly by general funds. The city as a whole gains from good pavements, which always improve the value of abutting real estate and hence raise the ratables. On the other hand, the property along a street has a special advantage from a good pavement on it, not enjoyed by property in a distant section. For such an advantage the local property may equitably be charged. Some such dual plan as this of meeting the expenses of paving work will eventually be adopted in many cities, although its progress into favor will undoubtedly be slow. Up to date it is certainly the fairest proposition that has been made.—*Engineering Record.*

AGAINST CITY ALLEYS.

The real estate bodies and city authorities of Milwaukee have come to an agreement, after long discussion, on the subject of alleys. The new plots will all be laid out on an alleyless plan. It has been decided that alleys are disease breeders and collectors of refuse.

CITY OF BOSTON.

PROPOSALS FOR EDGESTONES, GUTTERS, CROSS-WALKS AND ARTIFICIAL STONE SIDEWALKS.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for edgestones, gutters, crosswalks and artificial stone sidewalks in Thetford avenue, between Norfolk and Evans streets, Dorchester, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Wednesday, September 6, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Edgestones, Gutters, Crosswalks and Artificial Stone Sidewalks in Thetford Avenue."

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, August 24, 1911. (Sept. 2.)

CITY OF BOSTON.

PROPOSALS FOR PAVING AND REGULATING.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for paving and regulating Greenleaf street, between Leon and Bryant streets, Roxbury, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at Room 57, fourth floor, City Hall, before 12 o'clock m. of Wednesday, September 6, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Paving and Regulating Greenleaf Street."

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, August 24, 1911. (Sept. 2.)

CITY OF BOSTON.

BOSTON PUBLIC SCHOOLS.

The Boston Public Schools will reopen on Wednesday, September 13, 1911. Entrance examinations will be held as follows:

Latin Schools.—On Wednesday, September 13, 1911, at 9 o'clock a. m. Boys will be examined at the Public Latin Schoolhouse on Warren avenue; girls at the Girls' Latin Schoolhouse on Huntington avenue, near Longwood avenue. Candidates are required to pass an examination equivalent to that required for admission to the seventh grade of the elementary schools. The subjects of examination will be English language, including reading, writing and spelling; geography, and arithmetic.

High Schools.—On Wednesday and Thursday, September 13 and 14, 1911, at 9 o'clock a. m., at the Normal Schoolhouse on Huntington avenue, near Longwood avenue. The subjects of examination will be English language, including reading, writing, spelling, grammar and composition; history and civil government of the United States; geography, and arithmetic. Attendance will be required both days.

THORNTON D. APOLLONIO,
Secretary School Committee.

(Sept. 2.)

CITY OF BOSTON.

PROPOSALS FOR EXCAVATING TREE PITS AND FURNISHING MANURE AND LOAM.

Proposals for excavating tree pits and furnishing well rotted manure and loam of a quality satisfactory to the Superintendent of Public Grounds on Bennington street, East Boston, and giving bond of a surety company therefor in \$1,500, signed by bidder and left before 12 o'clock m. of Thursday, September 14, 1911, at office of the City Greenhouses, East Cottage Street, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to the time named for opening the bids. The Superintendent reserves the right to reject any or all proposals.

D. H. SULLIVAN,
Superintendent of Public Grounds.
Boston, August 31, 1911. (Sept. 2.)

CITY OF BOSTON.

PROPOSALS FOR GYMNASIUM APPARATUS FOR THE CURTIS HALL BUILDING, SOUTH STREET, JAMAICA PLAIN.

The Superintendent of Public Buildings of Boston, Mass., invites proposals for furnishing and installing gymnasium apparatus in the Curtis Hall Building, South street, Jamaica Plain, Boston, according to specifications and giving a bond therefor of a surety company satisfactory to the superintendent in the sum of \$1,000. Only proposals obtained at the office of the Superintendent of Public Buildings, 100 Summer street, Boston, filled out, signed by the bidder and left before 12 o'clock noon of Tuesday, September 12, 1911, at said office with a certified check of \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. Proposals must be placed in envelopes, properly sealed and marked "Proposal for Gymnasium Apparatus." The bid must be made in duplicate, the one with the check to be left as above, the duplicate, without check, to be deposited with the City Auditor, City Hall, Boston, previous to the time named for opening of bids. The undersigned reserves the right to reject any and all proposals or to award the contract as he deems best for the city's interest.

M. J. FISH.

(Sept. 2.) Superintendent of Public Buildings.

CITY OF BOSTON.

PROPOSALS FOR RELAYING WATER PIPE.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for relaying water pipes in River, Anderson, Poplar, Auburn, Phillips and West Cedar streets, city proper, and giving bond therefor of a surety company approved by the Commissioner in the sum of five hundred dollars (\$500), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Relaying Water Pipes" and left at the Hearing Room, second floor, City Hall, before 12 m. on Friday, September 8, 1911, with a certified check for three hundred dollars (\$300), payable to, and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

DELINQUENT TAX SALES.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public are hereby notified that the taxes and assessments thereon severally assessed for the years 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908 and 1909, according to the lists committed to me as City Collector of taxes and assessments of said City of Boston, including the assessments for the suppression of gypsy and brown-tail moths, levied under the provisions of chapter 381, Acts of 1905, and chapter 268, Acts of 1906, remain unpaid, and that the smallest undivided part of each of said estates sufficient to satisfy said taxes and assessments, with interest and all legal costs and charges, or the whole of each of said estates, if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Tuesday, September 26, A. D. 1911, at 9.30 o'clock a. m., for the payment of said taxes and assessments, with interest, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several estates show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said estates is to be sold, but not including the costs and interest thereon and costs and charges incident to this sale.

BOWDOIN S. PARKER, Collector of Taxes for the City of Boston.	
MILWAUKEE TO ESTABLISH MUNICIPAL CHILD WELFARE CENTERS.	
Municipal child welfare centers in the poorer districts to teach mothers to keep their infants healthy are to be established by Mayor Seidel. The first station was opened last week in the Polish quarters, where Polish speaking physicians and nurses will instruct mothers. Nurses will be at the disposal of mothers in the district, day and night, at the city's expense. —Municipal Journal.	

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

SALE OF REAL ESTATE FOR UNPAID EDGESTONE
AND SIDEWALK ASSESSMENTS.

The owners and occupants of each of the parcels of real estate hereinafter described, situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public are hereby notified that the assessment made by the Board of Aldermen of said city on each of said parcels for the benefit and advantage received by the parcel by the construction of an edgestone and sidewalk according to the list committed to me as Collector of Taxes of said city by said board, remains unpaid, and that the smallest undivided part of each parcel which will be necessary to discharge said assessment thereon and the necessary intervening charges, or the whole of the parcel if no person offers to take an undivided part thereof, will be offered for sale at public auction at the Collector's Office, room numbered 11, in the basement of City Hall, in said City of Boston, on Tuesday, September 26, A. D. 1911, at 9.30 o'clock a. m., for the payment of said assessment and the costs and charges thereon, unless the same be paid prior to the sale.

The sums set against the following descriptions of the several estates show the amounts due thereon respectively for the assessments for the nonpayment of which each of said estates is to be sold, but not including the costs and interests thereon, and costs and charges incident to this sale.

WARD EIGHTEEN.

James S. Cannon Administrator Harriet M. Brown Estate—Buildings and about 1,400 feet of land, numbered 119 Hampshire street..... \$17 60
William E. Dantforth—Buildings and about 1,485 feet of land, numbered 113 and 115 Linden Park street..... 21 23
Sarah E. McCarty—Buildings and about 1,614 feet of land, numbered 194 Vernon street..... 11 55

WARD NINETEEN.

James Daley—Buildings and about 2,880 feet of land, numbered 96 Lawn street..... \$28 00
Julia Lynch—Buildings and about 1,514 feet of land, numbered 6 Linwood street..... 10 07
Lawrence J. Logan—About 25,000 feet of land on the northwesterly side of St. Alphonsus street, making the northerly corner of Alleghany street, being a lot shown on William O. Badger plan, March 14, 1898, recorded Suffolk Deeds, Book 2520, page 161..... 51 41
Johanna McCarthy Buildings and about 2,239 feet of land, numbered 87 Lawn street, balance..... 10 40
James Ward—About 2,616 feet of land, on the northeasterly side of Lawn street, adjoining an estate of Anne Riley (numbered 71)..... 22 75
Annie B. Welch Buildings and about 22,519 feet of land, numbered 11 Parker Hill avenue..... 77 80

WARD TWENTY.

William, Marion and Henrietta Faxon—Buildings and about 8,139 feet of land, numbered 323, 325, 327 and 329 Washington street..... \$57 33
Also about 27,344 feet of land on the westerly side of Washington street, making the northwesterly corner of Faxon street, adjoining an estate of Maria M. Ourish Heirs or Devises (numbered 269 Washington street)..... 75 28
Helen Hendrie—Buildings and about 9,683 feet of land, numbered 225 Harvard street..... 65 78
Joseph A. Hendrie—Buildings and about 3,844 feet of land, numbered 219 Harvard street..... 22 12
Lawrence J. Logan—About 33,647 feet of land on the westerly side of Bowdoin avenue, extending through to Washington street, adjoining an estate of Anna M. Bellamy (numbered 17 Bowdoin avenue)..... 91 84
Alvin C. Norcross—About 11,155 feet of land on the southerly side of Harvard street, adjoining an estate of Charles H. Lindsay..... 56 45

WARD TWENTY-THREE.

Annie M. Kelley—Buildings and about 5,310 feet of land, numbered 2 Florence street..... \$29 96
Margaret M. McLeod—Buildings and about 6,558 feet of land, numbered 48 Cohasset street..... 15 57
Addie E. Peterson—Buildings and about 5,291 feet of land, numbered 52 Cohasset street balance..... 20 80
Abby A. Waters—Buildings and about 6,529 feet of land, numbered 909 South street and 1 Fletcher street..... 38 50
Moses Williams and Richard W. Hale, Trustees Massachusetts Tax Title Company—About 1,600 feet of land on the westerly side of Florence street, adjoining an estate of Ella E. Morse (numbered 219 and 221)..... 26 74

WARD TWENTY-FOUR.

Laura M. Chick—Buildings and about 2,350 feet of land, numbered 11 Hill-side terrace..... \$39 41
Bridget Derrigan—Buildings and about 5,250 feet of land, numbered 49 Fuller street balance..... 24 67
Wellington, John B., and Grace Holbrook, Trustees—Buildings and about 4,278 feet of land, numbered 631 Walk Hill street..... 27 44
Also buildings and about 4,186 feet of land, numbered 627 Walk Hill street, Also buildings and about 4,145 feet of land, numbered 623 Walk Hill street, Daniel Kelly—Buildings and about 4,500 feet of land, numbered 50 Nelson street..... 59 43
Mary Murray—About 4,501 feet of land on the easterly side of Nelson street, adjoining an estate of Francis J. Robinson (numbered 52)..... 35 00
Also about 4,391 feet of land on the northerly side of Maxwell street, making the northeasterly corner of Nelson street, adjoining another estate of said Murray..... 62 93
Also about 4,391 feet of land on the northerly side of Maxwell street, making the northeasterly corner of Nelson street, adjoining another estate of said Murray..... 38 92

WARD TWENTY-FIVE.

Abraham B. Beal—Buildings and about 5,034 feet of land, numbered 11 and 15 Royal street..... \$70 00
Also buildings and about 5,846 feet of land, numbered 5 and 7 Royal street, George L. Flanders—Buildings and about 5,196 feet of land, numbered 19 and 21 Royal street..... 69 02

BOWDOIN S. PARKER,

Collector of Taxes for the City of Boston.

UNIVERSITY EXTENSION
COURSES.

The following courses of lectures have been arranged with the Art Museum for the coming winter by the Committee on Extension Courses:

1. Moslem Art and Civilization. Illustrated lectures, reading, and written work, and the study of objects in the museum. Monday and Wednesday at 4 p. m. (Quarter course, first half-year.) Mr. Garrick M. Borden of Harvard University. Fee, \$2.50.

This course takes up the art and civilization of Persia, Turkey, Moslem India, Egypt, North Africa and Spain, and is planned to interest the following classes of students:

(1.) For the teacher of history the points of contact between the east and west will be noted; the Crusades, the Spanish Caliphate, the Saracens in Sicily, the relations of Venice with the Eastern Empire and the Turks, the preservation of Greek learning by the Arabs and its transmission through them, though in a changed form, to Western Europe.

(2.) For the student of life and manners various objects of Moslem art, such as manuscripts, textiles, metalwork, and pottery will be studied, not only as objects of artistic importance, but from the point of view of the handicrafts; the processes of their production will be described, and their use in the affairs of daily life and religion explained.

(3.) For the student of literature the connection between Moslem literature and art will be shown by photographs of the Makamat of Hariri and its Arabic miniatures, and, best of all, by the texts of later Persian poets illustrated by numerous miniatures.

(4.) For the student of the history of art there will be a consideration of the various objects of Moslem art from the point of view of origins, chronology and classifications.

(5.) For the student of architecture attention will be directed to the five great schools of Moslem architecture: (1) Syria and developments in Egypt; (2) North Africa and its near neighbor, Moorish Spain; (3) the Turkish Imperial Mosques derived from Santa Sophia; (4) the original constructive architecture of Persia; (5) the architecture of Moslem India derived from Persia.

(6.) For the artist and the critic special study will be given to those objects which are generally considered the highest achievements in the field of Moslem art. An attempt will be made to define what constitutes the distinctive excellence of Moslem art, the art of the Nearer Orient.

This course will be illustrated by lantern slides, by photographs and plates, but especially by means of original works of Arabic and Persian art belonging to the museum. A list of collateral readings will be furnished for those who desire to receive credit for the course, and a reservation of books will be made in the Boston Public Library.

2. The Mythology of Greece and Rome, with special reference to its influence on European literature. Lectures, reading, and written work, and the study of objects in the museum. Monday and Wednesday at 4 p. m. (Quarter course, second half-year.) Dr. Arthur Fairbanks, Director of the Museum of Fine Arts, and an assistant. Fee, \$2.50.

This course is intended primarily for teachers of English literature and of other modern literatures. It will include exercises in the study of myths as represented in the Greek vases and other works of art in the museum.

Application blanks for these courses may be obtained at the museum, or by writing to the Commission on Extension Courses 19 University Hall, Cambridge.

AUTOS INSTEAD OF HORSE PATROL
WAGONS.

Cincinnati is preparing to substitute auto patrol wagons for horses in all stations where there are hills or long distances to cover.

THE GOVERNMENT OF BRITISH CITIES.

In an address delivered before the City Club of New York by the Rt. Hon. James Bryce, the speaker called attention to the fundamental differences existing in the form of municipal government as administered in this country and in England. He said, in part:

"Our municipal governments have been created by general statutes, amended from time to time by subsequent statutes. These statutes lay down the outline or general structure of the government. The suffrage upon which the municipal councils are elected is uniform over England. It is not quite the same as the parliamentary suffrage, admitting a somewhat larger number of persons to vote. It may be said, speaking generally, that the municipal voters are fully three-fourths of the whole number of adult males, that is to say, as compared with the United States, where all adult males have the vote, the municipal voters in England would be about three-fourths of all who could in the United States have the right of voting. Therefore, although the suffrage is not quite manhood suffrage, it is not so very far removed therefrom and includes the great bulk of the working class.

UNIFORMITY IN MUNICIPAL SYSTEMS.

"Now, the form of our government is everywhere substantially the same. There is a council composed of two classes of persons, councilors and aldermen, and there is a mayor who is not elected separately, as in the United States, but chosen by the council and aldermen taken together, generally from among themselves, though now and then someone is chosen from outside on the ground of personal or social eminence. The elections are, as a rule, pure. There is nowadays very little bribery, there is practically no personation or repeating. It would not be worth while to personate or repeat for a municipal election, and it is seldom worth while to bribe. We have, moreover, a stringent corrupt practices act applicable to municipal elections. There have been instances in which petitions against a return were presented, investigations were held, and the existence of bribery was detected and punished, but that is so unusual as not seriously to impeach the general working of the system. You will ask how far the elections are conducted upon party lines. Strange to say, there is the greatest possible difference between different cities of England in this respect. In the majority of our municipalities the elections are, nominally at least, conducted upon party lines, that is to say, a candidate avows himself to be a Liberal or a Tory, and the party organizations are called in to conduct his campaign, but in point of fact the elections do not greatly turn upon party differences, that is to say, the citizens do not greatly regard their party affiliations in giving votes for municipal councilors. If a man is personally popular, or if his character and ability stand high, he will receive a great many votes from the party which is nominally opposed to him. There is little or none of the trouble that is found here in securing a renomination. It is almost a matter of course to renominate a sitting member if he has been faithful to his party in parliament or in a council and if he is personally unobjectionable.

DETAILS OF ELECTION SYSTEM.

"The councilors are elected by wards. There are usually three elected for each ward, and one is elected every year, the

term of service being three years. They are the directly elected members of the municipal council. The aldermen are chosen by the council each November immediately after the election, and are chosen to serve for six years instead of for three. The aldermen are generally chosen from the senior councilors, the men of most experience and ability. They are not necessarily so chosen, but sometimes from outside. Sometimes, also, men are selected who, having been councilors, have lost their seats at the last election, although that does not often happen. The mayor is not directly elected, as in the United States, but is chosen by the council, not necessarily by law, from among its own members, although in the great majority of cases, indeed the enormous majority of cases, he is chosen from the council. The council is, however, at liberty, if it likes, to go outside and elect some man of distinction and importance connected in some other way with the city, whom it is thought worth while to put in that post. The mayor has not in England those important special functions which belong to the mayor here. He is merely the chairman of the council, and he has no more influence than belongs to a chairman whose duty it is to see that the business coming before the council is properly conducted. The position is one of some dignity, at least in the larger cities, a post to which importance is attached, and in which it is always desired to secure a man of ability and character, and if possible also of high social position. That is perhaps even more the case in Scotland, where the head of the municipality is called the provost, or, in the case of a few great cities, the lord provost. The provost is always an object of very considerable interest to the citizens of a Scotch burgh, and sometimes in the smaller burghs the office is given to the same man for many years. Such a man would be the most important person in the town, so much so that if a person desiring to become a candidate for the parliamentary representation of that burgh went to spy out the land, he would be told that the first thing to do was to call upon and gain the good will of the provost. In most English towns the mayor receives a salary as allowance. He is the only member of the city government who does so, but the salary is by no means an emolument for he is expected to entertain hospitably and to receive and entertain all distinguished visitors who come to the city, and to give public receptions from time to time. Apart from the councilors we have in Britain no elective municipal officers whatever. The government is in touch with the people only through the election of the councilors. Everybody else who holds any office is elected and appointed by the council itself.

"The council as a whole is responsible for each and every part of the borough government, but it is of course impossible for it to discharge its numerous and often complicated duties when it sits as an entire body. Therefore, every council divides itself into committees, and the ordinary government of the boroughs from week to week is practically vested in these committees. The committees are appointed not by the mayor but by the council. We have no custom in England at all of leaving any individual person to appoint a committee. Neither in the House of Commons nor the House of Lords, nor in any county council, nor in any municipal council, do we give so important a function as the appointment of a committee to any single officer. This

right is always vested in the body itself. The committees are, as a rule, arranged by the council with very little regard to party politics.

"In fact, politics, party politics, what may be called national politics, enters so little into our city government as to be a negligible factor. It is only upon a very few questions and in a very few boroughs that party lines are drawn in the actual conduct of business.

"Our municipal governments and our cities have grown very slowly during centuries. None of our cities, not even places like Leicester and Northampton and Aberdeen and Cardiff, which have been increasing very rapidly, some of them doubling within the last thirty years—none of them have grown with anything like the speed with which cities grow in the United States; and when growth is very rapid, all sorts of problems and difficulties arise for the people to grapple with, whereas, when cities increase more slowly, as they usually do with us, there is always time to look about and anticipate trouble before it actually arrives. And that is still more the case when you reflect that whereas here a very large part of the growth of your cities has been due to the coming of immigrants from other countries, many of whom are not familiar with your institutions, in our case, our population is almost entirely home grown. It is a homogeneous population, accustomed to the same traditions, habits and ideas. Under those conditions the formation and the working of a government are very evidently much easier matters. We apply in our municipalities methods and habits of government which we have followed for many years, and the citizens in our government have formed the habit of respecting the government and trusting in the probity of the individuals who compose it. Taking England and Scotland as a whole, there is a tendency among the citizens for those of high social position to take less direct part than formerly in municipal work. That is largely due to the fact that the business of the leading manufacturers and merchants has so greatly increased that it is extremely difficult for a man in active business to find time for sitting in a council. If a man of that standing has a keen political ambition, he prefers to seek a seat in parliament; and a membership in a municipal council is not deemed to be any great help towards securing a place in parliament.

"Our English conditions have been fortunate in this, also, that we never have had any elective offices beyond those of the councils themselves. We have not yet gone so far towards direct popular sovereignty as you have and though our government is quite as democratic and less guarded by constitutional restrictions, we have not thought it wise to leave so many offices to direct choice by the people. We have been content to elect one body, and then leave all their appointments in the hands of that body, whereas you elect many of your executive officials.

"Let me take this opportunity of adverting to a matter which I should have mentioned sooner, a most important matter, and one that ought not to be passed over. It is the part played in our city government by the permanent officials. The permanent officials of the municipalities, such persons as the medical officer of health, and the engineer, with their subordinates, now a very numerous and important body in a large city, and the legal officials, and the chief of the police, the head of whom is the person whom we call the chief constable, those

are all permanent officials. They are appointed for practically life, or for good behavior, that is to say, they are continued in office so long as they are efficient, and not dismissed unless they commit some offence or fail in the discharge of their duties. They are well paid, paid, as a rule, just as well as people of the same skill and experience are paid in the professions of medicine and engineering, except in this respect, that as they have the advantage of an assured position their salaries may be slightly less than what a man of like skill would earn in private practice.

"The points in the British system which seem most approved by our experience are the absence of party politics in the conduct of municipal affairs, the small number of persons chosen by direct popular election, and the permanence of the civil service of the cities, there being no removals for political reasons.

"I would say that things in this country seem to be more and more tending to settle down. Time is on the side of the reformers. You are not only acquiring experience, which sometimes, of course, has to be bought pretty dear, but you are getting by degrees into a more stable condition, and you have the opportunity of surveying the whole field and coming to understand where the difficulties lie. The lines which a sound municipal government ought to follow are becoming clearer and plainer than they were thirty years ago, and the numerous experiments being made all over the country are likely to lead to the adoption of some general framework of government, better than that which prevailed in the last generation.

"One of the evils most frequent is in the insufficient distinction between that which belongs to politics and that which belongs to business; but your administration is becoming more and more of a business administration, certainly in this city, than ever before, and that is generally true of cities all over the Union. Everywhere men are coming to see the importance of fixing responsibility upon definite persons. That is the meaning of the tendency to adopt the commission form.

"All over the country the same phenomena which you see here are visible to the observant traveler. In all the largest cities where I have been honored by being the guest of chambers of commerce and civic clubs and citizens' associations, I have found organizations in which good citizens have banded themselves together, supplementing the defects of their local municipal government by making themselves the organs of an alert and enlightened public opinion, stirring up the spirit of the people and impelling by the pressure of opinion the municipal authorities toward the improvements that are needed. In nearly all the cities the sky is brighter, the light is stronger. A new spirit is rising. The progress you may expect to see in the elevation and purification of your city government within the next twenty or thirty years may well prove to be greater and more enduring than even that which the last forty years have seen."

WELL SHADED STREETS.

Washington has nearly 100,000 shade trees in its streets, representing about 535 miles of shaded areas.

RED LIGHT SIGNAL SYSTEM.

Buffalo is just installing the red light police signal system and is much pleased with it.

BALTIMORE'S PORTABLE BATH HOUSES.

Last summer the Public Bath Commission of Baltimore erected four portable baths in crowded sections of the city, which were patronized by about 500 bathers each day. This new style of bath is a great improvement over the tent baths with wooden floors, which were first used at a construction cost of about \$150 and a maintenance cost, including salaries of two managers, of \$20 or \$25 a week. The tent bath has the advantage of being easily set up, but it lacks sufficient privacy, and the towels, soap, brooms and mops which are used cannot very well be protected against thieves.

The new portable bath has a light wooden framework covered with galvanized iron, with interior partitions similarly constructed. The woodwork of the shower and dressing cabins which is exposed to water is also covered with galvanized iron to prevent decay. In an adjoining lean-to there is an egg-shaped coal stove surrounded by a water jacket, with a storage tank holding seventy-five or one hundred gallons, which provides the supply of warm water. This stove house, while not more than 7 feet square and 9 feet high, gives room also for the storage of one-quarter or one-half a ton of coal.

The bath house is divided into seven compartments, each about 8 by 3½ feet, and containing a small dressing room and a shower room. A waiting room for bathers and an office for attendants occupy the space in front of these seven compartments. This house, known as "Portable Bath No. 1," is collapsible into about seventy-five sections, each about 5 by 8 feet, which can be set up on the sill frames and fastened in place by bolts and nuts or thumb screws, the work occupying three men four days. "Portable Bath No. 2" is not collapsible, but is in two parts, each about 9 by 14 feet, which are easily fastened together by bolts.

The inner construction of each house, including all the plumbing by employees of the Baltimore Bath Commission, costs \$600 or \$650, and the weekly cost of maintenance for each is \$33.60. The receipts from fees average about \$10 per week, making the net weekly maintenance cost \$23.60. Adults are charged 3 cents each for soap and towel, and children under twelve years 1 cent. There are certain free days for children under twelve years. The houses are sufficiently tight to be comfortable in cold weather. In 1909 one of them gave satisfactory service through November.—*The American City.*

DUST PREVENTION.

Dust prevention is an art requiring the careful exercise of trained brains as well as the presence of a sprinkling device filled with a sticky fluid. Road oiling is done so poorly in many places that the oiled roads are a nuisance rather than a relief. Zealous salesmen are hurting their own interest by telling people it is only necessary to "put plenty" of oil on a thoroughly dry road to keep down the dust for a year. This is arrant nonsense. Experience in this country shows that oiling a road, to be successful, requires careful attention to a number of details or the road will be more disagreeable than before treatment. The black, greasy mud of an over-oiled road or of one oiled while damp has made many a house so grimy that dust prevention is there considered worse than the presence of the dust itself. It is evident that this year a still more annoying result of brainless road oiling will be somewhat prevalent. As a result of former complaints of excessive use of preventives, or because of a desire to make a showing for economy, an amount of oil is being used in

some places which is wholly inadequate. For some reason which nobody has yet explained, the liquid is often sprinkled on a road deep with fine dust and particles of refuse from countless sources. This dust cannot be consolidated by oil or anything else into even a fair road surface. When a small quantity of oil is sprinkled on it, the dust and oil form little pellets of sticky mud lying in a mass of barely moistened dust. The road is perceptibly better for a few days, but after the first dry week travel produces just as much dust as there was before, and it is more disagreeable because the slight amount of oil in it is irritating to both the nostrils and eyes. Even where the road is fairly well cleaned before oiling, which should generally be the case, although it rarely is, the use of only a small amount of oil will result in offensive dust during long periods of dry weather and heavy travel. This has been observed many times of late in this country and the "Surveyor" has called attention to its occurrence in England, where dust prevention work is better conducted than it is here as a rule. When such conditions arise, the road ought to be swept, for if this is not done it will be as disagreeable as an untreated road.—*Engineering Record.*

ADOPTING STREET GRADES.

When a municipality awakens to the necessity of improving the appearance of its streets it too often finds that the first requisite is modifying the grades which, in many cases, have never been officially established at all, the roadway and sidewalk simply following the natural surface. The opposition aroused by abutting owners who have built houses and stores to fit the existing grades frequently makes this one of the most unpleasant and for the time unpopular duties of council, engineer and all concerned. It cannot be too strongly impressed upon councilmen and city engineers that the proper time to establish the grade of a street is when the street is first laid out; and if there is any part of the city where grades have not already been adopted or where those adopted years ago are now realized to be inadequate to modern conditions the matter should be remedied at once, for the difficulty and expense, and the inconvenience to abutting owners, will increase each year. It is an injustice to prospective builders not to furnish them with established grades which they can rely upon as those which will be retained during the life of the structures which they are proposing to build, and it seems to us that owners are amply justified in demanding large damages when an established grade having been denied them previous to construction, the final grading of the street leaves their property at an objectionable elevation above or below the sidewalk.—*Municipal Journal and Engineer.*

RED LIGHT IS AUTO INSURANCE.

Street cleaners on Michigan boulevard Chicago, Ill., have adopted a new method of keeping out of the path frequented by automobiles at night. They have a miniature electric light globe pushed through the top of their hats, with a battery in their pockets and wires connected through the hat. The globe is red. The city department, as well as the hotels and clubs along the boulevard, insist on cleaners working on the street all evening, and several have been struck and seriously hurt by machines. At first they had just common white lights on their hats, but drivers took them for cigarettes.—*Municipal Journal and Engineer.*

OFFICIAL DIRECTORY.

MAYOR'S OFFICE.

Room 27, City Hall. Tel. Fort Hill 3000.
 JOHN F. FITZGERALD, *Mayor*.
 WILLIAM A. LEAHY, *Secretary*.
 RICHARD F. FIELD, *Assistant Secretary*.
 Amusement License Division—JOHN M. CASEY.

CITY COUNCIL.

WALTER L. COLLINS, *President*, 445 Washington street, Dorchester.
 JOHN J. ATTRIDGE, 118 Malden street, Boston.
 WALTER BALLANTYNE, 224 Dudley street, Roxbury.
 TIMOTHY J. BUCKLEY, 7 Lawrence street, Charlestown.
 JAMES M. CURLEY, 105 Mt. Pleasant avenue, Roxbury.
 MATTHEW HALE, 1 Charles River square, Boston.
 THOMAS J. KENNY, 296 West Fifth street, South Boston.
 DANIEL J. McDONALD, 28 Marion street, Charlestown.
 EARNEST E. SMITH, 148 Mt. Vernon street, Boston.

CLERK OF COMMITTEES.

JOHN F. DEVER, Room 56, City Hall.

CITY MESSENGER.

EDWARD J. LEARY, Room 24, City Hall.

ART COMMISSION.

Room 1151, Tremont Building.
 THOMAS ALLEN, *Chairman*.
 J. T. COOLIDGE, Jr., *Secretary*.

ASSESSING DEPARTMENT.

Room 18, City Hall. Tel. Main 4598.
 JOHN J. MURPHY, *Chairman*.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, SEPTEMBER 9, 1911.

No. 36

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 45, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, September 11, at 2 o'clock p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

Graham, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Patrick Flaherty, laborer, 1 day at \$2.25, \$2.25; Henry Murphy, mason, 8 hours at \$0.70 per hour, \$5.60; Luke Glennon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick J. Barrett, laborer, 1 day at \$2.50, \$2.50; Stephen Connolly, laborer, 2 days at \$2.25, \$4.50; Thomas Tevenan, laborer, 2 days at \$2.25, \$4.50; William Mullen, laborer, 2 days at \$2.50, \$5; James McDonough, teamster, 1 day at \$2.25, \$2.25; Patrick J. Hartigan, teamster, 1 day at \$2.50, \$2.50; John P. Bogan, bracer, 2 days at \$2.50, \$5; Richard Murray, laborer, 2 days at \$2.25, \$4.50; William Cluff, laborer, 2 days at \$2.25, \$4.50; John F. Breen, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; James Clancy, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas Casey, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Timothy Reardon, sewer cleaner, $\frac{1}{2}$ day at \$2.75, \$1.38; John J. McKenna, subforeman, 2 days at \$3.50, \$7; Thomas Flaherty, bracer, 2 days at \$2.50, \$5; James King, bracer, $1\frac{1}{2}$ days at \$2.50, \$3.75; Thomas Hughes, sewer flusher, $\frac{1}{2}$ day at \$2.75, \$1.38; Michael Hourihan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael McKenna, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Lawrence F. McNamara, laborer, 1 day at \$2.25, \$2.25; Martin Kelly, laborer, 1 day at \$2.25, \$2.25; Daniel Hart, laborer, 1 day at \$2.25, \$2.25; John Guinee, laborer, 1 day at \$2.25, \$2.25; Patrick, McDermott, laborer, 1 day at \$2.25, \$2.25; H. J. Moynihan, inspector, $\frac{1}{2}$ day at \$5, \$2.50; Joseph P. Driscoll, laborer, $\frac{1}{2}$ day at \$2.50, \$1.25; George W. Emerson, engineer, 1 day at \$4.66 $\frac{1}{2}$, \$4.67; Charles R. Palmer, engineer, 1 day at \$4.66 $\frac{1}{2}$, \$4.67; Daniel Murphy, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Water Service).

For the week ending Thursday, August 31, 1911:

Thomas Lavery, stableman, 1 day at \$2.25, \$2.25; Edward A. McGonagle, chauffeur, $\frac{3}{4}$ day at \$2.75, \$2.15; Thomas Bowen, teamster, $1\frac{1}{2}$ days at \$2.25, \$3.09; Hugh Campbell, repairer, $2\frac{1}{4}$ days at \$2.50, \$6.88; John Connolly, 1st, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Edward Doherty, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Michael F. Daley, 2d, laborer, $2\frac{1}{4}$ days at \$2.25, \$6.19; Denis J. Delaney, laborer, $2\frac{1}{4}$ days at \$2.25, \$5.48; John W. Kelley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; Michael McCarthy, 2d, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; Jeremiah J. McLaughlin, teamster, $\frac{3}{8}$ day at \$2.50, \$0.47; Michael McLaughlin, repairer, $\frac{1}{4}$ day at \$2.50, \$0.63; Patrick F. Mullen, inspector, $2\frac{1}{2}$ days at \$2.75, \$7.22; Cornelius Sulli-

van, 2d, laborer, $2\frac{1}{4}$ days at \$2.25, \$5.48; Thomas Williams, teamster, $\frac{1}{2}$ day at \$2.25, \$1.05; Thomas Carey, 2d, laborer, $2\frac{1}{4}$ days at \$2.25, \$5.06; Thomas F. Corcoran, laborer, $2\frac{1}{4}$ days at \$2.25, \$5.06; Charles A. Dale, concrete worker, $\frac{1}{2}$ day at \$3, \$2.63; John Fay, 1st, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Michael Bowen, plumber, $\frac{3}{8}$ day at \$3, \$0.56; Martin Dunlap, plumber's helper, $\frac{1}{8}$ day at \$2.25, \$0.42; Dennis McGowan, laborer, 1 day at \$2.25, \$2.25; John Concannon, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; John McNulty, laborer, $1\frac{1}{4}$ days at \$2.25, \$3.94; John Cummings, repairer, $1\frac{1}{8}$ day at \$2.75, \$2.58; Bernard E. Flanagan, plumber, $\frac{1}{4}$ day at \$3, \$0.75; Patrick Ryan, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; John Farrell, laborer, 1 day at \$2.25, \$2.25; James Doherty, foreman, $2\frac{1}{2}$ days at \$3, \$7.88; Hugh Cauley, pipe layer, $2\frac{1}{2}$ days at \$2.50, \$6.56; Owen Lynch, laborer, $2\frac{1}{4}$ days at \$2.25, \$5.06; James Lyons, 2d, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.91; John McCormick, 2d, laborer, $3\frac{1}{2}$ days at \$2.25, \$8.16; Patrick McGinnis, laborer, $\frac{2}{5}$ day at \$2.25, \$0.42; John J. Gallagher, pipe layer, 1 day at \$2.50, \$2.50.

Meter Branch.—O. J. Gilloon, plumber, $\frac{1}{2}$ day at \$3.50, \$0.44; J. O'Brien, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; P. Russell, laborer, $\frac{3}{8}$ day at \$2.25, \$0.84; F. B. Lang, laborer, $\frac{1}{8}$ day at \$2.50, \$0.47; T. Sullivan, plumber, $\frac{5}{16}$ day at \$3.50, \$1.09.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending September 7, 1911:

PARK DEPARTMENT.

On September 5 the Mayor approved a contract with James Driscoll & Son Company for work on tennis court at Franklin Field. Bids on this work, opened August 24, were as follows:

James Driscoll & Son Company, \$3,760; James H. Fannon, \$4,620; John McCourt & Co., \$4,660; C. Murphy & Son, \$5,500; J. H. Ferguson Company, \$5,330; M. H. Norton, \$5,420.

On September 5 the Mayor approved a contract with the William L. Morrison Company for erecting concrete and iron pergola at the Prince Street Playground for the sum of \$2,643; they being the only bidders on August 24, when proposals were opened.

On September 5 the Mayor approved a contract with George T. Rendle for building a concrete wall at the Columbus Avenue Playground. Bids on this work, opened August 24, were as follows:

George T. Rendle, \$1,100; Armor Concrete Construction Company, \$1,440; James McNamee, \$1,440; W. A. Murtfeldt, \$1,550; Ware & Whiting, \$1,564; Simpson Brothers Corporation, \$1,819; William L. Morrison Company, \$1,943; J. H. Ferguson Company, \$1,945.

PENAL INSTITUTIONS DEPARTMENT.

On September 5 the Mayor approved a contract with James H. Knowles for furnishing 300 barrels of flour. Bids on this supply, opened August 24, were as follows:

James H. Knowles, \$4.59 per barrel of 196 pounds; Washburn-Crosby Company, \$4.77.

PUBLIC BUILDINGS DEPARTMENT.

On September 1 the Mayor approved a contract with Edward C. Kelly for

installing hot water system in the Registry of Deeds. Bids on this work, opened August 31, were as follows:

Edward C. Kelly, \$1,239; Stevens Plumbing Company, \$1,398; Sullivan & Callahan, \$3,500; Michael Ahern, \$3,675.

W. H. Mitchell & Sons Company filed a blank proposal without signature or amount.

PUBLIC WORKS DEPARTMENT (Paving Service).

On September 2 the Mayor approved a contract with James Doherty for wood block pavement in Dudley street, between Guild row and Harrison avenue. Bids on this work were opened August 21, 1911, and were as follows:

James Doherty, \$14,862.30; F. S. & A. D. Gore Corporation, \$15,081.20; Central Construction Company, \$15,276.

Engineer's estimate, \$17,200.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

On September 2 the Mayor approved a contract with Bertelsen & Petersen Engineering Company for repairing the tow-boat "Cormorant." Bids on this work were opened August 21, 1911, and were as follows:

Bertelsen & Petersen Engineering Company, \$4,498; Lockwood Manufacturing Company, \$4,500.

Engineer's estimate, \$5,500.

PUBLIC WORKS DEPARTMENT (Sewer Service).

On September 2 the Mayor approved a contract with William J. Barry for building Stony brook conduit, section 8, as tunnel in West Roxbury. Bids on this work were opened August 28, 1911, and were as follows:

BIDDER.	Total Open Trench.	Total Tunnel.
William J. Barry.....	\$103,650 50	\$97,850 50
Patrick McGovern.....	99,525 00	
Antony Cefalo.....	120,631 40	120,631 40
Peter W. Hill.....	110,681 50	110,681 50
Coleman Brothers.....	113,578 50	113,278 50

WITHOUT ADVERTISING.

The Mayor has approved the following requests of departments to do work with the department force without advertising:

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

Resurface, with tar macadam, with the division force, Thornley street, between Pleasant street and Dorchester avenue, the estimated cost for labor and materials, being \$1,500.

"This is maintenance work and can, in my opinion, be done as advantageously by day-labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners have been approved by the Mayor:

Signs.—McDonald & Joy, 26 Hawley street; Joe Walter, 110½ Harvard street; George Prillia, 108 Broadway; George Prillia, 108 Broadway, Max Orent, 103 Bedford street; L. Spitz, 56 Waltham street.

CITY OF BOSTON.

PROPOSALS FOR TAR MACADAM ROADWAY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing a tar macadam roadway in Bradfield avenue, between South and Centre streets, West Roxbury, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at the Hearing Room, second floor, City Hall, before 12 o'clock m. of Monday, September 18, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Tar Macadam Roadway in Bradfield Avenue."

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, September 7, 1911. (Sept. 9.)

BOSTON'S PUBLIC STREETS AND SEWERS.

Total miles of paved streets (about 2,000 streets in all) February 1, 1911, 521.21 (exclusive of streets not accepted); 353.81 miles are paved with macadam, 98.63 miles with granite block, 21.98 miles with asphalt. Total miles of common and intercepting sewers, 789.05.

CITY OF BOSTON.

PROPOSALS FOR LAYING WATER PIPE.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for laying 3,600 feet of 8, 10, 12 and 16-inch water pipe in Frankfort, Gove and Lubec streets, East Boston; Providence street, city proper; Johnson road, Dorchester; Colonial road, Brighton; Crest, Dunwell and Hayden streets, and Nikisch avenue, West Roxbury; and giving bond therefor of a surety company approved by the commissioner in the sum of eight hundred dollars (\$800) to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Laying Water Pipe," and left at the Hearing Room, second floor, City Hall, before 12 m. on Friday, September 15, 1911, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, September 7, 1911. (Sept. 9.)

CITY OF BOSTON.

PROPOSALS FOR SETTING CONCRETE METER BOXES IN EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for setting concrete meter boxes in East Boston in district north of Marion street, and giving bond therefor of a surety company approved by the commissioner in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Setting Concrete Meter Boxes," and left at the Hearing Room, second floor, City Hall, before 12 m. on Friday, September 15, 1911, with a certified check for five hundred dollars (\$500) payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.
Boston, September 7, 1911. (Sept. 9.)

CITY OF BOSTON.

PROPOSALS FOR THE SALE OF OLD MATERIAL.

The Commissioner of Public Works of the City of Boston, office Room 49, City Hall, invites proposals for the sale of old material at Water Service yard, 710 Albany street; Ferry Service, South Ferry, East Boston side; Sanitary Service, 648 Albany street. The purchaser shall remove the material (which is to be the property of the purchaser) within a reasonable time. Only proposals obtained at said office, filled out, signed by the bidder, and left at the Hearing Room, second floor, City Hall, before 12 o'clock m. of Monday, September 18, 1911, will at said hour and place be publicly opened and read. The bidder must deposit in cash or certified check made payable to the City of Boston the amount bid for each of the items. The proposals must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed and marked "Proposal for the Sale of Old Material."

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 7, 1911. (Sept. 9.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

NEW DEEP WATER DOCK FOR PORT OF LONDON.

In accordance with its policy of making the dock accommodation of the Thames sufficient not only for present needs but also for the requirements of the future, the Port of London Authority has recently arrived at a series of important decisions. The most significant and far-reaching of these is the resolve to proceed immediately with the construction of a new deep water dock, to be known as the South Albert Dock, which will greatly augment the provision for the large modern steamships that form an increasing proportion of the tonnage using the port. The land to be utilized for the purpose is already in the possession of the Authority, under powers obtained by its predecessors in 1901. Working drawings are in course of preparation, and as tenders will be invited before the close of the year, it is probable that a commencement will be made early in 1912. The construction of the dock will occupy about five years, and its estimated cost is £2,105,000.

In an explanatory statement issued some six months ago, Lord Devonport, chairman of the Port of London Authority, described the locality of the Victoria and Albert Docks as the heart center of the port. It is here, well within the London cartage area and in a locality offering a network of railway communication with all parts of the country, that the largest section of the existing dock system is to be found, and the greatest proportion of the Authority's trade is carried on. When opened in 1880 the Albert Dock was the finest in the world. In the intervening thirty years ships have steadily increased in size and draught. To-day what is needed is a dock capable of taking considerably larger vessels than those which now use the Victoria and Albert Docks, and which will at the same time relieve the present congestion of shipping, which is particularly marked at the Albert Dock. This is the dual purpose of the projected South Albert Dock.

DEPTH AND DIMENSIONS.

The extent of the provision to be made for big ships of deep draught may be conveniently indicated by a comparison between the Albert Dock and the proposed South Albert Dock. By the installation of powerful electrically-driven pumps the Port Authority expect in eight or nine months' time to be able to increase the depth of water in the Victoria and Albert Docks by 2 feet 6 inches. This will give depths of, respectively, 28 feet and 29 feet 6 inches. In the subjoined comparison the latter figure is taken as the available depth in the Albert Dock:

	Albert Dock.	South Albert Dock.
Water area.....	68 acres	65 acres
Depth.....	29 ft. 6 in.	38 ft.
Quayage.....	11,500 ft.	9,200 ft.
Length of entrance lock.....	550 ft.	800 ft.
Width of entrance lock.....	80 ft.	100 ft.
Depth of entrance lock on sill.....	36 ft.	45 ft.

The entrance lock of the South Albert Dock will, it will be seen, allow of the admission of practically any merchant steamer now afloat, or of any vessel likely to engage in trade with the Thames for years to come. The depth of water in the dock likewise provides a considerable margin for the future development of shipping. It is not too much to say that, with the

addition of such a dock, the Port of London Authority may face the future with a good deal of complacency.

It may be added that the plans prepared by Mr. F. Palmer, the Chief Engineer to the Port Authority, show that the South Albert Dock will have a length of 4,600 feet, a width of 700 feet at its eastern end, and a width of 500 feet at its western extremity. There is to be a dry dock which will be ultimately of the same dimensions throughout as the entrance lock, but at the outset its length will be confined to 650 feet, with the landward end so constructed as to permit of future extension to 800 feet. In this dry dock there will be a depth of 35 feet on the blocks below the impounded water level.

The general equipment of the new dock, including transit sheds, cranes, and other facilities for the rapid handling of cargo, will be of the best and most modern description.

EAST AND WEST INDIA DOCKS.

Naturally, the attention of the Port of London Authority has also been given to the older docks, such as the East and West India. These possess a large water area, in close proximity to the city. Their principal drawback is the inadequacy of the entrances for the class of vessel they might easily be rendered capable of accommodating. It has now been resolved to undertake improvements at the East India Docks which will afford much-needed relief elsewhere, and will later on form a valuable addition to the facilities for berthing ships of large tonnage in the London area. These improvements will be completed in the space of two years.

The largest of the East India Docks—the import dock—which is little used to-day, is reached from a basin which has a river entrance 65 feet in width, with a depth of 31 feet. But the passage between the basin and the dock is only 47 feet 9 inches wide, and the depth of water no more than 25 feet. This passage is to be enlarged to a width of 80 feet (to allow a margin for future contingencies) and a depth of 31 feet, at a cost of £88,400. Instead of being limited as now to vessels of 1,000 tons, this dock will then accommodate vessels of 8,000 or 9,000 tons.

At the West India Docks, which comprise three separate docks, each half a mile in length, several much-needed improvements have been decided upon. The north quay of the import dock will be widened by 55 feet 6 inches, and provided with three new double-story sheds, each 800 feet long by 65 feet wide. These sheds will be connected by means of bridges with the fine range of warehouses already existing on the north side of the dock. Cranes, electric lighting and other equipment of the newest kind will also be provided.

In the export dock the quay will be widened, new sheds constructed and other improvements made.

The total outlay in the East India and West India docks is estimated to be £559,000.

When the improvements have been completed, the depth of water in the import and export docks will be 28 feet.

SOUTH WEST INDIA DOCK.

Of the group known as the West India Docks the South West India Dock offers the deepest water, and it is considered that it can be made the best of what are known as the "up-town" docks. The need, indeed, has lately presented itself of providing accommodation here for the New Zealand meat trade, in which ships of increasing size are likely to engage. It is

proposed to adapt the South West India Dock for vessels up to 650 feet in length between perpendiculars—a decision which should give this important water area of 25 acres not only a renewed lease of life, but enable it to earn a satisfactory revenue in the near future, after an estimated aggregate outlay of £894,000.

It will be necessary to construct, at a cost of £200,000, a new entrance lock, 200 feet long, 100 feet wide and 40 feet deep. This will give access to a basin upwards of 5 acres in area, and estimated to cost £135,000, which will act as a lock for large vessels and also provide berths for two vessels. A passage from this basin to the dock will be 100 feet wide by 35 feet in depth, and will cost £52,000. The dock itself already has a depth of 29 feet, but with the introduction of pumping the depth will be maintained at 31 feet, and will be greater than that of the present Albert Dock under the new conditions.

A large proportion of the total outlay will be expended on the building of a range of modern sheds, six in number, and varying in length from 710 feet to 780 feet, the widening of quays and the provision of other equipment of the latest type. Another important feature is the construction of a dry dock, 700 feet long, 90 feet wide and 28 feet deep, at a cost of £220,000. It was pointed out by Lord Devonport in his explanatory statement that the port is hopelessly in arrear in the matter of dry docks, and that the result is not only a loss of revenue to the Port Authority, but a serious loss of trade to the port, owing to ships having to go elsewhere for repairs.

THE LONDON DOCKS.

With a water area of 40 acres the London docks have the advantage of close proximity to the city, and are of great service to the coasting and continental trades. With the exception of Shadwell Basin, however, these docks are unable to accommodate vessels of over 2,000 tons, and this despite the fact that the size of ships using the upper part of the port has increased to 4,000 tons. In the opinion of the Port Authority improved facilities may reasonably be expected to yield a considerable increase of revenue. Accordingly it is proposed to put in hand work which is estimated to cost £240,000, and which will enable 4,000 ton ships to discharge and load their cargoes (with all the advantage of dock flotation) within half-a-mile of the city boundary. The proposals contemplate the widening of the tobacco entrance which links up the eastern and western docks, so that any vessel which can pass in from the Thames through the Shadwell dock can reach the larger or western dock. In this dock the plans include the construction of a jetty to provide additional berths, and there will also be considerable improvements and additions to the existing berths in the eastern dock and Shadwell Basin. A pumping installation contemplates the maintenance of the water level in these docks at 4 feet 6 inches above Trinity high water. Important additions and improvements to the north quay of Shadwell Basin are also provided for.

The several improvements referred to in the foregoing paragraphs will cost nearly £4,000,000 to carry out, and when completed will constitute the first and most urgent part of the much larger program which was published by the Port Authority in January last. It is anticipated that they will be sufficient to meet the needs of the port for several years to come.

DELINQUENT TAX SALES.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public are hereby notified that the taxes and assessments thereon severally assessed for the years 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908 and 1909, according to the lists committed to me as City Collector of taxes and assessments of said City of Boston, including the assessments for the suppression of gypsy and brown-tail moths, levied under the provisions of chapter 381, Acts of 1905, and chapter 268, Acts of 1906, remain unpaid, and that the smallest undivided part of each of said estates sufficient to satisfy said taxes and assessments, with interest and all legal costs and charges, or the whole of each of said estates, if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Tuesday, September 26, A. D. 1911, at 9.30 o'clock a. m., for the payment of said taxes and assessments, with interest, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several estates show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said estates is to be sold, but not including the costs and interest thereon and costs and charges incident to this sale.

WARD ONE.

William Adams—Buildings and about 2,322 feet of land, numbered 65 Lexington street, tax for 1909.....	\$87 45

Also buildings and about 1,600 feet of land, numbered 191 Cambridge street, to be sold for tax for 1909.....	79 20	
(Bk. 9, p. 237) Then for apportionment of sewer assessment for 1909.....	6 32	
Also buildings and about 1,594 feet of land, numbered 195 Cambridge street, to be sold for tax for 1909.....	79 20	
(Bk. 9, p. 387) Then for apportionment of sewer assessment for 1909.....	6 32	
Also buildings and about 1,592 feet of land, numbered 197 Cambridge street, to be sold for tax for 1909.....	79 20	
(Bk. 9, p. 387) Then for apportionment of sewer assessment for 1909.....	6 32	
Patrick Moore Heirs—Buildings and about 8,700 feet of land, numbered 21 Shepard street, tax for 1909.....	51 15	
Thomas F. and Mary C. Morris—About 12,924 feet of land on the westerly side of Bigelow street, being lot 54, Whitman, Breck and Co. plan, dated October, 1887, recorded Suffolk Deeds, at end of Book 1815, assessment for the suppression of gypsy and brown-tail moths for 1909.....	96	
Ella G. Nason—About 9,102 feet of land on the northwesterly side of Charlesview street, being lot 59, Whitman, Breck and Co. plan, dated October, 1887, recorded Suffolk Deeds, at end of Book 1815, tax for 1909.....	8 25	
Also about 7,576 feet of land on the northwesterly side of Charlesview street, being lot 61, same plan, tax for 1909.....	6 60	
Also about 8,339 feet of land on the northwesterly side of Charlesview street, being lot 60, same plan, tax for 1909.....	6 60	
Also about 10,000 feet of land on the easterly side of Bigelow street, being lot 66, same plan, tax for 1909.....	14 85	

Mary O'Brien—Buildings and about 5,700 feet of land, numbered 153 Cambridge street, assessment for the suppression of gypsy and brown-tail moths for 1909..... \$2 34

Daniel M. O'Connell Heirs or Devises—Buildings and about 25,804 feet of land, numbered 15, 19, 21 and 23 Winship street, tax for 1909..... 145 20

Addie C. Paine—About 3,661 feet of land on the easterly side of Lake street, making the northeasterly corner of Taylor street, being the easterly part of lot 2, shown on Assessors' plans, volume 11, page 106, on file with Suffolk Deeds, tax for 1909..... 6 60

Also about 5,836 feet of land on the easterly side of Lake street, making the southeasterly corner of Taylor street, being the easterly part of lot 19, same plan, to be sold for tax for 1905, Then for tax for 1909..... 8 00

Also about 3,900 feet of land on the southerly side of Taylor street being the westerly part of lot 18, same plan, to be sold for tax for 1905..... 21 45

Then for tax for 1909..... 4 80

Also about 3,900 feet of land on the northerly side of Flagg street, being the westerly part of lot 22, same plan, tax for 1905..... 4 95

Thomas F. Phillips—About 1,200 feet of land lying in the rear from the easterly side of Brackett street, being the easterly part of lot 6, Charles A. Pearson plan, March 18, 1897, recorded Suffolk Deeds, Book 2428, page 226, tax for 1909..... 3 30

Also buildings and about 7,500 feet of land, numbered 18 Eastburn street, to be sold for tax for 1909..... 26 40

Then for assessment for the suppression of gypsy and brown-tail moths for 1909..... 2 48

Also about 247,360 feet of land on the southerly side of Nonantum street, being a lot shown on J. F. Wadleigh plan, September 4, 1886, recorded Suffolk Deeds, Book 1788, page 329, to be sold for tax for 1909..... 102 30

Then for assessment for the suppression of gypsy and brown-tail moths for 1909..... 15 83

Edson W. Pierce and Eliza Kilcup—Buildings and about 7,436 feet of land, numbered 14 Dumas street, balance of tax for 1909..... 27 70

George A. Richards—Buildings and about 37,725 feet of land, numbered 73 and 75 Tremont street, assessment for the suppression of gypsy and brown-tail moths for 1909..... 1 08

Roderick Richardson Heirs—Buildings and about 4,234 feet of land, numbered 17 and 19 Waverley street, assessment for the suppression of gypsy and brown-tail moths for 1909..... 50

Also about 3,720 feet of land on the easterly side of Mackin street, making the northeast corner of Richardson street, being lot 4, T. Howard Barnes plan, July 2, 1901, recorded Suffolk Deeds, Book 2792, page 433, assessment for the suppression of gypsy and brown-tail moths for 1909..... 2 82

Also about 3,150 feet of land on the northerly side of Richardson street, being lot 5, same plan, assessment for the suppression of gypsy and brown-tail moths for 1909..... 71

Also about 3,457 feet of land on the northerly side of Richardson street, adjoining an estate of Elizabeth Legg (numbered 11), assessment for the suppression of gypsy and brown-tail moths for 1909..... 50

Wilbur P. Rice—About 284,000 feet of land on the southerly side of Washington street, being a lot shown on Aspinwall & Lincoln plan, February 18, 1903, recorded Suffolk Deeds, Book 2882, page 534, assessment for the suppression of gypsy and brown-tail moths for 1909..... 15 40

Also about 4,608 feet of land on the southerly side of Washington street, being lot 1, J. O. Goodwin plan, July 1, 1906, Suffolk Deeds, Book 3187, page 472, assessment for the suppression of gypsy and brown-tail moths for 1909..... 4 13

Harlow H. Rogers (Bk. Div. 1, p. 123)—Buildings and about 8,840 feet of land on the southerly side of Smith street, adjoining an estate of Henry W. Bullard Trustee (numbered 21), to be sold for apportionment of sewer assessment for 1909..... 28 70

Then for assessment for the suppression of gypsy and brown-tail moths for 1909..... 50

Also about 166,317 feet of land on the westerly side of Parsons street, adjoining an estate of Charles F. Whitaker (numbered 141 Fancuil street), assessment for the suppression of gypsy and brown-tail moths for 1909..... 20 55

Henry C. Sawyer (Bk. Div. 1, p. 58)—About 5,367 feet of land on the northerly side of Hobart street, adjoining an estate, now or formerly, of Mabel C. Welsh (numbered 57), apportionment of sewer assessment for 1907..... \$12 20

Also about 5,367 feet of land on the northerly side of Hobart street, adjoining an estate now or formerly of Mabel C. Welsh (numbered 57), assessment for the suppression of gypsy and brown-tail moths for 1909..... 50

Elijah Stanton—Buildings and about 5,500 feet of land, numbered 311 Cambridge street, assessment for the suppression of gypsy and brown-tail moths for 1909..... 1 41

Arthur W. Stevens (Bk. Div. 2, p. 43)—About 16,031 feet of land on the northerly side of Commonwealth avenue, being a lot shown on Aspinwall & Lincoln plan, dated March, 1908, on file in the Assessors' office, to be sold for apportionment of sewer assessment for 1906..... 25 20

Then for apportionment of sewer assessment for 1907..... 25 20

(Bk. Div. 2, p. 43) Also about 16,365 feet of land on the northerly side of Commonwealth avenue, being a lot shown on same plan, to be sold for apportionment of sewer assessment for 1906..... 25 20

Then for apportionment of sewer assessment for 1907..... 25 20

Willard Welsh—Buildings and about 3,200 feet of land, numbered 15 and 17 Brackett street, to be sold for assessment for the suppression of gypsy and brown-tail moths for 1909..... 71

(Bk. 16, p. 43) Then for apportionment of street construction assessment for 1909..... 12 07

Also about 20,000 feet of land, on the westerly side of Brooks street being lot 137, shown on Assessors' plans, Volume 11, page 79, on file with Suffolk Deeds, to be sold for tax for 1909..... 29 70

Then for assessment for the suppression of gypsy and brown-tail moths for 1909..... 1 43

Also about 20,000 feet of land, on the westerly side of Brooks street, being lot 139, same plan, to be sold for tax for 1909..... 29 70

Then for assessment for the suppression of gypsy and brown-tail moths for 1909..... 1 55

Also about 18,775 feet of land, on the southerly side of Mount Vernon street, adjoining an estate of Kate McNamara (numbered 22) to be sold for assessment for the suppression of gypsy and brown-tail moths for 1909..... 4 48

(Bk. Div. 2, p. 12) Then for apportionment of sewer assessment for 1908, Nathaniel Wethern, Heirs or Devises (Bk. 9, p. 414)—Buildings and about 45,920 feet of land, numbered 184 and 186 Washington street, and 3 and 5 Union street, apportionment of sewer assessment for 1909..... 72 82

Silman C. White (Bk. 9, p. 396)—About 5,922 feet of land, on the southeasterly side of Leicester street, making the southerly corner of Bennett street, being lot 32, W. A. Mason and Son plan, dated April 1884, recorded Suffolk Deeds, at end of Book 1964, apportionment of sewer assessment for 1909, Fanny Wiener—About 4,700 feet of land, on the easterly side of Antwerp street, being lot 124, D. W. Hyde plan, November 26, 1892, recorded Suffolk Deeds, Book 2111, page 168, assessment for the suppression of gypsy and brown-tail moths for 1909..... 50

Joseph J. Wilde—About 689 feet of land, on the northerly side of Spring street, being the easterly part of lot 17, D. W. Hyde plan, December 3, 1892, recorded Suffolk Deeds, Book 2169, page 447, tax for 1909..... 1 65

Also buildings and about 2,278 feet of land, numbered 24 Spring street, tax for 1909..... 19 80

William Williams—Buildings and about 3,112 feet of land, numbered 78 North Beacon street, assessment for the suppression of gypsy and brown-tail moths for 1909..... 70

George H. Wiswall—Buildings and about 4,400 feet of land, numbered 13 and 15 Aldie street, tax for 1909..... 77 55

BOWDOIN S. PARKER.

Collector of Taxes for the City of Boston.

PROPERTY IN BOSTON EXEMPT FROM TAXATION.

Approximately \$370,000,000, belonging to city, state, United States, churches, charitable and literary institutions and societies; belonging to city alone, \$119,508,300 in real estate and \$68,934,439 personal.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

SALE OF REAL ESTATE FOR UNPAID EDGESTONE AND SIDEWALK ASSESSMENTS.

The owners and occupants of each of the parcels of real estate hereinafter described, situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public are hereby notified that the assessment made by the Board of Aldermen of said city on each of said parcels for the benefit and advantage received by the parcel by the construction of an edgestone and sidewalk according to the list committed to me as Collector of Taxes of said city by said board, remains unpaid, and that the smallest undivided part of each parcel which will be necessary to discharge said assessment thereon and the necessary intervening charges, or the whole of the parcel if no person offers to take an undivided part thereof, will be offered for sale at public auction at the Collector's Office, room numbered 11, in the basement of City Hall, in said City of Boston, on Tuesday, September 26, A. D. 1911, at 9.30 o'clock a. m., for the payment of said assessment and the costs and charges thereon, unless the same be paid prior to the sale.

The sums set against the following descriptions of the several estates show the amounts due thereon respectively for the assessments for the nonpayment of which each of said estates is to be sold, but not including the costs and interests thereon, and costs and charges incident to this sale.

WARD FOUR.

Theodore C. Leutz—Buildings and about 3,036 feet of land, numbered 33 and 35 South Eden street..... \$35 57

WARD FOURTEEN.

Aby Braver—Buildings and about 1,093 feet of land on the westerly side of Harold place, being lot 3, William Kelly plan, August 19, 1891, recorded Suffolk Deeds, Book 2014, page 250..... \$19 00

Jennie Thorner—Buildings and about 3,041 feet of land, numbered 586 East Third street..... 25 10

WARD SIXTEEN.

Walter F. Provan—Buildings and about 2,250 feet of land, numbered 4 Woodward Park street..... \$27 40

WARD EIGHTEEN.

William E. Danforth—Buildings and about 1,485 feet of land, numbered 113 and 115 Linden Park street..... \$21 23

Sarah E. McCarty—Buildings and about 1,614 feet of land, numbered 194 Vernon street..... 11 55

WARD NINETEEN.

James Daley—Buildings and about 2,880 feet of land, numbered 96 Lawn street..... \$28 00

Julia Lynch—Buildings and about 1,514 feet of land, numbered 6 Linwood street..... 10 07

Lawrence J. Logan—About 25,000 feet of land on the northwesterly side of St. Alphonsus street, making the northerly corner of Alleghany street, being a lot shown on William O. Badger plan, March 14, 1898, recorded Suffolk Deeds, Book 2520, page 161..... 51 41

Johanna McCarthy—Buildings and about 2,239 feet of land, numbered 87 Lawn street, balance..... 10 40

James Ward—About 2,616 feet of land, on the northeasterly side of Lawn street, adjoining an estate of Anne Riley (numbered 71)..... 22 75

Annie B. Welch—Buildings and about 22,519 feet of land, numbered 11 Parker Hill avenue..... 77 80

WARD TWENTY.

William, Marion and Henrietta Faxon—Buildings and about 8,139 feet of land, numbered 323, 325, 327 and 329 Washington street..... \$57 33

Also about 27,344 feet of land on the westerly side of Washington street, making the northwesterly corner of Faxon street, adjoining an estate of Maria M. Ourish Heirs or Devises (numbered 269 Washington street)..... 75 28

Helen Hendrie—Buildings and about 9,683 feet of land, numbered 225 Harvard street..... 65 78

Joseph A. Hendrie—Buildings and about 3,844 feet of land, numbered 219 Harvard street..... 22 12

Lawrence J. Logan—About 33,647 feet of land on the westerly side of Bowdoin avenue, extending through to Washington street, adjoining an estate of Anna M. Bellamy (numbered 17 Bowdoin avenue)..... 91 84

Alvin C. Norcross—About 11,155 feet of land on the southerly side of Harvard street, adjoining an estate of Charles H. Lindsay..... 56 45

WARD TWENTY-THREE.

Annie M. Kelley—Buildings and about 5,310 feet of land, numbered 2 Florence street.....	\$29 96
Margaret M. McLeod—Buildings and about 6,558 feet of land, numbered 48 Cohasset street.....	45 57
Addie E. Peterson—Buildings and about 5,291 feet of land, numbered 52 Cohasset street balance.....	20 80
Abby A. Waters—Buildings and about 6,529 feet of land, numbered 909 South street and 1 Fletcher street.....	38 50
Moses Williams and Richard W. Hale, Trustees Massachusetts Tax Title Company—About 1,600 feet of land on the westerly side of Florence street, adjoining an estate of Ella E. Morse (numbered 219 and 221).....	26 74

WARD TWENTY-FOUR.

Laura M. Chick—Buildings and about 2,350 feet of land, numbered 11 Hill terrace.....	\$39 41
Bridget Derrigan—Buildings and about 5,250 feet of land, numbered 49 Fuller street balance.....	24 67
Wellington, John B., and Grace Holbrook, Trustees—Buildings and about 4,278 feet of land, numbered 631 Walk Hill street.....	27 44
Also buildings and about 4,186 feet of land, numbered 627 Walk Hill street, Also buildings and about 4,145 feet of land, numbered 623 Walk Hill street, Daniel Kelly—Buildings and about 4,500 feet of land, numbered 50 Nelson street.....	27 93 60 37 59 43
Mary Murray—About 4,501 feet of land on the easterly side of Nelson street, adjoining an estate of Francis J. Robinson (numbered 52).....	35 00
Also about 4,391 feet of land on the northerly side of Maxwell street, making the northeasterly corner of Nelson street, adjoining another estate of said Murray.....	62 93
Also about 4,391 feet of land on the northerly side of Maxwell street, making the northeasterly corner of Nelson street, adjoining another estate of said Murray.....	38 92

WARD TWENTY-FIVE.

Abraham B. Beal—Buildings and about 5,034 feet of land, numbered 11 and 15 Royal street.....	\$70 00
Also buildings and about 5,846 feet of land, numbered 5 and 7 Royal street, George L. Flanders—Buildings and about 5,196 feet of land, numbered 19 and 21 Royal street.....	84 45 69 02

BOWDOIN S. PARKER,

Collector of Taxes for the City of Boston.

CHICAGO ORDINANCE TO SUPPRESS NOISES.

Chicago's police department has started on its plans for the suppression of all unnecessary noises made by automobiles and motorcycles in accordance with an ordinance recently passed by the city council and which received its legal publication last week. The actual enforcement of the new law will begin August 10. The new law was enacted by the city council following the receipt of numerous complaints by the police that automobile drivers were making the nights hideous in the residence sections of the city and were also disturbing the peace during the daytime by using sirens and "cutting out" mufflers. The ordinance, which is now almost a law, provides that "no person shall operate, nor shall the owner of any automobile, motor vehicle or motorcycle permit to be operated, on the streets, alleys and public places of the city of Chicago any automobile, motor vehicle or motorcycle which has not a muffler in a proper and efficient working condition; and it shall further be unlawful for any person to operate, or for the owner of any automobile, motor vehicle or motorcycle to permit to be operated, any such automobile, motor vehicle or motorcycle on the streets, alleys or public places of the city of Chicago with the muffler cut out or not in operation." Penalty provided is a fine of not less than \$5 and not more than \$50 for each offense. The ordinance will be printed in the "Police Bulletin."—*Municipal Journal*.

THE TECHNICAL DAY TRADE SCHOOLS IN GERMANY.*

By DR. GEORG KERSCHENSTEINER,
DIRECTOR OF EDUCATION IN
MUNICH.

The development of German industry and of German commerce since the foundation of the German empire is one of the phenomena which both we at home and our neighbors around us regard with astonishment, and which force us involuntarily to ask what were the intrinsic causes that brought this development to pass. Hand in hand with it we see also the advance of the entire system of technical schools. All German states are paying increasing attention to these technical school systems. The sums paid from the public purse for technical instruction have reached a height unknown before. In Prussia, the largest state in Germany, the state expenditure for continuation and trade schools amounted in the year 1886 to 570,000 marks; this expenditure rose in the year 1893 to 2,300,000 marks, in the year 1903 to 6,300,000 marks, and attained in the year 1908 the height of 12,000,000 marks, or, in round numbers, three million dollars. The expenditure for technical schools has risen in a similar manner in Austria, where it amounted, with the exclusion of Hungary, in the year 1896 to 5,200,000 crowns, in the year 1906 to 10,300,000 crowns, and in the year 1908 to 14,500,000 crowns.

It is natural to presume that these rapidly rising curves of industrial development and technical training both at home and abroad stand in intimate connection with one another. We may be inclined to give technical training credit for a considerable portion of this industrial development; for it might be reasoned that technical training must have preceded the visible results of this training. But it is equally possible that industrial development preceded the development of technical training, and that thus the requirements of industry were the direct or indirect causes for the establishment of new technical schools. And it is also quite possible that though our technical and commercial schools have not failed to influence the development of German industry and trade they have by no means been the determining factors in it.

It is not my object at present to investigate these questions. Some of the answers will present themselves in the course of our inquiry into the development of German technical schools, their number, scope and ideals.

In spite of the great expansion of the technical school system in Germany, it is not difficult to obtain insight into its essential features, owing to the German tendency to unification, and especially to the fact that the schools have arisen partly or entirely through state initiative. It will be advisable to distinguish three groups of schools according to the grade of training to which they aspire. German industry and trade require, precisely like the German army, a number of intellectually highly trained officers, a number of well-trained subalterns, and an army of efficient soldiers.

The group of technical officers is almost exclusively recruited from the German technical colleges. These institutions are open only to students who have passed through the nine classes of the secondary schools. They educate the technical leaders of industry and also the state and

municipal officials who are intrusted with the execution of technical problems. They receive their pupils after a school course of twelve or thirteen years, including the primary and secondary school, running from the pupil's sixth to his nineteenth year. Frequently a year of practical work is thrown in between the secondary school and the technical college. These technical colleges supply us for the most part with the higher technical heads of factories, whose duty it is to strike out new paths and discover new tasks and methods.

Two different kinds of schools exist for the training of subaltern officers, the middle and the lower technical training schools. The technical middle school expects its pupils, as a rule, to possess the knowledge and dexterity that are acquired by a six-year course at a higher secondary school. This six-year course is a continuation of the first four years in the primary school. Its concluding examination gives throughout Germany the right to serve one year in the army instead of three. Two year's practice in the workshop is generally required before admittance to these technical middle schools. It is the purpose of these schools to provide industry with skilled men, who can serve immediately under the technical leaders as competent helpers either in the office or in the works. They also train the subaltern technical officials for the municipal and civil service. The time allotted them for this task is from two to two and a half years. The pupil is therefore about twenty years of age when he leaves school. (Compare also in *Abhandlungen und Berichte über technisches Schulwesen* the report of Director Rommberg of Cöln, page 83.) In place of the qualification for the one-year military service that is gained by the concluding examination of a school with six classes, the pupil can undergo an entrance examination for the technical middle trade school.

In addition to these schools there exist a great number of technical lower trade schools for the training of foremen, engine fitters, masters, or other lower officials for the constructive and business departments of works and factories. The conditions of admittance are graduation from the primary school (with eight classes), followed by at least four years' practical work. In other words, only thoroughly trained workmen are received in these schools. The period of instruction varies from one to two years. Foremen proper, as required in industries, that is to say, workmen placed at the head of a group of other workmen in factories, are as a rule not trained in either of these trade schools. These men must be possessed not only of sufficient technical experience but also of special qualities of character, which are inborn and cannot be acquired in a two years' school curriculum. In the opinion of most German manufacturers it is best to take these foremen from the ranks of the most capable workmen. What they lack in technical training is supplied by the third group of schools.

This third group of schools might be designated as technical workmen's schools. They are spread all over Germany in the shape of continuation schools, factory schools, apprentices' schools, Sunday and evening schools. Their essential characteristic is that school attendance generally runs parallel with the training in practical work. In all large and most small towns of Germany, apprentices and other youthful workers are under the obligation of attending a continuation school for from six to nine hours weekly during the working days. This continuation school must

*Lecture delivered under the auspices of the National Society for the Promotion of Industrial Education.

as far as possible take the practical work of the apprentice as the basis of its teaching. In some few cases factories have established schools as part of their organization, in which every apprentice without exception receives higher instruction for from two to four hours daily. In other places, again, special apprentices' schools have been established for locksmiths, machine builders, joiners, weavers, plumbers, etc., which take the place of the ordinary apprenticeship. Moreover, in all German towns evening and Sunday trade schools exist for workmen, similar to those common in England and America. I class all these schools together under the name of technical workmen's schools.

In many cases these technical workmen's schools are affiliated with the technical middle schools. They make use of the same workshops and classrooms and have the same teachers. The more gifted pupils can go up from the workmen's schools to the middle and even to the higher technical schools, provided, in the latter case, that they are able to pass the entrance examination. They have a considerable advantage over many pupils of these higher schools in their thorough practical training. This is a point on which of late years special stress has been laid in admittance to the lower and middle trade schools. Only as an exception and under quite peculiar circumstances is it considered advisable, in the interest of industry, to admit young men to the lower trade schools who have been trained not in the workshop but in the office. The possibility of thus moving up from one school to another not only provides industry with capable workmen but also builds a ladder by which men from the middle and poorer classes may mount up to better paid posts. The technical middle schools thus also supply a social want. On the other hand it is, as a rule, impossible in Germany for a pupil who has passed through the technical middle school to enter the technical colleges as a matriculated student, and thus to gain the qualification for a leading officer of industry. The only technical middle school that accords its pupils the right of matriculation as students in the technical courses of the university is the Trade Academy of Chemnitz, in Saxony. There is no other German school of the same kind. Industry, however, pays little attention to this system of qualification, and although the pupils of the technical middle schools rarely become students in the technical courses of the university, we nevertheless not infrequently see them in higher industrial posts. Englishmen and Americans will find it difficult to understand such rigorous distinctions, for they are more accustomed than we in Germany to inquire not what school a man has attended but what he has learned and what he can do. Yet the German system is not altogether without justification. Examinations rarely give a true picture of a man. We rarely succeed in so ordering them that memory is not placed at an advantage over real capacity. But in spite of the fact that a man's best qualities generally remain hidden from the examiner, our technical colleges in Germany, which have a very high standard for the training of engineers, analytical chemists and architects, must demand a fairly homogeneous and intellectual preparatory training if their scientific training is to proceed on the same lines as heretofore. This homogeneous and intellectual training is as a rule to be had only in the German nine-class middle schools which begin after the first four classes of the primary schools. It would be of the greatest danger to Ger-

many's industries if the scientific standard of her universities were to be lowered.

The technical middle schools, or, as I have called them in the title, the technical day trade schools, do not exist for all trades and industries in Germany. The industries in the service of which such schools have already been established are the various kinds of metal industry, textile industry, wood industry, shipbuilding, smelting works, and foundries. Another group of these day trade schools belongs to the building trades, both above ground and under ground, carpentry, masonry, drainage, concrete and iron works, and the different kinds of art trades, printing, lithography, and chemical engraving. A third group deals with commercial subjects. In addition to these we have a number of lower technical schools adapted for home industries, for instance, schools of weaving, carving, basketmaking, lacemaking, etc. Finally, household schools and schools for needlework and dressmaking must not be forgotten. These schools for home industries are of the greatest importance in an overpopulated country like Germany, or a country poor in agriculture like the Alpine districts of Austria, and they are accordingly beginning to attract the attention of the state in a very high degree. Particularly in Austria the organizers of home industries have in some places succeeded by good schools in so raising the standard of production as to lead to a not inconsiderable export and to increase the prosperity of districts possessing no advantages of the soil, in a manner undreamed of before. The establishment of day trade schools has sometimes been the cause of more economic and social profit in these cases than in the large industries. Our magnificently developed chemical industry as well as our food industries are at present almost entirely without technical middle schools. Neither are there any public day trade schools for the clothing branches of industry. But the chemical industry is admirably provided with higher officials by our scientific schools, and numerous private schools (millers' schools, brewers' schools, tailors' academies, and women's schools) provide instruction in the clothing and some food industries.

In Germany, with an area of 540,000 square kilometers, that is, about one-third of the seventeen northern states, the number of technical day trade schools supported by states, provinces, or parishes and therefore public schools, amounts in round numbers to five hundred. There are about the same number of agricultural schools. Among the industrial and trade schools are nine technical universities, three mining academies, and five commercial universities; twenty higher and eighteen lower technical middle schools for the various metal industries, nearly forty middle schools for the weaving industry, nearly fifty for the building trades, about twenty for the wood trade, twenty-five so-called *Kunstgewerbeschulen*, and thirty more for special branches of art trades. Still greater is the number of higher and lower technical middle schools in Austria, which has been systematically spreading a net of these schools over all its states since the year 1873. It would be purposeless to give the numbers, as the Austrian system does not correspond with the German. We must be careful not to work with figures alone, in describing technical schools. People are only too prone to lose their heads over figures. But the number of schools is not the principal thing. So long as a country has pretty well what it needs, the inner organization of its

schools and their relation to the requirements of its industries are of infinitely more importance.

In order to give a picture of this inner organization and its relation to industry let me consider some of the principal groups, the schools for the metal industry, the schools for the weaving industry, and the schools for the building trades.

Among the schools for the metal industry the most numerous are the royal schools for machinery and technical electricity. They are mostly higher technical middle schools, combined in some cases with lower technical middle schools. In Prussia there are fifteen of these: Aachen, Altona, Breslau, Cöln, Dortmund, Duisburg, Elberfeld, Essen, Gleiwitz, Görlitz, Hagen, Kiel, Magdeburg, Posen, Stettin; in Bavaria there are two higher and three lower schools. Those Prussian towns in which cutlery and hardware are developed have in addition special trade schools—royal trade schools for hardware in iron and steel for instance, Remscheid, Schmalkalden, Siegen, and Solingen, which export their wares over the whole world. All these schools, and especially the schools for machinery, have developed from the most modest beginnings. They were originally in Prussia, in the first half of the last century, so-called provincial trade schools. They had to teach simply artisans and foremen, and took their pupils at the age of fourteen from the elementary school. In the year 1870 there were about thirty such schools. At this date they were reorganized. Admittance was granted only to pupils who had passed through the five lower classes of our general middle schools. This means going far beyond the mental horizon of the elementary school pupil. These schools underwent a second transformation in the year 1878. Most of them were then changed into middle schools with nine classes, for purposes of general education, the so-called *Oberrealschulen* of to-day. Only five of the old schools retained the organization of a so-called technical middle school (Gleiwitz, Breslau, Hagen, Barmen, Aachen). The third transformation took place in the year 1880. In this year a higher technical middle school for machinery, of the kind already described, was established in the town of Cöln. A lower technical middle school, a so-called foremen's school, was attached to it. A few years later a similar school was established in Dortmund, and ever since this system has been adhered to. The development of schools in Bavaria has proceeded on the same lines as in Prussia, since the last decade of the last century.

The development of the lower schools for machinery in Prussia has been exceedingly satisfactory, and the pupils turned out by them have been able to meet all the requirements of industry. They have never trained foremen. They give men from the primary school with long practical experience a technical training suitable to the preparation they have received, and leave the manner of their subsequent occupation to industry. The teaching lays special stress on the training of the understanding for the principles of mechanics and the laws of solid bodies. It comprises the elements of mathematics (addition, subtraction, multiplication and division, powers, square and cubic roots, equations of first and second degree, geometry, trigonometry, and the calculation of surfaces and contents of simple solids); mechanics (the laws of the elementary statics and dynamics of solid and fluid bodies, the laws of solid bodies); physics (heat,

gases, fundamental laws of optics); chemistry (the elements and the chemical compounds that are important in machinery, metals and metaloids); technical drawing (drawing in projection, geometrical and freehand drawing, and especially freehand sketching); mechanical technology (founding, forming, forging, rolling, etc.); the most important tools and machines for metal and wood, the most important parts of machines, the elements of machine building, the principles of technical electricity, simple building constructions, sometimes practical exercises in physical and electrotechnical laboratories, for taking measurements with the simplest instruments. To this must be added instruction in German, arithmetic, the writing of cost estimates, and the inspection of factories. All these subjects are spread over four half-yearly terms. The certificate awarded at the end of the course gives the right to the title of master and to the engagement of apprentices. Therefore we call these schools "privileged schools."

It is not devoid of interest to note the answers given by leaders in industry to inquiries lately made by the "German Committee for Technical Schools" with a view to more thorough organization. They point out that it matters little how far the pupil advances in the different subjects of instruction, but it matters a great deal whether he is thoroughly grounded in them; that it is not a question of increasing theoretical knowledge but of enlarging practical experience; that these lower technical schools train too many office men and too few foremen, fitters and masters; that their chief aim should be to develop readiness of apprehension, the ability to draw, business capacity, and interest in natural science; that men who have passed through the state schools have on an average a better general and technical education than the pupils of private schools, and that it would therefore be in the interest of industry if all technical schools in Germany were exclusively in the hands of the state. In many cases the answers assert that even at admittance the very greatest attention should be paid to the practical experience possessed by the candidate. Four years are not considered sufficient. They demand a four-year apprenticeship and after this four years' work as journeymen. And they urge the necessity of advising the pupils on leaving school not to crowd into the offices, but to seek positions in the workshops, which stand higher in repute and are better paid than the former.

The higher schools for machinery go considerably farther than these just described. They presuppose a fairly good general education, such as is gained in a six-class middle school in Germany, and generally demand in addition two years' practical work. On this they base a curriculum of two and a half years' instruction. The subjects taught are in the main the same as those of the lower machinery schools, but they are treated more scientifically and give the pupils the knowledge requisite for simple construction under supervision or for reproduction. In mathematics the pupils go as far as differential and integral calculus; in mechanics, to which the greatest attention is paid, they study the elements of heat in physics, machine building, and technical electricity, and they receive particularly careful instruction, both theoretical and practical, in laboratories especially fitted up for these three subjects. All proprietors of works and factories lay stress on the importance of laboratories, and the *Memorial on the Technical Schools of Germany* points out that many of them

mention the necessity of technical experiments and continued observations that might well be placed in the hands of men trained in technical middle schools. Naturally great importance is attached to training in drawing, not only geometrical drawing but freehand sketching, and on the reproduction of machines and parts of machines from memory. Many regard education in the faculty of space conception as absolutely necessary in these schools. In mechanical technology the pupil is introduced to tools and machines, to smelting, founding, forging and rolling processes, and to the study of raw materials; in building construction, to the combinations of stone, wood, and iron, to the construction of vaults, roofs, and staircases, and to the elements of graphic statics. To this is added instruction in business matters, bookkeeping, bills of exchange, specifications, and estimates. The time allotted for everything is on an average forty to forty-two hours a week, during a course of two or two and a half years.

The pupils trained in these schools find employment in Germany not only in industry but also in the service of the state. The latter is particularly the case when they can show good practical ability. But their number is not great. In Prussia in the year 1904 the higher schools for machinery were training 940 pupils. If we apportion this number among the half-yearly terms, we get in round numbers 190 pupils per term; that is to say, the higher schools for machinery throughout all Prussia turned out 190 pupils in 1904. If we consider that probably half of these enter state service not many remain for private posts.

The technical middle schools for the metal industry are for the most part distinctly divided into higher and lower schools. This is not yet the case in the building trades. But the necessity for the division is making itself more and more felt. We are endeavoring to place working builders, that is, master masons, master stonecutters, master carpenters, and foremen, in schools of their own, with a lower standard, and to train technical builders, both for private and state posts, exclusively in the higher middle schools, the so-called building trade schools. These schools were originally founded for the theoretical training of ordinary builders. The first school of the kind was established as a private undertaking in the year 1820 in Munich by Mitterer and Schopf, and raised to a public institution in 1823. The second school was founded in 1831 in Minden, Prussia. This was also the work of a private man, the district building inspector Haarmann. In both cases the founders were inspired by their recognition of the fact that the theoretical knowledge and the ability in drawing of the working builders were entirely insufficient. Other building schools followed later, partly established by the state, partly by private business men, but in the latter case first subsidized by public money and eventually passing into the hands of state or commune as public schools. But they were all founded as lower middle schools. Not till later, after state and commune had begun to require a certain class of technical workmen, and after the public for its own security had begun to take an interest in the training of private builders, was the standard of these schools raised. To these external causes we must add an internal cause, which has made itself apparent in all technical schools in the course of their historic development. Every school has in itself a motive for progressive expansion.

This process of transformation is seen not only in Germany, but in all countries. It may even be a danger for technical schools, in spite of its intrinsic justification. The teacher is constantly seeking to make his instruction wider and more thorough, and this pushes the pupil, at first unintentionally, beyond the limits of artisanship. But as it is impossible for a trade to flourish which is being automatically drained of its most intelligent members, it must be a fundamental principle, in the organization of all technical schools, to preserve the pupils' joy and interest in personal, manual work.

In Germany there are at present forty-five higher technical middle schools for builders. They are trade schools, and train their pupils in five half-yearly terms to become either independent masters or assistant workmen for office or building (drawers and foremen), or technical workmen for the state, the army, the railway or the municipality. The conditions of admittance are: an age of sixteen, an entrance examination, or the certificate for the voluntary one-year military service, and, as in the machinery schools, practical work of at least twelve months' duration. Exceptions are sometimes made to the last condition. In South Germany the four half-yearly terms are frequently placed in the winter months, so that the pupils can return to practical building work during the summer. Paragraph 89 of the German Military Law allows pupils who have passed the final examination with honors certain privileges in going in for the examination for the one-year voluntary military service.

Most German building-trade schools have been equipped for building above ground, but some few also embrace underground building, as well as iron construction and concrete building. Instruction in German trade schools for building above ground generally embraces the practical subjects, construction, drawing, the theory of building and composition, and also the preparatory subjects, such as algebra, plane geometry, geometry of solids and trigonometry, physics, chemistry, projection, freehand drawing, modeling, surveying, and the study of materials. The only general subjects are German, the theory of business and law, and arithmetic, including cost estimates. The number of weekly lessons is on an average forty-four, so that the weekly number during the five half-yearly terms amounts to 220. In the department for underground building some of these subjects are curtailed in order to gain time for instruction in earthwork, road building, canal construction, bridge building, railway building, and the theory of machinery. The principal part of the hours for instruction — about one hundred and ten — is engrossed by the technical subjects, while only twelve to fifteen hours remain for general subjects.

I do not wish to say that this peculiarity of the German building schools is worthy of imitation. In fact far too little attention is paid to general culture in most German technical middle schools. In this point they compare unfavorably with the French and Austrian schools. I shall return to this subject later on, and only remark here that the reorganization of building schools in Austria of December 17, 1909, bears witness, in my opinion, to a deeper insight into the essence of true technical culture. According to the regulations of this organization it is to be the task of the new trade schools for builders to foster the study not only of technical subjects but also of those pertaining to general culture, with a view to supplying the trade with men whose edu-

cation is not inferior to that bestowed in the general middle schools. Consequently these schools entitle their pupils to the one-year voluntary military service and exempt them from the theoretical part of the master builders' examination. The Austrian schools receive pupils at the age of fourteen with the education given by eight years in primary schools. These schools consist of a four years' course, which includes thorough practical teaching both in school workshops and on private and public buildings. The first practical introduction to the trade takes place in the first and second year in the school courtyard. The third year consists of two winter half-years, interrupted by a summer half-year spent in practical service on buildings, and only the fourth year is devoted entirely to theory.

I have already mentioned that the lower middle schools for builders in Germany lag far behind the higher middle schools. They are mostly attached to the higher schools. Only in Austria have they recently been made entirely independent as building schools for artisans. They consist there of two technical courses of five months in the winter; the conditions of admittance are graduation from the primary school, apprenticeship and three years in a continuation school.

The schools for metal workers and builders were not founded originally to meet the requirements of trade and industry. This was, however, the case with the schools for textile industries. The introduction of the power loom turned the workman himself into a machine. All that he had to do, or that he still has to do, is to watch the unvarying movement of a machine that is complete in itself. He has nothing to do with the process of weaving and nothing with the building of the machine. Thus he generally lacks any kind of stimulation from without, and consequently remains devoid of any higher mental or technical development. Yet even the textile industry requires intelligent workers who can be made use of as foremen and directors. This fact led manufacturers to demand the establishment of lower schools for weaving and spinning, and in some cases even to take the matter into their own hands. In other districts, where weaving was extensively carried on at home in the winter months, schools were founded in order to give peasants' daughters and servants, and young men as well, an opportunity of at least learning how to make linen, half-linen, and cotton fabrics for personal use. This last object was the origin of the numerous weaving workshops in Hanover and Silesia. As the artistic taste for hand-woven carpets, curtains and furniture covers is increasing in Germany, it is not improbable that these simple opportunities of instruction will spread still farther in poor districts, as has been the case in Sweden. Later on, after the number of power looms had multiplied exceedingly, and the processes of weaving wool, cotton, linen, silk and velvet had been correspondingly developed, the sons of manufacturers began to feel the need of higher schools. The foundation of these higher schools was also favored by the desire on the part of the manufacturers to make themselves independent of foreign countries. In the first half of the nineteenth century young men who wish to learn the secrets of weaving were forced to go, at great expense, to Lyons, where both public and private weaving schools had long existed.

German industry was also greatly hampered by the difficulty of procuring patterns, and the necessity of training

pattern draughtsmen became self evident. Courses in drawing had become especially indispensable in the schools for the woolen industry, in which the pattern is generally attended to by the same employee who has the post of supervision in the machine room. The higher weaving schools could be made use of for this purpose. A factory pattern drawing school was soon attached to the oldest German weaving school in Elberfeld, founded in 1845. A second weaving school was founded in 1854 at Mühlheim on the Rhine, and a third in 1855 at Krefeld. The Elberfeld school was also enlarged, at the suggestion of the manufacturers, by a chemical department for dyers, printers and bleachers. In the same manner the development of German trade made it necessary to add commercial courses to the weaving schools, for the instruction of clerks in drapers' shops and factories in the knowledge of wares and the processes of work in the different branches of the textile industry. And finally the weaving schools are sometimes combined with courses for dress-making, frequented mostly by female pupils. These courses are most numerous in Berlin, the principal seat of dressmaking in Germany.

The technical middle schools for textile industry are particularly developed in Prussia, where they were reorganized in the year 1896, as a result of conferences held between the directors of the weaving schools and experts in the trade. The influence of the textile industry made itself particularly felt on this occasion in the specialization of the different schools in the various districts in the kinds of weaving for which they were required. In this point also the technical middle schools for the textile industry are distinguished from those of the metal and building trades. In the latter, as opposed to the textile schools, there is a strong tendency toward unification, special stress being laid on the technical basis common to all the different branches of the trade. Later on Bavaria followed the example of Prussia.

In the conditions laid down for the admission of pupils to the lower and higher weaving schools it became clear that neither state nor municipality had the same need for skilled technical workmen in textile branches that they had in the metal and building trades. Admittance to the higher and lower middle schools is generally granted to all pupils in possession of a fair school training. It is left to the discretion of the director to exclude pupils with insufficient training from the higher schools. One year's practical work is usually required of the pupils before entrance. The higher weaving schools generally comprise three half-yearly courses, and the lower weaving schools have generally a half-year course; in each half-year course there are about forty-four lessons a week. In the higher schools these lessons are divided among the following subjects: setting up the frames, putting in and taking out the patterns, machines, materials, dyes, designing and the law concerning the trade. These subjects are treated differently according to whether the school is arranged for the woolen, half-woolen, linen, half-linen jute, or cotton industry. The lower, half-year, weaving schools deal with the same subjects, which are of course considerably reduced in amount. The number of day trade schools for the textile industry in Germany is twenty-seven. There are in addition a great number of workshops and schools for teaching weaving, lacemaking and embroidery.

Besides these three large groups of public trade schools, supported with public

money, by the state and municipalities, with which we must also reckon the South German trade schools for the wood industry (which are, however, without exception devoted exclusively to the training of master artisans), there still remain a certain number of trade schools dispersed through the country in the service of the most various trades, and supported partly by public money, partly by employers' associations, partly by purely private means. Saxony is the country that possesses the greatest number of trade schools. It would take us too far to discuss these schools, although we should meet very interesting institutions among them, especially adapted to be of use in smaller trades. Day trade schools with a longer and a shorter curriculum are also attached to these German continuation and artisans' schools. For instance, day trade schools for joiners, art locksmiths, jewelers, goldsmiths, bookbinders, stone carvers, decorators, machine drawers and builders are affiliated with the continuation schools in Munich. These trade schools seek to inspire new life in handicrafts that here as in all other countries have suffered cruelly from the advance of industry. There are similar day trade schools connected with continuation schools in most German towns. The most prominent among these are the German art handicraft schools (*Kunstgewerbeschulen*), of which at present about forty are supported by public money, and which embrace a great number of different day trade schools for different branches of art trades.

Before I conclude let me recapitulate the foregoing statements and at the same time institute a comparison between the German and the American schools. We may say that most German day trade schools had their origin in endeavors to improve the condition of small trades. They commenced at a time in which industry played no important part in Germany. In the same measure as industry developed, and still more when the state began to require capable technical workers of a middle grade, did these day trade schools also begin to expand beyond the limits of their first purpose. The next step is the division into two departments, an upper one for better trained technical assistants and a lower one for artisans. The imperial German labor law had an extremely favorable influence on the development of this lower department. But the manner of their origin proves that they were not meant to replace apprenticeship to a master or manufacturer; on the contrary, they more or less presuppose practical schooling in trade and industry, and make it their office to fill the gaps left by this purely practical schooling, to widen practical experience, to teach the working classes the science and art of their vocations, and as far as possible to give them a business training. The system of apprenticeship is not dying out in Germany. Thanks to the imperial German labor law and the continuation and lower trade schools it has fostered, and thanks as well to institutions for the furtherance of trade, and the consequent increase in skilled production, apprenticeship has gained in educational value not only in trades but also in industries. Schools that replace apprenticeship are rare in Germany. In Austria and Switzerland schools of this kind have existed for the last twenty years, but during these twenty years they have remained at a standstill. Nor can I discover any strong inclination in these three countries to spend public money on such schools. These countries have also kept the pri-

mary school free from specialized industrial education. On the other hand, during the last ten years we have been continually laying more stress on the introduction of manual training into the elementary schools, or, as I express it, on the transformation of textbook schools into working schools. In the Munich primary schools we have in the eighth class five hours' wood and metal work a week for all boys, needlework and domestic science with teaching in the school kitchen for all girls. In many German schools, as well as in Swiss schools, and still more in Swedish schools, we find the demand of the Circular of the New York Education Department of February, 1910, to the effect that industrial arts of a more general character are to be introduced in the primary grades as well as in the grammar grades, more and more frequently realized.

If I seek to compare German and American trade schools, I find that our higher trade schools most resemble your technical colleges. Only we must not forget that there is no transition contemplated from our higher trade schools to our technical universities, and that one or two years' practical work must either be presented or taken in special preparatory courses before admittance to the school.

Our numerous lower trade schools have no counterpart in the United States. The trade schools of the United States are generally intended to take the place of apprenticeship. The German trade schools on the other hand are intended, with few exceptions, to make up for the deficiencies of apprenticeship. Only the trade schools for girls take the place of apprenticeship, because no good system of apprenticeship exists for girls' trades, such as millinery, dressmaking, cooking, kitchen management, shirtmaking, etc., as it does for boys. If in Germany the system of apprenticeship should ever approach to a similar decay, then, in my opinion, there would be no other plan for industrial schools than the establishment of specialized trade schools for all trades, beginning at the close of the elementary school and extending over four years. For there are only two roads for the industrial education of the masses: either a good system of apprenticeship, with trade schools that supply the wants of and broaden education, as do our Munich continuation schools, or specialized trade schools. There are no other means to this end. Capacity in industry and trade flourishes only on the soil of early, thorough, and many-sided technical, business and civic training. If the public life does not give this, then the public school must give it, or industry will decay. The intermediate industrial schools recommended by the above-mentioned circular of the New York Education Department will perhaps help this result in the United States, but, on the other hand, they may grow unawares into specialized trade schools. Furthermore, the principles inculcated by the same circular for the organization of these trade schools are excellent, especially the three which demand "that the trade schools should absolutely abandon all college preparatory work, that all instruction in mathematics and science must be such as to be directly usable, and that trade schools must necessarily take on varying forms in different localities." These trade schools then become admirable institutions for the affiliation of continuation and evening schools, precisely as they are in Germany. But before we proceed to a system of trade schools spread over the whole country and intended to replace apprenticeship, we

should first make the most detailed inquiries as to the causes of the decline of the old system of apprenticeship and use every means at our disposal to stop it, for however good such trade schools may be, they have, besides their immense cost, other defects which have so far considerably checked their diffusion in Europe.

It is of course beyond doubt that at the present moment the German trade schools are of great use to German trade and industry. But it is not easy to determine to what extent the day trade schools have contributed to the development of German industry and commerce. It appears to me certain that they have not been the prime factor.

I pointed out at the beginning that the number of men turned out by the Prussian higher schools for machine building is far too small, even if one-half were to join the ranks of industry every year, to be of any appreciable influence. The middle trade technical workers required yearly by German industry must amount to at least tenfold the number now furnished by the schools. I can give you a still stronger proof of the truth of this assumption. In the course of this year the Bavarian government had occasion, for the purpose of reorganizing the building-trade schools, to make an inquiry in the one hundred and forty-three districts of the country as to the number of independent builders. They asked what percentage had passed through the building-trade school. The number of independent builders in the one hundred and forty-three districts of the kingdom amounted to nine thousand four hundred and one. Among these there were only six hundred and seventy-two, or 7 per cent, who had passed through the entire curriculum of a building-trade school, and fourteen hundred and sixty, or 15½ per cent, who had taken single half-year courses. Thus nearly 80 per cent, of all independent builders had been to no trade school at all; many of these had been to a higher general school, and many had enjoyed no other teaching than that of the primary and continuation schools.

Considerable influence on industrial education will probably be exercised by the continuation schools of the German Empire, which have recently undergone a remarkable extension. These schools are also supported by public money. Their influence is naturally greatest in towns and states in which their organization, like that of Munich, provides not only drawing and commercial training, but also, by means of workshops, purely technical training as well. There can be no doubt that these continuation schools, which begin where the elementary school ceases and carry on the education of all youthful workers, whether apprentices or not, without exception, from their fourteenth to their eighteenth year, raise the standard of character in the masses, who without them would be mostly without secondary education. Thanks to these continuation schools, even the poorest and least favored by circumstances need not remain without further education. And thanks to the fact that the German continuation schools appeal to the vocation of the pupil and turn it to account as the starting point of education, every youthful workman can profit by them in his own particular calling. In states outside Prussia there is hardly a town without a compulsory continuation school. In the states of South Germany there is not a single exception.

I nevertheless attribute the lion's share in the rise of German industry and com-

merce to other causes. Possibly one of the chief of these is the German character, with its tendency to reflection, its thoroughness, tenacity, and capacity for subordination. Another cause is perhaps the German merchant, with his flexibility, his adaptability, and his zeal in the study of foreign languages and foreign conditions. A third cause may have been German poverty. Before 1870, when the German Empire became a great political and at the same time a great economic power, Germany was a poor country. Now nothing is better calculated to develop the innate forces of a people than poverty. The mental versatility of the Germanic races, Swedes, Norwegians, Scotch, and English, is possibly chiefly to be ascribed to the fact that they have been forced for thousands of years to strain every nerve in the struggle against fate. One of the best weapons that poor races possess for this struggle is their faculty of dispensing with things. The Germany of today has grown rich within one generation. It remains to be seen if it has strength enough, in spite of its wealth, to work and struggle in the sweat of its brow. History generally teaches the contrary. Yet our overpopulation and the tension existing in all other civilized states may perhaps supply us with the same motives that we formerly owed to poverty.

One factor, however, has certainly been of eminent importance in the development of German industry. That is the scientific training of German engineers; in other words, the serious scientific spirit that rules in our German technical universities. In the great decisions of the battlefield it is the capacity of officers and leaders, with their military discipline and their iron sense of duty, that turns the balance of the day. A small band with the right man at its head may cope with ten times its number under an indifferent leader. The same thing applies to the technical officers on the field of industrial fight. The scientific mind that guides the German engineers, which grew out of the German middle schools with their rigorous expectations and their firmly established school discipline, is a chief factor in industry, equaled only by the earnest German scholar, who devotes his life to the investigation of purely scientific problems in the laboratories of our universities, without regard to their practical possibilities and with no concern for material profit. When Professor Baeyer in Munich spent years in the attempts to make artificial indigo, before these attempts were crowned with such brilliant success, it was neither use nor money that stimulated him, but only the great problem of transforming inorganic substances into a color that had hitherto been a product of vegetable vitality. And among other economic causes it is certainly this spirit of unselfishness, of devotion to an ideal aim, that has led our technical officers of industry to victory.

We thus arrive at the conclusion that real scientific culture in union with that discipline of character which teaches thoroughness and devotion to aims lying outside of ourselves are of no less importance for the industrial development of a country than technical training. Technical capacity alone will not suffice. In my opinion, the German day trade schools suffer from the fact that they pay almost exclusive attention to technical training. I have already repeatedly remarked that the courses of instruction in our technical day trade schools differ undesirably from those of our eastern and western neighbors, in the small attention paid to civic education, which is to me identical with

the formation of character. Among the answers given by German manufacturers to the inquiry of the German Committee for Technical Schools there is one which lays its finger on the essential point of all education:

A far more important problem for the machine-builders' schools than the exact amount of instruction in the single branches is to develop the character and intelligence of the pupils. Teaching suited to the future calling must be regarded merely as a means to this end. We shall always be able to work successfully with men of character and intelligence, whether their schooling has led them further in one branch of knowledge or another. Knowledge learned at school can never be more than the simple rudiments of the knowledge gained by experience in special work.

This lesson which a German machine builder gives the committee must be taken to heart by the German day trade schools and all the trade schools of the world. Technical instruction must be regarded in the first place as a means of character training, and it must be supplemented by other forms of instruction with a view to making it as many sided as possible. In the life of great economic groups and of nations there are moments, and they are the critical moments, in which neither knowledge nor skill, but character, decides the day—character that has learned to regard its own egoistic interests as of no account when their sacrifice is demanded by the welfare of the community to which we belong, the welfare of the service that we have chosen, the welfare of the subordinates intrusted to our care.

WILL PUSH HARBOR DEVELOPMENT OF CHICAGO.

Chicago harbor development has been stimulated following action by the council when a resolution was adopted by unanimous vote directing the Harbor Committee to proceed without delay to draft an ordinance. Alderman Charles M. Foell, Republican, who has been pushing the harbor proposition for years, offered the resolution, which called attention to the enabling legislation obtained at Springfield for an absolute municipal ownership and controlled harbor. The tonnage of the port of Chicago proper has been declining annually for the last ten years or more, while that of all the other principal ports on the great lakes has been rapidly increasing. The Chicago Harbor Commission after a thorough and exhaustive study of the leading American and European ports, pointed out Chicago's inadequate and neglected harbor facilities as one of the principal causes of this decline, and recommended the immediate construction of piers extending into Lake Michigan as an indispensable means of rehabilitating the lake commerce.—*Municipal Journal and Engineer*.

TOWN HAS THREE MAYORS IN THIRTY MINUTES.

HARLINGEN, TEX.—Probably the first incident of the kind in the history of the state, if not in the entire country, occurred when Harlingen last week had three duly qualified mayors in thirty minutes. The meeting of the city commission was opened by the retiring Mayor, I. B. McFarland, who then proceeded to qualify John D. Hill, who was elected on April 4. Mr. Hill, who has been away since the election and has acquired some business interests in Houston that will take all his time, accordingly resigned, and then the commission proceeded to elect Judge A. W. Cunningham as his successor, who qualified at once, making three mayors in half an hour.—*Municipal Journal*.

BOSTON NOTES.

METROPOLITAN DISTRICT.

Consists of 30 municipalities, including Boston, or 13 cities and 17 towns, all within 10 miles of State House. Population in 1910, 1,378,435, or 151,577 more than in 1905. Total valuation of taxable property in district on April 1, 1910, \$2,214,446,549, of which \$820,681,126 was outside of Boston. Net municipal debt of district, \$104,213,329, of which the 29 municipalities outside Boston owed \$34,626,564. The total net metropolitan debt for water, parks, sewers, and Charles River Basin improvements on February 1, 1911, was \$60,008,172, which added to the net municipal debt makes a total of \$164,221,401. Of 1910 tax rates, the highest was Chelsea's (\$22.40); the lowest (except Nahant's) was Milton's (\$11.90). Only four towns and no city had a lower tax rate than Boston, viz., Nahant (\$9), Milton (\$11.90), Brookline (\$12.50), Swampscott, (\$15.00). Total of registered voters in district outside of Boston in 1910, 121,914; total registered in Boston, 110,326. Democratic majority over all in entire district in 1910, for Governor, 23,128. In the 35 years, 1875-1910, the population of the district outside Boston increased 454,287, or 179.16 per cent; in Boston, 328,666, or 96.12 per cent.

BOSTON ONE OF FIRST CITIES TO PAVE STREETS.

Early paving practice was touched upon by Mr. George W. Tillson in a paper presented at the third city planning conference at Philadelphia. The first pavement laid in this country, he said, was in the old town of Pemaquid, Me. As nearly as can be ascertained, this pavement was laid in 1625. Boston laid its first pavements in 1650, and New York in 1856, both cities using cobblestone. Belgian blocks were introduced in 1850, the present oblong

granite not being used until some twenty years later. Brick and asphalt were first laid in the seventies, and the present treated wood blocks about twelve or fifteen years ago. The first creosote-resinate wood pavement was laid on Tremont street, Boston, in 1900.

TRUST FUNDS AND BEQUESTS HELD BY CITY OF BOSTON.

The number of separate funds and bequests held by city for various purposes, 114, representing a total value of about \$8,400,000. The earliest dates back to 1674, viz., Gibson School Fund. The largest bequest is that of the late George F. Parkman, consisting of various parcels of real estate valued at \$5,000,000 to \$6,000,000. Total amount of fund in custody of City Treasurer March 31, 1911, \$3,681,363.42. Another bequest, that of Peter Bent Brigham, not held by the city, but by a private corporation, is to be used to establish the Brigham Hospital for the care of indigent sick persons residing in Suffolk County. By chapter 370, Acts of 1909, the corporation was authorized to hold property not exceeding \$7,000,000 in value (including \$5,000,000 previously authorized).

BOSTON REAL ESTATE AND BUILDING STATISTICS.

Total transfers in 1910 of real estate in Boston, 9,523 (255 more than in 1909), Dorchester leading with 2,551; total mortgages, 8,712 (170 more than in 1909), representing \$81,078,755, or \$6,054,391 more than the value recorded in 1909. Building permits issued by Building Department in 1910, 1,558; alteration permits, 2,403; plumbing and gas fitting permits, 13,577. Total number dwelling houses in 1910, 72,087; stores, 3,742; miscellaneous buildings, 6,838; total buildings of all kinds, 82,667.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 3.

SATURDAY, SEPTEMBER 16, 1911.

No. 37

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

BY SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for informa-

tion as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 45, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pine Bank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Chenette, laborer, 1 day at \$2.25, \$2.25; Florence Leary, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Stephen McFarland, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Charles A. Hogan, clerk, 2 days at \$2.50, \$5; Patrick McKenzie, working foreman, 1 day at \$3.25, \$3.25; John T. Conboy, working foreman, 1 day at \$3, \$3; Peter M. McManus, working foreman, 2 days at \$3, \$6; John J. Connolly, 1st, laborer, 1 day at \$2.25, \$2.25; Thomas F. Dolan, 1st, laborer, 1 day at \$2.25, \$2.25; Patrick Glennon, 2d, laborer, 2 days at \$2.25, \$4.50; Michael Hartigan, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; Lawrence F. Kilroy, laborer, 1 day at \$2.25, \$2.25; William Locke, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; James Morrissey, laborer, 2 days at \$2.25, \$4.50; John Matchett, laborer, 1 day at \$2.25, \$2.25; Cornelius J. Shields, laborer, $1\frac{1}{2}$

days at \$2.25, \$3.38; John Welsh, laborer, 2 days at \$2.25, \$4.50; Michael A. Martin, night watchman, 1 day at \$2.50, \$2.50; Thomas McDowell, laborer, $1\frac{1}{4}$ days at \$2.25, \$2.63; Julius Weidner, subforeman, 2 days at \$3.25, \$6.50; Peter Barker, working foreman, 2 days at \$3, \$6; Thomas J. Delaney, watchman, 1 day at \$2.50, \$2.50; John J. Abbott, laborer, 2 days at \$2.25, \$4.50; Andrew Buttomer, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; Patrick Cain, laborer, 2 days at \$2.25, \$4.50; Patrick Connolly 1st, laborer, 2 days at \$2.25, \$4.50; Michael Downs, laborer, 2 days at \$2.25, \$4.50; Maurice Downey, laborer, 2 days at \$2.25, \$4.50; Michael J. Dunlap, laborer, 2 days at \$2.25, \$4.50; Thomas Garvin, laborer, 2 days at \$2.25, \$4.50; Terrence N. Griffin, playground keeper, 2 days at \$2.75, \$5.50; John Higgins, laborer, 2 days at \$2.25, \$4.50; James P. Hennessey, laborer, 2 days at \$2.25, \$4.50; John Hennessey, laborer, 2 days at \$2.25, \$4.50; James F. Hurley, laborer, 2 days at \$2.25, \$4.50; William D. Mahoney, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Festus Wallace, laborer, 2 days at \$2.25, \$4.50; Michael Walsh, 1st, laborer, 2 days at \$2.25, \$4.50; Joseph G. McQuarrie, boy, 2 days at \$1, \$2; William Brett, laborer, 1 day at \$2.25, \$2.25; James G. Davis, laborer, 2 days at \$2.25, \$4.50; Michael Murphy, laborer, 2 days at \$2.25, \$4.50; John J. Reardon, laborer, 1 day at \$2.25, \$2.25; Alfred J. Wilson, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; Michael O'Neill, park keeper, 2 days at \$2.50, \$5; Ann I. Loftus, instructor, $\frac{1}{2}$ week, at \$13.50 per week, \$3.94; Eleanor Quinlan, instructor, $\frac{1}{2}$ week at \$11.50 per week, \$1.64; Margaret Mulhern, matron, $\frac{1}{2}$ week at \$10 per week, \$0.71; Thomas Callahan, custodian of gardens and buildings, 2 days at \$3.50, \$7; William Dunbar, laborer, 2 days at \$2.25, \$4.50; Hugh Greeran, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John O'Brien, 1st, laborer, 2 days at \$2.25, \$4.50; Hugh J. Bagley, laborer, 2 days at \$2.25, \$4.50; Raffaele De Florio, laborer, 2 days at \$2.25, \$4.50; Bartholomew Sullivan, 1st, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; William L. Tuttle, subforeman, 2 days at \$3.25, \$6.50; John Younnie, watchman, 1 day at \$2.50, \$2.50; Alexander Boyd, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; George T. Cuning, laborer, 2 days at \$2.25, \$4.50; Patrick J. Owens, laborer, 2 days at \$2.25, \$4.50; John P. Kelly, subforeman, 2 days at \$3.25, \$6.50; John E. Daley, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; Owen Lynch, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; John Quinn, laborer, 2 days at \$2.25, \$4.50; Thomas Curley, laborer, $1\frac{1}{4}$ days at \$2.25, \$2.81; William Fanning, laborer, 2 days at \$2.25, \$4.50; James Farrell, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Martin Finnegan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas Mulcahey, laborer, $\frac{1}{4}$ day at \$2.25, \$1.69; John G. Stapleton, laborer, $\frac{1}{4}$ day at \$2.25, \$1.69; William Fallon, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.38; Thomas Murray, laborer, 2 days at \$2.25, \$4.50; Patrick J. Shields, park keeper, 2 days at \$2.50, \$5; James C. Lavin, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Martin Corcoran, laborer, 2 days at \$2.25, \$4.50.

Public Grounds Department.

For the week ending Thursday, September 7, 1911:

Fred Bonang, chauffeur, 1 day, \$2.75; John F. Costello, gardener, 1 day, \$3; Charles H. Cooke, gardener, 1 day, \$3; James J. Doogue, watchman, 1 day, \$2.50; Michael Dooley, watchman, 1 day, \$2.25; Martin Finaghty, gardener, 1 day, \$3; Joseph Germaine, nurseryman, 1 day, \$3; Charles Hayes, sodder, 1 day, \$2.50; James J. Hines, sodder, 1 day, \$2.25;

Frank Hill, tree expert, 1 day, \$3; John A. Johnson, sodder, 1 day, \$3; Joseph P. Kilday, tree climber, 1 day, \$2.50; Cornelius Murphy, watchman, 1 day, \$2.25; Aaron G. Parker, tree climber, 1 day, \$2.50; Michael J. Reardon, gardener, 1 day, \$2.75; Patrick Taylor, watchman, 1 day, \$2.50; Richard Tyler, sodder, 1 day, \$3; Thomas F. Walsh, messenger, 1 day, \$3; Richard Welch, stableman, 1 day, \$2.50.

Printing Department.

For the week ending Thursday, September 7, 1911:

John T. Callan, 6 hours, \$3.72; John F. Delaney, 6 hours, \$3.72; John Fisher, 6½ hours, \$4.03; William P. Hayes, 6½ hours, \$4.22; Felix McManus, 6½ hours, \$4.03; John O'Connor, 4 hours, \$2.48; Edward J. Stanton, 4½ hours, \$2.79; Francis J. Sullivan, 6½ hours, \$4.03; Mary M. Brennan, 4 hours, \$2.48.

Public Buildings Department.

For the week ending Thursday, September 7, 1911:

Daniel J. Fitzpatrick, watchman, 1 day at \$2.50, \$2.50; Max Stone, watchman, 1 day at \$2.50, \$2.50; Henry Satoris, watchman, 1 day at \$2.50, \$2.50; Patrick A. Murphy, janitor, 1 day at \$1.50, \$1.50; Thomas F. Murphy, janitor, 1 day at \$2.50, \$2.50; Thomas J. Barry, janitor, 1 day at \$2.50, \$2.50; John Hagerty, janitor, 1 day at \$2.50, \$2.50; Harry J. Foster, janitor, 1 day at \$2.50, \$2.50; Ferdinand W. Webber, janitor, 1 day at \$2.50, \$2.50; Benjamin D. Drohan, janitor, 1 day at \$2.75, \$2.75; Daniel J. Sheehan, chief janitor, \$3; Peter Glancy, janitor, 1 day at \$2.50, \$2.50.

Public Grounds Department.

For the week ending Thursday, August 31, 1911:

Fred Bonang, chauffeur, 1 day, \$2.75; Charles H. Cooke, gardener, 1 day, \$3; James Doogue, watchman, 1 day, \$2.50; Michael Dooley, watchman, 1 day, \$2.25; Martin Finaghty, gardener, 1 day, \$3; Joseph P. Germaine, nurseryman, 1 day, \$3; Edward T. Grey, watchman, 1 day, \$2.50; Frank Hill, tree expert, 1 day, \$3; James J. Hines, watchman, 1 day, \$2.25; John A. Johnson, sodder, 1 day, \$3; Joseph P. Kilday, tree climber, 1 day, \$2.50; Cornelius Murphy, watchman, 1 day, \$2.25; Aaron G. Parker, tree climber, 1 day, \$2.50; Patrick Taylor, watchman, 1 day, \$2.50; Richard Tyler, sodder, 1 day, \$3; Thomas F. Walsh, messenger, 1 day, \$3; Richard Welch, stableman, 1 day, \$2.50.

Public Works Department (Bridge Service).

For the week ending Thursday, September 7, 1911:

A. P. Turnbull, drawtender, 1 day at \$1,200 per year, \$3.39; James E. Murray, drawtender, 1 day at \$1,200 per year, \$3.39; 4 assistant drawtenders, 5 days' time at \$900 per year, \$12.31; Patrick F. Murphy, machinist, 2 days at \$3.52, \$7.04; John F. Sullivan, carpenter, ¼ day at \$3, \$2.25; Walter J. Holland, chauffeur, ½ day at \$2.75, \$1.38.

Public Works Department (Ferry Service).

For the week ending Thursday, September 7, 1911:

William G. Greenall, gateman, 1 day at \$2.63, \$2.63; James E. Fitzpatrick, boatwatch, 1 day at \$2.83, \$2.83; M. J. Sullivan, boatwatch, 1 day at \$2.83, \$2.83; John Kelly, fireman, 1 day at \$2.83, \$2.83; Owen F. Cox, boatwatch, 1 day at \$2.83, \$2.83; J. H. Sullivan, boatwatch, 1 day at \$2.83, \$2.83; John Seaman, boatwatch,

1 day at \$2.83, \$2.83; Lawrence Collins, deckhand, 1 day at \$2.30, \$2.30; John J. Lyons, gateman, 1 day at \$2.63, \$2.63; Ernest L. Yocum, engineer, 1 day at \$4.22, \$4.22; H. E. Pingree, fireman, 1 day at \$2.83, \$2.83.

Public Works Department (Paving Service).

For the week ending Thursday, September 7, 1911:

John Kirby, laborer, 2 days at \$2.25, \$2.25; Thomas J. Sullivan, watchman, 1 day at \$2.25, \$2.25; Jeremiah T. Donahue, watchman, 1 day at \$2.25, \$2.25; Thomas H. Rourke, stableman, 1 day at \$2.25, \$2.25; Timothy Leonard, watchman, 1 day at \$2.25, \$2.25; Patrick Vericher, stableman, 1 day at \$2.25, \$2.25; John R. Leonard, watchman, 1 day at \$2.25, \$2.25; Frank J. Leslie, laborer, 1 day at \$2.25, \$2.25; John Moore, 2d, teamster, 2 days at \$2.25, \$4.50; John McEleney, laborer, 1 day at \$2.25, \$2.25; Timothy J. Murphy, laborer, 1 day at \$2.25, \$2.25; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50; Edwin T. Hoisington, assistant engineer, 2 days at \$4, \$8; Frank O. Holmes, instrumentman, 2½ days at \$3.50, \$9; Henry M. Johnson, instrumentman, 1½ days at \$3.50, \$6.50; Andrew Welch, boy, 1½ days at \$1.50, \$2.14; Dwight L. Hubbard, assistant engineer, 3 days at \$4.50, \$13.50; Robert Shea, rodman, 2½ days at \$2.50, \$6.75; Eugene O'Neil, rodman, 3 days at \$2.50, \$7.50; Adolph Post, instrumentman, 3 days at \$3.50, \$10.50; Daniel Heffernan, chauffeur, 1 day at \$2.25, \$2.25.

Public Works Department (Sanitary Service).

For the week ending Thursday, September 7, 1911:

Joseph P. Keyes, inspector, 1 day at \$3, \$3; F. J. Nagle, inspector, 1 day at \$3.50, \$3.50; G. H. O'Donnell, inspector, 1 day at \$3, \$3; Joseph P. Ripley, inspector, 1 day at \$3, \$3; P. H. Shaughnessy, inspector, 1 day at \$3, \$3; B. Sullivan, inspector, 1 day at \$3, \$3; Edward Breen, teamster, ½ day at \$2.25, \$1.13; William F. Carmody, teamster, ½ day at \$2.25, \$1.13; L. Conroy, teamster, ½ day at \$2.25, \$1.13; James F. Dempsey, ½ day at \$2.25, \$1.13; E. J. Dunlea, teamster, ½ day at \$2.25, \$1.13; Michael Gilmore, teamster, ½ day at \$2.25, \$1.13; Thomas Harrington, teamster, ½ day at \$2.25, \$1.13; William Harrold, helper, ½ day at \$2.25, \$1.13; J. L. Hennessey, helper, ½ day at \$2.25, \$1.13; A. F. Maguire, helper, ½ day at \$2.25, \$1.13; James Maloney, helper, 1 day at \$2.25, \$2.25; James Manning, helper, 1 day at \$2.25, \$2.25; James Moran, helper, ½ day at \$2.25, \$1.13; M. F. Mulligan, helper, ½ day at \$2.25, \$1.13; James McCarthy, helper, ½ day at \$2.25, \$1.13; Peter O'Hea, helper, ½ day at \$2.25, \$1.13; J. E. Reardon, teamster, 1 day at \$2.25, \$2.25; James Wilmouth, teamster, 1 day at \$2.25, \$2.25; Cornelius Sullivan, teamster, ½ day at \$2.25, \$1.13; J. C. Smith, dumper, 1 day at \$2.75, \$2.75; P. F. Sullivan, inspector, 1 day at \$3, \$3; J. F. Welch, helper, ½ day at \$2.25, \$1.13; William A. McKim, helper, ½ day at \$2.25, \$1.13; J. J. Desmond, teamster, ½ day at \$2.25, \$1.13; James J. Mullen, inspector, 1 day at \$3, \$3; A. Silva, inspector, 1 day at \$3, \$3; John Holloran, teamster, ½ day at \$2.25, \$1.13; Thomas Donovan, teamster, ½ day at \$2.25, \$1.13; Samuel Blair, teamster, 1 day at \$2.25, \$2.25; John O'Brien, teamster, 1 day at \$2.25, \$2.25; Thomas Ambrose, teamster, 1 day at \$2.25, \$2.25; John F. Dunn, teamster, 1 day at \$2.25, \$2.25; William J. Garrett, teamster, 1

day at \$2.25, \$2.25; M. McGrath, helper, 1 day at \$2.25, \$2.25; Patrick Carroll, helper, 1 day at \$2.25, \$2.25; Joseph F. Cavinarro, helper, 1 day at \$2.25, \$2.25; Dennis Donovan, helper, 1 day at \$2.25, \$2.25; James Hannon, helper, 1 day at \$2.25, \$2.25; Thomas B. Gately, laborer, 2 days at \$2.25, \$4.50; Joseph F. Mello, subforeman, ½ day at \$3, \$1.50; C. J. Scanlan, inspector, ¼ day at \$3, \$2.25; R. Welch, inspector, 1½ days at \$3, \$5.25; Patrick Francis, laborer, 2 days at \$2.25, \$4.50; Timothy Curran, laborer, 2 days at \$2.25, \$4.50; B. F. McNulty, laborer, 2 days at \$2.25, \$4.50; D. F. Connor, laborer, 1 day at \$2.25, \$2.25; J. J. Dolan, inspector, 2 days at \$3, \$6; Daniel Hollan, laborer, 1 day at \$2.25, \$2.25; John O'Toole, laborer, 1 day at \$2.25, \$2.25; F. E. Taylor, laborer, 1 day at \$2.25, \$2.25; John Robertson, laborer, 1 day at \$2.25, \$2.25; J. S. Plunkett, laborer, 1 day at \$2.25, \$2.25; Charles Carey, laborer, 1 day at \$2.25, \$2.25; Francis Murphy, laborer, 1 day at \$2.25, \$2.25; Thomas Bride, laborer, 1 day at \$2.25, \$2.25; John Woods, laborer, 1 day at \$2.25, \$2.25; Dennis Sullivan, laborer, 1 day at \$2.25, \$2.25; M. Pendergast, laborer, 1 day at \$2.25, \$2.25; Jeremiah O'Leary, laborer, 1 day at \$2.25, \$2.25; D. E. Coakley, laborer, 1 day at \$2.25, \$2.25; P. J. Glavin, laborer, 1 day at \$2.25, \$2.25; John Curran, laborer, 1 day at \$2.25, \$2.25; M. J. Kane, laborer, 1 day at \$2.25, \$2.25; Thomas Hickey, laborer, 1 day at \$2.25, \$2.25; M. Connolly, laborer, 1 day at \$2.25, \$2.25; John Whelton, laborer, 1 day at \$2.25, \$2.25; J. Barry, laborer, 1 day at \$2.25, \$2.25; A. H. Brown, driver, 1 day at \$2.50, \$2.50; J. F. Brown, driver, 1 day at \$2.50, \$2.50; D. J. Sullivan, driver, 1 day at \$2.50, \$2.50; John Norton, driver, 1 day at \$2.50, \$2.50; P. J. McNulty, inspector, ½ day at \$3, \$1.50; John J. Conlon, driver, ½ day at \$2.50, \$1.25; G. Laurano, laborer, ½ day at \$2.25, \$1.13; Sylvester McCarthy, laborer, 1 day at \$2.25, \$2.25; Thomas Slowe, laborer, 1 day at \$2.25, \$2.25; James Dahill, laborer, 1 day at \$2.25, \$2.25; John Fitzgerald, laborer, 1 day at \$2.25, \$2.25; Patrick Sweeney, driver, 1 day at \$2.50, \$2.50; H. C. Mosman, inspector, ½ day at \$2.50, \$1.25; Hugh Barry, driver, 1 day at \$2.50, \$2.50; Patrick Cronin, laborer, 1 day at \$2.25, \$2.25; A. G. Kerrigan, inspector, ½ day at \$2.50, \$1.88; J. J. Monahan, laborer, 1 day at \$2.25, \$2.25.

Public Works Department (Sewer Service).

For the week ending Thursday, September 7, 1911:

Lumsden & Van Stone Company, \$2,300; Gibby Foundry Company, \$2,300; Smith & Lovett Company, \$3,310; W. A. Snow Iron Works, \$3,580.

Lumsden & Van Stone Company withdrew their bid and contract was awarded to Gibby Foundry Company.

On September 11 the Mayor approved a contract with Charles J. Jacobs Company for sewerage works in Glenville avenue, between Spofford street and Harvard avenue. Bids on this work were opened September 5, and were as follows:

Charles J. Jacobs Company, \$1,217.60;

George J. Regan, \$1,243.20; Michele De Sisto & Co., \$1,244.20; Antony Cefalo, \$1,258.94; R. J. Young, \$1,490; John McCourt & Co., \$1,582.54; John T. Shea, Jr., \$1,591.

Engineer's estimate, \$1,474.40.

On September 11 the Mayor approved the following contracts for cleaning catch-basins:

District No. 1, John W. Collins, about 200 basins; District No. 2, James L. Pierce & Co., about 200 basins; District No. 3, J. F. Nyhan, about 200 basins; Districts Nos. 4, 5 and 6, Joseph McGreevey, about 600 basins; District No. 7, John J. Loonie, 500 basins.

Bids on this work were opened August 29, and were as follows:

District No. 1.—John W. Collins, \$1.24 per cubic yard or \$4 per basin.

District No. 2.—Richard A. Nagle, \$1.10 per cubic yard or \$3.08 per basin; J. L. Pierce & Co., \$1.04 per cubic yard or \$3.75 per basin.

District No. 3.—James F. Nyhan, \$1.44 per cubic yard or \$4.73 per basin.

District No. 4.—Joseph McGreevey, \$0.82 per cubic yard or \$2.90 per basin.

District No. 5.—Joseph McGreevey, \$0.81 per cubic yard or \$2.85 per basin; John J. Loonie, \$4.50 per basin.

District No. 6.—Joseph McGreevey, \$0.88 per cubic yard or \$3.25 per basin; John J. Loonie, \$1.40 per cubic yard or \$4 per basin.

District No. 7.—John J. Loonie, \$1.25 per cubic yard.

PUBLIC WORKS DEPARTMENT (Water Service).

On September 8 the Mayor approved a contract with John A. Costello & Co., for laying water pipe in Commercial street, city proper. Bids on this work were opened August 25, and were as follows:

John A. Costello & Co., \$2,675; M. De Sisto & Co., \$4,027.01; John T. Shea, Jr., \$7,704.

Engineer's estimate, \$3,000.

On September 8 the Mayor approved a contract with Daniel De Pietro for laying water pipe in Dorchester avenue, West Second street and Mt. Washington avenue, South Boston. Bids on this work were opened August 22, and were as follows:

Daniel De Pietro, \$1,027.50; Thomas Burke, \$1,213.01; William J. Rafferty Company, \$1,655; Michele De Sisto & Co., \$1,875.01; John A. Costello & Co., \$1,928; John T. Shea, Jr., \$2,267.

Engineer's estimate, \$1,525.

On September 11 the Mayor approved a contract with John T. Shea, Jr., for relaying water pipe in River, Auburn, Anderson, Phillips, Poplar and West Cedar streets. Bids on this work were opened September 8, and were as follows:

John T. Shea, Jr., \$2,140.05; M. De Sisto & Co., \$2,170; Hugh McNulty, \$2,196.05; R. Cartullo, \$2,488.05; D. E. Lynch, \$2,900; Thomas Burke, \$2,910.05.

Engineer's estimate, \$2,177.05.

WITHOUT ADVERTISING.

The Mayor has approved the following requests of departments to do work with the department forces without advertising, also the following additions to and deductions from contracts.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department forces, without advertising for competitive bids:

Resurface with macadam Hewlett street, West Roxbury, from Walter street to Centre street, the estimated cost for labor and materials being \$2,050.

Relay granite blocks on gravel bed with gravel joints on Washington street, from Haymarket square to Hanover street, the estimated cost for labor and materials being \$1,560.

Resurface with macadam Columbia road (traffic roadway), from East Cottage street to Dudley street, the estimated cost for labor and materials being \$2,025.

Resurface with macadam and regulate O street, from East Fourth street to East Fifth street, the estimated cost for labor and materials being \$1,400.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor methods as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

Construct Spofford road, from Commonwealth avenue to Glenville avenue, the estimated cost for labor and materials being \$2,400.

Construct Glenville avenue, from Harvard avenue to Allston square, the estimated cost for labor and materials being \$5,400.

"These are '393' streets and can, in my opinion, be done as well by the division force as any work now necessary.

L. K. ROURKE,
Commissioner of Public Works."

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor:

PUBLIC BUILDINGS DEPARTMENT.

A deduction, amounting to \$11.50, on the contract with the A. Varnerin Company for the work of installing the electric lighting fixtures at the new library building, Ward 22. Contract price, \$22,962; total additions, \$1,592.73; total deductions, \$30; contract as standing, \$24,524.73.

An addition, amounting to \$129.04, on the contract with Thomas W. Byrne for rewiring and extending building wiring to new locations of fixtures and altering fixtures on account of the changes made in the reading tables at the new library building, Ward 22. Contract price, \$848; total additions, \$129.04; contract as standing, \$977.04.

An addition, amounting to \$15.73, on the contract with the A. Varnerin Company for patching of plastering after electric wire connections were made for the furniture fixtures at the new library building, Ward 22. Contract price, \$22,962; total additions, \$1,592.73; contract as standing, \$24,554.73.

A deduction, amounting to \$18.50, on the contract with the A. Varnerin Company for building the concrete steps at front and rear entrances of the new library building, Ward 22; being the difference between the allowance of \$200 for doing the work and the amount of \$181.50 as stated in the proposal of October 18, 1910. Contract price, \$22,962; total additions, \$1,592.73; total deductions, \$18.50; contract as standing, \$24,536.23.

PUBLIC GROUNDS DEPARTMENT.

Deduction, amounting to \$3,200, on contract with Coleman Brothers for soil work on the Common, on account of the abandonment of certain paving work. This deduction will be offset in part by

an addition amounting to \$1,650 for drainage work, resulting in net deduction of \$1,550.

Addition, on above contract with Coleman Brothers, amounting to \$950, as estimated by the architects, Messrs. Olmsted Brothers, on account of truing up to grade and seeding down to grass on soil improved last fall.

A further addition on above contract on account of excavation of sand and placing same under new brick sidewalks to be constructed, on a basis of \$1.25 per cubic yard for sand excavated and replaced, or \$0.25 per yard for excavating alone.

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners have been approved by the Mayor:

Signs.—J. Topaz, 135B West Canton street; Rose Yorra, 121 Chambers street; Joseph Willner, 36 Boylston street; Mary Winthrop, 99 Hampden street; T. Greenblatt, 41 Leverett street; Mme E. Sacchi, 48 Falmouth street; Musto Dimond, 218 Hanover street.

Illuminated Signs.—George Levine, 11 Essex street; C. Manuel, 84A Massachusetts avenue; People's Credit Company, 501 Washington street; J. J. McNamara, 245 D street; Gilchrist Drug Company, 57 Berkeley street; William Filene's Sons, 22 Winter street; Maurice Hurwitz, 342 Blue Hill avenue; South End Amusement Company, 1737 Washington street; J. E. Doherty Company, corner Atlantic avenue and Belcher lane; William T. Patten, 556 Main street; G. M. Guilford, 49 Lansdowne street; M. Linsky & Brother, Incorporated, 745 Washington street; E. A. Curtin, 2 Haviland street; Musto Dimond, 218 Hanover street; City Loan Company, 630 Washington street; Louis Green, 121 Causeway street; Louis Green, 775 Washington street; Wentworth Supply Company, 10 North street; A. W. Jackman & Co., 22 North street; John Latorri, 16 Fleet street; Loew's South End Theatre, 992 Washington street; I. Dane, 21 Faneuil Hall square; Nathan Fishman, 23 Staniford street; Joseph Rowan, 149 Causeway street; G. Van Vlack, 332 Massachusetts avenue.

Gasolene, etc.—J. W. Harding, Freedom court; John Imbescheid, 207 Boylston street; Montgomery Brothers, rear 285 Dorchester avenue; John F. Suckling, 8 Pinckney road; J. W. Maguire Company, 12-14 Harcourt street; Edward L. Britt, 1276 Blue Hill avenue.

CLAIMS.

The following claims, allowed by the Committee on Claims of the City Council, have been approved by the Mayor, after approval by the Corporation Counsel and the heads of the departments involved:

Eleanor T. Brennan, administratrix, estate of John J. Brennan, \$276.47, for breach of contract in construction of sewerage works in Tremont street, December 27, 1905.

John E. Crowley, assignee of Thomas J. Young Company, \$3,500, for breach of contract and work in connection with the rebuilding of the old Stony brook channel, Section 5, Whittier street, August 26, 1908.

John E. Crowley, assignee of Thomas J. Young Company, \$3,500, for breach of contract and work in connection with the construction of sewerage works in Washington street, between Williams and Green streets, West Roxbury, August 26, 1909.

APPROVAL OF PRIVATE WAY.

The Mayor has approved the location, direction, width and grade of the private way, designated as Walnut Park road, leading from Walnut Park to Westminster avenue.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENT.

The following appointment has been made, subject to confirmation by the Board of Civil Service Commissioners:

September 14, Alexander C. Chisholm to be a Bath Trustee.

CONFIRMATIONS.

The following appointments were confirmed on the dates given:

September 7, J. Templeman Coolidge, as an Art Commissioner.

September 12, James J. Bacigalupo, as Trustee for Children.

APPROVAL OF LEASES.

The Mayor has approved the lease from Amory J. Eliot, trustee, of the premises numbered Room 243, Oliver Building, 120 Tremont street, to be used for the term of four months as a headquarters for the Second Brigade. Rent to be at the rate of \$850 per year. Approval has also been given to the lease from Jeremiah J. McNamara of the hall numbered 245 D street, South Boston, for the purpose of holding twenty public meetings, including janitor service, heat and light during the five months beginning with Sept. 1, 1911. Rent to be at rate of \$300 per year.

PAYMENTS TO DISABLED EMPLOYEES.

The following allowances granted by the Commissioner of Public Works have been approved by the Mayor:

Sanitary Service.—John F. Callahan, 12 days at \$2.25, \$27; Joseph J. McGonagle, 5 days at \$2.25, \$11.25; John Regan, 8 days at \$2.25, \$18; Daniel J. Flynn, 9 days at \$2.25, \$20.25; Walter E. Moore, 3½ days at \$2.25, \$7.88.

READVERTISEMENT.

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Public Grounds Department of the City of Boston invites sealed proposals for soil work, renovation and regrading on Boston Common, and giving bond of a surety company therefor in the sum of \$10,000. Only proposals obtained at the office of the superintendent, city greenhouses, East Cottage street, signed by the bidder and left there before 12 o'clock m. of Tuesday, September 26, 1911, at said office, with a certified check for \$1,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. No bid will be received until after samples of the soil and manure have been submitted to the landscape architects at the office of the superintendent, and approved by them. The superintendent reserves the right to reject any and all proposals and to award the contract as he deems for the best interest of the city.

D. H. SULLIVAN,
Superintendent of Public Grounds.
Boston, September 15, 1911. (Sept. 16.)

TO GENERAL CONTRACTORS.

The Public Grounds Department of the City of Boston invites sealed proposals for resetting of curb around Frog Pond on Boston Common, and giving bond of a surety company therefor in the sum of \$1,000. Only proposals obtained at the office of the superintendent, city greenhouses, East Cottage street, signed by the bidder and left there before 12 o'clock m. of Monday, September 25, 1911, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. Plans and specifications may be seen at the office of the superintendent, East Cottage street. The superintendent reserves the right to reject any and all proposals and to award the contract as he deems for the best interest of the city.

D. H. SULLIVAN,
Superintendent of Public Grounds.
Boston, September 15, 1911. (Sept. 16.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR FURNISHING AND ERECTING GAS POST EXTENSIONS AND THE INSTALLATION OF INVERTED GAS LAMPS.

The Commissioner of Public Works of the City of Boston, Room 49, City Hall, invites bids for furnishing and erecting gas post extensions and also the installation of inverted gas lamps on such streets, parks, and alleys as may from time to time be designated by the city, and giving bond therefor of a surety company approved by the commissioner in the sum of ten thousand dollars (\$10,000) to secure the due performance of the contract and the full protection of the city. Forms of bids and specifications may be obtained at said office of the Commissioner of Public Works. Bids are to be based on furnishing and erecting approximately eleven thousand (11,000) gas lamp post extensions and installing a like number of inverted gas lamps on lamp posts distributed in such separate districts as may be determined by the city. The city will furnish the lamp posts and inverted lamps. Bidders are to state a price for furnishing each post extension, for erecting each post extension, and for installing each inverted lamp. Samples and detailed drawings of the equipment to be furnished under the bid must be submitted with the same. Each bid should be inclosed in an envelope, sealed, and marked "Bid for Furnishing and Erecting Gas Lamp Post Extensions," and left at the Hearing Room, second floor, City Hall, before 12 m. on Tuesday, October 24, 1911, with a certified check for one thousand (1,000) dollars, payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals and to award the contract as he may deem in the best interests of the city.

L. K. ROURKE,
Commissioner of Public Works.

Boston, September 14, 1911. (Sept. 16-23-30.)

CITY OF BOSTON.

PROPOSALS FOR FURNISHING A STEEL STEAM PIPE ON LONG ISLAND.

The Boston Infirmary Trustees invite proposals for furnishing and installing a steel steam pipe at the Long Island Hospital, Boston Harbor, and giving bond therefor of a surety company in the sum of five hundred dollars (\$500). Only proposals obtained at the office of the department, 28 Court square, Room 3, signed by bidder and left before 12 m. on Friday, September 22, 1911, at said office, with certified check for three hundred dollars (\$300), payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. The bids should be inclosed in a sealed envelope and marked "Proposals for Furnishing a Steel Steam Pipe on Long Island." A duplicate copy of the proposals must be filed at the City Auditor's office (without check) previous to the time named for opening bids. The trustees reserve the right to reject any or all bids or to award the contract as they see fit.

EDWARD M. GALLAGHER,
Chairman.

(Sept. 16.)

CITY OF BOSTON.

PROPOSALS FOR ASPHALT PAVEMENT.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing asphalt pavement in Kent street, between Roxbury and Vernon streets, Roxbury, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at the Hearing Room, second floor, City Hall, before 12 o'clock m. of Monday, September 25, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Asphalt Pavement in Kent Street."

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, September 14, 1911. (Sept. 16.)

CITY OF BOSTON.

PROPOSALS FOR TAR MACADAM ROADWAY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing a tar macadam roadway and artificial stone sidewalks in Coleman street, between Quincy and Hendry streets, Dorchester, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at the Hearing Room, second floor, City Hall, before 12 o'clock m. of Monday, September 25, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Tar Macadam Roadway in Coleman Street."

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, September 14, 1911. (Sept. 16.)

CITY OF BOSTON.

PROPOSALS FOR TAR MACADAM ROADWAY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for constructing a tar macadam roadway and artificial stone sidewalks in Brookledge street, between Elm Hill and Humboldt avenues, Roxbury, and giving bond therefor of a surety company approved by the commissioner. Only proposals obtained at said office, filled out, signed by the bidder and left at the Hearing Room, second floor, City Hall, before 12 o'clock m. of Monday, September 25, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Tar Macadam Roadway in Brookledge Street."

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, September 14, 1911. (Sept. 16.)

CITY OF BOSTON.

TO ELECTRICAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing electric work in the Brimmer School Trade School for Boys, Common street, Boston, Mass., and giving bond therefor of a surety company therefor in the sum of \$2,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, September 22, 1911, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

(Sept. 16.)

CITY OF BOSTON.

EXAMINATIONS FOR EVENING SCHOOL CERTIFICATES OF QUALIFICATION.

Examinations for certificates of qualification to teach in the evening schools of this city will be held in the Normal Schoolhouse, Huntington avenue, near the Fenway, on Friday, September 22, 1911, beginning at 9 o'clock a. m.

For further information with regard to these examinations, application should be made to the undersigned.

(Sept. 16.)

THORNTON D. APOLLONIO,
Secretary School Committee.

CITY OF BOSTON.

PROPOSALS FOR STREET LAMPS.

The Supply Department of the City of Boston, Room 826, Tremont Building, invites proposals for furnishing approximately 11,000 inverted gas mantle lamps, complete with single burner, to be used in lighting streets, parks and alleys. Forms of bids and specifications can be obtained at the office of the Superintendent of Supplies, Room 826, Tremont Building. Bidders must state the price for furnishing each lamp complete. Samples of the equipment to be furnished must be submitted with the bid. Each bid must be inclosed in a sealed envelope and marked "Bid for Inverted Gas Mantle Lamps," and left at the office of the Superintendent of Supplies, Room 826, Tremont Building, before 12 m., Wednesday, October 18, at which time and place the bids will be publicly opened and read. The bid must be accompanied by a certified check for \$1,000, payable to and to become the property of the City of Boston if the bid after acceptance is not carried out. A bid in duplicate, without a check, must be filed with the City Auditor previous to the time named for opening the bids. A bond for one-quarter of the amount of the contract in a surety company doing business in the State of Massachusetts and acceptable to the Superintendent of Supplies will be required for a faithful performance of the contract. The superintendent reserves the right to reject any or all proposals should he deem it for the interest of the city so to do.

J. EDWARD MULLEN,
Superintendent of Supplies.

(Sept. 16.)

PROPOSALS FOR LAYING WATER PIPE.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for laying 2,200 feet of 10-inch and 12-inch water pipe in Orchard avenue and Washington street, West Roxbury, and Mallon road, Dorchester, and giving bond therefor of a surety company, approved by the commissioner, in the sum of eight hundred dollars (\$800) to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at Room 49, City Hall. Each bid should be inclosed in an envelope, sealed, marked "Bid for Laying Water Pipe," and left at the Hearing Room, second floor, City Hall, before 12 m. on Friday, September 22, 1911, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, September 14, 1911. (Sept. 16.)

PROPOSALS FOR REPAIRING THE PIERS AT THE EAST BOSTON LANDING OF THE NORTH FERRY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for repairing the piers at the East Boston landing of the North Ferry, and giving bond therefor of a surety company approved by the commissioner in the sum of fifteen hundred dollars (\$1,500). Only proposals obtained at said office, filled out, signed by the bidder and left at the Hearing Room, second floor, City Hall, before 12 o'clock m. of Tuesday, September 26, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder, with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Repairing Ferry Piers."

LOUIS K. ROURKE,
Commissioner of Public Works.

Boston, September 14, 1911. (Sept. 16.)

PROPOSALS FOR LAND IN WARD 5, CHARLESTOWN.

The Park Commissioners of Boston invite proposals for the sale to the city of suitable land for a playground in Ward 5 from one-half to one or more acres in extent. The proposals to state location, area and price per square foot of the land offered, to be marked "Proposals for Land for Playground, Ward 5," and sent by mail or otherwise to the office of the board, Olmsted Park, Jamaica Plain, on or before September 30, 1911. Proposals for more than 25 per cent higher than the average assessed valuation of the property during the previous three years, or aggregating more than \$80,000, cannot be considered. The board reserves the right to reject any or all proposals.

ROBERT S. PEABODY,
JAMES M. PRENDERGAST,
DANIEL H. COAKLEY,
Commissioners.

(Sept. 16 and 23.)

PROCEEDINGS OF SCHOOL COMMITTEE.

Sept. 5, 1911.

A meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5.15 o'clock P. M.

Present: Messrs. Brock, Corcoran, and Leen.

CHAIRMAN PRO TEMPORE.

In the absence of the Chairman, the Board was called to order by Mr. George E. Brock, the senior member.

On motion, Mr. George E. Brock was unanimously elected Chairman pro tempore.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

USE OF SCHOOL-HOUSES FOR REGISTRATION PURPOSES.

A communication was received from the Board of Election Commissioners, under date of Aug. 11, 1911, requesting permission to use rooms in the Emerson, Bunker Hill, Mayhew and Prince Schools for the evenings of Sept. 11 to Sept. 16, inclusive, Oct. 11 to Oct. 13, inclusive, Dec. 9 to Dec. 20, inclusive, from 6 o'clock to 10 o'clock, for the purpose of evening registration.

Placed on file, and the application approved, subject to the usual conditions governing the use of other accommodations for similar purposes.

WITHDRAWAL OF AN APPOINTMENT.

A communication was received from the Superintendent, under date of Sept. 5, 1911, withdrawing the appointment of Thomas F. McSherry, as instructor in the High School of Commerce, at his own request, to take effect Sept. 13, 1911.

Placed on file.

DEATHS.

The Superintendent reported the deaths of the following-named head-master and teacher:

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence was granted each of the following-named teachers for the terms specified:—

Girls' High School—Marie L. Mahoney, assistant instructor, from Sept. 13 to 29, 1911.

Hancock District—Eleanor M. Colleton, assistant, Sept. 13, 14, 15, 1911.

Shurtleff District—Winifred C. Folan, first assistant, grammar, from Sept. 13 to Oct. 1, 1911; Florence H. Murray, first assistant, kindergarten, from Sept. 13 to Dec. 13, 1911.

Washington Allston District—Elizabeth L. Bush, assistant, from Sept. 13 to Nov. 1, 1911.

On the report of the Superintendent, leave of absence for study, travel or rest, under the provisions of section 317 of the regulations was granted each of the following-named teachers for the terms specified:—

Roxbury High School—Jennie I. Ware, assistant-principal, from Sept. 21, 1911, to Sept. 1, 1912, for study, travel and rest.

South Boston High School—Henriette Goldstein, special assistant instructor in French, from Oct. 1, 1911, to Sept. 1, 1912, for study and travel.

Shurtleff District—Mary E. Morse, assistant, from Sept. 1, 1911, to Sept. 1, 1912, for rest and study.

Washington Allston District—Helen L. Dunclee, first assistant, kindergarten, from Sept. 1, 1911, to Sept. 1, 1912, for study.

APPOINTMENT OF CLERICAL ASSISTANT, SUMMER HIGH SCHOOL.

A communication was received from the Superintendent, under date of Sept. 5, 1911, stating that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Winifred K. Feeney as clerical assistant in the Summer High School, to take effect June 26, 1911.

Placed on file, and the appointment approved.

PART TIME AND SALARY OF HELEN E. HAPGOOD.

On motion of the Superintendent, it was ORDERED, that during the school year 1911-12, Helen E. Hapgood, teacher of sewing, be placed on four-fifths time, and that she be paid four-fifths of her regular salary.

ADDITIONAL ASSISTANT, SPECIAL CLASS, HYDE DISTRICT.

On motion of the Superintendent, it was ORDERED, That the employment as an additional assistant in the special class in the Hyde District, to take effect Sept. 13, 1911, of Mabel L. Boyer, an assistant, kindergarten, in the Dudley District, is hereby authorized for such portion of the school year 1911-12 as the Superintendent may deem expedient, Miss Boyer to be paid at the same rate as if she were teaching as an assistant, kindergarten, in an elementary school.

APPOINTMENT AND SALARY OF MARGUERITE L. LILLIS.

On motion of the Superintendent, it was ORDERED, That the rank of assistant in the Continuation Schools is hereby established and that Marguerite L. Lillis, assistant, Lewis District, is hereby appointed to said rank in the Continuation Schools, to take effect Sept. 13, 1911.

On motion of the Superintendent, it was ORDERED, That the salary of Marguerite L. Lillis, assistant, Continuation Schools, is hereby established at one thousand eighty dollars (\$1080) for the school year 1911-12.

EMPLOYMENT OF A TOOL-KEEPER, CENTRAL EVENING INDUSTRIAL SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment of a tool-keeper in the Central Evening Industrial School is hereby authorized to take effect Oct. 2, 1911, the compensation of said tool-keeper to be at the rate of seventy-five cents (75c) per evening of actual service.

EXPENDITURE FOR POSTAGE BY EVENING SCHOOL PRINCIPALS.

On motion of the Superintendent, it was ORDERED, That the principal of each evening school is hereby authorized to incur expense for postage from Oct. 1 to Nov. 30, 1911, to an amount not to exceed five dollars (\$5), and that said principals be directed to present their bills for such expenditure to the Business Agent not later than Dec. 1, 1911.

EXPENDITURES BY PRINCIPAL OF EVENING TRADE SCHOOL.

On motion of the Superintendent, it was ORDERED, That there be allowed and paid to the Principal of the Evening Trade School the sum of two hundred dollars (\$200), this sum being for the purpose of paying bills for the materials which are to enter into products to be sold, express charges, car fares and other small cash transactions; such sum to be accounted for by said principal to the City Auditor through the Business Agent, and the balance at the end of the financial year to be paid over by said principal to the Auditor of the School Committee for transmission to the City Collector.

SALARIES OF TEACHERS, EVENING TRADE SCHOOL.

On motion of the Superintendent, it was ORDERED, That the salaries of teachers of the Evening Trade School are hereby established as follows for the school year 1911-12:—

Principal\$5 per evening.
Assistant\$2.50 per evening.
Second assistant.....\$2 per evening.

ADVANCE PAYMENTS BY EVENING SCHOOL PUPILS.

On motion of the Superintendent, it was ORDERED, That each principal of an evening high school is hereby authorized and directed to deposit to the credit of the principal of his school the amount of advance payments received at his school in a bank approved by the Auditor of the School Committee, such deposit to be subject to the check of said principal until the end of the evening school term, at which time the balance, if any, shall be transferred to the Auditor of the School Committee.

SALARY AND APPOINTMENT OF ASSISTANTS IN THE CONTINUATION SCHOOLS.

On motion of the Superintendent, it was ORDERED, That the salary of assistants, advanced courses of the Continuation Schools be fixed for the school year ending Aug. 31, 1912, at the rate of four dollars (\$4) for each half day of actual service.

On motion of the Superintendent, it was ORDERED, That the salary of assistants, preparatory courses of the Continuation Schools be fixed for the school year ending Aug. 31, 1912, at the rate of two dollars (\$2) for each half-day of actual service.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to appoint assistants in the advanced courses and assistants in the preparatory courses of the Continuation Schools.

EVENING MEETINGS OF GRADUATES OF CONTINUATION SCHOOL CLASSES.

On motion of the Superintendent, it was ORDERED, That the use of a room in the Central Evening Industrial School by the graduates of the shoe and leather classes and of the dry goods classes of

the Continuation School for the purpose of holding bi-monthly meetings of said graduates is hereby authorized, said meetings to be conducted under the supervision of the Principal of the Central Evening Industrial School and without expense to the city for instruction.

AMENDMENTS TO RULES AND REGULATIONS.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows:—

Section 403, paragraph 5. Strike out the paragraph and substitute in place thereof the following:—

5. Pupils seventeen years of age and over may be admitted without examination to the evening industrial schools, provided, they are able to profit by the instruction offered in the studies which they select. In general, it is understood that in order to profit by the instruction offered in a given course, the pupil must be so employed as to have opportunity to practice a calling the same as, or closely allied to the one which he elects to study at the school.

Laid over.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows:—

Sec. 301. Strike out the word "four" in the second line and substitute in place thereof the word seven so that the section shall read:—

Sec. 301. There shall be a director of music, four assistant directors, and seven assistants.

Laid over.

OFFICE ACCOMMODATIONS FOR SUPERVISOR OF LICENSED MINORS, FOR ISSUE OF EMPLOYMENT CERTIFICATES AND MINORS' LICENSES.

On motion of the Superintendent, it was ORDERED, That the Board of Schoolhouse Commissioners is hereby requested to hire suitable quarters, in the vicinity of the School Committee Building, Mason street, if possible, for the accommodation of the Supervisor of Licensed Minors, the physical inspection of applicants for employment certificates and the clerks connected with the issuing of employment certificates and licenses to minors.

RESIGNATION AND APPOINTMENT OF ASSISTANTS, SECRETARY'S OFFICE.

Communications were received from the Secretary, under date of Sept. 2, 1911, reporting the resignation of Margaret E. McDermott, an assistant in his office, to take effect July 31, 1911, and the appointment, subject to the approval of the Board, and with the approval of the Civil Service Commission, of Elizabeth J. Collins, to fill the vacancy, to take effect Sept. 5, 1911.

The communications were placed on file, the resignation accepted, and the appointment approved.

APPOINTMENT OF ASSISTANTS, ACTING AUDITOR'S OFFICE.

Communications were received from the Acting Auditor, under date of July 31, 1911, reporting that George E. Willard, assistant to the Auditor, has been appointed to the Department of Public Works, his last day of service for the School Committee being July 2, 1911, and that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he has appointed Alice E. E. Taylor to fill the vacancy, to take effect Aug. 8, 1911.

The communications were placed on file, and the appointment approved.

ADDITIONAL ASSISTANT, BUSINESS AGENT'S OFFICE.

A communication was received from the Business Agent, under date of Aug. 21, 1911, recommending that the employment of an additional assistant in his office be authorized.

Placed on file.

On motion, it was ORDERED, That the employment of an additional assistant in the office of the Business Agent is hereby authorized.

A communication was received from the Business Agent, under date of Sept. 1, 1911, reporting that subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Mary J. Hennessey as assistant in his office, to take effect Sept. 1, 1911.

Placed on file, and the appointment approved.

RATES FOR TUITION OF NON-RESIDENT PUPILS.

A communication was received from the Business Agent, under date of Sept. 1, 1911, recommending that the State Board of Education be requested to fix the rate for tuition of non-resident pupils in the Evening Industrial School and in the Evening Trade School, for the term 1911-12.

Placed on file.

(Evening Industrial School.)

On motion, it was ORDERED, That the State Board of Education is hereby requested to fix the rate of tuition of non-resident pupils in the Evening Industrial School for the term of 1911-12 at five dollars (\$5) per month.

(Evening Trade School.)

On motion, it was ORDERED, That the State Board of Education is hereby requested to fix the rate of tuition of non-resident pupils in the Evening Trade School for the term of 1911-12 at four dollars (\$4) per month.

APPROPRIATIONS AND EXPENDITURES TO SEPT. 1, 1911.

Communications were received from the Business Agent, under dates of July 1, Aug. 1, and Sept. 1, 1911, respectively, submitting statements showing the appropriations, expenditures and balances of the first six, seven and eight months of the current financial year, the total expenditures, and expenditures for the corresponding months of the financial year 1910-11, with the increases and decreases in the several items.

Placed on file.

JANITORSHIP, LONGFELLOW SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Sept. 5, 1911, submitting a list of applicants for transfer to the janitorship of the Longfellow School-house, and recommending that Carl F. Meyer, janitor of the William Bacon School-house, who stands at the head of the list, be transferred to said position to take effect Sept. 6, 1911.

Placed on file, and the transfer of Carl F. Meyer to said position approved to take effect on the date stated.

JANITORSHIP, WILLIAM BACON SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Sept. 5, 1911, submitting a list of applicants for transfer to the janitorship of the William Bacon School-house, and recommending that James A. Hanlon, janitor of the Hyde School-house, who stands at the head of the list, be transferred to said position, to take effect Sept. 10, 1911.

Placed on file, and the transfer of James A. Hanlon to said position approved, to effect on the date stated.

JANITORSHIP, OAK-SQUARE SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Sept. 5, 1911, stating that the only applicant for transfer to the janitorship of the Oak-Square School-house is Jeremiah Shaw, janitor of the Asa Gray School-house and Portable No. 28, and recommending that he be transferred to said position, to take effect Sept. 6, 1911.

Placed on file, and the transfer of Jeremiah Shaw to said position approved to take effect on the date stated.

JANITORSHIP, JOHN A. ANDREW SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Sept. 5, 1911, submitting a list of applicants for transfer to the janitorship of the John A. Andrew School-house and Portable No. 111, and recommending that Joseph W. Batchelder, janitor of the Atherton School-house, who stands at the head of the list, be transferred to said position, to take effect Sept. 10, 1911.

Laid over.

SUSPENSION OF A JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Sept. 5, 1911, reporting that because of neglect of duty he had suspended Michael Cunningham, janitor of the Skinner School-house, for a period of ten days, to take effect Aug. 29, 1911, and recommending that the matter be referred to the Trial Board for consideration.

Referred to the Trial Board for consideration and report.

LEAVE OF ABSENCE TO JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Sept. 5, 1911, stating that Charles H. Carr, janitor of the Bigelow School-house, has applied for leave of absence for one year on half pay, and recommending that, in view of his long and excellent service, he be granted such leave to take effect Sept. 8, 1911.

Placed on file, and leave of absence granted Charles H. Carr, for one year to take effect Sept. 8, 1911, on one-half of his net compensation, the amount thereof to be determined by the Secretary and the Schoolhouse Custodian.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Sept. 5, 1911, submitting a list of temporary appointments and reappointments of janitors for periods of ten days or less, and amounts due for services, as follows:—

Abby W. May School-house—Edward Sullivan, Jr., reappointed Sept. 1, 1911. Amount due Sept. 1 to 5, inclusive, \$9.02.

Asa Gray School-house—John Madden, appointed Sept. 2, 1911. Amount due for services rendered Sept. 2 to 5, 1911, inclusive, \$8.49.

Elbridge Smith School-house—Ira M. Jacobs, reappointed Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$12.09.

Harvard School-house—Michael Keefe, reappointed Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$8.49.

John A. Andrew School-house and Portable No. 111—Dennis J. Lenehan reappointed Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$18.64.

John L. Motley School-house—William O'Connell reappointed Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$6.76.

Longfellow School-house—Carl F. Meyer, acting janitor. Transfer extended Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$22.78.

Oak-Square School-house—Jeremiah F. Shaw temporarily transferred Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$7.56.

Old East Boston High and Austin School-houses—Henry J. Mahoney reappointed Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$15.76.

Parkman School-house—John J. Holthaus, reappointed Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$9.12.

Sherwin Portables Nos. 18, 58, 79—Hilary J. Johnson reappointed Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$2.96.

Skinner School-house—Patrick McEntire appointed acting janitor, during the suspension of the regular janitor, Aug. 31, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$6.76.

William Bacon School-house—Henry T. Brennan reappointed Sept. 1, 1911. Amount due for services rendered Sept. 1 to 5, 1911, inclusive, \$8.24.

Placed on file, and the reappointments approved.

On motion, it was ORDERED, That for services rendered as acting janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, William Bacon School-house, from Sept. 1 to Sept. 5, 1911, inclusive, eight and 24-100 dollars (\$8.24).

To John J. Holthaus, Parkman School-house, from Sept. 1 to Sept. 5, 1911, inclusive, nine and 12-100 dollars (\$9.12).

To Ira M. Jacobs, Elbridge Smith School-house, from Sept. 1 to Sept. 5, 1911, inclusive, twelve and 9-100 dollars (\$12.09).

To Hilary J. Johnson, Sherwin Portables Nos. 18, 58, and 79, from Sept. 1 to Sept. 5, 1911, inclusive, two and 96-100 dollars (\$2.96).

To Michael Keefe, Harvard Hill School-house, from Sept. 1 to Sept. 5, 1911, inclusive, eight and 49-100 dollars (\$8.49).

To Dennis J. Lenehan, John A. Andrew School-house and Portable No. 111, from Sept. 1 to Sept. 5, 1911, inclusive, eighteen and 64-100 dollars (\$18.64).

To John Madden, Asa Gray School-house, from Sept. 2 to Sept. 5, 1911, inclusive, eight and 49-100 dollars (\$8.49).

To Henry J. Mahoney, Old East Boston High and Austin School-houses, from Sept. 1 to Sept. 5, 1911, inclusive, fifteen and 76-100 dollars (\$15.76).

To Patrick McEntire, Skinner School-house, from Sept. 1 to Sept. 5, 1911, inclusive, six and 76-100 dollars (\$6.76).

To Carl F. Meyer, Longfellow School-house, from Sept. 1 to Sept. 5, 1911, inclusive, twenty-two and 78-100 dollars (\$22.78).

To William O'Connell, John L. Motley School-house, from Sept. 1 to Sept. 5, 1911, inclusive, six and 76-100 dollars (\$6.76).

To Jeremiah F. Shaw, Oak-square School-house, from Sept. 1 to Sept. 5, 1911, inclusive, seven and 56-100 dollars (\$7.56).

To Edward Sullivan, Jr., Abby W. May School-house, from Sept. 1 to Sept. 5, 1911, inclusive, nine and 2-100 dollars (\$9.02).

SUSPENSION OF A JANITOR.

A report was received from the Trial Board to which was referred at the meeting of July 20, 1911, (see p. 98) the matter of the suspension of a janitor by the Schoolhouse Custodian for a period of ten days because of failure to pay his assistant, with instructions to consider the whole record of the janitor concerned, and to report its findings of facts, and recommendations in due course, containing a statement of its investigation of the matter, and recommending that the janitor concerned, namely, Henry T. Allchin, janitor of the Francis Parkman School-house, be suspended for a period of twenty days, taking effect July 18, 1911.

The report was placed on file, and the recommendations contained therein, which had been previously submitted to and approved by each member of the Board and carried into effect, were formally approved.

DEATH OF CHARLES J. LINCOLN.

The Board unanimously directed that the following entry be made upon its minutes:—

RESOLVED, That this Board has learned with sincere regret of the death on Saturday, August 26, 1911, of Charles J. Lincoln, late Head-master of the Dorchester High School.

Mr. Lincoln was born in Weymouth, Mass., April 1, 1844, and was appointed sub-master in the English High School September 11, 1870, and subsequently became junior-master, and then master. In September, 1885, he became principal of the East Boston High School, and was transferred to the same position in the Dorchester High School in September, 1889, his rank being changed to that of Head-master, January 1, 1890. Under Mr. Lincoln's administration, the attendance of the Dorchester High School has grown from less than two hundred to more than fifteen hundred pupils, and it has become one of the largest and most influential high schools in the city.

The importance of the work done by Mr. Lincoln during his long term of service in this school, his increasing responsibilities, the constantly growing multitude of administrative details that he has discharged, are manifest. To this work he brought the ripened faculties of mature age and judgment, absolute devotion, and unceasing personal interest. Efficient, sound, kindly, zealous; these, and other terms might fittingly be used in describing his service. It is difficult, in fact, impossible, to summarize adequately in a few words all that he accomplished for the school system of the city, and particularly for the community in which he labored unceasingly.

The end came quickly and unexpectedly, although Mr. Lincoln's health had been somewhat impaired for a considerable period. He died, as he would have preferred, while still active and in the full exercise of his duties and responsibilities. To his family, the School Committee extends its sincere condolences, and spreads this upon its records as evidence of its appreciation of this faithful schoolmaster.

PROTESTS AGAINST CHILDREN VISITING THE ART MUSEUM.

A communication was received from Lawrence B. Greenwood, Moderator, stating that at a meeting of citizens representing churches of Wards 20 and 24 in Dorchester, held on Aug. 2, 1911, an almost unanimous vote was passed in protest against the custom of taking children from the playgrounds to visit the Art Museum; also a communication from Henry L. Shaw, President, and Edith M. Northrop, Secretary, of the School Protective League of Boston, to the same effect.

Placed on file.

NAMING OF NEW SCHOOL-HOUSE.

The following was offered:—
ORDERED, That the new elementary school building, upper grades, in the Phillips Brooks District, at the corner of Dacia, Danube and Brookford streets, be named the John Winthrop School.

Laid over.

VACANCY IN THE TRUANT OFFICER FORCE.

On motion, the Secretary was directed to make application to the Civil Service Commission for the certification of names of candidates eligible for appointment to a vacancy in the truant officer force.

SPECIAL ELECTIVE COURSES IN COMMERCIAL SUBJECTS, NORMAL SCHOOL.

On motion, it was ORDERED, That the Board of Superintendents be directed to submit to this Board at as early a date as possible a detailed plan, with estimates of cost, for an experimental introduction of special elective courses in commercial subjects in the Normal School as previously requested at the meeting of June 19, 1911.

ADJOURNMENT.

The Board adjourned at 5.46 o'clock P. M.
Attest:

THORNTON D. APOLLONIO,

Secretary.

VENTILATION AND EFFICIENCY.

In the new study of efficiency the matter of ventilation and proper sanitary conditions in factories plays an important part. Experiments show that the noxious effects of carbon-dioxide or used up air increases with the increase of temperature, and work rooms are usually overheated. By a systematic care of the ventilation of its work rooms the Pension Department at Washington reduced its annual sickness absences from 18,736 to 10,114. The effect of bad air is to make workers sluggish, sleepy and depressed. Pure air means better work and more work.

DEPTH OF CONCRETE UNDERPAVING.

Samuel Whinery, a New York paving expert, who was employed by the Chicago Commission on Expenditures to report on the paving work done in the latter city, comments on the custom, which, he says, prevails quite generally throughout the country, of using the same depth of concrete under asphalt on all streets, irrespective of the character of the traffic they would be called upon to bear. He says that for heavy freighting eight inches of concrete is desirable, whereas in residence districts four inches is sufficient.

PROCEEDINGS OF CITY COUNCIL.

Monday, September 11, 1911.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President COLLINS in the chair. Absent—Coun. Hale.

The Council voted, on motion of Coun. AT-TRIDGE, that the reading of the records of the last meeting be dispensed with.

HEARING AT TWO O'CLOCK.

1. On application of the directors of the association for the formation of the Boston & Eastern Electric Railroad Company asking that the route of said railroad within the limits of the City of Boston be fixed as shown on plan accompanying said application.

A number of people appeared for and against the application. Those appearing against it were mainly East Boston residents, who did not object to the granting of the application, but who wished it understood that there should be three or more stations established in East Boston. The East Boston people so appearing were Ex-Alderman Thomas J. Giblin, William T. Carlisle, Fred G. Trask, D. C. Trainor, George B. James, representing the East Boston Land Company, Ex-Representative Bernard F. Hanrahan and Representatives Brophy and Prendergast. While some of the speakers announced preferences for the location of stations, they did not think that their opinions should necessarily be binding, but that the matter should be left to the proper authorities—it being understood, however, that there should be three or four stations in East Boston. A vote of the East Boston representatives taken on the matter first showed twenty-two in favor of three stations and three (Messrs. Hanrahan, Brophy and Prendergast) in favor of four; and a second vote was unanimous in favor of four stations.

Some question was raised by Coun. Smith as to whether the people of East Boston were not paying an undue share of the expense of travel in the tunnel as compared with the amount to be paid by people in other cities and towns, but Mr. John H. Bickford, representing the company as an engineer, stated that he had tried to arrive at figures that would be fair to all portions of the community and would at the same time give a fair return to the road.

Judge Edward L. Logan represented the company and stated briefly the reasons for the application, as set forth under the terms of the statutes, and he called upon Mr. Bickford to make a statement as to the proposed route. Mr. Bickford did so, as follows:

The tracks are supposed to start a little southeasterly of the line of Congress street, where it enters Post Office square, being a subway at that point, and continuing in a subway under Liberty square and Water street under private property, between Broad street and India square, under India square to Central street and under Central street, crossing under Atlantic avenue; then under a portion of Central Wharf to the harbor, and under the harbor to a point northwesterly of land which was originally occupied by the Boston & Maine Railroad, or, we will say, a little south of the South Ferry, coming under a portion of the slip that is there,—under a portion of the land itself; then crossing under Marginal street, under Webster street, under Sumner street, under Maverick street, going intermediate between those streets under some private property crossing under the right of way of the Boston & Albany Railroad, continuing to a point where the tunnel emerges, which is about at Decatur street, and then continuing across under Porter street, and then on to the unoccupied land that there is there in East Boston, parallel to Orleans street,—about 250 feet southerly of Orleans street,—continuing parallel until we get to Neptune road, or avenue, whichever it is called,—going under Neptune road, and then through private property between that and Bennington street; then under Bennington street and through private property between that and Saratoga street, and then under Saratoga street and under private property between Saratoga street and Pope street; then under Pope street and through private property under Curtis street; and then through private property southerly of the old right of way of the Boston & Maine Railroad to Breed's Island, crossing the Boston & Maine Railroad property at Breed's Island. That is substantially the route in Boston.

Mr. Charles A. Williams, representing himself as a property owner, raised a question as to whether the tunnel would go under certain property. Judge Logan said that that was a matter that would be settled under the wording of the Acts.

Coun. CURLEY—Will the width of the tunnel exceed the width of the street along this portion that the gentleman refers to,—the width that is asked for by the company?

Mr. LOGAN—That is an engineering question.

Coun. CURLEY—No matter what kind of a question it is, I would like an answer to it.

Mr. BICKFORD—With the exception of under Water street just east of India square, to Congress street, it would not be wider than the street. From that point to Congress street it is wider than Water street, for the reason that we have got to have ample room for a subway station, with exits and entrances. And I have no objection to saying now

for Mr. Williams that it would be necessary to take an easement under some property on the southerly side of Water street.

President COLLINS—Are you able to describe specifically just what property and how much?

Mr. BICKFORD—It is not given here on the plans in detail. I would not at this moment.

Mr. Robert Homans thought that under the statutes the City Council had no control over the location of the subway, but merely on the route above ground, and Judge Logan said he thought that was so.

After some questions by Coun. Attridge as to the probable desirable locations for stations in East Boston, upon which there seemed to be a slight difference of opinion, the President announced that the matter would be taken under advisement, and later in the meeting it was taken up and referred to the Executive Committee.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1894, viz.:

Thirty-five traverse jurors, Superior Civil Court, First Session, October Sitting, to appear October 2, 1911:

Michael F. O'Brien, Ward 9; William A. Murtfeldt, Ward 16; Daniel L. Carroll, Ward 13; William Wilson, Ward 20; Patrick F. O'Brien, Ward 14; Benjamin Edwards, Ward 16; James W. Linehan, Ward 16; William E. Gilman, Ward 20; Butler T. Emery, Ward 24; John P. Kelley, Ward 17; John T. White, Ward 10; Edward H. Kearney, Ward 6; Sidney F. Squires, Ward 10; Thornton F. Stone, Ward 20; Joseph Daly, Ward 22; Jeremiah McCarthy, Ward 3; Oscar F. Weden, Ward 22; Patrick Carr, Ward 11; John C. Rasch, Ward 23; Arthur L. Sanborn, Ward 16; Richard McNally, Ward 5; Alexander D. Remick, Ward 11; Charles P. Brackett, Ward 24; Walter H. Stafford, Ward 1; William M. Ryan, Ward 3; Mark W. Little, Ward 21; Charles W. Johnson, Ward 18; Herman M. Rich, Ward 20; Albert A. Stewart, Ward 15; Silas M. Stevens, Ward 1; Lawrence S. Dewey, Ward 21; James Lewis, Ward 14; John J. Buckley, Ward 24; Jacob W. Miller, Ward 20; William J. Powers, Ward 2.

Thirty-five traverse jurors, Superior Civil Court, Second Session, October Sitting, to appear October 2, 1911:

James G. Langdon, Ward 22; John Shanahan, Ward 5; Pierce Powers, Ward 16; Gustav A. Quiring, Ward 10; William G. Newman, Ward 23; William Slater, Ward 21; Joseph Cavanaugh, Ward 8; Frank I. Hanson, Ward 15; James S. Flynn, Ward 1; Charles A. Richardson, Ward 20; Benjamin W. Young, Ward 23; George A. Magee, Ward 1; William G. Adams, Ward 15; James F. Horne, Ward 7; George W. Yeaton, Ward 20; Theophilus Phillips, Ward 22; Francis M. Edwards, Ward 20; Sam P. Negus, Ward 11; Daniel McCarter, Ward 2; Jeremiah T. Murphy, Ward 15; J. Emmons Cotter, Ward 22; Daniel J. Maher, Ward 13; Richard Connors, Ward 21; John M. Larkin, Ward 18; Edward J. Sheehan, Ward 24; John J. McCarthy, Ward 3; George F. Schayer, Ward 19; Michael J. Condon, Ward 13; Frank A. Woodbury, Ward 2; Joseph Vey, Ward 13; Frank Burns, Ward 19; Ralph E. Gray, Ward 19; Walter L. Carey, Ward 18; Andrew F. Pendergast, Ward 21; James F. Nolan, Ward 19.

Thirty-five traverse jurors, Superior Civil Court, Third Session, October Sitting, to appear October 2, 1911:

Cornelius J. Donahue, Ward 2; Charles F. Spargo, Ward 24; John J. Reilly, Ward 16; W. Russell Crump, Ward 24; Patrick Quigley, Ward 4; Harry H. Peck, Ward 12; Frederick E. Cotter, Ward 2; George F. Amory, Ward 19; Ambrose S. Dowling, Ward 16; William J. Doherty, Ward 16; Andrew C. Reggio, Ward 11; Howard J. Clark, Ward 23; William Grant James, Ward 11; Bernard A. McGinty, Ward 25; Henry P. Nickerson, Ward 9; Joseph E. McAllister, Ward 22; John Boyce, Ward 1; James Dempsey, Ward 24; Patrick J. Donovan, Ward 3; James H. Kelly, Ward 22; George C. Kingsbury, Ward 20; Wilbur S. Rich, Ward 15; Samuel Davis, Ward 20; Walter H. Grose, Ward 21; Bernard J. Malone, Ward 4; John R. Barrett, Ward 14; Frederick W. Fogg, Ward 16; Michael D. Martin, Ward 15; Samuel M. Norton, Ward 7; Edward A. Page, Ward 12; Walter V. Batson, Ward 25; Christian Weigold, Ward 22; Samuel F. Hardy, Ward 20; Thomas P. Cumins, Ward 25; Howard G. Salisbury, Ward 20.

Thirty-five traverse jurors, Superior Civil Court, Fourth Session, October Sitting, to appear October 2, 1911:

Harry L. Abbott, Ward 15; Harry L. Raymond, Ward 18; David W. Benjamin, Ward 25; Horace Weener, Ward 19; James H. L. Clegg, Ward 17; Ulmer H. Manning, Ward 7; Dennis R. Donovan, Ward 1; Charles A. Stearns, Ward 25; George E. Manton, Ward 16; John B. Murphy, Ward 11; John I. Whelan, Ward 1; D. Lloyd Evans, Ward 12; Rubin Levine, Ward 9; Louis Jacobowitz, Ward 8; George A. Warren, Ward 23; Richard H. Robinson, Ward 23; Washington B. Thomas, Ward 11; John J. Walsh, Ward 15; Gorham L. Damon, Ward 14; Martin F. McDonnell, Ward 12; Winfield S. Reid, Ward 23; James C. Sullivan, Ward 14; Patrick H. Brennan, Ward 13; Timothy W. Condon, Ward 13; Walter C. Blodgett, Ward 17; Joseph H. Murphy, Ward 14; William J. Loughan, Ward 23; Guy M. Lincoln, Ward 10; Jeremiah J. Curtis, Ward 15;

Joseph F. Woods, Ward 11; Lawrence McCarthy, Ward 15; Michael J. Bonner, Ward 6; Frank J. Purchase, Ward 1; John Hegarty, Ward 18; Herbert G. Wilbur, Ward 16.

Thirty-five traverse jurors, Superior Civil Court, Fifth Session, October Sitting, to appear October 2, 1911:

Isaac Park, Ward 20; Jeremiah J. Callahan, Ward 20; Herbert V. Mitchell, Ward 21; Daniel S. O'Brien, Ward 16; Henry Erath, Ward 23; Henry G. Muller, Ward 18; Clarence J. Morrissey, Ward 16; Charles O. Danforth, Ward 24; Herman Popp, Ward 22; Peter Bogan, Ward 4; Edward S. Haskell, Ward 1; William L. Rowan, Ward 13; Charles Harris Furber, Ward 16; James F. Ryan, Ward 13; Vincent Brow, Ward 24; Asa H. Morrill, Ward 20; Charles H. Stone, Ward 10; William H. Mills, Ward 11; Rowland G. Evans, Ward 12; Eugene H. Gordon, Ward 20; Dickram M. Shoshanian, Ward 12; Fred H. King, Ward 25; William H. Kingsbury, Ward 22; Frank P. Walker, Ward 21; John P. Morrison, Ward 1; Thomas F. Garrity, Ward 6; Augustus G. Benersani, Ward 23; Frederick J. Young, Ward 9; Oscar S. Staples, Ward 24; John J. O'Shea, Ward 11; Frederick S. Crouse, Ward 24; John H. Flood, Ward 23; W. Lester Jones, Ward 17; Michael Calnan, Ward 13.

REMOVAL OF REFUSE, ETC.

The following was received:

City of Boston,
Office of the Mayor, September 11, 1911.
To the City Council:

The Commissioner of Public Works has submitted to me to-day the appended draft of ordinance relative to the refuse matter which the Public Works Department shall remove from yards and areas, with the recommendation that I transmit the same to your honorable body for action. This draft of ordinance amends chapter 9 of the Ordinances for 1910, as amended by chapter 1 of the Ordinances of 1911, and is a subject which should receive the careful consideration of your honorable body.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Works Department, September 11, 1911.
To the Honorable the Mayor:

Inclosed find proposed draft of ordinance, prepared by the Corporation Counsel, defining with some degree of particularity the refuse matter to be removed by the Public Works Department. If you approve of this ordinance, I would suggest that it be transmitted to the City Council for action.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

City of Boston.
In the Year Nineteen Hundred and Eleven.
An Ordinance.

Be it ordained by the City Council of Boston, as follows:

Section one of chapter nine of the Ordinances of 1910 as amended by chapter one of the Ordinances of 1911 is hereby further amended by striking out after the word "watered" in the twelfth line the following: "shall remove from yards and areas when so placed as to be easily removed, all ashes accumulated from burning of materials for heating habitations, cooking and other domestic purposes, house dirt, house offal, and all noxious and refuse substances; and shall, when requested by the proprietors or managers thereof, remove empty boxes, packages, packing and other store refuse from shops, stores and warehouses at the reasonable cost of such removal," and inserting in place thereof the following: "shall remove and dispose of the following classes of refuse from dwelling houses and from housekeeping apartments or tenements, when the same is placed in yards or areas so as to be easily removed, free of charge to the producers of such refuse and to the owners and occupants of such dwelling houses, apartments and tenements, viz.: swill and kitchen garbage, dust and sweepings, ashes from fires used wholly or principally for heating or cooking, waste paper, cardboard, string, packing material, sticks, rags, waste leather and rubber, boxes, barrels, broken furniture and other similar light or combustible refuse; tins, bottles, jars, broken glass, broken crockery, bones, shells, waste or broken metals and all other similar heavy or incombustible refuse. But the department shall not so take any such refuse from hotels, apartment hotels, restaurants, shops, stores, nor from any other building whatever except those first hereinbefore enumerated and except buildings occupied by the city. The department shall not so take the refuse of manufacturing or mercantile business, nor dead animals, manure, grass, garden refuse, leaves, plaster, building materials, earth or stones except from premises occupied by the city, but the department shall take and dispose of any refuse upon payment by the producer thereof to the city of such compensation as the commissioner of public works shall from time to time prescribe," so that said section, as amended, shall read as follows:

Section 1. The department of public works which is hereby established shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession; who shall construct all streets and

sewers; shall have discretionary power as to the grades, materials and other particulars of construction of streets, sidewalks and sewers; shall have charge of and keep clean and in good condition and repair the streets, all sewer systems under the control of the city and the catch-basins in the streets connected with the sewers; shall keep the streets properly watered; shall remove and dispose of the following classes of refuse from dwelling houses and from housekeeping apartments or tenements, when the same is placed in yards or areas so as to be easily removed, free of charge to the producers of such refuse and to the owners and occupants of such dwelling houses, apartments and tenements, viz.: swill and kitchen garbage, dust and sweepings, ashes from fires used wholly or principally for heating or cooking, waste paper, cardboard, string, packing material, sticks, rags, waste leather and rubber, boxes, barrels, broken furniture and other similar light or combustible refuse; tins, bottles, jars, broken glass, broken crockery, bones, shells, waste or broken metals and all other similar heavy or incombustible refuse. But the department shall not so take any such refuse from hotels, apartment hotels, restaurants, shops, stores, nor from any other building whatever except those first hereinbefore enumerated and except buildings occupied by the city. The department shall not so take the refuse of manufacturing or mercantile business, nor dead animals, manure, grass, garden refuse, leaves, plaster, building materials, earth or stones except from premises occupied by the city, but the department shall take and dispose of any refuse upon payment by the producer thereof to the city of such compensation as the commissioner of public works shall from time to time prescribe, all moneys so received to be used in paying the expenses incurred by the department in said removal; shall, on the fifteenth day of each month, send to the city auditor detailed bills of all material, tools and machinery furnished by either of the divisions of said department to any other such division or for any special work.

Referred to the Committee on Ordinances.

NEW HEALTH BOAT.

The following was received:

City of Boston,
Office of the Mayor, September 11, 1911.
To the City Council:

I transmit herewith a report made to me by Mr. James Donald, naval architect, upon the condition of the steamer "Vigilant." An order transferring \$48,000 from the Reserve Fund to a special appropriation to be expended in constructing a new boat to take the place of the "Vigilant" is now pending before your Executive Committee and in view of the importance of this matter I recommend the speedy passage of this order.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Works Department,
August 28, 1911.

To the Honorable the Mayor:

In regard to the steamer "Vigilant," I send herewith a report of James Donald, naval architect, relative to the same; also a communication from Division Engineer Fay.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

City of Boston,
Public Works Department,
Bridge and Ferry Division, August 26, 1911.
Mr. L. K. Rourke,

Commissioner of Public Works:

Dear Sir,—Having been requested by Mr. William A. Leahy, Mayor's Secretary, to engage a competent naval architect to make an examination and report upon the Health Department steamer "Vigilant," I have been able to secure the services of Mr. James Donald, who, after examination of the boat, has made a report, which I forward herewith.

Mr. Donald is in consulting practice as naval architect at 17 Victoria street, Westminster, London, England. At present he is at the Fore River Shipbuilding Company's plant at Quincy, as representative of the New York Shipbuilding Company, in connection with the building of the two Argentine battleships. Prior to his engaging in consulting practice in London he was for a number of years the naval architect of the New York Shipbuilding Company of Camden, N. J., one of the largest of the American shipyards; and he has also had several years experience as naval architect of both wooden and steel ships on the Pacific Coast.

Mr. Donald has a wide professional experience covering a period of about twenty-five years, and I believe the city is fortunate in being able to secure the services of this expert.

Respectfully,
FREDERIC H. FAY,
Division Engineer.

James Donald, Naval Architect,
66 Chestnut Street, Boston, Mass.,
August 25, 1911.

("Vigilant.")

Hon. John F. Fitzgerald,
Mayor of Boston:

Sir,—Please find herewith report on condition

of steamer "Vigilant," and recommendations in connection with the same.

Yours respectfully,
JAMES DONALD.

[COPY.]

James Donald,
Naval Architect,
Boston, Mass., August 25, 1911.

SCREW STEAMER "VIGILANT."

This vessel is employed in Boston Harbor for the Quarantine Department:

Inspection.

Vessel was inspected by J. Donald on the 21st and 22d of August, 1911, at Long Wharf, Boston, on trip to meet S. S. "Winifredian" and return, and at Atlantic Works, East Boston.

Hull.

Outside planking on starboard side, about 2 feet below upper rubbing piece, and close to stem, a piece was removed and the remainder of the plank removed was found to be decayed and could be taken off with one's fingers. The timbers or frames were found to be rotten and could be all removed without using any workman's tools.

Outside planking on starboard side, immediately below the upper rubbing piece, and about 3 feet below, forward of deck house, a piece was removed uncovering two timbers or frames. Planking was found to be in moderate condition. One frame exposed was completely rotten and crumbled when touched; the other frame in good condition, but showed beginning of decay.

Outside planking on starboard side, two strikes below upper rubbing piece, and about 5 feet from after end of counter, a piece was removed. The planking was found to be in moderate condition, the timbers or frames were found to be soft and rotten and could be removed by hand without the use of tools. In the lazarette abaft the engine room on the port side a piece of inside ceiling was removed. The frames were in good condition but there were signs of leaking as the inside of outside planking was wet.

Bulwarks.

The bulwarks amidships show considerable working, openings appearing at the butts and in deck covering board when vessel touches the wharf or any other vessel slightly. This happens in way of engine and boiler room where there are no through deck beams. Round the stern the bulwarks have evidently been repaired and fastened to the old deck covering board and no knees or brackets fitted. If the bulwarks at this part come in contact with a dock or a vessel in a seaway, the whole bulwark here is liable to be entirely moved from position.

Deck planking is in very bad condition and requires renewing. The deck amidships, abreast boiler room, has sunk about 3 inches or the amount of the camber; this is undoubtedly owing to the want of support at opening for machinery. Beams at this part show considerable working at deck house coaming. All beams, except three, are bolted to covering board without knees.

Deck house deck coaming is in bad condition, and has only a depth of 1 inch at doorways instead of about 4 inches, so as to prevent any water washing on deck and entering the various rooms in the deck house.

Towing bitts aft require to be strengthened if towing is ever contemplated.

Engine and Boiler Rooms.

Engine and condenser were built twenty-five years ago and require overhauling, especially the condenser at the joints. Piping requires renewing in some places. To make a good repair the deck and deckhouse would require to be opened up so as to get at the condenser.

In way of the water tanks on the lower side, the inside sheathing is very rotten and has a plate covering fitted. The water tanks have never been moved from their original position (twenty-five years ago) and it is very certain that the unexposed woodwork at back of tanks is rotten, owing to lack of air and attention. The tanks are rusted through.

The shaft log across after end of engine room is rotten in way of shafting and should be removed, and if this is done very great expense would be incurred.

The boiler is twelve years old and is now too close to the wood bulkheads, according to the latest regulations. There is great liability to fire through the proximity to woodwork. It was not possible to examine the woodwork underneath the boiler, but there is no doubt that considerable decay would be found owing to the water that drains to this part and the great heat from the boiler.

The steel sheathing inside the coal bunkers requires renewal.

Boilers require patching and stay bolts examined and repaired.

Accommodation.

There are below the deck, forward of the machinery, two rooms—the forward one being occupied by the captain. The clear headroom or distance from top of deck to underside of beams is 5 feet 9 inches; this, as in all rooms, should not be less than 7 feet. According to the United States Navigation Law, 2d of March, 1895, each member of

the crew should have 12 square feet clear deck space or 72 cubic feet, and their quarters should be properly lighted, drained and ventilated, under penalty of a fine. It is true that this does not legally apply to this vessel as she was built prior to the passing of this law, but surely the City of Boston would see to it that their employees who make their home on the vessel should be cared for according to the latest practice.

The United States Navigation Law as regards steerage passengers calls for 21 square feet of clear deck area and if the light and air to their quarters is less than 3 square feet for every 100 square feet of clear deck area, then every steerage passenger is required to have 30 square feet of clear deck area.

In the room on the "Vigilant" for the captain, the clear deck area is 14 square feet, and the cubical capacity is 77 cubic feet. This room is, therefore, slightly larger than that required by law but it is not properly lighted and ventilated as required by law, as there are only two 4-inch diameter fixed sidelights and two small fixed deck lights; the iron deck scuttle that has been fitted is useless as it would be dangerous to have an uncovered opening on deck—any one being liable to step into same and also because of the rain or sea water washing over into the room. It is only of use as an exit in case of emergency. It therefore is reasonable to apply the steerage passenger requirement of 30 square feet clear deck area and this the present room is far short of.

In the room located between the captain's room and the machinery there are three persons. The headroom here is also too small, being only 5 feet 6 inches in the clear. The deck room in this room is 15 square feet per person and the same objection arises as in the captain's room, as the only ventilation is through the hatch for exit and this opens into the dining room on the deck above and has no direct ventilation owing to the galley stove and the doors in the dining room.

On the port side, immediately before the machinery, there is a room for one member of the crew with no ventilation whatever. The clear deck area is only 10.25 square feet and the capacity 56.37 cubic feet against the lawful requirement of 12 square feet and 72 cubic feet. There is no side-light to this room and light is obtained through one small deck light.

The sleeping births in all above rooms are too close to the beams—in one case being only 12 inches clear from top of bed to underside of beams.

Abaft the engine room there is a lazarette where two men are expected to sleep. It would be more truthfully called a store room. The clear headroom of this place is 4 feet 9 inches and each man has 9 square feet or 42.75 cubic feet instead of the legal 12 square feet and 72 cubic feet. The ventilation is through a flash scuttle.

The ventilation of these rooms was recorded and the temperature of the forward rooms was actually 86 degrees Fahrenheit, while the outside temperature was 78 degrees Fahrenheit.

The temperature of the engine room was at the same time 117½ degrees Fahrenheit.

From the above actual conditions it is clearly seen that the living quarters for the seven members of the crew are altogether inadequate and not conducive to the health or efficiency of the men.

It was noted that the bulkhead between the fire-room and the forward accommodation had a door in it. This tended to increase the temperature in the forward living quarters and there was no door in the bulkhead between the engine room and the lazarette, making the latter unbearable for living in.

Safety.

The forward bulkhead is the only solid bulkhead in the vessel as there is a non-watertight door in the amidship one and an opening in the after one. In the event of the hull being pierced, through collision or otherwise, at any part abaft the forward bulkhead the vessel would fill up and certainly sink.

The freeboard of the vessel or the distance from the top of the deck to the water is only 15 inches when the vessel has her crew on board and two tons of coal. With her full complement of 100 passengers, crew, and full load of coal in bunkers, this freeboard would be reduced to about 9 inches. With the vessel loaded and in a light sea the waves would flood the deck through the deck scuppers. As the coal scuttles are located at the lowest depth of the vessel and, therefore, nearest the water, and as they are practically flush with the deck, the water is liable to find its way into the coal bunkers and cause sinking of the vessel. The question of the freeboard of this vessel is a serious one and unless great care is taken, serious trouble will happen.

Service Engaged In.

There is a cabin at the after end of the deck house for the transport of sick people and is not suitably fitted for same. An independent room should be arranged as a dispensary and doctors' office.

Reasons for Replacing "Vigilant."

Very bad structural condition.

Continual expensive repairs needed to hull and machinery. It would not be advisable to try and put this vessel into good condition, because as the framing and topsides were opened up and repaired, more deterioration would be found. The deck would require to be taken out and renewed to get at the machinery. In fact, the complete upper works would require to be opened up and more expense caused than the value of the vessel; at

the same time the vessel would not be improved as regards accommodation or safety.

Obsolete and uninhabitable accommodation for crew.

Danger from want of efficient bulkheads.

Danger from freeboard.

Unsuitability for quarantine service.

Recommendations.

This vessel should be replaced by an up-to-date vessel of larger dimensions. The depth should be sufficient to give a minimum freeboard of 2 feet; this together with a good sheer would insure sufficient headroom for the sleeping quarters below. The captain's room could be located abaft the wheelhouse on the top of the deckhouse, and the remainder of the quarters are located forward below.

Three solid bulkheads should be fitted.

The ventilation should be carefully arranged by means of cowl ventilators, and the machinery space should have good headroom in the deckhouse with large skylight and large windows to open on sides of deckhouse.

In the after end of deckhouse there should be a large room fitted with cots for patients; also a combined dispensary and doctors' office with long sofa, and a toilet.

JAMES DONALD.

Referred to the Executive Committee.

CONDITIONS AT CITY HOSPITAL.

The following was received:

City of Boston,

Office of the Mayor, September 11, 1911.
To the City Council:

I transmit herewith a communication from the president of the Board of Trustees of the City Hospital, outlining the conditions prevailing at the South Department of the Hospital. I have already transmitted to your body two communications covering this same subject and there is now pending before your Committee on Finance a draft of loan order appropriating two hundred ninety-seven thousand eight hundred dollars (\$297,800).

This is a matter which should receive the earnest attention of your honorable body and I trust that the consideration of it will not be further delayed.

Respectfully,

JOHN F. FITZGERALD, Mayor.

The Boston City Hospital,
Boston, September 7, 1911.

Hon. John F. Fitzgerald,

Mayor of Boston:

Dear Sir,—At the meeting of the Board of Trustees held on Thursday, the 24th ult., the question of the urgent need of the enlargement of the South Department was again considered, and the president was requested to address his Honor the Mayor on the subject. May I therefore say that while this need has been made so manifest by the trustees in various communications, I beg to further indicate the necessity for prompt action to relieve the pressure from these contagious wards.

The wards are practically overcrowded every winter, and even then all the cases are not accommodated as previously explained. This means poor air, which is very unfavorable in the acute infectious diseases, close contact of too many children and great effect on cross infection, and difficulty in securing proper care of the patients.

The hospital has been lately publicly criticised for want of better facilities in this direction. There is no room available when an epidemic occurs, so that delay, inconvenience and expense are occasioned before the cases are cared for, with increased danger to the public.

The isolation facilities are very deficient and insufficient. Mixed cases are common, scarlet fever and measles or measles and whooping cough and any combination of two or more infectious diseases, and these cannot be as well cared for with safety as they should be. In doubtful cases, such as occur where the diagnosis can be made only after watching the course for a time, no proper facilities are available in Boston. These cases are not infrequently housemaids, men servants, waitresses and others who have no home here and no friends, and are so situated as to be a source of danger to others, as well as suffering for lack of proper care themselves.

The old wards also need certain alterations, with a view to improving the hospital work of infectious disease treatment. Open air wards, gown rooms, and better washing facilities for the hands are needed so as to avoid carrying disease from one ward to another. With the exception of adding room for measles, which your Honor recommended under your former administration, no important change has been made in the South Department since it was built, nearly sixteen years ago. The trustees desire most earnestly, therefore, to again call your Honor's attention and that of the Honorable City Council to the immediate great need of additional accommodations for this most important branch of the City Hospital which is so necessary for safeguarding the public health, and again urgently request an early consideration of the loan appropriation asked for in letter of June 9, addressed to your Honor, of which I inclose herewith a copy.

I have the honor to remain, on behalf of the trustees,

Very respectfully yours,

A. SHUMAN,
President Board of Trustees.

Boston, June 9, 1911.

Hon. John F. Fitzgerald,

Mayor of the City of Boston, and the Honorable City Council:

Gentlemen,—On December 2, 1910, I addressed a communication to your Honor (of which the inclosed is a copy) setting forth the increasing need of greater accommodations for the South Department, and asking for an appropriation of \$297,800 for new buildings, changes and additions as itemized therein, to which I again respectfully refer. Since that time the demand for accommodations for the care of patients ill with infectious diseases has been constantly increasing, and we have reached a point where this department is practically filled to its utmost capacity, and further accommodations are immediately needed.

If we compare foreign cities with Boston, we shall find that in London, in Glasgow, and in continental cities, there are accommodations for patients ill with infectious diseases, giving each patient 1,500 cubic feet of air space for nine out of every 10,000 of the population. In Boston there are accommodations for only three out of every 10,000 of the population. The importance of this air space cannot be overestimated. The number of cases of cross infection is very much increased when a hospital is crowded. Aside from that, patients with limited space do not do as well as where they have an abundant supply of air space. Additional accommodations are therefore greatly needed for the care of scarlet fever patients.

Anyone familiar with the history of infectious diseases in Boston for the past fifteen years must be convinced of the wonderful amount of good accomplished by the South Department during that time. For example, the death rate at the Boston City Hospital previous to the days of antitoxin, for cases of laryngeal diphtheria, was about 85 per cent.

In all cases of diphtheria the percentage of mortality from 1895 to 1909 has been 10.70, as compared with 43.20 before the opening of the South Department. In 1894 eighteen people out of every 10,000 in Boston died from diphtheria; in 1910, two and a fraction.

It is well to bear in mind that the average ratio of mortality per 10,000 of the population in Boston from scarlet fever previous to the opening of the South Department was 2.87. The average ratio of mortality from 1895 to 1909, inclusive, was 1.61, a diminution of nearly one-half. If every patient who applied for treatment could have been promptly taken into the hospital, the ratio of mortality and ratio of morbidity would have been very much reduced.

In the new building at the South Department it is intended to have a roof garden, in order that the children may have the benefit of open air treatment. It is also intended to have open air wards in the buildings already erected, which is covered by the items referring to changes in East and West Pavilions.

The accommodations for laundry work at the South Department must be increased, and therefore an additional story must be added to the laundry building, as the laundry, being of an infectious nature, must be done on the premises.

The alterations to the Paine buildings, the connecting corridors, pipes and tunnels, and the yard wall, are all items that become necessary with the additional buildings and enlargements.

A second and very important reason why additional buildings should be erected is the fact that the accommodations for nurses are inadequate. It is also important that there should be separate dining rooms for nurses who have the care of the different infectious diseases. In foreign hospitals, and in the new hospital just erected in Philadelphia, these provisions have been made.

The treatment of infectious diseases is not a charity, in the common acceptance of the word, but it is an element of public safety, and it is as much demanded by the public as a Fire Department or a Police Department. It is a disgrace to any municipality to have an epidemic of an infectious disease. Boston should be able to control any epidemic of the three principal infectious diseases, namely, diphtheria, scarlet fever and measles.

Within the past two or three years the City of Boston has paid to other hospitals for the treatment of patients ill with infectious diseases about \$33,000. The average price of board at these hospitals is about \$10 a week, whereas at the South Department the past year, deducting money received from paying patients and from cities and towns, it has been \$3.94.

In conclusion, the trustees, realizing the great responsibilities that rest upon them and upon the city government, most earnestly call the attention of your Honor and the Honorable City Council to the crying need of these new buildings, and urgently request the earliest consideration of this loan appropriation.

I have the honor to remain, on behalf of the trustees,

Very respectfully yours,

A. SHUMAN,
President Board of Trustees.

The Boston City Hospital,
Boston, December 2, 1910.

Hon. John F. Fitzgerald,

Mayor of Boston:

Dear Sir,—At a meeting of the Board of Trustees to-day the matter of an appropriation for the

construction of buildings on the ground lately purchased from the Robert Treat Paine estate was considered.

The constant increase in the population of the City of Boston necessarily increases the number of infectious diseases. During the past three years the city has suffered so much from these vexatious diseases that the South Department has been overcrowded for a portion of each year. Its normal capacity is 250 patients, but the stress has been so great that at times this number has been increased to 400 to the detriment of the welfare of the patients. In addition to this the city has been obliged to board out a great many patients at the Haynes Hospital and other institutions during the time mentioned, which is not only detrimental to the public health, but adds materially to the expense of caring for the patients over the cost to the hospital management within its sphere.

It is therefore of the utmost importance that adequate provision should be made for the treatment of this class of diseases, and to properly take care of all applicants ill with diphtheria, scarlet fever and measles.

It is a source of satisfaction to the trustees that Boston was the first city to establish a separate hospital for infectious diseases. Your Honor may possibly remember that about three years ago, during your former administration, an appeal was made to you for a measles pavilion. You generously and with a full appreciation of the importance of this ward recommended the necessary sum for its erection. This measles pavilion has accomplished a great deal of good and has filled a long felt want, for until its erection there was no place to send a patient ill with measles.

The trustees feel, therefore, that your Honor, as well as the Honorable City Council, will recognize the importance of enlarging the accommodations at the South Department at the earliest possible moment. After carefully considering the matter, and going over several plans that have been submitted for their inspection, the trustees most respectfully ask your Honor to recommend a loan appropriation of \$297,800 for new buildings, changes and additions at the South Department, approximated as follows:

Changes in east pavilion.....	\$6,000 00
Changes in west pavilion.....	6,000 00
Additional story to laundry building...	14,800 00
New six story ward building.....	196,000 00
Alterations to Paine buildings.....	33,000 00
Connecting corridors, and pipes and tunnels.....	20,000 00
Yard wall.....	8,000 00
Contingent and administrative expenses.....	14,000 00
	\$297,800 00

The trustees, fully appreciating your Honor's great interest in the hospital, and your cooperation for the welfare and alleviation of the sick, and especially for those unfortunately stricken with contagion, ask you kindly to recommend to the Honorable Council the appropriation of the above mentioned sum.

I have the honor to remain, on behalf of the trustees,

Respectfully yours,

A. SHUMAN,
President Board of Trustees.

Referred to the Committee on Finance.

COST OF LIBRARY BUILDING, EAST BOSTON.

The following was received:

City of Boston,

Office of the Mayor, September 11, 1911.
To the City Council:

I transmit herewith a communication from the Superintendent of Public Buildings, containing a reply to your order requesting an estimate of the cost of the proposed library building in East Boston.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Office of Public Buildings Department,
September 9, 1911.

Hon. John F. Fitzgerald,

Mayor of Boston:

Dear Sir,—Replying to the inclosed order of the City Council in relation to proposed library building in the East Boston district, I wish to advise you that I estimate the cost of site, building and equipment to be ninety-six thousand (96,000) dollars.

I have conferred with the Library Trustees in relation to the size of building desired and have concluded that approximately ten thousand (10,000) square feet will be necessary for a site.

The building should be two stories high above the basement, which would provide a lecture room, boiler room and storage room in the basement, a children's reading room and reference room on the street floor, a reading room for adults and stack-room on the second floor.

The items of this estimate are based on the following:

Cost of site, estimated.....	\$18,000 00
Cost of building, including architect's fee.....	73,000 00
Library furnishings.....	5,000 00
	<u>\$96,000 00</u>

Yours respectfully,

M. J. FISH,

Superintendent of Public Buildings.

Referred to the Committee on Libraries.

QUARTERS FOR FIREBOAT CREW.

The following was received:

City of Boston,
Office of the Mayor, September 11, 1911.
To the City Council:

I transmit herewith a communication from the Fire Commissioner, setting forth the need for providing permanent quarters for the fireboat crew at Northern avenue. For the yearly saving which would result from establishing these quarters at the Northern Avenue Bridge, and the fact that this location would undoubtedly promote the efficiency of the service, prompts me to recommend the passage of the accompanying loan order, appropriating thirty-five thousand dollars (\$35,000) to be devoted to this purpose.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Fire Department, September 1, 1911.
Hon. John F. Fitzgerald,
Mayor of Boston:

Sir,—I have the honor to request that the City Council appropriate thirty-five thousand dollars (\$35,000) for the erection of a pier and fireboat quarters at Northern avenue.

This department has three fireboats; one is located at the North End paving dock and services the northern end of the harbor; the second is located adjacent to the South Ferry on the East Boston side and services the central portion of the harbor; the third fireboat, Engine 44, has been located for some years in temporary quarters as the fireboat located on the East Boston side. Furthermore, the quarters occupied by the crew are almost uninhabitable. For these quarters and dockage the city has, for many years, paid an annual rental of four thousand (4,000) dollars.

By moving this station from Central Wharf to Northern Avenue Bridge there will be effected a better distribution of the boats. There will be a boat at the northern extremity of the harbor, one in the central portion, and another in the southern extremity. Furthermore, the pier and quarters can be erected at this more desirable location for a sum not exceeding thirty-five thousand (\$35,000) dollars, the interest on which constitutes about one-third the sum now paid in rental expenses. The change would effect a saving of more than \$2,000 a year, or the interest at market rates on \$65,000. Moreover, it will supply habitable quarters for the crew of the boat, a matter of no small concern when the inadequate provisions now maintained are considered.

This department has had plans for the dock prepared by the Ferry Division of the Public Works Department. An estimate of the cost of the installation of the dock has been made. The permission of the Harbor and Land Commission of the State of Massachusetts, as well as that of the War Department of the Federal Government, has been obtained.

Very respectfully,
CHARLES D. DALY,
Fire Commissioner.

Ordered, That the sum of thirty-five thousand dollars (\$35,000) be and hereby is appropriated, to be expended by the Fire Commissioner for the purpose of erecting a pier and fireboat quarters at Northern avenue; and that to meet said appropriation the City Treasurer be authorized to issue from time to time, with the approval of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

RELEASE OF EASEMENTS, DORCHESTER.

The following was received:

City of Boston,
Office of the Mayor, September 9, 1911.
To the City Council:

I transmit herewith a communication from the Commissioner of Public Works, and a notice from that official to your body, to the effect that the rights acquired by the city on April 22, 1890, to certain lands situated between Park street and Neponset avenue, Dorchester, for the purpose of continuing and extending the improved sewerage system of the City of Boston, are no longer required for public purposes.

I therefore recommend that the accompanying preambles and order abandoning the easements be adopted by your honorable body.

Yours very truly,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Works Department,
September 1, 1911.

To the Mayor:

Sir,—In accordance with chapter 25, section 50, of the Revised Laws of Massachusetts, I inclose herewith notice to the City Council that the rights and easements taken by the Board of Aldermen by an order passed April 21, 1890, and approved by the Mayor April 22, 1890, for the purpose of continuing and extending the improved sewerage system of the City of Boston in a portion of parcel No. 14, as shown on plan marked "City of Boston, Improved Sewerage, Dorchester Intercepting Sewer, Land Plan," dated April, 1892, signed by William Jackson, City Engineer, and deposited in the office of the Public Works Department, Sewer Service, marked "K-95, Sheet No. 5A," and now in my charge, are no longer required for public purposes.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

City of Boston,
Public Works Department,
September 1, 1911.

To the City Council:

The Commissioner of Public Works, now having charge of a parcel of land in that part of Boston formerly Dorchester, taken for the purpose of continuing and extending the improved sewerage system of the City of Boston, by an order passed by the Board of Aldermen April 21, 1890, and approved by the Mayor April 22, 1890, as shown on a plan marked "City of Boston, Improved Sewerage, Dorchester Intercepting Sewer, Land Plan," dated April, 1892, signed by William Jackson, City Engineer, and deposited in the office of the Public Works Department, Sewer Service, marked "K-95, Sheet No. 5A," hereby notifies your honorable body that, in his opinion, the rights and easements in the following portion of parcel No. 14 are no longer required for public purposes, and requests that you will authorize his Honor the Mayor, in the name and behalf of the City of Boston and in accordance with the provisions of chapter 25, section 50, of the Revised Laws of Massachusetts, to declare such rights and easements abandoned, said declaration of abandonment to be made for a nominal consideration, said parcel being described as follows:

Beginning at a point marked A in land now or formerly of S. Pinckney Holbrook and running southeasterly bounded easterly by land now or formerly of said Holbrook by a curve of 50 feet radius, 48.56 feet to a point marked B; thence running more southerly bounded easterly by land now or formerly of said Holbrook, by a straight line 137.04 feet to a point marked C; thence running more southerly bounded easterly by land now or formerly of said Holbrook, by a curve of 50 feet radius, 16.98 feet to a point marked D; thence running westerly bounded southerly by the end of Bertram street, about 21 feet to a point marked E; thence running northwesterly, bounded westerly by land now or formerly of said Holbrook by a curve of 30 feet radius, 5.7 feet to a point marked F; thence running northwesterly, bounded westerly by land now or formerly of said Holbrook, by a straight line 135.62 feet to a point marked G; thence running northerly, bounded westerly by a portion of parcel No. 14, taken for sewerage purposes by the City of Boston April 22, 1890, 43.68 feet to a point marked H; thence running northerly and westerly by a curve of 50 feet radius bounded westerly by a portion of parcel No. 14, taken by the City of Boston for sewerage purposes as aforesaid, 62.26 feet to the point of beginning.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

Whereas, The Board of Aldermen, by an order passed April 21, 1890, and approved by the Mayor April 22, 1890, took certain parcels of land in that part of Boston, formerly Dorchester, between Park street and Neponset avenue, for the purpose of continuing and extending the improved sewerage system of the said City of Boston; and

Whereas, The Commissioner of Public Works, now having charge of said parcels of land, has notified the City Council that a portion of one of these parcels of land and the easement therein is no longer required for public purposes, it is hereby

Ordered, That his Honor the Mayor be and he is hereby authorized in the name and behalf of the city and in accordance with the provisions of chapter 25, section 50, of the Revised Laws of Massachusetts, to declare the rights and easements so taken in the following described parcel of land to be abandoned, said declaration of abandonment to be made for a nominal consideration, namely, a parcel of land as shown on a plan marked "City of Boston, Improved Sewerage, Dorchester Intercepting Sewer, Land Plan," dated April, 1892, signed by William Jackson, City Engineer, and deposited in the office of the Public Works Department, Sewer Service, marked "K-95, Sheet No. 5A," bounded and described as follows:

Beginning at a point marked A in land now or formerly of S. Pinckney Holbrook and running southeasterly bounded easterly by land of said Holbrook by a curve of 50 feet radius, 48.56 feet to a point marked B; thence running more southerly bounded easterly by land now or formerly of said Holbrook, by a straight line 137.04 feet to a point marked C; thence running more southerly bounded easterly by land now or formerly of said

Holbrook, by a curve of 50 feet radius, 16.98 feet to a point marked D; thence running westerly bounded southerly by the end of Bertram street about 21 feet to a point marked E; thence running northwesterly bounded westerly by land now or formerly of said Holbrook, by a curve of 30 feet radius, 5.7 feet to a point marked F; thence running northwesterly bounded westerly by land now or formerly of said Holbrook, by a straight line 35.62 feet to a point marked G; thence running northerly bounded westerly by a portion of parcel No. 14 taken for sewerage purposes by the City of Boston April 22, 1890, 43.68 feet to a point marked H; thence running northerly and westerly by a curve of 50 feet radius bounded westerly by a portion of parcel No. 14 taken by the City of Boston for sewerage purposes as aforesaid, 62.26 feet to the point of beginning.

Referred to the Committee on Public Lands.

ACCEPTANCE OF SUBWAY ACT.

The following was received:

City of Boston,
Office of the Mayor, September 9, 1911.
To the City Council:

I transmit herewith a draft of order accepting the provisions of chapter 741 of the acts of the current year, entitled "An Act Relative to Electric Railway Transportation Facilities in the City of Boston and Its Vicinity." In my opinion this legislation is of the utmost importance to the City of Boston and as the City Council is compelled under the act to accept it fifteen days after the stockholders of the West End Street Railway Company have voted to sell its holdings to the Boston Elevated Railway Company, consideration of the matter should not be further postponed. The stockholders passed the necessary vote on the 6th instant and the time limitation for acceptance by your body is before the 22d instant. When this legislation becomes a finality the city will be assured of additional subway construction to the west and to the south of the city as well as to several of the railroad and business centers. There are many other features of importance to the citizens contained in this act, and I earnestly recommend the adoption of the accompanying order by your honorable body at the earliest possible date.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Whereas, The West End Street Railway Company at a meeting of the stockholders specially called for the purpose, to vote upon the question whether or not it shall sell its property, privileges and franchises to the Boston Elevated Railway Company, as provided in chapter 741 of the Acts of the year 1911, voted in favor of such sale, and the Boston Elevated Railway Company at a meeting of stockholders specially called for the purpose, to vote upon the question whether said company shall so purchase the property, privileges and franchises of the said West End Street Railway as provided in said chapter, voted in favor of such purchase, it is

Voted, That the City Council of the City of Boston hereby accept the provisions of chapter 741 of the Acts of the year 1911, entitled "An Act Relative to Electric Railway Transportation Facilities in the City of Boston and Its Vicinity," and that a certificate of his acceptance, approved by the Mayor, be filed in the office of the Secretary of the Commonwealth.

Referred to the Executive Committee.

LABORERS' RETIREMENT BOARD.

The following was received:

City of Boston,
Office of the Mayor, September 11, 1911.
To the City Council:

Chapter 413 of the acts of the Massachusetts Legislature for the current year, entitled "An Act Relative to a Retirement Fund for Laborers Employed by the City of Boston," provides for the establishment of a retirement board for laborers in the municipal service. Section 3 of this act stipulates that its provision shall become effective on the first day of March of the year following its acceptance by the City Council and as there are many studies to be made and a considerable amount of clerical work to be done, I believe it would be for the best interests of the service if the matter were considered by your body forthwith. I therefore append a draft of order accepting the provisions of the said act and recommend its adoption by your honorable body.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Section 1. There shall be a retirement board for the laborers employed by the City of Boston consisting of the mayor, the auditor and the treasurer of the city, who shall discharge the duties hereby imposed upon them without additional compensation.

Sec. 2. Any laborer employed by the City of Boston who has reached the age of sixty years and who has been in the service of the city for a period of not less than twenty-five years, and who is physically incapacitated, shall, at his request and with the approval of the retirement board above provided for, be retired from service, and shall

receive for the remainder of his life an annual pension equal to one-half of the compensation which he received during the last year of his service for the city. It shall be the duty of the said board so to retire any laborer in the service of the city who has reached the age of seventy years and has served the city for a period of not less than twenty-five years.

Sec. 3. This act shall take effect on the first day of March of the year following its acceptance by the City Council of the City of Boston.

Ordered, That chapter 413 of the Acts of the Massachusetts Legislature for 1911, entitled "An Act Relative to a Retirement Fund for Laborers Employed by the City of Boston," be, and hereby is, accepted by the City Council of Boston.

Referred to the Executive Committee.

BATH HOUSE, CHARLESTOWN.

The following was received:

City of Boston,
Office of the Mayor, September 9, 1911.
To the City Council:

In 1907 a loan appropriation of \$30,000 was made for Bath House, Charlestown, to be expended under the direction of the Bath Trustees. Within the past few months the question of bathing facilities in the Charlestown district has been given careful consideration. The officials of the city have concluded that it would be advisable to reconstruct the Ward 3 wardroom building for this purpose and to expend the appropriation referred to above therefor. This structure is in charge of the Superintendent of Public Buildings, and it would be advisable to empower this official to proceed with the work at once. I therefore recommend the passage of the accompanying order.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the Superintendent of Public Buildings be and hereby is authorized to expend the appropriation of thirty thousand dollars (\$30,000) for Bath House, Charlestown, approved July 26, 1907.

Referred to the Executive Committee.

COST OF MUNICIPAL BUILDING, WARD 7.

The following was received:

City of Boston,
Office of the Mayor, September 9, 1911.
To the City Council:

I transmit herewith a communication from the Superintendent of Public Buildings, containing a reply to your order requesting an estimate of the cost of the proposed municipal building in Ward 7.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Buildings Department,
September 1, 1911.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—Replying to the inclosed order of the City Council in relation to cost of proposed municipal building in Ward 7, I wish to advise you that I estimate the said cost to be ninety thousand (90,000) dollars, the same to include site, building and equipment.

The site should contain about 7,500 square feet of land, the building to cover the whole of same with the exception of a proper set back from the sidewalk line. Building to be two stories high above the basement. Basement to contain shower baths, swimming pool and steam plant. The first floor might be used for library purposes and the second or top floor as a gymnasium or as an assembly hall as occasion required.

The items of this estimate are based on the following:

Cost of site.....	\$30,000 00
Cost of building.....	55,000 00
Seats for assembly hall.....	550 00
Gymnasium apparatus.....	1,450 00
Library furnishings.....	3,000 00
	<u>\$90,000 00</u>

Yours respectfully,

M. J. Fish,
Superintendent of Public Buildings.
Referred to the Committee on Finance.

OLD COURT HOUSE PORTICO.

The following was received:

City of Boston,
Office of the Mayor, September 11, 1911.
To the City Council:

I recommend the passage of the accompanying draft of order, transferring the sum of \$5,000 from the appropriation for Reserve Fund to a special appropriation for Old Court House Portico, Removing and Preserving. The special commission appointed for the purpose of considering a suitable site upon which to place this portico are now giving the matter careful attention and they

will be prepared to submit a final report within a short time. The proper removal and preservation of the portico must be taken in hand immediately and it is therefore necessary to provide funds with which to carry out this work.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the City Auditor be and hereby is authorized to transfer the sum of five thousand dollars (\$5,000) from the appropriation for Reserve Fund to an appropriation for Old Court House Portico, Removing and Preserving, to be expended by the Superintendent of Public Buildings.

Referred to the Executive Committee.

ARLINGTON STREET EXTENSION.

The following was received:

City of Boston,
Office of the Mayor, September 11, 1911.
To the City Council:

I submit herewith a report made to me by Mr. John C. Kiley, real estate expert attached to this office, relating to the proposed Arlington street extension, from Beacon street to the Charles River Embankment. According to Mr. Kiley's figures, if the city is to undertake this improvement alone it will cost \$365,000. If the city should take 95 and 96 Beacon street and hold these properties for the future extension of Arlington street by the Metropolitan Park Commissioners, it will be necessary to appropriate but \$207,000 at the present time, which amount would be paid back to the city treasury in the event of the improvement being made by the Metropolitan Park Commission.

Up to date the Metropolitan Park Commission has expended some eighteen millions of dollars in improvements, and, although Boston has been assessed for the major portion of the initial expenditures, and for the larger part of the maintenance charges, the city itself has received but very little direct benefit therefrom. This commission has control of over 10,295 acres in metropolitan park reservations and parkways, only 525.75 acres of which are within the limits of the City of Boston—some 5 per cent. Of the 31.6 miles of roadways under its control only one and one-half miles are within our limits. These figures indicate the inequitable character of its holdings and should be a strong argument to use before the Legislature of 1912 for the purpose of obtaining the necessary legislation authorizing the Metropolitan Park Commission to bear the expense of the Arlington street improvement.

It seems to me, therefore, in view of the fact that the city now has the opportunity, with the expenditure of about one-half the total cost of the improvement, to provide for this extension, that it would be wise to appropriate the desired amount.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Office of the Mayor,
Real Estate Appraiser,
September 11, 1911.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—Pursuant to your request I have studied the cost of the proposed Arlington street extension from Beacon street to the Charles River Embankment, and can make the following report:

Together with Mr. O'Callaghan, secretary to the Street Commissioners, I have estimated that the necessary real estate to make this extension would cost..... \$305,000 00

There would be special damages as follows:

No. 95 Beacon street, to pay for material and labor to date, depreciation of material ordered but not to be used on account of cancellation of contract; contractor's profit and architect's fees..... \$35,000 00

No. 96 Beacon street, to pay for material and labor to date, depreciation of material ordered but not to be used on account of cancellation of contract; contractor's profit and architect's fees..... 25,000 00

Total..... \$365,000 00

To take Nos. 95 and 96 Beacon street (on which premises the old buildings have been removed and new ones are being erected), and hold them for the future extension of Arlington street by the city or by the Metropolitan Park Commission, it would cost as follows:

No. 95 Beacon street, and rear lot on Back street and the Charles River Embankment controlled by the same owner.
Cost of real estate..... \$80,000 00
Special damages, as above..... 35,000 00
No. 96 Beacon street, cost of real estate..... 67,000 00
Special damages..... 25,000 00
\$207,000 00

In connection with the latter proposition I think it well to refer to the report of the Joint Board on

Metropolitan Improvements Commission, 1911, in which they mention that the cost of the Arlington street extension should fall logically within the lines of metropolitan work.

The following is quoted from their report: "The first suggestion is the obvious one of a better approach to the driveway along the easterly side of the embankment and the basin. That driveway, forming a junction with Charles street and Cambridge Bridge at its northerly end, extends to Back street, which is the street in the rear of the row of houses fronting on Beacon street, and there connects on a curve with Otter street. Otter street is a narrow way, only the length of a single house lot, which opens into Beacon street at a point a few houses west of Arlington street; it is inadequate, obscure and indirect as an approach to the driveway and connection with the principal streets of the city. It seems to the Joint Board that a better way ought to be provided in better alignment with the driveway and Arlington street to give direct and dignified approach, with views of the embankment and of the Common and Public Garden, not only from Beacon street and Boylston street, which are the finest radial highways of the city, but also from Commonwealth avenue, which is the only parkway from the center of the city to the Boston Park System and the metropolitan park system west and south of Boston. Such a connection would seem to find a precedent in park approaches provided for other parks and reservations of the metropolitan park system, and to fall logically within the lines of metropolitan work and expenditures already entered into."

Respectfully yours,

JOHN C. KILEY.
Referred to the Executive Committee.

WIDENING OF UNION PARK STREET.

The following was received:

City of Boston,
Office of the Mayor, September 11, 1911.
To the City Council:

I beg to recommend for passage the accompanying loan order for \$75,000, for the widening of Union Park street, between Washington street and Harrison avenue. Union Park street is an important highway extending from Tremont street to Harrison avenue and this portion between Washington street and Harrison avenue is narrow and congested. I have assurances from most of the abutting owners that they will pay any reasonable assessments to carry out this improvement.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the sum of \$75,000 be appropriated to be expended by the Board of Street Commissioners for the widening of Union Park street, between Washington street and Harrison avenue, and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

WIDENING OF NORFOLK STREET.

Coun. SMITH offered the following:

Resolved, That his Honor the Mayor be requested to recommend to the City Council an order transferring \$100,000 from the Reserve Fund to an appropriation for the widening of Norfolk street, Dorchester.

The resolution was referred by the President to the Executive Committee.

Coun. ATTRIDGE—Mr. President, I first desire to ask if it is in order for me to speak on this order that has been presented after you have made the reference?

President COLLINS—If no objection is made, the Chair will put the question on the passage of the resolution.

The resolution was adopted.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Thomas McDonough, for compensation for injuries caused by the falling of a limb of a tree at 594 East Eighth street.

COAL AND COKE LICENSES.

A list of coal and coke licenses, granted by the Secretary of the Commonwealth, was received. Placed on file.

NOTICES OF HEARINGS.

Notice was received from the Harbor and Land Commissioners of hearing on September 26, on petition of Metropolitan Park Commissioner, for license to construct a storage house in Charles river.

Notice was received from the Railroad Commissioners of hearing on petition of Boston Ele-

vated Railway Company on September 5 for approval of proposed changes in station at Dover street.

Notice was received from the Railroad Commissioners of hearing on petition of the Boston Elevated Railway Company on September 5 for approval of proposed changes at Dudley Street Station.

Notice was received from the Railroad Commissioners of hearing on petition of West End Street Railway Company on September 5 for approval of 353d, 354th, 355th and 356th locations. Placed on file.

APPROVAL OF PLANS, ETC.

Notice was received from the Railroad Commissioners of approval on petition of Boston Elevated Railway Company of plans 35407-8-9-10, showing proposed construction of electric railway on Cambridge Bridge.

Notice was received from the Railroad Commissioners on petition of Boston Elevated Railway Company of approval of proposed changes on elevated structure at Sullivan square.

ORDERS OF LOCATION.

Copies of orders were received from the Street Commissioners granting the West End Street Railway Company alterations of locations, viz.:

Talbot avenue, 357th location; Berkeley street, 358th location; Washington street and Broadway, 359th location; Washington street and Columbus avenue, 360th location; Main street, Charlestown, at Beacham street, 361st location; East First street, 362d location; Bowdoin square and Geneva avenue, 363d location. Placed on file, and ordered printed.

APPOINTMENT OF ART COMMISSIONER.

Notice was received of the appointment of John Templeman Coolidge, Jr., as Art Commissioner, certified copy of the same having been filed with the Civil Service Commission August 23, 1911.

Notice was received from the Civil Service Commissioners of the approval of the appointment of John Templeman Coolidge, Jr., as Art Commissioner. Placed on file.

AMENDMENT TO TRAFFIC REGULATION.

Notice was received from the Street Commissioners that Article 8 of the Rules and Regulations for street traffic was amended by adding thereto as a one-way thoroughfare Court square, southerly, from Court street, entering on the westerly side, leaving on the easterly side.

Placed on file.

BOND OF ANDREW M. CUSACK.

A bond was received by the City Clerk from the Metropolitan Water and Sewerage Board, under the provisions of chapter 339 of the Acts of 1897, said bond being one of indemnity from Andrew M. Cusack.

Placed on file.

CONSTABLES' BONDS.

The City Treasurer, having duly approved of the same, submitted the constables' bonds of Morris F. Lewenberg and Fred G. Trask.

Placed on file.

KEEPING OF GASOLENE.

Notice was received from Clayton and Craig, 15-17 Harcourt street, Ward 10, of the keeping of gasoline on said premises, and of intention to use said premises for said purpose for the ensuing year.

Placed on file.

PRICE OF MILK.

The following was received:

Commonwealth of Massachusetts,
District Attorney Suffolk District,
Boston, August 22, 1911.

To the City Council,

City of Boston, Mass.:

In accordance with the order of the City Council, dated July 17, 1911, requesting me "to investigate the increase in the price of milk to consumers in Boston and vicinity, with a view to determine if a combination exists among the milk contractors organized for the purpose of wringing unwarranted and extortionate prices from the consumers in violation of law," I have caused such an investigation to be made.

In common with many, I felt that the milk producers would not be found to be responsible for the increased price, and yet, in view of the tremendous importance of the question to the people, I felt justified in sending special agents to the producers in this state, Vermont and New York.

I have also had the testimony of all persons from whom it seemed possible to obtain evidence, including the milk contractors and others, but I have been unable to secure any evidence of combination among the milk producers, or milk contractors, to increase the price of milk, nor any evidence that the recent increase in the price of milk to consumers in Boston and vicinity is the result of the criminal act of any person or persons.

JOSEPH C. PELLETIER, District Attorney.

Placed on file.

MINORS' LICENSES.

President COLLINS submitted reports on petitions recommending that minors' licenses be granted to thirty-eight newsboys, three boot-blacks and two vendors.

Reports severally accepted; licenses granted on the usual conditions.

PERAMBULATION OF BOUNDARY LINES.

President COLLINS offered an order—That two members of this Council, together with the City Clerk and Commissioner of Public Works, or their duly authorized substitutes, be and they hereby are appointed, in behalf of the City Council, to perambulate the boundary lines and to examine the bound marks between Boston and the adjacent cities and towns of Revere, Everett, Somerville, Newton, Brookline, Dedham and Hyde Park, to report descriptions of the same for record, and to cause bound marks to be erected or renewed wherever necessary; the expense incurred under the authority of this order, if any, to be charged to the appropriation for City Council, Incidental Expenses. Passed.

SIDEWALK, ST. WILLIAM'S CHURCH.

President COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Dorchester avenue in front of St. William's Church, Ward 16, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, under the provisions of chapter 437 of the Acts of 1893.

Passed.

SEWERAGE WORKS, CHARLES RIVER BASIN.

Coun. KENNY offered an order—That, in addition to the three hundred and ninety-five thousand dollars (\$395,000) heretofore appropriated, the sum of five thousand dollars be appropriated for the construction of sewerage works within the water shed of the Charles River Basin, under the provisions of chapter 485 of the Acts of 1907 and chapter 612 of the Acts of 1911, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to said amount for said purpose.

Coun. KENNY—Mr. President, I am going to ask that that order take its passage now. In contemplation of the passage of the act itself the Council, upon the recommendation of the Mayor, passed a loan order of \$395,000. The act itself, however, provides for \$400,000, and in order to make it conform with the legislation this year, I offer that order at this time and ask that it go upon its passage.

The order was given its first reading and passage, yeas 8, nays 0.

USE OF SCHOOL HALLS.

Coun. McDONALD offered an order—That chapter 367 of the Acts of 1911, entitled "An Act Relative to the Use of School Halls for other than School Purposes," be and the same hereby is accepted.

Referred to the Executive Committee.

CLOSING OF STREETS, COLUMBUS DAY.

Coun. ATTRIDGE offered an order—That the Police Commissioner be hereby authorized to close to travel by vehicles, except fire, police, hospital and mail wagons, on Thursday, October 12, such streets as may be necessary for the formation and parade of the Columbus Day marchers on said day, and the City Messenger is hereby authorized to rope off such streets as the Police Commissioner may require, the expense to be charged to the appropriation for City Council, Incidental Expenses. Passed.

RETIREMENT OF LABORERS.

Coun. ATTRIDGE offered an order—That his Honor the Mayor be requested to furnish to the City Council information from the heads of departments concerning the operation of the provisions of chapter 413, Acts of 1911, entitled "An Act Relative to the Retirement Fund for Laborers Employed by the City of Boston," with the number of men in the various departments who are affected

by the provisions of said act, and any other information as may be pertinent to the question. The order was passed.

PAYMENT TO MRS. CHESWELL.

Coun. CURLEY offered an order—That chapter 288 of the Acts of 1911, entitled "An Act to Authorize the City of Boston to Pay a Sum of Money to the Widow of William T. Cheswell," be and the same hereby is accepted, and that, under the provisions of the aforesaid act, the sum of three thousand dollars be allowed and paid to Millie B. Cheswell, widow of William T. Cheswell, late a chief of the Fire Department, who died from injuries received while in the performance of his duties; said sum to be charged to the appropriation for Reserve Fund.

Referred to the Executive Committee.

APPOINTMENT OF FIRE COMMISSIONER.

Coun. CURLEY offered the following: Resolved, That his Honor the Mayor be requested to appoint a Fire Commissioner for the City of Boston who has a knowledge of the duties of his position, and who has had sufficient executive experience to render him competent to act with judgment and discretion in the discharge of his duties.

Coun. CURLEY—Mr. President, in connection with this resolution I desire to state, from my observation and from conversation with officers and men in the Fire Department, that there is a serious menace to the discipline and the good order of the Fire Department should the present incumbent of the office of Fire Commissioner be permitted to continue in that capacity. I feel that his extreme youthfulness, his lack of executive experience, the fact that he never held any responsible position previous to holding this extremely responsible one—

Coun. KENNY—Mr. President, I rise to a point of order, that the matter under discussion is not one with which this Council has a right to deal under the charter.

President COLLINS—The Chair rules that the order before the Council interferes with the executive and administrative function of the government, and therefore is contrary to the city charter. The Chair, therefore, rules the order out of order.

Coun. CURLEY—Mr. President, I presume, the Chair having made a ruling, that the only way in which I can present facts that are of vital importance to the City of Boston is by drafting an order along similar lines that will be acceptable and that will not be ruled out.

RECESS TAKEN.

The Council voted, at 4.38 o'clock p. m., on motion of Coun. BALLANTYNE, to take a recess subject to the call of the Chairman.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 6.30 o'clock p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions (severally referred to-day) for sidewalks, etc.—recommending the passage of orders that the Superintendent of Streets make sidewalks in front of the estates of the hereinafter named parties; said sidewalks to be made as specified, the owner to furnish the material, viz.:

Brick.

F. C. Smail, Ellery street side of 27-33 Boston street, Ward 16.

Brick With Granite Edgestone.

Florence J. McCarthy, 206-210 Paris street, Ward 2.

Susan M. Connors, 8 Danube street, Ward 16.

Gravel With Granite Edgestone.

St. William's Church, James J. McCarthy, trustee, Belfort and Auckland streets, Ward 20.

Artificial Stone With Granite Edgestone.

Mrs. E. H. Crosby, 749 Saratoga street, Ward 1. A. Isenberg, 49, 50 Allen street, Ward 8. Jacob Silberstein, 148 Merrimac street, and 54-56 Norman street, Ward 8.

A. R. Rosenthal, 22 Huntington avenue, Ward 10.

Francis C. Welch, 19 Brimmer street, Ward 11. South End Amusement Company, 1737 Washington street, Ward 12.

Norcross Brothers Company, East Concord street, Ward 12 (Memorial Hospital).

Samuel W. Johnson, 401-416 K street, Ward 14. William H. Hardy, 27 Edison green, Ward 16.

Frank E. Shedd, Waldeck street, side of 40 Melville avenue, Ward 20.

S. T. Golden, 12-14 Erie street, Ward 20.

C. H. Kraft, 111 Bowdoin street, Ward 20.

Nicholas Isaacson, 26 Spring Garden street, Ward 20.

F. L. Williams, 29-31 Bainbridge street, Ward 21.

I. Shapiro, 140-146 Harold street, Ward 21. Nathan Fritz, 17-19 Otisfield street, Ward 21. Simon Hurvitz, 50 60 Walnut park and 65 71 Westminster avenue, Ward 22.

J. W. O'Brien, 79 Perkins street, Ward 23. John McShane, 283-283A Neponset avenue, Ward 24.

Laban Pratt, 31-39 Taylor street, Ward 24. George W. Macauley, 574 Norfolk street, Ward 24.

E. M. McKay, 578 Norfolk street, Ward 24. Henry S. Clark, 1895 Dorchester avenue, Ward 24.

Norman Clark, 35 and 39 Torrey street, Ward 24. W. B. Rice, 4-8 Train street, Ward 24.

Michael McPherson, 115-129 Franklin street, Ward 25.

Bernard Steuer, Linden street, at Reedsdale street, Ward 25.

John J. Smith, 80-96 Sutherland road and 80-84 Lanark road, Ward 25.

(2) Reports on petitions (severally referred to-day) for licenses to sell, rent or lease firearms—that licenses be granted, viz.:

Harry S. Levitan, 149 Dorchester avenue, Ward 13.

Myer Glodt, 2061 Washington street, Ward 18. Glodt & Sisonsky, 1267 Tremont street, Ward 18.

Reports severally accepted; licenses granted on the usual conditions.

(3) Reports on messages of Mayor and orders (referred July 7), concerning charging of pensions to Reserve Fund—that no further action is necessary, viz.:

Benjamin F. Drown, to receive a pension. James M. Page, to receive a pension.

Reports accepted.

(4) Report on message of Mayor (referred to-day), and report of James Donald, naval architect, relative to the steamer "Vigilant," recommending reference to the Finance Commission for recommendation and report.

Report accepted; said recommendation adopted.

(5) Report on order (referred to-day) to pay a sum of money to the widow of William T. Cheswell, in accordance with chapter 288 of the Acts of 1911—that the same be assigned for one week.

Report accepted; order assigned for one week.

(6) Report on message of Mayor and preambles (referred to-day) relative to electric railway transportation facilities in the City of Boston and its vicinity—that the same be assigned to the meeting of the City Council on September 18.

Report accepted; message and preamble so assigned.

(7) Report on message of Mayor and order (referred to-day) that the Superintendent of Buildings be authorized to expend the appropriation of \$30,000, approved July 26, 1907, for Bath House, Charlestown—that the order ought to pass.

The report was accepted, and the question came on the passage of the order.

The order was passed, yeas 7, nay 1, Coun. SMITH voting nay.

CONFIRMATION OF APPOINTMENTS.

President COLLINS called up Nos. 2 and 3, unfinished business, viz.:

2. Action on appointments submitted by the Mayor, August 22, of Fred G. Trask and Robert H. Walsh to be Constables for the term ending April 30, 1912.

3. Action on appointments submitted by the Mayor, August 22, viz.: Charles H. Gelpke, to be a Gauger of Liquid Measures; Walter N. Fogarty and Francis C. Powell, to be Weighers of Coal; Henry H. Walters, Fred Kitson, William A. Podolski, William H. Drake and William L. Woods to be Weighers of Coal, Measurers of Wood and Bark, Measurers of Grain, Weighers of Boilers and Heavy Machinery and Weighers of Beef; all for the term ending April 30, 1912.

The question came on confirmation. Committee, Coun. Curley and Ballantyne. Whole number of ballots cast 8, yeas 8, and the several appointments were confirmed.

PLAYGROUND ACCOMMODATIONS, WARD 19.

President COLLINS called up No. 4, unfinished business, viz.:

4. Ordered, That under the provisions of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the sum of sixty thousand dollars from the appropriation for Playground, Parker Hill, to an appropriation for Playground Accommodations, Ward 19.

On August 22 the foregoing order was read once and passed, yeas 6, nays 0.

The question came on the final reading and passage of the order.

The order was given its final reading and passage, yeas 7, nay 1, Coun. SMITH voting nay.

Coun. BALLANTYNE in the chair.

HIGHWAY APPROPRIATION.

Chairman BALLANTYNE called up No. 5, unfinished business, viz.:

5. Ordered, That under the provisions of chap-

ter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the sum of one hundred seventy-five thousand dollars (\$175,000) from the appropriation for Reserve Fund to the appropriation for Highways, Making of.

On August 22 the foregoing order was read once and passed, yeas 6, nays 0.

The question came on the final reading and passage of the order.

Coun. CURLEY moved that the order be laid on the table. The motion was declared carried.

Coun. COLLINS doubted the vote and asked for the yeas and nays.

The motion to lay on the table was lost, yeas 4, nays 4.

Yeas—Coun. Buckley, Curley, McDonald, Smith—4.

Nays—Coun. Attridge, Ballantyne, Collins, Kenny—4.

Coun. CURLEY—Mr. President, I move a reconsideration of the vote just taken, hoping that the same will prevail, and if that motion is carried I shall move that further consideration of the matter be assigned for two weeks.

Chairman BALLANTYNE—The question is on reconsideration.

Reconsideration on the motion to lay on the table was declared lost. Coun. CURLEY doubted the vote and asked for yeas and nays.

Reconsideration was lost, yeas 3, nays 5.

Yeas—Coun. Buckley, Curley, Smith—3.

Nays—Coun. Attridge, Ballantyne, Collins, Kenny, McDonald—5.

The question came on the passage of the order.

Coun. SMITH—Mr. President, I would like to move an amendment to the order—that the matter be referred to the Law Department for its opinion as to whether Otter and Beaver streets, which the city owns in fee, can be sold by the city, the price to be offset against the price of extending Arlington street.

Coun. SMITH's motion to refer to the Law Department, with a request to make a report on the legal question in regard to Otter and Beaver streets, was declared lost. Coun. SMITH doubted the vote and asked for the yeas and nays. The motion was lost, yeas 3, nays 5.

Yeas—Coun. Buckley, Curley, Smith—3.

Nays—Coun. Attridge, Ballantyne, Collins, Kenny, McDonald—5.

The question came on the passage of the order.

The order failed of passage, yeas 3, nays 5.

Yeas—Coun. Buckley, Curley, Smith—3.

Nays—Coun. Attridge, Ballantyne, Collins, Kenny, McDonald—5.

THE NEXT MEETING.

Coun. KENNY—Mr. President, I move that when we adjourn this evening it be to meet on Monday next at four o'clock. The meeting on Monday next will be a short one, and I think there can be no objection to that.

Coun. KENNY's motion was declared lost.

Coun. KENNY—Mr. President, I ask for a verification of the vote by roll call.

Coun. CURLEY—I rise to a point of order.

Chairman BALLANTYNE—The Chair will entertain no motion or point or order until the doubt has been solved.

Coun. KENNY's motion, that when the Board adjourns it be to meet on Monday, September 18, at four o'clock p. m., was declared lost, yeas 1, nays 7, Coun. Kenny voting yea.

ACCEPTANCE OF CHAPTER 738, ACTS OF 1911.

Coun. CURLEY offered the following: Whereas, The City Council upon August 22, 1911, passed an order accepting chapter 738 of the Acts of 1911;

And whereas, the City Council is of the opinion that the acceptance of this act was just and meritorious;

Be it resolved, That in the opinion of the City Council the Fire Commissioner should approve the same.

The resolution was indefinitely postponed, yeas 5, nays 3.

Yeas—Coun. Ballantyne, Collins, Kenny, Smith, Attridge—5.

Nays—Coun. Buckley, Curley, McDonald—3.

NORFOLK STREET WIDENING.

President COLLINS offered an order—That his Honor the Mayor be requested to consider the advisability of at once recommending to the City Council an order for the transfer of \$150,000 from the Reserve Fund to an appropriation for the widening of Norfolk street, Dorchester.

The order was passed.

FANEUIL STREET WIDENING.

President COLLINS offered an order—That his Honor the Mayor be requested to recommend to the City Council a transfer from the Reserve Fund of a sum of \$50,000, said amount to be used for the widening of Faneuil street, Ward 25.

The order was passed.

LAYING OUT OF HOLIDAY STREET.

Coun. ATTRIDGE offered an order—That the Board of Street Commissioners be requested to lay out and maintain as a public way Holiday street, from Geneva avenue to Bowdoin street, Dorchester. Passed.

BAND CONCERT, WARD 9.

Coun. ATTRIDGE offered an order—That the Music Commission be requested to furnish a band concert at Harrison avenue and Gloucester place on the evening of October 11. Passed.

ACCEPTANCE OF RETIREMENT ACT.

Coun. CURLEY offered an order—That chapter 413 of the Massachusetts Legislature for 1911, entitled "An Act Relative to a Retirement Fund for Laborers employed by the City of Boston," be, and hereby is, accepted by the City Council of Boston.

Coun. KENNY—I move, Mr. President, that this resolution be assigned to two weeks from to-day.

The motion to assign for two weeks was carried by a rising vote, four to two. Coun. CURLEY doubted the vote and asked for the yeas and nays. The matter was assigned for two weeks, yeas 5, nays 2.

Yeas—Coun. Attridge, Ballantyne, Collins, Kenney, Smith—5.

Nays—Coun. Buckley, Curley—2.

GENERAL RECONSIDERATION.

On motion of Coun. BALLANTYNE the Council refused a general reconsideration of all action taken to-day.

Adjourned, on motion of Coun. BALLANTYNE, at 8.15 p. m., to meet on Monday, September 18, at 3 p. m.

THE GROWTH OF CITIES.

The growth of cities which is such a significant feature of our last census is duplicated by what has been going on in Great Britain. A preliminary report of the census of April 2, 1911, gives England 34,043,076 people; Wales, 2,032,193, Scotland, 4,759,445, and Ireland, 4,381,951, a total of 45,216,665. Ireland is the only part of the United Kingdom which has shown an actual decrease in population in the last decade, but the amount, 1.7 per cent, is less than in any decade since 1851. The census of 1901 gave 77 per cent of the population of England and Wales as urban this year's count gives 78.1 per cent. The suburban development about London has been extraordinary; Southgate has increased its population 124.2 per cent in ten years, South Norwood 99.4, Ilford 89.6, Ealing 85.4, Finchley 78.2, Surrey rural parishes 75.1, Hendon 72.9 and Barnes 70.5 per cent, are the most conspicuous examples. Three of the boroughs of the county of London have increased more than 10 per cent and six have decreased more than 10 per cent. Shortly after the appearance in this journal of a recent editorial on the growth of American cities, the English railroad and steamship strike brought home very forcefully to Americans in that country the importance and intricacy of the multifarious classes of work on which mere existence in a great city depends. The story of how any large place is fed, watered and kept clean is largely the story of engineering achievement; it should not be forgotten that if the relations of many agents are once seriously disturbed, this will render useless the facilities afforded by engineers and produce appalling conditions if continued more than a very few weeks.—*Eng. Record.*

OPEN-AIR SCHOOLS.

Three years ago there were only three cities in the United States which had open-air schools. The number of cities has since increased to fifteen or sixteen and the number of schools to twenty-seven.

DELINQUENT TAX SALES.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public are hereby notified that the taxes and assessments thereon severally assessed for the years 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908 and 1909, according to the lists committed to me as City Collector of taxes and assessments of said City of Boston, including the assessments for the suppression of gypsy and brown-tail moths, levied under the provisions of chapter 381, Acts of 1905, and chapter 268, Acts of 1906, remain unpaid, and that the smallest undivided part of each of said estates sufficient to satisfy said taxes and assessments, with interest and all legal costs and charges, or the whole of each of said estates, if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Tuesday, September 26, A. D. 1911, at 9.30 o'clock a. m., for the payment of said taxes and assessments, with interest, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several estates show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said estates is to be sold, but not including the costs and interest thereon and costs and charges incident to this sale.

WARD ONE.

William Adams—Buildings and about 2,322 feet of land, numbered 65 Lexington street, tax for 1909.....	\$87 45
Sarah E. Albee—Buildings and about 1,875 feet of land, numbered 109 Trenton street, tax for 1909.....	57 75
Charles I. Albee—Buildings and about 3,078 feet of land on the southerly side of Nay street being the north-westerly part of lot B, H. S. Adams plan, November 4, 1904, recorded Suffolk Deeds, Book 3011, page 386, tax for 1909.....	34 65
Mary A. Austin—Buildings and about 2,000 feet of land, numbered 262 Bremen street, tax for 1909.....	9 90
Neal Beaton (Bk. 25, p. 9)—Buildings and about 4,602 feet of land, numbered 1124 Bennington street, and 241 Leyden street, apportionment of street construction assessment for 1909.....	21 97
Emma G. Chisholm—Buildings and about 6,775 feet of land, numbered 90, 92 and 94 Gladstone street, balance of tax for 1909.....	50 00
Susan T. Coffin (Bk. 25, p. 29)—About 1,926 feet of land on the southeasterly side of Bennington street, adjoining an estate of Thomas H. Newby (numbered 681), apportionment of street construction assessment for 1909.....	16 61
Margaret Coffin (Bk. 25, p. 20)—About 8 feet of land on the northerly side of Bennington street, between an estate of Florence J. McCarthy and an estate of Michael McDonald Heirs and another, apportionment of street construction assessment for 1909.....	43
Louis Costa (Bk. 24, p. 16)—About 2,464 feet of land on the westerly side of Neptune road, making the northwesterly corner of Shrimpton street adjoining another estate of said Costa, apportionment of sewer assessment for 1909, (Bk. 24, p. 16) Also about 3,015 feet of land on the westerly side of Neptune road between an estate of East Boston Company and another estate of said Costa, apportionment of sewer assessment for 1909.....	10 57
